## 2 Silent Days For Volunteers

The Hicksville Fire Dept. had two days of rest during the week ending Jan. 19. There were no alarms on Jan. 13 and Jan. 15.

On Jan. 14, they received a call to administer first aid to a child at 11 Marvin Ave., who had fallen down the stairs, but on arrival found that the police had already taken the child to Meadowbrook Hospital, East Meadow, for examination. Later that day the firemen called to extinguish an oil burner fire at the home of William Guenther, 11 Fox St.

The next was on Jan. 16, when the pumps were summoned to wash gasoline off the roadway at Newbridge and Old Country Rds., following an auto accident. They also took Mike Kravak, 48, of 153 W. Mine St., to Meadowbrook Hospital in the ambulance.

A call for the ambulance was made by Dr. Hecht on Sunday, Jan. 17, to take Mrs. George Blackley of 32 Grand Ave. to the hospital, but she was dead upon arrival.

There was an oil burner fire in the Charles Heise residence, 21 Appleton Ln., on Jan. 18, and John Fox, 48, of 229 Bishers Ln., was taken to Meadowbrook Hospital by the fire department ambulance.

# 10 Seeking to Void Nov 19 Referendum On School Facilities

Ten Hicksville taxpayers thru their attorney, Harry S. Goebel, have commenced action in Supreme Court of Nassau County to have the Nov. 19 referendum on a two-million dollar school construction and expansion program declared "illegal and contrary to law." Goebel, former attorney for the School District, served a summons upon the District, Tuesday morning.

The action is brought on behalf of Emil J. Szendy, former president of the School Board, Olga Szendy, Lawrence A. Bonim, Frances Bonim, John Ryan, Gertrude Ryan, George J. Conla, Eleanor Conla, Herbert Karp and Diana Karp.

A school district official saw an immediate effect of this action, a delay in the carefully worked out timetable for the handling of anticipated student enrollments. The matter will receive formal consideration of the Board of Education at its next regular meeting on Jan. 29. In the meantime, however, all phases of the construction will probably be halted.

It has been planned to move the first group of temporary type classrooms to the Junior High in time for the opening of the fall term in September.

In some quarters it was feared the action would have the effect of putting hundreds of students on double sessions with the new term.

### BOND ISSUE QUESTION

The major issue Goebel seeks to raise for his clients is to question the legality of a bond issue for the cost of moving and re-locating the temporary type classrooms, which was two of the six questions approved by the voters on Nov. 19, in a single "yes" or "no" vote.

Both Szendy and Goebel in a circular distributed in the community prior to the Nov. 19 referendum had publicly gone on record opposed to the question being submitted and urged a "no" vote.

Other issues approved by the voters on Nov. 19, included a \$802,250 elementary school on the Willet Ave. Site, purchase of property adjacent to the Senior High School, construction of a 10-room addition to the senior high, construction of an addition to the East St. School.

### ILLEGALLY JOINED

The plaintiff charge that the issues involved in a single vote were "illegally joined," that "the effect of the imposition of the costs for financing the expense of moving the classrooms."

National Bank. The meeting is called for 9:30 a.m. with coffee and danish served before the session at 9 a.m. The guest speaker will be Edward Brookfield of the public relations dept. of Cushman Engineering Aircraft Corp., Bethpage.

said temporary structures is to impose unjust, unwarranted and illegal costs and expenses upon the plaintiffs," that there was not a full and fair disclosure of the needs and requirements of the district.

Also that their need for additional accommodations was "grossly exaggerated," that the "available facilities of the District are adequate and sufficient," that the program was outlined as "the final stage of school expansion" but this was "false and fraudulent and in bad faith," and that the publication of legal notices in the newspaper "owned, edited and published by the District Clerk" are "illegal and void" and "that they constitute conflicts of interest of the members of the defendant Board of Education."

The plaintiffs claim that on Aug. 18, 1956 the voters at a referendum approved the expenditure of \$805,000 in addition to \$48,000 previously authorized for the construction of seven additions to seven district elementary schools for a total of 40 classrooms, plus another ten rooms authorized at a cost of \$180,000 and that when the voters approved the expenditures they were led to believe that "the same could be and would be moved from one school or schools to other schools within the said District, as and when needed."

And further, it is charged, bonds issued to pay for these temporaries are still outstanding.

The bond issue proposition was approved by the voters on Nov. 19, with 2,377 voting in favor and 1,839 opposed. There were 4,808 votes cast with 8,778 registered, an all-time high for the District.

#### Dear Jean:

As the story of the North Carolina airplane crash in which 34 persons lost their lives unfolds further, the miracle of chance which kept a Hicksville couple off the DC-48 is the more amazing. Mr. and Mrs. HERMAN KIMMEL, who own the Hicksville House Upholstery Shop at 106 Broadway were on the end of the line to board the jet which carried 76 passengers swiftly and safely to Miami. Their son, Edward, who lives at 17th St., Jericho, was at the airport for the plane's departure and urged his parents to hurry to get on the jet instead of the slower DC-48 which crashed near Bolivar, N.C. . . . Gov. ROGERBELLER is not inclined to hold a special election to fill the vacancy in the State Senate caused by the resignation of GENESTA STRONG. . . . JOHN LARKIN has been named chairman of the 1960 Hicksville Fire Dept. Labor Day Parade and Tournament. His co-chairman is ARTHUR EISENBERG.

Our deepest sympathy to GEORGE BLACHELY and family of Canal Ave., Hicksville on the death of his wife, earlier this week. We knew Mrs. Blachely for quite a few years and we will all miss her. . . . Our best wishes to Miss ROSEMARY FEE, daughter of Mr. and Mrs. Edward Fee of Port Jefferson, formerly of East St. Hicksville, who recently became engaged to Lt. FRANK SCARANGELLA, USA, son of Mr. and Mrs. Michael Scarangella of Hicksville. . . . Good to see BILL KUTNER of Field Ave. up and around again after a stay at Nautilus Hospital. Get well soon, Bill! . . . Also looking well after an accident and a long stay at Meadowbrook Hospital is our friend, Miss CLARA KELLER of Harding Ave. Visited her a few days ago and she was looking quite chipper. She looks forward to seeing her friends. . . . JOHN FROGGUE of Radio Station WYFI, Roosevelt Field, visited the HERALD on its 11th birthday and interviewed our editor on Monday afternoon via hopper-phone.

## Birchwood Flies to Paris

Your Civic Assoc. has come up with a project to end all projects—a Civic Assoc. sponsored flight to Paris this summer.

Instead of the normal round trip fare of \$585. per person, as filed by the International Aeronautics Convention, your Civic Assoc. is making arrangements to have Pan American Airways fly residents of our community who are also members of our Civic Assoc. to Paris and return in a special plane for the relatively nominal charge of \$255. per person (round trip)—a saving of \$330. per person. This will include hors d'oeuvres, meals and drinks aboard the plane, which is to be one of the newer DC-7's. Naturally, expenses while in Europe are each traveler's own obligation.

There are seats on the plane for only 40 couples. Accordingly, reservations will necessarily be taken only on a first come—first served basis. However, if the response continues to be tremendous—as presently appears to be the case from reservations put in by many of our res-

idents who have heard of the project—we may end up chartering two planes.

The proposed flight will take place either in June or July and the duration of the European visit will be either two weeks or three weeks—dependent upon the will of the majority of the interested residents.

Once the plane arrives in Paris the travelers are free to go their separate ways. The only condition will be that they must be back at the airport on a fixed date to catch the plane on its return trip to the United States.

This has all the earmarks of a wonderful vacation for many of our Birchwood residents and it may well be the forerunner of many similar trips abroad in years to come.

If any of our residents are interested, please call the writer of this article as soon as possible so that the reservation list can be completed.

Birchwood Flight to Paris Committee

## CIVIC PROFILE

BY GILBERT B. STEIN

ARNOLD KOPLAK

The house on 243 Birchwood Park Drive is a happy home to Arnold Koplak, wife Lillian (Liz) and good-looking Marc, aged 13, who is very much sought after by local females of appropriate and near-appropriate age.

Arnold and Lillian both were born, raised and educated in Brooklyn. They resided in a Flatbush home before coming to Birchwood. The Koplaks knew one another since they both went to Public School in Brooklyn. They also attended the same High School and College together.

Looking at the Koplaks now, one can not help but notice that here are two wonderful people who complement one another so perfectly that together they radiate warmth and good fellowship galore which surely must rub off on all those many neighbors and friends who know and like Arnold and Liz.

Arnold is a graduate of Franklin K. Lane High and he holds a BBA in Business Administration from CCNY. He has also taken post graduate courses in Psychology at NYU. He presently earns groceries by commuting to New York City via LIRR where he is the Manager of the Purchasing Department for New York's Giant Food of New York City Authority. He holds a tremendously responsible as well as interesting position. He purchases thousands of different items including medical supplies, uniforms, boats, plumbing supplies, diving equipment, trucks, cranes, booms and many many more of the innumerable items required by the Authority. He is an active member of the National Association of Purchasing Agents.

The Koplaks enjoy the theater and manage to fit in a fair number of plays. Arnold bowls, swims (in season) and plays soft ball. He likes to putter around the back yard and in fact boasts of having one of the finest lawns within well, shouting distance. His neighbors consider him such an expert in all things growing, that he has acquired a reputation as the Garden Consultant in his neck of our local jungle. His number one hobby is woodwork.

Without any machinery, he fashions beautiful furniture, he refinishes and restyles chairs, tables, mirrors etc. There is a real old antique crank-style telephone in Arnolds playroom and works, thanks to his own ingenuity. Liz is a real whiz in her own right. Before marriage she was a lingerie designer. She has made bedspread at 243 Birchwood Park Drive and her work is a symphony of original design, fine workmanship and unusually good taste.

Marc has acquired quite a reputation of his own in Birchwood. Our readers will remember him for his wonderful performance in last year's (Continued on Page 6)

## Know Your Escrow Payments

by RALPH DIAMOND

In the previous article I stated that your escrow payments to the bank were adequate if you lived in the Jericho section while they would be inadequate if you lived in the Syosset section of Birchwood. An analysis of the recent State, County and Town Tax for 1960 reveals that the tax in Jericho is 4.127 and in Syosset 4.039 (per \$100 of assessed valuation). Obviously, the Syosset State, County and Town Tax is still lower than the Jericho tax. The reason that Jericho tax is much less than it was in the previous year is due to the fact that the Jericho Fire District Tax has been considerably reduced.

A further analysis of the State, County and Town Tax shows that the tax rate in the Town of Oyster Bay has been reduced. However, the tax for the State and County has been increased, thereby offsetting any reduction resulting from the Town of Oyster Bay Tax.

The School Tax at the moment in both of the School Districts is an amount as computed by the mortgagee in its recent statement to each of our residents. Again I wish to emphasize that the School Tax runs from July 1, 1959 to June 30, 1960. Therefore, if the School Taxes are increased during this summer for the forthcoming year, we will, for the past six months of this year, be paying inadequate escrow payments to the bank.

The Civic Assoc. at the moment is preparing a complete breakdown of all taxes, for each of the School Districts. Mrs. Beverly Gelman is presently computing such statistics and will shortly mail the results to each member of the Civic Assoc.

## Food Outlook Bright for 1960

BY IRVING HERSHKOWITZ

The outlook for 1960, as regards the housewife's ability to feed her family with the same amount of dollars as in 1959—and in some cases possibly even less—appears bright for this year.

Despite the rising costs in the processing and marketing of food, lower farm prices are expected to offset this rise.

Meat, the largest item in the family food budget, which normally takes 25% of the consumer's food dollar, is expected to remain at the 1959 level of prices.

Corn fed beef, the meat that carries the label of prime and choice and represents only 20% of total beef production in this country, isn't expected to be higher in price this year. The other 80% of beef production, which represents grass fed cattle and bears the label of good, common and utility grades of meat, is due for a decline in price.

This stems from increased production of these lower grades of beef cattle.

Grain fed beef is the more finely-textured meat that has a marbled appearance and has a greater amount of fat. Its color is always a very deep pink. Grass fed cattle is lean, is not marbled and its color is a deep red—the lowest grades have a very dark red appearance.

Top grain fed beef rarely requires a long aging process for tenderness. Grass fed beef always requires a long aging process to acquire a softness—and more than 50% of the time even extreme aging won't accomplish its purpose.

Besides tenderness, there is a great difference in taste between the two types of cattle. While the lower grades can sometimes be as tender as the higher grades, there is no comparison between taste and flavor. Grain fed cattle is always more tasty and flavorful.

## Temple Men's Club Holds Election

At a meeting of Temple Or-Elohim Men's Club on Jan. 6th, after the resignation of temporary officers had been accepted, a large turnout of members of the club elected the following officers to serve until next September.

Isidore Weiner, president, OV 1-2334; Sam Davis, first vice president, WE 5-0609; Stan Rader, second vice president, WE 8-7165; Jerry Barnett, treasurer, OV 1-1220; Nat Zaslav, corresponding sec'y, WE 5-7761; Irwin Oppenheim, recording sec'y, OV 1-0857.

Members as well as non-members of Temple Or-Elohim are eligible to join the Men's Club.

Bay has been reduced. However, the tax for the State and County has been increased, thereby offsetting any reduction resulting from the Town of Oyster Bay Tax.

The School Tax at the moment in both of the School Districts is an amount as computed by the mortgagee in its recent statement to each of our residents. Again I wish to emphasize that the School Tax runs from July 1, 1959 to June 30, 1960. ## Discuss Syosset Budget on Jan. 25

BY HORACE BERNSTEIN

At the present time the Syosset School Board is preparing its tentative school budget for 1960-1961. It is their desire to recommend to the taxpayers proved, worthwhile improvements, with the realization that each such improvement will increase the tax rate.

Regardless of what new improvements they recommend, our taxes will go up because there will be more pupils to educate next year. The new buildings are not large enough to pay the cost of educating these additional children.

Because the Board feels that the decision to add improvements should be in the hands of our representatives, they are preparing a tentative budget in two columns:

1) The cost of continuing the present program.

2) The cost of each proposed improvement or enrichment of service. These proposals will be presented next Monday evening, Jan. 25, at the Syosset High School, and it is hoped that all interested taxpayers will make the effort to attend and participate in the discussion.

It might be interesting to note that, because of absenteeism from school, the district received \$192,532.00 less than they would have received if all pupils had 100% attendance. This, in terms of taxes, would have cut your school tax \$0.28 per \$100 of assessed valuation. Next time you permit your child to stay home from school, ask yourself "Is this absence from school necessary?"

## Urgent Need For Substitutes

Dr. Phillips, Superintendent of Syosset Schools, has requested we publicize the urgent need for additional substitute teaching help in the elementary schools.

Individuals holding New York State elementary school teaching licenses would render the school district a valuable service by making themselves available as substitute teachers on a per diem basis. Teachers holding a Bachelor's degree are paid \$23.00 a day; those having Master's degrees are paid \$25.00 a day. The need is IMMEDIATE.

Persons interested in further information are urged to call Walnut 1-5500 or write the Director of Personnel, Central School District No. 2, 7 Waters St., Syosset.

Arnold, a member of our Civic Assn. Board of Directors, is also a member of its Symset Education Committee and he does Yeoman work for its recently created publicity committee. He looks forward to the time when our Civic Association will face less emergency and routine problems and engage more in Social-Community Activities.

Yes, there is much warmth, humor and closeness at the Koplik home. They are the sort of family which makes good advertising for suburban living and if there is much a thing as osmosis in human relations, the Birchwoodites who live nearby must certainly be by now a happy and contented group of neighbors. Arnold is a talented capable and sensitive man; Liz just about the happiest, sparkliest and nicest of gals. Our advice to Marc is "stay single buddy, at least for a long long while, for surely you will agree that you've got yourself quite a deal."

## Science Group Meets Saturdays

A new item, "Adventure in Science," has been added to the growing list of Hicksville School District recreation activities. A group of about 28 junior high boys and girls gather each Saturday at one o'clock in a science room at Jr. High. Martin Cohen a district science teacher, is leading the activity, according to Joseph F. Madden, recreation director.

Many boys and girls have long pursued science as a hobby or leisure activity. Requests from them to use school laboratories under qualified leadership have been many. Conference with the Junior High Science Dept. confirmed these requests and new Hicksville Recreation activity was developed. After its second meeting on Saturday, Jan. 16 Mr. Cohen suggests expansion to the morning as well as the afternoon hours.

The recreation program has aimed at those activities that have mass appeal as well as those that have appeal to specialized groups or individuals. Such a specialized group that was initiated a little over a year ago was fencing. Today the fencing club is a feature in the program. In fact the Recreation Fencing Club meets the Stony Brook Prep Team in a dual match on Saturday, Jan. 23rd at 1:00 P. M. in the Hicksville Junior High Boys' Gym.

Boys and girls interested in these activities or any of the many others are invited to call the Hicksville Recreation Office at WE 5-9000 for further information.

## The Fire Horn

prepared by the publicity committee  
for the fire prevention bureau  
of the Hicksville Fire Department

This week, we continue our Fire Prevention tour of the average home, with the kitchen and bathroom.

National fire statistics indicate that 28% of all house fires begin in the kitchen. To this must be added the ever present danger of personal injury. Therefore with Fire Prevention we include Accident Prevention.

Appliances are a major source of trouble. Manufacturers go to great lengths, in cooperation with such organizations as Underwriters Laboratories, to produce trouble free units. Poor maintenance and careless handling are all too often responsible for breakdown and possible fire.

When purchasing new appliances, follow the manufacturer's instructions carefully. These instructions also apply to older equipment.

CLEAN AND OIL at frequent intervals. For this purpose, prepare a schedule.

In Levitt homes see that heating equipment is properly maintained. Don't allow dust to accumulate under the cover.

Don't overload, washing machines or dryers. See that lint filters are cleaned.

Exhaust fan motors should be lubricated and the unit kept free of grease. This also applies to range units.

Refrigerators should have sufficient space around them, to provide ventilation and should be defrosted regularly. This will help prevent long on cycles.

Unless necessary, it is not wise to form the habit of leaving appliances unattended while they are operating.

Some small radios use the chassis as part of the circuit. They should never be placed on a grounded surface, such as a sink, tub etc.

Common sense is the rule for multiple outlets, especially the new type that comes in strip form. Be careful of overloading.

In the bathroom use care in handling such items as electric heaters, radios, electric shavers, hair driers etc., concerned here are fire and shock hazards.

## Bethpage GOP Club Hears Judge

At the first meeting of the year of 1960 of the Theodore Roosevelt Republican Club of Bethpage, President William Ericsson outlined his program for the year. Featured speaker for the evening was District Court Judge Francis J. Donovan. Michael Marconi Chief of the Bethpage Fire Dept. spoke of the activities of the volunteers. He also stressed safety precautions in the home in order to prevent fire.

Cliff Daley, Republican Leader of Bethpage, addressed the club on participating in civic affairs as well as political with a goal towards always improving the community. A message was delivered by the president from Assemblyman Edwin F. Fahrenbach on activities in Albany that affect and are of interest to everyone.

## TEN YEARS AGO THIS WEEK IN THE HERALD: Koutensky Was Clearing House Head

William E. Koutensky, then cashier of the Long Island National Bank, was elected chairman of the Nassau County Clearing House Assoc. ten years ago this week, according to the bound files of the MID-ISLAND HERALD.

The Clearing House with a membership of 47, commercial banks elected Mr. Koutensky to succeed Augustus B. Weller of Merrick.

Other headlines in 1950 were these items: James Klinghoefer, a World War II veteran, was named Bethpage Postmaster to fill the vacancy caused by the retirement of Harry Stoiz.

With a favorable vote of the district, Hicksville Public Library was preparing to move from Nicholas St. School to its own permanent

home at Jerusalem Ave. and Second St. With 404 votes cast, there were 378 in favor and 130 opposed to the purchase of the home of Mr. and Mrs. Franklin Duerk under a \$40,000 proposition.

The State Public Works Dept. turned down the latest request of Hicksville Civic and Community Assoc. for installation of a traffic signal light at the corner of Lee Ave. and South Broadway. The State reported: "As a result of a survey made of traffic conditions, we find there is no necessity for installation of a signal at this location."

And that week Mrs. Elwood A. Curtis was re-elected president of Hicksville Branch of the Women's Auxiliary of Nassau Hospital.

## Try Another Day for Youths

By GEORGE J. NATHAN

Registration for new boys wishing to play in the International Little League was held on Saturday, Jan. 16, at the Senior High School. To say that we had a disappointing turnout would be the understatement of the year.

The League expected to register between 75 and 100 boys, mostly from the eight and nine year old group. As it turned out we had a total of 19 boys come in and a large part of the registrants were in the 10 to 12 year old group. We had one boy register from the Lee Ave. school section, none from the Nicholas St. school section and the balance from Trinity Lutheran School and East St. School. Since this registration was held mostly for the benefit of the 8 and 9 year old group, and since, as we understand it, the great preponderance of this age group attends the Nicholas St. school, obviously something went wrong in either the distribution of applications at this school or it was not made plain enough when the registration would be held. Investigation is now being made as to the reason for the small turnout and if it is found that either of the two

causes cited above were the reasons, a second registration will be held. On the other hand, if neither of the two reasons were the cause, we must conclude that there is no further interest on the part of the younger boys and the League will be operated with our present enrollment of approximately 225 boys. We will report on this situation at a later date.

The executive board met at President Phil Mazzola's home on Thursday, Jan. 14, with the expressed purpose of deciding how the League would function in regard to the number of teams in each division. The board decided, depending on the number of boys registering on Jan. 16, that the League would consist of 4 major division teams (we are chartered as a four team league), eight minor "A" division, four minor "B" division and six farm division teams. With the exception of the farm division, all the teams will be fully uniformed.

While the farm division, as in the past, will be furnished with caps and "T" shirts with the sponsors name printed on each shirt. The major division and minor "A" division will play fully in accordance with rules as set down by Little League headquarters at Williamsport, Pa., while the minor "B" division will restrict pitchers and catchers to three innings per game and will not permit runners to steal home. All other rules and regulations as played by the two higher division will be enforced. The farm division will have in force the same rules and regulations as in previous years with the exception that games will be played with the idea in mind that instruction in the mechanics and fundamentals of baseball will be paramount and the winning and losing of games secondary.

The Board also instructed the Treasurer of the League to set up a budget for 1960 which will be presented to the operating personnel at a meeting to be held in the near future. This is presenting a peculiar problem to the treasurer this year inasmuch as a good deal of equipment has not been turned in from last year and it is impossible to decide on how much money will be required for equipment until all of the old equipment has been turned in. We plead with anyone who still has any equipment to contact the president, so we can proceed with setting up the budget.

FLASH!! — Since writing the foregoing, we have discovered that applications were not distributed in the Nicholas St. School. Therefore, in order to

give the boys from that school an opportunity to play this year, a second registration will be held on Saturday, Jan. 23 at the Senior High School in cafeteria "A" between 9 AM and 12 noon.
