Voters of Hicksville Water District will go to the polls at the Courthouse, Heitz Pl. and Bay Ave., next Monday evening, Aug. 31, to elect a commis-sioner for a three year term. George A. Kunz, member of the Board since 1955, is opposed by Joseph Ferrandino.

Joseph Ferrandino. For the first time in the history of the water district, voting ma-clines instead of paper ballots will be used to decide the out-come. The election will be con-ducted jointly by the Oyster Bay and Hempstead Town Boards be-ause the water district is one of the few, if not the only, dis-trict in the state to cross a township boundary line. Voting hours are from 7 P.M. to 9 P.M. and early voting is urged to avoid delay at the polls. Little is known of Ferrandino. A mimeographed circular has been issued urging people to vote

ing to the Hebrew calendar, this is the year 5725. Rosh Hashona begins the ten-day period known as the "Days of Awe," ending with Yom Kip-pur, a day of fasting and atone-mera. The Jewish New Year, unlike that of other people, is greeted less with exuberance and gaiety, than with prayerful self-examination and contrition. Though the exact origins of this holiday are buried in the ancient past, the Book of Exo-lus contains clear instructions for the ways in which this "Day of Judgmen" was to be observed. The manner in which Jews observe Rosh Hasona in 1964 is virtually unchanged from the period of the Babylonian exdle (586 B.C.E.), though Orthodox jews celebrate it for two days and Reform Jews for only one. EDITORIAL OPINIONS:

Re-Elect George A Kunz

We are not particularly dazzled by the claim that because a man has held office he thereby automatically warrants re-election. However, in the case of George A. Kunz, a Hicksville Water Commissioner, we believe his re-election next Monday night, Aug. 31, is almost a Community necessity.

Mr. Kunz has opposition of the most unusual sort. Nothing is known of his opponent. However, the grapevine has some interesting things to contribute: he is alleged to be the candidate for a handfull of people near the Stewart Ave. pumping station who are the District is constructing a much needed storage facility to maintian proper pressures during periods of peak demand, including fire emergencies. We also hear that a certain political organization is determined to inject candidates on all levels of local government, a comment which leaves us almost soundless.

Because the voting hours are short (only two hours from 7 p.m. to 9 p.m) it is recommended that all friends of Mr. Kunz turn out early at the Hicksville Courthouse and keep a good, experienced man on the job.

What Is a 'Resident'

To us, the proposal that Attorney General Robert Kennedy be nominated as New York State candidate for the Senate seems to come under the heading of "Extremism." To consider Mr. Kennedy a bona fide resident of New York City is stretching a point - to put it mildly.

A few years back property-owning summer residents of a Suffolk village were challenged when they appeared to vote in the Village election on the grounds that they were not bona fide residents, despite the fact they lived there four or more months a year and spent numerous weekends there throughout the year.

We do not know whether or not he ever has lived in New York for three or more consecutive months, but we doubt it. None of the Kennedys seems to stay put that long. We do not know whether or not Mr. Kennedy is registered to vote in New York State. We do know that in the last election he voted in Virginia.

Nor has he, to our knowledge, ever practiced his profession in New York in any degree. We all know that he never has appeared before a court to try a case in any state.

The most important point is, what does Attorney General Kennedy know about New York State's intimate problems? In his position as A-G he has what our grandparents called a "smattering" but has he any true awareness of our problems?

We doubt it, nor could he bone up on the subjects in a few short months. Is it possible that, in the whole of the Empire

State, the Democratic Party does not have a qualified candidate and has to draw on a some-time resident? We doubt this too, and believe that somewhere along the line someone has gone overboard on the prestige and glamour symbol to the detriment of practical ability. Let's have bona fide New York State residents represent us in Washington.

Another point arises. Inasmuch as Mr. Kennedy maintains homes in Virginia and Massachusetts, does this mean he can run for office in these states too?

Entrance Gates One Of **Many Accomplishments**

A great many suggestions have been tendered by the residents of Birchwood Park at Jericho with regard to the beautification of our area. These proposals have and will continue to be discussed at great length by the board members of the B. C. A. Many have already been completed, others are in the planning stages or in work.

of the newest additions to beautify our One area will be our "entrance gates" at Birchwood Park Drive. The basic marble work has been completed for several weeks now. Next week, workmen will install a black marble recess off which large aluminum letters will spell out "Village of Birchwood Park at Jericho". The artists drawings were truly beautiful and inspiring and Birchwood at Jericho should be proud of this addition.

It doesn't take ingenuity to destroy. The ability to grow, to prosper and build a community that all would be proud to live in is an accomplishment. Bight years ago from a potato patch to one of the finest communities on Long Island is positive proof of that. Let our trees, our marble works, our schools, our parks, and all of our other improvements be a living reminder that we of Birchwood at Jericho are proud of our area and intend to keep it that way for all to envy and follow. Each resident shares this responsibility to his community.
