The special education program, once lauded as one of the best in the state, was questioned by three parents at Wednesday's meeting of the Hicksville Board of Education.

Resident and parent Arlene Rudin expressed her frustration in her inability to find an answer to "an easy problem." After 11 meetings with various administration officials, she is still trying to find out "who is responsible for the total picture of my child?" She added that everyone has been helpful and supportive, but "I've been able to find only bits and pieces all through the system, not a total picture."

Mrs. Rudin concluded her presentation saying she hoped answers could be found before a meeting with the Committee on the

Handicapped (COH on Monday. President Tom Nagle indicated that "a decision would be sure to come."

Next, parent and resident Corinne Clark indicated she had visited the district's program for Down Syndrome students and came away "depressed." She had visited other districts and the BOCES program as well. She informed the board that the district's program lacked good materials; warmth, ("the rooms are drab"); a library period; proper equipment for gym period; but most important, the program lacks the services of a physical therapist.

"Parents have been asked to bring in tools for digging in the dirt. There is no sandbox," Mrs. Clark said. She concluded "the program has stagnated,"

and she questioned placing her child in the program. Dr. David Weeks, Dir. of Pupil Personnel Services replied, that physical therapy service if they are needed, according to laws are used.

Resident Mary Sauerland thanked the board for appointing her as the parent member of the Committee of the Handicapped. She expressed concern over the possibility of the district eliminating a psychologist for next year.

"There are increasing numbers of students with emotionally-based learning problems. How can you consider eliminating a psychologist when their services are needed?" Mrs. Sauerland concluded "we must consider students first, dollars second."

Dolores Harth, President, Hicksville Secretaries Association, requested that

the Board set dates for negotiations meetings before the evening was over. Mr. Nagle, however, felt that this should be worked out between the negotiators. The HSA had suggested May 4, 6, 11, 13, and 20 at 10 a.m. Later, Mr. Nagle gave dates and times of May 4 at 3:30; May 11 at 9 a.m.; and May 20 at 3:30 p.m.

A discussion of a proposed 1981-82 school calendar was presented by Superintendent Wilbur Hawkins. The dates include school on June 28 & 29 (1982) which Trustee John Ayres felt was "not meaningful instruction time." He indicated he would not vote for the calendar with those two days.

Trustee Bill Bennett felt it was "logical to make up the two days. That's the way it falls; that's the way it goes." The calendar totals 183 days (Continued on Page 15)

WE'RE IN IT TOGETHER - Sammy Davis Jr. congratulates Citibank vice president George Baker for his and Citibank's efforts in sponsoring Sammy's One to One Benefit Concert at Westbury Music Fair. Proceeds from the concert will

help One to One continue to support more than 300 organizations dedicated to improving the lives of retarded citizens. One to One chairman Gerald Rivera and WABC-TV's John Johnson look on.

In the last few months daily newspapers have run such disconcerting statements as this: "During the 1960's, U.S. productivity improved an average of 3.4% a year. During the '70's, the rate dropped to 2.3%. Currently our productivity growth rate is virtually zero."

But what, exactly, does productivity mean? A technical explanation is something like this:

"Productivity is a measure of goods and services that the economy turns out per hour of paid working time. Declines in productivity contribute to inflation by increasing unit labor costs, which are passed along to consumers as higher prices."

A simpler definition would

be that "Productivity is the amount produced per man hour." Let's say a teenager has been mowing his parents' lawn with a hand mower, and it takes him one hour. Then his Dad buys him a power mower, and he finds he can mow the same lawn in a half hour. His productivity has doubled - increased 100%.

Apply the same principle in a broad way to workers in a country's factories and farms, and you see it has tremendous social significance. Provide them with the modern power tools and allow them to accomplish the same tasks in half the time, and you double their productivity - and their living standard! They have more time for additional work or relaxation.

How can we provide

American workers with better tools so we can boost our living standard? Just as in the case of our teenager who mows the lawn, first someone had to invent the power mower, and then someone had to provide the capital (money) to turn that invention into a reality and put it in the young man's hands. It's the same in industry generally, first inventors and engineers must devise new productivity-improving equipment, and then investors must provide the money for development and production, and its purchase by America's factories.

Unfortunately, various government policies - obsolete patent laws, heavy taxes and burdensome regulations have discouraged invention and development of new

products. In the 1950's, 82% of the world's major inventions brought to market were developed in the U.S. By the late 1960's the figure has declined to 55%.

At the same time, excessive taxation of personal savings, of corporate earnings and of private income from the sale of securities and other assets has hampered the savings and investment needed for the research, development and purchase of new modern industrial inventions.

That's why knowledgeable economists and thoughtful legislators are proposing tax reform and regulatory relief to increase the invention and investment needed to boost America's productivity, and, in turn, to boost everybody's standard of living and to increase employment in the private sector.

Do We Really Understand Productivity?

Jewish Heritage Week, May 3-10

Jewish Heritage Week to be marked this year, May 3-May 10 will be observed at several locations on Long Island. This will mark the third year that Mr. Purcell has issued a proclamation for Jewish Heritage Week, extolling the contributions of the Jewish community to every aspect of American life. A similar proclamation will be issued by President Reagan this year, as well as a joint resolution by the Congress of the United States making this a national observance.

The proclamation was most significantly issued this year to coincide with the morning of the fast of the first born son, to commence the holiday of Passover, commemorating the exodus of the Jewish people from slavery in Egypt to redemption and freedom. During this period in May, Jews will also be observing Yom HaShoah, a day of remembrance of the holocaust, and Yom Haatzmaut, Israeli independence day.

Mrs. Amer, Jewish heritage week chairman, for the JCCL, Nassau Branch, announced the following calendar of exhibits:

JERICHO LIBRARY: 7 paper cuts depicting the creation, by artist Tsirl Waletzky, who specializes in this ancient art.

A & S WINDOW HEMPSTEAD: Serigraphs by Lydie Egossie of Pt. Washington & Sag Harbor.

A & S OUTSIDE SECOND FLOOR RESTAURANT: Collection of posters by Israeli artists.

FRANKLIN SQUARE LIBRARY: A mini exhibit.

Several banks will feature exhibits related to Jewish heritage. The Chemical Bank on Rockaway Turnpike, Lawrence, will show drawings of Jewish life in 19th century Germany, by the artist Moritz Oppenheim. The Bowery Savings Bank, Sunrise Highway, Massapequa Park, will show a display of children's drawings of scenes from the Bible, and children's drawings and writings from the holocaust. Artist Chaim Gross' rendition of the Jewish holidays, pictures of Judaic items and their significance will be some of the items to be seen at three branches of the Suburbia Federal Savings Banks: Garden City, Lynbrook & Huntington. Photo-

graphs taken from past exhibits of "Life on the Lower East Side, Portal to America" can be found at the Central Federal Bank, East Park St. Long Beach; and in a similar vein, the original photos used in Irving Howe's book, "The Way We Lived" will be on display at the

Plainview YM/YWHA. Finally, At the American Savings Bank, Hempstead Tpke, East Meadow, one will find a series of posters related to the Jewish contribution to the shaping of America.

For further information, call Jo Amer, Fr 4-0648.

Members of the Jewish Community Council of Long Island, Nassau Branch, which sponsors Jewish Heritage week in Nassau County, attend an executive ceremonial to kick off the event. From left to right, [executive director] Tobie Newman of Baldwin Jewish Center, [President] Charles Hoffer of East Meadow Jewish Center, County Executive

Francis Purcell, Marlene Post, President of Nassau Region of Hadassah, [Jewish Heritage Week, Chairman] Jo Amer of Hewlett.

Also attending but not shown in the photograph were [Treasurer] Ruty Goodgold of Woodmere, [corresponding secretary] Phyllis Weiss of Old Bethpage, and Sam Hochberg of Oceanside.

Dear Friends...

At The Town Board Meeting
Whether you agree with them or not, the group of Hicksville residents who appeared at the Tuesday, April 28 Town Board meeting in Oyster Bay to oppose an abortion clinic in Hicksville, are doing something that we do not do enough. They are making their wishes known to their elected representatives. Incidentally they presented petitions containing 10,000 signatures opposing this facility, to the Town Board. Also, it might be well to either "repeal, or amend" this law, if the Town does not plan to enforce it.

The Board approved Resolution No. 293-1981 grant the request of the Plainview Fire Dept. for authority to provide for volunteer firemen to attend a funeral as a company or department function pursuant to and in accordance with amendment to the Volunteer Firemen's Benefit added by Chapter 307 of the Laws of 1980 and Section 1402 of the Not-For-Profit Corporation Law.

The Board also approved Resolution No. 513-1981 directing the Town Clerk to advertise notice of a June 9 hearing on the petition of Robert Gross, M.D. and Enid Gross for a change of zone from Residence D to R.O. Residence-Office District on the northwest corner of South Oyster Bay Road and Garden St. in Hicksville.

The Board also approved Resolution No. 330-1981 approving the site plan under Resolution 267-80 on the application of the TOB Housing Authority for 117 units of Senior Citizen Housing with access from Central Park Road and emergency access through Georgia Lane in Plainview.

They also approved Resolution No. 333-1981 relating to the petition of Central Park Plaza for a change of zone at Plainview, the hearing on which was held on Jan. 27.

They also approved Resolution No. 336-1981 relating to the petition of J. T. Motors, Ltd., and Jim-Lyn Realty Corp. for modification of restrictive covenants at Hicksville, the hearing for which took place on March 10.

THAT'S ALL for this week. Stay well.

Silverman; for the resignation of Robert McNew, Dennis A. Adelman, Sylvia Samuels and Marc Herbst.

Candidates for the Library Board, for the expiration of the term of Luke Farley are Joseph Eisner and Lorraine McCullen.

Registration for voters will be held on Monday, May 4, from 12 noon to 10 p.m. at the three election districts.

Copies of the estimated expenses for the school year 1981-82 may be obtained by any taxpayer in the District at each school house daily, except Saturday and Sunday, on and after May 6, between 9 a.m. and 4 p.m. Copies of the estimated expenses of the Library, may be obtained at the Library on or after May 6.

Dear Mrs. Noeth:

"Black gold" belonging to the residents is disappearing steadily from the Hicksville Park District land parcel situated between East Old Country Road and Plainview Road. People are helping themselves to public property, a fast disappearing large mound of very rich topsoil scraped off the top of a portion of park land, recently, so as to clear a temporary parking and storage area for Nassau County engineers. The Town of Oyster Bay's Park and Recreation Department is rightfully cooperating with the County, but it should not be at the expense of Hicksville's park district.

The contractor who removed the rich top soil placed the temporary parking and storage area inside of a chain link fence so as to safeguard County Engineer vans and property, but left the mounded up topsoil outside the fence where people are removing it with cars and trucks.

The contractor is required to replace the top soil to the park land, eventually, Town personnel explain. Maybe so, but when the restored soil lies on a mere half inch of top soil or on fill trucked in from another site, Hicksville residents using the park, someday, will be the poorer for the unnecessary pilfering of their natural resource.

There is still time for Commissioner Tom Gallahue's Town contractor to truck the top soil to the ample space inside the fenced and secured area, thirty yards to the east.

To the Editor:

In regard to the Library Election held on April 15, I was shocked, but not surprised of the conduct of the Hicksville Congress of Teachers.

It's only natural that the H.C.T. supported Mrs. Buckner, since she was a teacher, but why resort to a last minute flyer distributed in teachers' mailboxes? Could Mrs. Bennett have been entitled to the same benefit? I don't think so.

If the H.C.T. supported Mrs. Buckner, why hide it? Why not come out in the open and tell the people her qualifications for trustee? Were they afraid she might not stack up compared to Mrs. Bennett?

It seems to me that the only reason the H.C.T. got involved in the election is because Mrs. Bennett is married to School Board Trustee William P. Bennett. The H.C.T. played petty, underhanded politics just to get revenge at Mr. Bennett.

Opening Day! What a beautiful phrase! All the pitching, hitting and running practice that the boys and girls have been doing over the past few weeks will be put to use as the first ball is thrown out on Saturday. Councilman Clark will be there as well as Town Clerk, Ann Ocker, Sister Eileen and Father McGrath have been invited. It should be a beautiful day for the march around the field after everybody meets at 11:30 at the old

In my opinion the Teachers' Union should take care of their own problems, and stop meddling in areas where they have no business.

Very truly yours,
Daniel C. MacBride,

Dear Coach,

You told me you wanted to win. Winning was very important to you and that some of the other parents on the team jumped on your back if you don't win.

Well, you have a child on your team who doesn't care that much about winning. All that child wants is to play an equal amount of time so he feels that he contributed to the win. He really doesn't feel playing 10 or 15 minutes out of 90 helps.

You and that certain group of parents have decided that because of his physical appearance (small or big) he is only qualified to play in a certain position. It doesn't matter if he is happy playing there or not. I know you have a responsibility to all the players and a child can not decide where he wants to play, but in a 10 game season you could let him try different positions especially when you are winning by a good margin. Most sports clubs have a time requirement; why can't you follow it? Is it so hard to find a place for that child on the field?

A child is really not responsible for his height, weight, lack of coordination because of his growth, or because of his lack of popularity or of his parents actions. Maybe he is the one who needs you and the team the most.

You said it was his decision if he wanted to drop off the team. Do you feel children 6-12 can make that choice without doing it emotionally? Is he so expendable? Our jails, mental hospitals, drug programs etc. are full of expendable people.

Sports are important, especially to the young, they learn about themselves and others. They are becoming aware of self-esteem, is it really necessary to belittle them thinking that will make them better players?

I would rather have you lose every game and feel that every child came away from that field feeling that he at least participated in the game and that he played his best. You said teams are made or broken by a winning or losing season. A child can get over losing game or losing a whole season. To redeem a child's self-esteem or trust in others is not so easy.

Maybe next year he will grow, become less awkward, become more aggressive, he

might even learn to handle his problems in a different way so he will not be a behavior problem.

You said it was hard with 10 to 15 children on a team to coach, I agree with you, but you seem to forget all those children are individuals. Please give all the children a chance, not just your 6 or 7 favorites. You wanted to coach to teach children to play a sport you like. All the children on the team like the sport or they would not be playing it, especially with so many sports to choose from. I am afraid some are growing to dislike not only this sport, but all organized sports simply because of the lack of caring on your part and the club's.

I did not name which particular club is responsible because of retribution. I am sure all the different clubs and coaches are having the same problems.

As a coach you can change this situation.

Name Withheld Upon Request

Dear Mrs. Noeth:

Recently Supervisor Colby announced the town's plan to proceed with the so-called Duffy Avenue Extension. As someone most interested in our community, I can not understand the benefit the residents of our community will derive from such an extension. Other than town councilman Thomas Clark, I have yet to hear anyone else speak in support of this extension. Support for it is simply underwhelming.

On the other hand, I have heard some very good reasons why the proposed extension is not in Hicksville's best interest. Here are a few of the reasons:

1. The increased traffic going east towards Plainview would bottleneck at New South Road and Old Country Road. The bottleneck at Newbridge Road would simply be transferred across town.

2. The town just spent thousands of taxpayers' dollars to refurbish the town parking lots behind the Dalton Funeral Home. The extension would run right through it at an additional cost to all of us. We would also lose many needed parking spaces. More of our tax dollars would then be used to put in additional parking to replace what was lost by the extension.

3. The extension would also increase traffic in front of the firehouse. During the morning rush hour, the traffic going west might even back up from Broadway to the firehouse and impede the ability for our firemen to respond to a call.

4. The extension will

necessitate West Marie Street becoming a dead end at Broadway. Retail business will be killed on West Marie Street causing a possible blight in the area along with the loss of tax dollars.

5. The proposed extension would also leave non-conforming parcels like those on the west side of Broadway. The "problem along Broadway" will now be referred to as the "problem along Broadway and the Duffy Avenue Extension."

6. The extension seems to represent a philosophy that Hicksville is to be turned into a large commercial area for big business, and I am not sure this is what residents of our community desire or deserve.

The question of why? now remains. One can not help but wonder if there are other reasons underlying this proposal.

If you share my opinion, please write a note to Mr. Colby or telephone him. For

Holocaust Memorial Program

A meaningful Holocaust Memorial Service will be held at Midway Jewish Center, Syosset, on Sunday, May 3rd at 8:00 PM. This moving program, prepared and performed by Midway members includes pertinent topics such as Why Remember, Life in the Ghetto, Resistance, and poems written by the children of the concentration camps.

This special service marks the observance of Yom Hashoah, the Day of Remembrance of the Holocaust, and the entire community is urged to attend. As stated by a spokesman of Midways Men's Club, under whose auspices the program was prepared, "...are we not each responsible for the Kaddish (Prayer of remembrance for the dead) of the 6 Million!"

James Harkins of Hicksville is gearing up for his third consecutive running of the Long Island Marathon which takes place on Sunday, May 3rd. James completed the grueling 26 mile course on each of his first two attempts but is training even harder this year to finish in the upper brackets.

Harkins Runs Third Time

This very popular event, which draws thousands of L.I. participants, begins at Eisenhower Park and winds south to Jones Beach, makes a turn and returns to the park via Wantagh Parkway which is closed to traffic for the day. The Marathon is sponsored by Nassau County and receives a

great deal of help from the Nassau County Police Dept. and many other volunteer groups.

James, who is 16 years old and a junior at the Hicksville High School, has been running most of his life and is a member of the Cross Country and Winter Track teams at school and plays soccer for

the Hicksville Soccer Club. A month ago, in a warm-up for the big one, James came in first in his age group in a race that exceeded 18 miles. He is continuing his workouts for another week before the big race.

Best on Luck on May 3rd, James.

therefore, must be well aware of the problems presented at my many meetings regarding the G-1 area. Along with the problems, I have always emphasized the lack of available parking, increased use of the Hicksville Railroad Station and the absolute necessity to strengthen out the traffic flow, east and west.

Many drawings have been prepared and presented to the County; so far, none being the accepted one. The Safety Engineer for the County has stated many

times that a five-corner intersection would not be built because of the unsafe condition it would create.

There is much to discuss with regard to traffic, parking and development of the G-1 and I would appreciate the opportunity to meet with you and your members to explain in detail the numerous proposals.

Sincerely,
Thomas L. Clark.

VENERABLE ANTHONY PREVITE'S MESSAGE: A great many people think they are thinking when they merely are rearranging their prejudices. William James.

SUCCESS doesn't just happen. You don't pull it out of the air like a magician's trick. Success is a commodity borne out of hard work, dedication and loyalty to a cause. The point of all this is that the Galileo Lodge added another link to its long chain of successes last Saturday night, the 26th of April, at which time the Galileo Lodge presented its 9th Anniversary Dance.

Over 225 members, friends and patrons "invaded" the Galileo Lodge, eating heartily, imbibing joyously and dancing merrily to the lilting melodies pouring out of the Jimmy Marchese combo.

Success is people and people are members. And the proud members who toiled incessantly, namely, Chairman Joe Giordano, co-Chairman Pete Masiello, and a committee consisting of Venerable Tony Previte, Pat Gatto, Dante Perotti, Frank Matassa, Armand Del Cio, Frank Bove, Nancy Bove, Frank Governale, Rose Malone, Jeff Wallick, JoAnn Wallick, Michael

Garrone, Mary Sarrera and Ann Palermo deserve commendation upon commendation. Needless to mention that the same praise can be bestowed upon the heads of the kitchen stalwarts, Andy Guiliano, John Sarrera and Skip Monteforte. A \$1500 lottery (and other monetary prizes) also enhanced the festivities. The Galileo Lodge extends a special 'Thanks' to these members in acknowledgement of their sincere and indefatigable efforts, because the fruits of their labor are so much a part of the organizational efficiency of the Galileo Lodge.

Many notables were on the scene, such as Town Councilmen Ken Diamond, Tom Clark, Doug Hynes and John Venditto, who presented to Venerable Tony Previte and the Galileo Lodge a Proclamation which extolled the virtues and attributes of our organization. Also in Attendance were, Joe Jablonski, Executive Leader of Hicksville, 1st Asst. Grand Venerable Joe Montamarano of Grand Lodge and Joe Cangelme, Grand Commissioner of Arbitration. The membership of the Hicksville Kiwanis Club was recently treated to a series of talks about ENERGY at their Wednesday luncheon meetings.

At the April 8 meeting, Mr. Jeffrey J. Tucker of the Shell Oil Company represented the New York State Petroleum Council with a talk about petroleum based products such as gasoline and fuel oil.

At the April 15 meeting, Mr. Richard Botto of Botto Bros. Plumbing and Heating, Inc. presented a discussion on the use of natural gas for heating purposes.

In the lower photo, Kiwanis Vice Pres. Mr. Charles Montana, Jr., is thanking Mr. Tucker for his presentation about oil.

In the top photo, Mr. Botto, center, is accepting a certificate of appreciation from Mr. Montana, as Kiwanis Pres. "Brad" Hsley looks on with approval.

HIX AM. SOCCER (Continued from Page 7)

played the Yankees hard and lost by only a 1-0 tally. The boys remembered this and did not take the game lightly. For the first five minutes, the two teams felt each other out; then Steve broke loose and fired one which was saved by the Hauppauge Keeper. The problem was that he couldn't hold the ball and deflected it straight out in front of the net. Adrian Pepl, following the play buried the ball in the net. Adrian has been playing super soccer and leads the team after six games with 14 points (5 goals, 9 assists). Five minutes later, Steve Dolan from center fullback got the ball at mid-field, saw some space and carried the ball another 15 yards, avoiding a mid-field tackle. With still a bit more room, he pushed

the ball out front and sent a low hard 30 yarder on net which eluded the keeper. Before halftime, Jimmy Demarco put two more in and the match was decided right there. The final fifth goal was scored by Steve Thompson off a pretty assist by Robert Pearce.

With two big games next week (North Shore in the Regional Cup & Massapequa in the L.I. Cup), coaches Bill Cresham and Pat McHugh have to keep the boys playing good, solid soccer. So far, they've responded beautifully and, an added incentive is that Frank Feldman has won the job of permanent head linesman over six parents competing for the job. Good Luck Yankees.

Undeclared Season For Hicksville Jr. H.S.

By Howard Finnegan

Just the very thought that maybe again...

It was eighteen seasons ago that a likeable, court savvy group of Hicksville Junior High basketball players burst on the scene.

Such fondly remembered names as Jim Berholtz, Chris Collette, John and Vinnie Coletta, Bill Luft, comprised a team that swept unblemished through an 18 game schedule.

For the ensuing four years, they carried Hicksville High colors on a high plateau of competition.

Contests with Lutheran, St. Agnes and Hempstead were heralded encounters.

In 1967, Hicksville recorded two of its major victories. One was a win over polished, all powerful Lutheran engineered by the sheer

brilliance of Berholtz.

The other was the stopping of great Bob Goldsmith and undefeated Malverne on the Freepoint Boards.

Hicksville, under coach Ed Petro, had vaulted into the playoffs with a regular season record of 16-1.

Wayne "Buddy" Bryan was the Junior High coach those eighteen years ago. And now we have come full cycle.

The 1981 Jerusalem Ave. school compiled a 14-0 record under the tutelage of Edward Moeller.

Dave Smyth lead the team in scoring honors and was awarded Most Valuable Player honors.

Both hustle and defensive awards were won by Harvey Chin.

Each member of the team contributed to the record and give future promise to Hicks-

ville basketball.

Steve Aelgier, John Antolino, Joe Bentrewicz, Bill Cheslock, Harvey Chin, Ron Collettori, Bob Doig and Jim Gerb were on the team.

Also, Jim Glenn, Mike Leogrande, Kevin Martin, John McAleese, Steve Rokito, Greg Rybak, Ken Sciafaras, Dave Smyth and Neil Storms.

These boys are scheduled to move to Hicksville High and coach Wayne Bryan.

Just the possibility...and the pulse quickens!

should select a college that is affordable - within the family's means.

Other problems include course selection, leaving home, employment, peer pressure, and adaptation to new surroundings. Can a student do without parents for months on end? Can a

parent do without their child for that length of time? Does the student wish to attend a city-like school? A suburban one? All these questions must be taken into account or the final college selection could prove to be hazardous to all parties involved.

Hicksville Resident Honored By Adelphi

Julie Thompson, director of the Children's Centre for Creative Arts, was one of seven people recently honored by Adelphi University at an award dinner for her long time dedication and service to the school. Julie, well known in Hicksville for her kind and gentle manner, has been involved in the arts

since the age of four when she began her first dancing lessons.

At one time in her theatrical career she had the distinction of having performed for more children in the United States than any other professional actress, her favorite roles having been Beauty in "Beauty and the

Beast" and Wendy in "Peter Pan."

"I never felt at home on the New York stage until I performed for children. Children love the dependability of having Truth told to them through imaginary situations. I loved their eagerness, their marvelous trust. Here I felt was a demand that required my best efforts and that has always inspired me to do my best."

In 1947 Grace Stanistreet, founder of the Children's Centre, booked Julie in the title role of "Red Riding Hood," performed by the Children's World Theatre which Julie had helped organize. "The two wolves in that performance were, interestingly enough, Jason Robards and Tom Poston," Julie remembers.

But it was Julie's rapport with the children that so impressed Grace she offered her a job at the Centre whenever she might be available. Eleven years and four children later, Julie joined

the Children's Centre as a drama teacher, later assuming the directorship in 1973. "When people ask me about the Centre, I tell them how grateful I am to be part of the teamwork there, both of faculty and children. It is within this kind of a democratic structure that the seeds of peace are sown for humanity. I get a great satisfaction seeing the interplay of flexibility, freedom and discipline at work."

"When I'm working with older students I feel a real joy knowing I've helped them stay in touch with- or sometimes discover for the first time - the childlike quality which we all need to be whole people. But I guess the joy I feel could be summed up by something a student recently said to me: 'After that class, Julie, I feel five inches taller!' It's just that kind of experience, when I can make someone become more aware of his own self worth, that explains what the Centre means to me."

Families For Life Club News

Families For Life is the local pro-life group. The next regularly scheduled meeting will be on Wednesday, May 27, at 8 PM at Levittown Hall, Beech Land and Levittown Parkway, Hicksville.

In the first two days of a Senate subcommittee hearing last week seven distinguished medical professors testified that human life begins at conception (fertilization), and another said that he didn't know. The subcommittee, headed by Sen. John P. East (R-NC) is considering a "Human Life Bill" that would define human life as beginning at conception, and would confer personhood on that life. Vested with personhood, the developing baby would then come under the protection of the 5th and 14th Amendments, and abortion would, in effect, be outlawed.

Two of the professors in the majority were Dr. Hymie Gordon, Chairman of the Department of Medical Genetics at the Mayo Clinic in Rochester, Mn, and Dr. Jerome LeJeune, Professor of fundamental genetics at the University of Rene Descartes in Paris. Both were interrupted in their

testimony by six members of the Zap Action Brigade, one of the more zealous groups of the women's liberation movement, and they had to be carried out bodily. Gordon testified: "This is the first time I have had to argue the unarguable - that life begins at conception... It is the duty of the legislature to put the Supreme Court to rights on this issue."

Professor Le Jeune is the noted scientist who discovered that an extra chromosome is the cause of Down's - syndrome (Mongolism). Included in his testimony was a description of an 11 week old embryo's life in the uterus. "The baby plays, so to speak, on a trampoline. He bends his knees, pushes on the wall, soars up and falls down again."

Then, in dark contrast, there was Dr. Leon E. Rosenberg, Chairman of the Department of Human Genetics at the Yale University School of Medicine who said, "... I know of no scientific evidence which bears on the question of when actual human life exists." On its face this was an incredible statement coming from a supposed expert who,

evidently, was alive himself. Predictably, Rosenberg was quoted extensively on radio and TV, with clips of his testimony on the evening news. Apparently such statements make it more palatable to terminate a pregnancy than to kill a human being. This aspect of the abortion question was commented on way back in the September 1970 issue of the *Journal of the California State Medical Assn*: "... it has been necessary to separate the idea of abortion from the idea of killing which continues to be socially abhorrent. The result has been a curious avoidance of the scientific fact, which everyone really knows, that human life begins at conception, and is continuous, whether intra- or extra-uterine, until death."

The very considerable semantic gymnastics which are required to rationalize abortion as anything but taking a human life would be ludicrous if they were not often put forth under socially impeccable auspices. It is suggested that this schizophrenic sort of subterfuge is necessary because, while a new ethic is being accepted, the old one has not yet been rejected."

Plainview Resident Receive Awards

Sylvia Rubinstein and Doris Rosen of Plainview were among over 200 volunteers awarded Certificates of Appreciation by the Home Economics Division of Cooperative Extension Association of Nassau County on April 27.

As volunteers, they attended the training course "Entertaining in the 80's," taught by Cooperative Extension and shared the skills they learned with members of Plainview Old Bethpage Chapter of Nassau County

Homemaker's Council.

Volunteer leaders like Mrs. Rubenstein and Mrs. Rosen made it possible for Cooperative Extension in Nassau County to extend the resources of Cornell University to members of the community.

Groups interested in learning more about the leader training programs should write to: Home Economics Leader Training, Cooperative Extension Association, 1425 Old Country Road, Plainview, New York 11803.

GALILEO LODGE NEWS (Continued from Page 6)

lodges were also present.

Another success story quite evident at the Galileo Lodge is the totally immersed Ladies Auxiliary, and with these determined and sprightly ladies in mind, why don't I mention that Mary Monteforte will 'chair' this activity. Carmen Russo (831-1054) is handling tickets sales and seating arrangements, aided and abetted by Sue Larenti. Dolores Ragone will oversee all activities concerning the decoration of the Galileo Lodge, which will have as it theme the billowy moods and flowery atmosphere of May time. For the modest sum of \$9 per person, you will be offered a delicious roast beef dinner with all the trimmings, beer, soda, coffee and cake, set-ups and soothing dance music from the Dioneses. Please note that a 'bring-your-own-liquor' policy will be in effect that night. As the nice, warm weather infiltrates our surroundings, about to engulf us, why not head for the Galileo Lodge on the date mentioned here and treat yourself to the artistry of the Ladies Auxiliary and the congeniality they provide for all who will attend.

LODGE TIDBITS:
A pleasure to announce that Carl Meliusso will 'chair' the Galileo Lodge's

August Dance, which, incidentally, will feature the customs and festivities of the Italian weddings of the past. More on this activity in later columns. Nice to see Clara and Carl at our recent Anniversary Dance... Nice to see Mr. and Mrs. Augie Riccardi Sr. and Mr. and Mrs. Frank Bove looking so cheerful and spry after returning from their extended winter vacations... Italian feast and the Blood Bank day will soon be upon us and we are looking forward to them... Don't forget the bowling information presented here, so contact Jeff Wallick (881-8428) and Jim Pino (822-7080) for more details... Nice to see that Joe Giordano, Grand Trustee of Galileo Lodge, along with his committee members (some mentioned here), have been responsible for a number of successfully-run Lodge dances. The Galileo Lodge fully acknowledges such fine efforts.

LEGIONNAIRE'S LOG.

By Artie Rutz

CHARLES WAGNER POST # 421
HICKSVILLE, N.Y.

"One Of The Grass Roots Of The American Legion"

REHABILITATION is defined as the process of restoring or supplanting capacities, by one dictionary, another says "the restoration of opportunities which have been lost or impaired". The American Legion defines it this way, "to rehabilitate the disabled war veteran is make one capable of becoming a useful member of society". Those few words however indicate the basic aim and purpose of the rehabilitation program of The American Legion. Of course it was a grand thing to foster and bring into being a thought that was not new with veterans of our earliest wars. But the American Legion, after declaring its purposes and outlining its organization, created committees to do its work.

There were twelve commissions established to care for efforts of The American Legion. One of this twelve was, and is, the NATIONAL REHABILITATION COMMISSION which set out to bring all help for the veteran

under one umbrella. The American Legion believes it to be public policy of this nation to make available to its veterans the highest quality of rehabilitation services, and to grant to those who are disabled, or to their widows and orphans, compensation and pension commensurate with their needs. This belief is not without foundation if we look back into history and discover that 150 years before the Revolutionary War, the colonies of North

American, acting independently, granted pensions to persons disabled while fighting in their defense. Thereafter, the veterans' benefits program grew in a rather piecemeal fashion dependent upon the need of the veterans' votes by the politics of the times. And so it went for the veteran, a little here, a little there and a lot of maybe until The American Legion came into the picture. Care of the disabled was the first concern of The American

Legion when the First National Convention convened in 1919. Out of this concern for the war disabled and the privations they and their dependents underwent came the development of the comprehensive network of rehabilitation services extending into virtually every city and town in the nation. During this 1919 convention, two committees, the Committee on War Risk Insurance and the Committee on Beneficial Legislation were set up to handle all matters relating to veterans and their dependents. The following year the National Hospitalization Committee was created for the purpose of aiding in the development of an adequate

medical service for the nation's sick and wounded veterans. Interestingly, this committee made a recommendation to abolish all committees of the Legion heretofore concerned with different phases of the problem of the disabled veteran, and to appoint one committee "charged with responsibility in the entire field of veterans' problems". The Third National Convention in 1921 saw the first move in the direction of a unified program. Accepting the recommendations of the early committee, the Convention established the Committee on Rehabilitation. Now were we on our way to the present day (Continued on Page 11)

ED PROGRAM (Continued from Page 1 Hicksville)

of instruction. The board will approve the calendar at a later meeting.

In other business, the board approved E.S.E.A. Title I Summer Program for summer remedial reading and mathematics from July 1 to July 28. The cost is \$10,028.11 and is completely funded with federal funds, according to Dr. Fenton.

The board adopted a policy concerning educational records and regulations for eligibility for participation in

varsity athletics.

During the discussion on education records, which details who may & who may not look at a student's record, Dr. David Weeks, said the basement of Lee Avenue school was "loaded with records" and suggested microfilming them. However, he did add that this was a costly project. This was in response to Trustee John Ayres inquiry on retention of records.

Trustee Virginia Germer

discussing the policy on athletics, was concerned about having a doctor available for both sexes to perform physicals.

Richard Hogan, Director of Physical Education, explained that the nursing staff would do the maturation checks on the female students who wished to participate.

The board approved claims and warrants and discussion took place concerning collect telephone calls made by board members from their place of business to the administration building, which is costly. Mr. Ayres suggested a petty cash system. The board, however, did not make any final decision.

Mr. Bennett and Trustee Neil McCormack announced they would seek re-election to the board. Their term expires June 30.

"The quality of a life is determined by its activities," said Aristotle. This proverb is as true today as it was in Aristotle's time. Have you examined your activities lately? Have your activities been all work and no play? If your answer is yes, it's time to reexamine your priorities and be a little kind to yourself. Remember, you're your own best friend;

indulge yourself - you're worth it.

Did you wonder what the above is all about? Well, we're leading into a last-minute commercial about our 1981 Cocktail Party and Dance which will be held Friday evening, May 1, 1981, at Antun's Old Country Manor. Read on... our club president, Fred Vevante, will tell you more in his

message which follows:

"Our April meeting was a great success and, as usual, we had a good turn out. Ann Ocker, Town of Oyster Bay Clerk, was our guest speaker for the evening and was very informative. Thank you, Ann.

"Our next meeting will feature County Executive Francis Purcell as our guest speaker. Everyone is invited to attend. Remember, you don't have to be a member to attend our meetings.

"The dance committee headed by Hal Mayer is nearing the final stages; and from the look of things, we will be ahead of last year. Don't forget, May 1st is the dance date at Antun's. If you haven't bought your tickets, now is the time!

"On May 25 the E.F. Franke Republican Club will march for the Memorial Day Services. Please call Val Zito for information and to let her know you will be marching. Call her at 931-6829.

"Marie Bergin, our membership chairperson, reported that we now have 425 paid up members for 1981. Our goal is 800 members. Have brought in a new member this year? Don't forget the person bringing in the most members will receive an award. The membership drawing will be \$20.00 for the next meeting. You must be present to win.

"Ruth Farrell has not been feeling too well. She has our best wishes and prayers for a speedy recovery. If you know of anyone that is ill, please call Helen Henderson, chairperson for Good and Welfare, at 433-8265.

"Anyone that has information of importance, please call me at 931-4287. Thank you for your continued support. Fred Vevante"

For your convenience we are printing an application form at the end of this column. Please make use of this form if you have not paid your 1981 dues or if you wish to join our club. Along with

Hicksville residents will have an opportunity to vote on the proposed School Budget and candidates for the School Board on Wednesday, June 10, from 10 a.m. to 10 p.m. in the seven election districts.
