## On The Ballot

# Proposition No. 2

By Linda Strongin

The Hicksville Board of Education formally authorized the wording for Proposition Number Two at its meeting last week. Vice President John Ayres presided in the absence of President Tom Nagle, who was out of town on personal business.

The proposition will be presented to the public for a vote on June 21. If passed, it would authorize the district to provide transportation for students from the non-public schools they legally attend to one of the district's public schools for the purpose of remedial or therapeutic speech and psychological services. Although the original cost was estimated at \$25,000, due to the low bid received of \$17,955, which would serve 150 students, the Board felt a figure of \$20,000 could also service more students if the need should arise.

The necessity for the district to provide these services has come about from a Supreme Court decision which ruled that school districts could not provide these services unless rendered on a "neutral site." This transportation cost is not aidable from the State.

The Board also approved regular school in-district transportation after rejecting second-round bids. Harran Transportation offered to extend their present contract, the cost of which is not to exceed 7 percent or the Consumer Price Index, whichever is lower. The cost, which includes fuel, is estimated at \$464,131.

According to Assistant Business Manager Richard Helfont, "the increase in transportation costs is much lower than originally anticipated."

The Board also approved

transportation for special schools outside the district, awarding the bid to We Transport for \$1,375 and Tom For at \$25,770. The bid for non-public outside district transportation was awarded to Best Bus Co. for \$3,970 and We Transport for \$4,780. Summer transportation for physically handicapped was awarded to We Transport for \$7,595. Harran Transportation was awarded the "neutral site" bid at \$17,955.

Vice President John Ayres commended Mr. Helfont for "an excellent job" done in obtaining the transportation bids. Under unfinished business, the Board approved a motion under the Adult Education Policy that senior citizen club directors be paid at the prevailing non-certificated teacher rate as paid to all others in the adult education program. Currently, that rate is \$9.50 per hour.

The vote was reached after a motion to table, due to lack of information, was defeated. Trustee Iris Wolfson stated that the program is "already there" and services approximately 800 senior citizens. Trustee Neil McCormack pleaded with the Board that it "is money well spent." The senior citizens clubs will now function for twelve months at an approximate cost of \$8,000.

The Board also authorized the purchase of excess unemployment insurance in the amount of \$500,000 at a cost of \$12,319. The insurance is being placed through Seaman and Eiseman, the broker of record. The Board also authorized Curator Associates, the district's unemployment insurance consultants to represent the district at all unemployment hearings. Mr. Paul Gapp, representative from Curator Associates, explained the letter to be issued to

ten-month employees in non-professional areas which will disqualify employees from unemployment benefits over the summer and vacations.

"Substitute teachers are our biggest problem," he added. His firm has devised a system which will hopefully control the area.

Also under unfinished business the Board discussed the report of the Buildings and Grounds Advisory Committee and Committee co-Chairmen John Ayres and Bill Bennett will submit a formal policy change for a vote at the next meeting.

Under regular business, the Board withdrew several items including annual increments for clerical and building and grounds employees; and appointments of media aides and monitors for 1978-79.

The Board approved architectural fees for sewer connections at a cost of \$19,200, and also authorized the purchase of four IBM keypunch machines for instructional purposes at a cost of \$4,188. The district had been renting the machines at an annual cost of \$3,600.

The Board also authorized the purchase of fifteen electric typewriters for the high school business education department as replacements at a total cost of \$8,845.

The Board rejected a bid for sanitation services for 1978-79. Only one bid was received and the recommendation was to rebid to obtain lower and more competitive prices.

Bids were awarded for fuel oil (\$200,000) and burner service (\$6,675) for 1978-79.

The next business meeting of the Hicksville Board of Education is scheduled for June 14, 8:15 p.m. in the conference room of the administration building.

## Community Council Dinner

By Carole Wolf

It was a lovely dinner. On Thursday night, June 1st, one hundred forty-five people came together and dined at Antons to celebrate the culmination of the Council's year. Under the soft lights and the Spanish atmosphere, people who love Hicksville spent the night reviewing Hicksville's past history and planning for the future.

Linda Strongin said, "Anybody who is anybody in Hicksville was there" and it was almost true when we look at the group of organizations who were represented. Dr. Hill, the Superintendent of Schools was there with his wife, Mary and Anne and Gardiner Gregory, the Founders of the Gregory Museum were there. Both Dr. Hill and Gardiner Gregory are in the Who's Who of America.

Representing the School Board, we had John Ayres, Dan Arena, Bill Bennett, Pete Fujimoto, and Neil McCormack. Elery Bean and Clara Bennett from the Library Board were there Elery with his lovely wife Jo and Clara with her Bill, as well as Ken Barnes, Director of the Hicksville Public Library. Father McGrath, pastor of Holy Family Church gave the Invocation and Lieutenant Ofenloch from the Fire Department gave the

Benediction to begin and end the beautiful evening.

## DEVOTIONS

By The Rev. John H. Krahn

### TUNE IN WITH PRAYER

In the Old Testament we often find God in conversation with His people. Conversational prayer entailed discussing the events of the day and seeking God's will for the future. In these conversations with the Creator, we find the belief ever seeking to unite his will and the will of the nation with God's will. God's people tuned into Him and listening for his direction.

I can recall in my freshman year at Concordia Preparatory School in Bronxville, at the ripe old age of thirteen, trying to tune my radio into WBAL in Baltimore, my home town. Under certain atmospheric conditions, I was successful. Often the static wasn't too bad, and I could hear the familiar sounds of the way the king's English was spoken at

home. It was the sound of home, and it felt good.

Unfortunately, our lines of communication with the Almighty are often filled with static, and we are hearing God's clear signal only infrequently. Static is produced when we have used the instrument of prayer sparingly. Static comes when we are involved in an overly sinful life. It is hard to pray in the middle of the act of sinning. Static is caused by busyness that fills every moment and leaves no time for prayer.

In the New Testament, prayer for Jesus was like breathing: a natural part of the Christian's life. It was a daily habit for Him. He suggests we approach the heavenly Father in prayer as earthly children approach their earthly fathers. In prayer, both as individuals and more im-

portantly as the Church, we are to seek a oneness with God, to share a living union with Him like that union which existed between God and Him. This is the desire expressed in Jesus' High Priestly Prayer. We are to keep in tune with prayer. This takes concentration.

In his Tischedren (Table Talks) Martin Luther gives a beautiful example of the need for concentration in our prayer. "When Luther's puppy happened to be at the table, he looked for a morsel from his master and watched with open mouth and motionless eyes (as Luther ate). Luther said, 'Oh, if I could only pray the way this dog watches the meat. All his thoughts are concentrated on the piece of meat. Apart from that, he has no thought, wish or hope.' Only as our individual and congregational prayer life is strong are we going to let the world know by our witness that Jesus is in our midst doing great things.

Long Island Lighting Company today announced that May, 1979, is the target date set by the Company for a requested change in gas and electric rates. The Company filed new rate applications today, but it takes almost a year for the Public Service Commission to hold the necessary hearings and reach a decision. The new rates would increase gas revenues by thirteen point one percent or \$23.9 million. Electric revenues would increase by eighteen point five percent or \$147.1 million. LILCO President Wilfred O. Uhl said that if the Public Service Commission had allowed the Company the full amount it requested in its last rate case, LILCO would have been able to delay this application for almost six months and ask for about \$50 million less.

Mr. Uhl observed that the present application represents the near completion of a transition from the cheaper energy sources of the past to the more expensive energy sources of the present and future. He foresaw that "If this request is granted and there are no more major upheavals in nationwide energy cost factors, future price increases will be small compared to those Long Islanders have seen in the last five years." "In the past," he said, "we built facilities mainly to meet rapid growth in energy demand, but today we must build to protect our energy supply and prices from the stranglehold of the international oil cartel. For electric customers," he said, "the era of very dramatic bill increases is drawing to a close."

Mr. Uhl also pointed out that one of the reasons for asking for new rates is to increase the amount of money available for preventive maintenance of facilities that produce and deliver energy to Long Island consumers. The high level of service reliability that the Company has maintained in the past is beginning to decline and customers are starting to feel the effects. Although the Company has not cut back on dollar amounts for its maintenance program, inflation has reduced the amount of work that can be accomplished for each dollar the Company spends.

It is absolutely essential, Mr. Uhl explained, to increase expenditures for programs such as tree trimming and overhauling of generating plants in order to provide the quality of service LILCO customers are entitled to and have come to expect. Also, the customer must be able to reach LILCO quickly and get a prompt response when problems occur. While the Company has maintained about the same number of employees for the past 20 years, it has now become necessary to increase the size of its staff to assist customers both during normal circumstances and during storm emergency situations.

Another concern of the Company is to provide stockholders

with earnings that at least match the quality and growth they could find in comparable investments. About 45,000 of LILCO's shareowners live on Long Island, and the return on their investment in the Company makes an important contribution to the economic well being of Long Island. These shareowners, together with LILCO's 5,400 employees, pay the same price for gas and electricity as do all other LILCO customers.

While the Company has sought ways to keep costs from rising, it is faced with the inexorable effect of inflation on items that are largely beyond the Company's control such as fuel, taxes, interest and depreciation. These expenses account for 76 cents of every dollar Long Islanders pay for electricity. "But beginning in 1980," Mr. Uhl noted, "we will begin making inroads on the largest component in the cost of electricity - the cost for fuel. The use of nuclear fuel at Shoreham will substantially reduce the 43 cents of each dollar of revenues that now goes to pay for the oil used to generate electricity. Over a 30 year period of operation, Shoreham can be expected to produce cost savings to our customers of over \$2.2 billion compared to a similar fossil fuel plant."

Beginning in June, 1978, home energy audits will be available to

LILCO customers. Mr. Uhl said that LILCO will expand its energy audit program to include advice on how to save money by using electric energy more effectively, especially during the peak demand periods. Last November the Company put into effect an electric storage rate that offers lower charges for storing energy in connection with space heating, water heating and electric vehicles at off-peak hours. LILCO's electric rate application includes the continuation of time-of-use rates for its largest commercial industrial customers while the Company, together with the PSC, challenges this month's State Court decision banning these rates on the grounds of being discriminatory. The Company also plans to implement time-of-use rates for LILCO's large residential customers in 1979.

In order to ease the impact of high energy bills that are caused by extremes of weather, the Company is going to make available to all residential electric and gas customers the budget plan it now offers only to heating customers. This means that all customers will have the opportunity to spread out the payments for their electric and gas service in equal monthly amounts over the year.

The effect of the new rates on typical customer bills is shown below:

## Museum In The Park

Ever hear of Museum-in-the-Park? The Department of Recreation and Parks is hoping that Nassau residents by the thousands will get to know an old landmark in Eisenhower Park by that name and visit a special carousel exhibit opening Monday, June 12, to mark the christening.

The Museum Division will display for the first time ever, an antique carousel in the exhibit area of the Museum-in-the-Park (formerly Bicentennial House) near Parking Field No. 6. The fine baroque style merry-go-round, displayed in sections, is one of about 290 in existence in the United States.

During their hey-day at the turn of the century, 5000 carousels whirled gaily round at various fairgrounds and amusement parks in America. Nassau's own grand carousel was built in upstate New York and was returned from Michigan to wind up its twirling performance at Owasca Lake Park, New York. The carousel, donated to Nassau County by the Friends of Nassau County Museum, is an important part of the Museum Division's collection of folk art.

The wooden figures are classic examples of American carving, in the tradition of folk sculpture which included ship figureheads and shop symbols. Carousel artists were able to indulge their fantasies when sculpting the fairyland mounts to suit the make-believe, romantic atmosphere of the carousel.

Visitors will be able to examine a colorfully painted menagerie that includes a camel, giraffe, frog, seahorse, ostrich, tiger and other animals both fierce and gentle. Variations of the classic jumping horse from the Herschell-Spillman grand carousel will be on view. Taped recordings of old-time band organ music associated with carousel rides will be played at intervals in the museum.

The public can take home a memento of the visit - a photograph of a family member astride a sturdy lion plucked from the antique line-up. The fee for the indoor "instant" color photo taken by a member of the museum staff is only \$1.25.

The Museum-in-the Park will be open daily from 9 a.m. to 4:45 p.m. and the antique carousel figures will be in residence through September.

"This is Mrs. Fitzhugh. She does laundry after 10 PM, too."

Seriously, fellow Long Islanders, there's a way to keep down energy bills without giving up the good things energy brings. We need extra power equipment to meet peak power demands, and extra equipment costs extra money. Now, holding down the especially high peak demands in summer helps us avoid that expense. But shifting the use of dishwashers, clothes dryers, etc., to before or after the 10 AM-10 PM peak demand any time of the year lets us rely almost entirely on the most efficient equipment we already have. And if enough of us practiced this kind of energy management, it could keep energy bills down for all of us.

Mrs. T.T. of East Williston recently wrote us to compliment two LILCO people, John Murphy and Mary Muldoon Hassett. "Mr. Murphy has been most patient in explaining my electric heating system and advising me in the proper use of insulation. I have been speaking with Mrs. Hassett in your Customer Relations Office. She, too, has been very efficient, courteous and patient." Be assured, Mrs. T.T., Mr. Murphy and Mrs. Hassett will hear about this.

# Dear Friends:

IN HICKSVILLE the three incumbents running for re-election to the Board of Education are now unopposed inasmuch as Shirley Smith has withdrawn from this race. See her letter of explanation in "Letters To The Editor". For details on the additional proposition which will be on the ballot we have a special article by Linda Strong- in on page one of our Hicksville Edition and, of course, if you have further questions you may always phone the district at 733-2104. Inasmuch as this district is still negotiating this budget is not firm, no matter how the vote turns out ... more on this later.

IN PLAINVIEW the Board of Education has approved the sale of the Oak Drive School to Mr. Stanley Gross in the amount of \$406,000. It is the intention of the purchaser to demolish the school and build approximately 29 homes on the property. The sale is contingent upon approval by the Town Board of the plot map which will be submitted to them by Mr. Gross.

Several Hicksville High School students, led by Patti Magner, a junior, and with the approval of Mr. Rusch, decided to take up a collection in memory of Patrick Clarke, the ten year old boy who died as a result of the accident on Old Country Road on May 8th. Patti collected \$105.00 and a check was made out to the Pediatrics Ward of the Nassau County Medical Center. Patti, along with Craig Kopetz, Mike Grippo, and Tom Kelleher, also juniors presented the check to Dr. Collipp, Chief of Department of Pediatrics, on May 24th. The check was presented in memory of Patrick Clarke and Dr. Collipp expressed his gratitude and assured the students that the money would be put to good use for the children. After presenting the check, the students were then taken through the pediatrics ward by a hospital volunteer.

At the Magic Touch, a full service hair salon "for men only", located at 644 South Broadway in Hicksville, there is, at present, a special "get acquainted" offer ... a finely crafted, nickel-finish screwdriver keytag which is registered for your protection so that if your keys are lost or stolen they can be returned by mail to The Magic Touch and they will return them to you. Sounds great.

AS YOU WILL SEE on page 3, we have printed in its entirety, a news release from LILCO explaining the necessity for the raise in rates for which they are currently applying. So many citizens and elected officials are opposed to this proposed rate raise, that we thought it fair for you to be able to read LILCO's side of the story. Everyone, from our County Exec down to the lowliest of the hard-pressed, working taxpayer, has taken exception to raises not only of those proposed by LILCO, but by those experienced in the super-market, these days. It is possible to boycott items which are unusually high ... witness how soon lettuce found a lower price level ... and, to some extent coffee. But, how does one boycott a firm supplying their utilities? I'm sure we wouldn't want to do this anyway. But we would suggest a much more modest increase as being reasonable in the light of what our Lighting Company has to do for us.

I BELIEVE THAT, in spite of protestations to the contrary, President Carter will be forced to institute Wage and Price Controls, because of the continued inflation which plagues our country. I'd like to go on record right now ... "Mr. President ... there should never be "Wage and Price Controls." But if this is necessary, it should be "WAGE, PRICE AND TAX CONTROLS." With these three "inflation causers" all held firmly in place until the economy cools down, government, labor and management can resume at a more realistic rate of growth. There is no way to hold wages and prices at a set level and allow taxes to climb.

By voting favorably on their Proposition 13, voters in the State of California have limited the total taxes that can be assessed on their homes, as well as how much can be raised by bond issues. Many states are following in their footsteps. Why not New York State?

Taxpayers seem to be the only national group who cannot strike. Perhaps they too are finding a way to prevent bankruptcy and loss of home with ever increasing taxes. One thing we must bear in mind though ... taxes determine what services we receive ... so if we limit taxes we also limit services. But in some cases that is probably what we may be forced to do. We'd like to hear from you on your feelings on this matter ... particularly if you have constructive suggestions as to how tax reduction can be accomplished. Drop us a letter ... we'll share it with our readers.

THAT'S ALL for this week. Stay well and remember the old saying by Sir Edward Coke: "For a man's house is his castle." Let's hope we don't all get taxed out of our castles. SHEILA NOETH

# Letters To The Editor

## TO THE PEOPLE OF HICKSVILLE:

For personal reasons, I am withdrawing from the school board elections. My obligations to my family, myself and my job must come first and I find that I simply cannot fulfill these responsibilities and adequately serve the community as a school board trustee.

This has not been an easy decision to make - nor was the decision to run. I realize that some of you will be disappointed and angry, but I could not continue through the coming weeks of campaigning knowing in my heart I would have to resign if elected.

To those people who encouraged and supported me go my deepest thanks and appreciation. Please be assured I will continue to be an active parent participant in the educational community. My interest in school affairs has not diminished, nor do I plan to "retire" from attendance at board meetings and school functions. But my family is my first priority, and my time with them must take precedence.

I sincerely wish it had not become necessary to make this decision, but I would be less than fair and honest if I did not acknowledge my inability to serve on the school board at this time.

Shirley R. Smith

To The Editor:  
The Hicksville Congress of Teachers - the Teacher's Union, is making a concerted effort to gain control of the Hicksville School Board. This naked grab is a blatant attempt to control the

taxing power of the school board. With this power, taxes paid by Hicksville taxpayers can be raised to:

1. Pay for unneeded teachers. These are teachers excessed by reduced enrollments in Hicksville schools.

2. Pay for ineffective programs which if kept or expanded increase the number of teachers employed. An example of an ineffective program is the teaching of foreign languages to third graders.

3. Pay for covering up the mediocre teaching by tenured teachers. This involves the hiring of psychiatrists to place "learning disability" labels on children which will remain with them throughout their lifetime.

4. Pay for "teaching specialists" to teach the so-called "learning disabled". These specialists would not be needed if teachers did the teaching job they are paid so much money to do.

5. Pay for increased salaries and more fringe benefits for teachers - including the mediocre tenured.

Mr. William Bennett, the present school board incumbent, under attack by the teacher's union, has shown through logic and foresight that up to 45-50 teachers can be released from employment because of reduced enrollments - at a savings of over a million dollars in salaries and benefits. He made the statement after careful study and thought. But the teacher's union, by the way they reacted, would have you believe he just pulled the figure out of the hat - that such a reduction would mean the doom of the Hicksville school system.

### Parks Survey Continues ...

Dear Mrs. Noeth.

I have been a home owner and resident at this address since 1955 and have been a subscriber to the Mid Island Herald over the years. The Mid Island has always advocated that issues should be settled in The American Way. What is more so, The American Way than voting on an issue. The people of Hicksville voted on the pool-park complex and turned it down.

Why don't you drop the stick and stop beating a dead dog? If the people who voted for it still want it, then let them, as Alexander J. Iunis suggested in your edition of May 25th, form a corporation and purchase the property.

If that good-looking politician wants to obtain votes, he should work for the Senior Citizens. He should endeavor to eliminate the inclusion of Social Security payments as income on the application for tax exemption for real property of aged persons.

Sincerely,  
James P. Doris  
22 Mayflower Dr.,  
Hicksville.

Editor's note: Thank you for your letter but "no thank you" regarding your friendly suggestion. Yes, the people voted down an expensive parks proposition 10 to 1. However, it cannot be denied that residents wanted both sites dedicated to "park purposes."

My contention is that we have several alternatives:

1. put both pieces back on the tax rolls;
2. develop both pieces modestly at small expense to all of us local taxpayers;
3. leave both pieces alone as they are - and watch them develop into garbage dumps.

We are hoping that our continued "Parks Survey", which is, after all, only the varied opinions of those who live and pay taxes in our parks district, may be helpful in guiding us and our elected officials when it is time to decide which of the above alternatives we should take.

Sheila Noeth.

# HAMBURG SAVINGS BANK'S NEW 6 MONTH SAVINGS CERTIFICATE PAYS YOU 1/4% MORE THAN TREASURY BILLS. (AND COMMERCIAL BANKS)

The headline is bold because Hamburg Savings Bank has great news for short term investors: With a minimum deposit of \$10,000, you can invest in our limited offer 6 month Savings Certificates with rates 1/4% higher than the rate on 6 month U.S. Treasury bills, auctioned immediately prior to opening your account.

The interest rate of Treasury bills is, of course, posted every Tuesday. Simply add 1/4% to that rate and we'll increase your yield further by compounding the interest daily. Remember, each 6 month certificate is insured by the FDIC for up to \$40,000.

FDIC regulations permit withdrawal on Savings Certificates before maturity provided the rate of interest on the amount withdrawn is reduced to the passbook rate, and up to 3 months' interest is forfeited.

Visit any Hamburg Savings Bank office listed below or return this coupon with your check. Again - this is a limited offering. Act today!

## Holy Family Celebrates With Oyster Bay

On Friday, June 2nd, Holy Family School celebrated Oyster Bay's 325th Anniversary by having a school picnic.

A whole day of field activities including volleyball, softball, tug-of-war and racing was planned and at lunchtime, the whole school of over 600 students lined up to get their grilled hot dogs, hamburgers, watermelon, drink and slurpees. The grills were going all day long due to the

dedication of several fathers and the line constantly moved due to the continuous serving of hot food.

The Eighth Grade band 'Southbound' provided musical entertainment.

The faculty and teachers felt that it was a good experience to have all the children from grades one through eight play together and celebrate together the anniversary of their town.

## Galileo Lodge News

By Joe Loranzo

Today, as always, the Galileo Lodge strives to keep its relationships with the community and its organizations - social, business, charitable and otherwise - solidly cemented. A short time ago the Galileo Lodge donated \$125 to the Holy Trinity High School for its wonderful presentation of a variety show called "Belles & Beaus" on June 3rd. Venerable Tom Pasquarella of the Lodge presented the check to Mr. Tom O'Connor, director of the Holy Trinity Players of Hicksville. See picture on this page.

This high school variety show was presented with all of the accoutrements of a real-live Broadway venture. Moreover, the success of this performance, which also highlighted the amazing thespian abilities of the players, was measured by the full-capacity audience and their rousing roinds of applause. The proceeds from this show are to be

used to pay operational expenses of the Holy Trinity church and school. Featured as accompanist was Mrs. Peggy O'Connor of the Hicksville Dance School. Mrs. O'Connor, by the way, graciously donates the talents of her dance troupe to the Galileo Lodge during the Christmas season, at which time our organization honors the retarded children of Hicksville with parties. Thus it is not surprising that the Lodge deems it an honor and a pleasure to aid and assist these two fine people.

The Galileo Lodge's scholarship awards have been presented. The first recipient will be Mary Joe Kaleda, of the Holy Trinity High School, who will receive a \$250 check and a plaque for her scholastic achievement in Science. These presentations will be made on June 10th during the graduation exercises of this school. The other presentation

will be made to Gina Siracusa of the Hicksville High School. She will also receive a \$250 check and a plaque during the graduation exercises which will be held on June 25th at this school. These scholarship awards are part and parcel of the Galileo Lodge's Memorial Awards program which honors deceased members of our organization. Grms receives these awards for her excellence in Italian.

The Galileo Lodge takes great pride in its support of many charitable programs and ventures in the Hicksville community and perhaps elsewhere. Naturally a good portion of the proceeds emanating from Bingo operations is allocated for this particular purpose. Logically, it can be deduced that the greater the revenue from these sessions, the greater the sums given to charitable causes.

LODGE HAPPENINGS

BEG PARDON: for a period of time we inadvertently listed the dates for our Italian Feast as July 5 to July 11. The proper dates are July 11 to July 16. . . . The Beauty Queen Pageant Dance promises to be an exciting one. With so many candidates for the Beauty Queen title in view, the pleasurable dance music and the sight of delicious cuisine, how can it be otherwise. Why not try this affair for size, and with its economy prices for admission, how could you go wrong? Call 931-9351 for further details. . . . The Lodge also wishes to announce that its facilities are available for bingo rental in the event any organization in the Hicksville area may have such intentions. Call the above number for more details on this.

## Temple Beth Torah Celebrates 18th Anniversary

by Barbara Greenberg

This year, Temple Beth Torah, the Conservative Synagogue serving the communities of Jericho, Westbury and Hicksville, located in Jericho Gardens at 243 Cantiague Rock Road, is celebrating its 18th, or Chai, anniversary. The number is significant because the Hebrew letters which represent this number also spell the Hebrew word for "life," Chai.

Indeed, the word "life" symbolizes Temple Beth Torah. Temple Beth Torah as grown in 18 years from a small congregation, housed in a farm building, to a congregation of over 200 families. Beth Torah boasts of an active Sisterhood, a Sisterhood which has provided Presidents for the Eastern Long Island Branch of Women's League for

Conservative Judaism for two consecutive terms; an active Men's Club, U.S.Y. Group, Dadima Group, Junior choir, Adult Choir, Cantor's Club, and a well-organized, creative religious school which educates well over 100 students from second grade through high school. In addition to Junior Congregation and adult services, members participate in study sessions, home discussion groups and adult education classes in a program in which Temple Beth Torah participates.

It can truly be said that Temple Beth Torah, on its Chai anniversary, has something to offer to each one of its members.

In celebration of Beth Torah's Chai anniversary, students in the Religious School completed projects on their family trees, emphasizing their families' ties to

Judaism. Family trees were published in the 18th Anniversary books and exchanged. At least two families in the congregation thus discovered they are distantly related.

On May 29, a well-attended Chai anniversary cocktail reception was held at the Temple.

An 18th Anniversary Shabbat dinner will be held at the Temple on Friday, June 9, followed by a special services at 8:30 p.m. in which both the Junior and Adult Choirs will participate.

On Saturday, June 10, at 10 a.m., many past president of Temple Beth Torah will chant sections of the Torah during services, many features of which will also commemorate Temple Beth Torah's 18th Anniversary.

## Camp Fire Girls

Hicksville Camp Fire Girls on the steps of The Franklin Institute April 28th.

On Friday, April 28th, Hicksville Camp Fire Girls accompanied by their leaders, visited historic Philadelphia. The girls visited the Franklin Institute & Planetarium where they were especially thrilled by a room size replica of a beating heart. They actually were able to enter the heart and see the various arteries and veins inside the heart.

Among the highlights of the trip was a visit to the Liberty Bell and the building where the Declaration of Independence was

signed. Of course, a visit to Betsy Ross' house was a must as well as a visit to Elfreth's Alley, a quaint street of colonial buildings where homes have been occupied continuously for over 200 years.

Naturally a visit to historic Philadelphia wouldn't be complete without a visit to the Philadelphia Mint where close to 1 1/2 million coins per hour are produced.

After sightseeing and souvenir buying, the girls ended their trip with dinner at Mac Donald's. A good time was had by all.
