HERALD REPORT
SCHOOL DISTRICT 17
HICKSVILLE
By Shirley Smith

With a little more than half as many people voting Tuesday as did June 8, Hicksville approved a revised school budget, 2156 to 1566. The new budget figure is \$21,534,168 and represents an approximate 36 cents increase to the tax rate. There is an additional 49 cents increase due to the transportation referendum approved in June.

Set Tax Rate For Six Months
The School Board set the new tax rate at \$6.09 per \$100 assessed valuation. Taxpayers are urged to remember that this figure represents the rate for only six months, as the Board recently approved the supplemental tax roll. This means our community will be assessed at mid-year and our tax rate revised in January (it may go up, go down or stay the same.) The total yearly tax rate will be approximately \$12 per \$100 assessed valuation.

At Regular Meeting
Prior to receiving the vote tally Tuesday night, the Board conducted a regular meeting.

Board president, Thomas Muratore, began by reading a statement from the Board answering certain criticism aimed at the Board of Education. Mr. Muratore said the source had been considered and Board members had decided to ignore it. But in view of "prejudiced remarks" which a recent Newsday article attributed to Barbara Rosman, president of the High School PTA, the Board would "no longer submit to slander, directly or indirectly." Mr. Muratore further stated, in reference to Mrs. Rosman's remarks, that the "representatives on the Board are not fascists, but good citizens." He announced that the School Board would refuse to cooperate with the High School PTA unless: (1) Mrs. Rosman apologizes to each School Board trustee and (2) the Senior High PTA publicly states that Mrs. Rosman does not speak for the PTA.

Neil McCormack said he had no part in the statement read by Mr. Muratore. He added he knew nothing of it and should have been consulted before it was read.

In answer to Mr. McCormack's inquiry as to whether the statement represented the opinion of the Board president or the School Board as a whole, Thomas Clark said he agreed with Mr. Muratore's remarks.

Harry Kersten had been out of town, but said he thought the whole matter should be dropped.

The other Board mem-

bers present, Edward Bello and Frank Zindulka, made no statement for or against Mr. Muratore's action. George Pappas was not at the meeting.

Mrs. Rosman did not reply to the demands of the Board president, but said later that she had not spoken as a PTA officer or member, but as an "irate mother and taxpayer." When asked by the Newsday reporter if she were president of the High School PTA, she did not deny it. However she reminded him that she was not speaking for the PTA. Mrs. Rosman made her remarks following the special Board of Education meeting at which Donald Abt was removed as Superintendent of Schools and made a professional educational consultant. She referred to the meeting, during which the public was given no opportunity to speak, as a "perfect example of a fascist state in action."

To Close Willet Ave. School?

During the public portion of the meeting, Mrs. Gilda Shapiro asked the Board if there were any truth to the rumors that Willet Avenue School was to be closed. Mr. Muratore said he had sent a memo to Administration asking if there were specific procedures to be followed in the event the district would have to close a school. He indicated there were no plans to close Willet at this time.

Various Matters
Mr. Kersten and Mr. Bello were appointed to represent the Board in the Nassau-Suffolk Boards Association. The Board voted unanimously to join the National, State and Nassau-Suffolk School Boards Associations and the Long Island Bar.

Mr. Kersten was congratulated on having recently received his Ph. D.

The Board voted unanimously to approve the BOCES data processing contract for \$100,000 for the 1971-72 school year. An insurance plan for interscholastic athletic participants was approved. This plan is approximately the same as that in effect last year.

The list of instructional personnel for 1971-72 was unanimously approved. There are still two guidance, one art and three parochial speech teaching positions not yet filled. Dr. Fred Hill, Assistant Superintendent, announced that 34 positions are not being

Hicksville Triangle

Public Opinion Turns In Favor of G-1 Plan

It was an unusual situation at Town Hall Tuesday (August 10) when many who came to criticize apparently left in favor of a new G-1 (Central Business) category for the Hicksville Triangle. The day/night hearing, attended by an aggregate of about 250 people, was the culmination of several meetings public and, we're sure, private, to set a plan for the downtown area of this centrally located community which would provide for attractive and efficient development.

The plan, presented by the planning firm of Raymond, Parrish & Pine, went through several stages of development and change after public meetings in Hicksville to gather public opinion about the plan. Some changes wrought by public opinion included a lessening in the height of buildings allowed and the elimination of apartment dwellings in the area.

See Map on Last Page

Of the 35 speakers at the hearings, many came to ask questions, a few to condemn, and most to speak in favor of the new Central Business plan. Paradoxically, one woman who said she only heard about this "last week" accused the Town Board of trying to put things over on Hicksville residents. Another person, a civic leader, complimented the Town Board on its excellent job of letting residents know about the plan and giving them an opportunity to air their views.

Learning Process

The hearings amounted to a learning process for many residents who came to criticize. Most of these apparently did not realize that the majority of property in the Hicksville triangle is currently zoned for Business G, which would permit a four-story office building covering 80 percent of the building plot. "This is what we're trying to avoid," explained Supervisor Burke, "a building, then asphalt, then another building." Under the new G-1 category, buildings would be allowed up to five stories, but would cover a diminishing amount of the building plot from 60 percent for a two-story

TRIANGLE PLAN: Mr. and Mrs. Stephen Wasserman, Hicksville residents, Milton Levitt, a businessman in the triangle area, and Emil T. Immesberger, president of SPOT (Society to Preserve Our Town) discuss the proposed creation of a "G-1" Central Business zone in downtown Hicksville at Tuesday evening's hearing at Town Hall, Oyster Bay. Mrs. Wasserman (Gail) is a candidate for trustee of the Jones Fund in Hicksville.

building to only 35 percent for a five-story building. 90 percent of parking would be required to be underground, and developers would have to meet rigorous demands for landscaping and exterior beauty.

One speaker was dumbfounded when he was informed by Supervisor Burke that the new G-1 zone would allow less office space, not more than is now potentially allowed in the area. If all G-zoned properties were developed now, 3,000,000 square feet of office space would result. Full development of the area under G-1, however, would result in only 1 1/2 to 2 million square feet of office space.

Many Applaud Plan

Among those who applauded the plan were Fred Tilney, a columnist for the Long Island Commercial Review and an officer of Governmental Statistics Corp.; Glen Kerbs, representing local 1772 of the Carpenters' Union, who presented a document containing 322 signatures in approval; photographer Pierre Charbonnet, who said the Town Board was "giving the people what they want but they don't really see it." Emil T. Immesberger, president of SPOT (Society to

Preserve Our Town), spoke in favor of the modified plan. His organization had opposed it with the inclusion of apartment dwellings.

Proponents of the plan described present day Hicksville as looking like a slum in many areas (H. Ofenlach, of the Hicksville Fire Dept.) and looking "as if it was bombed out" (Milton Levitt, Hicksville businessman).

The question of whether such a zoning category was needed was brought out by several people who spoke of presently unoccupied office buildings. Supervisor Burke pointed out that the Town itself was not building anything, merely paving the way for an attractive and suburban-suited development, should further commercial development occur (by individual developers). "This may never come to pass, for all we know," he said.

Robert Gutheil, declared candidate for Town Supervisor, criticized the removal of apartments from the plan, but was met by jeers from the audience during his talk. Alton Giese, Hicksville resident, expressed concern that no provision for parking structures was included in the G-1 zoning category.

Breakdown On School Budget Vote

	Yes	No
Burns Ave.	328	148
East St.	430	328
Woodland Ave.	309	191
Lee Ave.	353	360
Fork Lane	280	180
Dutch Lane	209	137
Old Country Rd.	247	222
Total	2156	1566

At its regular meeting on August 10, the Town Board of Oyster Bay denied the petition of 828 Astro Corp. for a special permit use to add 32 additional motel units to its existing motel

across from Grumman on South Oyster Bay road about 776 feet south of Meadow Lane.

There was no opposition to the petition at its public hearing on April 27th.

Child Care Center

A second presentation of a petition to conduct a day care center on the grounds of Mid-Island Shopping Plaza will be heard at a public hearing at Town Hall, Oyster Bay on Tuesday, September 14th. The petition of Mid-Island Childpark, Inc., was strongly opposed at its original hearing, held on the morning and evening of March 9th. Primary opposition to the petition centered upon the trafficky area of the center in which the Childpark was to be located. Representatives of local schools and parents objected.

The new petition for the Childpark calls for a different location on the Plaza grounds, at the north end roughly between Nathan's and the Twin Theatres.

Comprehensive Water Supply Study

Nassau County Executive Ralph G. Caso released a comprehensive water supply study and said that Nassau County has five trillion gallons of ground water and is in no danger of running out of water in the foreseeable future.

The New York State Department of Health paid for the \$114,000 report under an environmental studies program.

The study presents a flexible planning guide for Nassau County for the next 50 years, with both immediate and long range steps recommended for managing the county's water resources. Caso briefed the Board of Supervisors on the study today and announced that he will move to implement the report's recommendation for creation of a county Water Resources Board. The new board will be responsible for developing plans to meet Nassau's water needs through the year 2020.

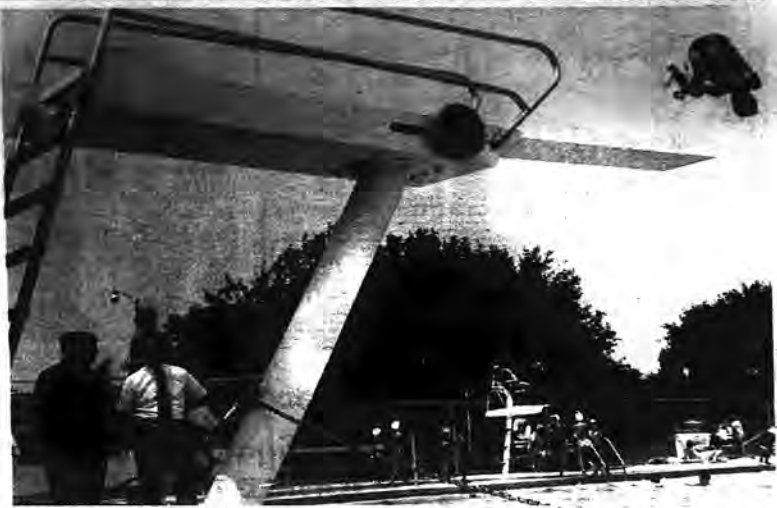

The study calls for establishment of a county water department, which under advice from the water resources board, would organize, construct, operate and administer plans to supply supplementary water. Caso said that to save start-up time, he would recommend that most of the proposed functions of a water department initially be performed by the department of public works, which has the expertise, experience and basic personnel to do the job.

The County Executive said that he was directing the public works department to accelerate its

research on tertiary treatment to hasten the day when the county can recycle water. Caso said, however, that it could be years before the state of the art is advanced enough to handle the volume at any large sewage treatment plant and that nitrogen removal is still strictly in the research stage.

"Nassau County is in the enviable position of being on top of what amounts to a huge, overflowing barrel containing five trillion gallons of water," Caso said. "However, we want to keep this barrel filled to the brim. It has kept us supplied with water during years of drought and will do so again in the future. A full barrel prevents salt water intrusion. We presently meet all of our water needs by merely using the overflow from the barrel. Our goal is to find additional sources of water because projections indicate we may otherwise have to begin tapping the barrel by 1976."

The report, formally known as "Comprehensive Public Water Supply Study", was prepared by the engineering firm of Greeley and Hansen and updates their 1963 study of Nassau County's water supply. The Long Island Water Conference, representing 46 public and private water supply companies, districts and agencies, cooperated in preparing the study. The conference's engineering consultants, Holzmacher, McLendon and Murrell, were subcontractors for the study.

JOINT EFFORT: Richard Weas, lower left, park supervisor of the Joint Town of Oyster Bay and Hempstead swimming pool district in Levittown, gives

Oyster Bay Town Supervisor John W. Burke a tour of the facilities at the Levittown pool complex. The joint district is an

example of the coordination neighboring municipalities can obtain in providing services for the benefit of their residents.

Board Approves Parking Field Construction Program

Town Board approval of plans to construct new parking facilities and refurbish existing parking fields in the Town was announced August 10 by Supervisor John W. Burke. The program, estimated at a maximum cost of \$178,000, consists of four major projects.

In Bethpage, a new parking field will be developed on property acquired last year from the county located north of Central Avenue and west of Stewart Avenue. Construction costs are estimated at \$51,000.

Another new parking facility will be built near the Massapequa post office on the southwest corner of Sunrise Highway and Hicksville Road at an estimated cost of \$30,000.

Two parking fields in Hicksville will be resurfaced and reconditioned at an estimated cost of \$30,500. These are located on the west side of Levittown Parkway, between Beech and Blueberry Lanes, and on the west side of Newbridge Road between Barter and Table Lanes.

The fourth project is a

proposed new 60-car capacity parking field in Locust Valley to be located at Forest Avenue and Weira Lane. Estimated total cost for this project is \$50,000. Town Attorney Bernard F. McCaffrey has been directed to proceed to acquire this parcel.

"Plans and specifications are being prepared by the Town's Department of Public Works for these urgently needed parking facilities," Burke said. "Construction at each locale will commence as soon as it is technically feasible," he added.

Garden Club To Meet August 16

The Garden Club of Plainview will meet on August 16 at 8:30 P.M.

They will see all occasion flower arrangements using candles. Various members will demonstrate how an arrangement can be enhanced

through the use of candles, which had been donated by the Heritage Candle Shop of Cold Spring Harbor.

It will be held at the home of Mrs. Robert Corrado, 91 Knickerbocker Road, Plainview.

This particular meeting will be for members only.

Silent Film To Be Shown

The Hicksville Public Library will present the third offering in the Silent Film Classic Series on Wednesday, August 18 at 8 p.m.

in the library auditorium. The film for the evening will be Douglas Fairbanks in "The Iron Mask."

This is the first of our romantic-adventure classics in the summer series. Douglas Fairbanks was always the swash-buckling hero, and in this film, one of his later ones, he demonstrates his daring - do and joie-de-vivre. The photography

is pictorially beautiful, and the decor elaborate, but the plot is never lost in these visual elements. Starring with the great master were Marguerite de la Motte, Belle Bennett and William Bakewell. The film was made in 1929, before many of us were born or aware of what went on. The films in the Hicksville Public Library summer series are all on loan to us from the film collection

of the Museum of Modern Art. On Wednesday, August 25, the final film of the series will be shown. It will be Rudolph Valentino in "Blood and Sand."

TOWN SALUTE: Post Grand Knight Thomas Costa, second from left, Director of the St. Ignatius Girls' Cadet Corps, receives a proclamation from Oyster Bay Town Supervisor John W. Burke in recognition of

the corps placing third in the world-open competition at Lynn, Massachusetts, recently. Special ceremonies were held at the 7th Annual Pageantry in Brass hosted by the Hicksville corps. Sharing the happy occasion are

Town Councilman Warren M. Deolittle, at left, and Pam Moore, Drum Major of the unit. An overflow crowd of 3,000 spectators and fans observed the event.

When your feet need protection on the job, buy a pair of Herman safety toe shoes.

They feel as good as they look.

TO HELP OR TAKE OVER?

LOCAL PLANNING ESSENTIAL

Legislation calling for establishment within each state of a statewide land-use plan, to be developed and administered by a single state agency is pending in Congress. The measure would appear to supersede and displace multi-county, metropolitan and local planning and zoning.

However, local and regional planning should be an integral part of efforts to insure adequate housing, protection of public health and safety, employment opportunities, transportation facilities, open spaces and cultural and recreational opportunities within metropolitan areas, and particularly within central city areas. National legislation should encourage and facilitate such planning; it should not be framed in such a way as to put local and regional planning agencies out of business.

There should be a national land-use policy, but it should only be a reference and guide for planning groups, and it should acknowledge the need for natural resources development and waterway transportation. It would be unfortunate if this nation were ever subjected to a national land-use plan such as that adopted in Great Britain with the undesirable results of skyrocketing land prices and government dictation of industrial plant locations.

Dear Friends ...

MR. PAUL RUDOFF dropped in to tell us about the formation of a new Orchestra for young musicians called the Huntington Training Orchestra, under the auspices of the Huntington Symphony Orchestra. This new group, which seeks members—from Long

Island, is designed for young players who want to obtain symphony experience under professional coaching and guidance. Mr. Rudoff will direct the new orchestra, working with a staff of professional musicians. Fees are \$50 a year, and membership will be

limited to 100 students. For further information you may call PY 6-8979, or write the orchestra, P.O. Box 315, Huntington, N.Y. 11732. "This should be of special interest to string players because of the attention to string chamber music which is scheduled," Mr. Rudoff

Dear Editor:

It appears that a certain disgruntled group is attempting to politicize the continuance of the Supt. at the same yearly salary (\$38,000) while changing his duties. This group argues that if this is an economy-minded (new) Board, why pay the equivalent of two Supt's salaries? Good question - for the un-informed:

What this group conveniently fails to mention is that a previous Board, supported by this group, is responsible for the Supt's 5-year contract, and the \$9,000 increase above and beyond his original contract! Therefore, if the (new) Board of Education found it necessary to change the duties of the Supt. it had no alternative other than to honor the previous Board's contract!

Also, this disgruntled group is conspicuously quiet about the previous Board (and losing candidates) which it supported, and which had obviously padded the defeated budget with hundreds of thousands of dollars! In addition, through inaction, the previous Board also refused to apply for the "Supplemental Tax Rolls" - an unnecessary cost of more thousands of dollars to the taxpayers!

Consequently, regardless of the previous Board's inexplicable actions, if the (new) Board's only action was to ax an unprecedented \$662,161 (not \$611,161) from the TOTAL proposed School Budget for a 2nd submission, it has already covered the Supt's yearly cost seventeen (17) times!!

However, the (new) Board went a step further - it applied for the "Supplemental Tax Rolls" and an estimated savings of additional thousands of dollars to the taxpayers! Why previous Boards refused to take this elementary action in the past is beyond us, and remains a mystery!

Charles Fetta, resident
"Life in Hicksville,"
League For Intelligent Financing
Of Education in Hicksville

August 8, 1971

Dear Editor:

It's quite a back yard education to see those people who claim to be the most broad minded when, in fact, they are the most narrow minded, simply because school district affairs are not according to their dictates.

Sincerely yours
Charles Rockwood

Dear Mr. Abt:

As a resident, taxpayer, voter and parent in the Hicksville school district for the past 15 years, my period of interest parallels your incumbency as superintendent.

It is unfortunate that I have never thought to thank you, in all that time, for the excellent education which was afforded my three sons as pupils successively in the elementary, junior and high schools. Each boy is highly individual, as every one of your thousands of pupils is unique. Somehow, the team of teachers, counselors and staff which you

head manages to deal with this factor in spite of the large number of pupils they must deal with every day. Additionally, they have never failed to receive me with courtesy and appropriate concern whenever I had occasion to meet with one or another of them.

In short, for the past fifteen years I have been grateful for the excellence of the Hicksville School system. It is axiomatic that the system can be no better than its leader, and it is for this reason that I belatedly thank you for the spirit which pervades the schools. This expressed in a commitment to the needs of the individual child and his education and a willingness to sacrifice personal gain if the sacrifice will help to make the schools work. The climate in which these qualities flourish is only possible through policies and practices which are initiated in your office.

I sincerely hope that, insofar as you can, you will resist present efforts to render your position not only impotent, but completely untenable. Please try, for the sake of the children. After all, they are what it is all about. I speak for many other parents when I ask you to let us know if there is any way in which we can demonstrate support of the present administration. We do not plan to stand still for the dismantling of an excellent, functioning school system just to feed the vanity of petty bureaucrats.

Sincerely yours,
Marguerite C. Robey

State Board Turns Down Increased Equalization Rate

Town Supervisor John W. Burke reported recently that despite a strong case backed up by factual data supporting an increase in the equalization rate, the State Board of Equalization and Assessment ruled that it was insufficient to warrant an increase from the proposed 25 percent.

Although the State Board conceded a number of items in the data presented by the Town task force, the increase was calculated using a statistical "weighting factor" and the resultant equalization rate amounted to 25.42 percent.

"Needless to say, we're very disappointed that only 8/100 of a point prevented an increase in the rate to 28 percent, which would have meant an additional \$1 million or more in state aid to Oyster Bay Town school districts," Burke commented.

"Since school districts have no legal standing before the State Board of Equalization and Assessment," Burke pointed out, "the Town marshalled its forces on their behalf."

Equalization rates are established for cities and towns throughout the state by the State Board of Equalization and Assessment as a means of apportioning state aid to school districts.

A spokesman for the State Board again praised the Town on its presentation, Burke said, and indicated that certain of the corrective measures that were proposed will definitely be applied to next year's computation.

"For example, I would expect that the Board will substitute for some of the six parcels to which we objected in the current sampling used in the 1970 computation," Burke explained, "particularly that parcel acquired by the County and removed from the tax rolls."

Burke outlined four courses of action that he expects to pursue:

1. Urge the State Board to examine the market values of all parcels in the unincorporated areas of the Town instead of sampling only one out of four. (Note: The State Board presently

examines all deeds in the incorporated villages within the Town.)

2. Appoint a special work study group to consult with the County assessors to review all appraisals in order to determine whether the study group agrees with the market values used by the State Board in its sampling. In short, the study group would scrutinize the data to assure that the sampling information is truly representative.

3. Urge Nassau County Legislators to pursue the late Senator Speno's proposed legislation limiting equalization rate reductions to no more than one point per year.

4. Solicit the continued support of the school districts for the foregoing objectives.

ON THE CAMPUS

Named to the dean's list for the spring quarter at the University of Cincinnati was Gary Dorfman, 26 Gardenia Lane, HICKSVILLE.

Michael Gannon, of 21 Island St., PLAINVIEW, has been accepted to enroll at the College of Liberal Arts of the University of Dubuque this fall.

Miss Nancy Mandelkern of JERICHO, a senior at Ithaca College, has been named to the Student-Faculty Personnel Committee of the College's Drama-Speech Department.

Miss Mandelkern, a Speech major at Ithaca College, is the daughter of Mr. and Mrs. Emanuel Mandelkern, 131 Birchwood Park Drive, Jericho.

remarked.

THERE IS A NEW United States Marine Corps Recruiting Station now open at 115 North Broadway in Hicksville (Phone 822-6277). Our Marine Corps is still accepting enlistments in their "180-Day-Delay" program, which enables

young men to enlist in the Corps today, but delays their assignment to active duty for up to six months. There are many advantages in enlisting, if one is interested in serving in our armed forces. For further details, why not

(Continued on Page 15)

Question: what is your opinion of the Hicksville 'Triangle Plan'?

MRS. M.L. CHITTENDON, Edge Road, Jericho: I guess it is probably the best thing for Hicksville, if they can keep things rented. But there are a few big buildings that have been empty. Just to have a lot of empty office buildings doesn't make sense economically or otherwise. It seems to me that we could use part of it as a park or something cultural which Hicksville has always lacked. Look at Barclay Street. It's been all renovated, and still mostly empty. I know they need some kind of income for the land, but I think they ought to think it over a little bit more.

FRANK CHLUMSKY, 29 Ernest Avenue Hicksville: Truthfully, I have come to no conclusion. They are trying to create all these office buildings — what are we going to do with them? Particularly with the proposed airport, bus terminal and rail road center being moved to Republic, which they thought would be in Hicksville. Hicksville isn't going to get all the business they think. Up in Jericho, they're building office buildings on each side of the parkway. The professional building here has just begun to get occupied. One floor has been empty for more than a year. I'm glad the plan calls for retail stores, which I think are needed greatly in Hicksville.

NAME WITHHELD: In all probability, the thing is pretty much settled. If it's for the benefit of Hicksville, I'm for it. It will commercialize Hicksville, but it's bound to come about. I say I'm for it.

MRS. EUGENE A. KERN, 143 Nevada, Hicksville: I feel that Hicksville couldn't look worse than it does now. I'm very disappointed at the way they keep the town. Anything would be an improvement. Right now they have that parking facility going up — it looks horrible. The Long Island Rail Road doesn't grace the town. We are very close to Nathan's and that central mall near Sears is not well maintained. I think Sears and the Mid-Island Shopping Plaza ought to get together and clean it up. Those buildings in Jericho are office buildings, and they are well maintained and don't detract a bit.

MRS. PETER RUBIN, 75 Orange Dr., Jericho: I don't like the idea.

RICHARD L. SCHROEDER, 10 Joan Place, Hicksville: Before I commit myself too definitely, I'd like to find out more about it. It

seems like they want to create a semi-metropolis from the articles I've read. As far as I am concerned, I think it would be a good idea. My neighborhood is removed from the area and it will not be affected. I'd say I'm for it.

GEORGE J. MELZER, 22 Walnut Lane, Hicksville: I'm not too happy about it. I like the suburban effect rather than the city effect it would bring about.

JOSEPH D. MELL, 11 Middle Lane, Jericho: I don't want it. I think we're paying enough taxes not to have to have it. I came here to have a suburban atmosphere. If I wanted to live in the city, I would live in the city. About more office buildings providing a broader tax base, I don't buy it. If I can afford to live here with these taxes, I can afford a few more dollars. If they're going to pick up all my taxes, o.k., then I'm for it. I'll be glad to live tax

free. I think it's all a lot of malarky and big business, and I'm definitely against it.

ELWOOD W. KAESTNER, 13 Edward Avenue: "It is good for business and business pays a lot of taxes. It may take some of the tax load off the home owner. But it has got to be something that will beautify the town rather than make it look like downtown New York."

MRS. EDWARD F. JUNGE, 106 Bethpage Road: "We'll go along with it. I would not like buildings any higher than five stories, however."

GEORGE LUDWIG, 11 Balsam Lane: "I don't think too much of it. I think they have torn up the town enough with the changes they have made in the past five years. We've had enough."

MRS. JAMES ESDALE, 36 Spruce: "I'm not too much in favor of it."

HIGH & DRY—ON SOUTH SHORE: A 25-foot power boat is hoisted to a rack, in preparation for the official opening this Friday of the largest indoor boat storage facility on the Eastern Seaboard, at Al Grover's Marine Base, at Freeport. The dedication of the marina which accommodates 300 boats on five tiers, will coincide with the Freeport's Chamber of Commerce Water-front Celebration this week-end.

When our loan man says "yes," he gives you an auto loan fast.

If he says "no," we give you a different loan man.

At Chemical Bank, our loan people have a couple of firm rules, designed to help you get rid of your old klunker as painlessly as possible.

Rule #1: Any time a loan man approves a car loan, that's it. Nobody else to see, no fooling around. Which means you can get your money on the spot.

Rule #2: Any time a loan man feels he might have to refuse an auto loan, he calls in another loan man and they

go back over your application right away. And they try very hard to put your loan through.

If you can still start up the old bucket of bolts, there are nearly 150 Chemical Bank branches you can rattle up to. If not, phone (212) 770-1823 and ask us to send you an auto loan application.

Chemical Bank. Where it takes only one man to approve a loan, but two to turn it down.

CHEMICAL BANK
We do more for your money.

Art Exhibit At Library

The students of the Plainview-Old Bethpage Summer Art Enrichment Program will hold their art exhibit at the Public Library, 999 Old Country Road on August 9th to August 13th. Mr. Michael P. Carlos is the principal of the summer school and Mr. Sidney Rosen is the art instructor. The art workshops are part of the enrichment program and are open to all residents of Plainview in the seventh to the twelfth grade.

The students are encouraged to select and pursue their areas of interest. One of the many opportunities available for creative expression is (batik), an ancient method of dying material using hot wax and cold water dyes. Teenagers interested in a fine arts approach pursue their interests in drawing and painting. Relief wood carving, paper mache and alabaster carving.

Day Long Outing For Wounded Veteran

County Executive, Ralph G. Caso, announced that the county, the 52 Association and its Metropolitan Chapter of New York will jointly sponsor a day long outing for Nassau's wounded veterans.

The event will be held on Sunday, August 22, at the 41 acre estate maintained by the 52 Association in Ossining, New York. The estate has been converted into the Indoor-Outdoor Recreation Center and contains picnic groves with low barbecue pits, a five acre lake with wheelchair ramps, a specially constructed archery range, baseball and softball fields, and volleyball and badminton courts.

A full course barbecue lunch and light supper will be provided by the 52 Association's

Metropolitan Chapter and specially equipped buses will be made available by 52 and the county for veterans who cannot supply their own transportation. Additionally, arrangements have been made through talent coordinator Phil Lorito of Backstage Management to offer the guests a four hour outdoor musical variety show.

"We must all realize that these young men have been wounded in the service of their country," Caso said. "They should not be relegated to a world limited by wheelchairs and physical disabilities but rather should be able to enjoy, as much as possible, those things in life for which they so gallantly have fought. I am extremely grateful," Caso went on, "to the

52 Association for making this event possible."

The 52 Association is a non-profit philanthropic organization pledged to serve the nation's war wounded 52 weeks a year.

Rain date for the event will be the following Sunday, August 29th.

Veterans who wish to attend the picnic should contact the Nassau County Department of Recreation and Parks at 292-4130 for information concerning free transportation and travel information.

THE KIWANIS CLUB Of Hicksville

by Dick Botto

Somebody jumped the gun, by opening the meeting at 12:08. Past Pres. Henry was the culprit, assisted by our Koshar Nostra leader Murray Margolis presenting Grace and of course, leading our song. The spirit is running high after our Annual Family Picnic on Sunday.

Boy what a noisy start we are having today, and Pres. Bob was not too, too late after all. Jeannie stirred a hornets nest with Joe Reinhardt and Associates.

Kurt Maegler visited today from the Plainview Club. Good to see Tony Plonsky, ex-Hick, along with Chet Chittenden, Jim Walters and Welcome Back Bill Heberer, who by the way, made a make-up meeting at Binghamton on 7/22/71.

Graham McNamee was extra noisy today. What a laugh he has, a real big belly type. I think this meeting room in the Loft was too small for these bulls in the China Shop.

Tony Plonski had a guest from Conn. by the name of Charles Hearon (two Conn. Yankees). Fred Sutter turned in (finally) the attendance tabs for the Interclub I wrote about last week.

Long Lost John Staryk honored us with his presence today. Good to see you, John. Pres. Bob was adorned with candies today. I don't know why. Globe trotter Bill Murphy is back from his European tour. He looks great. Another stranger, Swinging Sam Pace made a wrong turn again today. Welcome, Sam.

Past Pres. Phil Rubenstein attended a make-up on Aug. 3. We don't know where yet. (We found out later it was Bethpage).

Playboy Bob Stackler had his candy stripe red and white jacket on today to lead the best dressed Kiwanians of Hicksville Parade. He also parted with many fines today for multi-mistakes (how he cries about money).

The total members today and it sounded like 90, was really 31. With reference to Sundays' Picnic, we who attended had a ball. All who didn't come, should be ashamed, for not cooperating and missing a wonderful time. Any members owing monies, please, please get in touch with Tom Fay ASAP. A Mtg. 5:30 Mon. Ev. of the Picnic Committee.

The L.I. North Divisional Meeting was attended on Moh by Pres. Bob Dick Botto, Lt. Gov. Elect. Bob Wallace and Sec. Bill Heberer.

Thank you Bob Wallace for bolstering the Spirit Corner again!!! (He's a Rye drinker).

Birthdays for Vern Wagner, Bill Pfeiffer, John Staryk, and Bill Murphy. A one song for you all was sung, if you can call that singing.

Happy Anniversary to Bill Heberer and John Staryk and their lovely brides.

Mr. Kiwanis, Uncle Frank, Past everything, presented a 15 year perfect attendance tab to Past Pres. Walt Dunbar. Congratulations Walt and many more to a well deserving member.

We didn't see our girls today. I think they made a wise decision not to visit today. (Who tipped them off, Dave?)

Sexy Bill Heberer read the minutes of the Board Meeting written in Chec. by Uncle Frank. We were late in closing, but finally called it off at 1:42.

Drawing won by Russ Coniglio again and picked by Past Pres. Vern Wagner.

Christian Science

The importance of unselfish love in building a constructive marriage will be emphasized at Christian Science church services Sunday.

Bible readings will include this verse from Genesis: "And Jacob served seven years for Rachel; and they seemed unto him but a few days, for the love he had to her."

From Science and Health with Key to the Scriptures by Mary Baker Eddy the following citation will be read: "Marriage should improve the human species, becoming a barrier against vice, a protection to woman, strength to man, and a centre for the affections."

The Lesson-Sermon is entitled "Soul." Services at First Church of Christ, Scientist, Levittown, 80 Bellmore Road, begin at 11:00 A.M. The public is always welcome.

LOVE YOUR HAIR NEW WELLA CARE DO

At last you don't have to put your hair up every night!

Now Wella brings you the first hair set with memory. Wella Care Do. Actually makes your hair remember the set from shampoo to shampoo. Silky, shining, clean. You'll love it. 3 strengths: Regular Hold, Extra Hold, Gentle Hold for bleached hair.

Social Security News

Ques: I am a single woman in my late thirties. As the result of an accident, I have been severely disabled since I was 18 and have never worked under social security. My father who was my sole support died recently. Can I collect monthly social security benefits as his dependent?

Ans: Since you were disabled before 18 and have been unable to work since that time, you might be eligible to get monthly survivors benefits. Call any social security office as soon as possible. If your mother is living, she should also check at the social security office. She may be eligible for payments, too.

At the Library

We've been wheeling along at a fast and steady pace, and the summer activities at the Hicksville Public Library are nearing their end. Final plans are being made for the children's bus trip to the Suffolk Museum and Carriage House, which will take place on Thursday, August 19 at 9:30 a.m. All children who have read six books this summer may come along if they have received written permission from their parents. The fee for the outing is \$2.00, and everyone must bring his or her lunch.

Our large auditorium was the scene for three plays in August. Two one-act plays, "Peter, Peter and Peter" and "The Mount Vernon Cricket" premiered to a full house on August 10. The two separate casts were members of our summer dramatics group which was directed by Miss Ann Larris, our talented cadet. The Oyster Bay

Repertory Theatre presented "The Wizard of Oz" on August 13. August was the month for parties in the Children's Room, and there was one at the end of each of our programs. Members of our art classes celebrated while they viewed an exhibition of their works. Children who attended summer story hour ended their program with refreshments. Students enrolled in our reading club may attend a party given in their behalf on August 19 at 3:30 p.m. in the large auditorium.

The Children's Room now has a special section set aside for "Sports Books." Included in this are sports stories and biographical material about famous players and teams. Books describing how to play a particular sport are not included, and will still be housed within the general collection.

Obituaries

Ada M. Biondi of HICKSVILLE, died on August 5. She is survived by her daughter Joan Milano sisters, brothers, and grandchildren.

She reposed at the Vernon C. Wagner Funeral Home and Mass of the Resurrection was at St. Ignatius Loyola R.C. Church. Interment was at Mount St. Mary's Cemetery, Fushing.

Irene V. Jaworowski of OLD BETHPAGE, died on August 5. She is survived by her daughters Virginia Rowehl, Ethel Frobs, five grandchildren, and brother and sisters.

Funeral arrangements were

made by the Arthur F. White Funeral Home in Farmingdale and Interment was at Long Island National Cemetery.

John J. Ryan of JERICHO, died on August 4. He is survived by his wife Janice, (nee Smythe) children Dianne, Garret, Todd and Kevin, and two sisters, Katherine Lanehan and Virginia Jeal.

Services were held by the Thomas F. Dalton Funeral Home in Hicksville, and Mass of the Resurrection was at St. Paul the Apostle R.C. Church. Interment was at St. Charles Cemetery.

If you're too old to have
diaper rash...
It must be
something else.

It's jock itch. Jock itch is a fungus infection. That's why it keeps coming back even though you've tried all sorts of remedies. Including baby powders and sales. They may be okay for diaper rash. But not jock itch! Now you can get relief with Cruex. A spray-on powder specifically made to fight jock itch. Cruex spray soothes itchy, inflamed skin. Cushions against further irritation. Cruex absorbs sweat (one important factor in the

growth of *Tinea cruris* fungi.) Its medication directly attacks susceptible fungi. That's why using Cruex before and after exercise can help stop jock itch before it starts. Cruex spray cools; gets into hard-to-get-at places. (And you don't make it sting or burn by rubbing, jabbing, sneezing or spreading anything on.) Cruex spray is easy on you. It's strictly hands off. At your pharmacy. **CRUEX**

Cruex. Guaranteed to work or your money back.

Supervisor JOHN W. BURKE... REPORTS

While pulling into the parking lot behind Town Hall the other morning, I was reminded how easily the special needs of some of our fellow citizens can be overlooked. At the time, a crew from the Town's Department of Public Works was putting the finishing touches to a new concrete ramp which will provide access to Town Hall for the physically handicapped.

Few people recognize the simple things that are major obstacles to those with physical limitations. A curb can be Mount Everest to a person in a wheelchair. Revolving doors become a dangerous trap to the man on crutches. High water fountains are fiendish devices to a thirsty wheelchair-bound person, and the 20-inch opening in the average telephone booth is an all too effective barrier to a 30-inch

wide wheelchair.

These are only a few of the many unnecessary barriers that are unconsciously placed in the way of the handicapped. Here are some of the basic steps that can be taken to assure unlimited access to all facilities for all our residents.

There should be unobstructed movement from parking to recreation areas and easy access to comfort stations and other structures. Parking should be close to the recreation area with wider than average stalls for wheelchair users. All walkways should be smoothly paved with a non-slip surface and ramps or cutaway spaces provided where there is a change in grade.

Doors should have adequate clearances for wheelchairs with flush thresholds, vertical bar-type pull handles and delay-type

self closers. Telephones should be post mounted and not enclosed in booths, at a height convenient for wheelchair occupants. Special toilet facilities should also be available.

In addition to the Town Hall ramp—which is about 90 percent complete—we are making modest gains in revamping Town recreational facilities to make them more readily accessible to the handicapped. There are ramps and special toilet facilities at Tappen Beach, and similar facilities are included in the refurbishment program now underway at Stehli Beach. Eventually, we hope to have all of our recreation areas similarly equipped.

Reproduced below is a symbol used in many areas to indicate special facilities for the handicapped. I hope that you will be more aware of its significance when you see it and call attention to such facilities to your handicapped friends.

MEN IN SERVICE

Airman Richard E. Wagner, son of Mr. and Mrs. Peter J. Wagner Jr. of 99 Duffy Ave., HICKSVILLE, has completed basic training at Lackland AFB, Tex. He has been assigned to Keesler AFB, Miss., for training as a chaplain's aide. Airman Wagner, a 1967 graduate of Hicksville Senior High School, received his B.A. degree in 1971 from Adelphi University, Garden City.

Around Our Towns

By Linda Noth Scotti 796-1236

Louis Cutajar of PLAINVIEW, was among those scouts who participated in the XIII World Jamboree at the foot of Mount Fuji on the main island of Honshu in Japan.

Arthur Thompson of HICKSVILLE was honored with a LUAU Farewell Party on Sat. evening July 31st. It was hosted by his daughter Phyllis and her husband, Jack Sym at Plover Lane, HICKSVILLE and by his son, Lee and his wife Grace, who reside in PLAINVIEW.

Over 40 relatives and friends celebrated to wish Mr. Thompson luck and happiness in his retirement to Florida. A surprise birthday cake was also presented to Mr. Thompson and his daughter-in-law's father, Mr. Louis Smith

of Brooklyn as their birthdates fell on that very evening. ALOHA!

Cathie Ellen Zike, born July 6, was baptized on Aug 1 at St. Ignatius Loyola Church. God parents are Mrs. Joyce Swidzinski and Mr. Vincent Bruan Jr. Cathie Ellen is the daughter of Mr. and Mrs. John Zike, and the sister of John Vincent, two years old.

A christening party was held at their home in her honor. Guests included grandmothers Mrs. Sophia Zike, Mrs. Marian Braun with guest, Andrea Braun, Beverly Braun and fiancee, Vincent Braun Jr. and fiancee, Mr. and Mrs. John Swidzinski and daughter, also many other

friends and relatives. A good time was had by all.

Recently Mr. and Mrs. Selig Goldberg of 26 Stratford Rd., PLAINVIEW, were staying at Eden Roc Hotel in Miami Beach, Florida. They were celebrating Mrs. Goldberg, Evelyn, birthday on August 2.

Raymond Wu, 46 Country Drive, PLAINVIEW, has qualified as a member of the 1971 Presidents Council of New York Life Insurance Company.

The Presidents Council is composed of New York Life's most successful agents and membership is based on 1970-71 sales records, according to Leland F. Lyons, senior vice president in charge of marketing.

MR & MRS. LEO WEAVER, of 43 Vincent Rd., Hicksville, are shown together aboard the Greek Lines luxury liner, "T.S.S. Olympia", just before sailing from New York Harbor bound for a summer holiday vacation cruise to the sun filled Isles of Bermuda.

Engaged

The engagement of Nancy Lynn Schultz of Westbury and William Kenneth Krumm Jr. of Hicksville, has been announced by her parents, Mr. and Mrs. Francis H. Schultz.

The future bride is in her junior year at the State University at Plattsburgh, majoring in Home Economics Education.

Her fiance, son of Mr. and Mrs. William K. Krumm Sr., is serving in the Navy with Mobile Construction Battalion 133.

ON THE CAMPUS

Barry Schochet of PLAINVIEW, was named to the Dean's List at the Orono Campus of the University of Maine.

A Princeton Prize winner who was honored during the academic year 1970-71 was Gary William Hubbs, '71, 43 Underhill Ave., The Class of 1969 Prize in Ethics for passing a best examination in ethics and writing a best essay in ethical, moral or social philosophy.

Daniel J. Edward, 27 Audrey Ave., PLAINVIEW was graduated from the College of Graphic Arts and Photography at the 86th Annual Commencement exercises of Rochester Institute of Technology.

Raymond Lawrence Yasser, 4 Warren Place, PLAINVIEW received a B.A. in Arts and Sciences during ceremonies held at the University of Delaware's 122nd commencement exercises.

Among those Nassau students who completed a special summer program at Stevens Institute for high-ability high school students were Ted R. Kitzis, son of Dr. and Mrs. Stanley Kitzis of 156 Plainview Road, Woodbury, a junior at Syosset High School and John Steinhardt, on of Mr. and Mrs. Fred Steinhardt of 14 Allison

Drive Old Bethpage, a senior at Bethpage High School.

Among those students who attained the Dean's List at Rider College, were: Kenneth Obletz, 4 Queens Ct., PLAINVIEW, Steven Tillman, 31 Debra Dr., PLAINVIEW, Joann Cannella, and Burbank Pl. PLAINVIEW.

Among those cadets on the Training Ship for the second cruise that will be covering more than 17,000 sea miles will be from HICKSVILLE. William P. Muller, son of Mr. and Mrs. William M. Muller, 10 Marvin Ave., Stephen M. Trant, son of Mr. and Mrs. Manus Trant, 77 Scooter Lane, and from PLAINVIEW Thomas C. Capone, son of Mrs. Mary Capone 5 Marilyn Blvd., Thomas W. Rice, son of Mr. and Mrs. Allen E. Rice, 74 Main Parkway.

The Department of Psychology at the State University College at New Paltz, has recently awarded a graduate assistantship to Gerard A. Dizunno, son of Mr. and Mrs. Peter A. Dizunno, 17 Adelphi Rd. HICKSVILLE, for the 1971-72 academic year.

Gerard is a 1964 graduate of Hicksville High School and has

received his B.S. in Psychology at New Paltz. He will receive his M.A. in experimental psychology in June 1972.

Robert J. Dizunno, son of Mr. and Mrs. Peter A. Dizunno, 17 Adelphi Rd. HICKSVILLE, has been accepted into the graduate program for the 1971-72 academic year at the State University of New York at Binghamton. Robert, a 1967 graduate of Hicksville High School, received his B.A. in political science at the

University of Pittsburgh, Pittsburgh, Pa. He plans to concentrate his studies in the area of international relations.

Deborah A. Kinkella, daughter of Mr. Alexander Kinkella, 85 Vassar Lane, HICKSVILLE, a student at the State University College at New Paltz, has been named to the Dean's List, an honor reserved for those who have earned a "B" average or higher for all studies completed at the College.

Tobay Sponsors Midget Football Clinic

From Your
Congressman

James R. Grover, Jr.

Supervisor John W. Burke announced that the first annual Midget Football Day will be held on Saturday, August 14, at John J. Burns Park in Massapequa with some of the top football coaches of Long Island present to offer information and advice.

The day-long event is sponsored by the Parks Department of the Town of Oyster Bay. Burke has extended an invitation to midget football coaches, players and parents from all over the town as well as all over Long Island to attend free of charge. Co-hosts with the town will be

the St. Rose of Lima parish football program and the Massapequa Mustangs program.

Chairman and coordinator of the Football clinic and other events is Robert Weinbauer, assistant football coach at Massapequa High School and varsity basketball coach there.

"The aim of Midget Football Day is to improve the knowledge and skills of the men who dedicate their time to working with youngsters," Burke said. "It is further dedicated to the players and their parents in an effort to inform and educate them

on the game and how it should be played.

"To accomplish this, we have contacted some of Long Island's finest coaches who will lecture and speak at this day-long event. Seven of them have agreed to open their books of football knowledge for the benefit of coaches and players and parents."

Included in the speakers' lineup of football coaches are: Milt Theodosatos, Sewanhaka High School, to speak on "Offensive Line Play"; Bob Frink, Wantagh High School, to speak on "Offensive Back Drills and the Sidesaddle T"; Joe Coady, Carle Place, "The Kicking Game"; Joe Umbria, Friends Academy, "The Monster Defense"; Bernie Wyatt, Lindenhurst, "Defensive Back Drills"; Fred Bruno, Holy Trinity High School, "The Quarterback Option"; Lou Luba, Massapequa High School, "Relationship of Parents, Players and Coaches"; and Jim Weinman, Nassau Community College and former Penn State assistant coach, "The Value of Competition."

The day will begin with opening of registration at 9 a.m. It will include everyone who attends and will continue until 10 a.m.

During the hour, free coffee and cake will be available.

Burke pointed out that everyone—coaches, parents and boys—would be asked to register in order to complete an attendance survey of the program. People who arrive after 10 will be able to register. Everyone registered will be eligible for some free attendance prizes.

Speakers will begin at 10 and the clinic will continue until noon when there will be a lunch break. At 1 p.m. the program resumes, until 5:50. Following a supper break, the evening speakers, Luba and Weinman, will be presented under the lights. The program will conclude at about 9 p.m.

In many cases, coaches will bring active members of teams with them to demonstrate various drills and show formations and coverage.

Members of the Mustangs organization, which plays in the Long Island Midget Football League and in the Pop Warner Conference, will join with men of the St. Rose program, which campaigns in the CYO midget league, to set up the program.

"While this is an Oyster Bay Town football program and clinic, we want everyone on Long Island to know they are welcome," Burke said. "We expect from 500 to 1,000 to attend and will be ready to welcome more. If football is your game, we feel this day's events are a must."

Last year, a group of Congressmen, including myself, sponsored a House resolution calling for orderly extrication of this nation's military forces from the Vietnamese conflict. We were criticized by both the peace - at - any - price wing and those who still hold out for military escalation.

We renewed the effort this year and it became evident last week that the time had come for our idea, because the proposal was adopted by House and Senate draft legislation confers as a substitute for Sen. Mansfield's absolute deadline approach.

This bi-partisan resolution, which I have joined in sponsoring, states that it is in this nation's interest to continue our troop withdrawals to finally while calling for a cease fire and negotiation. Such withdrawal would be contingent on the release of all American prisoners of war 60 days before the withdrawal date. This proposal calls also for provisions to protect American troops during such withdrawal and makes it clear that this nation reserves the right to provide aid to the South Vietnamese and any other people whose liberties and rights are threatened.

This proposal would allow us to get our forces out of Viet Nam at the earliest practical date. And yet, as we continue our disengagement, it allows our peace negotiators the breathing space they need by not tying them to any date. I can only hope that the various Presidential hopefuls, the publicity-seekers and the hard-liners who ignore the deep and intense complexities of the diplomatic situation will join with us in getting this plan approved. I earnestly believe that it's the answer to the difficult situation we face.

FOR THE RESIDENTS AT BIRCHWOOD PARK AT JERICHO

Organizational, community and general interest news should be submitted typewritten or printed, double-spaced, in duplicate. Editor drop off or mail to Editor 13 Millpond Street, Jericho. Deadline for insertion - Monday noon. Telephone WE 8-1985.

Joint Statement Issued:

Presentation To Town Board Being Readied By Civics For Sept. 14 Apartment Hearing

After a successful quest for a hearing continuation, the Joint Jericho Civic Council met last week to organize its major presentation to the Oyster Bay Town Board on September 14. The opening of the hearing on July 27 had been continued to the September date in what was called an "unprecedented move" after a coordinated presentation by the five local civic associations.

In preparation for the July 27 meeting, these organizations banded together to form the Joint Jericho Civic Council in order to demonstrate to the Town Board the entire community's unanimity of viewpoint. This viewpoint is expressed in the following statement which was made before the town board during the July 27 hearing.

"We, all of us - the Town Board of Oyster Bay, the residents of Jericho, Brookville, Muttonfont and Old Westbury - have a marvelous opportunity before us, an opportunity that few communities ever have. Where we live, there are 700 acres whose development can still be guided. We have the chance here to create an area that contributes to the well-being of all residents, an area that demonstrates what intelligent planning can ac-

complish. "The key word here is contributes - an area that contributes to the community. As we've said, this is an opportunity ... and it's unique to where we live. It would be a pity to dissipate this opportunity.

"The 1080 apartment development about which we've heard tonight contributes nothing to the community. It only takes away.

"The tax contribution of this development, when costs to the community are considered, is negligible if it exists at all.

"Traffic in the area, the Jericho Turnpike turn-around at the Expressway, is already congested. The proposed development presents an obvious additional hazard. What's more, there is a potential problem on North Marginal Road (Gun Hill Road) at the east-bound expressway entrance.

"As far as necessity shopping is concerned, no provisions have been made. Yet the development would add approximately 20 percent to the population of the Jericho School District.

"The aesthetic picture is no better. The development of the 68 acres indicates a housing density about equal to that of the Fairhaven Apartments on

Jericho Turnpike in Syosset. The Syosset development is wall to wall asphalt.

"Then there are town services. It is highly questionable whether town services as now constituted can serve this development without major expansion. We're talking about Fire Department, Water Supply, sewage handling, library.

"Even recreation facilities could be displaced. This new development could affect the access by Jericho residents to the Syosset-Woodbury Park.

"It is impossible for us to find a single reason for the construction of these apartments as presented this evening - either from a practical or from an aesthetic viewpoint. Therefore, we the residents of Jericho, here represented by the Brookville Taxpayers Association, Birchwood Civic Association, West Birchwood Civic Association, Post Homes Civic Association, Princeton Park/Oakwood Civic Association, respectfully request a continuation of tonight's hearing until September 14 so that we can present more detailed and more expert information to the Board in public session that will assist the Board in reaching a decision that is in the best interests of this area."

TEACHERS TAKE ON MAN-MADE WORLD: Science teachers Angela R. Cigna (left) of Syosset High School, and Peter J. Sterrazza of Jericho High School, discuss new laboratory science curriculum developed by Engineering Concepts Curriculum Project (ECCP) at the Polytechnic Institute of Brooklyn. Teachers from throughout Eastern U.S. are completing six-week program in

this multi-discipline at Institute's Graduate Center in Farmingdale, N.Y. Published by McGraw-Hill, the course, The Man-Made World, presents problems of national and personal interest, such as pollution, population and traffic control, and offers new understanding of the age of technology. To date, 27,000 students from various educational backgrounds have graduated from The Man-Made World.

INSTALLATION CEREMONIES - State Assembly Majority Leader John E. Kingston administers the oath of office to the new officers of the Long Island Water Conference. They are from right to left: Richard H. Lauman, chairman, vice president of the Lauman Corporation of Bethpage; Nicholas Bartilucci, first vice

chairman, commissioner of the JERICHO Water District; Cornelius D. Enzel, second vice chairman, commissioner from Manhasset-Lakeville Water District; Alexander Maranchuk, treasurer, superintendent of the South Huntington Water District; William J. Farmer, secretary; commissioner at Greenlawn Water District.

First Annual Science Congress Held Today By Syosset Public Schools

Twenty-six students from grades 8 to 12 participated in the First Annual Science Congress of the Syosset Public Schools' Summer Research Program today in the auditorium of the Senior High School. Students presented the results of their summer research in the fields of embryology, holography, ecology, biochemistry, food chemistry and others.

The summer research program, a first in the district's history, is affiliated with Waldemar Medical Research Foundation in Woodbury, New York, and the National Science Foundation. Participants spend most of their time doing research under the careful supervision and advisement of Mr. Arnold I. Miller, the group leader and Mr. Richard M. Lesse, the physical science advisor. Both men are teachers at the Senior High School during the regular school year. Mr. Miller, who is enjoying his first year at Syosset, has operated the program in Great Neck for the past six summers. He is also an instructor for Cornell University in the evenings as well as a well-known educational author. Mr. Lesse has a specialty in physics and has done research at Buffalo University and Brookhaven National Laboratories.

In addition to pursuing their research endeavors, the students

attend bi-weekly lectures given by scientists, physicians and other members of the scientific community on various topical subjects such as virology, hematology, biophysics and microbiology. Once per week is spent at Cold Spring Harbor Scientific Library where the students learn to use such a facility and to gather background information so vital to their experimentation.

The only requirement for admission to the summer program is an interest in science. There are no recommendations required nor specific grades necessary for acceptance: first come, first served! The demand and enthusiasm for such a program was so great that the group was closed by May 20. Hopefully, the program will be a continuing one, with several participants returning next summer to continue their investigations during the regular school year as part of an independent study program. Miller and Lesse are hopeful that the group will be enlarged for the summer of 1972 with the addition of more senior advisors.

Student researchers also learn the techniques for photomicrography and receive instruction in the preparation of a scientific paper. Many participants will probably have their work published in scientific

journals. At the Science Congress, the researchers get the experience of orally presenting their findings before an audience and verbally defending their position if necessary.

Not all research ends in joyous fulfillment. Some of the groups are still trying to cultivate their organisms but to no avail. Other groups are frustrated in their efforts as each attempt only yields failure. However, the summer program does not measure success by the attainment of positive information. The experience of doing true and meaningful investigations as well as the numerous techniques acquired more than make up for some frustrating moments.

Highlighted in this summer's investigations are the implantation of a hand-made transmitter into the body cavity of a laboratory rat in an attempt to monitor the animal's body temperature through a series of clicks received using an ordinary radio, three dimensional photography using a laser and making what is called a hologram and microscopic surgery on protozoans to study the healing and regenerative powers of the one-celled creatures. Color slides taken by the students were shown. For further information, please contact Mr. Miller or Mr. Lesse at the Senior High School.

RETAIN YOUR BCA MEMBERSHIP IF YOU HAVEN'T ALREADY DONE SO, SEND IN YOUR DUES NOW

Reminder To BCA Officials

All Birchwood Civic Association Officers and Directors are requested to be at the Syosset Public Library by 8:45 P.M. for the regular monthly meeting scheduled for Tuesday, August 17th.

If unable to attend, please notify President Sam Saitz beforehand (GE 3-7085), or contact any other fellow officer.

MEN IN SERVICE

Cadet Jerome S. Legge Jr., 22, son of Mrs. Jerome S. Legge Sr., 166 Nevada St., HICKSVILLE, is receiving six weeks practical work in military leadership at the Army Reserve Officers' Training Corps advanced summer camp at Indiantown Gap Military Reservation, Annapolis, Pa., from June 26 - August 6.

Legge, who received a B.A. Degree from Utah State University, Logan, in 1970, is one of more than 13,000 students attending ROTC summer training at six installations in the United States.

He is enrolled in the ROTC program at the College of William and Mary, Williamsburg, Va.

Navy Petty Officer Second Class Lee H. Koerner, son of Mr. and Mrs. Herbert J. Koerner of 583 Plainview Road, PLAINVIEW, has returned to his homeport of San Diego aboard the anti-submarine warfare aircraft carrier USS Ticonderoga after a four-month deployment to the Indian Ocean and Western Pacific.

During the cruise, his ship operated in the Philippine Sea, the South China and East China seas, the Sea of Japan and over a wide range of the Northern Pacific.

The 27-year-old warship Ticonderoga has the unique distinction of being the only anti-submarine warfare aircraft carrier in the Pacific Fleet.

Midshipman William A. Bennett Jr., son of Mr. and Mrs. William A. Bennett Sr. of 11 Fairview Court, HICKSVILLE, is one of 600 midshipmen taking part in a special eight-week summer training program aboard U.S. Second Fleet ships operating in Northern Europe.

His special summer training is designed to give him practical shipboard experience relating directly to regular classes in Naval command and management.

He is a 1970 graduate of Hicksville Senior High.

Navy Lieutenant Robert L. Thurer, son of Mr. and Mrs. Carl Thurer of 76 Sackett St., HICKSVILLE, has completed a three-week indoctrination course for newly commission medical officers at the Naval Amphibious School, Coronado, Calif.

His course covered medical and military orientation and administrative functions necessary to medical planning for fleet operations.

He attended Dartmouth College, Hanover, N.H.

Midshipman Jeffrey D. Welsh, son of Mr. and Mrs. Dale C. Welsh of 25 Mahan Road, OLD BETHPAGE, is now undergoing summer Aviation Indoctrination at the Naval Air Station, Pensacola, Fla.

He will be familiarized with aviation opportunities in the Navy and make flights in the T-34, T-28 and TH-57 training aircraft.

Walsh is a second classman at the U. S. Naval Academy, Annapolis, Md.

He is a 1969 graduate of Chaminade High School.

Midshipman Sy Strudler, son of Mr. and Mrs. Sidney Strudler of 104 Leahy St., JERICHO, is now undergoing summer aviation training at the Naval Air Station, Corpus Christi, Tex.

His training consists of air navigation, aircraft engines, and aerodynamics. In addition, he will make flights in the T-34 "Mentor" training aircraft.

He is a member of the Naval Reserve Officer Training Corps

unit at Rensselaer Polytechnic Institute, Troy, N.Y.

Navy Petty Officer Third Class Gary E. Cordes, son of Mr. and Mrs. Ernest H. Cordes of 3269 N. Jerusalem Road, LEVITTOWN, has completed three weeks of training operations in the Atlantic aboard the anti-submarine warfare aircraft carrier USS Wasp.

During the cruise he visited Halifax, Nova Scotia and Bermuda.

His ship is homeported at Quonset Point, R. I.

Coast Guard Cadet Harold D. Lee, son of Mr. and Mrs. William H. Lee, Jr. of 200 East Ave., HICKSVILLE, recently began four years of training as a cadet at the Coast Guard Academy, New London, Conn.

During his studies he will receive a well-rounded academic education in addition to extensive military training in navigation, search and rescue, engineering, administration, weaponry and seamanship. He will spend his first cadet summer on the three-masted Coast Guard sailing ship Eagle, and remaining summers aboard modern medium or high endurance Coast Guard Cutters.

Upon graduation from the academy cadet Lee will receive a bachelor's degree and a commission as Ensign in the Coast Guard.

Midshipman Robert G. Bickard, son of Mr. and Mrs. Edward Bickard of 2 Cottage Blvd., HICKSVILLE, is now undergoing summer amphibious training at the Naval Amphibious Base, Coronado, Calif.

His training includes amphibious warfare, naval gunfire procedures, helicopter team techniques and underwater demolition.

He is a member of the Naval Reserve Officer Training Corps Unit at the University of Colorado, Boulder.

Cadet Raymond F. Strafer, son of Mr. and Mrs. Frederick F. Strafer, 23 Plover Lane, HICKSVILLE, will complete six weeks practical work in military leadership at the Army Reserve Officers' Training Corps Advanced Summer Camp at Ft. Bragg, N.C., July 30.

Strafer, who is a student at the University of Tennessee, Knoxville, is one of more than 13,000 students receiving ROTC summer training at six installations in the United States.

Army Specialist Five William R. Dillon III, 24, son of Mr. and Mrs. William R. Dillon Jr., 56 Carnation Road, LEVITTOWN, is serving with the 4th Infantry in Germany.

Spec. 5 Dillon is assigned as a communications Specialist in headquarters company of the Infantry's 2nd Battalion.

The Specialist received his associate degree in 1966 from the New York Institute of Technology at Old Westbury.

Navy Petty Officer Third Class Gary E. Cordes, son of Mr. and Mrs. Ernest H. Cordes, and husband of Mrs. Shirley M. Cordes, all of 3269 N. Jerusalem Road, LEVITTOWN, is now participating in Operation "Squeeze Play" aboard the aircraft carrier USS Wasp in the Atlantic.

He is a graduate of General Douglas MacArthur High School, Levittown.

UNUSUAL BUSINESS OPPORTUNITY: Openings available for those ambitious enough to want their own business. This is an opportunity where: 1) You can build a business without leaving your present work. 2) You do not have to risk capital. 3) You can build a sizeable royalty income in a FEW years which will stay with you indefinitely. 4) You can relocate and your business will follow you. 5) You can be your own boss and set your own hours. INCOME figures are high... be they part-time or, if you so desire on a full-time basis. But they are more than adequate to keep up with today's inflationary cost of living and these costs. There is no other business like this in America today. IF YOU WOULD LIKE TO try your hand at building a business and are willing to set aside at least one evening a week that would insure financial independence, phones IV 2-4100 on any Friday, between 9 and 4:30 for time and place of next meeting.

School Report

(Continued from Page 1)

replaced at a savings of approximately \$450,000. Newly-appointed personnel will cost the district approximately \$846,000 in salaries and benefits; those leaving the district cost \$753,421. This amounts to a net gain of \$200,000, which was reflected in the budget. Eighteen teachers will be on sabbatical this year, but eight of them will not have replacements. All those on sabbatical this year signed pledges to return to the district for a year.

The Board voted to direct the attorney to start litigation against a former art teacher in the district if she doesn't return from her sabbatical or refund the money which the district paid to her during her leave this past year. Mr. Kershen voted against this action because he felt the language in the teachers' contract gives the Board an option to release this teacher from her obligations to the district.

The School Board approved the Adult Education personnel for the 1971-72 school year, with the exception of the driver education teachers. Mr. Clark questioned

whether or not the district gave preference to qualified Adult Ed instructors who live in Hicksville. He stated only two of the seven Driver Ed teachers live here. This matter will be studied further.

The district is taking legal action against the parents of three Hicksville boys involved in vandalism at district schools. Mr. McCormack said he hoped parents would realize that some of this type of action and what leads to it has to be rectified at home.

Thomas Nagle president of HAD, asked when the Board would meet with his organization. He said HAD had written a month ago and as yet received no reply. Mr. Muratore said the letter would be discussed at the next Board meeting and at that time the Board would answer HAD's request.

Next Board Meeting
The next School Board meeting is Tuesday, August 31 at 8 p.m. in the Conference Room of the Administration Building, Division Avenue.

Dear Friends . . .

stop in, or give them a ring?

SORRY TO SEE the Plainview School Budget defeated again. This is the third time.

Although the date for the vote has not yet been set, the Plainview Board of Education has decided to submit a proposition to voters that will permit the school district to pay for school books and supplies for students, it has been reported.

Responding to criticism from members of the John Birch Society for his recent attack on that organization, Joseph B. Lamberta, who is seeking the Conservative Party line for Oyster Bay Town Supervisor said: "I wish to reaffirm my criticism of the John Birch Society and restate that I am in great disagreement with much of their work. Throughout my political life I have made it clear that I would not seek or accept the support of the Society."

"While the Society does not officially endorse political candidates, it has been brought to my attention that many

members of the Society are actively working for my opponent, Lewis Yevoli, in the Conservative Party primary for Oyster Bay Town Supervisor."

"Since the Conservative Party, as a responsible political party, has always disavowed the John Birch Society and since my opponent, Lewis Yevoli, is seeking the Conservative Party line for Oyster Bay Town Supervisor, I ask him to publicly join me in disavowing present and potential support from members of the John Birch Society."

"Should Mr. Yevoli dare to deny the charge of Birch support in his campaign, I am sure that he will have absolutely no reservations about joining me in renouncing the Society as an organization that has set back the conservative cause because of its irresponsible actions."

"I would expect such a disavowal from anybody seeking to run on the Conservative Party line," Lamberta said.

That's All for now,
Sheila

H.P.S. PRIMARY LEARNING CENTERS - This year changes were made in the Hicksville Summer Elementary School program. Special attention was given in a one-month program to children in the Kindergarten and Primary grades in order to identify at an early age any possible learning problems. School was held in each of the district's eight elementary buildings, with small groups meeting with the teachers in some cases, and larger groups meeting with the teachers who had the assistance of teenage volunteers in other cases. Mrs. Alati and Mrs. Schoenecker, the mothers of 12 children (8 and 4

respectively) volunteered their time, three hours daily, to help at the Woodland Avenue School. The pictures shown here were taken in the learning centers and show the youngsters using the various equipment which are standard teaching tools for the development of coordination, perceptual training, reading readiness and number concepts.
