SHE REALLY LIKES IKE

JUST RETURNED from the National Republican Convention in San Francisco, Mrs. Ernest F. Francke of Field Ave., Hicksville, wife of Nassau County Clerk Francke, proudly models the "Ike" dress which first made its appearance on the West Coast and is fast becoming one of the most popular gowns for Republican ladies. It is a cotton print with a wide skirt and fitted bodice. "Ike" is printed in red on the white dress.

In this picture taken at the Syosset Republican Club picnic and field day, Mrs. Francke is seen with

her husband who wears a T-shirt with a likeness of the President printed in natural colors. Mr. Francke is a member of the Oyster Bay Town Republican Executive Committee and GOP leader for Hicksville. He was a delegate to the National Convention.

Joining in the enthusiasm for President Eisenhower are, at left, Edwin Lehrenbech of Bethpage, Deputy Township Supervisor; and Assemblyman John J. Burns of Sea Cliff. (Photo by Jim Healy).

Board May Schedule New Referendum By November

HICKSVILLE—The Board of Education may schedule another referendum, probably in November, which will include the election of a Library Trustee for the balance of a five-year term. Other questions which may appear on the ballots are (1) purchase of the Willet Ave. school site, (2) transfer of a portion of the Burns Ave. school property to Stackler & Frank, and (3) another recreation proposal.

Reference to the Willet Ave. site was made at the special board meeting, Friday, attended by all seven members. Brown & Matthews, owners of about half the proposed site has asked to be released of their promise to hold the parcel for local action. The Board agreed to write the owners and promise a referendum "before the end of 1956".

The Burns Ave. question which includes trade of a piece of school grounds for a piece owned by Stackler & Frank is part of current negotiations with the builders of Mid-Island Shopping Plaza.

Acting on a request of North West Civic Assoc., a Safety Committee of the Board has been negotiating with Stackler & Frank. Residents want three streets—York, Prose and Winsor—which run into the 8,000-car parking lot barricaded to traffic.

In exchange for agreement to keep shopper traffic out of these streets, the School Board is ready to let Stackler & Frank have access thru a corner of the school grounds, important to the movement of shopping centre cars in and out the south west corner of the big parking field, via James St.

The School Board decided to continue the services of Frederick Tilney of the Government Statistical Corp. on applications for emergency aid and the sale of bonds recently authorized by the voters. President Emil Szendy was authorized by vote of six aye, Joseph Cawley abstaining, to sign contracts for construction of the addition to the Public Library, which was scheduled for Tuesday night of this week.

Powell Ave P-TA Adopts Theme

"The Child and His Surroundings" has been adopted as the theme for the program of the ensuing year by the Powell Ave. P.T.A. The aim of the group will be to give the parents a complete understanding of the child, in re-

gards to his life at school, at home and in the community.

In September, the teachers will be introduced to the parents at an informal reception. During the year, a picture of the child's development at school will be given through programs concerning the methods being used to cope with the educational and emotional needs of the child. Reading problems, mental health, bright and exceptional children will be considered in an effort to visualize the world and the difficulties which our children face.

The child in relationship to his community will be dealt with in programs dealing with the history of Bethpage, featuring an "Old-timers' Night" and more timely, the presentation of the Board of Education and its duties.

To complete the picture of the child and his home environment, the fathers will be feted at the annual Fathers' Night Program with its "Father of the Year" award.

As part of its last program, the Powell Ave P.T.A. will present a "This Is Your Life" program in which a surprise guest technique will be employed in honoring a local personage.

CURRENT COMMENT:

Old Country Needs Signal

By Fred J. Noeth

THERE ARE ABOUT A DOZEN locations at Hicksville street intersections which need traffic controls in the form of signal lights, but there are probably none which appear as urgent as the point on Old Country Road between Levittown Parkway and Newbridge Rd. where a new shopping centre has just opened.

The Duffy Park Civic Assoc. has been campaigning, unsuccessfully, for a traffic signal light at this point for more than two years. The recent opening of the shopping centre at this same location has added to the hazards and more sharply points up the need.

The procedure for the installation of traffic controls in our community is complicated by several factors. In the case of Old Country Road—which is a county highway—the recommendation of the county police department is apparently a requirement. Quite rightly, the county police authorities concerned with safety and traffic do not feel that traffic lights are always the answer. For one thing, traffic signal lights tend to slow the movement of traffic at points where the smooth forward flow of vehicles is important.

However, the Old Country Road situation becomes most acute with the reopening of school. The Old Country Road elementary school is located just across the street from the A&P and other new stores on Old Country Road. Many of the children attending this school reside north of the highway.

The establishment of a policeman at this school crossing has been some help, but it is not enough. For one thing, the policeman is only on duty during school hours. Thus children who utilize the school facilities after regular class hours—such as the playgrounds, gymnasium and auditorium for school clubs, Scout organization meetings and simply for spare time play—do not have the protection of a crossing guard. A traffic signal light, activated by a hand control on the curbside, would appear an ideal solution.

The school administration in past years has joined with the civic association, parent-teacher association of the school, and others in efforts to obtain this needed safety device. Another attempt is being launched and it is to be hoped that now that the stores are opened, adding to the internal vehicle movement, the police department will alter its formerly granite-like position and recognize the need.

Because of the county jurisdiction, the town board appears to be almost powerless to step into this situation. In the past, the Duffy Park Civic Assoc. has solicited the assistance of the township. At present the Civics' Safety Committee is renewing an appeal directly to A. Holly Patterson, county executive, and Friday night received the renewed pledge of support and cooperation from the Board of Education.

Meet Our New Local Reporter

By MARGIE NASS

WELLS 5-1553

I would like to introduce myself as your new reporter for this column. Margie Kern did a splendid job with the column and I hope I can do just as well. Please call me with your happenings.

I guess we all had a busy Labor Day weekend. We had a barbecue supper in our yard with Mr. and Mrs. Nehlsen and sons of Brentwood. The Bradys of 65 Cliff Drive also had a barbecue party with the Quinns and the McCloskeys of Sussex St. and the Banno's of Beech St. The Kerns of Cliff Drive spent a day of the holiday weekend visiting New Jersey.

The Gwaltney's of Cliff Drive returned home from Richmond, Va., Aug. 26, after spending a week visiting friends. Mr. and Mrs. Schmidt of Stanley St. had Mrs. Schmidt's sister and her daughter visiting them for a week. The Barhods of 90 Cliff Drive spent a week at Cannonsville, New York. Betty and Frank Mancuso and daughters went away last weekend. We all wish Jimmy Leonick of 89 Cedar St. lots of luck when he leaves the 21st of this month for the Marines.

Marilyn Mancuso of 94 Cedar St. had a beautiful birthday party on August 30. Her guests included Kathy Chiarelli, Charlene Nass, Irene Leonick, Ellen Depew, Karen Fox, Judy and June Diers and Marilyn's sister Chris, all of Cedar St., and Barbara and Debbie Acciolla of Massapequa Park. With the horns they received it certainly

ly sounded like a New Year Eve's party.

Happy birthday to Ellen Depew, who was 9 years old Sept. 14; to Carol Barhold, who was 6 years old Sept. 4, and to Ronnie Hagedorn of Cliff Drive, who was 2 years old Sept. 7.

Lots of luck to the Connolly family, who lived on Stanley St., who moved recently to their new split level home in Smithtown.

A welcome to Dominick and Jean Zinzi and their daughter Jean Marie, age 3, who recently moved to 2 Stanley St. They formerly lived in Plainville.

Get-well wishes to Mickey Gwaltney, who hasn't been feeling well lately.

Mr. and Mrs. Kenneth Jones of 95 Cedar St. announce the arrival of their fourth son on Sept. 6. He weighed 10 lbs. 13 ozs. The baby joins brothers Casey, Robert and Richard.

Mr. and Mrs. La Fontaine of 3 Ward St. announce the arrival of twin boys on Sept. 3rd. They weighed 5 lbs. 10 ozs. and 5 lbs. 12 ozs.

Quick Facts about HOUSEPOWER

Today, the average home uses 3 times as much electricity as it did 15 years ago. That's why 4 out of 5 homes now suffer from low-**HOUSEPOWER**. This is true even of brand new homes. Here are the conditions that cause you to have low **HOUSEPOWER**:

1. **Inadequate Electrical Service Entrance.** To overcome this basic cause of low **HOUSEPOWER**, you should have service entrance capacity of at least 100

amperes. This requires 3-wire service from the street.
2. **Overloaded Circuits.** Too many appliances on one circuit overload it and none of them get enough power. Motors may even burn out. If the overload is too great, the fuse will blow or circuit-breaker trip. You should have enough branch circuits to distribute enough electricity to all appliances.
3. **Insufficient Outlets.** Some homeowners use extension cords and "octopus" outlets (2- and 3-way plugs), or plug into lighting outlets. Such practices are unsightly, inconvenient, and may be dangerous. Rearranging furniture doesn't help. The only safe solution is to add more circuits and outlets.

These are the symptoms of low **HOUSEPOWER**: lights dimming when appliances are turned on; blown fuses or tripped circuit-breakers; TV picture shrinking when other appliances are turned on; appliances working inefficiently or taking too long to heat up.
If any of these symptoms are present in your home call your electric company, electrician or electrical contractor for a wiring check-up. If added wiring is necessary, your electrician or electrical contractor will do the job quickly, neatly, economically. It often takes less than a day. Remember, full **HOUSEPOWER** increases the value of your home.

CONTEST RULES

WHO MAY ENTER: Any use of electricity in the place of residence in the continental U.S. or Hawaii except employees (and their immediate families) of Electric Power Companies, Electric Leagues and Associations, their Advertising and Contest Agencies.

DURATION OF CONTEST: The first of the five monthly contests begins May 1, 1956. Entries must be received no later than last day of month to be eligible for that month's contest. Entries received after last day will be included in following month's contest.

Final monthly contest ends Sept. 30, 1956. Entries postmarked after Sept. 30, 1956 or received after Oct. 5, 1956 will not be accepted. Multiple entries will be accepted, provided an Official Entry Blank is used each time. Entry blanks may be obtained from local Electric Power Company.

HOW TO ENTER: Read carefully "Quick Facts About Housepower." Then complete entry blank below. Answer all questions. Fill in your name and address twice. Mail entry blank to "HOUSEPOWER CONTEST," P.O. Box 1888, Grand Central Station, New York 17, N.Y.

JUDGING: Judging will be done monthly by the Contest Division of Edison Electric Research, an independent research organization. Judging will be based on most correct answers in the multiple choice questions, and the degree of interest, aptness, originality, and sincerity of the statement completion. Grand prize winner will be selected from among the 25 top prize winners (five per month).

Monthly winners will be notified by mail approximately 6 weeks from close of each month's contest. Only one prize per household per month. Grand prize winner will be notified approximately 10 weeks from final closing date. Winners may be contacted by mail at the address given. 6-cent stamped envelope with your entry.

Contest is subject to federal, state, and local regulations. All entries become the property of Edison Electric Institute. Judges' decisions are final.

Each contestant consents and agrees that neither the sponsor of this contest, nor the Contest Division of Edison Electric Research, nor any of their regular employees, will incur any legal liability for any negligence, error, act, or failure to act in the sponsoring or conducting of the contest or the handling, or judging, of any contestant's entry, however, all due caution will be exercised to prevent the occurrence of any such errors.

Section 1. In addition to the amount of \$252,000 heretofore authorized by proposition adopted November 5, 1955, this Board shall expend an additional amount of \$60,000 for the construction of an addition to the existing Hicksville Free Public Library, all pursuant to the proposition referred to in the recital of this resolution, and in accordance with plans and specifications approved or to be approved by the Commissioner of Education.

Section 2. Pursuant to the proposition referred to in the recital hereof, and in anticipation of a tax hereby voted to be levied and collected in annual installments, serial bonds of the District are hereby authorized to be issued in the principal amount of \$60,000 pursuant to the provisions of the Local Finance Law, constituting Chapter 32-A of the Consolidated Laws of the State of New York, as amended, for the specific object or purpose described in Section 1 hereof. Section 3. The following additional matters are hereby determined and declared: (a) The addition deemed to be a new building, the construction of which the specific object or purpose to be financed by the bonds hereby authorized, will be so constructed within the rules of the State Department of Education and within the provisions of Section 11.00 a.12 (c) of said Local Finance Law that, although attached to an existing building, it will have a probable useful life not dependent upon the useful life of the existing building and the said addition will be of "Class B" construction within the limitations of Section 11.00 a.11(b) of said Law and the period of usefulness of said specific object or purpose within the limitations of said Section is twenty (20) years. Start Work On Hospital

By DIANE KAGAN

Residents who have noticed a sign pointing out the site for the new Plainview General Hospital along Old Country Road will be able to watch the sign being replaced by the building itself very shortly. According to Dr. G. A. W. D'Andrea, lack of structural steel, due to the recent steel strike, delayed the start of construction. At present, construction should begin in early fall and continue for nine months. Carey Street and Paul Green of Oak Wood Gardens Development Co. are the builders.

The new General Hospital, completely air conditioned, will occupy seven acres and accommodate 225 beds. Because of its modern equipment and methods, the hospital will probably attract not only local patients, but patients from all of Nassau and Suffolk Counties and Queens. The completed medical facilities will include such specialties as surgery, maternity, and dentistry. Painless childbirth and surgery minus psychological trauma for adults and children are among some of the newer concepts to be put into practice in the hospital.

SOUTH HICKSVILLE CHATTER:

Want Warning Lites On Water Tower

By CHARLES DESHAU

Residents in the area surrounding the water storage tank on Newbridge Rd. are quite upset by the absence of what they consider proper warning lights on the tank. There is only one small red light atop the tank, and unless the weather is very clear, it cannot be seen. Another thing is that the tank is painted black, instead of large checkered red and white squares, as is the tank off Lewis town Parkway, which has in addition a large revolving red light on the very top, and a series of smaller red lights all around the upper rim of the tank.

Newbridge Rd. area residents are especially jittery during bad weather lest some day a low flying plane may hit the tank. Another thing worrying some residents is the constant digging that has been going on beneath this tank for over a year. They fear that the undermining of the tank may collapse as a result.

Speaking of water it is interesting to note that the Commissioners of Plainview have announced a reduction in both water rates and water tax for 1957. The water rate is being reduced 10¢ per 1,000 gallons, and the tax, 7¢ per \$100 of assessed valuation. The commissioners said that this decrease can be effected despite the proposed expansion because of efficient operation of the district, and the in-

(b) the provisions of law which should be complied with at the date of the publication of such resolution are not substantially complied with,

and an action, suit or proceeding contesting such validity is commenced within twenty days after the date of such publication, or

crease in assessed valuation.

If Plainview can do, why not Hicksville? It is curious to note that our water rates have not been changed since Jan. 1, 1946, while our water tax has fluctuated quite a bit. Just a few examples of it is as follows: In 1952 the tax was 11 1/2¢ per \$100 of assessed valuation; in 1953 it decreased to 9¢ per \$100; 1954 showed another decrease to 7¢; while in 1955 it increased again to 9 1/2¢.

The Hicksville Fire Dept. needs considerable training on how to determine the seating capacity of the grandstands for their Labor Day events. The east grandstand was completely filled, yet admissions were still being sold, with the resultant confusion, blocking of the passageway, and shortened tempera-

This reporter and his family became so disgusted that at 1:45 p.m. we left and noticed many other people doing the same thing.

One way in which the grandstands could be seated properly is to paint numbers every so many inches apart on the planks, to represent seats. Then knowing in advance how many seats were in each grandstand the firemen could have tickets printed in advance for an equal number of seats, each bearing a seat number. These tickets could then be placed on sale beginning a week prior to Labor Day; with the remaining tickets sold at the entrances to the grandstand at the Tournament.

The John Commella's on Belfry La. returned from their Florida vacation, and report that they saw a grand time. They say that the one highway to Florida is a dream.

We hear that the Sterns on Belfry Lane, and the Jack Drulmans on Abbott La. are planning to move from Hicksville.

Welcome to new neighbors, Larry Saltzman's at 120 Brittle La. (This reporter and family visited the former occupants of that address, the Bobby Hinds' at their new home in Centertop, recently. Bob was saying that his son Bruce was giving him lessons on how to fish, but that he wanted to know why Bob couldn't fish from the plane as he flew over the ocean.)

Perfect Game Ends CYO Play

By ELWOOD S. KENT, SR.

HICKSVILLE—In the final game of the season and needing this game to clinch the pennant, Osterwick of the Giants hitched his belt a few notches and proceeded to issue no hits, no runs and no walks—the perfect game, to shut out the Pirates 9-0, in the CYO baseball league.

The Giants entered the fray a well-spirited team ably primed by Manager Lou Curtis who has had successful seasons in the past. He says he never closed out a season in this fashion before.

An apology is offered to Jerry Legge who, by the way, was the man who made the "prodigious walk" that cleared the school building in the recent game for coaches and managers. However, the claim is being made that Phil Gretschie hit a ball further but in a different direction, a serious consideration is being given to tape measure each hit to determine which was more "prodigious" than the other. Meanwhile, Scouts are being urged to restrain their activities until a final count is in.

Don't forget the Annual Dance and Sports Night programs coming up.

Head Coach Paul Bowler announces positions are still open for good football players with the will to win. Applications are accepted until today, Sept. 13.

Ho-Hum, Danda's Wins Again

HICKSVILLE — The overwhelming power of the Danda team is not to be denied. After being sustained by the great pitching of Ray Every through 5 innings, the Maulers of Woodbury Rd. reached him.

In the 6th, trailing by a score of 3-1, the eruption began with "Pops" Dizzino's blazing single through the middle. Ted Ivy followed with a blistering single to right field, Pops going to third. Pitcher Steve Ruggerio was walked after two were out. Then Steinmetz drove the tying runs in with a single through the middle.

In the 7th the roof fell in with none on. Four straight hits drove in the clincher.

Immediately after the game, Manager Frank opened the football season by kicking his glove from left field to the dugout.

Greater Tax Return From Garden Apartments Than From Factories

HICKSVILLE—There will be greater community advantage, from the standpoint of tax return and otherwise, in the development of garden-type apartment units on Bethpage Rd. and Andrews Rd. than thru the use of the property for industrial operations, it was noted today by William A. Mannilla, local realtor who is familiar with the management of industrial and multiple-dwelling projects.

An application for permission to use the industrially-zoned site for garden apartments is currently before Oyster Bay Town Board. While the hearing has been closed, residents of adjacent Seymour Lane claim that they have obtained more than 800 signatures on petitions in

opposition to the request.

Before the owners undertook the project, Mannilla pointed out today, they retained the services of the Governmental Statistical Corp. to analyze the effect of the project upon the community from the standpoint of municipal costs and problems.

Greater emphasis was placed upon the effect for the school districts. It is proposed to develop a 300-unit apartment project. Experience has shown that among the nearly 200 units on Richard Ave., there are only currently 27 children of school age residing there.

An industrial plant on the Bethpage Rd. site would produce only \$8,656.18 in tax revenue while the 300-unit apartment structure, after allowing for the cost of education of the children from the units, would on the basis of current taxes provide \$21,194.89 in additional tax revenue.

"The difference would be a net gain to the taxpayers annually and as school taxes and costs arise, the advantage would become even more marked in future years", Mannilla pointed out.

The other units of government in the area would receive increased taxes in the amount

of \$36,807.67 annually from the apartments as opposed to only \$11,865 for an industrial plant.

The study included consideration of other plants constructed in this area. It was found that the average assessed valuation per employee is \$894.77 and the average number of employers per acre is 34.4. As a result 250 to 300 persons would be employed there and since workers depend largely on their own autos for transportation, the traffic volume resulting would be about the same as for a 300-unit garden apartment.

"It was quite apparent", Mannilla continued, "that with the change in the general characteristics of the area due to population growth, school teacher housing needs, industrialization and the development of the Mid-Island Shopping centre, the garden-type apartments would prove beneficial to the community as a whole because of the effect upon the tax base."

It was also pointed out, in answer to claims regarding the effect of the garden apartments upon the water supply system, that in building a project of this type, all plans must conform to the building department, health department and water district regulations.
