## No Board of Education Meeting

By SHIRLEY SMITH

Between 75 and 100 people patiently waited for more than an hour Tuesday night for the Hicksville Board of Education meeting to start. Only three members were present and no business could be transacted without a quorum of four members. Messrs. Clark, McCormack and Kershen were the only trustees who came. Mr. Zindulka was ill and Mrs. Pappas had been called out of town on business at

the last minute. Mr. Muratore, board president, and Mr. Bello, board secretary, had been expected to attend, but personal emergencies prevented this.

Agenda items for the meeting which did not take place included the proposed school calendar for 1972-73 (which has been tabled at two previous meetings), request for approval of the Board of Registration (personnel to work at the polls for the

# 3 Alarm Fire At Mid Island Plaza

A fast spreading fire gutted four stores and heavily damaged a fifth store on April 8th at the Mid Island Plaza Shopping Center on North Broadway, Hicksville. The first alarm was sounded at 11:35 AM, the second at 11:40 AM and the third at 11:50 AM. Mutual aid was requested from the Jericho and Westbury Fire Dept. At the scene to aid Hicksville firemen, while Plainview firemen stood-by to answer any other alarms.

100 firemen and 10 pieces of apparatus responded under the direction of Chief Mel Voorhies. The fire spread quickly to the cock-loft above the stores where it was difficult to combat. Firemen were again, for the third, time hampered by heavy smoke that built up in the mall when automatic opening windows failed to open. Firemen were forced to break many of the windows. Quick acting firemen noticed only a partial firewall

protecting the remainder of the North East wing and took action to prevent the blaze from going around the fire wall. 15 firemen were treated by the rescue squad for smoke inhalation and minor cuts and bruises.

There has been considerable comments on the frequency and seriousness of fires in the Plaza. And after reading a little further, one can see there is more to come. The construction of the stores themselves aids any fire that starts. Once the fire gets above the false ceiling, away it goes, and only God can stop it. One of these days builders and owners will learn to build numerous fire walls to prevent this rapid spread of fire. In effect the stores are built to burn.

Another item is the deplorable bad house keeping by a majority of the merchants. Since this fire, fire men have been back to the plaza twice for smoky fires in the tunnel under the plaza. In some

areas the rubbish is loose deep. Efforts by local fire inspectors have been futile because the law doesn't back them. Until these two major problems are solved, you can expect to see fire engines in the plaza when you visit.

Gutted stores were the Sunflower Shop where the fire started, The Hicksville Florist, Green Shield Stores, and Jaramas Cleaners. Mr. Larrys Clifton suffered considerable damage, but the fire was kept out, when firemen were forced to pull down part of the ceiling to check for hidden fire. The fire marshalls office is investigating.

Hicksville Ladder Co. 1 was requested by the Plainview Fire Dept. to help combat a stubborn blaze in a 3 story office building on Old Country Road. The mutual aid request was received on April 8, at 10:41 P.M.

Chief Mertz succeeds Chief Melvin Voorhies who has completed his 2 year term as Chief, plus 6 years as a Deputy Chief. Chief Mertz at the recent Department Meeting presented often with his Ex-Chief's Badge and thanked him for his devotion to duty. Both Chief Mertz and Ex-Chief Voorhies will be honored at the annual Insp. Dinner on April 22.

Also elected were 1st Asst. Chief Mario Misturini, Co. No. 3, 2nd

Asst. Chief Roy Schaaf Co. No. 7, and winning a 4-way race for the 3rd Asst. Chief's Office was William Forber an Ex-Capt. from Co. No. 2. The residents of Hicksville are indeed fortunate to have these experienced men lead their 225 member Fire Dept. and we know our residents wish them a safe and successful term in office.

## Third Generation Welcomed

Nationwide Management Corporation with principal office at 6 East 46th Street, New York City, takes pride in announcing the addition of a third generation to its administrative staff. The new addition, Mr. Robert Fisher, is part of a recent expansion program, the logistics of which revolve around the fact that more and more property owners are seeking a management organization that will take a personal interest in their investments. As explained by Mr. Fisher, "Although we are expanding, our organization's policy of the personal touch will not be lost in the shuffle. It will in fact be even more present in the future. Nationwide Management

Corporation strives to protect an owner's property, and not just to manage it."

Nationwide has retained the services of Steas Advertising, Incorporated of Great Neck, Long Island to direct the advertising and public relations involved in the expansion program.

"The choice was an easy one," said Mr. Fisher, "we needed a young, well established agency whose policy is parallel to ours." Nationwide predicts that as a result of its newest venture, as well as the continuation of its present activities, its presence in the real estate industry will be felt more strongly than ever before in the years to come.

# "No Tanks," Say Plainview Residents at Town Hall

UNHAPPY CROWD of 500 to 600 individuals gathered at Town Hall on Tuesday evening, mostly to oppose the application of Northville Industries for a special permit use to install a oil and gasoline "satellite" terminal in Plainview. Presenting his case, above, is George Prusang, the applicant's consultant on fire protection. At left, arms folded, is Arnold Flahman, of the Greater Plainview Community Association. At right is Ted Sorenson, attorney for the applicant. Decision was reserved after the 4 1/2-hour hearing.

By Janet Gosnell

Not only the hearing room, but the entire building was mobbed in Oyster Bay Tuesday evening, when residents of Plainview and environs descended upon Town Hall to protest the application of Northville Industries which would put a \$2.4 million "satellite" oil and gasoline terminal on a 6 1/2 acre tract adjacent to the Plainview Industrial Park, if the Town Board saw fit to grant the application.

Estimates went from 450 to 600 for the unhappy crowd, the majority of which stood through a two-hour presentation led by Ted Sorenson, formerly of the late President John F. Kennedy's staff, and the 2 1/2-hour hearing of speakers on the petition. Many among the crowd sought seats on crowded stairways or on the floor. Most of those present apparently arrived by bus, and parking was not the usual difficult situation for the working press at Town Hall.

The disgruntled atmosphere of distrust in the audience, which increased as they stood in the smoky crowd outside the hearing room was emphasized in one overheard conversation. "I'm with the News," said one hurried young man. "Does this hearing do anything to change your mind about the tank farm?" he asked a resident.

"Don't tell him anything," shouted a lady in the crowd. "He's with the oil company." He might really have been Stuart Ann, whose coverage of the hearing appeared in the Wednesday's issue of the News.

Nine Storage Tanks. Essentially, the application asks permission to erect nine storage tanks to house home heating fuel (80 per cent) and auto gasoline (20 per cent), all to be piped underground from Port Jefferson. Northville has been turned down on two similar applications by the Towns of Huntington and Babylon.

According to a statement by Northville in the April issue of the L.I. Business Advance ("Serving the Heart of Industrial Long Island"), "This terminal is designed to serve Oyster Bay." At the hearing Tuesday evening, the opposition contended that the tank farm would serve Suffolk County more than it would Oyster Bay.

According to Mr. Sorenson and his expert, Lawrence Wilts, the underground pipeline design would be an ecological boon to the community, removing oil-spilling trucks from the highways. Trucks would be kept out of residential streets and other roads after picking up their loads from the tank farm by

going immediately onto the nearby Long Island Expressway, they said.

The tank farm would be in line with good planning, said the applicant's planning expert, John Burdis, locating oil terminals in Long Island's "central corridor" rather than on the coastlines.

It would be in line with good safety, they said, removing dangerous oil trucks from the road. At a hearing last year, one resident in the vicinity of Glenwood Landing near oil terminals indeed reported an instance of an oil truck turning over and bursting into flames on her very lawn.

It would also be as safe from fire or explosion as modern technology would permit, said the applicant's consultant on fire protection, George Prusang, noting automatic shut-off systems, floating roofs for tanks and a

"dike basin" around tanks, just in case one should leak.

Afraid of Fire

The safety aspect, the ecology, and the appearance of the tank farm appeared to be the primary concern of residents, a few of whom live within 300 feet of the proposed tank farm. Eloquenty opposing was attorney Charles Mattingly, speaking for the Greater Plainview Community Association and the Old Bethpage Civic Association; and attorneys John Coffey and Harvey W. Sherman, speaking for clients in the industrial park. In a letter from the Plainview Old Bethpage public schools submitted by Jay Bernstein, the schools said they valued the safety of the children and the residents more than any increase in taxes resulting from the oil and

# Letters To The Editor

To the Women of America:  
A group of women concerned at the attempts of making the American Women as extinct as the American Eagle, have formed a new organization calling it "Women of America."

A noisy, agitating, group of females in our society, on television shows and radio have been complaining about how mistreated the American women are. "We're here to suggest that these unhappy, frustrated, selfish women take a long hard look at themselves for the reasons behind their discontent and stop looking into our homes and hearts with hope of dispelling their insecurities."

The fraud of the century is now exposed, with the truth of the matter being that the American women "never had it so good."

Why should we lower ourselves to "uni-sex" when we already have equal rights plus the fringe benefit of loving and being loved by our men and by our families. Lucille Buffalino, vice chairman said the group was formed to discuss strong political protest to the equal rights amendment. . . because the proposed equal rights amendment is vague. It states "equality of rights under the law shall not be denied or abridged by the United States or by any state on account of sex" sounds simple and it was made to sound simple by talented people she said. Are we reading more into this than is there? Here are our objections. This positively makes the American women subject to the Draft!! Foxholes are not the safest place for men and the proposal would put women there and under the guise of equal rights.

It will abolish woman's right to child support and substitute what the women's libbers think is a more equal policy, that such decisions should be within the discretion of the courts. This is equality? Under the present American laws, the man is required to support his wife and each child, and wife is not required to support her husband. If the amendment were passed, women, you will have the equal obligation to take a job. In other words if you, women, will not break up the family unit voluntarily, this amendment will force you to leave your children. You will not have the right not to take a job. Pandora's Box opened, more to come . . . you will not have the right to keep your children (if separated or divorced) and should you have the custody of half of them, you

will be their sole support. Can you believe this amendment already breezed through the N. Y. State Senate with not all members present and no discussion took place, at all!! Were the women of N. Y. State asked for their opinion, as to whether they wished to forfeit all their rights in order to afford women libbers, unlimited rights?

In Russia, the Constitution guarantees equal rights to women. This means she is obliged to put her baby in a State operated nursery or kindergarten so she can join the labor force. Russian women have "equal rights" in the coal mines: Cargo ships: Heavy construction. They work in teams on garbage trucks with a man driving the truck. In fact, the men still hold all the top jobs.

Many innocent women and enlightened lawmakers think that "equal rights" means more job employment opportunities for women, equal pay, appointments of women to high positions, admitting more women to medical schools and other desirable objectives which all women favor. However, this sweetener covers the deadly mask the radicals really want. This amendment is an assault on the family, on marriage and on children! It is revealing to know that the leaders of this women's lib are either unmarried, like Gloria Steinem or just divorced like their president.

We resolve to tell our Senators in New York State that they did not represent the women of this State on passing said amendment. And we resolve to tell each and every N. Y. State Assemblyman that this tiny minority, "fiber libbers" is not to be allowed to degrade the role that most women prefer. Our Assemblymen must not vote the equal rights amendment into the State of New York.

All interested readers may contact Woman of America at 61 Stevens Place, Deer Park, N.Y. Also we urge that you write to your representatives letting them know just how you feel about this amendment.

Yours truly,  
Christine Hydno  
Chairman.

Dear Mrs. Noeth:  
About two weeks ago a letter appeared in one of your newspapers, and in a daily paper, from a Jericho resident who wrote to thank her community for electing outstanding people to the Jericho Board of Education, of the children of Jericho; for their

far-sightedness in adopting important new teaching methods; and also for their staffing their schools with outstanding teachers. Butmost of all, she praised her fellow taxpayers and friends for being wise enough to choose trustees that would do the best for the youth of Jericho.

How I wished a letter of that sort could have been written by a Hicksville resident about the Hicksville Board of Education. Unfortunately such is not the case in our town. Our present Board has done nothing to improve or enhance our educational system. They have made recommendations, and are considering further action that can only down-grade the quality of education here. Many things under study by the Board for possible deletion are in the name of economy. Other things under study have not been acted upon because of ignorance. Time, too, is fleeting while their "closed-to-the-citizens" budget committee delves into past budgets - for unknown reasons. I suspect the motives as having nothing to do with our children's education.

No letter of praise, and no letter of thank you could possibly be written to the citizens of Hicksville for their wisdom. We are misled. We were ignorant and innocent. We were apathetic.

HOWEVER, perhaps a chance to change and improve this deplorable situation is being offered.

Three candidates have this past week announced their intentions to file for the seats on the Board. Mr. Charles Loincono, Mr. Bob Pirrung, and Mr. Neil McCormack will run as a slate. Much will be written and said about these gentlemen in the next two months. It is not my intention to campaign here and now for them. It is my intention though, to say these things so that the voters of Hicksville will not let what looks like an opportunity to elect serious, educated, sincere, qualified men to guide the futures of our children, pass by. It is an opportunity too, to once again have men on the Board of Education who will treat the people of Hicksville with dignity and respect. It is an opportunity to inject some new and fresh blood into a deteriorating body. And perhaps it will mean that someday in the future, letters will be written thanking the people of Hicksville for their wisdom in electing people who care.

Name withheld on request

## Dear Friends:

There is an old adage which goes something like this . . . "Don't explain . . . your friends don't need it and your enemies won't believe it." In almost every case, this is true. But, for the benefit of those who may be honestly confused, I'd like to repeat, from its constitution, the purpose of the Hicksville Community Council, which is now concluding its second successful year.

"The purpose of this Council is to foster community spirit and activities, to encourage, share and disseminate information for and between the residents, professionals, organizations, schools, churches, synagogues or temples, commerce or industry, government and governmental agencies, located in the area known as Hicksville in the Town of Oyster Bay, Long Island, New York."

"Membership . . . any resident of the Hamlet of Hicksville, any professional maintaining an office within the Hamlet of Hicksville, any person affiliated with any . . . or representing any Hicksville organization, school, church, synagogue or temple, commerce or industry, government and governmental agencies, shall be eligible for membership."

As our readers know, a complete rundown of each meeting is always printed in the HERALD. Also, those who attend our meetings regularly know that the Council itself never takes a stand on any matter, large or small . . . but endeavors at all times to bring to those present, and to the entire community, a better understanding on the various matters which affect Hicksville. Those present are always urged to take their information back to their organizations and of course, any action taken is by individual organizations or individuals themselves, who have this right at all times. The Council itself never does act or endorse. It never has and it never will. But of course, those attending the nine meetings held by our Council each year, know this. They also know, that by a recommendation of our Board of Directors, a portion of each meeting is always open to the public for whatever announcements they may wish to make, as long as it is a matter which concerns Hicksville.

Once again, I'd like to urge more of you to come down, on the first Thursday of each month with the exception of July, August and Sept. Although organizations can and do join . . . many individual interested citizens of Hicksville also join . . . and, once again, I urge you to do so. We value your opinion on any and all subjects that affect Hicksville . . . and, in the course of these nine meetings I'm sure you will learn much about the hamlet of Hicksville in which you live. So join us, we'd be glad to have you.

Sincerely,  
Sheila Noeth

## Oyster Bay Town Proposes Solution To Garbage Problem

Town Supervisor John W. Burke proposed a unique plan that calls for the Town of Oyster Bay to purchase a portion of the 212-acre H. I. Pratt Estate in the City of Glen Cove to provide a joint sanitary landfill site for both municipalities.

Burke advised Glen Cove Public Works Commissioner Ernest Pasucci of his offer at a meeting at Town Hall, called to find a solution for resolving Glen Cove's problem of disposing of its solid waste.

Burke offered to have Oyster Bay resume immediately the handling and processing of all of Glen Cove's solid waste under a revised version of the 1964 agreement between the two municipalities with the following

provisions:  
That the Town of Oyster Bay receive the consent of the City of Glen Cove to acquire, by purchase or condemnation, a portion of the H. I. Pratt Estate in the City of Glen Cove not to exceed 100 acres.

That the City of Glen Cove and the Town of Oyster Bay conclude a mutually satisfactory agreement for the transport of incinerator residue and unburnable wastes from the Old Bethpage facility to the new landfill at the Pratt Estate, and setting rates for disposal based on actual per ton costs.

Burke assured that only incinerator residue - which is inert and odorless and nonburnable refuse would be placed in the

landfill at the Pratt Estate, were the Town to acquire it. Additionally, upon completion of the landfill operation, the Town of Oyster Bay would be willing to sell the subject parcel to the City of Glen Cove for development as a park. The fill operation would be structured and placed in such a way as to make redevelopment for park purposes convenient and inexpensive. Burke cited the newly begun Brookhaven landfill park as a model.

"I believe that adoption of this proposal will solve our mutual solid waste problem for the foreseeable future," Burke said.

He asked Pasucci to present the proposal to the Glen Cove City Council for its consideration.

## Special Plates For Disabled Bill Passes Senate

The New York State Senate has passed a bill introduced by Senator John J. Caemmerer (R-East Williston) that would grant the Commissioner of Motor Vehicles the power to issue special license plates to qualified drivers who are severely disabled. The bill now goes to the Assembly for consideration. Discussing his legislation,

Caemmerer said, "The intent of this bill is to make it possible for disabled people to use their cars more easily. Presently, there are no provisions for marking these automobiles in an explicit manner to indicate that the driver is disabled. Instances occur in which he may require special assistance, and a license plate that bears readily iden-

tifiable insignia of some kind would help to make the public aware that a disabled person was in trouble. Anything we can do to encourage the disabled to use their own vehicles when possible, we must do."

Caemmerer's bill specifies that special plates for the disabled can be used only on vehicles they personally own and operate.

## Freeport Auto Races Set To Open

Freeport stadium opens its 40th year of professional auto racing this Sunday afternoon April 16th at 2:00 P.M. The opening show will feature two classes of Stock cars-the ultra-fast Modifieds, the zany Bombers - plus a wild Crash-A-Roo Contest.

In the line up for this opening show of the 1972 season in the Modified division will be defending Champion Bruno Brackey the "Flying Mailman" of Far Rockaway who last year successfully defended his 1970 Championship. Fans are wondering if Bruno can make it three in a row. It will be a tough assignment for Bruno with the strong competition he will be getting from veterans like Dick Holahan of Cold Spring Harbor, Pete Michiels of Freeport and heavy contender Fred Balashak of Bayport.

In the Bomber Class, Mario Campi of Freeport will be defending his 1971 Championship against runner-up Fred Tschuschke of Freeport and "Brother" Don Campi also of Freeport, who was the 1970 Bomber champ. Can the Campi brothers keep the "Crown" in the family another year, only time will tell. A large field of cars will be on hand with many new ones for the fans to root for.

In the famous Crash-A-Roo Contest we also have "Brother" Champions, Danny and Terry Brill. Danny of Island Park was the 1970 Champ and Terry of Valley Stream was the 1971 Champion, along with Ronnie Brandenstein, who finished second both years, of East Meadow will again thrill the fans with their free-wheeling style of driving.

Co-promoters Billie Kedenburg and Duke Donaldson, as always, present the best in auto racing to the public and will have three Sunday afternoon presentations before going to their night schedule. Gates open at 1:00 P.M. and show time is 2:00 P.M.

## Boys Baseball Day Proclaimed April 29

In an historic first, Governor Nelson A. Rockefeller has signed and issued a Proclamation proclaiming April 29, 1972 as "BOYS' BASEBALL DAY" in New York State. The Proclamation resulted from a personal request made of the Governor by State Senator George A. Murphy (R., Seaford) that the State of New York pay tribute to the youth who participate in Little League and similar organized baseball activities in communities throughout the State of New York.

thousands of boys throughout New York State will be opening the 1972 Little League and other organized baseball seasons with ceremonies and games.

Assisting them and cheering them on will be thousands of volunteers and parents who believe that the friendly competition of baseball strengthens the contestants physically and morally.

New York State, through its many park and recreation areas, provides hundreds of baseball diamonds and recreation areas for the sport.

It is fitting at this start of another boys' baseball season that we recognize the positive contribution which this sport makes to our young people.

NOW, THEREFORE, I, Nelson A. Rockefeller, Governor of the State of New York, do hereby proclaim April 29, 1972, as BOYS' BASEBALL DAY in New York State.

GIVEN under my hand and the Privy Seal of the State at the Capitol in the City of Albany this third day of March in the year of our Lord one thousand nine hundred and seventy-two.

NELSON A. S/ROCKEFELLER

The Governor's Office announced that a copy of the Proclamation may be obtained upon request made of the Governor's Office or through any Legislator's Office for appropriate presentation in connection with Opening Day parades and ceremonies that are traditional during the last two weeks of April and the first two weeks of May in many communities as the new Season is launched. The Proclamation reads as follows:

# CYO Sports

On March 13, the St. Ignatius C.Y.O. was in the swim again with its third ten week session of instructional and competitive swimming lessons. We had a record turnout for which we sincerely thank all our supporters.

The program is co-ordinated by Hank Handschuh and Grace Way and coached by Peggy Tinguely of St. Frances parish in Wantagh. Able assistance is rendered by our regulars Doris Steen, Jim Langdon, Tom Gill, Carol Haas and of course our lockerroom Moms and Dads. However, our program could not function without the wonderful assistance of our teenage

volunteer instructors namely Lisa and Bob Pinisi, Lorraine Lorch, Donna Allen, Elaine Way, Rosemary Langdon, Tom and Susan Handschuh, Beth Way, Karen Jablonski and Roberta Gilbert.

The classes are conducted according to American Red Cross standards and each participant is tested and placed according to his ability and previous instruction.

Our competitive class consists of accomplished swimmers who desire to improve their speed and endurance. Here competitive rules and procedures are stressed by our able coach. Swim meets are planned for the season

and our first will be held April 12, at 7:30 P.M. in the Kennedy High School pool against St. Rose of Lima.

Many inquiries have been made about starting an adult swim program and the heart is willing but the purse is weak. We would need additional pool time to accommodate the adults and due to the fact that so many of our school districts are on austerity programs the fee charged for the pool is prohibitive.

Our next swim session will begin in October. C'MON DOWN !!!

P.S. The winner of the April 12th meet will be published in next addition of the "paper."

## Plainview-Old Bethpage High School News

Also being observed in 1972 is International Book Year, which represents a United Nations effort to promote understanding among the nations through activities which focus on book festivals. Tuesday, April 18th, will be set aside for a faculty-author program. Mr. Melvin Berger, Mr. Howard Carstens, Mr. David Linton, and Mr. Leroy Hamsey, all of whom are faculty member authors, have been invited to join an informal panel discussion on the theme for National Library Week.

Mrs. Anne Wallock, teacher of French at Plainview High School, took 17 students from Plainview High School and Kennedy High School to France during Easter Recess. The group visited Paris and surrounding areas, made several sightseeing trips and spent a few days in Nice, France. While in Paris, the entire group attended a traditional Seder, their first contact with French people. This trip afforded the students an insight into the culture of France and to reap the reward of communicating in the language that they have been studying for four or five years.

The month of March was a very busy one for all the members of the Plainview High School KEY CLUB. Several projects and activities were in progress simultaneously throughout the month. The first to be undertaken was a coin-box collection for the Diabetes Association. Fifteen members went to several shopping centers on a Saturday asking for donations to this worthy fund. The club also devoted the entire month of March to door-to-door collections for the Heart Fund, covering the entire Plainview area. Over one hundred dollars was collected and donated to help the Heart Fund in the fight against heart disease. In addition

to this work for needy organizations, the Key Club donated \$25.00 from its own treasury to the American Cancer Society.

The Plainview club is one of seven clubs in the Long Island North Division of Key Clubs. The annual division project was suggested and initiated by Plainview and consisted of collecting clothing for the children of the Willowbrook State School on Staten Island. They led the division by amassing a truckload of clothing which was delivered to Willowbrook.

On March 14th the entire division of Key Clubs, and sponsoring Kiwanis Clubs, held a dinner at which many dignitaries were present. President Lee Cort of the Plainview Club, delivered a very diplomatic and cogent speech in favor of female membership in Key Clubbing which sparked a topic of conversation for the rest of the evening. Plainview's attendance of 23 members (11 of which were girls) at this dinner was unsurpassed by any other club in the division.

In a continuing effort to help the Easter Seal Society in raising funds for the handicapped, the Key Club took up the gauntlet in providing manpower for the Annual Easter Seal telethon. This was the first year since its inception that it was broadcast in the New York area with entertainment derived from Las Vegas. Many of the club's members stayed up all night during this 19 hour telethon manning the telephones. While it took a gallant effort to fight the tedium and boredom in the wee hours, each member was content with the knowledge that his share of time and energy was expended for the worthy cause of raising over a quarter of a million dollars for the handicapped children in New York.

SPORTS - On Saturday, April 1st, the track team participated in the Mid Island Invitation

Track Meet and finished fifth. Medal winners were Brian Ruiz in the 100 yd. dash, Jeff Grinspan in the low hurdles, Gary Silko in the triple jump.

BASEBALL (by Steve Sadetsky) - The last 3 victories for the Plainview Gulls baseball team were played during the Spring recess at visiting fields. The Gulls defeated Locust Valley 3 - 0 on a strong pitching performance by Dave Rose. Rose doubled home the only run Plainview needed in the second inning. Bruce Harris went 2 for 3. The Gulls made a clean sweep of Oyster Bay, scoring 13 runs in the 5th inning, the club won easily 16 - 5. The winning pitcher was Junior Drew Caccola who struck out 6 and allowed just one base hit. During that 5th inning five doubles were hit: George Fortmuller, Alan Ezagui, Stephen Morello, and Steven Tips in succession, followed later in the inning by Jim Maccaro. Maccaro, Morello, Ezagui and senior co-captain Mark Liguori each had 2 hits and two rbi's. The third game was against Wheatley. Behind pitcher Steve Morello, the Gulls won 5 - 1. Morello struck out 11 and hit a triple in the three run 7th inning. Mark Liguori leads the team with 5 hits and George Fortmuller ties him with 3 rbi's. Tom Perdue has been on base almost 70 percent of the time and is 4 for 4 in stolen bases.

The JV BASEBALL TEAM won its only game 1 - 0, on an outstanding pitching performance by Ira Bernstein. Jeff Lockman doubled home the only run of the game with a towering drive well over the centerfielder's head.

After four opening losses to non-league competition, the LACROSSE TEAM beat Cold Spring Harbor 11 - 3. Junior Jim DeSocio scored 4 goals in the romp, while Bob DeSimone scored 3 of his own and handed out 2 assists. During the first half, the Gulls offense was so strong that Cold Spring Harbor took only 2 shots on goal.

A petition containing 2,372 names of people opposed to the tank farm was submitted by the Greater Plainview Community Association. Others who spoke in opposition were Gabriel de Costerd, real estate expert; Everett Fowler, consulting

engineer; Rose Hilton, local realtor; Carol Fishman of GP-CA; Mr. P. Cooke, of the Washington Avenue Civic Assn., who presented a 3-page petition in opposition.

About a half-dozen people spoke in favor of the petition. One was George Hoffman, of the Oyster Bay Harbor Association, who approved the tank farm as a means of avoiding further spills in the harbor, and Bruce Slomin, of Slomin's Fuel Oil.

## Wheelchair Basketball

The Hofstra University Physical Fitness Center will be the site of an exciting wheelchair basketball game on Sunday, April 23 according to Nassau County Executive Ralph G. Caso. At 2:00 p.m. that day, the world champion Israeli wheelchair players take on a team comprised of Eastern Wheelchair Basketball Conference All-Stars.

The game is being sponsored by the United States Wheelchair Sports Fund in cooperation with

the Nassau County Department of Parks and Recreation and all funds raised through ticket sales will be used to help send a United States team to the World Paralympics to be held in Heidelberg, Germany in August. In his announcement Caso said, "we in Nassau County are proud to help sponsor this worthwhile event, and I hope our residents will support the efforts of the Wheelchair Sports Fund in their effort to help rehabilitate the

handicapped through sports."

Parks and Recreation Commissioner Richard A. Fitch called the event "another fine example of international cooperation we enjoy here in Nassau in the field of sports competition."

Tickets range in price from \$1.00 to \$3.50 and may be obtained by contacting Mrs. Lusbaugh at (516) 599-8300.

**Increases Annual Dividend Rate**

The Board of Directors of the Long Island Lighting Company increased the annual dividend rate on the common stock to \$1.42 per share. This is the fourteenth consecutive year that the dividend rate has been raised. It is currently estimated that, as in 1971, a substantial proportion of 1972 dividends will be non-taxable. The new quarterly dividend of 35¢ per share will be paid on May 1, 1972, to shareowners of record April 14, 1972. The Directors also declared the regular quarterly dividends of \$2.075 per share payable May 1, 1972 on the 8.30 per cent Series K preferred stock and \$1.4375 per share payable May 10, 1972 on the 5 1/4 per cent Series I convertible preferred stock. Both preferred dividends are payable to the shareowners of record at the close of business on April 14, 1972.

# Questions and Answers

**QUES:** I have been paying social security contributions for over 20 years and so has my wife. Since she can get a monthly benefit as a wife on my record when I retire, why does she also have to pay social security contributions?

**ANS:** Everyone who works at a job covered by social security must pay contributions. More important, however, your wife, as a worker, has social security protection in her own right. If she becomes severely disabled before reaching retirement age, she might qualify on her own earnings record for monthly disability checks. And, when she retires, she can get retirement benefits on her own earnings record even if you decide to keep on working. In most cases, her retirement benefit check would generally be more than the check she would receive as a dependent wife. If she should die while your children are young, they could get monthly survivors benefits on her earnings record.

**QUES:** I have medical insurance under Medicare. Can I send two different bills to the carrier for two entirely different services - general practitioner and radiologist - together on one Request for Payment form?

**ANS:** Yes

**QUES:** I have a small business of my own, and I have no plans to retire yet. My net earnings have been averaging around \$2,500 a year. Now that I am 62, can I get any benefits from social security?

**ANS:** You might be eligible for some retirement checks from social security. For a self-employed person, like yourself, it depends on your net earnings and the number of hours you put into your business in a month. Contact any social security office for complete information.

**QUES:** I've been offered a job as custodian of an apartment building. The pay includes both cash wages and a free apartment for myself. Will my employer and I have to pay social security contributions only on the cash wages?

**ANS:** No. Your employer must include the value of the apartment as part of your salary. The apartment is considered "wages in kind." Social security contributions must be paid on this as well as your cash wages.

**QUES:** My wife and I both get monthly social security retirement checks. However, we just bought a trailer and plan to spend the next 6 to 7 months traveling through the United States. Since we won't have a permanent address while we're traveling, what can we do about getting our checks?

**ANS:** You could make arrangements to have your checks mailed directly to your bank for deposit into your account. You can get the form you'll need to do this from any social security office.

**QUES:** I get monthly social security retirement checks. Because I earn a little over \$1,680 each year, I have to file an annual report of my earnings with social security. Since I will become 72 in July, will I have to file an annual report for 1972?

**ANS:** Yes. It's true that there is no limit on how much people 72 and over can earn without any reduction in their social security. But since you will not be 72 during some months of 1972 - January through June - you must file an annual report of your earnings for the entire year. No annual report will be required for 1973 and later years, however.

**QUES:** Next month I will be moving, but I'm not sure of the exact day. How late in the month can I notify social security of my

new address and still get my next check at my new home?

**ANS:** Generally, if you notify us by the 15th of the month, your check for the following month will be issued to your new address. And it's a good idea to notify your post office, too.

**QUES:** As a disabled Vietnam veteran, I get benefits from the Veterans Administration based on a 60 percent disability. Could I also get monthly social security checks on my disability?

**ANS:** We can't give you a definite answer without knowing more about your case because the social security disability program doesn't work the same way as the VA's. Social security pays benefits to insured workers who are severely disabled and apply for disability insurance benefits to get a decision on your particular case. The Mineola office is located at 1505 Kellum Place. Telephone number is 747-5470.

**QUES:** I recently started a new job. Since I lost my original social security card several years ago, I showed my employer a metal plate that has my number on it. But my employer wouldn't accept the plate and insisted I get a duplicate card. Why wouldn't he just use the number shown on the plate?

**ANS:** The number on your metal plate could be wrong. If your employer had accepted this number and it was wrong, your earnings would be reported under a wrong number. Then if you or members of your family needed to apply for benefits, there could be some delay or difficulty in getting credit for the earnings because they had been incorrectly reported.

**QUES:** My mother has Medicare and will soon be released from the hospital after a long illness. If I hire a neighbor to come into my home and care for her, will Medicare help pay?

**ANS:** No, this type service is not covered by Medicare. Under certain conditions, Medicare can pay for such home health services as part-time skilled nursing care and physical and speech therapy. But, these services must be furnished by a participating Home Health Agency, under a plan established and periodically reviewed by a physician. Contact the local social security office at 1505 Kellum Place, Mineola, NY 11501, telephone number 747-5470 for further details.

**Question:** Staying with my neighbors are two exchange students from Ghana and Finland. I would like to give a party for them. Where can I see the flags of each country? If Finland an "Iron Curtain" country?

**Answer:** The national flag of Ghana is a simple horizontal tricolor red over white over green, proportioned 3 by 2 with a black star on the center stripe - representing the lode star of African freedom. It is a member of the British Commonwealth of Nations.

The flag of Finland is white with an azure blue cross the upright of the center away from the flagstaff with the red and gold arms on the intersection of the cross.

Finland is not behind the Iron Curtain. It was part of the kingdom of Sweden from 1154 to 1809 when it was ceded to Russia. In 1917 it became an independent republic. In World War II Finland fought back invasion by the U.S.S.R. Its foreign policy is designed to convince its large neighbor that it will not be used as a base against the Soviet Union - so it does not belong to NATO but is active in the UN. Finland has always had extremely warm relations with the United States.

## Town Board Closes Glass And Can Collection Centers

The closing of the Town's three collection centers for recycling of glass and aluminum cans was approved by the Town Board today by a resolution that also authorized the expansion of the newspaper recycling program, Supervisor John W. Burke announced.

The Board took this action on the recommendation of David Mafici, Director of the Town's Division of Environmental Control, who noted that the glass and can project was not as effective as was originally expected. Some residents did not separate the glass by color as required and some dropped off all types of metal cans at the centers

although only all-aluminum ones were specified.

The glass and can collection centers that have been closed as of March 31 were located at the Old Bethpage incinerator site and the Town Highway Department

garages on Lake Avenue in Oyster Bay and Carman Mill Road in Massapequa.

Because of the success of the pilot newspaper recycling program, however, this will be expanded this week.

## On The Campus

Sprinter Steve Ward (Cuyahoga Falls, Oh.) and diver Peter Bernstein HICKSVILLE, will represent Grinnell College at the NCAA College Division swimming meet at Lexington, Va., this weekend.

Bernstein, a freshman, lost only once during the dual meet portion of the campaign and claimed the number two spot at the conference engagement.

Peter R. Hecht, a junior from HICKSVILLE, has been elected to Pi Delta Epsilon, national honorary collegiate journalism fraternity, at Bucknell University.

A 1969 graduate of Hicksville Senior High School, he is the son of Mr. and Mrs. Irarib Hecht, 35 Hemp Lane, HICKSVILLE. Peter has served as photography editor of L'Agenda, the school yearbook.

Bill Hamilton of HICKSVILLE, is a letterman at Bucknell University who is working very hard this year as a sprinter.

Also named to the Dean's List at the University of Hartford Conn., was Robert J. Schubert, 40 Acorn Lane, PLAINVIEW.

Gary Schoer, son of Mr. and Mrs. David Schoer, 9 Glenwood Road, PLAINVIEW, is among 239 students who have been named to the Dean's List at Colgate

University for the fall semester of the current academic year. Schoer, a 1968 graduate of Syosset High School, is concentrating in Urban Afro-American at Colgate.

Michelle Kiman, daughter of Mr. and Mrs. Irwin Kiman, 4 Ruey Place, PLAINVIEW, and a first-year student at Antioch College, will work at the Southern Mutual Help Association in Abbeville, La. during the spring-summer quarters.

Kiman will be involved in this new program which is attempting to augment the basic education of people who have not completed high school. As a member of a two man team, she will be providing field and mill workers with information about food stamp and welfare laws, and make it possible for their fair application.

The job meets part of Antioch's degree requirements in which students must regularly alternate periods of on-campus study with off-campus jobs.

A 1971 graduate of John F. Kennedy High School, Miss Kiman entered Antioch at the beginning of the summer quarter. During her first cooperative job period in the fall, she worked at the Center for Auto Safety in Washington, D.C.

Miss Kiman studied on campus in Yellow Springs during the winter. She will begin her work in Louisiana in early April.

During 1971, there were 41 school bus accidents resulting in injuries to 15 students and 11 motorists.
