## Another 18 Months To Finish RR Plans

NEW YORK CITY--The urgency of Hicksville's RR grade crossing elimination was repeated and stressed at the recent public hearings before PSC Examiner Sanders Schwartz on a proposed change in the location of the LIRR freight yard.

A survey of the project is about half finished, it was learned during the hearing in answer to a question by Aaron Rochman, representing the Chamber of Commerce and this survey will be ready in about two months.

Thereafter, the working plans will be started and are expected to take another 18 months, according to testimony provided by E. J.

Ramer of the State Dept. of Public Works.

A joint statement was entered in the record for Assemblyman John J. Burns and State Senator William Hults which noted that previous forecasts relative to growth of the area and traffic increases have been "exceeded in all instances indicating a need (continued on page 12)

## Jericho Gets Radio Tribute

JERICHO -- Prominent residents of the community took part in a special hour-long radio salute by John E. Frogge to Jericho over station WKBT broadcast from the Milleridge Inn from 11 AM to 12 Noon, Saturday. Participants included civic assoc leaders, congregation presidents, Fire Chief Ralph Fielitz, Postmistress Halloran, Miss Marion Jackson who is a direct descendent of the founders of the community, Fred J. North, Herald editor and publisher; and Mr. and Mrs. Milton Burns, the first family to take up residence in Birchwood Park. Other participants included adult leaders of Little League and members of championship teams in the league, as well as Earle Jones, owner of the Milleridge Inn, who bought the property from Miss Jackson seven years ago.

NEW ROTARY OFFICIALS were installed by the Hicksville Club at the Milleridge Inn, Jericho, Thursday night. Left to right are John Hill, treasurer; William Mannillo, first vice president; William P. Pavoski, new president; Herbert Parick, past president; Aaron Rochman, secretary; and Dr. Samuel Elkind, second vice president. (Herald photo by Rotarian Frank Maffei)

MID ISLAND PLAZA on North Broadway with its vast 8,000 car parking space will be the scene this Labor Day of the 29th annual Tournament sponsored by Hicksville Fire Dept. It was disclosed today by Sanford Weiss, ex-chief and chairman the Firemen's Parade and Tournament which annually draws 20,000 spectators and thousands of volunteer firemen from all sections of Long Island. The racing course and grandstands will be erected on the north side of the

parking field to the extreme right in this Fairchild Aerial Survey photo. Parade route this year is tentatively scheduled to come directly up Broadway from Old Country Rd to the Plaza. The tourney in recent years had been held on Levittown Parkway. The Plaza is being made available by Leonard Frank and Walter Stockler, owners and builders of the huge regional shopping centre.

## State To Fill Historic Spring Pond

JERICHO -- The ancient Jericho Spring Pond, which dates back to the 17th century, may soon be filled in as part of the giant traffic interchange the State Dept. of Public Works plans for the corner of Jericho Tpke and Hicksville-Jericho Rd, it was learned this week. The pond, adjacent to the Milleridge Inn, belongs to the people of the Town of Oyster Bay.

For generations, long before modern water supply systems, the Jericho Pond served as a public supply of water. Travellers making the long, hard journey from Oyster Bay on the north shore to Hicksville and other points south passed at the Pond to quench the thirst of man and beast alike. It was not uncommon for water tank wagons to roll up the hillside from Hicksville to fill up with the natural spring water.

Oyster Bay Town officials admit that plans on file with the State Public Works Dept call for either partial or total filling in of the pond. Those Jericho residents who have studied the state plans say the pond is not directly in the route of the road improvement but its erasure is dictated by the fact that an overflow passes under the present highway to a swamp area to the west which is in the super-road's path.

Legend has it that the founder fathers of Jericho and the surrounding area, deeded the pond to the

Township "to provide the people of Hicksville with a source of water supply for all time". Town Clerk Henry M. Curran is searching the ancient town records, which go back more than three centuries, to discover the truth of this story if it exists. Youngsters of more recent generations, before the population influx and traffic increases of the past decade, made the Jericho Spring Pond their favorite haunt, seeking to catch gold fish with

bent-pin hooks and table during the summer, and ice skating in winter.

Close by the pond is the original home of Mary Washburn Willets, sister-in-law of Robert Williams who bought the present-day site of Hicksville, Jericho and vicinity from the Indians in 1648. The Willets house was built in 1676 and a portion of the original structure is now embraced in the present-day Milleridge Inn.

The ancient, spring-fed pond is scheduled to be filled in by the State as part of the road improvement on Hicksville-Jericho Rd. at the intersection with Jericho Tpke. (Picture taken in 1948)

## CURRENT COMMENT

# Time to Act On Recreation

By FRED J. NOETH

OUR COMMUNITY is rapidly reaching the point where less and less open area remains available for recreational facilities.

One of the last large open tracts is the Press Wireless property in the north west corner of the community. We have previously commented upon the desirability of seeking to set aside 50 or so acres of this property for a community park which could include, among other features, a swimming pool and a firemen's drill course, as well as enough baseball fields to satisfy the increasing demand for such facilities.

As we see it, such a park could include family picnic areas with shaded groves of trees and of course the usual variety of slides, swings and other devices for the small fry.

The annual Fourth of July tournament for firemen at Hempstead brings this sharply to attention. Elsewhere on this page is a picture of the permanent course and arch which Hempstead village has erected for its community use. The arch has a very practical purpose in that it is used for drills by the volunteers throughout the year.

The opening this week of the municipal pool in Garden City with about 9,000 adults and children on hand is also to the point. About a third of our community enjoys the use of swimming pools, which makes the absence of such an installation all the more obvious for the other two-thirds.

This need for community-wide recreational and park facilities has been the subject of some study by the Citizens Advisory Committee appointed last term by the School Board and we look forward to the eventual publication of the committee's report.

As we have stated before, the establishment of a park on the Press Wireless tract would also become an effective and practical buffer zone between the remainder of this land to the west and the residential area to the east. If you want some concept of the area involved, study the top of the picture on our front page. The Press Wireless installation with its forest of poles can be seen behind Mid Island Plaza to the west.

The largest portion of this property, covering about 170 acres, should if possible be channelled into light industrial use. The importance of industrial areas in carrying the share of our tax burden is so well established as not to require further comment.

As far as we can determine, the reported new purchasers of the Press Wireless property do not expect to get started on their plans for home building until the first of the new year. Now is the time to act and the leadership should logically come from our civic organizations.

GARDEN CITY this summer has its own community swimming pool and more than 9,000 adults and children were present for the opening day, as shown in this picture. Construction of a pool for the Hicksville Park and Parking District on

the north side of the community has frequently been mentioned by civic leaders but seldom gets serious attention until the hot weather arrives. Apas for an over-all recreational plan, including a pool, is outlined in Current Comment (at left) in this issue.

## HERALD READER OPINIONS..

### CD Leader Approves Siren Editorial

To the Editor:

I read your interesting editorial (June 26) on the installation of sirens in Hicksville and you have covered this matter very well and brought out correctly all the details of what is involved and why sirens are required.

Sirens adequately placed might be the difference between life and death to a great many of our people if they are not alerted in time of a pending attack.

We now have a new and fast method of alerting the entire County in approximately one minute known as NAWAS, or National Warning System, but if we are not able to transmit this information from our "Warning Point" to our people, then the system is of little value.

Nassau County, at considerable expense, installed what is known as the "Bell and Lights" System in November 1954 and by the turn of a dial approx-

imately 300 sirens in Nassau County are activated simultaneously, as well as Fire Departments, Schools, Hospitals, Industries etc.

When the "Bell and Lights" System was first installed, this County had only 24% siren coverage which was not good, but by cooperation of the many Fire Departments this coverage has now reached 55% and still growing. Much of the remaining 45% is made up of large estates where protected areas are involved and progress is naturally slow, but we are still trying to improve the situation. Sirens serve a double duty which is as it should be, because you know the cost of two systems would be prohibitive.

Thank you again for your fine editorial.

## Legionnaires' Log

CHARLES WAGNER, Post 421, Hicksville, N.Y.  
by Artie Ruiz

We are most happy to report that our Cotton N' Slacks Dance was a tremendously happy affair for all who attended and our hall was filled to absolute capacity and we are sorry for those who were turned away but we warned you early enough to make your reservations. Remember this when our next affair comes up--Bob Hawes! Sea Cliff aggregation of Korean Vets added to the wonderful mood of the evening and turned the dance into one gigantic party.

There was so many Legionnaires attending that I doubt if I can name more than a score or so but I'll try anyway--Commander Guy Smith, Past Commanders Walt Barnett, Bob Mangels, Bob Beard and Johnny Van Buren and Harry Stevenson of the Sea Cliff Post, Larry McCloskey, Al Barlow, George Johnston, Mike Palladino, Bob Hazel, Ed Hodgkinson, Gunner Barnett, Ernie Gundlach, Johnny

time--We had quite a few prospective members in attendance and we are happy to say that they saw the real happy Legion spirit in evidence everywhere throughout the evening--And such yacking that went on--Just proves how happy everyone was--In fact, at one point, it was impossible to hear the orchestra because it seemed that every tongue in the hall was wagging at the same time--

Second Vice Commander, Ed Hodgkinson, who was chairman of the dance, must be commended for the wonderful affair that spelled HICKSVILLE LEGION at its happiest--Don't forget to fill out the coupon in the July issue of The American Legion Magazine for the chance to win one of the four 1957 Fords given away at the National Convention at Atlantic City in September because besides maybe winning yourself a new car, the Post gets \$250 also--

At Independence Hall in Philadelphia, America's cherished Liberty Bell bears this inscription: "Proclaim liberty throughout the land unto all the inhabitants thereof."

This is exactly what the Liberty Bell and the immortal signers of the Declaration of Independence did 181 years ago. They proclaimed a new and revolutionary concept of government based upon individual liberty. And the inhabitants of the whole world did hear the pealing of the bell and they

were stirred by a vision of human dignity.

Since that fateful July 4, 1776, the thirteen colonies huddled on the shores of the Atlantic have grown into a great and powerful nation envied by the entire world. Just as those Colonies were the first to proclaim and establish a system of government founded upon individual freedom and

Hodgkinson--Past Commander Artie Bleich, Bob Sutton and John Flury and also Ray Carroll-- Sorry, but I guess I should have jotted down the names of everyone because I can only name 19 and I sure hate to miss mentioning anybody because everyone was having such a wonderful time and I would like everyone in town to know that they had such a good responsibility, so today the United States is the last great bastion of liberty within the shrinking boundaries of the free world.

In the troubled years since the close of World War II we have too often forgotten the injunction of the Liberty Bell. We have failed to understand that people must create their own freedom. Our attempts to buy democracy for foreign lands, and with it their friendship, through the expenditure of more than sixty billion dollars in give-aways, have been dismal failures.

The time has come to proclaim our own liberty anew. A nation secure in its own military and economic strength, irrevocably committed to the defense of its own freedoms, will not lack for friends and allies.

A solemn dedication to the founding principals of this great Republic on this Independence Day, 1957, can light the way to

A \$10,000 ARCH -- Above arch and training course will be the scene of the July 4th tournament which will be staged by the Hempstead Volunteer Fire Department, located on Weir Street, in the Village of Hempstead.

**CORNERSTONE AND DEDICATION** ceremonies for the Old Bethpage Elementary School on Round Swamp Road were held on June 22. Frederick Tilney (at right) of the Governmental Statistical Corp. was the principal speaker. Edwin J. Rowehl, President of the Board of Education, placed

## Fire Losses Go For New Record

National fire losses for 1957, if present rate of severity and frequency continues, will hit the billion-dollar mark for the first time in history.

And many an "insured" homeowner will be a heavy loser because he ignored the facts of economic life.

Armand A. Lowell, manager of Labuscher & Lynch Inc., 60 W. Marie St., Hicksville, made these observations today in citing the dangers of going along with insurance "believed" to be adequate.

"Not only has the value of the

\$10,000 house nearly doubled in 10 years, but the addition of modern conveniences such as television sets, home freezers and other household appliances has further increased the value of the typical home," Lowell said. "Other value increasing factors are the additions of air conditioners, clothes dryers, carpeting, refrigerators, and the usual procedure of the homeowner adding certain structural improvements to his building over the period of years, all of which increase the overall value," Lowell continued.

## Where To See Fireworks

**FREEPORT** - One of the few places where the public may see a fireworks show on the Fourth of July is the Municipal Stadium, here starting with a firemen's parade at 7:55 P.M. After firematic exhibitions, including two car fires extinguished by the volunteers, a colorful pyrotechnic display will close the evening. Attendance last year: 12,000.

Fireworks also conclude the Jones Beach Marine Theatre presentation nightly of "Show Boat".

## BIKE PILOTS

For real fun and exercise, bicycling's a hard sport to beat. But, it might be dangerous if you don't know and apply all of the safety rules.

Most bicycling accidents are due to just plain carelessness. Chief riding errors are:

1. Weaving in and out of traffic
2. Ignoring traffic signals
3. Carrying riders
4. Making wrong turns
5. Taking foolish chances

Smart pilots steer clear of accidents by obeying the "Rules of the Road."

cal reports will have to be signed by your personal physician. Umpling in the games has been of the highest calibre. In fact, as alluring has the position become, one George Shanley took a turn as an iming or so last week, and turned in a very creditable performance. However, at the end of the game a bowball was missing.

A. Allan Goldstein, chairman of the Civic Affairs Committee of the Glenbrook Civic Assoc., entered in the record by letter the comment: "we cannot stress too strongly the necessity for completing the project as soon as is humanly possible." He noted that current traffic jams at the crossings are becoming worse "and will continue to worsen as time passes...One of the direct results is the increasing strangulation of our business areas and the problem of moving emergency equipment."

Appearances were also made at the hearing by Michael J. Sullivan, town attorney; Henry McInnes, town councilman; Patrick J. Caputo, president of Chamber of Commerce, and other community leaders.

The North Bethpage Civic Assoc. Soft Ball Team is back in form. Last week they lost to the Mamaroneck Hill Team by a score of 8-7, and last Sunday the Parkview Circle Team beat the NBCA boys 14-8.

The NBCA Ball Jugglers in a mighty effort to achieve a 500 rating, are moving backward and now the record shows a 3 won and a 6 lost.

## Greco Holding First Position

Behind the pitching and hitting of F. Gross, the Greco Bros. team hold a grip on first place in the Bethpage Little League Nationals after finishing in the cellar in the first half.

The Cougars are sole tenants of that berth as of the moment who after winning 36 straight league games since 1955—not being defeated at all in 1956—an enviable record for any team in any league—were first tied by the Greco Bros. in the 7th game of the first half and lost their first 2 games. Their streak was broken by the Panthers 4 to 0. They have not been able to come up with any wins in the second half.

## Jets Win Third Straight

by ELWOOD S. KENT, SR.

HICKSVILLE—The Terrifiers threw a scare into the Jets in the St. Ignace CYO Senior Baseball League last week as they outplayed and outscored them for the first five innings. Then the Jets uncorked a three-run attack and the game was on the ice.

Harmon relieved Erbacher on the mound to stall the Terrifiers attack, and also helped the cause with two hits. Kolsch continued his hitting streak but lost the value of one hit as he was caught in a rundown between first and second.

For the Terrifiers, Gaylor slapped the Jets' pitchers as if he owned them, and Schiffmacher came through with a home run blast that scored two runs. Allen of the Terrifiers knocked down a potential double that came off the bat like a cannonball and got his man with a nice peg to first base.

### BIG ONE SATURDAY
