Huge Tennis Building Meets No Opposition

By Janet Gosnell

There was a petition for a mammoth indoor tennis building for Hicksville up for public hearing before the Town Board in Oyster Bay on Tuesday, and no one spoke against it, although residents of a few nearby homes were present. There was a letter written to the Town in opposition and signed by 20 residents.

The application, by Four Brothers Properties, Inc. was for a change of zone from Residence E to Business G for most of a \$2,000 square foot parcel of land fronting 195 feet on Broadway just north of where Murray Road and Lee Avenue come into the road. Four Brothers is the contract vendee of the parcel.

Called for in the application are 13 indoor tennis courts to be housed in a building 35 feet high at the peak, and other buildings, including a two-story office building and clubhouse for administration of the courts; a retail "superette," which petitioner said would specialize in fine produce, flowers and candy, and what was described as a "fast food" operation.

No franchises had been found for the fast food operation, but connections had been made for the superette franchise, it was said.

Stewart Robbins, president of Four Brothers Properties, and attorney Ernest J. Belli, of Rockville Centre, were present to speak for the application. The property, which goes as deep as 700 feet from Broadway, is bounded by two strips of land, the one on the south vacant and owned by the Long Island Water Company, and that on the north by a Fred Kramer, who also owns the farm stand which fronts on Broadway adjacent to the subject property and two dwellings now on his strip.

The petitioners felt that these strips constituted a "buffer" zone from residences, and put their

buildings right up to the north and south property lines. This was questioned by the Town Board. Behind the subject property is more land owned by the L.I. Water Co., which then abuts the Long Island Rail Road property.

Inadequate Parking
Parking which was declared inadequate by the building department and "woefully" so by Councilman M. Halsted Christ, provides for 114 parking spaces, whereas the number required for such an application would be 476.

The building itself, as gauged by Councilman Warren Doolittle looks to be about 600 feet long. He said, considering most people play doubles, at least eight parking spaces should be provided per court, as one group finishes and the next group waits. Cost of playing, as estimated by tennis pro Chris Growald, of

the Roslyn Racquet Club, would be \$400. per hour for a 30 week season, or \$16.50 per individual hour. Athletic and civic groups and schools would lease the courts at a lesser rate.

Too Shy
We spoke to Mrs. Harry Walker, of 53 Lawnview Ave. after the hearing had been closed and decision reserved by the Town Board. "What do we know about public speaking," she said; "We're housewives." She did say she was vehemently against it, however, and another resident, also too reticent to address the board on the petition, said, "We'll get someone to speak for us, you'll see."

Midhampton Re-applies
No one was present, apparently, to speak against the

Wizard Number Application

Avis today announced the expansion of its Wizard of Avis Number reservation service to include more than 1,800 cities in over 100 countries.

The Wizard Number service provides each customer with a personal identification number that is the key to all his personal pertinent rental data stored in the Wizard computer system.

Whenever the car renter calls in the United States for a foreign reservation, he can expect to have his rental agreement filled out at the foreign location, with his rental information sent to the foreign location from the Wizard of Avis located in Garden City, New York.

At the foreign rental location, the Wizard Number holder merely supplies a minimum of information including verification of his driver's license and credit, signs the contract and is on his way.

LEE AVENUE PTA'S FIRST ANNUAL SQUARE DANCE A

SMASHING SUCCESS: Lee Avenue School's all purpose room was transformed into a gala old western scene for the Father Daughter square dance held November 21st. Over 250 fathers and daughters participated in traditional square dances and we saw many grandfathers promenading their granddaughters around the room. Mr. Louis Penque, Assistant Principal at Lee, was the big, bad sheriff that night, arresting scores of little girls and incarcerating them in his beribboned jailhouse. Fines of up to 1 cent were paid by dads anxious to liberate their daughters from behind prison walls. Refreshments were served during lulls in the dancing and a grand time was had by all. The boys at Lee Avenue and their mothers are looking forward to their special night later this winter. Photographs by Miss Dee Stefanelli

WHAT TO DO IF YOU RECEIVE A MALICIOUS OR ANNOYING CALL.

Just hang up immediately. In most instances that's enough to stop the caller from calling again. Too often, though, people unwittingly encourage the caller by talking back. You can't argue with a sick mind, so don't try.

If hanging up quickly doesn't work, don't panic. You're still not helpless. Call our business office. You'll find the number in the front of your telephone directory.

In persistent cases, our Annoyance Call Bureau takes over to try and trap the offender.

Working with the police, our bureau has been responsible for 844

arrests. And offenders have learned that a 10 cent phone call can cost them as much as \$1,000 and a year in prison under state law.

We know being on the receiving end of any obscene phone call is an upsetting experience.

But if you know how to handle it, it can turn out alright.

New York Telephone is in business to give you service. And part of our obligation is to see to it that no one abuses that service.

Because we know...

You judge us every time you use the phone.

Attention Clock Lovers ...

BY EDNA HEYMEN

"But it stopped, short, never to go again when the old man died." George Kher, 3rd generation master clockmaker, had never heard the folksong "My Grandfather's Clock" but said he had often heard tales of how old clocks stopped when their owners died. "That is because people become attached to their beautiful old clocks which have personalities and souls of their own", said George.

In his fascinating new shop Clockcraft on South Broadway, Hicksville I saw a variety of old antique clocks, one from Thailand with magnificent deep wood carvings. I heard chimes that had the sound of huge but delicate church bells and learned that the most popular and familiar chime is the Westminster, taken from the 5th bar of Handel's "Messiah".

Just meeting George and his older brother Antoine, brings one into the old world of patience, perfection and pride in ones work. Born and raised in Evians, France, they learned their trade well from their father Joseph who

had learned the art of clock-making from his father Jean.

George Kher is a man who loves his work. He finds old clocks to be like old friends. He also finds them to be better than tranquilizers. "When you cannot sleep in the middle of the night

or den, just listen to the soft, slow tick-tock of a clock and you soon find you are drowsy again, ready to sleep. Quite different from the irritating fast tick-tock of our more modern wind-up alarm clocks".

Dear Friends

WE MUST APOLOGIZE to Michael Krummenacker of Hicksville for inadvertently omitting his name from the list of those who helped prepare the delicious dinner which was served at St. Ignatius for the CYO recently. It is true that the mothers helped with the preparation and setting up of this dinner, as we reported, but Michael, with a little help from one friend, prepared 1400 meatballs and 33 gallons of sauce! He certainly deserves a great deal of credit for this fine volunteer effort, and we are sure that he did receive a great big "thank you" from this organization. We didn't hear about Michael's contribution until a few days ago. So, we report it to you now. Michael, who is 22 years old, lives on Sterling Place in Hicksville. He is the son of Mrs. Alma Krummenacker. Nice work, Mike!

JUST A REMINDER, of two important events...on Dec. 10, this Sunday, our Fire Dept. in Hicksville is having its annual "Open House", the details of which you can read about on page 7...and the Fire Dept. elections are held in each community on Dec. 12...don't forget to cast your vote...

HARRIED SHOPPERS will be pleased to know that, even as we go to press, the new traffic lights at West John St. and the entrance to Mid Island Plaza are being installed....

TO ALL OUR FRIENDS at Holy Family, Our Lady of Mercy, and other churches and synagogues... in answer to a question that we know is occasionally raised, the reason that St. Ignatius gets news in so frequently is simple... someone from St. Ignatius sends in this news with great regularity. We are very happy to have someone covering this news so well and would be more than delighted to receive as much news from all our local groups who are doing so much to help make our town a better place in which to live. So, if your groups would like coverage... send in the news to THE HERALD... we'll do the rest. Also, if you have a volunteer who needs assistance to get started, phone me at WE 1-1400 and set up a date. I'll be glad to give you the necessary information to get started in the job of volunteer publicity chairman. It's very important. Let's hear from you.

HERE'S HOPING THAT you are all enjoying your Christmas shopping and holiday preparations at this joyful time of the year.

Sincerely,
SHEILA NOETH

LETTERS TO THE EDITOR

Dear Editor,

It seems that Mrs. Rene Novak, whose letter appeared on November 30, is either badly misinformed, or is attempting to deceive the public. At the time at which she wrote, most people were aware that, contrary to her implication, foreign language was not being taught in the first grade. Regardless of her position on this issue, she certainly also should have known that timely School Board action was necessary since the School Administration had taken upon itself, to change the program without proper authorization.

It was with real regret that I read her reference to a "Huge decision," clearly, the board did not treat it as such. One would think that a decision of such magnitude would call for some study of the program; no such study has been revealed. Yes, Mrs. Novak, the people of Hicksville are AWARE; they are becoming more and more aware of what is happening to our schools.

Finally, I sincerely hope Mrs. Novak does not really mean what she says when she suggests that citizens should be "forbidden to interfere" with the board. Mrs. Novak what you call "interference" is truly the lifeblood of democracy; no one person or group, not even the School Board, has a monopoly on truth. The freedom to speak, to criticize; yes, to "pressure" for change, is ingrained in the American way of life, and I for one am thankful that people like Mrs. Novak cannot change that.

Sincerely yours,

BUT AVOID THE CLIFF

PUBLIC INTEREST MUST COME FIRST

There were ten times as many strikes by government workers in 1970 as there were ten years earlier, evidence of "increasing militancy of unionized workers in Federal, state and local governments," according to a recent study of the Tax Foundation, Inc.

Our constitutional form of government entrusts to the legislatures as duly elected representative bodies, the sole right and responsibility to raise and appropriate revenues for all government services. Any attempt to negate this right, other than by vote or petition should be rejected.

While all heads of government i.e. Federal, state and local, should be free to decide whether or not to recognize labor organizations representing their employees and to meet and confer with these representatives on wages, hours and working conditions, the final resolution involving economic matters which have a direct impact on government revenues should remain with the duly elected representatives of the people.

A strike against the government is a strike against the people and should not be tolerated, any more than a governmental body should be allowed to lock out a governmental employee. The Tax Foundation answer to this growing problem should be heeded by all public officials who supervise other employees: government agencies should make their own demands and adopt rules of work to improve efficiency. In other words, government should be both tough and fair in its role as employer. As the study says: "...to throw public money away through ineptitude or indifference makes no sense at all."

By Shirley Smith

Last week's school board meeting started with a boom! Within the first five minutes the board voted 4-2 (Mr. Bruno had not yet arrived) to accept Dr. Jerome Niosi's recommendation to start foreign language at the fourth, rather than first, grade, effective the second semester of the 1972-73 school year. Frank Zindulka's motion met with strong opposition from Neil McCormack, who said the public should be heard before the board reached a decision. He asked for opinions from Dr. John Cadden, Assistant Superintendent, and Mrs. Vera Galante, Foreign Language Supervisor. Mr. McCormack reminded the board that the public has approved money for foreign language in the current school budget.

Both Mr. McCormack and Mr. Pirrung challenged the agenda order (placing unfinished business from the previous meeting first). They said this was not the order required by board policy. But all arguments were in vain. Another motion by Mr. Zindulka to move the question passed 4-2 (yes: Zindulka, Bello, Pappas and Clark; no: McCormack and Pirrung). The following board members then voted in favor of doing away with foreign language in the first grade: Zindulka, Bello, Pappas and Clark. Messrs. McCormack and Pirrung voted against the superintendent's recommendation.

During the debate (which could not be called that in the strict interpretation—debate is defined as: "to dispute; discuss or examine a question by considering arguments on both sides"), board president, Thomas Clark, alternated between cutting off Mr. McCormack's questions and trying to silence the crowd of 400 Hicksville residents and teachers. His attempts to control Mr. McCormack were somewhat more successful than those used to quiet the shouting throng. Cries of "railroading" and obscenities—many of which could not be printed, even in a foreign language—resounded throughout the High School Auditorium. Many people claimed they had been lied to; others clamored for Mrs. Galante to speak; still others sat in dismay and disgust (brought on by the actions of the school board and the behavior of the audience.)

When the melee had subsided to a rumbling (which continued throughout most of the evening), the board proceeded with the remainder of unfinished business from the previous meeting. The board approved the replacement of typewriters for office use at Burns Avenue and electric typewriters for instructional use at the High School. Mr. Clark abstained on both motions and Mr. Pappas voted against the second motion.

There was more controversy over a request to loan films and filmstrips to parochial schools in

the district. Harry Goebel, school attorney, interpreted the textbook law (which allows the district to provide books for seventh to twelfth grade students in non-public schools) to extend to instructional material such as films, etc. Mr. Pirrung cited a letter from an attorney with the State Education Department, which stated that films can not be loaned to non-public schools. Mr. Clark said the loan could be to an individual taxpayer and commented that anyone could institute a lawsuit against the school board if he disagreed. The board then voted to loan the audio-visual instructional material to parochial schools. Voting yes: Zindulka, Bello, Pappas and Clark. Voting no: McCormack, Bruno (he had come in during the discussion of this item) and Pirrung.

Upon Mr. Bruno's arrival, immediate conflict broke out between him and Mr. Clark. When Mr. Bruno questioned the legality of the agenda order, Mr. Clark ruled him out of order and tried to proceed with the meeting. The public disagreed and Mr. Bruno persisted until a ruling from the attorney was requested. Mr. Goebel said that according to Robert's Rules of Order, unfinished business comes first on an agenda, but the board is obligated to follow its policy book until the policy is changed or modified or a majority of the board votes otherwise. A vote was taken on the acceptance of the agenda—yes: Zindulka, Bello, Pappas and Clark; no: McCormack, Bruno and Pirrung.

With the acceptance of the agenda, the meeting began a new and those present were treated to an instant replay of Excedrin Headache No. 429. Trustees Bruno and McCormack tried to ask questions, Mr. Clark refused to allow discussion, the public proclaimed its disapproval, Mr. Zindulka moved the question and "debate" ended. And again foreign language was removed from the first grade. This time Mr. Bruno's vote was included, with McCormack's and Pirrung's, against the motion. Mr. McCormack moved that the board allow Dr. Cadden, Mrs. Galante and the public to speak, but it was defeated by the same 4-3 margin.

The other business previously handled was quickly dispatched and the board of education moved on to a public hearing on the proposed code of rules and regulations and maintenance of public order on school property and a resolution to increase Senior Citizen property tax exemption from \$5000 to \$6000. No other items were allowed to be discussed.

Several people in the audience asked questions or made comments about both items before the board voted approval. However, in his zeal to expedite the business of the evening, Mr. Clark rushed through the voting so that Messrs. McCormack,

Bello and Pirrung didn't get an opportunity to cast an "aye" or "nay" on the code and Mr. Bruno was passed over on the Senior Citizen tax exemption. During this discussion and voting, there was a great deal of haranguing and confusion, so it is difficult to explain why some votes were not cast.

The school board approved the replacement of addressograph equipment and a recommendation for tenure. Messrs. Clark and Zindulka abstained on the latter vote. A request for transfer was turned down, with Pappas and Zindulka abstaining. This transfer was turned down in connection with the hiring of a controversial teacher which had been tabled at the last meeting. By denying the transfer request the board did not vacate a position for the person in question, and therefore turned down the recommendation to hire.

The board approved Strand II (drugs, alcohol, smoking) of the Health Curriculum at the Junior High, omitting the listed films.

The board approved various bills for routine expenses of the district and awarded bids for equipment and supplies. The board also approved language arts textbooks new to the district, allocated ESEA Title II funds for purchase of library books and A-V materials, and granted a building request to the Gregory Art Museum for their Second Annual Gem Show. The museum is responsible for all expenses over \$500.

The board of education discussed an improvement of the format of the agenda. Mr. McCormack commented that only one public session, at the end, was scheduled. He felt there should be two at each meeting. To this reporter's knowledge, no definite action was taken.

The meeting ended at midnight, before the scheduled public session, when Mr. Bello voted not to continue. The next board meeting (the only one in December) is Monday, December 18 at 8 P.M. in the Administration Building.

From Our Postmaster

RALPH CASCARDO

Beary eyes are expected for Christmas by Hicksville's postal employees, if our handwriting doesn't improve. Postmaster Ralph G. Cascardo warned today.

Illegible handwriting is one of the biggest problems confronted by postal employees.

At Christmastime, when mail volumes surge, the problem is compounded.

The use of ZIP Codes is a help because if the city and state are unreadable the ZIP Code will direct the mail to the correct post office. Clerks in that post office, being more familiar with local residents, may be able to figure out the person to whom the mail should be delivered.

Poor packaging and illegible or incorrect addressing account for about half a million undelivered

parcels each year, the Postmaster said.

"When a person has taken the time to purchase a card, envelope and postage, or a gift, it is unfortunate if the mail can't be delivered," he said.

All parcels should be addressed on only one side and should have the address, with ZIP Code, written somewhere on the inside of the package in case the exterior wrapping should come off.

Postmaster Cascardo requested continued use of ZIP Codes in all addresses.

This is the best time of the year to up-date your ZIP Code lists, Postmaster Cascardo said. Just check the return addresses of your incoming mail and put the proper codes in your address books.

Dutch Lane PTA

The Dutch Lane PTA is sponsoring its annual Holiday Boutique on Saturday December 9th between 10:00 a.m. and 3:00 p.m.

There will be a large and varied assortment of gifts and decorations for the holidays.

There are many hand made articles that will make excellent gifts for all those "hard to shop for" people on your lists, and the toys and novelties are sure to please all the children. To give your home a festive look for the holiday season, we have many beautiful decorations and ornaments from which to choose. There will also be a bake sale,

including delicious Christmas cookies. The prices are very reasonable, enabling the children to do all their holiday shopping. There will also be raffles with many wonderful prizes for the lucky winners.

Refreshments will be available throughout the day. Come and have your lunch with us and beat the crowd.

"So remember the date December 9th at Dutch Lane School, Stewart Ave. Hicksville. Where all the smart people will be doing their holiday shopping. See You there," said a spokesman.

home of The Gregory Museum. Mr. Specht's excellent guidance enabled 20 temperature rise detectors and one smoke detector to be installed and wired to a central control box located in the hallway.

At some future time it is hoped that the fire alarm system will be tied into the central headquarters of the Hicksville Fire Department, funds at the present time are not available for this purpose.

Children's Room

The Children's Room at the Library is ready for the Holidays with gay decorations, a Santa Claus scene, and a good selection of Christmas and Hanukkah books for all of Hicksville's girls and boys.

There are lively programs in store, too!

Do you have a dog? Then you'll want to come to our DOG TRAINING program on Saturday, Dec. 16 at 2 o'clock. You'll see a real live dog being taught obedience and good manners - and you can ask questions and get advice for your dog problems. The demonstration will last about 90 minutes.

After that, a visit from Santa Claus! He'll be here, with a small gift for everyone!

And on Wednesday, Dec. 20 at 3:30, the Library presents the enchanting full-length film "NUTCRACKER SUITE" - a pleasure for all ages.

Admission is free. Come join us here in the auditorium of the Hicksville Library.

Plans Construction Of New College Campus

The Board of Trustees of the
State University of New York has
approved Nassau County's plan
to commence construction of a
new \$115 million community
college campus on 225 acres in
the northeast portion of Mitchel
Field, County Executive Ralph
G. Caso disclosed today.

college campus that equals the
excellence of its education, its
teachers and its students."

Caso said the trustees have
given the go-ahead for the State
Dormitory Authority to construct
Phases I and II of the five-year
phased development plan.

The county executive, ad-
dressing the 2,900 members of the
community college's 12th
graduating class last June, an-
nounced that the county was
asking the State Dormitory
Authority to build the new
campus. He noted that the
present campus buildings,
erected as temporary structures
during World War II, do not
present the best learning at-
mosphere for the 20,000 men and
women enrolled in classes.

Phase I funds — \$2.5 million for
a physical plant building to serve
as maintenance headquarters
and a warehouse and storage
area — have already been
authorized by the state
legislature. Construction is
scheduled to start this year.

Caso said the Dormitory
Authority has the proven ex-
pertise in campus constructin
and will work closely with the
county as construction
progresses.

The trustees have requested
that \$36 million for Phase II
construction be included in the
state's 1973-74 construction
budget. Phase II calls for two
three-story classroom wings
containing 85 classrooms and 66
lab rooms and a college library
building.

The construction plan, in seven
stages over a period of five years,
calls for three educational wings,
a library, a physical education
facility, athletic fields, an ad-
ministration building, a student
center, a media center, a theater
and surface and multi-level
parking to accommodate several
thousand cars.

"We are elated not only by the
fact that our phased development
plan for a permanent campus has
been approved in its entirety, but
that the trustees have agreed to
move quickly to implement
construction," Caso stated. "We
are on our way toward building a

The campus would be financed
by a 30-year State Dormitory
Authority bond issue with the
county paying half the debt
service.

A Gift To Grow On

Traditionally, we place an
extra candle on a child's birthday
cake — one for each year, and one
"to grow on." As Christmas
nears, with its intrinsic tradition
of helping the needy, CARE asks
us to remember the world's
hungry children, whose birthday
prospects are reflected in these
grim statistics:

keep them alive but to build
healthy bodies and sound minds,
so they may grow into productive
adults. Linked with CARE self-
help and medical aid, the food
gifts develop future self-
sufficiency in 34 countries from
Latin America to Africa, Asia
and the Middle East.

In the emerging nations,
children under five form 20 per
cent of the population but re-
present over 60 per cent of the
deaths, with malnutrition the
biggest killer. Of those who
survive, more than half will be
retarded physically or mentally
because of malnutrition.

Because host governments
share operating costs and the
U.S. donates farm abundance,
our dollars are multiplied. For
example: \$5 gives 1,500
youngsters a protein-rich bowl of
porridge; \$10 serves a full
lunch to 900 children; \$25 helps
feed 25 pupils for 3 months. From
India, a schoolboy wrote: "To the
American People... Our soul
thanks you." His words will echo
in the hearts of millions of
children, and their parents, if you
send your contribution check to:
CARE Food Crusade Fund, 660
First Ave., New York, N.Y.
10016.

To prevent such tragedies, the
holiday-season CARE Food
Crusade appeal seeks \$7,500,000
to help feed 20 million people,
nearly all children, during the
coming year. At baby and
preschool centers, schools and
other sites, the young will be

That Makes It Three In A Row

HIT, HIT, HIT, HIT! Once again the stage was set for the cross town rivalry. Was it the Jets and Giants, Army and Navy, Michigan and Notre Dame? No, it was none of these, it was even bigger, it was the St. Ignatius Yellow Jackets against Holy Family in the Championship of the "A" Division of the LONG ISLAND CATHOLIC GRAMMAR SCHOOL FOOTBALL LEAGUE. Whenever these two teams meet all the previous games and scores can be thrown out the window, and this game would prove to be no exception.

The first half was a defensive stalemate and ended in a 0-0 tie. The third quarter opened with Holy Family recovering a St. Ignatius fumble off of a reverse play on the kickoff. Four plays later the Yellow Jackets defense gained 10 yards and turned the ball over to the offense. Both defenses did an excellent job of taking away from their opponents offenses what they did best. The Yellow Jackets contained John McAlwee off tackle and sweep plays all afternoon, while Holy Family covered Mike Kelly like a big net on his pass patterns. With only one quarter left the Yellow Jackets finally settled the outcome of this championship game. Mike Kelly ran deep left from his right flanker position drawing his double coverage with him. Billy Stepkowski ran deep right from his right tightend position and both backs, Sean Casey and John Poggioli ran out in the right flat thereby flooding the right zone of Holy Family's defense. Quarterback Billy Tragowski faking to both backs, going through the middle of the line and freeing Holy Family's linebackers, rolled to the right and completed a 30 yard touchdown pass to Billy Stepkowski for the only score of the day. It took several minutes to clear the end zone of jubilant players and parents who were congratulating Billy Stepkowski.

The defense, with this 6 point lead just had to hold, which they did, to assure victory for the Yellow Jackets. At the completion of the game both teams lined up on the 50 yard line single

file and congratulated each other on a contest well competed.

The Yellow Jackets had to settle their own Eastern Division Contest before they played in the Championship. This they did on Thanksgiving morning by defeating Our Lady of Lourdes 18-0. With 30 seconds left in the first half Sean Casey intercepted an O.L.L. pass on the 35 yard line and ran it in for a touchdown. In the second half Billy Targowski hooked up with Mike Kelly for two deep touchdown passes that put the contest out of reach.

The Yellow Jackets put an excellent season together, with seven wins, no losses and two 0-0 ties. While the offense put 140 points on the scoreboard, the remarkable defense allowed only six points to be scored on it all season. This also was the third year in a row that the defense led the league in allowing the least amount of points to be scored upon it. The more astonishing part of this amazing team was that they were the first team in the history of the L.I.C.G.S.F.L. to win three consecutive championships in different age divisions. While moving up from the 11 year old "C" division, the 12 year old "B" division and finally the 13 year old "A" division they successfully won the Triple Crown. In three years of playing as a team they won 22 games, lost one, in "C" Division, and tied 5 times. Their offense scored 450 points and their defense allowed only 58 points in three years of football.

The defensive line which was the strong point of the ball club, all year had Artie Caddigan, Robert Simonello, Mike Valle, Joey Biscica and Peter Korb covering the middle from tackle to tackle. Joey Smith and John Poggioli, who was a standout at his position for three years, were the ends. The linebackers who were both agile and sure tacklers were Sean Casey, Scott Cronin and Billy Stepkowski. The safeties who were also sure tacklers and swift afoot were Kevin Lorentsen, Mike Kelly and Martin Costello.

The offensive line which really shined on its pass blocking

assignments consisted of John Bardenhagen, Kevin Hanifan, Joey Smith, Martin Costello, Kevin Lorentsen, John Allen, Timmy Looney, Timmy McDonold and James McCormick. The ends and flankers Bill Stepkowski, Clint Bergin, Jim Mahoney, Mike Sager, Scott Cronin, Eugene Larkin and Mike Kelly who had a big year on the receiving end of the pigskin. The backfield, with Billy

Targowski at quarterback, with a strong arm, John Poggioli, and excellent blocking and running back and Sean Casey, a strong blocking and running back accounted for half of the teams touchdowns.

The coaching again was handled by Bill Casey, John Bardenhagen and Jim Mahoney. Once more the cheerleading and crowd participation lent the needed ingredient for a winning

season. Our congratulations and thanks go to all concerned for a job well done.

Facts on Mobile Homes

Mobile homes occupied year-round in New York State have increased by 113 percent since the last U.S. Census, according to the latest in a series of "Facts on Mobile Homes" available from the State Office of Planning Services. The number jumped from 31,188 units in 1960 to 66,523 in 1970.

The 8-page report summarizes the 1970 Census data on mobile homes for all counties, towns, villages and cities (except New York City) in the state. More than half of the "fact sheet" is given over to a tabular listing of the number of units used as permanent housing in the minor civil divisions, by county. Comparisons of the 1960 and 1970 totals and percentage change are made, and two outline maps show the distribution patterns of mobile homes in the state.

CLARKSON STUDENTS RAISE \$500 FOR UNITED FUND - Over 1,000 students attended a recent party at the Lewis House student union at Clarkson College of Technology and donated a total of \$505 to the St. Lawrence County United Fund. Above, Ted Jaguszyn, social chairman of the Clarkson College Union Board, makes the donation entry on the United Fund chart located in

front of Lewis House. Left is Quentin Reutershan, the 1972 St. Lawrence County campaign chairman and vice-president of the county United Fund. Mr. Reutershan, a Potsdam architect, accepted the check for the United Fund. Jaguszyn is a senior industrial management major at Clarkson and is a native of Hicksville.

Lent, Business And Labor Promise "Axtion For A-10"

Newly re-elected Congressman Norman Lent joined with over 120 representatives of Long Island's business and labor communities last week for the organizational meeting of the Long Island Association's "AXtion for the A-10" Committee (at Carl Hoppl's Westbury Manor).

Republic Division General Manager Donald Strait, Congressman Norman Lent and "AXtion for the A-10" Committee co-Chairman Kevin Murphy study a model of the Long Island entry in the government's current AX-10 Competition.

The Committee's efforts will be aimed at encouraging government acceptance of Fairchild Republic's entry in current competition for a new close ground support attack aircraft, for which a prime contract in excess of \$1 Billion will be awarded in January. Should Republic here on Long Island be successful, the award would mean a minimum of 4,500 new jobs at their Farmingdale plant, and "ripple-effect" jobs for an additional 9-10,000 Long Islanders in support, sub-contractor and service businesses all over our area.

Particularly in light of Grumman's recent loss of the prime Space Shuttle contract to a California

firm, the AXtion Committee will be attempting to prevent the loss of yet another major contract to California firms, through a massive letter-writing campaign and active "lobbying" in Washington by representatives of the Long Island business and labor community, as well as its Congressional Representatives.

At the meeting, Congressman Lent, Republic General Manager Donald Strait

and AXtion co-Chairman Kevin Murphy urged all Long Islanders to involve themselves in the effort, through writing President Nixon and Air Force Secretary Robert Seamans to encourage their acceptance of Fairchild Republic's entry in the A-10 competition. Announcement of the contract award, to either Republic or Northrop Aviation of California, will be made on January 19th by Seamans.

The American Legion V.A. Clinic

The Hicksville Satellite Clinic, sponsored by the Charles Wagner Post No. 421 for the convenience of the out patients of Northport Hospital residing in Nassau County, has reached the first six months of successful operation. The Clinic is open Monday, Wednesday and Friday to all veterans.

On June 7th, our first clients were welcomed by a host of volunteers several nurses, a doctor and an administrative specialist from the V.A. at Northport.

As the clients arrived they were registered. Then they were served coffee and crullers by the Post Auxiliary. The Auxiliary, assisted by volunteers from Bethpage, Plainview and

Westbury Posts, plays cards, dominoes, and checkers with the clients and help them put picture puzzles together, while waiting their turn to be interviewed by the doctor.

In the past six months the Clinic operated a total of 74 days, 1,553 clients came to the clinic and the volunteers rolled up a score of 1,866 hours.

If we have helped one client to help himself back to health and happiness, then this clinic is a success, and any success along these lines must be attributed to the professional staff for the tremendous changes they have brought about and to the Post Auxiliary and volunteers for the dedicated hours they have put in at the clinic and elsewhere.

The volunteers are instructed in arts and crafts by a recreational therapist and in turn teach these crafts to the clients. In addition there are daily and weekly trips to bowling alleys, beaches, parks and historic places. Occasionally we serve 40 clients in a large group setting.

Every third Wednesday the Post sponsors a luncheon for the clients, prepared and served by the auxiliary and volunteers. An additional "International Luncheon", including "Bagels and Lox," was given by the wives of the clients. Several volunteers pick up clients from adult homes and bring them to the luncheons.

Recently, the V.A. photographers came to our clinic and recorded every phase and activity of the staff and volunteers. The photos are being viewed by the hospital director at Northport and will be sent to the central office in Washington.

Holiday greetings and a hopeful New Year, from all the clients, the professional staff, all the volunteers Lou Costa the chairman and Jim Carter co-chairman.

And please, say a prayer, that all of prisoners of war will be reunited with their loved ones, real soon.

Legislative Dinner December 12

Nassau village officials will discuss their legislative proposals with the county's legislative delegation on Tuesday, December 12.

The occasion will be the eighth annual Meet Your Legislator Night of the Nassau County Village Officials Association to be held at the Brookline Country Club, Upper Brookville. The dinner meeting will begin at 8 p.m.

Mayor Gerard Connors of the Village of New Hyde Park and president of the Association said that "this meeting with the legislators is important because of the essential role revenue sharing will have in village budgets and tax rates." He said that other proposed legislative matters will be discussed with Nassau's legislative delegation.

revenue-sharing, zoning powers," Mayor Connors stated. "We particularly want to get the thinking of the legislators on possible legislation affecting villages that might be considered in the new legislature."

The other officers of the Nassau County Village Officials Association are Mayor George Pidot of Matinecock, first vice president; Mayor Frank Becker of Lynbrook, second vice president; Clifford N. Williams, former mayor of Mineola, secretary-treasurer and F. Lansing Hunter, Westbury Village trustee, legislative representative.

Hicksville. Guest of Honor George Harkin served as Division President in 1971 and has been a dynamic worker for this vibrant fraternal organization for many years. Jim Cummings, who was appointed General Dance Chairman by Vice-President Connolly, announced that Andy Kerrigan and his Orchestra will provide the Irish and American dance music for this festive occasion.

President-elect Vincent Jones announced that an Executive meeting of the new Officers of the Division will be held later this month.
Interested in joining this active fraternal organization? Please drop a note with name, address and phone number to Vincent Jones, P.O. Box 644, Hicksville, N.Y. If you're Irish this is the place for you!

Clean Up - Don't Burn Up

By CAPT. OWEN MAGEE

Fires in the home rarely are an act of God and usually are preventable. They start from some source of energy—a burning cigarette or perhaps a short circuit in an electrical appliance or wiring.

Recently in the Newspaper it was reported that a young child found some matches and started a fire in the living room. The child's mother considered it an act of God because the child did not know what he was doing. "True, but where did he find the matches?" The reporter asked. "On the coffee table", she said.

Rexford Wilson writing in Family Safety likens the interior of a home to a fireplace. Toss a lighted match into a fireplace with 3 large logs and nothing else on the andirons and the match goes out. Conversely fill the fireplace with crumpled paper, excelsior, or cardboard and throw in the match, and in less than a minute a wall of flame exists.

My point is clean, orderly homes with little paper or clutter have little tinder to catch on fire. In contrast a fire in homes with stored excesses of cardboard boxes, plywood paneling and low density fiberboard ceilings could go from match size to room size in no time. The less material to burn, the slower the fire spreads which gives more time to escape and / or douse the blaze.

When buying electrical appliances such as fixtures, extension cords, Christmas lights the safest type to buy bear the UL underwriters laboratories seal of approval.

Reliable fire detectors are available for home use. They are especially useful at night because the sensitive apparatus will detect a fire long before an individual is awakened by smoke or flames. What we need now is a device that will awaken a person who falls asleep with a cigarette in his mouth or fingers.

Play it safe this holiday season clean up, don't overload electrical circuits, be sure to inspect your lights, keep your tree fresh.

 application of Midhampton Asphalt Co., Inc., a division of Lizza Industries of Roslyn, for a ten-year renewal of its special permit use granted in June, 1971 to maintain a portable asphalt plant in Hicksville 750 feet east of Charlotte Street and 139 feet north of Duffy's Lane.
 "We've been a good neighbor," said attorney Edward Robinson III, of Oyster Bay, attorney for the applicant, who also noted that there were very few houses nearby. John Boyle, plant manager, was also present to speak for the application.

Mr. Robinson, in his presentation, described a new sound suppressor, just invented this year, which will be installed at

Midhampton Asphalt Co., Inc. in the near future.
 At the time Midhampton was granted its special use permit, 18 restrictions on its operation were placed on the approval of the permit by the Town Board. These restrictions still pertain, and would continue to pertain with a renewal of the application.
