Dear Sir:
I just finished reading your article about the New Image Drum Corps losing their home. The only thing I am feeling at this point is despair. Despair that such a worthy organization is facing extinction unless housing

can be found. In my 6 years with the St. Ignatius Girls, I have never heard of a corps being able to survive without sufficient area to conduct business, store instruments and other various essentials. Something MUST be done to save that

organization.

So many, many of my adolescent memories are centered around the corps. Practicing for seven hours on a Saturday in July in 95° with 80% humidity, wishing to be at the beach. Then, three weeks later, standing

on the field in Mile High Stadium in Denver receiving applause from 30,000 people. There's no other feeling in the world like it!

I've been to Mt. Rushmore in South Dakota, the Expo in Montreal, Lambeau Field (also known as Packer Stadium) in Green Bay, Wisconsin, Casper, Wyoming, Denver, Canton & Marion Ohio, Lynn & Salem, Massachusetts, Pennsylvania and Brantford, Canada to mention a few.

But, the corps has not been all glamor and fun. There are so many other aspects that an outsider would never know about for example, the usual night accommodations were a sleeping bag and a gym floor. Not the most comfortable, especially after a few nights. After every stay at a school, armory, church or Legion Hall, even if it was just one night, the place was immaculate when we left. The condition on our arrival didn't matter, it was spotless when we left. We swept the gym and halls, cleaned the kitchen (when they were available), mopped the shower (when available) and most of the time, we went as far as scrubbing the toilets. We practiced for hours at a time, had long exhausting bus rides, buses breaking down in the middle of nowhere.

Dear Friends. . .

GOOD NEWS.....Jeanson Place has now officially been changed to "ingress only," from Nevada St. into Mid Island Plaza. This will prohibit drivers from using the Plaza as a short cut from John St. to Nevada and will, to a great extent, cut down on the traffic in this congested area.

As a result of the Town of Oyster Bay's action in the case, it will not be necessary for the State Dept. of Transportation to condemn 8 ft from the small front yards of some of the houses on one side of Nevada St. and 5 ft from some of the houses on the opposite side of this street...which action, should it have been necessary, would have rendered these homes worthless.

The success of this action was due, not only to the Town's positive action, but also to the work of hundreds of local residents who worked together as Civics, as a Council and as individuals. It is our hope that we can all continue to work together in this way in order to solve whatever problems affect our community in any of its areas. Thanks to all who helped.

We hope you say "yes," when your neighborhood friends who are members of the Girl Scouts come knocking on your door with a polite request that you buy some of their famous cookies. This annual Cookie Sale started last Friday, so it won't be long now before they pay you a visit. This is a fine organization which has been serving our girls for many years. The price of these cookies remains at \$2.00 per box but there is quite a selection to choose from. Just in case you are not at home when they stop by, phone the Nassau Council of Girl Scouts at 741-2550 from 9 a.m. to 5 p.m. and your orders will be referred back to your local community.

Once again, Gov. Cuomo has submitted a proposed state budget that would eliminate millions in "Save Harmless" State Aid. The "Save Harmless" part of our present budget simply stated, means that no school district will receive less state aid than that which they received last year. However, we have heard from almost all of our State elected officials in the Senate and Assembly and they will be fighting hard to restore the "Save Harmless" State aid to all the school districts on Long Island. If they are successful our school taxes will not have to increase as they will have to, if the Governor's proposed elimination of the "Save Harmless" aid, should be successful. A letter from you to your elected officials would be helpful on this matter at this time. We're sure that all our PTA's will also be doing all that they can along these lines.

THAT'S ALL for this week. Stay well and remember the old proverb: "Forsake the foolish and live," or, perhaps we should say, "Reach out, if possible, to help the foolish, so that they too can live."

Tully Calls Cuomo School Aid Plan A Disaster

Charging that Governor Cuomo's proposed 1986-87 state school aid budget would have a "disastrous impact" on the quality in Nassau's 56 school districts, State Senator Michael J. Tully, Jr. (R-Roslyn Heights) has vowed to press for the restoration of some \$34 million in vital save-harmless aid to local districts throughout the state.

Tully pointed out that although the Cuomo budget promises a total \$312.71 million increase in state aid to education, New York City would receive 60 percent of the amount while 44 of Nassau County's 54 school districts would lose over \$13 million in aid.

Tully explained that state aid under the save-harmless formula means that a school district cannot receive less operating aid than that in the previous school year.

Zeroing in on the disastrous impact of Cuomo's proposal to eliminate save-harmless, Tully released the following projected state aid figures for schools in the Seventh Senatorial District:

District	1986-87 \$ Loss	Percentage Loss
East Meadow	-602,640	-3.93%
Valley Stream	-131,473	-.5%
Franklin Square	-249,520	-12.85%
Westbury	-246,416	-5.92%
East Williston	-180,418	-12.30%
Roslyn	-203,774	-6.73%
Port Washington	-314,037	-7.10%
New Hyde Park	-23,747	-2.19%
Great Neck	-873,598	-15.28%

Herricks	534,059	-10.37%
Mineola	375,528	-10.75%
Carle Place	-114,797	-7.14%
Hicksville	-607,672	-7.00%

Only Elmont and Sewanhaka would receive modest increases of \$469,855 (+12.27%) and \$76,648 (0.68%), respectively.

Figures for Manhasset schools are incomplete.

Tully vowed to join his colleagues in the Senate in Assembly and fight for what he termed "a more equitable distribution" of state aid to education.

"There's just no way that we're going to allow this unfairness to continue," Tully stated. It's unfortunate that local school administrators are again forced into this annual guessing game over school aid."

HJHS Auction A Success

From 2:30 to 5:00 P.M., on January 15th, the auditorium was filled with the sound of "Going... going... gone!" The students, parents, and staff of the Hicksville Junior High were bidding on toys, household

items, and gift certificates.

Miss Peg Costigan, Faculty Advisor of the Leadership League of the Gifted and Talented Program announced that the proceeds of the event amounted to \$1061.75. These funds will be used for enrichment activities and to provide scholarship opportunities.

Chris Mammias, Eddie Marshall, Kris Mott and Thom Karukakalam, the student auctioneers, set a professional tone for the sale. They encouraged the audience to bid and have fun. Everyone was a winner.

The item which drew the highest bid of the day was an elephant-rocker crafted by mathematics teacher, Max Joseph. For this, and all of the donations from parents, staff, and local businesses, the students of the Leadership League wish to express their gratitude.

Everyone is hoping that the auction will become an annual event. The reaction sheets completed by participants will be used by the students to help them evaluate choices for future fund-raising.

Railroad Stations To Be Cleaned Up

Assemblyman Fred Parola (R-C, Wantagh) announced that the Long Island Rail Road's (LIRR) special cleaning program for stations is underway.

"I am pleased to inform commuters who utilize the LIRR that this program is now in effect," said Parola. Both the Seaford and Wantagh LIRR stations have already undergone intensive cleaning programs, whereas Bethpage and Hicksville are scheduled for the near future.

"I'm confident that commuters in the 14th Assembly District will enjoy the cleaner waiting rooms and

other station facilities resulting from the railroad's efforts," stated Parola.

Assemblyman Parola explained that this special cleaning event will continue until the early spring. The station maintenance forces who work on the anti-graffiti efforts in the summer months are recruited for these projects. Parola also pointed out stations are cleaned on a daily basis, as well.

"As an advocate of capital improvements, I feel that programs such as these are essential in guaranteeing the efficiency and high quality of our transportation sys-

tems. I am confident that this program will also help to make our railways more comfortable for our LIRR passengers," added Parola.

REAL ESTATE PRICES

The most expensive real estate in the United States is along New York City's Fifth Avenue, between 49th and 57th streets. Land there costs between \$150 and \$383 per square foot! Value is determined by what people are willing to pay, according to the records of recent transactions.

Your property is not likely to bring the same kind of prices, but its market value will be determined the very same way. A real estate professional will look at recent sales of comparable properties, taking into consideration the current cost of mortgage loans. Through experience, the broker or agent knows how much to add into the asking price to leave room for negotiations.

Equally important, he or she knows how to present the home to the right prospects and make them want to buy.

It takes time and training to learn to market real estate effectively. Smart homeowners save their time and use our experience. When you're ready to sell, list with a leader: call

Education Quality Threatened By Cuomo Budget

Assemblyman Fred Parola (R-C. Wantagh) expressed dismay for the governor's state aid to education plan which proposed to reduce funding to nearly all school districts in the 14th A.D.

"In what has become an annual rite, the governor is again attempting to rob suburban districts of needed education aid so that he can bring a disproportionate amount of state tax dollars to his home area of New York City," Parola said.

According to the governor's plan, 63 percent of the state's school aid allotment would go to New York City that only serves 30 percent of the state's school age population.

"We are not asking for something that isn't ours," he continued. "What we pay in taxes, which we know is substantial, is all that we ask to receive."

Parola noted that were the governor's plan adopted, although he has vowed it will be defeated, 14th A.D. school districts would lose a total of \$2,695,535 in state aid that would have to be made up in local property taxes for even the present education programs to be sustained.

Individually, 14th A.D. schools would be affected as follows:

	S Change in school aid
Bellmore	+ 38,526
Bethpage	-316,404
Hicksville	-607,672
Island Trees	+ 7,176
Levittown	-736,098
Plainedge	-683,737
Seaford	-223,705
Wantagh	-173,621

"A major reason for lower state aid is the governor's latest attempt to phase out the 'save-harmless' program which in the past has guaranteed funding equal to the previous year," Parola said.

"Since coming to office I have successfully fought to bring the necessary funding to educate our children. This certainly will not change in 1986," Parola said.

Pain Relief Through TENS Is Coming Of Age

As pain sufferers become more aware of the dangers of drugs and their side effects, they are turning to TENS (transcutaneous electrical nerve stimulation). TENS is effective for 80% of patients with arthritis, back problems, whiplash and sciatica. It does not mask the type of pain that notifies a patient of ulcers, broken bones and torn ligaments.

What is a TENS unit? It is a cigarette pack sized box, worn like a beeper on the belt or in the pocket, which transmits electrical impulses through electrodes. The electrodes, small thin plastic pads, are placed on the nerve pathways to the pain under the clothing and block the pain message to the brain. The impulse feels very much like the tingling of a foot that is asleep. When the sense of tingling disappears after one half hour, the pain goes away, provided the electrodes are properly placed. It is similar in concept to acupuncture but the skin is unbroken.

Theory dictates that the impulse also releases endorphins, the body's own natural opiate in varying degrees according to the individual. The theory is substantiated by the fact that one person may wear a TENS for two hours and be pain free for the rest of the day without it while another

person must wear his "beeper" continuously for pain relief.

TENS has been used for many years by athletes who need to retain reaction time and clear-headedness when dealing with pain. Formerly only the affluent had TENS but now they are available to the general public because of coverage by Medicare and most Major Medicals.

The Family Medpractice, 1500 Mid Island Plaza in Hicksville has now engaged TENS technician in order to provide additional service to residents of the area. Direct assignment will be accepted for TENS units for Medicare and most Major Medical coverage so that no layout of cash is necessary. Please call 516 935-3600 for further information.

Frisa Blasts Cuomo On Hicksville School Cuts

Assemblyman Dan Frisa (15th A.D.) today blasted Governor Cuomo who, in his 1986-87 state budget proposal, wants to cut more than \$6.4 million dollars in State aid to 15th Assembly District schools. The Hicksville school district will lose \$578,019 if the Governor has his way.

"Mr. Cuomo not only lacks an understanding of people's needs on Long

Island, he simply doesn't care," Frisa charged.

"While giving city school districts a more than \$200 million increase, the Governor apparently expects our school district to further raise property taxes and/or cut essential educational programs."

Frisa pledged to "work closely with Senator Ralph Marino and Assemblyman

Holy Family Breezes To Victory

On January 14, 1986, the Holy Family 6th grade Eagles traveled to Glen Cove to play an inexperienced St. Hyacinth basketball team. The Eagles won easily by a score of 41-4.

Holy Family scored the opening basket on a pass from Wayne Rothchild to Mike Murray, who scored on a lay-up, and from there the Eagles went on to a 26-4

lead at the end of the first half. Brian Calabro was the high scorer in the first half by scoring six points.

In the second half, the Eagles held St. Hyacinth scoreless by playing great defense. Ted Knoop, Phil Cateru and Mike O'Malley controlled all the rebounds while Chris Doyle, Jason Kingsley and Kevin Hel-

bling were keeping their men from scoring. Nine players of the Holy Family team were able to score at least two points. The Eagles were led in scoring by Mike Murray with 9 points and Brian Calabro with 8 points.

Also scoring for the Eagles were Phil Cateru 4 points, Ted Knoop 4 points, Wayne Rothchild 4 points,

Chris Doyle 4 points, Greg Schantzler 4 points, Mike O'Malley 2 points, and Ken Davis 2 points.

The sixth grade team is sponsored by the following businesses in the area: Boo's Florist, Cousin Video, Carvel (W. Vill. Green), Friends Power Test, Green Liquor Store, Tower Deli, Wicker's Pizza, Peter's Cleaners and Wagner Funeral Home.

Letters To The Editor

Dear Neighbors:

It has come to our attention that residents and businesses in Hicksville are being solicited for a donation to a firematic organization. We wish to inform everyone that this solicitation has no connection with the Hicksville Fire Department.

The solicitor gives the name of different organizations, none of whom have any connection with the Hicksville Fire Department. None of any monies received by this solicitor is given to

the Hicksville Fire Department. Our Fund Drive for 1985 has come to a conclusion, and we thank those who have contributed.

The Hicksville Fire Department conducts its own Fund Drive with an initial mailing during the month of April each year. This is followed up by a second notice, if necessary, and finally, you may be contacted by a uniformed member of this department. Each member has an identification card with photo,

and you should request such verification if in doubt.

The Hicksville Fire Department does not now, and never has solicited by telephone. We do not condone these tactics, and we do not use the services of a professional solicitor. Except for printing and mailing services, all these duties are performed by member of this Department.

We have taken the liberty of this news release because we feel that some

people may be taken advantage of, thinking that we benefit from such a request. Remember, if you do make a donation, and your check is not made payable to the Hicksville Fire Department, you are not contributing to your local Department.

The members of this Department respond to all calls for help, and we do not keep a record of donation to determine whether or not we will respond. This is another tactic that has been used over the telephone and we are categorically opposed to such a blatant lie.

In the event that you have any doubt about any purported firematic solicitor, please call our business phone, 931-9670, or you may write to us at 20 Gebhardt Plaza, Hicksville, NY 11801.

Thank you for your past support.

Respectfully,
Annual Fund Drive
Committed

Who Says One Person Doesn't Count?

Mike Sjöholm, a boy scout from Troop #316, Levittown, is organizing a community blood drive to be held in Levittown Hall, A Long Island Blood Services bloodmobile will be stationed there on Friday, January 31 from 4 p.m. to 8:45 p.m. All area residents are

urged to lend their support to this lifesaving event by donating a pint of blood. Levittown Hall is located at the intersection of Levittown Parkway and Beech Lane in Hicksville.

Mike, who is earning an eagle scout badge, decided to host the blood drive at

this time because of the customary decline in our blood supply during the winter months. Now, more than ever, healthy blood donors are needed to replenish our present blood supply.

Anyone in good health, weighing a minimum of 110 pounds, and between the ages of 17 and 66 can donate. Each donor will receive a mini-physical that checks blood pressure, pulse, iron count and temperature.

Donating blood is a safe and easy procedure. All materials used are sterile, disposable, and used only once. There is absolutely no risk of contracting any illness by donating blood.

Long Island Blood Services, a division of the Greater New York Blood Program, is sponsored by the New York Blood Center and the American Red Cross.

Donate blood on January 31 and help save lives. Your donation can make the difference.

To make an appointment to donate blood, call Michael at 731-3504.

HHS Band Sponsors Show

The cost of a ticket is \$5, Call 938-6232.

Frisa Blasts Cuomo

Fred Parola to not only ensure that these drastic cuts are restored, but to pursue increased aid."

"Maintaining and enhancing the high quality of education in Hicksville, without having our already overburdened property taxpayers foot the bill for other

(Continued from Page 4) regions, continues to be my objective," Frisa stated.

The Assemblyman concluded that "bringing about an equitable distribution in State aid will enable us to properly educate our children without paying more than our fair share."

A Statement From The Hicksville Coalition

Last years candidates William P. Bennett and Thomas F. Nagle were successfully supported by the Coalition.

If you would like to become a member of the Coalition contact Chairman Michael M. Melody at 931-3847.

Galileo Lodge News

By Joe Lorenzo

PRESIDENT PETE MASSIELLO'S MESSAGE: 'The man who is ostentatious of his modesty is twin to the statue that wears a fig-leaf.' Mark Twain

Don't rest on your laurels, so believes the Galileo Lodge. Achieve! Excel! Try harder and harder to better your last performance. To be better than yesterday. This is the policy of the Galileo Lodge, and it doesn't deviate from its policy of offering you the most for the least amount of money.

So for starters, why don't mention that on Saturday, the 15th of February, the Galileo Lodge will present its Valentine's Day Dance? Tickets sell at \$13.50 per person, and in the offering will be a delicious hot dinner, beer, soda, coffee and cake, set-ups and music for your listening and dancing pleasure. Joe Giordano will chair this activity, ably assisted by co-Chairmen Tony Sica and Joe Giordano. Tickets are now on sale, so call any of these committee members for seating arrangements and tickets. A 'bring-your-own-liquor' policy will be in effect that night, and please note also that Mr. and Mrs. Armand Del Ciooppo will be the Galileo Lodge's Sweethearts for that night.

The Galileo Lodge's Winter and Spring social and recreational program is star-studded with other activities that offer the maximum in

pleasure, relaxation, leisure and good times. Like the St. Joseph's Dance, for example, scheduled for Saturday, the 22nd of March. This activity will be supervised by Armand Del Ciooppo, ably assisted as well by co-Chairmen Joe Morace and Tony Sica. Then the Ladies Auxiliary, always in the Foreground, will offer a Fashion Show for their members, patrons and friends on Thursday, the 23rd of February. Men are

cordially invited as men's fashions will be on display also.

And for an activity that will be as different as it will be pleasurable and exciting is the 'Fifties and Sixties' Dance, scheduled for Saturday, the 22nd of March. John Cannizaro will chair this activity. More on this dance in later columns. This year the Galileo Lodge's Anniversary Dance will be quite a spectacular event. It

A bill intended to improve screening procedures and prevent convicted child abusers from serving as Big Brothers/Big Sisters volunteers will be introduced at the start of the 1986 legislative session by Senator Ralph J. Marino (R, Oyster Bay).

The Marino bill grants each local organization access to conviction records of potential volunteers, solely for screening purposes.

Upon obtaining a written consent of a volunteer to fingerprinting and a criminal history screening, a local Big Brothers/Big Sisters representative could request and receive conviction records pertaining to that individual from the Division of Criminal Justice Services

(DCJS), the central state repository for such information.

Any conviction records obtained for screening purposes would be made known to the prospective volunteer but would otherwise be held in strictest confidence. An informed decision as to the suitability of the volunteer could then be made.

Marino noted that his legislation is being drafted at the direct request of, and in full cooperation with, representatives of Big Brothers/Big Sisters, Inc. "I will sponsor this legislation in my capacity as chairman of the Senate Majority Program Committee," Marino stated. "I have also been assured that executive directors of Big Brothers/Big Sisters organizations all across the

state will be working actively in the coming year for enactment of this bill into law.

"Big Brother and Big Sister volunteers have extensive, one-to-one contact with children outside the home. The law I am proposing is similar to laws already in effect to insure proper screening of school bus drivers, State Division for Youth employees and licensed day care workers.

"The continued existence of Big Brothers/Big Sisters could very well be jeopardized if this measure is not enacted. Despite a generally effective screening procedure, two incidents of child abuse by volunteers have recently occurred in New York City and Schenectady. These incidents might well

have been prevented if the sponsoring organizations could have learned of the child abuser's past criminal history.

"At present, Big Brothers and Big Sisters have no clearly defined legal right to check whether or not a volunteer has a history of child abuse or mistreatment," Marino concluded. "Given the extensive personal interaction of child and volunteer that is the essence of a 'Big Brother' or 'Big Sister' relationship, the precaution called for in my legislation would appear essential."

The Marino bill is sponsored in the Assembly by Assemblyman James Tedisco of Schenectady, chairman of the Assembly Republican Task Force on Missing Children.

short nights, long days and alot of cold showers. The list is endless.

Fortunately, the list is also endless when I consider what I have learned. I

learned early how to take care of myself when my parents weren't around. I learned the responsibility of handling my own money. I learned to respect the property of others as well as my own. I also learned discipline I mean discipline. Doing things when I was told because I was told to, not when I felt like it. Acting responsible in public to uphold an image and ideal that I was barely old enough to understand. And finally, pushing myself to and past a potential that I thought was miles out of my reach.

The drum corps experience is something I wish on ever youth from every corner of the Country. It instills pride for an organization, your community and most importantly, pride in yourself. The people of Hicksville and the rest of Long Island should rally together to keep this organization (and others with the same principles) afloat. Let's contribute and help organizations that instill good values in kids before it's too late.

Thanks for your time.
Sincerely,
Rosemary Kelly

will be held at Leonards in Great Neck. More on this dance in later columns. And a little premature is the news that the Galileo Lodge's picnic will be held in August, the 17th, on a Sunday.

Are you an Italian-American who is desirous of joining an ethnic organization that is ear-marked for success? Have you been looking and find your self unsuccessful? Maybe the Galileo Lodge might be the organization that is progressively set-up to handle your ethnic needs and wants. Why not call 931-9361 or come to the Galileo Lodge itself, 200 Levittown Parkway, Hicksville, N.Y. and check it out either way. Talk with its members and officers, hear facts and information that will verify that the Galileo Lodge is progressive, rapidly-advancing and

organizationally constructed to be compatible with your views, thoughts, ideas, philosophy and traditions. Seeing and hearing is believing. Do not be one of those individuals who waits too long and then suddenly realizes that the old axiom-prorotation is the thief of time — wasn't the figment of someone's imagination.

LODGE TIDBITS: The installation ceremony for the installation of new officers for 1986 will take place on March 27, a Thursday night social night at the Galileo Lodge.....President Pete Massiello once again announces that more help is needed for our Bingo session and Basement Renovation program. Please give a little of your time and energy for your Lodge.
