## Homeowners Urge Town to Appeal Court Decision on Radio Tower

Harry H. Goebel as attorney for 75 homeowners in the vicinity of North Broadway, Thorman, Wiloughby and Notre Dame Avenues in Hicksville this week submitted a petition of objecting property owners which urges the Town to appeal to a higher court and forbidding a radio station and 147-foot antenna in the heart of a residential area.

The Town Board, following a public hearing in January where vigorous opposition to the proposed FM radio station and tall mast was expressed by the neighborhood, rejected the application of John R. Rieger Jr. of Merrick for a special permit use at Broadway and Notre Dame Ave. Rieger took the matter to Nassau County Supreme Court where Justice Marcus G. Christ reverse the Town's decision.

Goebel's letter to Supervisor John J. Burns and the Town Board, enclosing the petition, stated "request is respectfully made that the Town Board take an appeal from any order which has been or which may be entered with respect to the decision of Mr. Justice Christ directing the issuance of the special use permit; and further that such petition aske the Town Board "to take all steps and proceedings necessary and proper to safeguard our rights and to protect the interest of our children and our property."

"You will also further note that the petition recites the willingness of the People of the area directly affected by the proposed erection of the antenna incident to the use of the radio broadcasting station to assist the Town Board and its counsel, in every way "including counsel expressly (retained) on our behalf."

## Sullivan And Corcoran New Attorneys for School Dist

The law firm of Sullivan and Corcoran has been engaged by the Board of Education as attorneys for Hicksville School District for the year starting July 1st, succeeding S. Arnold Witte.

Michael J. Sullivan, former Oyster Bay Town Attorney, previously served as attorney for Hicksville School District when he was associated with Charles R. Carroll. Robert Corcoran, Sullivan's partner, was a member of the Board of Education for less than a full term, resigning to become Attorney for the New York State Liquor Authority a few years ago.

The Board of Education at its meeting on Friday night, June 26, voted five-to-one to hire Sullivan and Corcoran. Trustee Arthur L. Efrich, whose term expired on June 30, left the meeting early and did not vote.

## Residents Attend Queen's Ball

MONTREAL, 25 June. - Dr. and Mrs. Lowell D. Glatt of 32 Salem Road, Hicksville, N.Y. were guests at Councilor Frank Hanley's Ball in Honour of H.R.H., Queen Elizabeth, and President Eisenhower. The Ball, attended by 10,000 guests, was held at the Marguerite Bourgeois' Park. The Queen and Prince Philip appeared at the Ball. The President was not due to arrive in Montreal until tomorrow, at which time he will join The Queen in the ceremonies opening the St. Lawrence Seaway.

Guest of honor was Harvey Klemmer of the U.S. consul general's staff at Montreal. Paul Beauregard's orchestra played the Star Spangled Banner in honor of the American guests and Mr. Klemmer danced with Mrs. Norman Hanley to the strains of "When Irish Eyes Are Smiling" to officially open the Ball. Dr. and Mrs. Glatt and their son, Bruce, arrived in Montreal from Lake George, N.Y. They expect to stay in Montreal to see the dedication ceremony for the opening of the St. Lawrence Seaway, and then return to Hicksville.

## DEAR JEAN...

Welcome home to MAURICE LANG of 18 Genesee St., Hicksville, who has spent the past month in England visiting relatives whom she hasn't seen in many years....

JOE BAKER, who hasn't been in Hicksville for five years during which interval he has been living on the West Coast, stopped in to see us last week while renewing friendships around town. JOE is the fellow who put up the trophy 13 years ago for the best school athlete. The trophy has been awarded annually ever since. He was a little disappointed because he could not make the presentation this year.... One of Hicksville's oldest houses at Bethpage Rd. and Woodbury Rd. has been acquired by the Green Crest Nurseries, formerly of Jericho. For many years the old house was occupied by the DARLINGS and in more recent years by the ARTHUR FERROS.

Glad to hear that JOHN CORRIGAN of Twinlawn Ave., Hicksville, is out of the hospital and, we hope, feeling much better. Friends and neighbors wish him a speedy recovery... Sorry to hear that our friend, Mrs. S. MAC NAMARA of Francis Lane, has lost her pet dog, Kimberly, hit by a car last week. It was on fault of the driver, but Mrs. Mac feels very bad. Maybe when she comes home from college for the week-end, Mom & Dad will feel a little more home from college for the fact that the class of 1939 of Hicksville High School will hold a reunion on Sept. 19th at the Bethpage Country Club. Graduates of the class who have not been contacted are requested to call Mrs. HELEN FROMMHOEFER of Twinlawn Ave. 15 on the stick list this week with the mumps. Poor little kid, we all feel sorry for her and all send our get well wishes... We understand the property between the Green Crest Nurseries and that of JOSEPH HEIM on Twinlawn has been sold and a nice little house returned home over the week-end after spending several days at the home of her son and family, Mr. and Mrs. John Bosch of East Quogue, L.I. While there, she attended the graduation of her granddaughter, Nancy, from Westhampton High School, where she won several honors. Miss Bosch will attend Fisher Junior College in Boston, Mass. to become a legal secretary. The Boschs are well known in Hicksville... Special birthday greetings today to FLORENCE FIANO, daughter of Marie Raimondo of East St., Hicksville. Sorry to hear she has to spend this natal anniversary as a patient at Mercy Hospital. One consolation is that she has Mary Cuccaro, also of Hicksville as a roommate. Come girls, get well and come home... JEAN PERRY of Cedar St. is a new employee at L.L. National Bank, Hicksville office. Good luck Jeanne...

## Hot Rod Clubs Form Council

Representative from five hot rod clubs in Hicksville met Thursday night June 25, for the purpose of organizing a Mid Island Area Council. These representatives decided to organize a group to be known as the Mid Island Rod and Custom Council (MIRCC). The objectives would be promoting interest in hot rodding and road safety.

The next meeting is scheduled for Thursday, July 9 at 8 P.M. in the Auto shop at Hicksville High. Representatives of other Mid Island clubs are invited to further assist in formation of this council at that meeting. For more information call Larry Werkstell at WE 5-6841.

Much interest has developed in hot rodding. It is estimated that about a dozen independent clubs exist in the Hicksville area alone with a membership totaling close to two hundred. Cooperative effort will help in meeting some of the needs of

these clubs and improved road safety particularly among young male drivers in the community should result.

Other clubs in the area are urged to join with the clubs now represented. Club representatives who have shown interest include: Edward Monette and John McCoy of the Poppers; Larry Werkstell and Jim McLeod of the Rapid Tappers; Ronnie Metrich and Mike Christopher of the Rod Dusters and Dick Cabbie of the Road Hawks. The council is anxious to be successful and welcomes membership advice and assistance in this community project.

## BOY SCOUT ACTIVITIES

### OUT IN FORCE

Boy Scout Troop #491 of Hicksville were out in force for the annual "Boys Life" Camp-O-Rama held at Grumman Field recently. The boys had a good sample of life outdoors from Friday morning until Sunday afternoon. All troops from the Arrowhead district were represented and the spirit of inter-troop competition was keen.

The camp site of Troop #491 was typical with its double line of tents neatly pitched. In the center, the boys had erected a monkey bridge, which was the troop project. It was an excellent example of scout craft and provided a barrel of fun for visiting clubs.

Saturday was a busy day with a planned program of games, sports, craft competitions, and culminated with a fine campfire ceremony. Troop #491 acquitted themselves well in the competitions, placing second in smallfire, third in lashing and first in firebuilding in the eliminations. The fire building team won a red ribbon in the finals. Bulli

# It's Your Problem, Too

By Allen S. Carpenter  
President, Hicksville Board of Education

If the school board system in itself was a perfect plan for education and if a community would elect perfect school board members, and if they in their turn, could secure and keep perfect superintendents, perfect principals, and perfect teachers, most of our problems would be solved, but we know that the system, while it may be the best available, is far from perfect. At best, school board members, like administrators and teachers are human, and no one of us is perfect.

We operate under an imperfect system, the system is governed by imperfect trustees, their imperfect orders are carried out by an imperfect staff of administrators, our children are taught by imperfect methods under imperfect teachers, in buildings whose capacity is overstressed, in a community divided between what we would like to have, and what we are willing to pay for. Do you wonder why we have problems?

I know of no way to make people perfect, I know of no one who can devise a perfect system, therefore, I would be a fool to say that I can tell you how to solve these problems, but perhaps what I have to say may make our mutual problem clearer, or at least easier to live with.

Local School Districts are established by State Legislatures and are sub-divisions of the State. It is the duty of each local school board to perform the educational functions as prescribed by the Educational Laws of the State.

Some of these laws date back over 100 years, and each year, more laws are enacted. Most of the requirements in reference to services are enacted as minimum requirements.

Teacher salaries cannot be less than so much per year, transportation beyond a three mile limit, within a district, must be provided, and numerous others of like nature.

Local school boards, with certain types of voter or State approval can provide services above the minimum required by law. In our district all of our services are above the minimum requirements. Our main problem in this district is not in meeting the minimum requirements, but in just how far above the minimum to go. This is the problem found in most of our surrounding districts, and because of this, Boards of Education seem to be the center of constant controversy.

All the duties and obligations and limitations of a board could not be covered in any series of lectures, let alone in a few moments, however, the main duty of every local board is to provide and maintain a school plant adequate to perform the educational function for its community.

But the community decides what an adequate plant for its community is. The community decides in its school building referendum, the community decides in its school board members election. The community decides in its school board members election. The community decides in its school board members election.

It is the school board's responsibility to provide the best administrative staff possible, it is the board's responsibility to hire and keep the best superintendent, the best assistants, the best principals that can be found.

It is the board's responsibility to see to it that once the right administrators are on the job to give them authority to cope with problems as they arise, it is the board's responsibility to provide the staff with confidence and good will.

School boards have a responsibility for the curriculum and all that it involves, textbooks, teaching aids, and instructional supplies and equipment. Of course in this field, the board must rely and depend heavily upon the professional staff. It would be unwise not to lean upon their background, experience and training. Their recommendations, their ideas and their suggestions, should be highly valued by all school board members.

Each board member, however, should clearly understand that the responsibility for the school district's curriculum and its education effectiveness, rests squarely with the board. The work can be delegated, the responsibility cannot.

The school board is responsible for the school buildings and the grounds. All school boards would like to keep the grass green and the buildings and playgrounds in good condition, but the amount of money available for non-educational purposes is decided by the community's reaction to rising costs, by the community's mood at budget meetings.

It is the school board's responsibility to justify in the people of each community the cost of sound, basic education. It is the school board's responsibility to provide top notch administrators, good teachers, good supervisors and an effective school plant. If any community lacks the willingness to pay for the necessities, it is the school board's fault, for they are responsible for the liaison between the community and its educational plant.

The people of every community have a right to expect from their school board members a full devotion to duty. The community has a right to expect educational leadership as well as business ability.

The people of the community should not expect their Board of Education to be a "Board to Reduce Taxes", or a "Board for Bigger and Better Schools", or a "Board for Research in Educational Experimentation", or a "Board to Secure Jobs for Deserving Friends".

Communities, however, will get that kind of a board, if that's the kind of men they elect. If we elect a man who does not understand devotion to duty, he will not change because he becomes a board member. If we elect a man without leadership ability, he will not become a leader because he received more votes than another. A "Tax Cutter", a "Big School Fancier", an "Educational Thinker", or a "Favor Dispenser" will never become an ideal board member, he is merely convinced, by his election, that he is the kind of man his community wants on their Board of Education.

All life, is a continuing compromise. As a matter of hard, cold fact, a satisfactory and happy life, can come only from reasonable compromise. All of us can envision a better car, a better home, a better salary, and all of us look forward to reaching our vision of something better, but in the meantime, we must adapt ourselves to conditions as they are, for if we fail to do this, we are miserable and completely unhappy.

We can work for these better days, but we must live each day in the present. If we cannot teach our children (and ourselves) to live under today's limitations, none of us could survive to live under better conditions.

## Mallett Family Reunion After 33 Years

It was the first time in 33 years that Frank D. Mallett, of Plainview Rd., Hicksville, and his sister, Mrs. Tony Ingemi, of Brooklyn, have seen their brother, Leo J. Mallett. The separation first occurred when the family was divided up when Frank's mother, Mrs. John Mallett, died in 1914. (Left to right are Frank, Mrs. Ingemi and Leo.)

Frank was brought up in Massachusetts by his father's side of the family, while his brother and sister spent their childhood in Canada with his mother's relatives. Leo was twelve years old the last time Frank and his sister, Lillian, saw him.

During the years that followed Frank and Lillian kept in pretty close contact; however, during the war they lost sight of each other.

A month ago, Frank's uncle in Massachusetts died. It was at that time that all of the Malletts got together. Frank, however, was unable to attend the funeral. Last week, through his aunt, Mrs. Emma Hornbeck, he got the address of his brother, Leo, who is presently living in North Redding, Mass. The day after he contacted his brother, his sister finally got in touch with him.

Through this, plans were made for a family reunion which took place in North Redding, last week.

### STANDS ON RECORD

To the Editor:  
Your recent editorial entitled "New Look in Politics" attacks me as an unknown in politics who had been foisted on The Booster's Club in Hicksville as a basketball star, and on the Massapequa Legion Post as a Korean war hero, and calls upon me to disavow such practices in the future.  
In reply, I can only say, "I stand on my record."  
As an aspirant for public office I received the unanimous endorsement of the Democratic Party of the Town of Oyster Bay for the office of Town Supervisor. I was not aware that my receipt of such designation implied that I would give up public appearances which my experience otherwise would justify.

## For Independence Day

Four specific references to the dependence of our nation on Almighty God are included in the Declaration of Independence. It is good to be reminded of them as we celebrate our independence this July 4. These are the references to God we find in the Declaration:  
"... the laws of nature and nature's God entitle them..."  
"... all men are ... endowed by their Creator with certain unalienable rights..."  
"... to the Supreme Judge of the world..."  
"... with a firm reliance on the protection of divine Providence"

The Religion in American Life movement asks each of us to re-read the Declaration of Independence this Independence Day, and to note there how our brave forebears spelled out that this nation owes its freedom to the Father of us all.

ditions we hope to find in our vision of tomorrow.  
It is every school board's duty to help its community to adjust itself somewhere between its vision for the best education, and what it, as a community is willing to pay for.

Even with a school budget as large as ours, we do not have enough money to properly landscape the school grounds, to build and maintain the many ball fields, to ensure enough classrooms for straight single session, or to pay the district employees as much as they would like to have.

Because our schools share our most intimate responsibility, that of training, guiding, and tutoring our children, none of us want the education process entirely out of our control.

The community's delegation of this intimate responsibility to its school board, would not be a perfect solution, even if all our school board members were themselves perfect, but it is the only method readily munny and allows our people a voice in deciding on, the type and quality of educational opportunity we want to afford our children.

As a basketball player, I was the choice of every nominating group for a position on the All-American team the year I was graduated from the U. S. Military Academy at West Point.

As a Captain in the Regular Army, commanding a line infantry company, I and my company participated in every major engagement in the Korean conflict. While I personally make no claim to be a hero, my company and I were both cited and decorated for bravery in battle.

There is nothing in the foregoing that I wish to repudiate. That is the record, and I am proud of it. On that record, or any part thereof, I am willing and pleased to appear before any groups or organizations who wish to listen to what I have to say.

Tickets and reservations may be obtained by calling:

Chairlady, Mrs. V. Brittain, WE-5-2753; Co-Chairlady, Mrs. R. Schlosser, WE 5-2072; President, Mrs. M. Giannelli, WE 1-0867.

All members and friends are invited to attend.

## Two Fire Calls On Wednesday

The second half of the year, which began yesterday (Wed.) July 1, found the Hicksville Fire Dept. answering two alarms, neither of them very serious.

An air duct in the Hicksville Glass Co. building caught fire, resulting in very minor damage, and the garage at the old service station on N. Bay and E. Barclay St., which was being torn down, caught fire. Quick action by the vamps prevented fire from spreading to adjacent areas.

## Swim Classes Start July 6 & 7

Councilmen Edmund A. Ocker and Peter B. Allsopp, members of the Town Board's Standing Committee on Beaches and Waterfront, remind all residents of the town that the Department of Beaches' free swimming and lifesaving instruction program gets under way on July 6 on the north shore beaches and July 7 on the south shore.

The program which is under the direction of Edward F. Brickell, Superintendent of Beaches, has been expanded this year with the number of weekly classes increased from two to three times a week at six of the Town's eleven beach-recreation areas.

## Seven Bid

(Continued from preceding page)  
Road to Jerich Tpke is 10% completed and is expected to be open in late 1960. Contracts for the final six-mile section to the Suffolk line are expected to be let later this year, with completion in 1961. Work is expected to begin shortly after a contract is officially executed. The contract will be awarded -- following a routine check by State engineers of all bids received -- to the contractor who is found to have submitted the lowest valid bid. There usually is a lapse of about one month between receipt of bids and contract award.

## On The MALL

with Bill Nelson

Bill Lynch, Hicksville Renault dealer, has come up with a wonderful surprise for the kids for the Saturday Toy Giveaway on July 18. He's donated a Vanguard Powered Automobile for youngsters, which will be the Grand Prize for that day's giveaway. Over 5 feet long, this kid's automobile has a fiberglass body that can't rust or dent, a genuine 2-cycle gasoline engine, an automatic clutch that provides extra safety, a steel frame, recoil starter and solid steel floor panel. It has a pusher engine in the rear, which eliminates the danger of open drives and hot exhausts, seats two youngsters on Old Country Road. Bill Lynch tells me that he's also giving one of these amazing little cars away FREE with every new Renault or Peugeot sold.

Dick Canaday, Public Relations man formerly with Cleveland-Sima of Garden City, was into me the other day. He's now the top banana at the Mitchell Beeson.

The Island Fund, getting underway with its 1959 drive in a big way, has added the very capable services of Kit Mahon to its staff, with Kit taking over as Public Relations Director. She's originally a PR gal from New York City, is an Oyster Bay resident.

I'm always surprised when people have trouble finding a place to eat at Mid-Island Plaza. Just for kicks, I counted eateries and found there's an abundance of 'em. For example: Long's Chinese Restaurant, Arthur Maimel's, Tip-Top Appetizing, Pizze D'Amore, The Lodge, The Brown Cow, Krings & Gerz, and the very fine cafeteria at J.J. Newberry's.

A new customer at Mid-Island Plaza recently has been Jack English, Democratic County Leader, who tells me he's moved to Syosset from his Franklin Square address.

The Long Island Assoc., long in the process of revitalizing, has started out with a Governmental Affairs program that will be of major import to industry and commerce on Long Island. The Assoc. is also searching for a man to fill the newly-created post of Director of Public Relations.

Look for Beautiful Child Contest winners for June in the July issue of the TOWN HERALD which will be out the week of July 6. At that time this column will present, as its Plaza Profile, a story on Allen Stuart, host of WHLI's Luncheon Melodies, which broadcasts from the Plaza's Center Mall daily.

Fred Niebuhr of Island Realty, leading Industrial-Commercial realty firm, was certainly grinning from ear to ear at the recent Acoustica ribbon-cutting ceremony. Island Realty was the broker on the deal, and Fred was there as the company's representative.

The Dachshund Assoc. of Long Island enjoyed the largest amount of entries in seven years at their recent Silver Dollar Show held at Mid-Island Plaza. Plans are already underway for next year's show.

I was really surprised to find that Fred Suter had worked with Marty Glickman, well-known sportscaster. While reminiscing at a recent Kiwanis meeting Fred and I discovered we had both worked with Marty I while working at WJMG and Fred while attending Syracuse University. It seems that Marty had a daily radio show at the University's station and Fred was on the program for two years, interviewing fraternity members and singing fraternity songs. This was the 1936-38 period when most of the frat songs were "The Sweetheart Of..." variety.

Good News for Boatmen! Len Frank, of Stackler & Frank, Past Commodore of the Freeport Yacht Club has obtained a 40-passenger airplane through the courtesy of Eastern Airlines for the express purpose of studying the shoals in the Jones Inlet which create a great navigational hazard for boats returning from the Atlantic Ocean to the Island Waterway. The aircraft will be used for an aerial study of the problem, to be conducted by officials of the Freeport, South Shore and Nassau Yacht Clubs, the South Shore Power Squadron, and Town and County officials. The study, to be conducted by way of photographs and charts taken while aloft, will then be compiled and disseminated, along with recommendations, to the proper authorities, and will most likely be made available to boaters through the various organizations involved in the study.

I was very upset to hear that Frank Pace of Paulmar Ments, one of the nicest guys around, suffered a heart attack a week or so back and is still confined at Meadowbrook Hospital. Why not drop Frank a card? I understand he'll be there for awhile, even though we all wish he was out and on his feet.

If Gus Economou is serious in running the election for Mayor of Hicksville, I'm very thankful for his putting me on the slate as a candidate. I object, however, to his ending this monumental event after he's in the lead, regardless of the "Greek-American vote." He forgot to mention the election to me, and I only learned that I was a candidate after seeing the article on the front page of last week's HERALD.

## Bank Announces New Credit Plan

Hempstead Bank is launching its Checkbook Credit Plan with an announcement in this week's Mid-Island Herald.

According to Joseph C. Mueller, president of Hempstead Bank, Checkbook Credit is a new idea in personal finance combining a revolving credit account with personal loan convenience.

When making the announcement,

Mueller stated: "People can now arrange for loans in advance. With Checkbook Credit, cash is immediately available to them, wherever they are and for whatever purpose they wish to use it. A customer uses his credit with the ease and simplicity of writing a check. One loan application can provide credit for many years. As he repays his loan he replenishes his credit to use again and again."

## Operation VFW

Wm. M. Gause, Jr.  
Post 3211, Hicksville  
By LOU PALLADINO

Bob Obermeyer was back on the job conducting the meeting as usual. This is an accomplishment. Consider that he officiated the meeting before, got married, went on a honeymoon, and was ready at the following meeting. Usually the prospective groom receives advice from the intended bride, and she continues from there on.

As we started to say, the bride usually tells the proper time for the wedding and plans are made. In this case it probably was the same, except that the meetings were blended into the scheme. Roberta was very considerate and Bob loyal to our cause. Our post along with our Aux., gave the couple a gift certificate, in order that they might select a gift that would be most useful for them.

Now to get away from the bridegroom for a bit. Seems that during the summer months our meetings get shorter. This doesn't mean that we don't take care of all the business on the agenda. Don't know why, but we get through it much quicker. Maybe it's because the bull session goes on more over a cool brew, than during the meeting. This sounds all right. What do you think?

At this meeting the committee gave the date of the picnic. It is to be held Aug. 16, and in the event of rain, to be postponed to the following Sunday, Aug. 23, at Bethpage State Park. There will be games for the children and prizes, as well as the groupings. If you have attended our picnics before, you know there is a wonderful day in store. This is not a money making affair, but a get-together for the post members, their families, and their friends. The price was also decided on. It will be \$2.50 per adult and \$1.00 for children over 12 years of age. Under 12 years will be for free. We need all the help we can get, so if you haven't been asked, please, offer if you can.

Some guys are just born lucky. Each year the Dept. of N. Y. has a drawing. All names of immediate post commanders are put in a hat, and the name drawn gets a free life time membership in the V.F.W. This year the winner was our own Les Ichle, isn't it great that it should happen to our post? Our congratulations to Les for his good fortune at being selected.

This should interest some of us. George Walden reports the not so good news that G.I. interest rates have gone from 4 3/4% to 5 1/2%. Cost of living sure is going up, and now the cost of interest. On the brighter side, all vets from World War II are still eligible for G.I. mortgages until July of 1960. So you must take the good with the bad.

Heard that our ladies are closing shop for the summer. Their next meeting won't be until Sept. Except of course if something special pops up. You know, most of the time these girls with their crazy ideas, it usually turns out right. Going to have a closer eye on them in the future. Max only do we have a special T.S. slip this time, but it goes to a very good friend of ours. This one is for Joe Reinhardt, post commander. He is the cash of the L.L. National Bank of Hicksville. Joe, for very good reasons, can't make too many meetings anymore, but he is very active for our Vet Asso. We have him to thank that all our bills are met promptly. So again \$2.00 is added for the next drawing. Be there to win.

Winner of the post drawing was Al Waggenheim.

This is all for this week; our next meeting will be held Monday, July 13 at 8:30 P.M.

Hope to see you then.

## Summer Events For Sisterhood

Summer festivities have started for the members and friends of Sisterhood Temple Or-Elohim, the Reform Temple in Jericho. Through the hot humid days we've been having, the women of Sisterhood have been working diligently to plan the following activities:

## Large Turnout for Groundbreaking

BY IRVING HERSKOWITZ

Within the very short span of three years, Jericho has had many "firsts," and now an additional "first" has been added. On Sunday, June 28, the ground was broken for the first house of worship in Jericho since 1786 - the date when the Quakers built their first meeting house here.

At 1:15 P.M. a gold painted shovel was implanted into the soil on the site of the property owned by the Jericho Jewish Center, and a shovel full of earth was scooped out which signified another "first" in Jericho - the ground-breaking for the new JERICHO JEWISH CENTER.

Despite the threatening weather, a very large crowd was on hand when Dr. Harry Etkin brought down the gavel to start the ceremonies. Dr. Etkin introduced the large array of prominent guests who were seated on the rostrum and they all offered their blessings and good wishes for the ultimate success of this venture.

The President of the Jericho Jewish Center, Max Kopleman, whose address pin-pointed the important role he anticipates this new Temple will play in the lives of all the Jewish residents in Jericho, was warmly received.

## Jericho Blood Bank Increases

BY IRVING HERSKOWITZ

Last Thursday, June 25, which had been designated as "B-Day," proved fairly successful, according to Lou Alter, Chairman of the Jericho Blood Bank. Lou informs us that there were only two permanent rejections at the last Bloodmobile Drive, and that fifty additional members were picked up. The bank was further enriched by sixty additional pints of blood which now gives us a credit total of 126 pints. During the past nine months forty pints was required for our membership.

While most of the Jericho residents availed themselves of the convenience of the bloodmobile, there were some who became members of the bank by donating their blood at the designated hospitals.

Those who joined the bloodbank last year have until September 11 of this year to renew their membership by donating one pint of blood. Mr. Alter cautions those

members not to default on their continued membership by making certain that they donate a pint of blood before September 11.

Anyone who offers to give blood and is rejected due to medical reasons becomes a member automatically. For further information contact Lou Alter at WE 5-0066.

## Local Concern Does Windows

Asco Window Corp. of Washington Parkway, Hicksville, furnished and installed aluminum windows at the new \$6.4 million Brooklyn-Port Authority Pier 3, which was turned over by the Port of New York Authority to Flota Mercante Grancolombiana yesterday. (Wednesday).

Built in the record time of 12 months, Pier 3 will be the fifth pier in operation of 10 new ones planned by the Port Authority in its \$85 million redevelopment program for the two-mile waterfront south of the Brooklyn Bridge. Grancolombiana has leased the two-berth pier in the Fulton Terminal area for five years and will begin operations there next Monday. The line expects to employ 400 persons on a \$2.5 million annual payroll to handle the 350,000 tons of general cargo generated by the line's South and Central American trade.

## Festival Set For 4th of July

This Friday, on July 4th, Nassau County Park Salisbury will stage an old fashioned county get-together in which neighbors and friends can meet for games and sport or a carefree day of relaxation. The program was developed by Nass County Executive A. Holly Patterson and Turner A. Davies, manager of Abraham & Straus-Hempstead, and will be sponsored by Abraham & Straus.

Iowa, Nebraska, North and South Dakota have only four percent of the nation's school population but 25 per cent of the school districts.

## GIRL SCOUTING AFFAIRS

Trinity Lutheran Church, Hicksville, Intermediate Girl Scout Troops #256 and 475 with leaders Marcella Kumlender, Dorothy Byron, Anna Mill and Olga A. Arnold, went on a bus trip to historic Philadelphia. Also accompanying them were Tillie Schluter and her Senior scouts of Troop #19.

First stop was a guided tour through the grounds at Valley Forge, visiting Washington's Headquarters, Forts and entrenchments, hospital huts used by the Continental Army. Reproductions of earth and log huts are located all about the vast acreage. Next, the Memorial Chapel and the oldest School House in the State of Pennsylvania.

The Scouts and Leaders climbed to the top of the observatory tower on Mt. Joy consisting of 120 steps. From this great altitude you could see for a distance of 50 miles, the beautiful countryside.

Proceeded to Philadelphia and the Betsey Ross House. It was very interesting to the Scouts to see the way of life and type of homes people of those days lived in and where the first American flag was made. Independence Hall, where the Liberty Bell is located, was another main attraction of the trip.

Back to Hicksville, Anna Mill led us all in prayer.

Intermediate Girl Scout Troop #475 painted horses head plaques made out of plaster molds as a project for Father's Day.

June 12, 13 and 14 was a very productive and inspiring weekend at Camp Edey, Bayport, for the Intermediate Girl Scout Troops #256 and 475 of Trinity Lutheran Church, Hicksville.

The Scouts experienced a variety of weather, but their spirits could not be dampened. As true Girl Scouts, they lived up to their motto, "Be Prepared".

Tillie Schluter, Senior Leader of Troop #19, assisted leaders and scouts of Troop #475 Anna Mill and Olga A. Arnold, at the "Orion" campsite. "Lyra" campsite was occupied by leaders and scouts of Troop #256. Olga Gross, Brownie Leader Troop #3, worked along with leaders Marcella Kumlender and Dorothy Byron. "Venus" campsite was the sleeping quarters of Leader Tillie Schluter and several #475 scouts.

Scouts at "Lyra" invited Scouts at "Orion" and "Venus" as guests to sit around the campfire, Saturday night. Singing songs were sung and games were played. Hot chocolate was served to all.

Sunday in recognition of Flag Day, the two troops gathered around for a Flag Raising Ceremony. Leader Anna Mill then conducted a Prayer Service which was very inspiring under the sunny skies of God's Country.

There was never an idle hand. Planned activities included, nature hikes around the lakes, bird watching, games and various projects. Cards with pine needles and pictures were stung by all the scouts and leaders as a remembrance of their camping weekend.

"A Girl Scout's duty is to be useful and to help others", in this accord the patrols followed the Kaper Charts and performed their duties as woodgatherers, fire builders, cooks and clean-ups. In performing these chores, the scouts

SURROGATE JOHN D. BENNETT, Adelphi College Trustee, conferring with Dr. Wernher von Braun, at left, Chief of the Army Missile Program. Dr. von Braun received an honorary degree of Doctor of Laws from Adelphi College at the graduation exercises.

passed some requirements on the following badges Out-door cook, campcraft, conservation, games, out-door safety, hospitality, bird, wild plant and trees.

Leaving camp, tired, but happy, the Scouts and leaders are looking forward to a winter weekend.

This was a grand climax to an active Girl Scout season. The weekly meetings are now concluded until Sept. Work shop groups will meet during the summer when notified, to work on badges.

July 13-17, Marcella Kumlender, Dorothy Byron, Anna Mill, Olga A. Arnold and Olga Gross will be working as Counselors at the Girl Scout Day Camp, "Wha cha Wannah", in Lower Melville.

Farewell till the Fall.

You were heretofore informed by letters addressed by me to you of previous incidents of the toppling over of radio and television towers.

"In my letter of Jan. 26, 1959 I called to the attention of the Town Board the fact that on Jan. Tower servicing Station LEX-TV toppled over; that a receptionist

Voting for Sullivan and Corcoran were President Allen Carpenter and Trustees Walter Schreiber, Jerry Zettler, Herbert Johnson and Robert Goodrich. Trustee Robert Easton voted no.

There was no public discussion regarding the choice. A motion was made and carried after a brief executive session. The Board members had interviewed 11 applicants for the position the previous Wednesday evening.

Sullivan and Corcoran will serve under a contract similar to the one given Witte last year. It provided for a flat fee of \$625 per month, running from July 1, 1959 to June 30, 1960.

The Board of Education will hold its annual reorganization meeting when Board officers are elected next Tuesday night, July 7, in the Teachers' Lounge of Hicksville Senior High School. At that time David Hurwitz will take his seat on the board in the place of Etlich.

## School Secretaries Are Installed

At the recent installation of officers of the Hicksville Educational Secretaries Assoc., Allen Carpenter, President of the Board of Education, was the installing officer.

New officers are: Mrs. Doris Phillips, President; Mrs. Rita Ciordano, Vice President; Miss Carol Schaeffer, Secretary; Mrs. Marge Molnar, Treasurer; and Executive Bd. members, Miss Marge Timosuk, Miss Eleanor Morrison, Mrs. Ruth Williams, Mrs. Ann Shulman, Mrs. Mary Agapito, Mrs. Eileen Revis, Mrs. Jean LeViness, Jerome Zettler, Secretary of the Board of Education, presented Certificates of Merit to secretaries who had performed outstanding work during the past year.

Mrs. Gertrude Low, outgoing president, was presented her Past-president's plaque by Mrs. Edna Grant, the Program Chairman.

Mrs. Jean LeViness was presented with a charm by Mrs. Gertrude Low. This was a gift from the organization to thank Mrs. LeViness for her work in organizing the association.

Guests included members of the Board of Education, school administrators and supervisors. Also present was the president of the New York State Association of Educational Secretaries, Mrs. Alice Lofblad, and the president of the Long Island Association of Education Secretaries, Mrs. Hazel Stepper.

The Hicksville secretaries are now at work on plans for the conference of the Long Island Association of Education Secretaries which is to be held in the Hicksville High School on Oct. 2nd.

"You were further informed by my letter dated Feb. 19, 1959 that Time Magazine of Feb. 23, 1959 reported on page 21 under the heading, 'Missouri Five Minutes of Havoc' that the radio transmitting antenna of Station KLXW in St. Louis toppled over as a result of which eight homes were damaged; and that the TV Tower of Station KTVI had also toppled over and damaged the roofs of two apartment buildings.

"Presumably, your respective attentions have been called to the more recent collapse of the 120 foot steel radio relay tower in Shreveport, Louisiana, as a result of which two workmen were killed. This last incident was reported in the New York World Telegram and Sun of Tuesday, June 23 on page 2, column 5.

"The foregoing respective incidents, and actions taken place NOTWITHSTANDING the petitioner, Mr. Reiger, and his engineer and proposed tower construction agent, that they were unaware of any incidents involving collapse of towers or their toppling over; and that they in effect, could give assurances that towers would not topple over or collapse.

"It is the considered opinion of the residents of such area so affected that, with all due respect to the said Honorable Justice, his decision was in error and their rights are being adversely prejudiced the, because the determination in this case of whether there would or should not have been a permit granted was purely a legislative action of the Town Board as a matter of law.

"The residents of the area so affected sincerely believe that the filing of a Notice of Appeal and the processing of such appeal is a necessary protection of their interests; that failure to process such an appeal would be in derogation of their represented rights in the Town Board," Goebel concluded.
