Colby To Receive Humanitarian Award

The 33rd Annual AHRC Rose Ball will be held on June 21st at the Hilton Hotel in New York City.

This year's event is expected to draw about a thousand people and will be chaired by Helen Kaplan. Mrs. Kaplan served as chairman for the AHRC Rose Ball twenty-five years ago and for many years served as the organization's executive director. During the evening, Joseph Colby, Oyster Bay Town Supervisor, will be honored as he becomes the 26th recipient of the AHRC Humanitarian Award -- a recognition accorded leaders in government and philanthropy for meritorious service to the mentally retarded.

The event raises annually about \$300,000, which helps AHRC provide daily programs for twelve hundred mentally retarded children and adults. At present the Nassau AHRC has a day treatment center, school and horticulture program on its Brookville campus. In Freeport and Plainview the organization maintains vocational training centers and sheltered workshops. Year-round there is a recreation program together with a summer residential camp at Hunter, New York and a summer day program at Brookville. Scattered throughout Nassau County are twenty community residences and two supportive living apartment complexes.

Town Board Schedules Public Hearing On Giese Park Improvements

A public hearing has been scheduled for Tuesday, Feb. 25, on proposed improvements to Giese Park in the Hicksville Park District.

"Located on Lee Avenue, west of Broadway, the park is currently undeveloped," said Town Councilman Thomas Clark of Hicksville. "The park will be constructed with decorative walkways, benches, trees and shrubs. There will be dense shrubbery planted along the perimeter of the park as a buffer zone for neighboring homes. There will also be bathrooms, with handicap accessibility, and a small equipment supply room," he continued.

"An access road from Lee Avenue to the parking field, which will accommodate forty-five cars, is

planned. Some spots will be designated for the handicapped.

"Recreational facilities will include two soccer fields, one of which will be regulation size and one, a junior size field," he continued.

"There will also be a playground area for young children which will have a sliding pond, climbing apparatus and spring animals. And shuffleboard courts will also be built," he concluded.

The estimated cost of the project is \$900,000, which will also include all necessary drainage.

The hearing is scheduled for 10 a.m. in the Hearing Room of Town Hall East on Audrey Avenue in Oyster Bay.

Important Hicksville School Board Meeting Set For Wed., March 19

The Hicksville Public Schools 1986-87 budget will be the focus of the Board of Education's Financial Committee meeting of March 19, and interested district residents are urged to attend. The Committee and the Board of Education are eager to hear from the public on a number of issues before the adoption of the budget scheduled for March 26 during the regular business meeting.

Although the instructional code will be the major topic for the evening, other subjects are also of current interest. Among those is transportation, a program facing increases due to sharp rises in insurance costs -- a factor beyond district control.

Another important issue is that of all-day kindergarten. Residents have received booklets providing an update of district studies on the subject so that everyone can be fully informed before approaching the Board with comments or additional questions. Funding for all-day kindergarten has not been included in the 1986-87 budget.

The Board is facing a difficult process in attempts to trim the budget. The Superintendent recommended decreases

totaling \$300,000, but this savings was offset by increases in liability insurance affecting the transportation program. Efforts to cut expenses are being balanced by rising costs of mandated items, leading to disappointment among Board members about the prospects of further decreasing the proposed budget.

These and other factors complicating the budget-building process will be addressed at the March 19 meeting. The Board of Education will meet at 7:00 P.M. in the Conference Room of the Administration Building on Division Avenue.

Community Council To Hear Expert On Social Security

The Thursday March 6 meeting of the Hicksville Community Council will have as its guest speaker, Mr. David Alubowicz, a representative of the Federal Social Security Administration, who will discuss this many-faceted program, its recent changes, and how it affected both young and old in our Country. A question and answer program will follow. Mr. Alubowicz will start at 8 p.m. promptly.

The Town meeting segment of this month's program has much to offer, such as the Giese property, local beautification, and park development and an update of the problems of developing downtown Hicksville in the G-1 area. Also, other local problems and/or programs as they are reported by those present, will be addressed.

This meeting, starting promptly at 8 p.m., is held in the downstairs community room of the Hicksville Library on Jerusalem Ave.

Assemblyman Parola Sets Hicksville Forum

Assemblyman Frederick E. Parola (R-C, Wantagh) invited his constituents in the Hicksville area to a community forum Tuesday, March 4, at 8 p.m. at the Hicksville Public Library, 169 Jerusalem Ave., Hicksville.

"These forums provide me with the opportunity to meet and listen to the concerns of my constituents. There are many pressing issues facing the state Legislature this year, and through these meetings, I can obtain a fuller understanding of how residents of the 14th A.D. feel about such issues as Long Island Lighting Co. (LILCO), cuts in education aid, the insurance crisis, water quality and legislation affecting senior citizens, such as a prescription drug assistance program," said Parola.

These forums mark the eighth consecutive year that the assemblyman has conducted such meetings throughout the 14th A.D.

"I urge constituents to attend this forum so that we can exchange ideas and concerns vital to the people of our region and the state as a whole. I hope you will make a special effort to attend," said the assemblyman.

Galileo Lodge News

PRESIDENT PETE MASSIELLO'S MESSAGE: "Freedom of speech and freedom of action are meaningless without freedom to think."

Bergen Evans

Nothing succeeds like success, well, OK, it's an old expression, but certainly very apropos for anything the Galileo Lodge does in the way of social and recreational activity. And all we have to do is witness the activity at the Galileo Lodge last Saturday night, the night when it presented its St. Valentine's Day Dance. Over 200 people attended, enjoying the finest in food and entertainment, not to mention the congenial and romantic atmosphere it engendered. Cupid's arrows, shot from his well-known

bow, struck everyone on that particular night. To say that this dance was successful is putting it mildly. Joe Giordano and his committeemen, Joe Morace and Tony Sica, once again performed admirably, a condition that prompted President Pete Massiello to extend his sincerest thanks and, of course, also to the Kitchen force under the direction of Jim Posillico.

One activity at the Galileo Lodge is in endless pursuit of another. So now, if we check closer, we notice that the St. Joseph's Dance, scheduled for March 22nd by the Galileo Lodge, promises to be another successful affair. Tickets will sell at \$13.50 per person, and in the offering will a delicious hot dinner with all the trim-

mings, beer, soda, coffee and cake, set-ups and delightful dance music for your listening and dancing pleasure. Armand Del Cioppo will chair this activity, ably assisted by co-Chairman Joe Morace and Tony Sica, all of whom are now starting to sell tickets at the Galileo Lodge. Call 931-9351 and ask for these committeemen if you are desirous of attending. Please note that a 'bring-your-own-liquor' policy will be in effect that night, and if tradition holds fast for this dance, the St. Joseph's delicacy known as 'zeppoli' will be added as part of the food to be served. Why not come down to the Galileo Lodge on the date mentioned above and help to usher in the most-welcome spring season.

Good times at the Galileo Lodge are not exceptions to the rule, they are the rule. So, with this nice thought in mind, I'd like to report on another most delightful and somewhat unusual dance that is scheduled for Saturday, the 26th of April. This dance is called the 'Moldie-Oldie' dance and it will feature the nostalgic music of the Fifties and Sixties. Tickets will sell at \$13.50 per person, and in the offering will be a delicious hot dinner with all the trimmings, beer, soda, col-

fee and cake, set-ups and, of course, the music of the era I just mentioned here. John Canizzaro will chair this activity, ably assisted by Vito Grippi and Tony Sica. Please note that a 'bring-your-own-liquor' policy will be in effect that night and that a group called 'The Exceptions' will also put on a little show that night, which means, of course, that there will be entertainment upon entertainment. For something unusual, for something different and for something just a little more pleasant, you can count on the Galileo Lodge to offer it to you at reasonable prices. Please watch out for more news about ticket purchases for this dance in future columns here.

LODGE TIDBITS: Two more new members, Joseph Cirincion and Peter Osbach-Orth have been added to the Galileo Lodge membership roles. Good Luck and welcome aboard...help its still needed for our Bingo sessions and Renovation Committee and other committees. Give a little of your time and energies, because its your Lodge and it will only be what you want it to be...Date for Installation ceremony is Thursday, the 27th of March.

The Madonna Heights Ladies Auxiliary is sponsoring their Fifth Annual Dinner and Fashion Show to support the programs offered for teenagers by Madonna Heights Services. MAKING IT EASY

Prospective buyers are a little lazy, so real estate people have learned to make it easier for them to buy. For instance, in Canada's cold winters, one developer set up full-size house models-furnishings, landscaping, and all-in what had been an indoor tennis court. Prospects didn't even have to get their feet wet!

We make it easier for prospects, too. First, we find out exactly what they want in a home and what they can afford, and then we match them up with the listings that meet their needs and their budget. They don't have to visit dozens of houses, usually we'll show no more than three or four at a time.

This makes it easier on the seller, too. There's no reason for you to be disturbed by prospective buyers who don't really want what you have or

can't afford it. We won't waste your time with "lookers."

When it's time to sell your house, give us a call. We not only make it easy for the buyer to buy, we make it easy for the seller to sell. List with the winners at

Dear Friends...

With his usual display of good planning, Mr. Louis Ferrara, present Supt. of our Plainview-Old Bethpage School District, has scheduled his retirement a year hence. And, in line with this efficient type of planning, the POB Board of Education has already announced their choice for Mr. Ferrara's replacement... Dr. Arthur Colver, who presently serves as Assistant Supt. (see story on Plainview, Page One). We extend best wishes to both these gentlemen, for continued success and to Mr. Ferrara, a happy retirement in 1987.

THE PLAZA AT MID ISLAND, now known as the Delco Plaza at Mid Island, which has recently changed hands, plans an extensive rehabilitation and expansion of this Mall's facilities, to be completed in mid 1987. More "good" planning, we hope. We are sure that not only the readers of this newspaper, but also members of the Hicksville Community Council and all the local civic associations will be interested to hear about such proposals, as soon as details are available. It is a good thing for business and residential interests to understand each others plans and problems when extensive changes are being considered. Let us hope that this occurs.

THAT'S ALL for this week. Stay well and keep in touch.

Parola Announces LIRR Maintenance Program At Hicksville Station

Assemblyman Fred Parola (R-C, Wantagh) announced that the Long Island Rail Road (LIRR) will seal, paint and wash 146 commuter stations as part of its overall maintenance programs in 1986.

"It's my pleasure to inform the commuters throughout the 14th Assembly District that the station maintenance program is now underway. Commuters

who utilize the Long Island Rail Road certainly will appreciate these improvements," said Parola.

The assemblyman said that improvements at the Hicksville station are part of the LIRR's ongoing four-year painting program.

Additionally, Parola pointed out how, after the stations have been cleaned and painted, an anti-graffiti sealant will be sprayed on

certain surfaces of the stations during the warmer months. This process will allow any graffiti that may then be sprayed on these surfaces to be washed off.

The program is designed to keep stations in good repair and maintain a pleasant visual environment for the LIRR's daily passengers, as well as the surrounding communities.

"This station maintenance program will benefit the residents of the 14th Assembly District by providing more comfortable transportation to our LIRR commuters and by increasing the aesthetic value of our LIRR stations. I'm also happy to know that the quality of our transportation systems is being enhanced through capital improvements such as this," said Assemblyman Parola.

Hicksville Lions Club Plans Blood Drive

Donating blood is a process that takes less than one hour of your time. This one hour, however, can mean a lifetime to another. Now, more than ever, healthy blood donors are needed. The Hicksville Lions Club will sponsor a community blood drive on Wednesday, February 26. A Long Island Blood Services bloodmobile will be stationed at Holy Trinity Church

from 4 p.m. to 8:45 p.m. All area residents are strongly urged to donate blood at this event. Holy Trinity Church is located at the intersection of Old Country Road and Jerusalem Avenue in Hicksville.

Previous blood donors are encouraged to bring their friends and family along to participate in this life saving event. First-time

donors are strongly urged to visit the blood drive and see for themselves how easy and safe it is to donate blood.

If you are in good health, weigh a minimum of 110 pounds, and are between the ages of 17 and 66 you are eligible to become a blood donor.

Long Island Blood Services, a division of the Greater New York Blood Program, is the major collector of

blood on Long Island.

Donating blood is a safe and easy procedure. All materials used are sterile, disposable and used only once. There is absolutely no danger of contracting any illness by donating blood.

For more information or to schedule an appointment to donate, call Mr. Edward Blaszewski during evening hours at 735-9786, or Mr. Peter Kenny at 931-7481.

From funeral arrangements to burial details, from traditional services to prearranged services, there's one funeral home professionally prepared to accommodate your individual wishes.

CHARLES WAGNER POST #421
HICKSVILLE N.Y.

Now that the Auxiliary's annual Valentine Dance is history we look forward to celebrating the 67th Birthday of our national organization. The American Legion ... Of which Charles Wagner Post #421 is one of the grass roots thereof ... And from the many grass roots have sprung the great efforts to take care of the problems of America's war veterans, their disabled comrades and the youth of America... We are looking forward to our annual Awards & Ceremonial Nite which is set for Monday evening, March 17 at 8:30 P.M. at our Post headquarters... All members of the Post, their wives, Auxiliary members are invited to attend the short ceremonies that all mark another year in the history of our Post and national organization....

I have appointed the Nominating committee that has come up with a proper slate of elected officers for the elections in the first week of June... Serving on this committee are Dick Hochbrueckner, Wes Tietjen, Ray Gamble, Lou Braun and Lou Cesta (who are all past

commanders as per By Laws)... Their report is due at the second meeting in April.

Once again we are inviting honorably discharged veterans of Vietnam, Korea and the World Wars to join with us in membership in the world's largest, and most accomplished, veterans' organization... Veterans, both male & female, are urgently needed to bolster and improve our Color Guard which is wearing thin after more than thirty years of continuous service in all types of ceremonies.

Although our building is for sale, we are continuing to book dates for our two halls until June 30th so spread the word that our halls are available ... Perhaps you should come around and see our refurbished game & trophy room on the lower level which is always available on every Friday evening for socializing, maybe a game of pool, or some cards or whatever ... It's your clubhouse, so why not use it?

Next Post meeting is March 3rd... Be there!

Letter to the Editor PODRRC Scores In Long Beach Snowflake Run

Dear Editor:

As you may be aware, the proceeds of the April 5, 1986 Plainview 10 Kilometer Run will be dedicated to the rehabilitation of young people who have had leg amputations due to cancer.

Because of the trauma accompanying this surgery, many young patients become drug abusers. The chemotherapy is also very debilitating. It's an awfully tough process for these youngsters. Improved prosthetic devices and a strong program of physical therapy are key elements in recovery — mental and emotional recovery as well as physical recovery. It's a long process — and an expensive one.

Not everyone can run a 10 Kilometer road race. However, everyone can participate in our efforts to help the youngsters who have endured this misfortune of cancer and the tragic need for amputation to resume healthy, productive and physically fit lives. Your financial contribution to the

Memorial Sloan Kettering Hospital for Special Surgery Children's Prosthesis and Rehabilitation Foundation will give new meaning to the lives of these unfortunate youngsters.

Please dip deeply into your conscience and into your pocket and send whatever you can afford. Checks should be made out to "POBRRRC/Sloan Kettering" and sent to POBRRRC and sent to POBRRRC, 62 Sylvia Lane, Plainview, NY 11803. Contributions of \$15 or more will be given formal recognition in the 10K Run Program to be distributed on the morning of April 5. All contributions are, of course, tax deductible. Please feel free to call me at 433-0919 for more information.

This project is very important to me personally. Running has given so much to me — especially good friends and a renewed sense of physical well being — and this is my way of giving something back. I hope you will join us in our efforts.

Very truly yours,

"Rock Hounds" At Willet Ave.

The Willet Avenue Rock Club has seventeen enthusiastic members. Shown at a recent meeting are: back row Lori Masterson, Joe Soviero, Kim Schulz, Carrie Seier, Bob Wagner, Sharon Yu, Russell Brousseau, Nancy Rojas, Tom Coffey. Front row Michael Pfeifer, Jean Marie Keevins, Eugenia Michalos, Kelly Sclafani, Meghan Conk, Renee Gengler and Kristy Iardi. (Photo by Rosemary Barrow)

Of all the topics covered in the Science curriculum, Willet Avenue students seem to have a particular affinity for the study of Rocks and Minerals. Proximity to the Gregory Museum, where they can drop in for afterschool visits may be an encouragement, plus the fact that the school has, over the years, built up a substantial study collection.

This year's third graders, encouraged by their teachers, Barbara Koenig and Laurie Williamson, come to the Library Media Center once a week for a meeting of the Willet Avenue Rock Club. They bring their collections, or at least part of them, since cartons of rocks become very heavy for eight year olds to tote back and forth. The period is spent comparing, admiring, identifying and labeling. When Mrs. Barrow, the librarian and club moderator, gets stumped, the Gregory Museum gets a call for help. The students themselves are becoming so knowledgeable that they are able to help each other.

One recent project was a "Know Your Jewelry Day". This started out as a special thing for the girls, but the boys took an equally active

interest. Different kinds of beads were displayed and studied and identified. These included amethyst, turquoise, carnelian, rose quartz, lapis, sodalite, jade, onyx and an assortment of costume jewelry. After the club meeting, the members then conducted a session with their teachers and the remaining members of their classes, pointing out characteristics of the various stones, and techniques of telling the real thing from the costume jewelry fakes.

Tom Daunt, curator of the Hicksville Gregory Museum, recently spent an afternoon with the third grade classes teaching them how to identify minerals by the shape of their crystals. What a surprise Tom got when the students also entertained him! As a completely independent project, a few of the club members had gotten together and prepared an original science play in which they represented various scientific phenomenon. First came the story of a volcano, narrated by Jean Marie Keevins. Kim Schulz, dressed in a black leotard, represented lava jumping out of the volcano. Carrie Seier enacted both the Comet Halley, in a skirt

On February 27th, the Burns Avenue PTA will honor Mrs. Gail Cooley, Mrs. Joyce Finck and Mrs. Bonnie DioGuardi, at the Hicksville's Annual Founders Day Dinner to be held at the Imperial Manor.

The guests richly deserve this honor because of their dedication to the school, the community and most importantly, to the children.

Mrs. Gail Cooley SNT has been with the district for 14 years, formally of Holy Family Elementary School and the past six years she has served at Burns Avenue School. She has served on the Burns Avenue PTA Executive Board as Health and Safety Chairperson for the last 5 years. During her years at Burns Avenue, she has implemented many new and old programs, such as: Growing Healthy, Thanking Food Baskets, Clothing and Toys for the Needy, Amblyopia and Hearing Tests, Cancer Check Research Program, Sex Education Program and Films and the Child Abuse Prevention and Stranger

with a long brilliantly decorated train, and the planet Saturn turning in a hoola hoop ring, while Michael Pfeifer narrated. Two jewels were Lori Masterson, dressed in purple, representing amethyst, and Jean Marie Keevins, in pink, representing rose quartz. Each gave a very accurate report on characteristics of the minerals.

The Willet Avenue Mineral Club's next big event will be an eagerly awaited Rock Swap. This will be held in the school Media Center on March 12th, with the professional assistance of Tom Daunt. Any interested Willet student may bring rocks he or she wishes to trade, and set up shop, flea market style. The club members have already appointed committees, and are making plans for a great day, at which each participant somehow manages to leave with a better collection than he brought.

Burns Ave. PTA To Honor Three

Awareness Programs. She is also responsible for various other programs in each grade level. Mrs. Cooley resides in Bayside with her husband Phil and three children, Patrick 15, Philip 11 and Alice 4 and she still has found time to be a Den Mother and a Volunteer CPR and First Aid Instructor. She is also involved with many church and parish activities.

Mrs. Bonnie DioGuardi has been with the school district for the past 4 years as a substitute teacher. She has taught at every grade school in every level including Special Education. Bonnie's dedication to the children shows by her quick and constant response to Dr. Burke's request to come in and substitute at a moment's

notice. Bonnie has come to be known as the best substitute teacher in the district by the Children at Burns. She has served on the PTA Board as Council Delegate for 3 years and during those years has served on numerous committees such as: Founders Day, Playground, Indoor Activities at lunch time and Fund Raisers. She resides in Hicksville with her husband Mike and their sons Michael 14 and Tony 12. In her spare time, she is an religious educator at St. Ignatius and has been a Cub Scout Den Mother.

Mrs. Joyce Finck has been with the Hicksville School District for 16 years and has taught at Lee Avenue, East Street and presently at Burns Avenue for the past 6 years. She has

taught grades 1-4 but her forte is most definitely the first grade. Her dedication to the children is quite apparent by her early arrivals and late departures every day at school. She is readily available for her students and their parents in the wee hours of the morning until the dark of night. She has served on the PTA Executive Board in the capacity of Sunshine and Hospitality, Teacher Liaison and Founders Day. Joyce resides in South Setauket with her husband Stan and their two children Christine, 17 and Danielle, 13. All this and she finds time to teach Religious Education in her community and has a love of painting. Her goal in life is to be an accomplished swimmer.

Consumers would learn each month which banks in New York State are offering the lowest credit card interest rates and annual fees under a bill introduced this week by the Chairman of the Senate Committee on Banks, Ralph J. Marino (R, Syosset).

The Marino bill requires the State Banking Department to compile and publish current information on all credit cards, charge plates or similar devices issued to customers by banking and financial institutions doing business in New York. The monthly credit card information would have to include the specific rate on

interest charged on any unpaid balance; the annual card holder fee, if any and the number of days during which a card holder may pay the balance owed before interest charges are assessed.

"My bill has the dual purpose of providing a tool to assist the consumer in 'shopping around' for the best credit card value and encouraging banks themselves to become more competitive in their efforts to attract credit card customers," Marino said. "The present state law which deregulated credit card interest rates is due to expire in June of 1987. The wisest course banks could follow, if

they hope to see any further extension of that law, is to demonstrate conclusively that competition really does work to keep rates at reasonable levels.

"The burden of proof is on the banks, but there has at least been some slight downward movement in bank card rates in the past few months.

"By giving consumers an easily accessible, comparative monthly guide to bank card rates and by giving banks a stimulus to greater competition, I am hopeful that we can achieve lower bank card rates for all New Yorkers in the year ahead."

Devotions

Trinity Lutheran Church
Dial-A-Devotion 931-2221
By The Rev. Dr. J. H. Krahn

REMEMBER YOUR BAPTISM

On January 26, 1905, in Pretoria, South Africa, Captain M. F. Wells found a diamond weighing 3.106 metric carats (about one and one-quarter pounds). Two years later, the diamond was purchased and presented to King Edward VII of the United Kingdom. A year later, in 1898, a diamond cutter from Amsterdam cut from that diamond the Star of Africa #1, the largest cut diamond in the world containing seventy-four facets with a weight of 530 carats. Today, the diamond is still set in the British Royal Scepter. Can you imagine the value of such a jewel?

Or there is the Hope Diamond, the largest known blue diamond in the world. It weighs in at 44.4 metric carats. It was found in India during the seventeenth century and since 1958 has been displayed at the Smithsonian Institute in Washington, D.C. At that time it was worth between \$700,000 and \$1,500,000.

But then diamonds are not the most precious of gems. Since 1955 rubies have been the world's most

precious gem attaining a price of up to \$10,000 per carat by 1969. Can you imagine what the Burmese Ruby, weighing 1,184 carats would be worth?

To have in one's possession one of these jewels would be to have one of the most beautiful and most valued jewels in the world. Imagine how you would feel wearing the Hope Diamond set into a ring. Well, most of you already possess a jewel of even greater value. In his Large Catechism, Martin Luther, makes this concluding statement about Holy Baptism: "NO GREATER JEWEL CAN ADORN OUR BODY OR SOUL THAN BAPTISM: FOR THROUGH IT, PERFECT HOLINESS AND SALVATION BECOME ACCESSIBLE TO US, WHICH ARE OTHERWISE BEYOND THE REACH OF MANKIND'S LIFE AND ENERGY." I am sure if any of us owned one of the great gems of the world, we would not easily forget about it. Rather we would feel good about it, share its beauty by wearing it, be careful to protect it, and treasure it. Yet our beautiful adornment of

Baptism is often forgotten. Weeks go by without us even considering our jewel of Baptism.

Saint Paul reminds us in Romans 6 that through Baptism we were buried with Christ in his death. This means that Baptism joins us to Christ and through it we receive the forgiveness that his death affords. Paul says, "We were buried therefore with Him by Baptism into death, (and continues)...so that as Christ was raised from the dead by the glory of the Father, we too might walk in newness of life." Christ's resurrection shouts to all of us, "Lit up your fallen heads - new life awaits you with every dawning day."

All of us from time to time have felt that we needed a change, some have even dreamed of a new life, a new beginning. New life, our new beginning, did not only happen on the day we were baptized but extends to every day of our lives, if we will only permit it. "Remember your Baptism" is another way of encouraging us to let the benefits of Baptism bring a freshness to every day. Because we believe and are baptized, we remember that our eternal future is certain - however uncertain our earthly life might be. We're family. And when we die, we know that God the Father has already made provisions for the reunion party in heaven. A new life in heaven is ours as we join the forever family of God.

The lawmaker noted that issues to be discussed include education, crime, the housing crunch and veterans affairs. Other input will also be welcome.
