Beginning with orientation ceremonies, they continued to sub-committee meetings, Security Council, the Economic and Social Commission, and the General Assembly. A banquet, a dance, and closing ceremonies completed the activities. At the closing ceremonies, the students' hard work was acknowledged by awards. Julie Polifka and Dana Title, of Plainview-Old Bethpage High School, working on the

Establish John Greene Awards

High school seniors in Queens, Nassau and Suffolk counties who wrote columns or editorials for their school newspaper are eligible for a \$250 award to be presented at June graduation time.

April 15 is the deadline for submitting samples for consideration for the newly-established John M. Greene Award, named in honor of the veteran Long Island Press columnist and Albany bureau chief who died last summer.

The award, a \$250 prize to be presented annually at June commencement time, has been set up by Theodore M. Black of Sands Point, book publisher, member of the State Board of Regents and a long-time personal friend of John Greene.

The Award is open to all high school seniors in Queens, Nassau and Suffolk. Each may submit two columns or two editorials, either written as school paper staff members or submitted to the paper and published.

To be eligible, the column or editorial must have been published in the entrant's school paper between the beginning of this school year, September 1973, and the entry deadline, April 15.

With his vast knowledge of local and state government, his

political expertise built on years of personal acquaintance with the lowly and mighty, John M. Greene was an institution. His personal column was one of the most widely read and widely quoted from Mineola to Albany.

Now, happily, his memory will be perpetuated in a way he would have liked — through an annual John M. Greene Award for the best column of commentary or editorial written by a Long Island high school senior for a school newspaper.

While Greene specialized in political and governmental affairs in his personal column, "In Review," column entries can be on any subject — sports, theatre, etc. The columns must be personal commentaries "in the John Greene tradition." If the editorial entries are unsigned, they should be accompanied by a statement from the paper's faculty advisor certifying that they were written by the entrant.

The panel of judges include Mr. Black; Long Island Press editor David Starr; Press columnist Walter Kaner; New York News writer Gene Spagnolo, and RB E. Hurst, columnist and editor for The Mail Public News, weekly newspaper chain published in the Manhattan-Port Washington area.

At Supervisor's Meeting:

"Solve National Problems Quickly" Board Says

By Janet Gosnell

The crowd that was expected at Monday's meeting of the Nassau County Board of Supervisors showed up, filling the room nearly three-quarters full to hear and speak about the processes whereby a President might be impeached.

The occasion was the offering of a resolution by Supervisor Hannah Komanoff of Long Beach in response to demands of two weeks previous of members of the Nassau County Democratic Committee to recommend impeachment. Contrary to these demands, the resolution does not ask for the impeachment of the President, but merely "memorializes the House Judiciary Committee" to finish its work with dispatch and get the entire matter out on the floor of the House of Representatives for action by Congress.

Controversy arose over the offering of the resolution when Hempstead Supervisor Alfonso D'Amato moved to strike it. His motion was defeated with all but his vote coming in "nay." The Supervisors then, after hearing speakers and themselves offering their comments, voted to approve the resolution, with only Supervisor D'Amato voting "nay."

D'Amato explained that although he was in favor of the spirit of the resolution, he did not believe it was in the purview of the Nassau County Board of Supervisors, and that it would set a precedent for future resolutions which are not in their bailiwick to decide. It is D'Amato's belief that all citizens should write to their legislators urging speedy action on the part of the House Judiciary Committee, and he read a letter from himself to his own Congressman to this effect.

"Resolved, it's Monday" Nevertheless, the Supervisors as a group did not agree with him and independently, regardless of party line, approved the resolution.

"Before anyone speaks," said Mrs. Komanoff in offering the resolution, "I hope no one will

take this as a political issue. I know it has been the feeling of many Democrats to let the Republicans 'stew in the juices of Watergate.' That is not the purpose of this resolution."

Said Supervisor John Burke, before his positive vote: "This is a far cry from what was heard here a few weeks ago, when people asked the County government for its support of impeachment." He went on to say that while not everyone would be in support of impeachment, virtually everyone, including Mr. Nixon himself and his advisors, is in favor of a speedy completion of the work of the House Judiciary Committee. This resolution, he said, could be compared to one that says, "Resolved, it's Monday."

Francis T. Purcell, Presiding Supervisor of the Town of Hempstead, in preface to his "aye" vote, expressed the opinion that the Democratic majority in the Congress was attempting to prolong the proceedings "to confuse the public as long as possible." He said: "If Nixon is innocent and is to remain our President, he should have a chance to clear himself. If he is guilty, he should be punished."

In any case, it was the consensus of opinion among the Supervisors and among those who spoke in a non-partisan tone that the President had the right of every American citizen to a just and speedy disposition of his case on one hand, and that the country had the right to get the matter settled so that the business of federal and local government might continue.

Supervisor Michael Tully, of North Hempstead, said the issue was so "singular" that it had no chance of being repeated as D'Amato expected, and voted "aye."

Mrs. Komanoff's statement included her pride at being a member of "this Board of Supervisors; where each one is not afraid to speak out."

A Dozen Speakers
The Supervisors listened to the

comments of a dozen speakers before they were cut off for reasons of time by County Executive Ralph G. Caso. Of these speakers, only two spoke for President Nixon. A lady who introduced herself as "Ms. Schneider, of Synset, spoke of the strides taken by the Nixon administration in terms of peace and foreign policy. A gentleman from Malverne, Martin Helgeson, expressed the belief that the President had already been convicted of wrongdoing by the people in the room.

One speaker, Elaine Horowitz, who ran unsuccessfully for a legislative post in the last election, was called down by Supervisor James Suozzi of Glen Cove for what he felt was her "partisan attitude." In her address, Ms. Horowitz stated that President Nixon was preventing the Congress from reaching the truth (about Watergate). She made other statements damaging to the President as if they were her facts.

Jurgen Worthing, of Wantagh, asked that the resolution be amended "TO SIMPLY ASK FOR IMPEACHMENT." Richard Kessel, of Merrick, a candidate for Congress, suggested the County put out a little booklet explaining what impeachment really is, and that it does not mean removal from office.

Mimi Heyman, Executive Director of the Nassau County Civil Liberties Union, asked for a favorable vote, and Kurt Asherman, of Floral Park, speaking for Candidate Ogden Reid, urged acceptance of the resolution.

Eleanor Chandler of Rockville Centre asked Supervisor D'Amato why the issue at hand would be "out of the purview" of the County government, when the national oil crisis recently took him to Washington to speak to the Iranian delegation.

Others who spoke were Frances Bohm, Hewlett Harbor; Barbara Bernstein, Rockville Centre; Marvin Zevin, Roslyn; and Kenneth Sunshine, Franklin Square.

Departments Established

In a recent reorganizational move, the Oyster Bay Town Board created two new departments, the Department of Community Services and the Department of Parks and Recreation.

In a related action, the Board also abolished the Department of Recreation and Community Services and deleted the Division of Parks from the Department of Public Works.

"The creation of the two new departments was seen as a move toward more efficient operation," Town Supervisor John W. Burke explained. "The Town Board felt that putting the jurisdiction of our Town parks and our recreation program under one department would facilitate an even more effective recreation program than we had under the old system."

The Department of Parks and Recreation is divided into two divisions, Parks and Recreation. The Division of Parks' responsibility will be to operate and maintain Town and special district parks, pools, skating rinks and other recreational facilities while the Division of Recreation will administer, manage and supervise the planning and coordination, development and arrangement of recreational programs and projects.

The Department of Community Services has five divisions, Cultural and Performing Arts, Drug and Alcohol Control, Senior

Citizens Services, Youth, and Handicapped Services. The Cultural and Performing Arts Division (CAPA) will administer and provide for cultural development and activities in the Town.

The Division of Drug and Alcohol Control (DACA) will continue its program of projects designed to conduct or influence public and individual awareness of the harmful effects of drugs and alcohol.

The Division of Senior Citizens Services will provide for programs and projects to meet the needs of retired persons residing in the Town and will foster appropriate recreational and educational activities.

The Division of Youth will manage and provide for programs designed to help promote the moral, physical, mental and social well-being of the Town's youth and will help coordinate activities of the community Youth Councils.

The Handicapped Services Division will provide for programs specially adapted for physically and mentally handicapped persons.

The Department of Community Services will be headed by Commissioner James Arvanitis, formerly the Commissioner of the Department of Recreation and Community Services. William Brown, former Superintendent of the Parks Division, will be the Commissioner of the Department of Parks and Recreation.

Dr. Collins Retires At Medical Center

Dr. James F. Collins announced his retirement as superintendent of the Nassau County Medical Center at a meeting of the center's board of managers. Dr. Collins will remain as superintendent until June 1.

The Board of Managers accepted the announcement with regrets and passed a resolution thanking the superintendent for his efforts in developing the Medical Center.

Dr. Collins became superintendent of the county medical center on July 1, 1963, coming to Nassau from Cambridge City Hospital, where he served as medical director from 1954. Prior to that, Dr. Collins was associate superintendent and medical director of Boston City Hospital (1952-1964), medical director of

the State Veterans Hospital at Holyoke, Mass. (1950-1952) and assistant medical director of the State Veterans Hospital, in Chelsea, Mass. (1946-1950).

He had a distinguished military service career receiving a number of decorations and citations. He was discharged as a Colonel from the Army in January, 1946. He served two and a half years in the South Pacific with a combat medical unit.

Dr. Collins said he is considering several future opportunities but for the present "I'll take a well-deserved rest and vacation." In his statement to the board, Dr. Collins said that he has been considering retirement during the past year, but wanted to see the new building dedicated and opened before making any decision.

Letters To The Editor

To the Editor:

I wish to announce my candidacy for re-election to the Board of Trustees of the Hicksville Public Library. I have been a library trustee since 1963. During the past 10 years, I have supported the library in its efforts to serve the community in a progressive and responsible way. During my tenure, the library has doubled the book collection without a substantial increase in staff. We now own the third largest book collection among the public libraries of Nassau County. I assisted in planning and supporting a successful referendum in 1964 enabling the library to expand its space some 40 percent. Some of the new services since my term on the Board include the purchase of 8 mm films and music scores, direct service to the homebound and handicapped, and the circulation of art prints and cassettes. It was at my suggestion that permanent registration was introduced making it no longer necessary for the borrower to renew his library card every three years. Since this service was originated, the book circulation has increased substantially. More recently, I have strongly advocated opening the library on Sundays, a worthwhile additional service to the community. I am a strong supporter of the Library Bill of Rights and the Freedom to Read statement endorsed by the American Library Association and adopted as a permanent policy by the library. The statement urges all libraries to make available the widest diversity of views and expressions including those that are unorthodox or unpopular with the majority.

I believe that I am qualified to serve on the Library Board for another term. If elected, I shall continue to advocate a library aiming to provide for the many and to see that it functions efficiently and economically.

Dear Editor:

The Library Budget is being presented to us for our consideration and vote on March 26. I have taken the time to analyze this budget, as well as try to determine certain factors involved in arriving at these figures as they related to ourselves as payer and second as a candidate for Trustee. It is my feeling that a Trustee should be able to present opinions, views and breakdowns on the budget in a manner which is understandable to the voting public. I hope I will do this for you.

The first figure we see is the increase of \$5,500. due to additional microfilming of periodicals. This is done on periodicals over five years old, as well as to the New York Times. We are, all aware of the space taken up by magazines within our

own homes and I feel that this is a cost that will result in economy in the long run-less space is needed to store in addition to less furniture to store it in, but at the same time retaining the collection we have already purchased through the years. The annual cost of subscriptions to the over 300 periodicals we have in our Library at this time amounts to approximately \$5,000. per year.

The increase of \$1,500. in the records, tapes and art works is necessitated by an ever increasing demand by the public for this service and is not an expensive figure in the overall picture.

Increases in operations are things that we are all familiar with in maintaining our own households and I feel that this figure reflects the unfortunate economic situation we are all faced with today in order to maintain existing levels.

The increase in legal costs is due to the fact that it was necessary to retain the services of an attorney for the purpose of negotiations with the Civil Service Employees Union. This is something that is beyond the control of the Library and will be on a two year basis in as much as the contract has been signed for two years. (We may see part of this figure in next year's budget as a reserve fund in order to equalize the taxes for the two years involved.)

Salaries and pensions have gone up \$38,907. and if we bear in mind that the Library is now open on Sunday, at an approximate annual cost of \$5,000., this lowers the actual increase figure to \$33,907. As far as the costs involved in having the Library open on Sunday, this service has been greatly utilized and welcomed by the community. We have many people, including students and commuters, who were unable to avail themselves of the services of the Library until Sunday openings were implemented in January.

If we take the total increase in assessment per hundred from last year's budget of 40.1% and compare it to this years 46.7%, we see that it will cost a home owner with a home having an assessed valuation of \$5,000. approximately \$23.35 per year. Incidentally, it should be pointed out that the estimated tax rate at budget time last year was 42.5%, whereas the actual tax rate when finally determined by the taxable assessments was only 40.1%, which meant that in reality each household paid approximately \$1.25 less last year than they thought they were.

If the budget is defeated, the Library will have to revert to last year's budget, which carries the tax rate of 40.1% or approximately \$20.05 per household. In other words, it will cost the average family an additional \$3.30 per year to approve the budget or approximately 6¢ per week. Now let us ask ourselves the following questions:

1. Have you borrowed one book from the Library this year? I would say a fair average cost of one book would be \$5.00.
2. Have you borrowed one record from the Library this year? Again I would say it would have cost approximately \$4.00.
3. Have you done research work at the Library of any nature? Only you can estimate the cost value of this.
4. Have you used one of the consumer periodicals before making a purchase? What savings did this involve regarding your purchase?
5. Have you utilized the Library on Sunday? Again only you can estimate the cost value of this.
6. Have any of your children attended the Pre-School Story Hour? What value do you place on this?
7. Have you or any members of

your family attended any of the many cultural arts functions or special film showings being held at the Library? What would it cost you to attend these very same functions in an outside theatre?

8. Have you borrowed one of the works of art available to hang in your home, perhaps for the express purpose of seeing "if you could live with it" before purchasing an expensive copy for yourselves? Perhaps purely for your own enjoyment. What is this worth to you?

9. Have you utilized the services of the bookmobile instead of going to the Library itself? It may seem small, but at the current rate of approximately 60¢ per gallon and with many of our cars getting in the area of 10 miles to the gallon, if we lived more than a three mile round trip from the Library, a weekly visit would cost us 18¢, 12¢ more than the estimated tax increase of 6¢ per week.

10. If we are homebound and served by the Library, who can equate the value of this service to them in terms of dollars and cents?

11. If we are foreign language students, or are bilingual and wish to retain our reading skills in the language, how much is it worth to us to be able to borrow up to date literature that is available in the foreign language section?

12. If we are members of any community group, and have used the facilities of the Library for our meeting, how much would it be valued at?

Many other areas of the Library are available to all the citizens of Hicksville if we perhaps took the time to examine them. If we are not already availing ourselves of them, I certainly feel that based only on the services listed above, that we should give our support to the Library Budget at this time. We are not really saving very much by defeating it, only 6¢ per week. Is it worth cutting back for so minimal an amount?

If I am elected to serve as Trustee, you can be assured that I will always keep in mind the needs of the community in relation to the economy of our pocketbooks. I, too am a taxpayer, a housewife, a parent, a library user, as well as the child of a Senior Citizen, and I would keep in mind all of these areas in helping to determine the most efficient and effective means of serving the community. Please vote Yes for the Budget on March 26 and elect me to serve as your Trustee and representative.

Very truly yours,
 Clara T. Bennett

Coal Takes Up Slack

Researchers at Battelle Memorial Institute say they are developing alternative uses of coal which could have a substantial impact on energy sources within 20 years.

The short-range research program calls for using domestic coal for every possible alternative to petroleum and natural gas "until nuclear power can take up the slack," according to Dr. Sherwood Fawcett, President of the Private Research Organization.

American Soccer Club Opens Magnificent March

On the opening weekend of the Spring Soccer season, March 2nd, Hicksville once again proved the success and vitality of its program, with 3 wins, a tie and only one loss.

Our Kiwanian sponsored Juniors trounced Plainview 7-1 while the Juveniles, sponsored by the Hicksville Hibernians blanked St. Kevin's of Flushing 6-0. The VFW sponsored Boys Division Blue team defeated a very strong Massapequa team 2-0. Our Italy-bound Boys Division Red team, coached by J. Sanna, and encouraged by their Marco Polo Lodge, Levittown Sons of Italy sponsors, achieved a 1-1 tie against a South Huntington team that out-weighted and outaged them. A surprise disappointment was our Midget team loss to Massapequa 9-0 while our Bantams drew a "bye".

Our Hicksville American Soccer Club in its second weekend, March 9th, apparently found its future. Totalling its weekend accomplishments, the Club produced an astounding 23 goals scored, with only 1 goal

scored against them. The details developed as follows: Our Bantams, coached by Tony Camara, defeated the Northport Sailors 3-0; our Midgets, coached by Al Barcavage, fought to a 0-0 tie against St. Kevin's.

The rest of the Club romped thru their opponents with ease. In the Boys Division, Joe Sanna's Red team took Garden City 5-0 while B. Cresham's and P. McHugh's Boys Blue team defeated Glen Cove 12-0. The Juvenile's, under the direction of P. Collins, scored an easy 8-0 win over Garden City A. Our oldest team, the Juniors, coached by John Kerti and Roger Fremgen, scored a come-from-behind win of 3-1.

There were so many outstanding plays and players, both offensively and defensively occurring this weekend, that it would be an injustice to mention any individual. Congratulations boys, on one of the finest weekends of our career. Congratulations also to the coaches who give so much of their time to train these boys.

Plainview-Old Bethpage High School Sports News

by Mark Silverstein
The baseball, lacrosse and track seasons are starting, but I would like to tell you about the unsuccessful but memorable Plainview Gull basketball season. Yes, it is true that the Gulls were not a winning team without Vinny Aversano, but even though the losses kept mounting, Steve Tipa kept mounting his total high school career points to 1,000. It was the last home game for the Gulls and they were playing the Clarke Rams. For the Gulls it really didn't matter if they won or lost because there was no chance of getting into the playoffs. The main concern was to have Steve score 44 points or more to reach the 1,000 point mark. Even though there was one game remaining everyone

wanted to see him do it at home. I was covering the game for WPOB-FM, and I must say it was the most exciting high school game I ever saw. With just seconds left, Steve got his 44th point on a foul shot and he received a standing ovation. The players from both teams congratulated him. After the game Steve told me that he was thinking of the record the whole game and said that if he hadn't shot for the record the Gulls might have won.

Steve Tipa, Steve Samuels, John Battaglia, Ken Meiselas, Frank Gallina, and Marty Paulker will be graduating in June. Because the Gulls have good sophomores and juniors it looks good for a winning season next year.

LET US BREAK GROUND TOGETHER: Oyster Bay Town Receiver of Taxes Solomon Newborn (second from right) joins Rabbi Eli Libenson (second from left) of the Manetto Hill Jewish Center in Plainview for ground breaking ceremonies for

a building to house classrooms and a new sanctuary. Also helping in the digging are Mrs. Shirley Kurtzman, President of the Temple's Sisterhood, and John Robins, President of the congregation.

Transcendental Meditation Mar. 21

The International Meditation Society will present an introductory lecture on the subject of Transcendental Meditation as taught by Maharishi Mahesh Yogi at Plainview Public Library on Thurs. March 21 at 8 P.M.

The technique of Transcendental Meditation is a simple, natural, effortless

procedure which is practiced twice daily for twenty minutes. Recent scientific studies into the practice indicate that there are profound changes in physiology coupled with corresponding changes in mental activity suggesting a fourth major state of consciousness, a state of restful alertness. It is the unique nature of these findings by science, along with the practical day to day experience of the hundreds of thousands of people practicing T.M. throughout the world that have led to its acceptance as a means of alleviating deep stresses and strains while simultaneously allowing the individual to expand to his full mental potential.

The lecturer, a teacher of T.M., trained by Maharishi Mahesh Yogi, will explore the complete range of the subject with ample time for questions and answers.

Station Seeks To Rezone

By JANET GOSNELL

The only public hearing held at the one-half hour meeting of the Oyster Bay Town Board this week was on the petition of Shell Oil Company for a change of zone from Business F to Business G, and for a special permit use to operate and maintain a gasoline service station, at the intersection of Old Country Road and Grotuman Lane in Plainview.

The petition involves a service station which has been on this corner since 1953, predating zoning. Now in a "Non-conforming use," the owner wishes to make alterations to the property, and for that reason is required to apply for the correct zoning. Alteration desired is the

remodeling of a rubbish shed on the property into a storage shed. The petition was presented by attorney K.C. Smith of Farmingdale. Louis Deronde, District Manager for Shell Oil, explained the need for the storage shed and said there was no intent to change the nature of the service station's operation.

The only speaker on the petition was Carole Fishman, of the Greater Plainview Community Association, who

questioned where trucks now stored behind the rubbish shed would be stored.

LET YOUR FINGERS DO THE TALKING

YOUR VOTE MAY MAKE THE DIFFERENCE

Candidates for public office are seeking to be nominated in primary elections throughout the nation. Now is the time to support the candidates of your choice. Politics is like laying bricks. Thousands upon thousands of small actions go into building a winning campaign. There is no overnight way to construct a mighty edifice and there is no other way to political victory than to build it, brick by brick. Because primary elections are won, in many cases, by very small margins, your contribution in time and effort can be very important. But, most important of all, do not neglect to vote when you have the opportunity. It is your way to make sure you have candidates to support with pride in the November election.

WHAT ARE YOUR PHOBIAS?

Dear Dr. Esse: I have developed the most unusual type of fear: I'm afraid to shake hands. Even with members of my own family. My trouble is that I think I may catch some disease. I'm fearful that bacteria will be transferred to my own hand.

For the same reason I do not touch doorknobs unless I first put a glove on. I haven't told anyone about it because it seems so silly. But it really isn't. It tortures me. Shall I see a doctor about it?

Mr. B. COMMENT: I wonder if there is any person alive who doesn't suffer from some minor or major phobia. You are not alone. The fear of contamination is called misophobia.

Yes, I suggest you see your doctor. If it's really interfering with your way of life, he may recommend a psychiatrist. Getting over phobias isn't a simple matter.

Here is a list of some common fears: GEPHYROPHOBIA (crossing bridges) --- EREMIAPHOBIA (solitude) --- AGOROPHOBIA (open spaces) --- AEROPHOBIA (open air) --- DEMOPHOBIA (crowds) --- PNIGEROPHOBIA (smothering) --- ERGOPHOBIA (work) --- CHEIMOPHOBIA (cold) --- ACHLUOPHOBIA (darkness) --- PYROPHOBIA (fire) --- OCHOPHOBIA (vehicles) --- SIDERODROMOPHOBIA (railway trains) --- ASTROPHOBIA (planes) --- BLONOPHOBIA (needles) --- ERETOPHOBIA (pins) --- ELEKTROPHOBIA (electricity) --- BISOPTROPHOBIA (mirrors) --- GRAPHOPHOBIA (writing) --- ARACHNEPHOBIA (spiders) --- HEMATROPHOBIA (blood) --- XENOPHOBIA (strangers) --- ZOOPHOBIA (animals) --- THERMOPHOBIA (heat) --- SITIOPHOBIA (eating or drinking).

I could go on mentioning the names of fears of cats, flowers, snow, staircases, strings, snakes and many others. My real purpose in listing these tongue-twister names of phobias is to make readers more tolerant of a fellow being having "not so silly" fears.

Just the other day a husband complained that he hadn't been able to take a vacation since he was married. The reason? His wife had three phobias which prevented traveling crosscountry in their car.

She got deathly ill whenever she crossed a bridge (gephyrophobia). She was afraid of open spaces (agorophobia). She had to use all of her willpower to get into a car (ochophobia).

Did he really complain? Not so. He admitted: "I understand how she feels. I don't force her to go along. Personally, I'm just as scared of getting into an elevator. I suffer from claustrophobia."

HOME BUYER

By Robert J. Jay

Honest, Expensive Mistakes
A perfectly honest mistake made in handling public records can sometimes prove expensive to a home buyer.

In one example, a mixup in public record lot location identifying numbers resulted in taxes being paid on the wrong property. As a home changed ownership, months after the transaction was completed, the tax collector informed the new owner that back taxes on his home were unpaid.

Fortunately, the home buyer facing this situation was protected by owner's title insurance. Upon being advised of the problem, the title company paid the outstanding tax bill and saved the home owner from financial loss. Later, the title company was able to recover part of the amount from the person whose property taxes were erroneously credited with the payment. Without owner's title insurance, the delinquent taxes would have been the immediate problem of the home buyer.

A title search for problems of record affecting real estate ownership and owner's title insurance that safeguards against hazards including those a title search will not reveal are necessary to protect a home buyer against this and numerous other types of land title pitfalls.

For free information on things you should know in buying a home, write American Land Title Association, Box 566, Washington, D.C.

CLAY TIME

What's more creative than clay? Clay that isn't clay—that is, the kind that you can create in your own kitchen and turn into ceramic-like objects in minutes!

To cook up a batch of this creative clay, combine two cups of baking soda and one cup of Argo Corn Starch in a saucepan. Stir in 1 1/2 cups of cold water until smooth. (For colored clay, tint the water with food coloring.) Cook over medium heat, stirring constantly, until mixture reaches a slightly moist, mashed potato consistency. Remove from heat, turn out on a plate and cover with a damp cloth until cool enough to handle. Knead it like dough and shape as desired. Store any excess in a tightly closed plastic bag.

You can sculpt it, mold it, cut it with a cookie cutter, bend it into bowls, ashtrays, dishes, spoon rests, creative art or almost anything else, and even make it into beads. You can get around to that by simply shaping bits of clay into small balls or ovals and piercing them with a pin. String them along for bracelets, necklaces, belts, headbands, curtains, and anything you'd like to draw a bead on. Set objects on a protected surface to dry and harden overnight at room temperature. They'll dry white (unless tinted) and can be painted.

This kind of clay is certainly a clever way to spend a day of creative play!

CONSUMER CORNER

By Mary Lou Rooney
Mid-Consumer Education Specialist

The better care you take of the carpets and rugs in your home, the longer they will last and retain their good looks—and thus ultimately save you money.

Three basic rules for home cleaning will keep your carpeting in optimum condition:

1. Vacuum traffic areas daily. This removes tracked-in soil and restores the pile. If dirt is left on the carpet, it will go below the surface where it is more difficult to remove and can wear carpet fibers by abrasion.

2. Vacuum all carpeting thoroughly once a week. Get under furniture and into corners. "Thoroughly" means that the vacuum cleaner should be pushed and pulled in slow even strokes at least five times over the same area. Vacuuming does not hurt rugs, it actually prolongs their life.

3. Remove any spots and stains as quickly as possible. Don't wait until they have time to dry or set. Carpet manufacturers recommend a vacuum cleaner with a motor-driven brush and beater bar. The beating action helps to loosen imbedded dirt and dust; and fluffs up the pile.

Even with maximum care, your carpet will eventually tend to look dull. This doesn't mean the colors have faded—it's probably caused by the gradual build-up of soil which is difficult to remove by ordinary vacuuming. When this becomes noticeable, your carpet needs shampooing.

Although you can do it yourself with one of the carpet cleaning preparations in your home, the best results are obtained from a professional cleaner. Rugs can be sent to the plant or cleaned like wall-to-wall carpeting right on your floor in a few hours. Fortunately, some of the newer carpeting is treated with a special Scotchgard finish to resist stains from both spills and dry soil.

Here are a few specific cleaning tips:

- To remove dry soiling materials like clay and mud, first crumble and remove the excess, then apply the suds of a mild detergent mixed with water (one teaspoon to one quart of water) and a teaspoon of white vinegar. Blot with a tissue dry, thoroughly and gently brush the pile.
- To remove oily stains, scrape or blot the excess from the rug surface. Then apply a dry cleaning fluid with a clean cloth. Blot the carpet and, if necessary, apply the suds of a mild detergent mixed with water and vinegar. Dry the carpet, and if any stain remains, repeat the dry cleaner and detergent steps, let it dry and brush the pile.
- For stains from animals and foodstuffs—such as coffee, tea, milk, alcoholic beverages or catsp-scraps and blot the excess surface soil, apply the above detergent and vinegar solution, rinse and dry the carpet. Then apply a dry cleaning solvent with a clean cloth and let the carpet dry. If necessary, repeat the entire process, then brush pile.

DEVOTIONS

Be Different

I am told that some people in Massachusetts organized what they called an Apathy Club. The club has no dues, holds no meetings, elects no officers, takes no stands on anything, and makes no contributions of any kind to any-

thing. Does that sound like something you would like? Forget it! If you are interested, that shows you are not qualified for membership.

Some people lead a life worthy of an organization like this. But the Apathy Club is not a viable choice for the Christian. Those who are willing to put their hand in the hand of the Man from

Galilee must also be willing to get involved in the Father's world. Jesus' message was profoundly simple. If you have two coats and meet a chap with none, give him one of them. Consider first your own faults before trying to change the other fellow's shortcomings. If someone asks you to give him a hand with something, do twice as much as is expected of you. Say a prayer for those you find difficult to love. Jesus was different!

Christianity is an action word. The Christian has no choice but to get involved with his fellowman's suffering. He must not be like Charlie Brown of the Peanuts comic strip who concludes, "There's no problem so big that you can't run away from it." Instead he realizes that his neighbor's misery needs his company.

In his novel, *TOO LATE THE PHALAROPE* Alan Paton begins with the painful words, "Perhaps I could have saved him, with only a word, two words, out of my mouth. Perhaps I could have saved us all, but I never spoke them." Such a commentary should never be written about the Christian. He too, must be different.

Senior Citizens Bus Fares

Nassau County Executive Ralph G. Caso today called for a program of allowing senior citizens in Nassau, New York City and Suffolk to ride each others buses at half fare.

The county executive's proposal was contained in letters sent to Mayor Beame and Metropolitan Transportation Authority chairman William Ronan, asking for ameeeting to develop a reciprocal program.

"The boundary lines between Nassau, the city and Suffolk should not stand as a deterrent to making public transportation more accessible to senior citizens," Caso said. "The fact that the city and the county both have half fare programs in effect at the present time lends itself to such an exchange of the half fare privilege."

Caso explained that his proposal would allow Nassau's senior citizens to use their leisure passes to ride city buses, while their city counterparts could do the same on Nassau buses with their identification cards. He added that once an agreement is reached with the city, he is ready to develop a similar program with Suffolk, since Nassau has a few bus routes that run into that county.

Nassau's half fare program, instituted last September, allows all county residents 60 years old or older to ride county-owned buses from 10 AM to 4 PM.

Control Commission Praised

The Town Board, formally recognized and praised the efforts of Oyster Bay's Environmental Control Commission, according to Councilman Joseph J. Saladino. The Commission, a citizens advisory group established two years ago, researches, makes recommendations and otherwise assists the Town Board in matters regarding the preservation and enhancement of Oyster Bay's environment.

"The concern, dedication and diligence of the Commission is vastly appreciated by all the members of the Town Board," said Councilman Saladino, chairman of the Board's Standing Committee on Environmental Control. "I'm sure that the Commission's future endeavors will benefit the Town administration and all the residents of Oyster Bay as much as their past achievements already have."

The Commission, chaired by Dr. Mitchell L. Silbert of Massapequa since its inception,

recently submitted its second annual report to the Town Board. Highlighting 16 points of major effort during the past year, the report reflects the Commission's opposition and campaign against the now defunct Oyster Bay-Rye bridge proposal and its in-depth study of the application for the proposed expansion of the Long Island Lighting Company facilities at Glenwood Landing.

The Commission has also proposed that the Mill Pond area in Oyster Bay hamlet be developed as an education and passive recreation area and has passed a resolution supporting the development of the John F. Kennedy Wildlife Sanctuary as an educational facility. The Environmental Control Commission has applied for a Ford Foundation grant for producing and editing a sound film about the Sanctuary.

The Commission is currently considering a method for clearing Town waters of debris, and is preparing a cost estimate for a marine garbage removal

program that will be presented to the Town Board.

Commission members include: Mrs. Josephine DeLucia, David DiGiovanna, Anthony Hamlik, Mrs. Marjorie Post and Dr. Silbert of Massapequa; Frederick Bannison of Plainview, Dr. Kalman Held of Jericho, Vincent Kenneth Barnes and Vincent Tulumello of Hicksville, Dr. David Brown, Charles Deafield and Dr. Bertram Spector of Syosset, Richard Maggi and Benjamin Radzka of Oyster Bay hamlet and W. James Oelsner of Centre Island.
