At The School Board Meeting

A colorful and striking mural created by students at Dutch Lane School pro-vided a lively background for the Hicksville Board of Education meeting of Feb-ruary 26, and Board members touched upon a number of topics during the preliminary section of the meeting. Mr. Bennett com-mented on the successful awards presentation for the Voice of Democracy essay contest sponsored by the VFW and he shared with the audience a booklet of collected responses in prose and poetry to the space shut-tle Challenger tragedy. The booklet contained works written by the resource room students of Barbara Greenberg at the high school.

Mrs. Rudin and Mr. Schwartz also praised the special education program and the job done by the students for the motivation and creativity demonstrated. Mr. Sehwartz also pointed out that the recent issue of New York Teacher con-New York Teacher con-tained a paragraph about SHS librarian Carl Danna's book Winning the job interview game: tips for the high-

Mr. Schwartz was pleased to see Hicksville staff members receiving recogni-fron for work they do beyond their regular employment duties.

The Board also received thank-you notes signed by the members of the New Image Drum Corps for the district's assistance in allowing them to use school space for practice sessions. The Board extended thanks to Mr. Becker and his staff for preparing adequate areas for the New Image Drum & Bugie Corps at Old Country Road School. The group will practice there on Saturdays until the warm weather allows them to rehearse

outdoors.

A highlight of the preli-minary section of the meet-ing was the presentation by Dutch Lane Principal Nancy DeSorbe and art teacher Carol Loshigian on the mural and other projects that decorated the room. The project was created by In-Depth Studies youngs-ters during their "It's the Law" unit. The component symbols related to various aspects of the development of our nation and the laws governing us, tracing the processes of making, chang-ing, and upholding the laws. Portraits of President Reagan, Geraldine Ferraro, Abraham Lincoln, and Martin Luther King Jr. formed part of the mural along with the image of the Statue of Liberty and the

bald eagle.

Mr. Bennett presented a lag of the Town of Oyster Bay, a gift from Supervisor Colby, and asked that it be displayed in the Board's conference room.

The action section began with the revision and adop-tion of policies relating to Board committees and their operation, substitute teachers, and student eligibility for activities and athletics. Summer curricuapproved. The subject covered were JHS Conversa-tional Spanish and Grade? Health Education, SHS Civics, Current Events, Wood-working and Electricity (Industrial Arts), Prejudice and Mature Relationships (Health), and Word Processing.

The Board accepted war-rant, transfer, and cash flow reports, as well as the quarterly report as of December 31, 1985, Recommendations of the Committee on the Handicapped generated at the meetings of January 22 and 29 and February 5 and

So why not get your tickets as soon as possible and witness for yourself that we boast not in vain but truthfully.

To offer you something a little unusual, a little different and a little more exicit-ing (if that's possible) is cer-tainly one of the desires of the Galileo Lodge. And this fact will be much in evidence on Saturday, the 26th of April as the Galileo Lodge presents its "Moldie-Oldie" Dance, which will in exciting fashion feature the music of the Fifties and Sixties.

John Cannizaro will chair Vito Grippi and Tony Sica, and the tickets will sell at \$13.50 per person. A deli-cious hot dinner will be served with all the trim-mings, beer, soda, coffee and cake, set-ups and some really terrific music as we said. An exciting group called 'The Exceptions' will also entertain those who attend with an amazing show of their own. So why not keep this dance in mind as the show will be terrific. the music will be nostalgic and delightful and the friendly environment that the Galileo Lodge offers will simply amaze you.

Success is not only relegated to the Galileo Lodge gated to the Galileo Lodge and its activities, it is also quite prevalent when the Ladies Auxiliary hold affairs of its own. Proof of this statement was very much in evidence last Thursday night, at which

time the Ladies Auxiliary presented its stunning lashion show, topped off with a delicious dinner and all the extras that are part and parcel of these dinners. The fashions for men and women were as fetching as they were eye-appealing, the food prepared by the Galileo Lodge chefs surpassed all expectations and the atmos-phere created by the Ladies Auxiliary certainly was more than noticeable—it-was felt as well. And here was felt as well. And here again is further proof of what we always maintain, that the Galileo Lodge and the Ladies Auxiliary always strive to offer you the most for the least amount of money. Rachel Staiano and her committee people. namely Ann Palmero and Mary Barella, gave much of their time and energies to bring you a most pleasant evening.

Dear Friends...

This week is National Child Passenger Safety Week. GEICO of Woodbury writes to tell us that the number one killer of young children is traffic accidents and that many parents unwittingly risk their children's lives each day to allowing them to ride in a car without a seat belt, or a safety seat. It's the law in our State that children from birth through age four are required to be strapped in a safety seat

through age four are required to be strapped in a safety seat while riding in a car....and, up to ten are required by law to be buckled up in the vehicle.

We urge that this one-time expense be put on your budget as the old saying goes...it is better to be safe than sorry. And it is not always "the other person" that such tragic events happen to. We hope that everyone complies with this law so that these sad statistics can be reversed. And we thank Mr. Ross Pierce, GEICO Vice President for his informative latter on this important subject. letter on this important subject.

Another Permit Necessary?

On March 25th the Town of Oyster Bay Board has set a public hearing to consider amending a portion of our Code of Ordinances to require residents to obtain a permit for planting trees between the curb and the sidewalk. If approved, this ordinance change will require an application fee of \$15, and the resident will have to designate the varieties of species which may be planted and require the property owner to maintain and care for the tree, including tree rimming and the repair of any damage to the concrete caused by the tree. Is it possible that we are well on our way, here in the beautiful Town of Oyster Bay, of becoming another Queens... a veritable concrete jungles? Of course, we are checking with a qualified tree maintenance firm and will give you our findings, next week for it is our understanding that certain species of maples have roots that grow downward Secondly we wouldn't want to put Town employees who work at taking care of our present trees, out of work. Perhaps there is an easier solution to this problem. More on

By the way, this hearing which is set for Tues., March 25th begins at 10 a.m. in the Town Hall East hearing room on Audrey Avenue in Oyster Bay.

At The Town Board Meeting

By Geraldine Geannikis

The Town of Oyster Bay The Town of Oyster Bay held a regular Town Board Meeting on Tuesday, Feb. 25 at Town Hall East, Aud-rey Ave., Oyster Bay. The following matters were following matters we addressed at this meeting.

Two hearings on the peti-tions of Nopa Realty Corp, for changes of zone at 20 Central Park Rd. and 65 Central Park Rd., Plainview, from Res. D to R-O view, from Res. D to R-O Residence Office, were postponed because one of the witnesses for the appli-cant was ill. The hearings will have to be rescheduled

holiday gift came a bit later-in early February it found an

additional \$334 million in its

This good fortune, a large

percentage of which will end up in the General Fund, was

the result of the tax amnesty

program. Previously recalci-

trant Nassau County tax-

owners contributed \$12,342,590 to the State

coffers through this penalty-

free incentive program.
Wouldn't it be nice if the

Governor considered shar-

ing some of the State's wind-

fall by helping municipalities compensate for the projected loss of Federal Revenue Sharing dollars?

The Federal government

has aiready begun to chop pieces from the monies they give to towns and villages. Oyster Bay has lost \$400,000

in revenue sharing and will

lose the entire \$1.6 million it

has been funded in previous years in 1987. Villages stand

to lose money which they use for highway improve-ments, health services, servi-

presents

for a future date.

Decision was reserved at the hearing for the petition of Alan and Susan Ross, for a change of zone from Res. D to R-O Residence at South Oyster Rd. at Wendell and Laurel St., Plainview. Residents of the area expressed their opposition to this change of zone, pointing out that the applicant, who wishes to use the house as a law office, does not live in the house and the house would be unused at night, attracting undesirables. Opponents also stated that the number of R-O zoned houses in the area is very great; making parking very difficult. Another change of zone would only aggravate.

Decision was reserved on the petition of the Tilles Investment Co. for a special use permit in an Ind. H district, to erect and maintain a and parking facility at the south west side of Froehlich Farm Blvd. 293 feet north of the intersection with the northeast side of Sunnyside Blvd. at Woodbury. ces to the elderly and youth and to augment fire and At Christmas and Chanukah many of us receive rescue services. The State of New York's

The Governor has the ability to help. In addition to the tax amnesty money another source of revenue available to him comes in the form of underestimating State revenues. In the 1984-85 budget the Governor underestimated revenues by \$609 million and knowledgeable estimates of his latest budget predict that there will be a \$374 million excess over the submitted budget figures.

The Governor must realize that when the Federal allocations are eliminated all town and village residents will be burdened with supplementing this shortfall. Local governments will have two options: either cut back on services to residents or increase property taxes. Neither is acceptable, and neither has to be if we make

our voices heard. In 1985, as in previous years, I lobbied vigorously to save Federal Revenue Sharing, I have not given up the light and have joined with other elected officials who continue to urge the Federal government to retain the Federal Revenue Sharing program.

I do realize, however, that the Federal government is hamstrung by previously mandated Congressional cuts and by strict boundaries of the Gramm-Rudman bill.

Now is the time for the Governor, with a potential for almost \$700 million in surplus, to begin making plans to aid localities when the Federal monies run out.

You too can help by writing to your federally elected officials urging them to work for the retention of Revenue Sharing, and by writing to your State elected officials encouraging them to use the State's budget. th use the State's budget surplus to offset any loss of Federal money.

Church To Take Community Survey

In an attempt to become more of an active part of the Hicksville community Church of Christ of Hicksville will conduct a survey. March 10 through 13. During those days members of the congregation will be out the Hicksville neighborhoods asking willing participants to respond to live simple questions.

The questions are as

follows:

1. Are you an active member in a nearby church?

2. What do you think is the greatest need among the

people of Hicksville?

3. Why do you think most people in your neighborhood do not attend church?

4. If you yourself were looking for a church what kind of things would youlook for?

5. What advice would you give to leaders of a church in this community?

The answers to these questions will help the Church of Christ determine the major needs of the Hicksville community and. thus, help shape its programming.
All surveying will be done

by people wearing large badges that will identify them. They will be in neigh-borhoods only between 9:00

am and 4:30 pm. Respond-ing to the questions should take only a few minutes and no surveyor will ask to enter our home.

Please welcome these vorkers as they come to our door. Your participation will be extremely helpful to the Church of Christ and, hopefully, all of Hicksville. Also, look for results of

this survey to be published in the March 28 issue of this
