Three Years Effort Lost, Ed Teverini Begins Anew

Edward Teverini who has earned an international reputation for himself and the Hicksville Rotary Club in his efforts to collect Rotary banners and messages from Rotary leaders in nations around the world is sadly starting over again on a monumental task which was nearing completion until a few weeks ago. Enroute home from the Rotary Convention in Toronto he was separated from his precious collection of documents.

The efforts of police of two nations, posting of a cash reward and several return trips to Toronto by Mr. Teverini have failed to turn up the suitcase containing 147 International banners and documents from the leaders of 41 countries. Trans-Canada Airline wants to make a cash settlement for the loss, but as the Hicksville Rotarian points out, money has little meaning when compared with the loss of something which represented thousands of miles of travel, widespread international correspondence and diligent effort going back to the International Convention in Tokyo in June 1961. That year he obtained what everyone told him was impossible to get -- the "signature" of the Emperor of Japan.

Fortunately, the document from the Emperor of Japan and certain other valued signatures and greetings were not among those in the missing and much sought-after suitcase. "I must start all over again" Mr. Teverini says sadly. "But I will and continue until the task I have set for myself is completed."

Bishop Assigns Two Priests Here

New local assignments for two priests have been announced by the Most Rev. Walter P. Kellenberg, D.D., Bishop of the Diocese of Rockville Centre.

The Rev. Francis M. Casey has been assigned as an assistant at the Church of the Holy Family, and the Rev. William J. McLeod has been appointed an assistant at the Church of Our Lady of Mercy, both Hicksville.

Sears Seeking Sign Variances

One thing is apparently certain about the new Sears Roebuck and Co store under construction on the east side of North Broadway, Hicksville. People will have no difficulty recognizing whose place of business it is.

There are 18 applicants pending before the Oyster Bay Board of Appeals for its regular meeting on Wednesday evening, Aug. 5, seeking special permission to erect various signs.

Picturesque Pickets Parade in Protest

Unneighborly neighbors of the Hicksville Water District pumping station on Stewart Ave. (Hempstead Ave) got a lot of publicity this week by staging a repeat picket line, Monday, protesting construction of a 2,000,000 gallon water supply storage tank in their vicinity. Their appearance coincided with the arrival of construction workers digging the foundation for the ground-level tank.

Clad in swim suits for the most part, including some old-time costume rented for the benefit of photographers, they paraded Monday morning and again in the afternoon displaying signs: "down with the tower," "sink or swim," "goodbye to gracious country living," "water tower go home," "no war attacking," "keep the flying saucers on Mars," "put a tiger in your tank," "give us more air", etc. It was reported that a petition of protest was circulated in the Acre Lane area and spokesmen were to meet with the Board of Water Commissioners Tuesday evening.

A public hearing on the proposed installation was held by the state water authority last February. Bids for the project and contracts were awarded about a month ago.

The tank will be similar to the one installed at the main office of the Water District on

Dean St. Built of reinforced concrete, it is partially underground with a domed top rising to a height of 45 feet above the ground level. The Dean St tank has been painted dark green to blend with the lawn and is landscaped.

Reports in circulation about the tank appeared to be in some error. The tank is not "above ground" but partially below ground level. There is no tower or elevated structure involved in the project. The tank is needed, according to authorities, to supplement the storage facilities of the water district to meet peak demands on hot days and in case of emergencies, such as fire. The district currently has four storage tanks, three of which are elevated and above ground, and one partially submerged. They receive their supply from 14 wells in the District.

The opposition to the latest tank is being organized by a group calling itself the Hicksville Emergency Citizens Committee. About 25 men, women and children took part in the demonstrations, Monday.

Dear Lynda:

WILLIAM A CISLER is retiring from the L.I. Lighting Co., internal audit, as of Aug. 1 according to the LILCO NEWS. He is a com- missioner of Hicksville Water District... Hicksville High Summer Band was scheduled to present a concert under the direction of J. DAVID ABT at the New York World's Fair on Tuesday afternoon of 7 week. JERRY MALER, senior, was to be trumpet soloist... Many happy returns and best wishes to WILLIAM E. KOUTENSKY, president of L.I. National Bank, who has observed his 45th year with the friendly, home town bank...

JOHN FUNFGELD of Richard St. recently underwent surgery at Syosset Hospital...

We were shocked to hear of the passing last week of FLEM HARDING, well-known former political figure. News of his death came after we had gone to press... Hicksville Rotary Club will hold its regular meeting of Aug. 20 at the Texas Pavilion at the World's Fair. They will go by bus... Our wonderful Hicksville Fire Dept. Ladies Auxiliary won first place for best appearance on July 18 at Westbury... VICTOR F. ST. THOMAS, CPA, of Hicksville, is a member of the Committee on Governmental Accounting of the New York State Society of Certified Public Accountants. You should see SAM ELKIN in action at a Rotary luncheon acting as friend and attorney for his pal, AARON ROCHMAN...

FRANCES SIMILE of Hicksville, has been awarded the "Most Courteous Clerk Award" at the A&P store on South Oyster Bay Rd., Plainville, Congratulatory, Frances... Tickets for the preview showing of the Beatles in "A Hard Day's Night" were to go on sale Wednesday at 11 a.m. at the Hicksville Theatre on E. Marie St. We hear the line of teen agers was around Broadway by 7 that morning... Residents in the area of the Dutch Lane School were circulating a petition this week opposing the erection of a large water storage tank next to the Boos property on Stewart Ave.

A new arrangement of loudspeakers at the teachers' lounge in Hicksville High School where school board meetings are held should make it more convenient for spectators to hear the discus- sion at the Board table, starting this Friday night. The equipment was tested last week... Here's an item from an upstate paper:

An editor was one day confronted by a gentleman who exclaimed "In your paper you report that I am dead". The editor replied "You may rely on the truth of everything you read in our journal". But his visitor was not comforted by this assurance and asked that a contradiction be published in the next issue. To this the editor firmly declined assent; but, being pressed to make some amends, he finally offered to insert the gentleman's name in the following day's list of births... FRANK MURRAY offers his own definite label: "Pay now and write later"... And then there is the matter of the new Whist Club organized by GEORGE CONNOR. FRANK says he throws a few games to give the students confidence... HERBERT W. PURICK, CPA, of Hicksville, has been elected vice president of the Cattaraugus Accountants Guild of the Diocese of Rockville Centre for the 1964-65 Guild Year. He does the auditing for the Hicksville School District... One good thing, we suppose, has come out of the widening of Woodbury Rd and the destruction of its mighty trees. It is now possible in the evening to see the L.I. Natl. Bank illuminated roof sign from as far away as Bethpage Road intersection...

Headquarters, Mineola, attended by all town and city leaders and all GOP candidates for state leg- islation, the following statement was unanimously adopted:

"We believe that the Republi- can Party remains the best polit- ical instrument for protecting the American way of life and achieving the aspirations of the American people.

"The vigorous and sharp dis- cussions and airing of differences at the time of the National Con- vention were, in our opinion, helpful to the Party and Informative for the people of this Nation. No national political party can or should be so monolithic as to be incapable of allowing for differences of opinion."

Operation VFW

William M. Gouse Jr.
 Post No. 3211
 by Eddie Kiebing

Readers of this column are aware of the VFW's opposition toward the sale of U. S. wheat to Russia. Now that opposition grows stronger as word comes from a captain and his mate that they witnessed American wheat unloaded at a Russian seaport and reloaded aboard a vessel for transshipment to Cuba. In a news release issued by the Public Affairs Officer of the Veterans of Foreign Wars, Commander Joseph Lombardo, called for suspension of all U. S. wheat shipments to the Soviet Union pending an investigation of these recent reports. If found to be true, it would be a direct violation of the terms under which the wheat sale was made to the Kremlin.

In the release, Commander Lombardo stated, "It would appear therefore, two vital issues are involved. First, the Soviet Union breaking its agreement with the United States, and two, the use of U. S. wheat as a means of strengthening the Castro Communist regime in Cuba. If this is happening, then the United States finds itself in the strange position of building up a regime dedicated to our own destruction.

Commander Lombardo concluded with the statement, "This entire episode of a U. S. mer-

AN EDITORIAL:

Traffic Mess Gets Worse

We thought that when the LIRR trains began to run overhead on the mainline that most of our traffic problems (as least as far as east and west movement is concerned) would be eased. This, however, has not been the case. Nicholai St. crossing has been shut for more than a week and Old Country Rd for almost as long---with a resultant mess funneling all traffic along Marie St.---while new road grades are established and concrete is poured. It is all having some very telling effects upon local business and trade.

CUMMINGS 'N GOINGS:

Just A Matter of Time

By JAMES CUMMINGS

By the time most return from vacation the major portion of Hicksville R.R. Elimination program will have been completed if all goes well. . . At present the tie-in with the Port Jefferson line has become very "concrete" at last pouring as we watched first hand with County Clerk Frank Anderson and Carl Gruenwald, Town Councilman. . . Broadway and Jerusalem Ave., have been repaved ahead of schedule (on the Broadway side due to a slight question of height). . . A meeting on the Esculador District was held at Town Hall, Oyster Bay, Wednesday (at press time) which we attended representing the Merchants Assn. at Mid Island Plaza going on record in favor of the earliest possible start of the esculador program. . . More and more trains continue to run on the elevated structures thus reducing the number of crossing stops for traffic in general.

AOH RECEIVES NAT'L RECOGNITION: Division #11, Hicksville Ancient Order of Hibernians was cited in the National Hibernian Digest for its constant Programs of Catholic Action. . . Specifically the installation of the 100th members, Hon. Francis J. Anderson, Nassau County Clerk and Hon. Francis J. Donovan, District Court Judge, Nassau County and the fact that this was the first "Family Communion Luncheon" held by such a group in Nassau County or New York State. . . In addition, County President James J. Kelly of Hewlett was responsible for the addition of two new divisions, one already organized in Rockville Centre, the John Fitzgerald Kennedy Division #14; the other is being organized in Massapequa. . . President Kelly has received an appointment as Chairman of Catholic Action for New York State (from Nassau County) as the Order continues to grow in Nassau.

HERE 'N THERE: During our vacation (?) we had occasion to visit the World's Fair with three of our youngsters (this was our first visit since the press party last year) what a change -- taking the youngsters -- be sure to hire

a Hertz-a-push-um for the tiny tots. . . The most inspiring to us was the Vatican pavilion and the fantastic N.Y. State pavilion and of course the very life-like figures at the Wax Museum especially the huge presentation of the "Last Supper" and our recent presidents. . . Try the Schaefer pavilion if your thirsty -- the amusement area was not that impressive (but it was costly). . . For a touch of Old New York visit the Rheingold section. . . Our thanks to Long Island Commercial Review and Miss Vic Penner for her wonderful pictorial and news coverage of Mid Island Plaza. . . We also remind our many Irish readers that they can purchase the IRISH ECHO each Saturday at Holden's Stationery, Broadway, Hicksville. . . a special note to Frank Thornton and the Echo Staff for their coverage of the Irish-American activities so Long Ireland. . .

FROM THE MAIL BAG: Bill Reagan, N.Y. State President of the AOH, writes of the appointment of James Kelly, as N.Y. State Chairman of Catholic Action -- this is to be confirmed shortly. . . A new Art Gallery and Photo studio will open at MID ISLAND PLAZA in September. . . Miles Shoes planning a big celebration in August for their opening at the PLAZA -- watch here! . . . Danny & Helen Dolan (she's the golfer) of Kuhl Ave., Hicksville are back in town after Florida and Hampton visits. . . Don't forget the date of the Nassau County AOH Ball -- Saturday, Oct. 31st (Halloween) at the Garden City Hotel, Honorary Chairman from Division #11, Francis J. Anderson, Nassau County Clerk.

How to Get Publicity for Your Group

Should your group get more attention from the local press, radio and television?

Photos, announcements, stories and broadcasts can all be gotten -- and there's no magic to it, according to an expert in communications. All you have to do is learn how to "service" your local editor.

Bernard Lyons, editor of a Chicago-based newsletter, The Opinion Leader, designed to help community and group leaders understand and use communications media, offers this nine-point program for "servicing" the news gatherers in your area -- and getting your group the publicity it warrants.

1) Get to know the local news outlets.

Your home town newspaper and radio and TV stations are your best means for communicating with your community. However, nearby "big" town papers and TV stations, your religious weekly, company publications, local "shopping" guides, school bulletin board, parish bulletin, etc. should all be considered when planning your campaign.

2. Plan your stories for more than one editor.

The club or service group editor for press, radio or TV wants to be informed of your regular meetings and programs, but there are other outlets for your publicity. Your story might have an angle for the news or picture editor, the society editor, the business or real estate editor, the sports editor or Sunday feature editor.

3) Get to know your editor. An editor is a busy person. But he wants to meet a newly appointed publicist, call for an appointment. Come prepared to describe, briefly, your group, its aims and philosophies, and to outline the year's plans.

Give the editor a memo card. On it list your and the president's name, address and phone number, the full and correct name of your organization, include a brief outline that describes the type of group it is (e.g., "women's service club -- main interest: local school conditions").

4) Know your editor's needs and problems.

Each editor has to gather a

lot of news; condense or edit it to fit audience and space (or time); get it to the printer and/or meet a specific deadline.

Help your editor. Find out how much of a story, typed and double-spaced, he can usually use for a routine event, how much more he might be able to spare for a big campaign. Find out how far in advance of publication he would like your copy -- and get it to him on time, or earlier. The wise public relations man even plans certain events (e.g., news conferences, conventions) for "dead" periods when the editor will have both time and space to give him extra support.

5) Learn to be a good reporter.

Each editor has his own style of presentation, but every editor must know who is doing what, when (give day, date and time), where and why. He also has to know the full name of each person mentioned; John J. Jones, Jr., vice-president, or Mrs. Charles Sommers, chairman. Above all he has to know that each of your facts, down to the most minor character's middle initial, is accurate.

Add the sender's name, address and phone number in the upper, left-hand corner of the release. Also give the date the release was prepared.

(You can get a folder that tells how to prepare a news release and gives other publicity tips by writing to: The Opinion Leader, Suite 1617, 29 E. Madison St., Chicago, Illinois, 60602. Please enclose 10¢ for handling charge.)

6) Give him good photographs.

Never send an amateur, hurried photo. Try for action pictures. Don't always pose eight people staring nervously at the camera, with a caption that explains they are your group.

sale committee. Photograph a toddler trying to eat, decorate or smash a cake.

Press and TV photos are usually 8 by 10--inches, printed on glossy paper. They must be clear, without bluish, sharp and contrasty. With the photo must go the standard who, what, where and how information, along with names of all people clearly visible in it, listed from left to right as they appear in the print.

7) Be imaginative about your publicity.

A good publicist can keep his group before the public in many ways. Your editor wants to know what you are doing routinely -- he will usually run the names of your new officers.

But you can do much more than this to make yourselves newsworthy. For example, when a community crisis hits the front page, and your group is concerned or informed on some aspect of it get a statement from your president to the editor.

8) Keep your editor informed.

The fastest way to an editor's heart is to give him a lead on a story that doesn't directly concern your group. When you see something that would make a good story or photo -- not a routine fire, theft or accident -- phone him. Keep the local columnist informed, too.

9) Be aware of life in your community.

Whatever the special interest of your organization, keep up on other life in the community.

The more direct, vital and interesting part of your group takes in community affairs, and the more accurately and dramatically you present this interest to the local editor, the better results you will get from your "services" to your editor.

Reports from Washington

ADMINISTRATION'S POLICIES HIT CONSUMERS HARDEST

Not only has the cost of living hit an all-time high -- it is expected to go higher when the effects of the Johnson Wheat Bill reach the consumer. This new law, which I opposed, went into effect July first. It is expected to boost the price of wheat by eighteen cents a bushel, and it is predicted that flour prices will rise as a result.

But the price of bread, which will also go up, isn't the only thing scheduled to rise because of this Administration's mismanagement.

The price of coffee is now being set in London by a "world" mart, which sets up an artificial-price system designed to put a "floor" under the price of coffee. Every penny per pound increase costs the United States consumer \$35 million.

Government milk-marketing regulations are keeping milk prices high. Daily, economists estimate that current milk prices are 5 per cent above what they would be, otherwise. Federal price-setting of feed grains pushes up the cost of milk, ice cream, butter, cheese, and all dairy products.

Sugar has gone up because of the "world" market agreement supported by this Admin-

istration, which is always willing to create "foreign good will" paid for by the American consumer.

Has all this price rigging, which has hurt the consumer, helped the American farmer? A million persons left our farms last year, proving that Secretary Freeman's artificial-marketing, price-prop, production-control program has failed to preserve the American family farm. High prices turn consumers away encouraging switches in product consumption, as in the shift from butter to margarine.

Families with incomes under \$3,000 -- the Johnson poverty level -- tend to be larger than average. They use more bread, milk, coffee, and sugar. But under Johnson's peculiar brand of poverty-fighting, they pay more, too.

Plan Early American Village For Old Bethpage Location

It is anticipated that about 25 buildings will be restored and moved the 100 acre site of the Early American Village restoration being planned in Old Bethpage, according to Edward J. Smits, curator of the Nassau County Museum in Salisbury Park.

Mr. Smits displayed a scale model of the village to the members of the Oyster Bay Chapter D.A.R. at a recent meeting in Raynham Hall. The village will be in a secluded valley surrounded by trees, and visitors to the village, once inside, will have no reminder of the outside world.

At present there is a farm, and the old Methodist church, formerly situated on Old Country Road in Plainview, on the site. Among buildings soon to be moved to the restoration project is

the old blacksmith shop which was situated at the N.E. intersection of the Wantagh State Parkway and Old Country Road in Hicksville until a few years ago. The shop was intact, even to the nails.

A portion of Meyerdieck's grocery store, long a landmark in East Norwich, will be moved, as will an old home near the East Norwich fire station. A search is being made for a one room schoolhouse, and a sawmill, typical of the early days on Long Island.

It is planned that the project will have a running stream and a pond, and that the completed village will be as accurate as possible. Barnyard animals will roam the farm site, and the village buildings will be staffed and conducted in a typical working style of the early 1800's.

Mrs. Theodore LeViness, program chairman, presented Smits with a hand painted picture of Sagamore Hill, summer White House of President Teddy Roosevelt. The picture was painted by the husband of the Chapter Regent, Mrs. Charles Ardovino of East Norwich.

President's Corner

By Horace Bernstein

I am sorry to report, that in spite of the repeated warnings by the Water District and as reported in the paper, home owners are still watering at the wrong time and the wrong day. It is true that these people are in the minority, but these few can make it hard for the rest of the residents.

It must be understood that it is not the shortage of water that causes these restrictions, but the shortage of pumping stations. It is the function of the pumping stations to bring water to a high enough level so that all consumers can utilize the water. When we have a hot spell, and too many people are using the water at one time, the pumps cannot pump fast enough. As a result, the homes on a high level cannot get any water.

It is distressing to your board of directors, that each year we should have this problem of water restrictions. We would like very much to see the time when residents can water whenever they wish. It is the feeling of the board of directors and other people within this water district that it is time for some action to be taken. There are many water districts on Long Island who do not have any restrictions whatever. Why not us? Mr. Morgan, editor of the *Syosset Advance* has, in the last few weeks, written on this situation. We will have the Civic Association do a little investigating. I do not wish to comment at this time on the merits of the Board of Commissioners of the Jericho Water Districts until the facts are known. However, we are a large district and have been growing steadily. We would like to get the District has anticipated our needs and what provision they have made as to increasing the pumping capacity of the district.

I have appointed a committee to meet with the Water District and hope that we can report back to you, the residents as soon as possible and give you an idea of what the future holds for us.

Meanwhile, let us make the best of a bad situation. Water, only on odd days for odd numbered houses and on even days for even numbered houses. Also do not water from 12 noon till 9:00 P.M. Those residents who are not home and leave the watering to their children or maids, please inform them when to water and when not to. In many cases we have found that it is not the fault of the resident directly but others in the house who are turning on the water. You are responsible for your household—please see to it that the water regulations are obeyed.

BIRCHWOOD FAMILIES HOST EXCHANGE PUPILS

HERE ARE Demetrius Constantaras of Athens, Greece and Desta Bishaw who calls Ethiopia her home. These two and three other Foreign Exchange students spent the last three days of their one year U.S. visit in the homes of the Kinnows on Maytime Drive, the G. Stein's on Birchwood Park Drive, the D. Sirota's on Merry Lane, The Giber's on Village Drive and the Siegel's on Maytime Drive.

Desta, from far away Ethiopia found much to like in Carmichael California where she attended Sierra High School. Her special subjects included U.S. history, Student Government and Public speaking. As she returns to Africa, much impressed by our form of government and freedom of speech, she looks forward to a career in teaching or medicine, two areas where she can be of decided service to her people. Demetrius Constantaras, born and raised in the cradle of Western Democracy, is true to the Olympic spirit—an all around athlete, winning letters in soccer, track, and swimming, at Easton, Pa. Not only did he complete his senior year at Easton and win a diploma, he also kept up with the curriculum in Greece since he hopes to begin the study of law upon his return to Athens. He returns home with many pleasant memories, the highlight of which was being greeted personally by President Johnson and Attorney General Robert Kennedy.

Lorraine Brown Becomes Bride

Lorraine B. Brown, daughter of Mr. and Mrs. Robert I. Brown of 19 Birchwood Park Dr., Syosset, became the bride of Stephen I. Propper on July 19. The reception started at 12:30 p.m. at the Huntington Town House and the ceremony was performed there at 2:30 p.m. by Rabbi Albert Baum. The bride wore a floor-length gown with a chapel train and carried a white orchid on a white Bible.

The maid of honor was Beverly Wine of Syosset. The bride's good friends, Barbara Schulman of Bayside and Judy Kassen of Jericho, and her cousins, Elise Zimmerman of Forest Hills and Rose Ann Brown of Howard Beach were bridesmaids.

The groom, son of Mr. and Mrs. Propper of 47 Maplewood Dr., Plainview, had Joseph Goldstein of the Bronx as best man. The ushers were Arthur Carter, Steven Zinner, Richard Zimmerman and Stuart Brown.

Following the wedding, the couple left on a one-week trip to

Town Will Not Fight Decision

The Town of Oyster Bay will not appeal last week's decision in State Supreme Court which upset an earlier Board-re-zoning of a 15-acre tract of land in Jericho, Board Majority leader Edward J. Poulos announced today. "The Board acted on the merits of the application of Skodnek Industries Inc. for a change of zoning on a tract of land on the northwest side of Brush Hollow Rd., near Ruby Lane from residential to industrial. The Court chose to override the Board's decision and therefore it now would appear that the applicants' argument is with the Court, that if an appeal is to be made it would be made by the applicant", Councilman Poulos said.

He emphasized, however, that the Town of Oyster Bay comprehensive zoning plan, the only one of its kind in the country, is a useful and flexible instrument. "Zoning is a complex matter and each application must be viewed according to its individual merit, or lack of merit. Our comprehensive zoning plan is a living instrument which permits us to live with real change in real estate", Councilman Poulos asserted.

LETTER TO EDITOR

As an inactive member, accept my thanks for your many efforts in our behalf.

Since there is so much chaos in all areas at this time, perhaps we as a community can begin by acting. This is merely a suggestion, however, I feel that as a whole, the Civic Assn. is a respected organization, and I believe that at this time perhaps a word from you people will carry some influence. As a person of the Jewish faith (who, incidentally spent 10 years down south with anti-Semitism) I feel deeply for those that are being persecuted in Russia, and hoped that perhaps there is some way that you may ask all our members and neighbors in our community to send post cards to our congressman, voicing our protest against these persecutions of people of the Jewish faith.

In the event you would consider this and publicize it, maybe many other communities will follow suit. Perhaps if every one is reminded once in a while, it might help. I sincerely hope you will think about it and put it in motion. It will be good to feel that we cared enough to at least try, and who knows, we might really be heard!

Thank you.

Boating Tips...

The boater's most common use for line is tying up to a dock. To do the job like a real "salt", learn these two simple hitches, suggest Mercury outboard authorities: use the upper knot in the illustration to tie up to a cleat. Pass the line around the cleat under both horns, then diagonally across the top of the cleat and under the first horn. Tuck the loose end under the line where it passes across the top. The more pull by the boat, the greater the holding power of the hitch—yet it can be loosened easily by tugging at the free end. Use the other knot, the clove hitch, to tie up to posts or piles. It consists of two loops with the free end tucked under. Don't use this hitch for permanent fastening, since it may eventually slip.

GOP Trounces Dems Twice--On Ball Field

By MILT PRYOR

The Hicksville Republicans clinched the Minor A pennant this week with two resounding triumphs over the Hicksville Democrats in the American Little League. Their record for the 1964 season was 18 wins with one loss. John De Rosa, the Elephant's manager and Ed Mc Enaney, their coach, are to be congratulated for bringing out the best in these young Little Leaguers. The Republicans' constant improvement were evident since the first game. It is my belief

that any boy 10 years or older will be brought up to the Major Leagues this coming year. Their last victory of the season was a 18 to 1 win. Gary Palmese, pitched a no hitter, and Bob Pryor led the team with 2 hits.

The Hicksville American Tournament playoffs ended with the Senior All-Stars and the Major or All-Stars being eliminated on the first round of the tournament. The Senior All-Stars were leading all the way. However, a misjudged fly-out in center field, and slight hesitation of Sal De Rosa, the Hicksville defensive

first baseman, brought in the necessary runs which enabled Plainview to tie the game. In the top of the 9th inning, Plainview exploded and scored 5 runs to take this contest 10 to 5. Jack Cluckey, Hicksville American star catcher made the defensive play of the game. He laid down on the ground, blocking the plate and tagged out the Plainview runner, thus keeping the score to 5 to all. It is our honest belief that this contest should have been won by the Hicksville squad as we outplayed Plainview all the way.

However, the final results tell all and so we were eliminated from this tournament. Saturday at 6 PM, the Major League All stars met the champs from Syosset North. This game was played at the Syosset High School Little League Field. This field had magnificent grand stands, dugouts for the players, fences to protect the spectators, foul fences, score boards, clean and cared for fields. The only thing that Hicksville field has that the Syosset Little League Field had in common was 1 home plate! Steve Murphy was our starting hurler, and Steve really pitched a good game. However, the Syosset squad outplayed us and made defensive plays that left the spectators speechless. A little tighter defense on the part of the Hicksville American squad may have made the difference.

In fact, when Mickey Mahlstadt came in to pitch hit in the top of the 6th inning, the Syosset hurler had not given up a hit, but Mickey's blast spotted the no hitter for Syosset. Final score: Syosset North 2, Hicksville American 0.

It is with heavy heart that I must strongly urge the residents to get behind this following proposal. All our letters, numerous phone calls, meetings with school

Stewart is a graduate of Fairfield University, Fairfield, Connecticut, and is pursuing the Master of Business degree at St. John's University.

The final week of Senior League and Minor B League play is upon us. The next issue will announce all the league winners, Teams, players, in all divisions. If any playoffs are necessary, they will be decided and reported in next week's column. The Major League inter-town playoff games will be held within the next couple of weeks. If Gertr is successful, they will retain the trophy for another year. You will recall, that Central Federal, last year's winner, is now proud possessor of this prized Hicksville Trophy.

We still have not been taken up on our Minor A challenge match with the other two sections of town. If no word is received within the next week we will undertake to challenge other towns instead.

Final reminder: THE MID ISLAND HERALD is our official newspaper and items pertaining to our League will be posted throughout the year in the MID ISLAND HERALD. We still have a few applications available. If any desire these forms call me at WE 5-6194.

officials, recreation director, grounds superintendent have been in vain. Our school fields are a complete disgrace. Our boys are instructed not to slide into 3rd base and home plate on Burns Ave. Field #2 as the many broken glass containers would cut them very badly. The infield grounders are either caught or missed, depending not on skill, but on how the ball bounces on this hard rock-filled infield. The apparent disregard of our many suggestions and offers to help have been completely outrageous and impossible to understand. It seems strange with such a substantial school budget as we have in Hicksville and the great amount of money allocated for field maintenance, that so little is done. At our early meeting with Mr. Becker and his assistant at the High School, so much was promised, and as the baseball season got underway, we find again so little accomplished. Perhaps Mr. Madden, or some other interested school official can explain to a distraught parent why his son has slivers of glass in certain parts of his body, or why his son was hit on the head with a hard hit baseball while standing or sitting on our littered grass (?) fields as a result of individuals that care or at least try to help? In private industry a job must be done right or a replacement is found for this job. Why can't we do this in Hicksville as well?

We are starting a petition this week and suggesting to all parents to send us letters expressing in print what they have been saying to us throughout this baseball season. DO IT NOW. We will gladly take you to any town and challenge any one to show us school or town fields that are as rundown and utterly neglected as the disgraceful Hicksville fields.

Our second field trip of the season is scheduled for Saturday, Aug 1. All the boys, their managers and coaches are invited to attend the Met-Houston Colt baseball game at Shea Stadium. Buses will leave from the front of Burns Ave. school field at 11 AM sharp. All interested in going call Dick Eaton at WE5-6553. Please pick up the boys at Burns Ave. about 1 hour after the end of the game. The Little League boys jackets are now available. The estimated cost according to Mike Maddi, Hicksville American Little League Purchasing Director will be \$5.50 per jacket. Those interested, call Mr. Maddi at WE 5-7190.

Senator Curran Host At World's Fair

Henry M. Curran, New York State Senator from the Third Congressional District, will host a special program on behalf of Junior Achievement, Inc., at the New York World's Fair on Fri-

day, Aug. 14. Over 1,000 prominent men from business and industry on Long Island have been invited to the event to learn how they can participate in Junior Achievement's proposed expansion into Nassau and Suffolk Counties.

Junior Achievement, with headquarters in New York City, is a nationwide economics education program which teaches high school students about the American economic system by having them run miniature companies of their own. With guidance from local business and professional men, the youngsters raise capital, rent workspace, and experience the various stages of operating a business until it is "liquidated" at the end of the school year.
