Hicksville Water District Increases Rate Charges

The Board of Commissioners, HICKSVILLE WATER DISTRICT, wishes to notify its consumers that they have increased water rate charges, effective January 1, 1987. The new quarterly rates will reflect in billings beginning April 1, 1987. The rates are as follows:

10 thousand gallons or under	\$7.50 minimum
11 to 30 thousand gallons	\$1.20 per thousand
over 30 thousand gallons	\$1.50 per thousand

The above rates have been adopted with the

feeling that consumers will sincerely try to conserve the consumption of water, if the rates better reflect the cost of production.

The Board also agreed to the purchase of "Water Saving Kits" to be sent to all District consumers. The kit is to assist in water conservation to help us stay within the Department of Environmental Conservation recently imposed caps.

They raised \$104.50 which was sent to family #30 in Newsday. Everyone enjoyed doing this and hopes that family #30 will enjoy the holiday a little more.

Galileo Lodge News

By Joe Lorenzo

PRESIDENT JOE GIOR-DANO'S MESSAGE: "When we remember we are all mad, the mystery disappears and life stands explained."
...Mark Twain

Well, another year, 1986, has found its way into the deep canyons of the past. Another year of problem-solving, another year of meeting social and fiscal responsibilities and another year to struggle to be the best and stay the best. All these, I feel, were handled by the Galileo Lodge in true style, never faltering or deviating from its goals and aims.

But it does not take much thought or concentration to realize that to keep the Galileo Lodge afloat in these troubled times is a gargantuan chore that only the membership of the Lodge itself and the Ladies Auxiliary must and can handle. From President Joe Gior-dano on down, from the

officers and then the determination to battle all the challenges and adversities that might impede the social and financial growth of the Galileo Lodge. And then the effort, the time and the loyalty to this cause.

It is not an easy task, in fact, one can say that it's an extremely difficult job. Taking the bull by the horns, if I might use an old hackneyed expression. Its sacrifice, hard work and tediousness, therefore the Galileo Lodge do not have the slightest intention of skirting around their chief aim which is to give its members, friends and patrons the most for the least amount of money, and, of course, to offer and provide everything else that a first-rate organization should.

It is imperative that the Galileo Lodge should be interesting, enjoyable and leisure-filled. It has to inspire, to uplift and to raise

the level of performance of all members. Naturally the formulation of new social and recreational affairs are necessary, whereby members, friends and patrons can feel and see that the Galileo Lodge wants and needs them. What is written here is not wishful thinking and the conditions for success also written about here are not merely grandiose ideas, for the Galileo Lodge has shown for over 15 years that it practices what it preaches, that there is no boasting and that during this period of time its performance was filled with a long string of realities. I call it, a series of ideas and aims being brought to fruition.

There is much to look forward to, much to envision and expect, and it all happens because its membership, male and female, would not have it any other way. Happy New Year to all from the Galileo Lodge and Ladies Auxiliary.

In February, early, as expected, the Galileo Lodge will present its every popular St. Valentine's Day Dance. The dance that is called the dance for lovers and its for people who believe in love. Tickets will be \$14.00 per person and in the offering will be a delicious hot dinner, beer, soda, coffee and cake, set-ups and music for your listening and dancing pleasure. Please note that this activity will feature a 'bring-your-own-liquor' policy. A committee for this dance will be announced shortly as will other particulars concerning this St. Valentine's Day Dance. So why not head for the Galileo Lodge with your loved ones and enjoy the night where and when love reigns supreme.

DEAR MEMBERS: Please be reminded that help is still needed for the Lodge's Bingo sessions. All it takes is a little time and a little effort

When I was little
I had an old friend,
I do not see him much now
except when he is walking

He is getting older.
I am too.
I am afraid to go back

if he will remember
the good times we had
a while back.

I AM MY ROOTS

I am really not one boy but three
Races in my nationality.
An Irish name but German, too,
Also Italian through and through.

Three lands, one life, for me to live,
Wanting to share all I can give,
A melting pot in my one mold,
Wealth and wonder greater than gold.

With hopeful hearts and thoughts of me,
My forebears sailed across the sea,
Our Lady's torch shone, oh so bright,
They knew full well that they were right.

The children of the community use the park frequently. The park is not well maintained. The existing facilities are in need of repair in as much as they are not safe for use. There is broken glass, bottles, and other garbage which needs to be picked up.

The park would be a more pleasant place to visit if these improvements were made.

COMMENTS

Each of us approaches the new year with a different perspective. For many the beginning of the year signals a time for change, to make commitments to renew vows.

Unfortunately, not all changes are for the better. For 4,500 residents in the Town of Oyster Bay, Cablevision has a change for the new year which will increase their monthly billing by 27%.

Recently the Federal Cable Act, that act which sets guidelines under which local cable companies operate, allowed individual companies to remove previously established rate restrictions. Our local cable firm reacted to this deregulation by boosting the monthly service charge to homeowners who receive basic service—antenna only—from \$5.25 to \$13.50 for the primary television set and \$6.50 from the original \$2.00 for a second set hook-up.

In a letter to Cablevision's General Manager, William Quinn, with a copy sent to the New York State Commission on Cable Television, I expressed my dismay and consternation on behalf of those Town residents whose sole purpose in receiving cable service is to improve their viewing reception. Cablevision justified this almost three hundred-fold

increase by offering basic subscribers programs such as MTV, VH-1, Nickelodeon, A&E and USA Network. My response to this untenable offer is that antenna only subscribers have had ample opportunity to select from the many packages offered. Cablevision has provided enough promotions to make programming packages attractive for anyone who might have an interest in them. If basic service subscribers have not shown an interest in these programming enhancements it is because they are interested solely in improved reception. I don't think they should be penalized for this.

My letter to Mr. Quinn further states that deregulation of other industries, such as the airlines, led to healthy competition and lower fares for travellers. Cablevision, without competition and without a public board before it must justify its proposed increases, has taken unfair and, in my view, unjustifiable advantage of the deregulation act.

If you are one of the 4,500 Town of Oyster Bay residents affected by this action, I hope you will take a few moments—as I have—to let Cablevision know that you are incensed by this recent action.

Review Of Water Restriction Implications In Nassau County Planned at Community Forum

State Senator Michael J. Tully, Jr. (R-Roslyn Heights) recently announced in conjunction with the Nassau County Board of Supervisors, he will hold a community forum on January 14, to examine the broad implications of the water use restrictions being imposed in Nassau County.

In September, 1986, the New York State Department of Environmental Conservation issued a list of specific groundwater withdrawal limitations for Nassau County water suppliers.

These restrictions, which will place ceilings on how much water can be pumped, are designed to lower consumption over the next 25 years and relieve stressed aquifer conditions on Long Island, according to DEC. However, the limitations may have broad reaching effects on residents and the economy including building moratoriums, and a shortage of housing and jobs.

Therefore, Senator Tully, who chairs the Senate Majority Task Force on Suburbs in Transition, plans

to join forces with North Hempstead Supervisor John Kiernan, who is a member of the New York State Water Resources Planning Council and the Nassau County Board of Supervisors Resources Committee, as well as Hempstead Supervisor Thomas Gulotta who is Chairman of the Nassau County Board of Supervisors Water Resources Committee, in conducting the forum. Included among the speakers planned to address the panel are repre-

sentatives of DEC, both private and public water companies and builders.

The community forum will begin at 10:00 a.m. on Thursday, January 14, 1987, in the Nassau County Board of Supervisors Room, Fifth Floor, the County Executive Building, One West Street, Mineola, New York.

If anyone is interested in making a presentation or appearing before the group, contact Donna Ross, Executive Director, at 518-455-2471.

Arrested On Four Counts

On Oct. 30, Nassau County District Attorney Denis Dillon announced the arrest of John Paul on four counts of Criminal Possession of Stolen Property in the First Degree, Grand Larceny Second Degree and Theft of Services. Paul, 37, of Black's Motel in Westbury, is accused of stealing more than \$150,000 in checks and cash from a priest, two nuns and the Hellenic Traditionalist Orthodox church in Astoria, Queens.

According to Dillon, "Paul was friendly with leaders of the church in Queens. Based on this relationship, he learned that

Father Socrates, two nuns and the church were receiving relatively low rates of return on their savings and that the church was hoping to add a new wing. Paul told the Father that he could obtain a higher yield for them by investing their money with Merrill Lynch. Paul brought applications for them to open accounts and told them they would yield 10-12 percent interest through a bond fund. Separate accounts were to be opened for Father Socrates, the Church and the two nuns. Between November of 1985 and January of 1986 on five occasions Paul was given checks

and cash totalling approximately \$150,000 to be deposited in the various accounts."

The District Attorney said Paul never opened an account for any of the victims. Instead he deposited all the checks in his own account where, instead of investing in a safe investment, as promised, he purchased highly speculative stock options. He suffered substantial losses and has not returned any of the \$150,000.

In a separate crime the District Attorney said Paul stole \$15,000 from a Mr. and Mrs. Fleischer of Nassau

County.

Paul told Mr. Fleischer that he owned property in Manhattan and that he wished to go into partnership with Mr. Fleischer to facilitate the renovation of the property. In June of this year Mrs. Fleischer gave Paul \$15,000. It was later learned that Paul does not own the property and to date, Mr. and Mrs. Fleischer have not received any of the money.

Paul was arraigned before District Court Judge Murray Pudalov and was held without bail. If convicted, Paul faces up to seven years in prison.

were the Madrigals.

Once upon a time, there was a group of formal singers, all in their black dresses and suits, who would sing for school functions and the like. They were the best singers going through the Hicksville school system: sixteen talented individuals chosen out of a pool of thirty-five hundred. They

Now they are eight, out of a pool of about fifteen hundred. Though not fixed at that number, the group prefers to keep itself small, representing only the best. Yet, even now, they are holding auditions for new members. Under the directions of Charles Arnold, the Madrigals sing popular, as well as classical pieces. He

describes his role as one "playing the piano. I don't

really conduct them." But what happens is that eight completely different individuals guide each other, forming one performing group.

But who are they? The members are: Gina Aiello, Rob Dombrower, Nancy Funfgeld, Claudia Gueland, John Hawkins, Cathy

Heberer, Shawn Kraemer, and Tom Trenka. They break all molds, not allowing themselves to be boxed into fixed titles like "Soprano" or "Bass," for they are changing from piece to piece. In the words of their director, "they're a special group of kids."

And next week, the Highlight shifts to the Mock Trial Club.

Dec. 17 was the big day for the second graders at Lee Ave. school. Under the supervision of their teachers Miss Flanagan, Miss Baumann, Miss Phyzemayer they took turns being cashier, salesperson and packer. All the new and gently used items were donated by the parents. However, once the 1st thru third graders were done shopping the tables were bare. They all had great fun choosing their holiday presents. The money collected is donated to Newsday's Adopt-A-Family Program.

Even Moms had to fight the holiday crowd. (top picture) There's always some haggling over prices! (center picture) Shopping with a friend is always fun! (lower picture)

HOW LONG DOES IT TAKE?

A recent survey by the National Association of Realtors found that it takes 3 months for a typical first-time home buyer to find a house. A repeat buyer takes only 2 months.

How long does it take to sell? In rare lucky cases we've heard stories of homes selling the very first day they were advertised - or even before. If a broker has a prospect looking for a home just like the one going on the market. Most of the time it will take longer - at least a month or two - to bring in the right buyer and clinch the sale.

One thing for sure: it will take less time when a real estate professional takes charge. There's less wasted time and effort when prospects are pre-qualified before they are brought in to see a property. You won't be bothered with people who aren't

really ready to buy, or with people who won't be able to get a mortgage.

Best Wishes for a Happy 1987 to all our friends.

Two "Grand Openings" are exciting news in Hicksville. The Greenpoint Savings Bank is opening its newest branch on Broadway at Old Country Road, Tuesday, January 6th. Most significantly, the Greenpoint Bank is opening the long-awaited development of Broadway's west side, a blighted downtown area since the State forced the widening of avenue, in 1969. The Hicksville Triangle area is slated for much development in the new year.

Pack Your Trunk For Winter

It may take more than a good set of snow tires to get your car going this winter, warns the Automobile Club of New York.

Some key items prudently stashed in the trunk can spell the difference between being stuck—or going in ice and snow.

According to the local AAA affiliate, the all-important items that motorists should carry include:

- A shovel—preferably one with a square blade. (Pointed blades don't make good snow removers.)

- A large bag or bucket of sand that can be sprinkled in front of the drive wheels to provide traction after the way has been prepared with shoveling. (Be sure to keep the sand dry or it will freeze solid and be of no value.)

- A combination ice-scraper and snow brush (preferably with a wooden handle for cold-weather durability) for clearing windows and other parts of the car.

Rear-drive cars can benefit from having 100 pounds or so of ballast to

"We are proud of the fact that Nassau County has always paid its own way in providing outstanding courthouse facilities," stated Robinson.

Chief Judge Sol Wachter and Chief Administrative Judge Joseph Bellacosa have devised a plan to foster, encourage and promote the construction, renovation and modernization of needed courthouse facilities throughout the state, according to the Nassau Bar Association, which has endorsed the plan.

The proposed legislation will reimburse Nassau County in part for courthouse construction it has previously undertaken. The proposal also withholds state aid from any community that fails to bear its fair share of the construction,

improve weight distribution—provided the extra pounds do not exceed the manufacturer's luggage capacity rating. But owners of front-drive cars be warned: extra weight in the rear trunk of such cars will worsen traction.

On December 14th the William M. Gouse Jr. Post 3211 Veterans of Foreign Wars sponsored a Christmas party for the children and grandchildren of post members. One Hundred Forty-Five children, ages from 2½ months to 7 years received a beautiful gift along with ice cream, soda, cake, cookies and a candy stocking.

Courthouse Facilities Crisis

The Bar Association of Nassau County has voted to support Assembly Bill 10522 which would help resolve the courthouse facilities crisis in New York State.

"According to several recent studies, 60 percent of the court facilities in the state need extensive repair and renovation. The deplorable conditions that are now the norm in many courthouses impact directly upon the public perception of our system of justice," stated Edward T. Robinson, III,

president of the Nassau Bar Association.

The underlying problem has been the inability or unwillingness of local governments to give the judiciary its well merited share of government resources. This is particularly acute in the metropolitan area where the court system has suffered from neglect for a long time, the bar group noted.

Nassau County is a notable exception.
