Herald Editorial Opinion :

Bar Recorder at Rd Hearing

We were prevented from bringing a portable, battery-operated tape recorder into the public hearing by the State Dept of Public Works on the proposed widening of Newbridge Rd in an East Meadow junior high school building this week. We were not even allowed to leave the inoperative device lying on the end of the stage to save ourselves a trip back outside to the parking lot.

We were told politely but firmly by E.J. McGinnis, assistant district engineer, who presided at the hearing that it was "against the rules of the hearing and the ruling of the state (PW) dept at Albany" to have a tape recorder at the hearing. We were also told that a stenographer would take the record and presumably, for a fee, we could obtain a transcript.

It soon became apparent why the recorder was outlawed. At the very start of the hearing, McGinnis stood to the side of the podium with some introductory ground rules and said that when he took up position at the speaker's stand, the hearing was on the record. He added: "from now on, be careful what you say". He read the legal notice of the hearing, published in Newsday and LI Press (but few apparently saw it) which included the statement "the proceedings will be recorded"; obviously not by tape recorder and certainly not with our gadget which is about the size of a cigar box and Almost every action thereafter was

directed toward the precious "record of proceedings". Persons in the audience addressing the chairman were asked to step to the front and face the stenographer and cautioned to "speak slowly". On several occasions, McGinnis turned to the stenographer and directed that certain comments he made were "off the record". She dutifully stopped typing

each time. What bothers us about all this is not that we were prevented from using our recorder on this particular occassion. The spool capacity on our machine was too limited to permit a full - length recording. We simply wished to tape certain highlights to permit direct and accurate quotes. We have used the machine before for this purpose in other official gatherings.

What does bother us is that this is obviously a line of policy taken by the State Public Works Dept and can be utilized when there are heated controversial matters subject to public hearing. Some public officials hate to be recorded when they make lapses or slips which can result in subsequent correction. So you have a stenographer make a transcript and you get

a chance to look it over before it becomes a public record and those embarassing slips can be corrected.

As for tape recorders: they have become as common as many household items. Small portable battery - operated machines used to be expensive. We have one which cost less than \$20 and serves the purpose for note taking. A woman could slip it into her pocketbook. Public bodies should not discourage their use, within reasonable limits. Not too many years ago picture taking was sharply restricted. And yet, Monday, a man from a daily paper shot pictures within three feet of the head of a speaker. Certainly the taped quotation is much more accurate than our limited self-invented form of note taking. If we had any desire to conceal the fact that we were planning to tape record, this could have been easily arranged. Some recorders have been devel-oped which approximate a king size pack of cigarettes.

Fortunately, Hicksville School Board does not discourage recorders although we were once some years ago ordered to disconnect a machine before the meeting would proceed. At a very recent meeting there were no less than THREE recorders being operated at the same meeting by three different interests. Administrators, Board members and the general public to varying degrees find it useful in clarifying points of dispute to replay portions of the official minuterecordings. There is now an official tape of every decision, cough, sneeze, chuckle and outburst going back over five years.

We know of no single instance where a tape recording of a Board of Education meeting has been used in a manner to the detriment of the educational system. Time may prove us in error, but has not as yet.

Theatre Noise Volume Rises

As a result of the increased volume of sound from the West-bury Drive-In Thearre, the West Birchwood Welfare Committee again called on Mr. Marshall, the manager to help curtail this disturbance.

Misturbance. Mr. Marshall assured the com-mittee that he would try to limit the sound, but admitted that it was a considerable task to check on over 1800 speakers in his theatre. However the promised to remind his personell to in-spect the speakers when pos-sible to ascertain that unused speakers were turned down. The committee advises anyone being disturbed by the sounds from the movie to call Mr. Mar-shall at ED 4-3402 or ED 4-3409,

Pool and Shop On New Ballot

In view of the favorable action by the School, District electorate on the proposed extension to the Jericho High School, the School Board has decided to resubmit the Board has decided to resubmit the swimming pool and the school bus maintenance shop issues to the voters in a new referendum to be held at the High School on Aug. 13. The poils will be open from 2 p.m. to 10 p.m. The iss-nues will be discussed at an open information meeting at the High School on Aug. 8. The School Board points out that a evaluation to the school of the school of the school board points out

The School Board points out that a swimming program has been recommended by the State Education Dept. as part of the regular physical education pro-gram. One of the major reasons clied in favor of the swimming pool is the need for a recreational facility within the community. The School Board notes that the pool will be open to residents on a normal fee basis. A second vote on the pool issue has been urged by various groupe and individuals in the community. The State Education Dept. re-quires tht an additional gym-nasium be built along with the high chool extension, but will permit a swimming pool as a substitute. The cost of the pool is estimated to be \$100,000 greater than the cost of a gym-nasium. Amortized over a period-ol 30 years (with interest in-cluded) the annual cost on an individual taxpayer basis will be 88 cents per \$10,000 of assessed valuation. In addition to the con-struction costs, coathued fund-ing must be provided for the wages of a half-time custodian and the purchase of pool chemi-cals. Investigation has revealed that these funds would most prob-ably be derived from fees for public use of the pool. The school Board notes that all bus maintennee is now done outdoors or sent. to pri-vate contractors, and that a school owned facility will con-sit and pit combination, and a storage area. Reader Opinion:

DEPLORABLE STATE OF AFFAIRS

To the Editor:

It is a deporable state of affairs when a community's sole newspaper is guilty of the card-inal sin of journalism - irrespon-sibility. This statement is in affairs when a community's sole newspaper is guilty of the card-inal sin of journalism. Irrespon-sibility. This statement is in reference to the article which blemished the from page of "The Villager" on July 18, 1963, It was deceivingly entitled: "Hail, Hail - The Gang's All Here". This article was saturated with misleading statements, untruths and fantasies obviously fab-ricated by an overactive ad-olescent imagination. We the uneducated masses of minute-mas wish to speek on

We the uncducated masses of minute-man wish to speak on our own behalf. The "rejected members of this misoriented bourgoets society" plead in-nocent to the fallacious accusta-

tions which are implied in Mr. Miller's article. A cursory ex-amination of said article by any person acquainted with the cir-cumstances which prevail would inevitably end in tumultows laugh-ter. The alleged existence of such things ad as delinquent organiza-tions, the propulsion of pro-jectiles (excuse the assonance), and the unauthorized use of motor vehicles in competitive sport is vehicles in competitive sport is

Although we underliably con-gregate at minute-man our situation is unfortunately dictated situation is unfortunately dictated by the lack of proper recreational facilities. Instead of the burning remarks offered upon an later of sarcasm, constructive crit-leism by the author would have been more appropriate. The author is obviously the product of a sheltered home where his hours of liesure are occupied by the bedonistic activities of the idle rich. We are sorry that he finds it a source of amusement
