## South Broadway Gets State Notice

Property owners along South Broadway in the vicinity of Old Country Rd. have been advised by registered letter that the State of New York has taken title to their holdings as of Jan. 25th, the HERALD learned this week. Also advised were tenants of stores and apartments. No indication was given in the notification as to when occupants must move as the State Dept. of Public Works proceeds with its plans to widen Broadway from the LIRR south to Hempstead Tpke.

stead Tpke (route 24) and Old Country Rd., a total of 2.95 miles. The announcement describes the project as "a new highway consisting of twin cement concrete pavements, each 35-foot wide, divided by a 20-foot raised mall. Each pavement will include two travel lanes flanked on the right by a 10-foot wide parking lane. An additional lane will be provided in the center mall area at intersections to facilitate left turns. The contract provides for installation of an improved and expanded traffic signal system as a further safety measure."

Meanwhile, in Albany, the Dept. of Public Works announced that bids will be opened on March 9 for 14 highway jobs including reconstruction of Newbridge Rd. (Route 106) as a four-lane divided highway between Hemp-

The cost is estimated at \$4,895,000. Bids will be opened publicly at 10:30 AM on Mar. 9.

COMMUNICATIONS DELAYED (Merry Xmas from Vietnam... appreciated in MID ISLAND HERALD that you had sent... it's a nice little newspaper). It isn't so little HANK... it covers a lot of territory. VERO BEACH, FLA. I am waiting for the HERALD that will run your old column buddy. This from BILL SULLIVAN, WW-2 GI and Corpsman, WEST ISLIP, and George Weidner man, you answered one of my questions in your first write-up, NEED I SAY MORE DEPT...AMVETS

Nat'l. Commander LEO ANDERSON, "To put up a Japanese monument on the island of Guam is like putting a German monument in Israel". SAIGON, VIETNAM, "I was scared silly against the terrorist Jim, but at least when I come home I can face people...what can the Draft Card burners say to that? Nothing Jeff.. you said it all, BLACKIE, the Ex-GI photographer chose to stay on at Okinawa after WW-2 and with his camera is doing a thriving business. He states that if any former men who were on the Island would like some old snaps..contact him. His address is P.O. Box 62, Koza, Okinawa. Perhaps you may want to call him..his phone is TEL. 877..the cost a little over \$30 or more. (Local photos will love that line). BEST WISHES DEPT. To LESTER E. SPEAR one of the greatest Nat'l Service Officers AMVETS ever produced. A great friend of mine and helper when some GI was in need. SAMUEL K. McCAFFERTY of Hicksville, has just been promoted to Assistant Treasurer of the Chase Manhattan Bank. He joined the Bank in 1936 and after serving at various branches became an assistant manager in 1964.

The Hicksville AMVETS is Post #44 1st Vice Commander, CLIFF RUSCH, former Hicksville Veterans Legion Post #85, Incidentally I hear that the Archie McCord Legion Post of Bethpage has now fixed up their club-house after a great deal of it was destroyed by fire a few months ago. VETERANS QUEST: Under the new VA school law, can a correspondence course be followed.

ANSWER: Yes, if the school and course are approved. QUESTION: I have lost my discharge. Can I obtain another through the VA? ANSWER: No, but any VA office can give you the application to submit to proper agency. QUESTION: May a disabled veteran, if eligible, carry a \$10,000 policy with both the VA and Servicemen's Group Life Insurance? ANSWER: Yes you may. REUNIONS: Tuscania Survivors US Navy hold a reunion in Feb. near the end of the month. Write EDDIE T. LAUER Sr., 8035 Stickney Ave., Watertown, Wisconsin. All you Hicksville, Glen Head, Syosset and Jericho veterans of the Army 4th Div. save those pennies. Your reunion will be held in July. Contact JOSEPH SUMMA, 129 Bay 11th St., Bklyn., N. Y. 11228. And now before I close let me say this...as an Ex-GI when I pick up that paper and read where all these youths today burn their cards, people say "let's leave the commies alone, they aren't bothering us", why should we fight over there? It brings to mind, what would we have done if we chose to ignore Hitler or said Forget It when Tojo's boys bombed Pearl Harbor? I think perhaps we would have been pretty tired of eating fish heads and rice. No doubt there are those who would rather fight the commies here than somewhere else. Let's not say we did. You older buddies of WW-2 I know you have sons in the service... but this much I know is true... let's make them understand that what they do is right... we were the strong, the husky and the tough in 1941 and yet we are the old of the past...we has been of yesterday, the history for those who read of us in the future and we now belong to the Legions of the ages.

# Operation VFW Our Men in Armed Forces

William M. Gause, Jr.  
Part No. 3211  
by Eddie Kesting

**PACKAGES FOR SERVICEMEN IN VIETNAM:** This program, sponsored by the Post is introducing a new feature. In addition to mailing packages to the young men of our community serving in Vietnam, a small white banner indicating service in Vietnam will be presented to parents who have sons or daughters serving in that area. Details will be worked out by Bob Williams, committee chairman, who has been doing a bang-up job on the program so far. The small banner is similar to those seen in many windows during World War II.

**GI TAX GUIDE:** A new guide published by the Defense Department enables servicemen to take advantage of special provisions of tax law for their benefit in making out their income tax returns for 1966, which is due by April 17. The title "Federal Income Tax Information for Servicemen Personnel," is available for 20 cents from the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402.

**CAPITOL HILLS:** A bill to safeguard against possible closings of Veterans Administration offices and hospitals was introduced in the Senate recently on behalf of 22 Senators. The bill would require that each State continue to have at least one veterans service center and also that a six months notice be required of any plan by the VA to close or materially reduce the services available to any veterans hospital, domiciliary or outpatient dispensary.

It will be recalled that at the end of 1961, plans were announced by the VA to close 161 field offices. Just two years ago the VA proposed to consolidate its regional offices in such a way that eight States would have been left with no such office. The VA later withdrew the plan. This bill is intended to prevent any State being deprived of such a center in the future.

Both plans drew immediate opposition from the Veterans of Foreign Wars. There is no reason why the V.F.W. won't support this bill or any other submitted to Congress along the same lines.

Also important is the second part of the bill. The provision for notice of intention to close any veterans medical facility would prevent any sudden announcement of a decision before Congress and others had a chance to explore the matter thoroughly. The bill (S.483) was referred to the Committee on Finance.

# Herald Reader Opinions:

## WE'VE DONE IT

To the Editor:

Now you've done it! You put your editorial finger right smack on the front page problem which is splitting our Board of Education, confusing innocent voters, and threatening to become an election issue if it isn't hushed up.

As a supporter of Messrs. Jackson, McCormack and Hornbostel I applaud their courage in denying that it takes any special qualifications to be an administrator. If a man can count the lunch money correctly and lead the pledge to the flag he is good enough for any title in our power to confer. Why should we waste our best minds on these mental jobs? Of course we have to bribe somebody, with both money and rank, into shouldering such chores.

On the other hand, I confess to being absolutely fascinated by the revolutionary proposals of the other board members whom I also supported. Apparently Goldberg, Kershen, Silver and Sternberger think that positions of rank, with higher pay, greater prestige, and opportunities for leadership, ought to go only to the best-educated professionals we can find. That's a pretty radical idea for Hicksville, and a lot of

people are understandably nervous about it.

During school board elections TEACH either endorsed outright or refrained from opposing all seven present members of the Board of Education. As a long-time loyal TEACH member I'd feel a little embarrassed to have you call public attention to the split in our collective personality if it weren't for the fact that the whole nation is wrestling with the same problem which divides us. The basic question is this: Does it matter who has power? In the last general election both Democrats and Republicans agreed that absolutely anybody at all can be governor, for instance, but there is still a nagging doubt whether this is also true of presidents and principals.

What we have to decide - now that God has been reported dead - is whether or not it makes any difference who we put in charge of things.

Perplexedly yours,

## BOARD WATCHING

To the Editor:

I feel forced to write this letter in order to correct what seems to be a classic example of deliberate news slanting shown in the reporting of the Board of Education meeting on January 30th (Herald 2/3/67).

In the final paragraph of his front page "news" article, the writer states that I as TEACH president "... requested a copy of the detailed working proposed budget which in the past has been limited to Board members and district officers." A correction of fact and also of values seems appropriate: FACT: I specifically asked that copies of the budget similar to those given to PTA presidents and citizens attending budget hearings in the past (including last year) be made available again this year. FACT: The Public Relations Advisory Committee to the Board of Education has several times suggested that copies of the budget be made available to citizens attending school board budget hearings. Now, is the HERALD really suggesting that the public, like myself and the many taxpayer parents in TEACH, and any other taxpayer, should be denied access to such public information as a school budget? Should any citizen be denied access to information of direct concern to him?

When discussing the question of bloc voting, the writer's ability to distort provokes an amused reaction. By trying to suggest that TEACH has created a bloc voting pattern, the writer conveniently forgets facts printed in his newspaper during recent school board campaigns. FACT: TEACH sponsored George Jackson, Caleb Hornbostel, Marvin Goldberg,

Harry Kershen, and Mrs. Evelyn Silver. FACT: TEACH endorsed Harold Sternberger and Cornelius McCormack, candidates of another group. It would appear, then, that if what the writer reported is true, the Imaginary TEACH bloc voted against their own majority, and, at another point, voted to over-rule one of their "own." The Board President, at that! Is this bloc voting? If the writer would study the various records at his disposal, and attend more closely to events as they happen, he would see what he already knows: there are no bloc voting patterns for the present Board. TEACH supports independent-minded citizens who vote as they think, not at the imagined direction of an organization.

It appears to me, on principle, a sign of a healthy, democratic operation for any group to over-rule their president when they deem it necessary. Is such independence of thinking a matter of controversy for the writer? Perhaps he has seen too little of it after too many years of Board-watching.

Hopefully, future Herald issues should make a clearer distinction between news articles and editorials, and a necessary standard for both should be accuracy.

## ROUSE DEPARTS

To the Editor:

On the fifteenth of this month Hicksville will lose the services of one of its most distinguished educators, Mr. John Rouse. Mr Rouse brought to this district an unusual professional competence, a truly provocative mind, and the conviction that an institution so important to America as its public school system deserves to be run with imagination and conviction. His boundless personal energy and his profound faith in the importance of releasing—rather than stifling—the latent powers of the generation entrusted to our care have led to a number of significant innovations. He sometimes found it difficult to disguise his impatience with those habits of mind which make his generation so resistant to change and so complacent about failure. I consider his departure a loss to myself and my community, and I am sure that many join me in wishing him success as he moves on to a position which will provide a wider scope for his talents.

## TEENAGER SPEAKS UP

To the Editor:

As a teenager myself, I would like to express my opinion on the matter of a teenage recreation in this town. In my opinion Hicksville has practically no social activities for teenagers. Now and then there is either a church or school dance, but these are very rare and little publicized events. What Hicksville needs is a weekly dance center for teenagers which would be run by the town itself for the teenagers of this area only.

At one time teen centers at the junior high was the place to go even though it ended at 9. At least it filled up part of the evening. They now admit only junior high students which leaves the older teenagers out in the cold. All that is left is to either walk up and down Broadway or hang around the street corners. I am certain that the residents of this town would rather see their teenagers at some sort of

weekly dance center. I definitely feel that the residents of this town should do something about this matter.

## KORRIFYING ZONING

To the Editor:

On page two of the 2/2/67 issue I saw the horrifying picture where you captioned "what has happened to Hicksville zoning...." If you recall, a few years ago the Dean St. Water Company put up offices, garages and machine shop which directly abuts the back yards of some 35 to 40 homes. (Enclosed was a drawing of the area and the comment "with water pipes strewn all over the grass.")

Now, WHO IS RESPONSIBLE FOR ZONING? How come on page one, in the Levitt homes things are getting done and here in the "older section" everything happens before the neighbors can find out? Is there some way to "Save Hicksville" in the style of the Leonard Victor articles in the L.J. Press?

Just picking up the litter will not beautify Hicksville. We are too far gone. Can't something be done? There is an organization we might work through if you could START US.

Editorial Opinion:

# Fire Dept and Discrimination

The Long Island volunteer fire departments and in the process the individuals who are members, are taking a wallop in the press and over the airways with the charge of discrimination. In view of the long and outstanding record of service performed by the volunteers in the service of the communities they serve, it is surprising that so few have come to their defense.

The writer has been a volunteer fireman and company officer and knows something of how the vamps function. No word of commendation for the long hours spent by the dedicated men who spring from their warm beds on cold nights, almost sacrifice their family lives to answer the alarm, to drill, to work over their equipment has appeared in any of the investigation reports of either the Nassau County Commission on Human Rights or the Hempstead Village Commission on Human Rights. We seriously doubt if any active volunteer firemen were participants in these two just-issued denunciations.

As the technology of fire fighting has advanced, the need for intensified training has increased. Many long time vamps who remember the "good old days" when the fire station was a clubhouse for card players have retired from the ranks because they can no longer stand the round of drills, training in pump mechanics, rescue work, first aid and other related topics.

Since this current round of outcry against the fire departments, accompanied by shouting pickets and blanket denunciations, we have suspected that few of those who cry out the loudest would even apply for membership in a volunteer fire department; or, if they did and were accepted, would last out the probation period. There are no exceptions made on this score.

The critics may have some grounds for criticism of membership application practices but they have failed to produce any evidence of a positive incident where a person was denied membership on the grounds of race, creed or origin. The truth is that many men from minority groups have won the right to wear the blue uniform of a

volunteer. The County Commission in its report only discussed Negroes, failed to mention any other minority groups. Indeed such information would be difficult to compile and would require intimate knowledge concerning each of the 10,000 men in the 71 companies in Nassau County.

Actually, there are factors at work which may see the day -- sooner than we expect -- of an all-paid fire fighting force in Nassau County. We recently saw an advertisement in a north shore newspaper inviting residents to join by writing the Chief. Some fire departments are having trouble getting and holding members for several reasons: established communities are getting older and as people age they are no longer as agile and full of the dash and sparkle of their youth, the armed forces are taking away many young men who basicaly form the front line fire fighters willing to try anything with hardly a care in the world, and the economic factor has taken away many of the small shop owners who could drop their apron and close up the store while they dashed to hitch up a team and man the bucket brigade. Daytime coverage in many communities is almost dangerously thin to say the least. Grumman Aircraft in Bethpage has been known on occasion to release employee volunteer firemen from a specific community when informed of a particularly bad hometown fire alarm.

We feel the protesters do the community a disservice when they attack the volunteer fire department organization because they are not sincere candidates for membership. We also feel that the volunteer fire departments need some self appraisal, should take their collective heads out of a basket, and look to what is in their immediate future. Unfortunately some men get so wrapped up in their firematic activities that they tend to regard themselves as a class apart. In time, wiser heads will prevail.

Threats of economic reprisals against community business people to blackjack the community are not the solution. The long record of dedication and service by our volunteers, in some cases for more than a century, deserves better treatment.

## PO Confirms Call for Bids

The Post Office Department is again seeking competitive bids to build and lease the Post Office at Hicksville. Postmaster General Lawrence F. O'Brien announces.

The land will remain on local tax rolls.

The Department's capital investment will be limited substantially to postal equipment.

Bidding documents may be obtained from Joseph J. Ljcarl, Real Estate Officer, Morgan Annex, Room 829, 341 Ninth Avenue, New York, N.Y. 10001. ## Camp Edey Days Numbered

The continuation of the Dec. 13th, Annual Membership Meeting of Camp Edey, Inc. Girl Scout Camp of Bayport, which has been open every day of the year since 1947, was held at the Islip Methodist Church Tuesday evening, Jan. 31st. Carl Wampole of Central Islip, acting President since the special Board meeting held Dec. 28th, conducted the delayed election of officers and Board members for the present year position by position.

By prouarrangement, the package deal of the six member Councils went through, electing a full slate of eastern Nassau people, headed by Mrs. Donald Gladu of Wantagh, as the new President.

The other major action taken by the membership, with three lawyers taking up most of the time, one representing Mid-

land Council's 62.4% portion before the end of 1967, the price to be set after one appraiser for the Suffolk members, one for the eastern Nassau member and the third appraiser to be hired by all 6 member Councils to give their appraisal of the camps. When asked for comment, Elea-

nor M. Hester, the Director for the past 20 years, who resigned at the Dec. 13th Annual Dinner Meeting, effective Feb. 3rd, said "I am very glad that at least Mid-Island Council has stopped talking and acting to close Camp Edey at once and sell to the highest bidder."

Other patents pending...

10 new edges, not just 6. Ten new Schick Super Stainless Steel Edges on a continuous band.

Patented slotted band. Band holds fast between two spools. Gives you the control and the comfort you want.

For a new shaving edge, just twist the lever on the cartridge. It's easy. Guide numbers are on the side.

Leans longer top. After extra weeks of shaving, wrap in a new 10-edge cartridge -- you never touch a blade.

The patented Schick band is slotted. It feeds between two spools, holds each new edge taut to give you the control and the comfort you want. You'll like the convenience. You'll like the way each edge has the famous Super Krona coating to shave you closer -- with greater comfort.

Schick Science brings you the new cartridge-loaded Schick Band Razor. Inside the cartridge, not just six, but ten Schick Super Stainless Steel Edges coiled into one continuous shaving band.

It's completely different. Better. In every way. You get a faster, smoother, closer shave.
