Two Townships Help Commuters

Supervisor John J. Burns and Presiding Supervisor Palmer Farrington of the Town of Hempstead announced Tuesday a plan to aid the commuting Levittown residents who park at the Hicksville Railroad station. The plan calls for the issuance of parking stickers at the rate of \$12 annually (the same fee charged to all other non-residents) and permits them to park in parking field No. 16 on Cherry and Carl Sts where space is available.

The emergency program has been developed following a series of conferences between Supervisors Burns and Farrington and Councilmen Marjorie R. Post, Henry McInnes of the Oyster Bay Town Board's Standing Committees on Parking and Hempstead Town Councilman John Benoit of Levittown. The study took into consideration suggestions made by several commuter groups and individuals and included a review of the available area bus transportation by Ervin N. Hatch, Director of the Nassau County Department of Franchises.

SEEKING SOLUTION to request from Levittown commuters for parking spaces in Hicksville, were these Oyster Bay and Hempstead Town officials at a meeting in the Oyster Bay Annex on Broadway, Hicksville, Tuesday. Left to right are Councilmen Marjorie Post and Henry McInnes, Oyster Bay Supervisor John J. Burns, Hempstead Supervisor Palmer Farrington and Hempstead Councilman John Benoit.

Dear Jean..

The name of REMI WESNOFSKE, former Hicksville farmer, cropped up on the financial pages of the New York Times last week. Remi now farms out in Suffolk and he is quoted as saying (in an article about how soaring costs beset LI farms) that the present day owner of a 60 x 100 home plot on South Oyster Bay Rd. today could have bought 5 acres there for the same price 20 years ago... Don't forget to check the expiration on your operator's license. Many run out on Sept. 30... Something going on at Broadway and W. THE MARRIAGE RING

CARL FELDHAMER, Marriage Counselor

We hope by the means of questions and answers through this column to help solve some of the problems which are common to many of our readers. Please direct your letters to "THE MARRIAGE RING," Mid-Island Herald, Hicksville, N.Y. All letters published will be signed with coded initials. Letters which cannot be answered in this column will receive an answer by mail.

WORRIED ABOUT HUSBAND

Dear Sir:
I have been married about seven years and until recently I thought my husband was a happily married guy who was still in love with me. I have three beautiful children who adore my husband. About four months ago my husband started getting home at late hours claiming each time that he was working late. He has grown cold towards me and ignores my questions concerning his late hours. I have reason to believe that he is seeing another woman and I don't know how to stop him. I still love him. I would do anything to bring him back to his old self. Can you help me?

AE 32

Dear Worried:
You believe your husband is seeing another woman. I have to believe that this is so from the facts you gave me. Assuming it is true let us find where the fault lies. It is possible, as has happened in many marriages, that you and your husband have taken each other for granted. Being tied down with three children and housework, you probably have neglected your own appearance and your attentiveness to your husband. It is difficult for a woman to appear beautiful to her husband when he arrives home from work after she has taken care of the house and family all day. The average man forgets about the woman's difficult day. He expects his wife to be a good mother and housekeeper, a Hollywood queen and his mistress, and a mother to

him at the same time. He wants to be greeted at the door (at the cost of his hard day) by the girl he was courting before he married you. He wants the dinner table set in a continental setting and he wants to be able to cry on your shoulder. All this is what your husband or any husband would like. Of course this is a difficult if not impossible task for the average wife to accomplish.

To save your marriage you must fight for your man using all your feminine wiles to woo him back. Let your husband know you are into a new and different you. The money will be worth the results. When your husband arrives home try to get your children out of sight so that you can concentrate on him and he on you. Pretend you are not married. Give him the same attention you gave him before you were married. You will probably be surprised as to how he responds. He will certainly realize that he has something good at home and his extracurricular activities are a juvenile waste of time. After this it's up to you to keep him coming home on time.

GOOD OLD MOTHER-IN-LAW

Dear Sir:
About a year ago my father-in-law passed away. Three months later my mother-in-law moved into my home without getting my permission to do so. My wife is terrified of her mother and does everything her mother asks her to

do. My wife prepares special dishes for her mother and these are the dishes I usually can't eat. My mother-in-law is on a salt free diet therefore all my food is also salt-free. My mother-in-law must have a quiet house, therefore I must be in bed at 10 P.M.

My mother-in-law still has her own home which she visits once a week to clean up. I've tried to tell her in a nice way that I'd be much happier if she went back to live in her own house and visit us about once a month. She won't take the hint. I've asked my wife to speak to her mother but she is too terrified to do so. If this keeps up, I'll wind up in an institution.

Saltless Son-in-law
Dear Saltless:
Don't be spineless. THROW HER OUT.

Dear Sir:

I'm thirteen years old and my mother won't let me go out on dates like my girlfriends do. Will you write my mother and tell her to let me go on dates?

AJK 13

Dear Thirteen:
Go back to playing with your dolls. Your mother still knows best.

There's No Business Like...

by Isabel Davis

The aroma of burning hair is strong in the air. There's a sense of anticipation and excitement and the grapevine is working overtime. To the ever-growing numbers of people who are interested in community theatre, it can mean but one thing... it's casting time.

Casting time presents a rare phenomenon. People who otherwise have little to say to each other are bursting with things in common. People who never were going to try out for another play decide to give it one more chance. Those who weren't going to find the time suddenly find it; those who were going to pass by "just this one", decide it's too good to miss and those who feel there is so part for them in this play figure it's good to get the reading experience.

They are all right, of course. There is always time to do something you want very much to do. It is wise to read just for the experience and DETECTIVE STORY, with its huge cast and omnibund appeal of comedy and drama is too good to miss. At this point, all can realistically have the hope of getting a part.

How is a play cast? A call goes out to the community, not only for those interested in acting, but to anyone who is interested in doing any kind of work for the theatre group. Background, publicity, sales, art — all talents are needed, and actors are the most expendable. All can participate in the adventure of a production from the very beginning and the initial step is the try-outs. Nobody knows who is going to get a part. The cast is chosen by a professional director, an outsider to the group, and he is interested in just one thing: to choose a cast which he thinks will give the best performance. Experience and seniority have nothing to do with the casting except inasmuch as they have nurtured talent. Talent is the only basis of choice; that, and what is called an "affinity for a part", which means that a slightly less talented person may get a part for which

he is very well suited. A director has to be able to visualize a person in a particular role. For this reason, incidentally, some people who want a specific role will come to try-outs looking as much like the character as they can without being too obvious. For someone who wants only a special role, and wants it badly, this makes sense.

For the majority, who would rather be in the play in any capacity, the neutral approach of coming down as yourself seems to be the way. Anyone can read for any role, and for as many roles as he would like. It also happens that the director asks you to read for a part that you had not considered if he can see you in it. Anyone who cares at all will read the play beforehand. This is the minimum of preparation, for it is pointless to be handicapped in a reading by not knowing the material and thus stumbling through. Copies of the play are available to anyone by calling MIMI GRUBER at WE 8-8048. Many prepare further by reading parts aloud and by acquiring an understanding of parts in which they are particularly interested. This adds a little confidence in reading, but a director will invariably ask you to "just read simply" and most will be amazed if you try to "act".

The director for DETECTIVE STORY is Sully Michaels, a professional actor with long years of Broadway and summer stock experience. He has also worked with little theatre groups all over Long Island as a director and directed the Jericho Players' production of THE TENDER TRAP, last fall. It is interesting to note that the major roles in that play were given to people who had never played leads in any of the Jericho Players' productions, and in many cases had never been on a stage.

DETECTIVE STORY is the play for anyone who has ever thought about giving the stage a try, particularly any man. There are 25 male roles and 9 female roles some of them long and demanding, many of them short and fun, and several walk-ons, the last being an excellent way to get the feeling of being on a stage.

Civics Object To Store Signs

by George J. Frankel

The Board of Directors of The Birchwood Civic Assoc. has gone on record officially as being opposed to the granting of variances that would allow a tower sign to be erected on the Floyd Bennett Store currently being constructed in the Birchwood Shopping Center. Irwin Baumele, President of the Civic Assoc., called a Special Meeting of the Board was informed that representatives of Floyd Bennett Stores had made application for two variances to erect signs on the new store being built in the Birchwood Shopping Center which would be in excess of the size permitted by ordinance. The applications were to have been heard before the Zoning Board of Appeals on Thursday evening, Sept. 7. (See article elsewhere in this issue of THE VILLAGER on this hearing.) It was explained to the Board of Directors that, although the Town Ordinance allows signs to be no larger than 120 square feet in area, Floyd Bennett was asking the Board of Appeals to grant variances which would allow for two large tower signs.

(A tower sign is a sign that is supported above the building on which it is located rather than attached to the face of the building.) The SMALLER on these two signs would face the parking lot in front of Waldbaums, and would measure five feet by two hundred feet, or 1000 square feet, while the LARGER of these signs would face Milleridge Inn, and would measure six feet by three hundred feet, or 1800 square feet. Both of these signs would be erected a number of feet ABOVE the roof of the Floyd Bennett building.

The Board of Directors of The Birchwood Civic Assoc., moved to (a) oppose the granting of variances currently being applied for and (b) oppose the granting of a variance to allow ANY TOWER SIGN of a size in excess of that allowed by ordinance.

Committees were immediately formed to (a) contact both political parties, (b) contact the Jericho Joint Civic Council, and (c) contact the Jericho Jewish Center, for assistance in the implementation of these motions.

Jericho vs Floyd Bennett

by George J. Frankel

Approximately 65 residents of Jericho, each bearing a tag which proclaimed "Jericho vs Floyd Bennett" appeared at the Zoning Board of Appeals meeting in Oyster Bay Town Hall on Thursday, Sept. 7. The occasion was the application of the Floyd Bennett Stores for "variance to erect a tower sign having greater width and area than the Ordinance allows", on its new Jericho store.

A description of the two proposed signs was supplied by the L.L. Neon Light Co., represented by its owner, Mr. Siro, and its attorney, Mr. Friedman. The sign on the north side of the building (facing Birchwood Shopping Center parking lot) is to consist of 18 individual letters, each 7 feet wide by 5 feet high, with a 3 foot space between the letters.

The sign on the West side of the building, (facing Milleridge Inn) is to consist of 18 letters each 8 feet wide by 6 feet high with a 3 foot space between the letters. The overall dimension of the South sign would be 5 ft. by 200 ft., or 1000 square feet, and the overall dimension of the West sign would be 6 ft. by 300 ft. or 1800 square feet. In both cases, the Bottom of the sign would be 6 feet ABOVE the roof of the building, so that the signs would extend 11 and 12 feet respectively over the top of the new store. The letters would be black, on an illuminated background. Each letter would be illuminated with 480 watts of fluorescent tubes. Since there would be 36 letters in all, the total illumination would be approximately 17,000 watts!

It was explained that Floyd Bennett needs signs of this type in order to maintain conformity with signs on other Floyd Bennett Stores, and that it must be situated above the roof so that it can be easily seen, and will attract customers.

Objection to the granting of this variance was voiced firstly by Irwin Baumele, resident of Jericho and President of the Birchwood Civic Assoc. at Jericho. Mr. Baumele informed the Zoning Board of Appeals that the Board of Directors of the Civic Association had met two days prior, and had

voted to oppose the granting of the variance. (See article elsewhere in this issue of THE VILLAGER). Mr. Baumele stated that such signs would lend no dignity to the community of Jericho, and would not be in keeping with the high standards of exterior decor that have been established here. He presented letters from the Birchwood Civic Assoc., at Jericho, the Jericho Jewish Center, the Brookville Taxpayers Assoc., the Jericho Republican Club, the Syosset-Jericho Democratic Club, and the Princeton Park Civic Assoc., all in opposition to the granting of the variance. In question, Mr. Baumele indicated that representatives of the West Birchwood Civic Assoc., and the Jericho Civic Assoc., were present, and would voice the objection of their organizations.

Dan Sirota, a resident of Merry Lane, whose property is adjacent to that of the store, stated that the sign in question would face directly into the bedroom windows of his home, Mr. H. Faithful, of Hawthood Drive, stated that the store presented a drab, oppressive wall towering over his home a few feet from his backyard, and that the entire situation was a "disgrace".

Mr. J. Glass, Vice-president of Floyd Bennett, announced that Walt Whitman Nurseries has a contract to plant shrubbery and trees to screen the building from the adjacent residences. Mr. Marino, a resident of Merry Lane, stated that the structural steel of the building has already affected his TV reception, and that the steel of the proposed tower signs would be even more detrimental.

Ralph Diamond, Chairman of the Board of the Birchwood Civic Association, stated that he had come to the meeting prepared to combat the legal arguments that might be presented in favor of granting the variance. He stated however that, since no legal argument had been presented in favor of the variance, there was nothing for him to combat, and that, in his opinion, the Board of Appeals had no alternative but to deny the application for a variance.

Jerome Murry, Jericho resident, stated that no hardship had been shown by Floyd Bennett, and

JERICO VS BENNETT

(Cont. from Villager front page)

no legal argument in favor of the variance had been presented. He agreed with Mr. Diamond that the application should be denied.

Carl Grosswiler, Chairman of the Zoning Board of Appeals, stated that his opinion was that the objections raised are to a "tower sign". He stated that the feeling of the Board is that, if a retail store has a hardship, some variance should be granted. He invited the interested parties on both sides to meet with the Board on the site of the construction, to discuss the situation and try to reach a mutually agreeable arrangement. Very often a situation arises in our community that requires the attention of the Civic Assoc. the Civic Assoc. has no firm ground on which it can take stand. As is reported in the VILLAGER, we are currently involved in just such a situation. The Floyd Bennett Stores has applied to the Town Board of Appeals for a variance to erect two extremely large signs on top of their building. No matter how strongly the Civic Assoc. feels about this request, and believe me in this instance we have very strong feelings, legally the only people involved are the permittee people. At the Oyster Bay Zoning Board of Appeals hearing, on Thursday, Sept. 14th, your Civic Assoc. appeared to lend its moral support to those who opposed the request for a variance. They were supported in this position by every other Civic Assoc. in Jericho, including clubs, and the Jericho High School. The action taken by the Civic Assoc. was the result of a fully attended emergency meeting of Director's meeting, held on Tuesday, Sept. 5th. Members of the Jericho group joined the Civic Assoc. at this meeting. At this meeting a plan of action was devised in which the Civic Assoc. would throw the weight of its support behind the people who were opposed to this variance. In discussing this situation I think the point that conditions of this clouded legal nature often exist. Individual efforts of home owners can never exert the kind of pressure that a six-hundred member family Civic Assoc. can. I have always been our function and I continue to be our reason for existing... to assist members of our Association in problems such as this, in every feasible way.

A second item of interest to the general membership is our new description sales effort for the coming concert season. The Birchwood Civic Assoc. as they were last year, will again be affiliated with the Mid Island Concert Assoc. We will assist in the sales of tickets and the promotion of the Cultural programs. We anticipate that two of the four concerts will be held in the Jericho High School Auditorium. There were over 300 Jericho subscribers last year. I hope that you will again enthusiastically support this effort. New York University Extension Division has again requested our sponsorship for two courses. The courses are "World Politics" and "Looking at Modern Art". There will be further information on these courses, which are being given in Jericho, in the coming weeks.

Wingtip Cars

If you happen to be riding along Route 110 near Melville, next Sunday, Sept. 17, you will probably be witnessing a procession of some 10 to 125 old Model "A" Fords, looking spanking new, as they converge from Westchester, New Jersey and Long Island, The F. & M. Barker Brewing Co. has turned over its Melville depot to the meet for the day, and prizes in several categories will be awarded by the club's brewer-host.

Syosset Enrolls 8800 Students

By Horace Bernstein

Classes began last week for more than 8800 students in the Syosset School District. Dr. Phillips stated that by proper predicting as far back as 1954, there is at the present time adequate classroom space for the school year ahead.

With the opening of the Harry B. Thompson Junior High School sufficient classroom facilities will be available for 7th and 8th graders, as well as 5th and 6th graders from the Willets School. The District's entire 9th grade will be at the South Woods Junior High School this year so that the High School will only contain 10th 11th and 12th graders which is according to the original plan. While additional population growth in the District is subject to some speculation, the Administration and the Board of Education will work with Town Officials and citizen groups in analyzing current and projected census figures. School officials have promised that they will keep the public informed as to their plans and proposals to avoid over-building while providing necessary schoolroom space.

Plan Building For Library

A referendum for a library building has been agreed upon at a joint meeting of the Bethpage School Board and the Library Board of Trustees on Sept. 5. The referendum will be held next time in February. The Board of Education has allocated a site for the construction of a library building on Powell Ave., subject to the approval of the taxpayers.

The present quarters of the public library are wholly inadequate to meet the ever increasing reading needs of Bethpage residents, said Louis A. Sisk, President of the Library Board of Trustees. During the last three years the library's book stock has increased from 15,000 to 26,000, the number of registered borrowers has risen from 5,000 to 13,000 and circulation of library materials has reached an all time high of 200,000 for the past fiscal year.

A library building will not only house a sufficient number of books and allied materials so badly needed in the district, but will also provide a home for cultural and educational activities of community groups. Mr. Sisk expressed his sincere gratitude to members of the Board of Education for their fine cooperation and continued interest in public library affairs.

Pamela Kelley, daughter of Mr. and Mrs. John R. Kelley, Sr., 16 Balsam Dr., Hicksville, is one of 278 freshmen who have been accepted by Randolph-Macon Woman's College at Lynchburg, Va. for its 1961-62 academic year.

On more than one occasion it has been my experience to overhear many adults of our community discuss the actions and antics of their neighbors' children at Sandys, the so called hangout of Birchwood's younger set. A generalization of their main cry would be the fact that girls and boys ranging from thirteen to eighteen are seen in various attitudes, smoking, parked in cars, or just standing around this meeting place looking ready for the kill. Our adults feel this is not becoming to the community, nor very slightly for visitors passing through.

Although those who congregate at Sandys come from all parts of Jericho, the majority are from our Village of Birchwood Park. Being a SEVENTEEN year old myself, I feel that rather than waste their time criticizing the fancied wrongdoings of our teenagers, it is the job of the adults, who always manage to get a say in matters that they want done, to arrange through our Civic Association or other interested organizations, some type of meeting place and recreation center for those in the thirteen to eighteen year old age groups to spend their idle time in.

I for one know that many of the youngsters that are being put down by the adults of the community would be more than happy to work along with their elders to arrange a center of some sort. Do you really think these kids can stand outside Sandys forever?

Unfortunately, the summer is at

an end, but as the fifteen and sixteen year olds become sixteen and seventeen, the twelve and thirteen year olds will gain a year too, and the parents who sit back thinking they have no problem since their children are nine and ten should stop and think now that they will need a place to spend their free time in a year or so. It's been said before but it's still so true. "It's better late than never," so if you are interested in solving this problem please contact the Board of Directors of the Civic Assoc.

"WE GET MORE HEAT FOR LESS!"

Since we switched to OIL HEAT our entire home is much more comfortable!"

says Mrs. Jacques Goldman, 276 Bel Air Drive, Massapequa, L. I.

"When we heated with gas the house was never quite warm enough and the bills were too high. I was constantly afraid my daughter would be catching colds. Then a friend of mine told me that OIL HEAT kept her home warm and comfortable even on the coldest days... and was a lot less expensive, too. So we decided to switch to OIL HEAT. And let me tell you, I couldn't be more delighted. In the first heating season alone we saved \$165.00. And now every room is as warm as a lovely summer day. Switching to Oil Heat was the sanest thing we could have done."
