Electric Trains Start Run To Hicksville On October 19

The Long Island Railroad announced it would start running electric trains to Hicksville and Huntington on sixteen miles of newly electrified track on the Main Line and on the Port Jefferson branch on Monday, October 19.

Six electric trains will initially run into New York City from the newly electrified zone in Nassau and Suffolk Counties during the peak weekday morning hours, and five will return during peak evening hours, to augment existing diesel service.

The Carle Place, Westbury, Hicksville and Syosset stations in

Nassau County, and the Cold Spring Harbor and Huntington stations in Suffolk County will enjoy the benefits of electric service for the first time. An estimated total of 12,000 commuters board trains from these points each weekday morning to ride to their jobs in New York.

The new service—a key development in the Metropolitan Transportation Authority's long range modernization program for the Long Island Railroad—is the first major electrification on the railroad since 1925.

The \$69-million extension of third rail from Mineola east to

Hicksville and Huntington was financed by grants from the Federal Department of Transportation and funds from the New York State Transportation Bond issue, instituted by Governor Nelson Rockefeller, endorsed by the New York State Legislature, and approved overwhelmingly by the voters in 1967.

The new train service will allow passengers from Huntington and other stops on the Port Jefferson branch, and Hicksville, Westbury and Carle Place on the Main Line to travel directly to New York's Pennsylvania Station and to Huntington Avenue in Long Island City without a change in Jamaica, which has been necessary up till now.

A total of eleven morning and evening rush hour trains will be electric powered beginning October 19, in addition to several mid-day trains. Arrival and departure times will be found in the railroad's new Fall timetable which becomes effective for the entire LIRR system the same day.

This is what commuters from the heavily populated, fast growing suburbs along the Main Line and Port Jefferson branch will find on the morning of October 19:

• A 7:10 from Huntington, stopping at Cold Spring Harbor and Syosset, then express into Pennsylvania Station in New York City, arriving at 8:01.

• A 7:15 from Hicksville, stopping at Carle Place and Jamaica, arriving Hunterspoint Avenue, 8:03.

• A 7:33 from Huntington,

HERALD REPORT SCHOOL DISTRICT 17 HICKSVILLE

By Shirley Smith

Many of the items carried over from the last Board of Education meeting were again postponed and scheduled to be discussed by the Board in executive session. These items include: cafeteria contract, Non-Instructional Administrative and Supervisory Staff Association contract, grievance filed by the Hicksville Classroom Teachers Association against the School Board.

A request for payment of a bill (over and above his regular retainer) by former School Board attorney, Joseph Catalano, was rejected. Voting to reject payment: Messrs. Muratore, Clark, Zindulka and Kershen. Voting for payment: Messrs. McCormack, McManus, and O'Donnell. The Board also directed present School Board attorney, Harry Goebel, to take any and all necessary action to retrieve case records from Mr. Catalano. Mr. McCormack voted against this motion. Mr. O'Donnell's motion to discuss this agenda item in executive session was defeated 4-3 (voting yes:

O'Donnell, McManus and McCormack.) He felt the discussion was unethical and shouldn't be held in public.

The Board of Education will meet in a study session with the Community Relations Advisory Committee to discuss a public opinion questionnaire which the committee has presented to the Board for approval. One of the points of discussion will be whether or not to run a pilot test and send the questionnaire to a small portion of Hicksville residents before mailing it to the whole community. This method may help tests its validity.

The Adult Education Advisory Committee requested a salary raise for the Adult Education Director and his secretary. A motion to increase the director's salary \$500 per year and the secretary's \$200 per year was defeated—no: Clark, Muratore, O'Donnell, Zindulka yes: McCormack, McManus, Kershen. It was moved to increase the

(Continued on Page 15)

State Assemblyman Martin Ginsberg (R-Plainview) presents Rev. Frederic Harter of St. Ignatius Loyola Roman Catholic Church with a contribution to the

Monsignor George Bitterman Scholarship Fund for students attending the parish school in Hicksville.

AT THE HICKSVILLE COMMUNITY COUNCIL MEETING: (l to r) Council treasurer, Peter Fallon, Town Planning Advisory Committee Chairman Owen Walsh, Senior Town Councilman Edward Ocker, Council president Sheila H. Noeth and Council Board member Kingsley Kelley, all listen as Professor George F. Raymond, senior partner of the firm of Raymond, Parish and Pine, Inc. Town of Oyster Bay planners, explains just what the process of making a master plan for Hicksville (and the Town of Oyster Bay) entails. He did explain that, at least twice in this process, the firms findings and conclusions are returned to the Town Board, and to large groups of local citizens within the areas affected by the plan, before it becomes final. (See Council Minutes in this issue) (Photo by Charbonnet).

Downzone Hearing Date Changed To November 17

A meeting of the Society to Preserve our Town (SPOT) was held October 7, in the Junior High School on Jerusalem Avenue. SPOT is the ad-hoc committee formed to oppose certain downzoning in Hicksville, specifically the rezoning of land on Lee Ave from Residence "D" to Apartment House District "E-1."

Mr. Jerry Spiegel has again resubmitted his petition which he previously withdrew in February without prejudice with the right to resubmit. The petition requests the Town of Oyster Bay to permit the building of 111 apartment units on the 6.924 acre plot presently occupied by Giese Florist, Inc.

The Town Board had set a hearing date of October 27. It was announced at the meeting that this date had been changed to November 17, at Town Hall in Oyster Bay. Councilman Warren M. Doolittle made arrangements to have the meeting called at 10 A.M. to be continued at 8:00 P.M.

for convenience of residents. This means any persons wishing to be heard may do so either at 10 A.M. when the meeting is called or at 8:00 P.M. when the meeting will be reconvened.

One resident presented the idea that the meeting date was changed from October 27 to November 17 so that Election Day would be passed. Another knowledgeable resident explained that even if the hearing was held prior to the elections, the Board, in a case of this type would reserve decision, the result not being known until a date after the election. Mr. Emil T. Immesberger, Chairman, agreed that this would be the case. Subsequent to the meeting Mr. Immesberger was advised that the public hearing date was changed because of the necessity to hold a budget hearing on October 27.

Mr. Eric A. Roeckl, Attorney, in response to a question, stated

Around Our Towns

By Linda Noeth Scott 796-1286

Mr. & Mrs. Randy C. Schaeffler are proud to announce the birth of their daughter, Cori Anne on Oct. 3. Mr. Schaeffler is the son of Mr. & Mrs. Andrew Schaeffler of Hicksville. His wife, Lorraine, is the daughter of Mr. & Mrs. Joseph R. Kalen of Hicksville.

Mr. and Mrs. Frank Clancy of 10 Suggs Lane, HICKSVILLE, spent their 25th Anniversary in Bermuda. The Cruise on the "Franconia" was a surprise gift from their children. They were remarried at Mass on the ship.

Miss Margaret Mary McGuire, the daughter of Mr. and Mrs. Joseph McGuire, of 113 Willfred Boulevard, HICKSVILLE, a Licensed Practical Nurse who received her training at the Glen Cove Community Hospital School of Practical Nursing, she is assigned to the Department of Pediatrics, of The New York Hospital.

We are sorry to report that the Rev. James Benson, of the United Methodist Church, HICKSVILLE, is again a patient in Syosset Hospital. We understand that his condition is improving so we send our best wishes for a speedy recovery.

Mrs. Dot Weber of 14 Hawthorne St., HICKSVILLE, spent the weekend visiting her sister, Mrs. Katherine Mancusi

and her family at their home in New Jersey. Both Dot and her sister, Kathy, are the daughters of the late Mr. and Mrs. William Smith who lived for many years on Willoughby St., in Hicksville. Kathy's husband, Michael, is the son of Mr. and Mrs. Michael Mancusi of PLAINVIEW. Kathy and Michael are the proud parents of three sons.

The Catholic Daughters, Court Queen of Angels No. 869, St. Ignatius are selling two pound pre-sliced fruit cakes and butter pecan and pound cakes sold in tins. We understand they are really delicious and anyone interested in purchasing one should call Mrs. T. Bergin, WE 5-3850 or Mrs. F. Retberg, WE 1-0612.

Get well wishes go to Mrs. Chris Reimels, 128 7th St., HICKSVILLE, who is a patient in Mercy Hospital, and Mrs. Paul Jones 2 King Ct., HICKSVILLE, who recently returned home from the hospital.

The Friendship Club, United Methodist Church, Old Country Rd., Hicksville, will be making dried flower pictures at the Monday meeting, Oct. 19, at 11 a.m.

Mr. and Mrs. Samuel R. Longo of PLAINVIEW, have announced the marriage of their daughter, Margaret Mary, to Don Joseph

Atkinson, son of Mrs. Donald Atkinson, of Louisville, Ohio, and the late Mr. Atkinson on Oct. 11.

The bride is a cum laude graduate of Ithaca College and also attended the Manhattan School of Music. She is appearing in the Broadway musical "Fiddler on the Roof" in the role of Chava, Tevya's daughter.

The groom has appeared in Broadway musicals and TV shows as well as opposite Miss Longo in "Fiddler."

The couple plan to live in Manhattan.

Mr. and Mrs. John F. Rogers of North Bellmore have announced the engagement of their daughter, Susan Grace, to Peter E. Popken of HICKSVILLE.

Announcement has been made by Mr. and Mrs. Robert L. Diesner of Wayne, N.J. of the engagement of their daughter, Joan, to Ronald John Stutzbach of PLAINVIEW.

Auto Theft Is Lead Crime

In recent years, auto theft has risen faster than any other crime category in the United States.

Conversation With M. Glenn Munch

Fire Commissioner, physics teacher, part-time auditor, amateur photographer, art collector: roll them all together and this is but a part of Glenn Munch.

Seventeen years ago, Glenn Munch brought his wife, Esther to the house on First Street that he lived in with his parents since 1927. He was born only two houses away. Both his parents and his grandparents were native Long Islanders, his grandfather, John Henne, having owned a farm from 1914 on Newbridge Road.

He comes to the Fire Department through a natural inheritance: his grandfather, Louis Munch, was one of the founders of Company No. 2, his father was a chief of the department and he, himself, has been involved since 1953. Last year he was elected Fire Commissioner for a five-year term. Though modest and unassuming when talking about himself, he is full of pride when discussing the fire department and its men. There are about 200 volunteers with the Fire Department, three fire houses (the main one being on Marie St. and the two substations on Briggs St. and Strong St.), and some of the best, most modern equipment to be found on the island. Glenn Munch would make few changes in the department; one of the few real needs is for more volunteers. Requirements are a 2-year residency in Hicksville and a man must be at least 21 and not more than 40 years of age and of good moral character.

When we asked him what happens in the event of a fire while he is teaching, he grinned and said, "I bite my fingernails!" At about this time we were treated to what happens in the Munch household when the fire

Glenn Munch

alarm goes off: a horn blows, the radio blares, and a quiet calm overtakes. We hoped this would not terminate our talk. Fortunately for the residents of Hicksville, it was a false alarm. Out of some 800 calls the department receives a year, about one third are false alarms, a gross injustice to the more than 200 volunteers who give of themselves.

Glenn Munch is a true product of the Hicksville School system — from kindergarten through high school. He received his B. A. at Gettysburg College, his wife's home town. His M. S. was obtained locally at Hofstra University. He started in 1952 at the Old Junior — Senior High teaching physics and general

science. He helped to plan the new Senior High School, switched to teaching physics and "settled in Room 111 and has been there ever since."

Handling money comes naturally to Glenn Munch, having been past treasurer of the High School PTA, treasurer of the Firemen's Benevolent Association, treasurer of the House to House Drive; he is also in charge of the football and basketball funds at the high school, the senior trip, cap and gown and extra-curricular funds. His qualifications for these "well-paying" jobs stem from his employment at Jones Beach as a supervisor of bank and auditing, a full-time job from May to September.

The Munch's do not have any children of their own... but they do have a large family. At any time of the day or evening, you will generally find Glenn and Esther entertaining, counseling, advising and even baby-sitting with our younger generation and their off-spring. The Munch's have gone on 17 Senior trips, both as chaperones and friends. Their attendance at the weddings and christenings of past students and their children are too numerous to mention. Housewife, confidante, fire boot-holder, Esther Munch's warmth is evident the instant you step inside their doorway. Glenn Munch is valued, not only as a teacher but as a friend.

THE HANDICAPPED HAVE "HIRE-ABILITY"

Since 1915, by direction of the Congress and Proclamation of the President, the first full week in October is observed as National Employ the Physically Handicapped Week.

There are 18 million handicapped men and women of working age. Only 52 per cent are presently in the working force.

The handicapped represent a cross-section of America. They come from all racial and ethnic backgrounds. However, they generally have one thing in common: the desire and ability to be gainfully employed.

While one week has been set aside to call attention to this reservoir of capable workers, employment of the physically handicapped is a year-round opportunity.

Experience has shown that the physically handicapped are dedicated to their jobs and their productivity rate equals and sometimes exceeds that of fellow workers.

Diamond Offers Reward

Councilman Ralph Diamond today announced that he would give a reward of \$50.00 (Fifty Dollars) for information leading to the arrest and conviction of any person or persons removing or mutilating the American flag, which so proudly flies over the Jericho Republican Campaign Headquarters which is located at the Birchwood Shopping Center.

Councilman Diamond reported that on several occasions the flag flying over the Headquarters has been removed by person or persons unknown. He stated that regardless of party affiliation every resident should respect the flag of our nation. Diamond further announced, that he personally would keep purchasing and displaying the flag in the event that any further one was taken or destroyed.

READ THE
HERALD

OPEN THE DOOR!

Dear Friends:

LIRR News is really exciting and indicative of progress. As of Oct. 19th, now that electrification is installed, many of our long-suffering commuters will no longer have to change at Jamaica!

AS MOST OF YOU ARE AWARE, it is a rare occasion when our Town Board gives anything but a "reserve decision", after hearings that are controversial, as they wish time to digest not only all the facts, but the feelings of those who have appeared at these hearings. Therefore, although the day and evening hearing on the proposed zone change on the Giese property on Lee Avenue, was changed because it fell on the date of the Town Budget hearing, and not until "after the election," which some residents felt was the cause for this change. The decision would not have been made final immediately in any case. And, in any case, these suggested zone changes should always be judged on their merits and never be made into a political football...our town deserves and gets this type of consideration at all times. So, whatever you feel in regard to this proposed zone change, make it known by letter and, if you can, by appearance, at the Nov. hearing. We are sure you will receive courteous consideration whichever way you handle it.

WE KNOW you all join us in the hope that the Rev. Benson of the United Methodist Church will be home from the hospital and well on the road to recovery very soon. Mr. Benson is active in many areas of community activity, as well as in his Church. He is dedicated not only to doing God's work but also to helping his community and he is sorely missed. Get well soon, Mr. Benson.

Sincerely,

Sheila H. Noeth

From The Governor

by Nelson A. Rockefeller
Governor, State of New York

Today, everyone is talking about water pollution. But five years ago, the present state administration began doing something about it—long before it became fashionable nationally.

That was in 1965, when the people of New York State voted their approval of the \$1 billion Pure Waters Bond Issue by a sweeping 4 - to - 1 margin.

Today, water pollution is an issue in the state campaign—and well it should be. The people have the right to know where candidates stand on the crucial issues of the environment.

The opposition is charging that

pollution has not yet been ended in New York's lakes and rivers.

This charge could be made in any state in the country. But the difference in New York is that we are the one State in the country that is presently well-embarked on a program that is ending pollution from municipal and industrial sources completely.

Accidents don't clean up the waste. Only the construction of wastewater treatment plants can do this. The Pure Waters Bond Issue is building these plants, everywhere in the State.

Construction of the plants is a massive, time-consuming project

taking up to five years per plant. Pollution is not something you clean up through years of application with these treatment plants.

To date, 363 sewage treatment plants have been built or are in the works, thanks to the Pure Waters program my Administration launched five years ago. When they are all completed, they will clean up virtually all present pollution from communities and give us the capacity to handle future population growth.

Furthermore, under Pure

(Continued on Page 15)

From Congress

Rep. James R. Grover, Jr.

Congressmen were poised, as this report was being written, prepared to sprint out of the nation's capital to head back home and tell the home folks all that they've done. In the case of this Congress, these reports should really concern what hasn't been done because the 91st Congress has been characterized by grievous, almost paralytic inaction.

There is an urgent need for action and I am prepared that the leaders of this Congress, who haven't moved the President's legislative programs over the past two years, have recognized

the necessity for a post-election session starting Nov. 16. So much remains to be done and the need is so obvious, that I can urge voters throughout the nation to cast their ballots in such a way that this ingrown, uncaring, politically-hostile Democratic leadership can be replaced with a Republican majority that will support the President.

Here is only a fleeting glimpse of what needs doing. We have been in the throes of a Great Society-fueled inflation caused by eight years of frenzied government spending. The President presented a balanced budget.

This Congress shoveled billions more in spending into the budget but refused to vote the taxes needed to pay for these goodies. Result: more inflation, more budget deficits.

Crime and disorder remain a major problem. Congress only last week began to clear Presidential programs needed to provide law enforcement agencies with the tools and manpower to meet savagery in the streets.

Our environment continues to suffer while Congress continues to ignore the President's

(Continued on Page 15)

From Our Postmaster

Ralph Cascardo

Postmaster General Winton M. Blount announced today that two postage stamps on military themes will be issued later this year.

One honors today's U.S. servicemen, particularly those who are prisoners of war or missing or killed in action.

The second marks the 50th anniversary of the Disabled American Veterans, a service organization that has aided more than 1.5 million disabled veterans and their families.

Both 6-cent stamps will be printed on the same sheet. Date and place of issuance will be

announced later.

The servicemen stamp supports the appeals of the newly-formed National League of Families of American Prisoners of War and Missing in Southeast Asia, that Hanoi release or at least identify interned servicemen. About 1,500 are listed as missing in action.

"By issuing these two stamps we pay homage to all American servicemen, living and dead," Mr. Blount said. "But we have special interest in those who today endure a form of living death, imprisoned by the North Vietnamese and the Viet Cong.

the fate of many remaining unknown to their families.

"Millions will know by the appearance of these stamps that this nation urges an immediate and unconditional release of all prisoners of war held by both sides in Indochina," Mr. Blount said.

"As President Nixon has said, it is time that war and imprisonment ends for all these prisoners. They and their families have already suffered too much."

The stamp designs will be unveiled later this month.

Ramblin' Rose

By Rosemary Walsh

Well here I am back again. Sorry to have been so busy, but remember a few weeks ago I wrote about fall cleaning—well October is also known as moving month—and we are in the midst of moving (the office that is) and it means absolute utter confusion, clutter, you name it, it's here and I—well I'll keep filling you in.

Speaking of moving, our own Joe Madden has moved back to Hicksville at 51 April Lane. He said and we know, it ain't easy to shake our town out of your

system.

Before traveling out to South Bend to see the family alma mater, Notre Dame, play Army—it was my (along with Joe Madden's and Warren Doolittle's) pleasant but rather hectic experience to attend two Little League Trophy Award Dinners in one evening. They were held by Hicksville Baseball Association and the Hicksville International Little League. It is a wonderful inspirational thing to see all these fine young lads—but more than

that those many, many dedicated volunteers that I speak of so often, that give of their free time to manage, coach etc. Bless them all.

Now on to South Bend—it was a marvelous victory for old N.D. (51-10) but since we were also there to see our favorite Hicksville High School All American, Mike Masciello, who plays tight end for Army, it was heartbreaking, especially so since Mike was injured in the first quarter after making a great catch. It's not easy to have been so long a staunch N.D. rooter (let's see I'll be married 29 years to an old grad—and my son and son-in-law are both new grads) to sit in the stands and cheer our Mike on, but that we

did. Well, we hope his knee heals fast and will follow him around as much as feasible.

Best wishes to Claire Levandov of our staff for a speedy recovery. I must ramble around See ya!

"May I please have a note—my wife is going to accuse me of being deliberately tardy."

HHS PTA

Holds Meeting

The Hicksville High School PTA's "Back to School Night" will be held on Thursday, Oct. 22 at 8:15 pm at the high school. The meeting will start in the auditorium. Parents will then be able to follow their child's schedule from class to class, giving them the opportunity to learn their child's curriculum for the 1970-71 year and meet his teachers. Refreshments will be served.

Happy Birthday Ex-Chief Gebhardt

The officers and men of the Hicksville Fire Department would like at this time to extend our very best wishes for a very happy 80th Birthday to Hicksville's oldest active fireman, ex-chief Henry A. Gebhardt Gebby, as we call him, celebrated his birthday this past weekend. Geb was also honored on this past Labor Day when the Hicksville Fire Dept. dedicated the 42nd annual parade and drill to him. He also was joined by department members at the October Dept. meeting to

celebrate his birthday. We know all our residents want to join with us and wish Henry the best of everything. The following is a brief story and the best way I know of to show the hard work and dedication he has given Hicksville.

Into every lifetime, at least once, a man appears whom you not only respect, admire and revere, but honor as a person of integrity and as someone you really relate to. Normally this is a national hero, an athlete or a star of major magnitude.

Seldom do you find such a man in a comparatively small group that is so honored by all who know him. That is the case however, in the Hicksville Fire Department.

Henry Gebhardt, Ex-Captain, Ex-Chief, Counselor, Advisor, Confessor, Confidant and Friend is just such a man. "Gebby" as he is affectionately known, does not simply belong to one HFD Company, but to the whole of the Department and has become a legend in his own time.

In the image of Don Quixote, Walter Raleigh, The Lone Ranger and the U.S. Cavalry of old, "Gebby" is always there when you need him most, in-

LIBRARY NOTES

Environmental Series

The second part of the Hicksville Public Library environmental series will be held on Thursday, October 22 at 8:00 P. M. in the Library auditorium.

The title of the discussion will be AND NOT A DROP TO DRINK.

spiring, directing, giving you the benefit of not only his firematic experience but his personal contact with life itself.

"Gebby" has seen fit to guide and counsel the members of HFD for all of his long 59 years of service.

"Gebby" has fostered, fathered, aided and given support to so many firematic organizations it is impossible to list them on no less than two pages of copy. Because of his dedication and dedicated service he has become a by-word in the Nassau County and Statewide fire service.

The speakers are Dr. John L. Lee of the Department of Biology, City College of New York, and Robert Lippman a member of the Sierra Club and a guest Lecturer at Stony Brook University.

The subject is water - the substance that carries our survival - and our pollution. Our fish and underwater life are slowly disappearing in great numbers, our streams are green and scummy, our rivers float all kinds of debris to their shores, the beaches for swimming are getting scarcer and fewer every year. What are the answers for this destruction of man's prime source of life? Come to hear these experts and see what we all can do to stop this tremendous waste of our natural resources.

This series will be held every Thursday evening in the Library auditorium at 8:00 P. M. until November 18.

The Hicksville Public Library and the Fine Arts Committee proudly presents the second of the Sunday Recital Series 1970-71 on October 18 at 3 p.m. in the library auditorium. The program will be a violin recital by Michael Tolomeo.

Mr. Tolomeo began his professional violin study at the Yale School of Music with Hugo Kortschak. He continued his studies at the Eastman School of Music with Jacques Gordon and Andre de Ribapierre, earning both his Bachelors and Masters Degrees. While at Eastman he was a member of the Rochester Philharmonic under the direction of Erich Landsdorf. He was awarded his Doctor of Musical Arts Degree from Eastman this June and continued his violin studies during this period with Oscar Shumsky and Zvi Zeitlin. At present he is Assistant Professor of Music at the City College of New York, teaching classes in music literature and theory and performing faculty string quartet.

East Street Annual Bazaar

It's that time again! The East Street school will hold their annual Bazaar on October 24th. It will be from 11 am to 4 p.m.

Our Bazaar gets bigger and better every year! Come and see and join the fun. Games galore - loads of prizes too - a White Elephant booth - Cotton candy - pizza and refreshments - a - plenty! Something for everyone!

Meets New Principal

At Fork Lane's P.T.A. first general meeting on October 6, "our" New Principal Mr. John Maher, on the left, is being introduced to the parents by Shirley Smith, P.T.A. President, center, and by Mr. Robert Townsend, Assistant Principal. Grades Kindergarten through Third were visited by the parents for them to get an idea of "their" child's routine. The delicious cakes served, following the meeting, by the P.T.A. hostesses, were so generously baked by the Kindergarten mothers.

If you're too old to have diaper rash...

It must be something else.

It's jock itch. Jock itch is a fungal infection.

That's why it keeps coming back even though you've tried all sorts of remedies. Including baby powders and salves. They may be okay for diaper rash. But not jock itch!

Now you can get relief with Cruex. A spray-on powder specifically made to fight jock itch.

Cruex spray soothes itchy, inflamed skin. Cushions against further irritation. Cruex absorbs sweat (one important factor in the

growth of Tinea cruris fungi.) Its medication directly attacks susceptible fungi.

That's why using Cruex before and after exercise can help stop jock itch before it starts.

Cruex spray cools; gets into hard-to-get-at places. (And you don't make it sting or burn by rubbing, dabbing, smearing or spreading anything on.)

Cruex spray is easy on you. It's strictly hands off. At your pharmacy. **CRUEX**

Cruex. Guaranteed to work or your money back.

SPORTS

By

Howard J. Finnegan

Hicksville's Junior Varsity has started the season with two sharp looking victories.

The Orange and Black opened with a 22-8 win over Herricks and followed with a 30-6 victory over Plainedge.

Rick Doolittle has sparked the team from the quarterback slot. In two games he has completed 13 of 23 passes for 177 yards and three touchdowns.

His roll outs and bootlegging with the ball has confounded the opponents.

Against Herricks Pete Humman had a busy day with two interceptions and got the first touchdown by recovering a fumble in the end zone.

Doolittle circled the right side for 11 yards and the second touchdown.

The most sweeping score came on a 41 yard pass play from Doolittle to John Vrona.

It was the same passing combination for a two point conversion. Doolittle ran 3 yards for the other two-pointer.

It wasn't all passing. The running of Keith Hoyer and John Spudola kept the Herricks defense honest.

Hoyer gained 54 yards rushing and Spudola 43 in only four carries by the latter.

Kim Torrellas intercepted two passes and Hoyer 1.

Humman was quick to demonstrate alertness against Plainedge. He picked off a forward early in the game and raced it back 67 yards for a score.

Hoyer scored the next on a two yard plunge.

Doolittle came into play with a 26 yard scoring play to Bill McClurath and another 24 yarder to Vrona.

George Gramaglia took a pass and Doolittle ran for two point conversions.

Coach Ron Quattrini's Junior Varsity plays Farmingdale at Hicksville starting 10:00 a.m.

Hicksville Junior High's

Square Dance at Hicksville Sr.H.S.

For the benefit of the Gregory Museum, there will be a Square Dance at the Hicksville Senior High School on Division Avenue in the gym.

Max Wiener will be the caller on Saturday, October 24 at 8:00 p.m. A \$2.00 donation per person, which tickets will be on sale at the Hicksville High, Hicksville Library and the Square Dance. There will be a drawing for 3 fabulous rings which were faceted by a Museum member.

Lions To Hold Fund Raising

The Lions Club of Hicksville will start their 1st Annual Light Bulb Fund raising campaign on Saturday, October 17 in the morning. The Lions will sell bulbs in the residential sections of Hicksville. Watch for their truck.

The Lions serve in their community, the Blind, Youth and Citizens in need.

football team got off to a Flying 32-0 win over Island Trees.

Tony DiLallo scored four touchdowns and Charles Calista one.

Paul Curcio ran for the one two-point conversion.

Steve Cannine is the team quarterback.

This Friday afternoon the team gets to go to McCleary in East Meadow. That is a big game.

Quarterback Jeff Doolittle kept Hofstra College more than respectable against powerful Baldwin-Wallace from Ohio. The victors banking on a big rout won 24-16.

Doolittle passed for more than 100 yards, ran for 58 more and scored two touchdowns.

This Friday night Doolittle leads Hofstra against awesome Westchester teachers on the Astro-Turf in the Hempstead

Stadium. Two touchdown passes - Brian McAuley to Ed O'Reilly. Kept Wesley Junior College undefeated and in line for a December bowl bid.

With those two ex-Hicksville High stars headlining the Dover Delaware school plays Nassau Community College under the Hofstra Arcs, Saturday, October 24th.

The Hicksville High Varsity took a 14-6 drubbing from Plainedge, Columbus Day, for its second straight gridiron loss without a victory.

Hicksville has another travel date this Saturday and the ride home looks to be again dispiriting. Farmingdale appears far too superior to the Orange and Black.

Our selection Farmingdale 35, Hicksville 14.

Polo At Bethpage State Park

It's the final game of the season at the Bethpage State Park Polo Field, the Long Island Industrial Recreation Association Trophy Match on Sunday October 18th winding up the weekly polo games here for 1970. Brookville, with Al Bianco, Ted Shapiro, Allen Jenkins and Fred Zeller, will take on Bethpage with Fred Braunstein, John Gayer, Dave Rizzo and Peter Henderson in this exciting yearly finale.

Sunday October 11th, Bethpage, on top last year, again copped the Dover House Trophy put into play by Burt Bacharach's restaurant on the Island, individual trophies also going to the winners and con-

solation trophies to the Brookville losers. A wild game, marked by saves on both teams, Bethpage's Fred Braunstein, Ted Shapiro, Frank Rice and Fred Zeller had the upper hand in the beginning, their four to one lead at the end of the half throwing Brookville's Mike Gerard, Al Bianco, Paul Rizzo and John Whittemore. Rizzo, the youthful polo firebrand from Huntington was outstanding player for Brookville, robbing Bethpage of many direct plays throughout the game and scoring twice for his team. Rice, on the other hand, didn't score for Bethpage but was directly responsible for the scoring by Shapiro, Zeller and Braunstein, their eight to four win not an easy victory.

Ten Pin Talk

by Henry Dockswell

Once the Bowling Bombers of the BCA unleash their heavy artillery there's no letup. Last week they bashed 27 big ones with triples and doubles galore and this week they bombed 24 cool ones with a triple, a double and three new Hi Series records.

Leading the bombardment was that Professor of Kegling, Buddy Flinders, oops, I mean Flanders. Buddy crashed a 232 a 217 and a 221 for a mighty 670 series, a new Hi Series Scratch record and a shutout victory for his team. Teammate Dave Kaye lent Buddy a helping hand with a 214 and together they clobbered the Nat Warrens even though Capt. Nat threw a 216. "Flanders' Floozies" bettered their own Hi Series Hdcp record with a 2611 and rose to 5th place only 7 points behind the league leading Sid Holtzmanns.

Holtzmann's 'Hockers' did pretty well for themselves too. With Steady Eddie Roseman rocking a 227, Murray Kowliowitz throwing a 203 and Capt. Sid, who missed the first game, cracking a 211 they lambasted the Freddy Rothmans 11-0. It was a good thing the Holtzmanns took all 11 points, for that allowed them to hold on to 1st place by the slim margin of one point.

Hot on the Holtzmanns' heels are the Robby Goldsteins. They too creamed their opposition. With Capt. Robby aiming a 227 they whitewashed the tough Lou Vladems, even though Marv Kahn rolled a 203.

Jumping from 5th to 3rd were the Sid Simons. Norm losted a 202, Capt. Sid hit a 216 and the cellar-plagued Herb Brodys once again were the victims of a shutout. Herb laughed it off but it wasn't easy to take. The Brodys lost the first game by 7 pins and the last game by just one pin. After two shutouts in a row this third one could bring tears to a competitor's eyes and Gelusli for his queasy stomach.

In 4th place are the Leo Geyers. They maintained that position by trimming the Hal Goldenbergs 8-3. Our double man was in this contest. Red Karbel fired a 206 and a 202 to lead the way. Joining him were Sid Berken with a 212 and Capt. Leo with a 218. With all that heavy ammunition being fired at them the Goldenbergs were lucky to take 3 pts.

Last of the shutouts was the Murray Sussmanns whitewash of the Hy Shapiros. Capt. Murray opened the gated by hitting a 219 in the first. Irv Herskowitz with a 220 and Mike Hauptman with a 214 followed suit and the Shapiros were through. On the way to this victory the Sussmanns set a new Hi Team Series Scratch record of 3638.

Closing out the individual scoring were: Bernie Lieberman 233, Sid Sachs 226, Bill Kellerman 204, Irv Simes 204 and Les Shuman with a 202.

Syosset Board of Ed To Meet Oct. 19th

The regular meeting of the Board of Education of Central School District No. 2, Syosset will be held on Monday, October 19, at 8:30 pm, at Robbins Lane Elementary School.

The Board will tour the Robbins Lane School at 7:30 pm, and hold an Executive Session at 8:00 pm. Plans are being made for the public to tour the building at 8:00 pm, prior to the regular Board meeting at 8:30.

Reminder to BCA Officials

All Birchwood Civic Association Officers and Directors are requested to be at the Town & Country Diner by 8:45 P.M. for the regular monthly meeting scheduled for Tuesday, October 20th.

If unable to attend, please notify President Don Becker beforehand (681-3069), or contact any other fellow officer.

Students Commended At Area High Schools

JERICHO

David Nydick, Superintendent of Schools, and Paul McKee, Principal of Jericho Senior High School, have announced that the following students have received Letters of Commendation as a result of their excellent achievement on the National Merit Scholarship Exams:

Daniel Abuhoff, Scott Agins, Jay Finerman, Eric Galatz, Jeffrey Hasday, Irene Mendelsohn, Glenn Metzner, Sara Nerken, Howard Newman, Nancy Reale, Ann Roggen, Barbara Silverblank and Ellen Vanderslice.

These thirteen students join previously announced semi-finalists Vicky Marani and Neil Immerman.

SYOSSET

Letters of Commendation honoring them for their high performance on the 1970 National Merit Scholarship Qualifying Test (NMQT) have been awarded to 23 students at Syosset High School, Principal Dr.

Walter M. Yannett has announced.

Those named Commended students are: Aker, Deborah J.; Becker, Diane E.; Bell, Blair A.; Claypoole, Barbara; Danziger, Robin L.; Elkins, Pam L.; Gold, Michael R.; Greenwald, Michael; Haller, Carl R.; Hutchinson, David K.; Kantor, Richard J.; Kaplan, Roger; Kohler, Daniel M.; Matheson, Douglas R.; Novikoff, Susan C.; Orden, Stewart L.; Parnon, Frederick W.; Pearse, Jeffrey; Piccione, Mark; Raubach, Robert J.; Schroeder, Richard; Schwartz, Leslie J.; Weiss, Alan J.

They are among 35,000 students in the United States who scored in the upper two percent of those who are expected to graduate from high school in 1971. The Commended students rank just below the 14,750 Semifinalists announced in September by the National Merit Scholarship Corporation (NMSC).

Jericho Teens Visit Elementary Schools

"I wonder, did I act that way when I was small?" asked the Jericho High School ninth grader as she observed primary grade youngsters in action. Another teenager remarked that she had not "realized how much the little kids actually learn." Following a three hour field observation of elementary pupils in classrooms, lunchrooms, libraries, playgrounds.

The observations of the younger students at each of Jericho's four elementary schools were made as a project by Miss Nancy Smith's Junior High Home Economics class. One of the units of study concentrates on understanding the child from ages six to twelve. In order to better understand younger children's growth and abilities, Miss Smith arranged for her junior high girls to visit children in action at the elementary schools. John Bolles, Lionel Goulet, Norman Siskind and Joseph Verdove, elementary principals, coordinated the visitation schedule with classroom teachers, Miss Smith, Mrs. Beatrice McHale, Chairman of Home Economics, and Arthur Rathje, Junior High Principal. Students who visited and observed at the elementary schools were:

Robert Seaman visitors Robin Kasendorf, Sheryl Zemsky, Ann Glusman, Beth Mulnick, Debra Retzkin, Maria Schaffer, Lynda Weinstock, Gail Maass, Joann Ferrara.

Cantiague visitors Michele Bernstein, Jeri Kramer, Donna Bean, Felicia Berman, Barbara Dalton, Susan Genna, Jean Graidowski, Deborah Press, Catherine Doogan, Nedra Furst, Wendy Heskel.

George A. Jackson visitors Ellen Marsden, Diana Visalli, Susan Barros, Diane Landeau, Robert Williams visitors Tina Schechter, Raif Reif, Elyse Friedlander, Shari Haber.

The day following the observations, the junior high girls met to discuss their experiences at the schools. Miss Smith led a group sharing what the girls had seen of children's activities, physical development, reactions to teachers and classmates, use of language and other observations. Further follow-up will be done in both oral and written reports, using guidelines and descriptive questions developed in the Home Economics class. Comments from the Junior High girls indicate that the visits helped in both knowledge and appreciation of younger children.

Annual Book Sale On Sunday, Oct. 18th

The Friends of the Jericho Public Library is having its annual Book Sale on Sunday, October 18 (rain date October 25) between 12:00-4:00 pm on the grounds of the Jericho Public Library on Merry Lane. The annual Book and Author Luncheon will be held on Thursday November 5. Details will be forthcoming.

BOX SCORE

Your Jericho Volunteer Fire Department answered the following alarms during the month of September 1970:

	Sept.	year to date
Fires		
Brush or Rubbish	2	45
Car	8	48
Structure	2	40
Mutual Aid	1	7
Emergencies	12	96

Estimated Fire Damage	\$3,425.	\$333,755.
Injuries to Firemen	0	34
Deaths from Fire	0	1

** This represents an increase of 15 percent over 1969 and 35 percent over 1968.

Accept Syosset High Into Thespian Society

Syosset High School has been accepted into membership in the International Thespian Society. Only public, parochial and private secondary schools with adequate drama departments can qualify for membership. The International Thespian Society is a theatre arts honor society with, at present, 3094

affiliated schools. Its principal aim is to help build character by developing poise, public speaking and leadership - all so vital for adult life. Participation in the high school theatre program is an added experience which proves beneficial to all students no matter what their future professions may be.

Visitor From England At Jackson School

John Bolles, Principal of Jericho's George A. Jackson Elementary School, was host recently to Miss Isabel Moyes, a law student from Great Britain. Miss Moyes visited the sixth grade classes and spoke with students on the similarities and differences between American and English customs, educational and political systems. She shared with the students her own recent experiences as a camp counselor and as a traveler throughout the United States. Miss Moyes was impressed by the Jacksonites eager participation in the discussion period which followed her informative talk.

The sixth graders and their

teachers, Mrs. Julia Murray, Robert Pape, Thomas Shea, listened to Miss Moyes' descriptions of the functions of the Houses of Parliament and their contrasts with our Congress. Students then questioned the differences in royalty and governmental positions from our electoral system. Among the British customs discussed by Miss Moyes were recreational and sports activities, with soccer and football being of special interest to the students.

Resource persons from local and foreign areas are frequent visitors to the Jericho schools and provide valuable insights for students and teachers alike.

Operation VFW

William M. Gouse, Jr. Post No. 3211
By Lou Palladino

There has been talk about Veterans housing in Mitchell Field. We kicked it around a bit. Some felt it was a political football, while others thought it a good idea. Finally Brian Maas got up. He's one of our young men. He spoke deliberately, and clearly. It was surprising in one so young to be able to put something across so well. Anyway he explained the situation in its entirety, because he was present at the particular

meeting. All that can be said, is each person have their own opinion on this idea. This man's opinion is, any help given to these young men is strictly A-okay. All Vet organizations are supposed to be backing it, and the State is backing it financially, or a major portion of it. This is the way we heard it.

A possible treat for all the youngsters, a Net basketball game, will become a reality soon. It was agreed, that it might be to

the liking of the kids to attend. This is our youth activity at work. Bob Williams is chairman. I think Bob Keck will be helping him. Now arrangements have to be made with the Nets org. and transportation will be provided. You know you will hear more about this program, when we get more information. The date, the time and the place. All this will be told as it comes to us.

One fella got up during the meeting, and said, we help so many needy organizations. Yet the one that does most for our young men in the service is never mentioned. He spoke of the U.S.O. Everybody reacted spontaneously to his remark. We all remember old and young, what a grand job the U.S.O. has done for the serviceman. So you

just have to know that we sent a nice donation. Whats money for, if you can't spent it for the right things.

Frank Lotti gave us all the data about our coming Charter night dinner dance. The price will be \$17.50 per person. The place is the Galaxy in Plainview and the date is Feb. 20. It may sound like a lot of money, but would you believe, at that price, we'll be coming out on the short end. A cocktail hour, that's out of this world, and a fine dinner, with a rolling bar. From the time the cocktail hour, to its conclusion, will be six hours. If you can eat and drink enough, you will get more than your money's worth. It does sound like a long way off, but time passes fast. Before you know it the event will be here and gone.

Once again on the Voice of Democracy, Jim Sotile told us that the V.F.W. is the only sponsor to this program. There are 4 million children that participate. You're hearing about it, because this person is surprised to hear of it. Our kids are as good or as smart as any in this great country of ours. Even if they don't win, they'll be in there punching. This may sound like negative thinking, but imagine how exciting if one of our kids go all the way. Jim is our post chairman. Our County chairman, happens to be our own Cmdr. Frank Aug, now district VFW, has asked him to take over the chair too. Lots of Ruck Frank. Wow Sounds like an awful lot of work and time.

Hicksville Community Council October 8 Minutes

Meeting was called to order by Sheila Noeth.

Due to the program outlined for the evening the reading of the minutes were dispensed with.

Sheila Noeth advised that membership dues in the Hicksville Community Council would be \$2.00 per year, and that organizations, etc. would be receiving a bill. After each meeting a report of the meeting will be printed up and sent out to every member organization so that it can be read at their meeting.

Sheila Noeth announced the chairman of the following committees, who would by our constitution become members of the Council board of directors whose meeting will be held at 7:30 p.m., immediately prior to each regular meeting which starts at 8:15 p.m. on the first Thursday of each month: Commerce and Industry Committee Chairman, Mr. Kingsley Kelley; Cultural Activities Chairman, Mrs. Gilda Shapiro; Recreation Committee Chairman, Mrs. James Walsh and Mr. Joseph Madden; Education and Related Activities Committee Chairman, Mrs. Lawrence Wolfson; Governmental Agencies Committee Chairman, Mr. Joseph Giordano; Youth Activities Committee Chairman Mr. Steven Weinblatt; Senior Citizens Committee Chairman the Rev. Douglas MacDonald; Religious Activities Committee Chairman, Mr. S. R. Widder; Civic Associations Committee Chairman Mr. Joseph Catalano; Service, Patriotic and Fraternal Organizations Committee Chairman Mr. Vernon Wagner; Program Committee Chairman, Mr. Elery Bean and Membership Committee Chairman Mrs. John McManus.

Councilman Warren Doolittle had to leave for another occasion, and after saying a few words, introduced Professor George Raymond, our speaker for the evening. Councilman Doolittle stated that the Town Board of the Town of Oyster Bay had been commended on their selection of Prof. Raymond to work on the Master Plan for Hicksville.

In relation to the Town Planning Committee, Mr. Owen Walsh and a 9 member committee will be meeting more frequently with Prof. Raymond, in which they will pass on their views to Professor Raymond. Our committee is composed of outstanding people - business men, architects, doctors, etc.

Professor Raymond introduced his assistant Mr. Robert Geneslau, who is working on the Hicksville project.

The planning process was outlined on a slide to show what was involved, and how, in creating the Master Plan they are acting in an advisory capacity to the Town Planning Board. Professor Raymond pointed out that Hicksville has an established character, and the following represent some of the areas which must be studied before he can say "We know what the town is all about."

1. Study of existing ordinances.
2. Preparation of maps, permitting planning on a local level.
3. Population studies in aging, turnover in houses, apartments, etc.
4. Change in areas from resident to non - resident and vice versa.
5. Existing development.
6. Topography and transportation problem.
7. Fiscal studies of various districts.
8. Pressures on the town.
9. Historic buildings worthy of preservation.
10. Traffic and street system.
11. Study of community facilities.
12. Study of existing zoning regulation.

Prof. Raymond said: "After we compare all the studies necessary, we go to the Town Board and give them an understanding of the town as we see it, outlining what conclusions and opportunities we see. From their reaction we summarize and set up a tentative plan and proceed. Our plans are presented at this point to the public and the Town Board to cover some of the following problems:

1. Land Use Plan
 - A. Undeveloped and subject to change.
 - B. One type of use of land, could be more desirable with other use, perhaps at the expense of other types of uses.
2. Community Facilities Plan
 - A. Existing system be able to take care of transportation load.
 3. Conservation in terms of present open space.
 - A. Methods by which open space can be preserved.
 - B. Renewal plan in those areas that are old and inadequate to function.

"We now check our plans again with the Town Board and public reaction, and then proceed to develop the final plan. Meetings

will be held around the community to test out the plan. A plan is never final - not a dead issue, but very much alive, and be subject to change, - it goes on and on into the future. For any plan to have meaning, it must be adopted by the governing board.

Prof. Raymond stated: "The plan will be worked out over the next 15 months or so. The Planning Association of Hempstead, who major in Recreation, have been assigned the job of working on a plan to improve Recreation in the area.

Prof. Raymond stated "A questionnaire would be mailed to a cross-section of the residents of Hicksville, since they are anxious to know what the people in the town are concerned about. Would like to guide the town to satisfy the rising needs of the people that live here.

"There is a Nassau - Suffolk - Regional Plan working toward the development of centers in order that they can generate public transportation facilities. It would be to our advantage to cooperate in the furthering of this concept in determining how it will be resolved. However, the Town of Oyster Bay is a separate entity in itself," Prof. Raymond concluded.

Mr. Edmund Ocker of the Town Board was instrumental in adopting the Master Plan of Zoning.

There were several questions that were asked of Prof. Raymond from the floor.

1. Will your plans differ in any way from the Bi-County Regional Plan?

A. Really starting from scratch on Hicksville, - Regional Plan is yet to come.
2. You indicated that when the plan is made up, there is nothing by law that means it has to be followed. If this is so, what is the part that I am missing?

A. The plan is intended to prepare a base of information, and a basis for making judgements. It is a help to the town's people to develop a course of action.

3. If the Town Board does go ahead and declare a "moratorium", would you be prepared to go over the situation?

A. We have to do this in order to give us additional time to come up with the answers. Our report or recommendation will take in the tax base, garden apartments, building heights, etc. We will look into all of these angles.

4. You state we need about 15,000 acres of open land, some of this land to come from golf courses, etc.

A. We may not always be able to attain the ideal. However, we are in a very fortunate area, and may have to make due with slightly less.

5. Is there any substance to MTA building a 19 story structure?

A. Prof. Raymond had not heard this rumor.

6. Is there a limit to the size of any building in the Town of Oyster Bay?

A. There would have to be an ordinance issued to this effect.

7. Are the MTA beyond the jurisdiction of the Zoning Board?
A. They have the right to do whatever they see fit to do. However, the authorities within the County will hopefully make their feelings known and bring pressure in the matter.

8. Do MTA have the right to come in and condemn property.
A. Theoretically they can do this.

9. Will you also recommend to the Town Board a change in zoning?

A. Yes, if the Master Plan will mean anything, then it also will have to mean something to the people of the town.

Respectfully submitted,
Anne Gregory, Secretary

Electric Train Starts Run To Hicksville On October 19

(Continued from Page 1)

stopping at Cold Spring Harbor, Syosset, Hicksville and Jamaica, then non-stop to Penn Station, arriving 8:46.

• A 8:00 o'clock train from Huntington, stopping at Cold Spring Harbor, Syosset, Hicksville, Westbury, Carle Place, Mineola and Jamaica, then non-stop to Penn Station, arriving 9:02.

• A 7:21 from Westbury, non-stop to Penn Station, arriving 8:07. (This train replaces the temporary Westbury diesel "Special" between Westbury and Jamaica.)

• A 7:35 from Hicksville to Hunterspoint Avenue in Queens, stopping at Westbury, Carle Place and Jamaica, then non-stop to Hunterspoint Avenue, Long Island City, arriving 8:15.

Evening commuters will find:
• A 4:23 from Penn Station, express to Hicksville, then stopping at Syosset and Cold Spring Harbor, arriving Huntington 5:14.

• A 5:18 from Hunterspoint Avenue, express to Westbury,

then to Hicksville, arriving 5:58.

• A 5:29 from Pennsylvania Station, stopping at Woodside, Forest Hills, Jamaica, New Hyde Park, Merril Avenue, Mineola, Syosset, and Cold Spring Harbor, arriving Huntington 6:34.

• A 5:47 from Penn Station, stopping at Woodside, Jamaica, and Westbury, arriving Hicksville 6:34.

• A 6:39 from Jamaica, stopping at Merril Avenue, Mineola, Carle Place, and Westbury, arriving Hicksville 7:08.

The last extension of LIRR electric service took place in 1955 when the section of track between Lynbrook and Babylon was hooked up. No further expansion was planned until 1965, when the State Legislature created the Metropolitan Commuter Transportation Authority, now the Metropolitan Transportation Authority, to purchase the LIRR from the Pennsylvania Railroad for \$65 million. Since then, the MTA has administered the modernization of the LIRR.

Tobay Hears Bid for Town's Largest Business Complex

The Oyster Bay Town Board at
its meeting Tuesday reserved
decision on the petition of ISC
Properties, Inc., for a change of
zone from Residence A to
Business G District for a 12½
acre parcel on the north service
road of the Long Island Ex-
pressway in Jericho. To place the
property exactly, it is 7,571.64'
west of the curve at the in-
tersection of Jericho Turnpike
and Glen Cove Road.

ISC Properties, Inc. an in-
ternational corporation which is
listed among the leading 500
corporations in the country,
proposes to erect two office
buildings on the property,
providing a total of 665,000 floor
space and jobs for 3,000 to 4,000

people. The cost is estimated
from \$25 to \$32 million. The
company's business is in elec-
tronics, plastics, lighting,
building and hardware and
automotive. ISC is the contract
vendee of the property, which is
owned by Paul R. Murphy and
John Peter Vermeulen.

In his two-hour presentation,
attorney William L. Maher
brought in testimony from an
officer of the firm, Stanley Roth,
Vice President; a municipal
planner, Harold Letson; the
architect, Elmer Smith of the
firm of Smith and Anderson; and
a real estate expert, Bernard
Goodman.

It was brought out in the
testimony that the property in its

proposed uses would yield over
\$700,000 in real estate taxes, with
about \$300,000 going to the
Jericho school district.

The two U-shaped buildings
proposed would be five stories
high with the lower story
recessed 6 feet. Places in the "U"
would have fountains and
greenery, and a restaurant would
be situated on the ground floor of
each building. Parking would be
provided for 3100 cars.

Representatives of the
petitioners agreed that there is no
office building presently in the

Town of Oyster Bay of com-
parable size.

While no letters of protest were
received, George Kraft, attorney
representing the Village of Old
Westbury, registered a strong
opposition to the petition,
primarily on the basis that the
building would generate
tremendous traffic through Old
Westbury on Jericho Turnpike
and that the rural character of
the community would be
threatened thereby. He asked
that such a commercial
development have only internal

roads with one or two exits onto
Jericho Turnpike.

He referred to development
such as this as "strip develop-
ment" and said if this petition
were granted it would not only
prejudice the master plan of
Oyster Bay, as mentioned during
the hearing by Councilman
Diamond, but would actually
predetermine it.

The Firematic work of the Hicksville Fire Dept. is under the direction of Chief Melvin Voorhies. Mel and his wife Kathy have three children, Charles, Elizabeth and Patricia. Chief Voorhies joined the Fire Service in 1956 as a member of Ladder Co. No. 6. In 1957 he transferred to the newly organized Engine Co. No. 7. He rose through the ranks as Lieutenant, and Captain. Mel was elected by the membership in 1964 to the rank of 3rd Asst. Chief. He advanced through the ranks and was elected Chief of Department in April of 1970. Chief Voorhies assistants are Deputy Chief Donlon, Mertz, and Misturini, whom we will introduce in latter issues of this paper.

Mel, who is employed by the U. S. Post Office, has a difficult job being responsible for the fire safety and protection of over 55,000 people in Hicksville, along with over 12,000 private homes, 13 schools, and millions of dollars worth of commercial and industrial properties. Many problems arise every day where the Fire Department is called on to assist. The chief must also oversee the 225 members of the Fire Department, keep it running smooth and be sure they are

Chief Melvin Voorhies

trained in the latest methods of fire fighting and rescue. All this, we remind you, is done free. No charge to the taxpayer. All the taxpayer is asked to do is support the men who give their time, and part of his tax dollar goes for the purchase and maintenance of the 16 pieces of equipment. No fireman is given a discount on his local or state or federal taxes as some people believe. Each year the Fire Department conducts an annual fund drive to cover expenses and insurance not provided by taxes. The fund drive is in progress now and we ask our residents to once again give us the support they have given us in the past.

On The Campus

Among the entering Fourth Class at the State University of New York Maritime College, which has completed a two-week period of indoctrination and orientation, and it is now merged into the college's Regiment of Cadets are, Christopher P. Brennan, 64 Coachman Lane, Joseph S. Gluckman, 59 Jerusalem Ave., and Randall T. Smith, 8 Holly Hock Rd, all of

Levittown, and Stephen M. Trant, 77 Scooter Lane, James A. Ujvari, 56 Alpine Lane, and Stephen Woodchke of 16 Ferndale Drive all of HICKSVILLE.

Kevin Clancy was named to the Dean's List at St. John's University for the Spring '70 Semester. He is attending the University on a Scholastic Excellence Scholarship.

School District 17

(Continued from Page 1)

director's salary O'Donnell, Kerhen, Zindulka yes; Muratore, McManus, McCormack. After several attempts to table the discussion, the Board finally decided to get more information—salaries of Adult Education Directors in neighboring school districts, etc.—before making a decision.

Creative Art Forms' request for use of district building facilities was denied by the Board of Education. After a discussion

of the possible legal problems involved, the vote was 4-3 against. Those voting no: Zindulka, O'Donnell, McManus, McCormack; yes: Muratore, Clark, Kerhen.

The Board voted unanimously to allow the Gregory Museum to use district facilities to hold a square dance.

Thomas Clark was appointed assistant treasurer for the District. He will serve during Mr. Herbert Bachman's absence.

Downzone Hearing

(Continued from Page 1)

tham many builders specialize in purchasing odd-size plots of land for the building of one family homes. He also mentioned establishment of Golden Age facilities. Another resident questioning the feasibility of a Town park was reminded that this would result in the loss of tax revenue.

Various methods of defeating the downzoning were discussed at the meeting. Mrs. George Gros of 40 Ninth Street is petition Captain. Anyone desiring petitions opposing the change of zone to an Apartment House District may contact Mrs. Gros at WE-1-2932.

From Congress

(Continued from Page 4)

pollution program, the broadcast such approach to the ills of our environment in American history.

A controversial welfare reform program, which needs reworking, remains before Congress, without action, while welfare rolls increase and the cost in public monies and human waste continues to mount.

We have progressed toward ending the Viet Nam War because of the President's efforts and little thanks to Congress.

Among other items Congress failed to consider or simply ignored are improvement of Congressional procedures, election reform, trade programs, mass transit aid. Perhaps the old men who lead these Congressional committees have been returned to office so regularly that they feel the people of this nation don't know what's going on. I prefer to believe that the people do realize what's happening and will elect a Congress determined to act and free of do-nothing Democratic control.

Because Congress will be going into recess, this will be the last of these weekly reports for this year. I hope to resume this column next year and wish to express my appreciation to the newspapers and radio stations which bring it to you. Without their help, it would be impossible to keep you up to date on the often unbelievable happenings in Washington.

From The Governor

(Continued from page 4)

Waters enforcement procedures, over 40 per cent of the pollution from industrial polluters has already been stopped and the rest are under legal orders to have treatment facilities by fixed deadlines.

We are putting an end to the abuse of this State's waters that began, not 10, 20 or even 30 years ago, but over 100 years ago with the advent of the industrial revolution.

This administration took the first decisive action in this country to confront a tide of abuse and neglect of our waters that had been building for over a century—and we are reversing it.

When one State has taken the lead over every other State and when that State is investing more money to end water pollution than the Federal government is spending—for this purpose in the entire Nation, then I am not concerned with political attacks on the program.

OIL PROBLEMS?

OFFICES AND TERMINALS THROUGHOUT LONG ISLAND

Fuel Co. Seeks To Expand

A public hearing will be held next Tuesday, October 20, at Oyster Bay Town Hall, Audrey Avenue, at 10 A.M. on the petition of Nassau Reliance Fuel Corp. for a special use permit in an Industrial H Zone in Hicksville.

The property in question is on the south side of Commercial Street, southeast of the corner of Commercial and New South Road. The southwest line of the property runs along the Long Island Railroad tracks.

Nassau Reliance Fuel is the

lessee of the property, which is owned by Fore Improvement Corp. The fuel company now leases a building on the adjacent property, and wants this additional land for storage of oil trucks, parking, offices and garage for work on oil trucks. The five-year lease, starting August 31, 1970, is conditional upon the granting of this special use permit.

According to the petition on file with the Town Clerk, the company would not store fuel oil on the property.

Anyone over 21 owning property in the Town of Oyster Bay may sign the petition.

At the SPOT meeting it was stressed that all residents not in favor of the zone change should appear at Town Hall for the

hearing on November 17. All persons who wish to speak will be heard. Arrangements are being made to charter buses to transport people to Town Hall. SPOT members will ride free, all others will be charged \$1.00.

If you're too old to have diaper rash...

It must be something else.

It's jock itch. Jock itch is a

fungal infection.

That's why it keeps coming back even though you've tried all sorts of remedies. Including baby powders and salves. They may be okay for diaper rash. But not jock itch!

Now you can get relief with Cruex®. A spray-on powder specifically made to fight jock itch.

Cruex spray soothes itchy, inflamed skin. Cushions against further irritation.

Cruex absorbs sweat (one important factor in the

growth of *Tinea cruris* fungi.)

its medication directly attacks susceptible fungi.

That's why using Cruex before and after exercise can help stop jock itch before it starts.

Cruex spray cools; gets into hard-to-get-at places. (And you don't make it sting or burn by rubbing, dabbing, smearing or spreading anything on.)

Cruex spray is easy on you. It's strictly hands off. At your pharmacy **CRUEX®**

Cruex. Guaranteed to work or your money back.

Hicksville Senior High School was visited recently by a distinguished foreign educator, Don Calogero La Placa is the founder and president of "Villaggio del Superdottore" in Petralia Soprana, Sicily, Italy. Father La Placa's school is for gifted boys. It is his hope that these gifted and talented boys from underprivileged homes, will by exposure to an outstanding education and a philosophy that will grow from this communal type of school, be the future leaders of Italy. Father La Placa was particularly interested in visiting American schools to study the type of equipment we have in this country. He is seen here looking over a module in a Project Plan English class, and observing a Spanish Lesson in a Language laboratory. He was accompanied for a short time by Mrs. Galante, Foreign Language Supervisor, and by Mr. Carl Dana Librarian at the Senior High. Father La Placa, is the house guest, for his stay in the United States, of Mr. Dana's family.

Local Resident Receives Top Safety Squad Award

The "bomb blanket" developed by Detective Arthur Cunn of Hicksville, a member of the Nassau Police Public Safety Squad, winner of the top award for "advancement of Police Science and Technology" at the annual conference of the International Association of Chiefs of Police was demonstrated Tuesday, October 13, in the isolated runway area at the east end of Mitchell Field.

The blanket, made of ballistic nylon, is capable of decreasing fragmentation and blast effects

of the most common type bombs handled by police: hand grenades, and pipe bombs and other homemade explosives.

Cunn's device won out over numerous entries in the competition for outstanding contributions to the field of international police science and technology.

The new device is unlike the often-used wire mat devices, which add to the fragmentation effect of explosives. The new blanket, in the event of an explosion, blows into harmless

threads.

Made of the new ballistic nylon, the blanket is sewn in a special pattern, 18 layers thick. Measuring four-by-four feet, it contains 16 vent holes to permit escape of gases. When a device explodes under the blanket, the blanket rises, assuming a parachute shape, and absorbs lateral fragmentation.

The new blanket device weighs less than 25 pounds and is covered with a fire-retardant to smother "molotov cocktails" and other fire-bombs. The design of the blanket also makes it bullet-resistant and it will stop most handgun bullets and shotgun pellets.

Cunn, who has applied for a

Voice of Democracy

The Voice of Democracy is a broadcast script writing scholarship program for high school students. It is sponsored by the Veterans of Foreign Wars and its Ladies Auxiliary with the cooperation of the National and State Associations of Broadcasters. It is now in its 24th year.

This year's theme, "Freedom—Our Heritage," alludes to the tenor of our times. The United States of America continues to be plagued by armed enemies abroad and by increased dissension from within. An active, dedicated and resourceful citizenry in these times is vital to maintaining our Freedom Heritage.

Frank J. Aug Jr., Commander, VFW Post 3211, Hicksville, who is also Voice of Democracy Chairman for the Nassau County Council, VFW and also for District 1, VFW, Dept. of N.Y. (which includes Suffolk, Kings and Queens counties) says that the potential of the Voice of

Democracy Scholarship Program is limitless. He goes on further to say, "there are four times as many high schools in the United States as there are VFW Posts and Auxiliaries. It is hoped that each Post and Auxiliary will reach out, sponsoring the program in many schools. We are not fulfilling our obligations to youth in these communities where participation in this important program may be denied for lack of sponsorship."

All 10th, 11 and 12th grade students in public, parochial and private schools in the United States, its possessions and territories, and in overseas schools for dependents of military and civilian personnel are eligible. The program consists of writing a script on the theme "Freedom—Our Heritage," then taping it. The tape is not to be less than three minutes or more than five minutes long.

The 2 high schools in Hicksville is sponsored by the William M. Gause Jr. Post No. 3211, VFW again this year as they have in the past. The schools are Hicksville High School and Holy Trinity Diocesan High School. The deadline for the local area will be November 25, the county will be December 2, and for the district will be January 8, 1971. Anyone interested in the Hicksville area will please contact Mr. James Sotile for the post (433-4419) or Mrs. Esther Palladino for the Ladies Auxiliary (PY 8-3827).

patent on the device, worked out the design after becoming concerned about the number of fire-bomb and explosive cases being handled by police throughout the country.

"Government spending gives you an idea why laws are called bills."
