FUNERAL HELD YESTERDAY:

J. J. Ulmer Rose to Top In 45 Years With Bank

HICKSVILLE—Funeral services were held yesterday (Tuesday) afternoon at Trinity Evangelical Lutheran Church for Joseph J. Ulmer, president of the Bank of Hicksville and one of its leading citizens, who passed away on Saturday morning, Nov. 3, at his home on Field Ave. Mr. Ulmer was born here 68 years ago and served the community in many public-spirited capacities over the years.

He went to work for the Bank of Hicksville at the age of 14 as a junior clerk, four years after it was organized. Since that day in 1907 he had worked in every position in the bank, becoming its president in 1941.

He was also an active member of various banking and banker associations and organizations.

Hundreds came from near and far to pay their final respects to Mr. Ulmer at Mowen's Funeral Home on E. Barclay St. Masonic services were conducted there on Monday night. The fire department and exempt firemen held their services on Monday night also.

The Rev. Edward H. Stammel, pastor of Trinity Lutheran, made a flying trip home from Florida, where he was recovering from a throat ailment, to conduct the services at his church yesterday afternoon.

1 Out of 2 Did Not Vote: Republicans Sweep Township 3 to 1

Republicans retained their traditional pluralities in the Township elections, yesterday (Tuesday) as all GOP candidates were elected by a 3 to 1 margin. Charles E. Ransom of Sea Cliff was elected Supervisor with 15,966 votes, defeating Democrat Richard T. Mayes of East Norwich who got 5,881 votes. However, with 48,345 voters registered in the 52 districts of Oyster Bay township only 21,787 voted for Supervisor, or less than half.

In the 13 Hicksville election districts, the Republican margin was whittled down to about 2-1 with Ransom getting 3,209 votes and Mayes 1,514. In Hicksville where 11,715 are registered, less than half that number or 4,723 voted for supervisor. Allen Carpenter of Loretta Lane was the strongest Democratic candidate in his home district, the Hicksville 3rd, where he got 211 votes for School District to 233 for his opponent, Herman H. Maas of Massapequa.

Carpenter got 1,755 votes in 13 Hicksville districts to 2,995 for Maas.

Ransom is expected to resign his position as County Clerk to take office as Supervisor on Jan. 1 succeeding Harry Taipen who is completing 20 years of service as a town official. Ransom was Oyster Bay Town Clerk before he was elected to County Clerk some years ago.

Total township votes for other major candidates were: for Town Clerk, DiBacco 15,986, Dunne 5,726; for State Assemblyman Burns 16,181, Matthes 5,602; for Tax Receiver Scholl 16,236, Powell 5,584; and for Two Town Councilmen Republicans Frank Chumsky 15,184 and George Thomas 15,498, to Democrats James McAuliffe 6,210 and James Allen 6,193.

POLICE OFFICER TELLS LIONS:

Lack of John St. Control Helps Safety

HICKSVILLE — Complaints about traffic conditions and requests for surveys and studies of such local problems by the police department should be addressed to the Commanding Officer of the Second Police Precinct, Syosset, members of the Lions Club were told recently by Police Inspector Louis K. Schneider.

Inspector Schneider said such complaints are relayed to his department of traffic and safety and studies are made which result in recommendations. He stressed that the police are not a "law making body. That is up to the state traffic commission or the Town Board."

JOHN ST. CROSSING

Asked about the need for improvement of the John St. intersection, the commanding officer said Jerusalem Ave. with North Bayway, he said that he has attempted to get action on this for "two years."

He added the opinion that because conditions there are so bad drivers are forced to use caution which, he thinks, may actually result in fewer accidents.

He complimented Hicksville High School system for conducting driver training classes for the students but believes the training should be mandatory. He complained about the lack of parental interest in young drivers.

"They spend \$300 to \$1,500 to put a car under their son and then don't spend a dime to educate him how to drive in a reasonable and courteous manner," he stated.

The speaker was introduced by President Vincent Braun. The Lions will meet again on Nov. 14.

EDITORIALS:

A Life is Saved

THE REPORT in last week's *Herald* that the prompt and efficient operation of Hicksville Fire Dept. with an inhalator which saved the life of a visitor to our community was wonderful news. It proves once again that our community volunteers are capable of performing services which no other agency can render when minutes count and life hangs in the balance.

We look forward to the day—in the not distant future, we trust—when our firemen will have the additional facilities to be rendered with a community ambulance. The recent studies by the County Transit Commission has emphasized the serious shortage of adequate ambulance service. The only reasonable solution for the present day that we can see lies in ambulance operation of the type which Bethpage residents have now enjoyed for several years.

The passing this week of Mr. Joseph J. Ulmer, president of the Bank of Hicksville and a man well-loved by the people who knew him, recalls the fact that there are on deposit several hundred dollars collected during World War II for an ambulance fund. Mr. Ulmer kindly acted as the treasurer of that fund. The project was shelved during the War because equipment of any kind was impossible to obtain.

We believe we can foresee the day when our volunteers will be able to render even more effective service to the community in the interest of public safety—with an ambulance in the firehouse.

Have You An Extra Cot?

IF OUR COMMUNITY is ever visited by disaster, natural or man-made, there will be a great need for beds to cradle the injured and homeless. To this end, the Hicksville-Plainview Civil Defense Council is today asking everyone who has a spare cot and bedding to make a donation of the same for central local storage for use in emergencies.

In addition to outright gifts of folding cots, blankets, etc., the Council also would like to make an inventory of such cots and bedding which would be available quickly in an emergency. In other words, if you have an extra folding cot in good condition and are willing to part with it—let the CD know. If you have a cot that you would loan on short notice but don't want to give it up just now, please let the CD know.

The easiest way to comply with this request is to call the Civil Defense at Hicksville 3-1400 or bring the cots to the *Herald* office at 98 North Broadway, next to Hicksville Post Office.

Need for Volunteers

THIS IS A CALL for those who can volunteer for service.

The scope of the extra work assigned the Nassau Red Cross in its services to the Armed Forces and in Civil Defense virtually places it on a wartime footing. Hundreds of volunteers are needed to help the sick and disabled in our military and veterans hospitals, to lend a hand in case of disaster or national emergency, and to carry out the twin tasks of mobilizing for mercy and for defense.

It is our Red Cross. We can help it by volunteering to serve in its ranks—as Gray Ladies, Arts and Skills workers, Canteen workers, Motor Service drivers and in other important jobs.

Lend your helping hand now by joining the Nassau Red Cross in its fall recruitment campaign. Your reward will be the unmatched satisfaction that comes of helping others.

There's no time to lose when a soldier is wounded. Here U. S. medics administer blood plasma to a wounded GI enroute from the Korean front to an aid station behind the lines. The American Red Cross needs a constant supply of blood to meet both civilian and military needs. (U. S. Army Photo)

CURRENT COMMENT: Dogs vs Humans

By FRED J. NOETH

PLEASE REMIND the people, a reader asks, that it is against the law to allow dogs to run at large.

Such is the case. It is an ordinance of the Township of Oyster Bay which sets forth the rules governing the conduct of our dog population, but unfortunately the dogs don't read the HERALD. The Republicans in their propaganda newspaper tossed on my doorstep last week before election cited the remarkable increase in the number of licensed dogs in the township. They shouldn't have done it. The dog situation is bad enough without reminding us of it.

The township ordinance says your dog must be kept on a leash. The state law says your dog must have a license. Councilman Chlumsky says if you have trouble with dogs in your neighborhood, call the police at Syosset 6-0872 or the Town Clerk's Office at Oyster Bay 6-2800.

Last week we heard the unhappy story of Harold Schoemann of 7 Fairview Court, Hicksville, and his experience with a dog—it happened to be his own.

The dog was tied up in the kitchen and while eating its meal got something clogged in its throat. The dog began to froth at the mouth and Mr. Schoemann became alarmed for the safety of his family. He called the police. He called them three different times between 10 and 11 that night and the last time the police officer on duty told him bluntly, "It's your dog, it's your problem."

He was told to call the dog catcher at Farmingdale—no reply. "Call Bide-A-Wee Home in Wantagh—" they only home strays brought to them. He also called the Councilman but he was not at home. He called three veterinarians, without success.

The story has an undramatic ending. Toward morning the dog managed to work out the obstruction and is apparently well.

But what Mr. Schoemann wants to know is—who takes care of a problem like this? He feels the public has a right to depend upon the police for the protection of his family. He shudders when he thinks about the possibility that the dog might not have been securely tied up during all this.

We've heard that next fiscal year (after Jan. 1) the township will have a "new deal" on dogs. The dog catcher will get a salary instead of being paid a fee for the number of dogs caught, held for the legal five-day waiting period, and destroyed. But will that provide the homeowner with the protection he may require after 5 o'clock in the afternoon?

We think a woman in Merrick recently pointed up the dog problem neatly in a letter in the local paper. "Did you know" she wrote "that in Nassau County dogs are protected more than children?"

The adults or child victim suffers the pain and is forced to bring the court action. Meanwhile, the dog apparently just sharpens up its teeth and prepares to go after its next victim.

As a Glenwood Landing boat captain told the Town Board some months ago, the dog has more rights than a human. The dog can destroy planting and shrubs, and gets off free. You just try to run thru your neighbor's shrubs and see what happens to you.

Of yes—as far as the leach business goes. If your dog is at large and the dog catcher happens to be at hand, the dog is impounded and the owner faces a possible fine.

PLAINVIEW "LAKE" COUNTRY HOMES:

Flood Brings 4-8 In. Into Houses

By RAY CANTILLI — PHX 5-03304
H. FOOTE:

Greetings to all of my neighbors in the "Plainview Lake Region." Pull up a canoe and I'll try to give you a recap of a vital situation. When I woke up on Saturday morning and looked out my window, I thought I was dreaming. I thought I was on the banks of the Mississippi River and the levees had burst.

Although I may seem a bit facetious, I'm actually trying to be serious. A thing gets to a point where it is so bad that it ceases to be serious and turns to a form of hysterics. I have never seen such a mess in my life. Although I was one of the lucky ones being on higher ground, my heart goes out to those people living on the east side of Universal Blvd. Imagine buying a new home and having to put up with four to eight inches of water in your rooms . . . to have to pile up your furniture and take your valuables and leave that home because of a rotten job of grading and leveling off of the land to put up the homes and a very inadequate job of planning the draining off of rain water.

I don't care who is to blame for it. Other places had just as much heavy rain, and there were very few complaints from other people about water in their houses. John R. Brandt, our Town Superintendent of Roads, called me the other day and told me that after the first of the year there is a plan of action to rectify the present situation. This calls for the tearing up of the road and running pipes from the sum to the sewer boxes on Old Country Rd.

TALE OF TWO COATS, OR He Who Waits, Chilled, Gets Double

HICKSVILLE — Otto Hartig of 32 Charles St. lost his new winter overcoat while at a dinner dance given by the Hicksville Democratic Club at Reay Nor's Inn in Huntington last week. With the cold spell last week, Otto was freezing, so he tried an appeal for the coat's return in the HERALD.

Mildred, his wife, not too sure that it was a Democrat after all who took the coat, phoned the Nassau County Police for some help. Detective Matland came to her assistance and picked up the coat that was left in place of Otto's. That was around noon. By 6:30 that night he had traced the coat through laundry marks to Garden City, South Ozone Park and then back to Garden City, and had returned it to the Hartig home.

Mildred was real pleased. Otto was happy, too.

Otto set out for work the next morning around 6:30, but stopped short at his front door. There on

I've been told since from other sources that this would be impossible as water will not run up hill and therefore you would have to run these pipes many, many feet underground in order to get drainage. I'm going to call him again and find out if this is the case. If this is so, what then? In the meantime, what happens to those people living on the lower level if we have anymore heavy rain? I guess we all could buy gondolas and call ourselves the "Venetian Plainsmen." I personally think someone should put up retaining walls for these people that are flooded. Whoever is responsible should put them up and pay for them and let these people have a night's sleep.

I do wish to extend appreciation to the guys from the Town Highway Dept., the Hicksville Fire Dept. and our own boys from the Plainview Fire Dept. for working day and night to pump off the water from the houses, lawns and street. It was pretty cold and they took their "chances at the helm" conscientiously and without a word. Many thanks from everybody.

A regular meeting of the Plainview Civic Assoc. will be held Tuesday, November 20, 8:30 p.m. at the Manetto Hill School. Fred Baum, president, will preside. Don't forget to buy your tickets for the Annual Fall Dance of the Plainview Fire Dept., Inc. November 17 at the firehouse. They are \$1 a person and there is dancing and a floor show. I wonder how many people actually know that the fire dept. is not under the

Town of Oyster Bay. It is independently owned by the members of the fire department themselves. If the fellow's need equipment, etc. You the taxpayers pay very little for fire protection. How about buying a ticket and helping them out. If you want tickets you can get them from me or from any fireman.

So long for now.

Need Donations For Big Bazaar

The annual bazaar sponsored by the East Street School P.T.A. will be held on Nov. 26, in the school auditorium from 1 to 9 p.m. Donations of articles to be sold at the bazaar will be accepted by the following chairmen:

Mrs. Louis Saueracker of 65 East St. for the Food Booth; Mrs. Edwin Fierstein of 31 Gables Rd. for the white elephant booth which includes household articles that are in good condition but no longer used by the donor; Mrs. George Carlson of 24 Charles St. for the hand made articles booth; Mrs. Elizabeth Kronimus of Briggs St., for the parcel post booth; Mrs. William Kaufman of 63 Bridle Ln. for the grab bag booth, featuring gifts for the children; Mrs. Manfred Rockmacher of 14 Petal Ln. for the miscellaneous booth; and Mrs. Merton Wilson of 169 East Marie St. for the refreshment booth.

Mrs. Henrietta Arcil represented the William M. Gouse Jr. VFW Auxiliary of Hicksville at the recent observance of the Status of Liberty in New York and carried the County VFW colors.

A ghastly ghost greeted Jan and Toddy Schroeder, Susan Voegel, Ellen and Joan Grossman, Carole Ormstrom, Susan and Pat Flanagan when they arrived at the Haloween supper party given by Sandra and Sharon Walsh of 137 Spindle Rd., Hicksville.

However, all the Haloween spirits could not scare the children and after ducking for apples, enjoying a marshmallow chew and games they went out into the haunted night to play "trick or treat."

Mr. and Mrs. Ivan Whitney and family of 16 Marvin St., Hicksville, have moved here from Florida.

BRIAR PARK, PLAINVIEW: Hallowe'en Is More Fun, Nowadays

ETHEL BOONEY — HI 8-2422

Thanks to the constant rain this week there isn't much to say except I am glad it let up for Hallowe'en. Jimmy went out as a shark and came home with a whole bag of loot. He's getting a toy car with the money and an upset stomach with the apples, cookies and candy. We never had fun like that at Hallowe'en. All we did was run around with chalk and bags of flour to ruin one another's clothes. I had more fun this year watching Jimmy than I can ever remember having before.

Cold Weather Don't Stop Girl Scouts**

By Bessy Lauer, Hicksville 3-2743
I am still trying to think out after last Friday and Saturday—beautiful weather (ouch, who threw that stone?) Well, anyhow all the garages did a real zooming business selling anti-freeze. In fact, at some of the local garages you had to wait in line for service just as though you were getting something for nothing.

The Hicksville Girl Scouts didn't mind the weather in the least and they turned out in full force Saturday afternoon, for a get-together at the Nichols St. School. The kids had a wonderful time and they made a very impressive sight with their leaders in uniforms. Each troop put on a little entertainment. I took Iva with me and the whole afternoon she kept pulling at my skirt: "Mommy, when does the party begin?" After the entertainment ice cream, Girl Scout cookies were served so everyone was happy including Iva.

Still in "Girl Scouts—Most of the girls from Troop 7 live in this vicinity. Mothers, your girls need help. Mrs. Woods, the leader, needs some more help from you.

Mrs. Tettner and Mrs. Boger are helping out already. Don't let all the work just fall on the hands of a few. All of your girls are benefitting so why don't you all share in the work?

The VARCOS of Mercury Pl. spent Sunday in Queens Village visiting Henry's father.

of Wantagh were the Saturday guests of Mr. and Mrs. Oscar Laufer of 185 Lee Ave.

Mr. and Mrs. GOLD of Division Ave. spent the weekend with friends in Brooklyn.

By the way, if the owner of a little white female puppy with a light tan spot on her back is looking for her, call license no. 36741 or contact Mrs. RICHARD ANDREAS of 172 Cottage Blvd. I know, you want to know how Richard got it, well, here is the story. Sunday morning he heard a dog yodel as he went out to investigate. The little dog was running around the Woodley oak tree patch with everything under the sun caught in his collar. Dick had the pup in the house, straightened him out and called

the police to find out if they could tell him the owner. They referred him to the dog warden. Upon contacting the dog warden, he was told to remove the collar, to prevent the pup from getting hurt and let him loose as he no doubt lived in the neighborhood and would run right home. Sure enough, soon as he was free he started off with a very proud strut. So if you want his collar, you know where it is.

The family birthday to report on Sunday for Holly had the usual cake and trimmings for the family. Election day we had the most unusual birthday celebration ever. It was a party for Whitley at 8 a.m. in the morning. Reason for such unusual proceedings—we all went to the Bronx for the day and the evening was spent at different meetings.

The MULLERS of Cottage Blvd. had a whole house full Sunday. There was Mr. and Mrs. Jack Bremer and children, Judy, Dorothy and Bobby, Mr. and Mrs. Eli Wall and baby Paul.

HIGH SCHOOL PROGRAM: Report Forum Highlights at Assembly

By AUDREY ELYMAN

HICKSVILLE — Is Universal Military Training a Bridge or a Gap? Why was the Red Youth Movement a success? And what is Academic Freedom? These were among the topics reported upon by the student representatives to the Herald Tribune Forum, on Oct. 22 in the high school general assembly.

Five students had the pleasure of attending this forum held on Oct. 18 in the ballroom of the Waldorf Astoria. Mr. Frost, American Problems teacher, was the faculty member who enjoyed the enlightening discussions with the students.

Among the celebrities present at the forum were Gen. Hersey and Arthur Godfrey, Our Masters of Ceremonies; Mariel Garcia, gave Arthur Godfrey's usage of freedom of speech as he expressed it to her. She related that he, as a

TV performer, was not strictly censored but he had an obligation to give an equal amount of comments to every individual and product that he mentioned in one show.

The first speaker was Doretta Hinner who spoke against military training as an educational aid. She contested that more than fifty percent of the students could not postpone their education by entering the service and be able to do well when they finally went to college. Breaking the mental pattern of the average youth is difficult to overcome. Bob Betzka on the contrary, claimed that the experiences and advantages were hard to duplicate outside of the service. He said most students could not afford travel and higher education without getting help from the government.

YOUTH RALLY REPORT

James Sawyer told of the personal experiences of a Harvard senior as a witness at the Communist Youth Rally held in East Berlin last May. The main point brought out was that Communists are successful in handling children because they give the love-starved children a feeling of belonging and being wanted. A simple uniform was a great help in furthering this belief. James also made many remarks by commenting on the extreme stark dinner that the group enjoyed as a result of the hospitality of Mr. Garcia. James has an unusual tendency toward appreciating good food. It seems, and Mr. Garcia sure knows how to prepare it.

Lastly, Harold Rothstein told of the continuing of Academic Freedoms in the United States, colleges, and other educational institutions. Every college student and professor is "clearly" of getting his mind fixed with a communist front organization. As a result, most of these people may keep their thoughts to themselves and refrain from joining any clubs or signing petitions. If this movement continues, college life could degenerate quite rapidly. Harold is hoping things change before he enters college.

All in all, the lucky students agreed heartily that they had a most enjoyable time at the forum.

An apology is in order for the omission of Irene Rogers' name from the list of speakers in our recent United Nations Assembly.

Kiwanis Club Holds Annual Charter Night

STEWART MANOR—The annual charter night dinner-dance of Hicksville Kiwanis Club was held at the Stewart Manor Country Club here, Saturday night, Nov. 8. Charles Montano, president-elect of the club, was chairman of the affair, assisted by Joseph Reinhardt and James Walker.

Lt. Governor Frank Chlumsky and George Rappaport, club president, thanked the officers and members for their fine support during the year.

A television set for St. Giles Home for Crippled Children was presented by Mrs. E. H. LeBaron on behalf of the Kiwanis Ladies to Mr. and Mrs. Cook who accepted the gift for the Home. The television set was given to the ladies for their favorite charity in appreciation for their support in the Kiwanis Pontiac award held this summer.

Among the guests at the dinner-dance were Hon. Judge and Mrs. Joseph P. Lebkeucher, Mr. and Mrs. Henry C. Brangell and Mr. and Mrs. Herbert Purick of the Hicksville Rotary Club.

NORTH EAST REPORT:

Final Chapter on IQ and Your Child

By LEE CHANIN—HIS 8-68832
A Child's "IQ" May Be Affected By Environment and Training

Well chosen reading material in the home adds substance to that which we are measuring. So does encouragement given to the child in such a way that he learns to find in guide reading not only the answers to questions but also the happiness of discovery and imagination undeniably essential for intelligence. Some reports show that the IQ can be changed to quite a considerable degree when surroundings are changed. However, most of our surroundings do not alter very much in this society of ours, and as a result the scores of these tasks remain fairly steady.

Studies have shown that adopted children grow to an IQ level which resembles that of their foster parents rather than remaining similar to that of their real parents. Evidence has also been obtained which seems to show that children who are encouraged early in life through the pre-school and kindergarten years acquire IQ's somewhat above those who have missed this directed schooling. Even though some school systems do not have this particular type of training, interested parents and elementary teachers can see to it that the child has material and encouragement leading to intelligent growth.

When an exceptionally low IQ is discovered, and those below 70 (70) are usually classified into varying degrees of feeble-mindedness, there usually appears in the reports on these cases very little evidence to show that these individuals can be encouraged into above-average IQ's. Advanced or even customary school programs are not the type of intellectual food needed by these boys and girls. With these cases a below-average home environment is far too often found.

On the other hand, we must remember that there are relatively few of these feeble-minded persons in our population as a whole. Most (in the terms of people) differences in IQ's fall between scores of 85 and 120, and we do not have real evidence to prove that these differences are due to heredity alone. Human experience is to consider that there may well have been uncontrollable which have had an during any child's life (any adult's as well) occasions, unnoticed and affected on intellectual growth and development. It is easy to ignore all these influences of environment and to attempt to lay the full responsibility of the IQ score in the lap of heredity, but the easy way is not always the accurate way.

One report confirmed by others shows that children of college professors quite often average higher IQ's than those whose parents have other forms of employment. We can well ask, is this due to inheritance alone? Or might it not also be due to the fact that a child in a teacher's home will usually find from birth on an expressed interest in and a whole array of experiences which are in

line with the very traits measured by these tests?

IQ and other tests should be given and interpreted by trained workers. As a suggestion, be interested in all the many ways your children can be measured by these tests and others. Do not be influenced by rumor or by the numbers alone. To secure a reliable measurement of your child's ability, be sure that a trained worker has given and interpreted the tests. Unfortunately, there are "quacks" in psychology as well as in medicine. Bumps on your child's head, or the width of his forehead are only some of these spurious signs used to confuse parents, and they are not used by the honest and sincere workers who are trying to help your child find his place in life. Today the teachers in our schools are better prepared to interpret for you what these scores mean, and, more important, their limitations.

There is a place in society for almost every individual, and the limits which are indicated by the intelligence score will allow us to observe each child in ways which will help us to guide him toward happiness and adjustment to society. The IQ is important and has its place as a measure or comparison; but let us not regard it as an end in itself.

The End

FOR DAMP, COLD CEMENT FLOORS

If you are the owner of a
cellarless house, I am sure this
column will be of interest to you.
Many people have asked
for remedies against cold and
damp concrete floor slabs. Here
it is. For existing small house
construction having a floating slab
fiberglass floor slab edge
insulation may be applied to the
exposed exterior of the
foundation wall. The foundation
should be insulated with
the fiberglass to a depth of 12
inches or more below grade.
Clean the outside surface of all
dirt and surface irregularities
because the masonry is painted
with asphalt paint. Insulation
should be applied to foundations
with cold asphalt paint,
butting the edges of boards together.
Metal flashing should
be installed above the top of insula-
tion and the exposed face
covered with 1/8 inch cement
bead as a finish to withstand
the elements.

Cubes already cut to fit, the
thickness of the waterproofed
fiberglass board is 3/4 inch
and is one foot wide and three
feet long.

The 3/4 inch board would
be coarse impervious to the
weather, and comes in 4' x 5'
sheets. They're easy to cut
with the average hand saw.

We are very happy to pass
this method of correction along
to you—as we have had many
inquiries, but not the answer
until the perfection of this
product came into being. For
further information regarding
price and application — your
"Uncle Tom" invites you to
come in at your convenience.

THE BEST SINCE MILLEVOLTE?

We do not want to stir the old guard Hicksville Field Club fans who are ready to commit murder if you name a player in the same breath with Orist Millevolte, but only wish to relate that young Jack Kogel, new sensation with the Black and White, has been mentioned by some veteran observers as being the best breakaway runner since Great Orist.

There will not be any attempt to compare Kogel with the most respected and famous name to don the colors of the B&W.

It is only a manner of describing the lad who is studying Engineering at Manhattan College. For he, according to old time fans, has many of the characteristics of Orist.

He is shifty, picks his holes extremely well, is reasonably fast, and can out-maneuver many startled would-be tacklers.

When it comes to a pitch out or a short pass on the sideline, he strikes us as having the same talent as Glen Cove's brilliant Jim Fantry.

Local fans will get a good look at the Westbury resident when the team plays the Bears at Hicksville Sunday.

It was his long jaunts, along with the expert work of Chip Gannon, that vaulted the Field Club to a 13-7 non-league win over this Sunday's opponents two weeks ago.

Kogel could not pick a better time to put on a good show for the Bears have rebounded from their 37-12 defeat at the hands of Glen Cove and can upset the Black and White in this important league game.

Hicksville cannot afford to lose, for the following week Glen Cove visits us for a league contest. That already is being heralded as the money contest for top prize in the Nassau-Suffolk league, although the Jones Boys are in the running.

The Bears could be the spoilers, however, since last Sunday they held rugged Riverhead to a scoreless tie out on the other end of the Island.

Hicksville High visits Oyster Bay this Saturday to conclude its 1951 campaign and the odds are 100-1 that it won't be a happy ending.

Bianco Wins X-Country Crown

BETHEPAGE — The confidence Coach Lou Millevolte had in his cross-country star, Mario Bianco, was fully justified here, Friday, when the Comet harrier chopped 34 seconds off the State Park record to win the North Shore Athletic League championship in 12 minutes and 34 seconds.

Bianco breezed home 100 yards ahead of Marie Logan of Great Neck and Gerry Malloy of Roslyn, who was the defending champion, and Mario's target for this fall campaign.

Roslyn's strong Hilltopper contingent retained their team championship, taking the title with a low of 37 points. Great Neck had 48, Farmingdale

50, Hicksville 72, and Westbury 164.

Hicksville narrowly missed beating out the Hilltoppers last year for the team honors, but lost talented Harry O'Mack to its gridiron team this year.

Chisom Raeburn finished 14th for the Comets and Joe McCarthy was over the line just behind him. Raoul Silva was 17th.

Bianco's strong performance bettered the course record by 34 seconds which was set two years ago by Steve Armstrong of Amityville.

A grueling test at any time, this year's run was more so since it was a cold day with showers to add to the runners' discomfort.

SAYVILLE BEATEN 37-0:**FC Faces Strong Test With Bears**

HICKSVILLE—The Field Club awaits the visit of the Valley Stream Bears to the local gridiron this Sunday for a Nassau-Suffolk Conference test after having whipped hapless Sayville 37-0 last weekend. Played before less than 60 persons, the Sayville test was hardly a good workout for the important Bear game.

Hicksville won the first game with the Valley Stream club two weeks ago 18-7 in a roughhouse battle that almost matched last year's brutal contest which went to the Bears 17-7.

This Sunday's game will be the one that counts in the league standings.

KOGEL STRALS SHOW

Jack Kogel once again stole the show for the Black and White as he scored three touchdowns against Sayville. Two came on passes from Ed Stetz who replaced the absent Chip Gannon in the T quarterback slot. Jerry Calandri was the quarter when Dom Sabatella's crew switched into the single wing.

End Heyman Rigby recovered a fumble on the loser's 23 early in the game and then took a pass from Stetz for a first down on the 8. Three plays later Al Knipring sliced over right tackle for the score.

Later in the game Knipring was trapped on an attempted end sweep so he fired to Stetz on Sayville's seven and he went for a TD. The other tally was chalked up when Emile Koj took a screen pass on the 20 and had an easy romp to the end zone.

Knipring made the only successful place kick conversion for the Black and White. They attempted all seven the same way.

The contest marked the first time Pete Zeller, former Hicksville High star, saw considerable action and he charged off huge yardage for the club.

Dalers Defeat**Comets 25 - 13**

HICKSVILLE—The traditional triumph over Farmingdale, which consoled Hicksville in other pigskin campaigns, was denied the Comets, 25-13 in an Election Day struggle here.

With a hapless record but fired up for the clash as usual, the Dalers achieved the win on the running of Bob Boch. Ron Keller cracked the opening kick off back 80 yards for a touchdown as the Dalers took a 6-0 lead.

The heavier Comets drove down field twice in the first half, finally knocking the count 8-6 on a quarterback sneak from 2 yard line by Cyril Runnels.

In the second half, Boch broke loose for touchdown runs of 25 and 33 yards from scrimmage and returned the Hicksville punt 38 yards for another score.

Harold O'Mack scored from the two with seconds left in the game for the Comets other tally.

PLAIN—VIEW:**Cub Scouting Needs Adult Help**

By BOB LEPANTO

Discipline. This is a very important word with which we are all necessarily concerned for in reality its true meaning is the foundation for all actions. It is the backbone of society. Discipline is a mental attitude and a state of training which renders proper conduct instinctive under all conditions. The differences between a good, bad or indifferent citizen or member of society can be therefore equaled with the type of conduct he displays. Since discipline is the basis of all conduct, it is the mental attitude formed during boyhood that sets the pattern for the future.

The parents are responsible for a boy's mental attitude. Parental obligations all of us to instill in our children all that will contribute to their successful maturity.

The residents of Plainview are fortunate to have an organization dedicated to assisting in the development of the boys of the registration fee and the den dues community. The cub scouts program not only aids the parents in helping to obtain a better understanding with their sons but also supplements the parental guidance.

The Cub Scouts for boys between the ages of 8 and 11 years is a group to which the boys will be proud and happy to belong. In the Cub Scouts the boys learn to help each other. They learn to follow leaders and to be leaders. They learn to do things for themselves. The boys take part in the project program, learning to make birdhouses, feed stations, puppets, woven baskets and many other interesting objects. Most important, the boys learn to get along with one another. The Cub Scouts provide an endless number of pleasant experiences that the boys will long remember. The

are so small that they are practically negligible. All the money collected (\$60 for registration, 10c weekly dues) is used to purchase materials for their projects.

Far from being excluded, the parents are invited to attend the Pack meeting which takes place on the first Monday of each month from 8 to 9:30 P.M. at the Manetto Hill School. The boys have a den meeting of their own once a week during the afternoons.

Parents are invited to serve as Cubmaster or Den Mothers and Den Dads or on the committee. The parents can help their boy with his project too. The parents may attend any of the special activities that take place.

Harry Marx is the chairman of Cub Pack 13 of Plainview and Mr. Marx will be glad to visit any parent who wishes more information. His home at 14 Radio Blvd., Plainview, telephone Hicksville 3-0005-W.

You can help insure your boy's chances of assuming his proper place in society by having him join the Cub Scouts. The lessons he will learn and the attitudes he will form will influence his conduct all his life. With a firm basis such as this, there is little chance that a boy can grow to be anything but a fine example of the American tradition—a good citizen.
