## Hicksville Navyman Tracks Submarines Aboard Award-Winning Frigate

By Chris Holmes

NORFOLK, Va. — A submarine's survival during war depends on operating quietly — avoiding detection by sub-hunters such as the USS Ainsworth — one of the best.

During their last Mediterranean deployment, Ainsworth crewmen earned the Navy Unit Commendation from the Secretary of the Navy for operations with the aircraft carrier USS Saratoga's battle group.

Petty Officer 3rd Class Luis E. Collazo, son of Frank and Beny Collazo of Hicksville, is a sonar operator aboard the Norfolk-based frigate.

The former Hicksville High School student and 1983 Great Neck High School (Long Island) graduate uses sonar equipment to locate, identify and track submarines.

It's a cat-and-mouse game that can turn at any moment as the enemy subs Ainsworth tracks try to locate it for a kill. During these times all noise aboard the ship is kept to a minimum. Steel water-tight doors are closed with care — radios are turned down, and the crew dons tennis shoes to avoid clanging as they scurry up and down metal ladders.

The crew was so successful

in eliminating noises during a recent exercise off the Virginia Capes that a submarine they were working with reportedly sent a message for them to make some noise so the ships could be located.

Whits actively pursuing a

submarine, sonar technicians, like Collazo, make important decisions concerning the ship's course and quiet operation.

"When we find a sub we make recommendations as far as course and speed and

## One Of "Our Kids" Needs Help

The Hicksville community has a very special child, who Jerry Lewis would call one of "his kids." He is Keith Gaynor, a happy ten-year-old who has Muscular Dystrophy and is confined to a wheelchair. We would like to make life just a little easier for Keith and his loving family by helping them purchase a specially equipped van to be used to transport him for important appointments

and enable them all to enjoy fuller lives.

If you feel you would like to send a gift, we invite you to mail it to Trinity Lutheran Church, 40 West Nicholas Street, Hicksville, NY 11801, marked "Keith Gaynor Fund."

We ask God's blessings for all of you. May 1987 be a very healthy and happy year!

## Committee On School Budget To Report On Deliberations

The Hicksville Board of Education committee meetings scheduled for January 21 will be cancelled so that the evening can be devoted to Finance Committee deliberations on the 1987-88 school budget.

The meeting will be preceded by a brief special meeting of the Board of Education beginning at 8:00 P.M. in the conference room of the Administration Building on Division Avenue.

All interested residents

and members of the other committees are invited to attend the session and to participate in the budget planning process.

The meetings of the Curriculum, District Facilities, Community Affairs, and Legislative Policy Committees will resume their regular schedule on February 11. Community residents are asked to adjust their school calendars to reflect the change.

## There's Safety In Seat Belts

The New York Coalition for Safety Belt Use has the following tips:

- If you are driving in snowy or icy weather, your chances of having a collision are greater than in fair weather — it's especially important to wear your safety belt and fasten it properly (as low as possible on your pelvis; no more than a fistful of slack at your chest).
- Do not open your safety belt waiting in heavy, slow-moving holiday traffic. Unbuckled occupant deaths in car crashes have been documented at speeds of as low as 12 mph.
- Have change or currency available to pay tolls — it's distracting and dangerous to unbuckle your belt, reach into your pocket or purse, and have to re-buckle the belt.
- When entering rest stops adjacent to highways, do not unbuckle your belt until you have come to a full stop. This area is similar to a parking lot — except that cars are moving at higher speeds — and there can be unexpected movement by other motorists.
- Before leaving on any trip, dig out all the safety belts in the car. Rear-seat passengers should buckle up to avoid a possible "human collision" with belted front-seat passengers in the event of a crash.
- Before driving, you may want to remove heavy overcoats for both easy buckling and a more comfortable temperature during your journey.

# Galileo Lodge News

By Joe Lorenzo

**PRESIDENT JOE GIOR-DANO'S MESSAGE:** "A very large part of every man's reading falls over-board, and unless he has good indexes he will never find it again." An old quote.

A full-capacity crowd of people made its way into the Galileo Lodge last Wednesday night, and this was nothing unusual since this was the night of the New Years Party and Dance. Eat-

ing heartily, drinking merrily and dancing gingerly, this crowd - consisting of members, friends and patrons - was enjoying a fabulous way to usher in the new year. And this it did, in racy style. At the stroke of twelve sharp, the Galileo Lodge became a sea of highly-animated well-wishers, and with tooting, noisemakers clacking, streamers sailing thru the air and balloons floating, these high-spirited people kissed and hugged each other as they excitedly exchanged New Year greetings and sentiments. With President Joe Giordano and ex-President Pete Massiello at the helm, ably assisted by Armand Del Cioppo, Joe Morace and Frank Matassa and all others who helped, it is no small wonder that this 1986 New Years Dance will be recorded as another successful event presented by the Galileo Lodge.

We all believe in the universality of love. It is everywhere, for all to see. Everybody falls in love at one time or another. There is beauty in love, as all the great poets can attest to. Naturally the Galileo Lodge is smitten with the subject of love, and the proof lies in the fact that it will present its St. Valentine's Day Dance in February, the date to be announced soon. Tickets

will sell at \$14.00 per person, and in the offering will be a delicious hot dinner with all the trimmings, beer, soda, coffee and cake, set-ups and music for your listening and dancing pleasure. Please note that a 'bring-your-own-liquor' policy will be in effect that night. The committee for this dance will also be announced shortly. So why not come down to the Galileo Lodge on the date when the Galileo Lodge presents its Valentine's Day dance. More on this in next week's column.

**LODGE TIDBITS:** Very happy to report that Mr. and Mrs. Riccardi are leaving for California very soon to attend their granddaughter's (Laura Ann Riccardi) wedding. She is also the daughter of Augie and Marie Riccardi, who were both a part of the Galileo Lodge a few years ago. Augie, incidentally, is the son of Mr. and Mrs. Riccardi. Congratulations to all these nice people from the Galileo Lodge and best wishes for a very nice trip. ...All members please remember that its dues paying time and its time to help out during the Lodge's Bingo sessions. Bingo produces revenue, and revenue helps the Lodge to keep its commitments to various outside causes.

## "Tally's Folly"

The Hicksville Public Library will present the play "Tally's Folly" on Sunday, February 1, at 3 PM. Performed by The Other Vic Theatre Company.

Tally's Folly was the winner of both the Pulitzer Prize and the New York Drama Critics Circle Award for the 1980 season.

This joyous, touching and beautifully written romance deals with the courtship of the young Sally Talley and her Jewish suitor, Matt Friedman. The scene is at a boat house, a folly, on the Talley place in Lebanon, Missouri; the time 1944. Matt Friedman, an accountant from St. Louis, has arrived to plead his love to Sally Talley, the susceptible,

but uncertain daughter of the family. Bookish, erudite, totally honest and delightfully funny, Matt refuses to accept Sally's rebuffs, her fears that her family, and his, would never approve of their marriage. Charming and indomitable, he gradually overcomes her defenses, telling his innermost secrets to his loved one and in return, learning hers as well. Gradually he awakens Sally to the possibilities of a life together until, in the final, touching moments of the play, it is clear that they are two kindred spirits who have truly found each other...two "lame ducks" who, in their union, will find a wholeness rare in human relationships.

## Dear Friends...

Hicksville Veterans Monument Fund

Never say "final"....cause there really is no such word. At least not where the Hicksville Veterans Monument Funds are concerned. A couple of weeks ago this newspaper ran what they considered to be a "final" list of contributors. But we were wrong. The following contributor's were inadvertently omitted. Here they are: The Trinity Lutheran "Forever 55" Club, Mrs. August W. Jud, Mrs. Warren Nathan and the William Gouse, Jr. Post VFW Ladies Auxiliary.

We thank each and every one who gave so generously and in such numbers, to this worthwhile cause. In the very near future, both monuments will be completed and we will have a picture to show you. Thanks again.

We hear that approximately fifty (50!) trailers are once again parked in and around Reynolds Aluminum Plant in Hicksville. According to the last report based on the Town orders to clear up this unsightly, illegal use of property and streets in this area, the matter was to have been cleaned up months ago! And this did not mean temporarily.

Neighbors and other community residents who care about how our town looks are upset to see this backward step.

You can be sure that it will be brought up once again at the Hicksville Community Council meeting set for Thurs., Feb. 5.

However, perhaps, in the meantime, this desecration of a part of our town will be corrected. Let's hope so.

THAT'S ALL for this week. Stay well.

## COLBY COMMENTS

By  
Town of Oyster Bay  
Supervisor, Joseph Colby

The holiday season is a time of joy, goodwill, sharing and giving. Many charities solicit contributions at this time of year but, unfortunately, we cannot give all who ask because budgets just won't permit it.

There is one donation most of us can make without impacting on our pocket-books—the gift of a pint of blood.

Blood donors are urgently needed during the holiday season when, traditionally, blood banks are at their lowest levels. This year, with Christmas and New Year falling mid-week, regular collection schedules by the blood banks have been disrupted. Extended vacations have also played a part in the

decreased number of volunteers.

All 41 of Long Island's hospitals are served by the Long Island Blood Service a division of the Greater New York Blood Program. These hospitals, in both Nassau and Suffolk Counties, requires more than 600 pints of blood daily just to keep pace with the known requirements.

In particular demand are platelets, that part of the blood which is used to prevent internal bleeding, which are critical for patients with prolonged illnesses such as cancer and leukemia. Eight donors are necessary in order to produce one unit of platelets.

and collection must be done within a limited time frame. The process of separating the component from the remainder of the blood must be accomplished within six hours of donation.

The actual process of giving blood is very quick—taking only five to eight minutes. At the time of donation you will be asked to fill out a registration card. One of the questions you will be asked is when you last gave blood. A person in good health can safely donate up to five times during the year providing 56 days have elapsed since the last donation.

Potential donors must be between the ages of 17 and 66 and weigh more than 110

pounds. Before taking any donation a trained technician will take your blood pressure, temperature and pulse rate.

The Long Island Blood Service's headquarters and central donation site is located at 155 Duryea Road, Melville. By calling 752-7326 you may schedule an appointment for any week-day from 9 AM to 6 PM. In addition, each day there are six blood mobiles that service Nassau and Suffolk counties.

A very special thank-you to all those Town of Oyster Bay employees who contributed during our recent blood drive—their gift truly reflects the spirit of sharing with those in need.

## Second Precinct Police Report

The Second Squad is investigating.

An armed unknown white male robbed the attendant of a Hicksville Gas Station of \$210 dollars at 6:00 p.m. on Dec. 26.

The attendant, at the Joros Gas Station, 60 Jerusalem Avenue, Hicksville, William Reynolds 30, was accosted by the subject, who demanded the station's receipts at gunpoint. After getting the money the suspect fled westbound on West Marie St.

No injury was reported and the suspect was described as an armed white male with a handgun, 22-25 years, 5'-8", slim build, dark hair and mustache, wore a blue windbreaker and blue jeans.

Real Estate:  
Karen Donovan

## SHOULD YOU REMODEL?

Americans are spending more these days — \$80.3 billion in 1985 — on remodeling and repairs. Is it smart? That depends.

The best "investment" is probably a new kitchen; the payback at resale can be as much as 75 to 125 percent, especially if you use quality materials and appliances. Faddish luxury items probably won't pay off, though. Another winner is a new bathroom. You can expect to get back every penny you put into it when you sell. Adding living space may pay off, too: another bedroom, or a family room.

But, in most areas, a tennis court or a swimming pool is not a selling asset. A well-built, well-positioned deck may be an attraction to a buyer, but build it for your own enjoyment —

don't expect to get back all that it cost.

Ask us about home improvements you're considering, and about low-cost fix-ups when you want to sell.

And another contestant has competed in the Knights of Columbus - sponsored free throw championship.

The 1987 competition will run from January through March for boys and girls between the ages of 11 thru 14 years of age, working their way through council, district, regional and state competitions with the international winners chosen by

the supreme council on the basis of scores achieved in the various state competitions. Competition on the council level will be on January 17, 1987 at Lee Ave. School from 10:00 a.m. to 12:00 noon. All boys and girls competing are required to furnish proof of age and written parental consent.

All contestants on the council level will receive participation certificates and the winners will receive awards in April.

Applications available at all schools and Joseph Barry council.

Stan Wunderlich, one of Long Island's premier endurance athletes and a two time successful competitor in the Hawaii "Ironman" Triathlon, will be the featured speaker at the Tuesday, January 20 meeting of the Plainview-Old Bethpage Road Runners Club. The meeting will be held at the Plainview Public Library, 999 Old Country Road in Plainview, starting promptly at 8:00 P.M.

The Ironman Triathlon, the oldest, most prestigious and perhaps the toughest of all triathlon competitions, consists of a 2½ mile ocean swim, a 112 mile bike ride through the lava fields, and

winds up with a full (26.2 miles) marathon -- all through temperatures which customarily flirt with the 100 degree mark. Wunderlich will be recounting his experiences in the Ironman Triathlon, which he successfully completed for the second time in October of 1986, and will show some films which will give the audience a real feel both for the beauties of the rugged Hawaii course and for what it is like to compete in an endurance event like Ironman.

The general public is most cordially invited to attend. For more information, call POBRR President Mike Polansky at 433-019

## Hicksville Elementary School Students In Concert

Over three hundred and fifty Hicksville elementary school students will perform in a District Concert on Tuesday, January 20 at 7:30 P.M. in the senior high school gymnasium. The concert is open to the public and there is no admission charge.

The concert will feature the Hicksville Elementary Schools Band, Orchestra and Chorus. These groups were established as part of a reorganization of the performing groups at the eight elementary schools.

According to William L.

Gagnon, Supervisor of Fine Arts for the Hicksville Public Schools, the purpose for the reorganization of the elementary performing groups is to insure that the students are exposed to a true band or orchestra experience with better instruments and a more realistic concept of what bands and orchestras should actually sound like. In addition to their school rehearsals, the students have been coming together each month to prepare the January 20 program. A similar concert will be held in the spring. The concert groups will be conducted by members of the Hicksville Public Schools music staff.

The bowling will take place at the East Meadow Bowl, 1840 Front Street in East Meadow.

The program is organized by the Nassau County Department of Recreation and Parks to provide an opportunity for senior citizens to become acquainted with bowling at no cost. Commissioner Abram C. Williams said that his department hopes to establish a new bowling league for senior citizens. Instructions will be provided for beginners.

Prior registration by phone is encouraged, but walk-ins will be welcome. For further information, call the Senior Citizen Unit at 542-4494.

## The Hicksville High School HIGHLIGHTS

By Scott J. O'Callaghan

"Objection, your Honor, Counsel is leading the witness," one voice rings out. "Sustained. Please rephrase your question," comes the reply.

"I'll withdraw the question. No further questions." What was it? The People's Court? The Supreme Court in session? In actuality, it was none of these. Rather, it was the Mock Trial Club of Hicksville High School. The group meets three times a week under the direction of Mr. William Salver. Their purpose is to gain an idea as to how an actual trial is prepared by reading themselves for a simulated case. They will then compete in a

contest sponsored by the Nassau County Bar Association, arguing one side of the case against another school's team, which will assume the opposing position. The competition is scheduled to occur in two rounds, with the team arguing a different side of the case in each round. In the event that the team does well enough, it could advance to the county championships, and eventually, the state finals in Albany.

But what is it all about? A theoretical case has been prepared for all participants in the competition throughout the state. Included in the trial information are the affidavits of three witnesses

for each side, pertinent case law, and nine cases which may be referred to in the course of the trial. The team is composed of three attorneys and three witnesses. On the day of the competition, each side has a prepared opening statement, to be delivered to the judge (actual judges are used for the competition) at the county Supreme Court house. Then, each of the three attorneys will examine their side's three witnesses. Of course, the opposing team will be permitted a cross-examination, as well. Later, our team will be permitted to cross-examine the opposing side's witnesses. After the closing statements, two

verdicts will be rendered: one for the merits of the arguments, and more importantly, one for the side which better presented themselves as "real." To assist with developing the necessary skills, a practicing attorney will help the team in order to clarify certain legal technicalities. But, the students will be developing their own strategies, for they themselves will have to implement them when the trial actually arrives.

So, the Mock Trial Club is continuing to prepare themselves for the trials in February, learning just what it takes to be an attorney in the real world.

## Hicksville Students Commended

Ninth-graders Michele Stenger and Michael Tobkes were recently commended by the Hicksville Jr. H.S. PTSA for their efforts as part of the New York State PTA Reflections Project.

Peggy Gill, PTSA President, presented Certificates of Appreciation to the students for their essays on this year's theme "In Celebration - A Past to Remember - A Future to Mold." A special thank you was also given to the students' English teachers, Mrs. Barbara Drayer and Mr. Tom Smith. The Reflections Project is a national effort which begins on the local level. Entries were exhibited at the PTA State Convention which was held this past November. The purpose of this Project is to encourage creative expression in music, visual arts and literature.

Mr. Tom Smith-Eng. Teacher  
In Celebration - A Past to Remember - A Future to Mold

In 1976 there was a great

celebration. It was a joyful and most glorious time for all who remember it. This event marked the two hundredth anniversary of the founding of our country, the United States of America. It was the Bicentennial.

In colonial times, our founding fathers were in constant dispute with the mother country, England. Under British rule we could never find true happiness or meaning in life. It finally came down to an important decision; a decision that was destined to change the history of the world; the full impact of which would be felt for centuries. The time had come for us to declare our independence, then and forever. That action triggered the outbreak of the famous American Revolution, or Revolutionary War.

We, today can rejoice in the fact that those efforts were not in vain. There has been such a great deal accomplished in our relatively short history as a nation, that an essay of this length could not begin to discuss anywhere near each and every one, milestones in their own right.

Not only was the country started, a democratic and fair government was established which has endured many a triumph and many a tragedy over the course of these two centuries, and still to this day.

It is naive to say that this will not be the case in another two hundred years, but we (ourselves and our posterity), no doubt, will be ready.

Memorable as the past may be, we must still strive to keep things as they are, so that our proud and beloved nation will continue to thrive in the pleasures of running an efficient and successful government. It is necessary at this very moment to mold our future. Such a prospect is better achieved by examining those aspects of our past that have yielded winning effects; which techniques proved best, which did not. In many ways it is as if we were a large and open family or perhaps a baseball team. Individuals are bound to have their own ideas for advancement of a nation. That is to be treated with

nothing other than encouragement and sincere reverence.

Though, specifically, I believe that more is actually called for. Certain institutions seek new and innovative means to serve their country. For example, the school systems, must somehow develop methods whereby positive attitudes along with healthy outlooks are instilled in the minds of youngsters, who soon will be running the country. In a manner of speaking they are the future!

It is, of course, up to all of the citizens to be well informed and educated. Voting in elections to determine those best qualified to represent the people, through political office, is and always has been of immense importance. Should there ever be another major war, although we'd rather not so much as think of it, we will, as always, be responsible for the protection and survival of our country.

There are many ways in which the future can be molded. A few have been mentioned here, but what is important is that some thought be given to this issue, by all of us. The result can be remarkable; these ideas all pooled together and then promoted or sold to everyone else. There is no such thing as a surplus of thought or ideas. There also is no monopolization or copyright implied. So the case hinges upon the fact that it is up to us to come up with viable ideas and put them to work, manage them in a logical sequence (like the baseball coach does), and develop new ways to keep old traditions alive and bustling (in the family).

In 2076 there will be a tri-centennial and it again will be time to evaluate the progress we have made. It is said that more progress in the way of invention and technological discoveries have come about in this century than in all the others together. While we are now exploring outer space and scientists are hard at work experimenting with all kinds of wonders, we surely can equal, and likely surpass that record in the next hundred years. But then,

technically, it won't be 'us' any longer, but rather our descendants. Needless to say, we owe it to them, to mold the future so that it is conducive to such a capacity for success, just as was done for us two hundred years ago.

In Celebration - A Past to Remember - A Future to Mold

I remember when I was little, I would sit on my Grandmother's lap and coax her to tell me a story. Although she had a lot of work to do, she never refused. I would listen quietly as she told me stories about her childhood. My favorite story was about her trip on a huge boat called "Barcetta Speranza." Although she never said she was afraid to travel on the boat, her voice gave me the impression she was. The trip was a long and hard one; but after many weeks they reached an island called "Ellis." There Grandma first saw the beautiful lady with a torch and a message to spread. Her message was, "All are welcome. All are loved." Anyway, that's what Grandma said.

Ellis Island is where the boat stopped. Everyone got out and went to the main building. It was here Grandma had to take an examination to make sure she wasn't sick or carrying any diseases. She passed this exam and went on to take a reading and speech test. Because she could speak only in Italian, she had a dream to learn English. She also wanted to raise a family and build a good life for herself and her family. These dreams were difficult to attain. To make enough money to live on, grandma had to work long hard hours - six days a week. She also had to work hard in school to learn English. She told me that opportunities were few and money was scarce, but I also remember my grandmother telling me she would never have had it any other way. I believe her. My grandmother always loved a

## Daffodil - First Flower Of Spring

Although there is a chill in the air, the American Cancer Society is thinking of springtime. The Society is planning its annual Daffodil Days Campaign, which will take place March 25 through 29, 1987. The daffodil is significant in that it is the first flower of spring - the flower of hope. "It is our hope to raise the funds necessary to conquer cancer in our lifetime," announced Donald Johanson, Crusade Committee Chairman.

Daffodils will be on sale locally, but the Society hopes to reach its goal of \$75,000 through early orders from business and schools. These lovely flowers make a thoughtful and much-appreciated gift for employees and customers. For example, several local hospitals purchased enough daffodils last year to place one bud on each patient's

dinner tray. Other island companies presented bouquets to employees which not only acknowledged their hard work, but decorated the office.

This year daffodils will be sold at \$4.00 per bunch, 10 flowers to a bouquet. Orders of \$200 or more will be delivered, and orders under \$200 can be picked up at a convenient location.

Assistance in the transportation and sale of these fragrant flowers is urgently needed. Orders are expected from all over Long Island. If you have a free morning or afternoon during the campaign days of March 25 through 29, please help us spread a little springtime.

To place your company's, schools, or club's daffodil order, or for more information, please call the Society at (516) 385-9100, ext. 333.

## Century 21 Jannace Receives Commercial Investment Award

In November over 1480 Century 21 Brokers and Sales Associates gathered at The Crest Hollow Country Club in Woodbury for their Third Quarter awards banquet.

Included at the banquet were Robert Sperte, President of Century 21 Nor-

theast and Dick Gechter, Agency Vice President of Metropolitan Life Insurance, the parent company of Century 21. In addition over 20 sales associates of Century 21 Jannace were also in attendance.

Mr. Sperte and Mr. Gechter presented Joseph N.

Jannace, President of Century 21 Jannace, with an award for being the #2 Commercial Investment office in Nassau County for Century 21 in the Third Quarter.

Mr. Jannace is very proud of his staff due to the fact that they only opened up

their Commercial Investment Department in April of 1986. Mr. Jannace feels that there are many people in need of assistance in small commercial or investment opportunities that many Real Estate Companies handling larger properties tend to overlook.

## Civic Association To Meet

By Gert Paul

On Wednesday, January 14, at 8 P.M. in the Willet Avenue School, the Midland Avenue Civic Assoc. will be holding its second meeting of the season.

By popular demand, we are fortunate to have secured as a speaker the well-known accountant,

Mr. Bernard Steinlauf of "Montauk Tax", who will speak to us on the new tax laws. This information is of vital importance to everyone who cannot understand the ramifications of our future dealings with the I.R.S. Come and be informed. It may save you money.

As usual, delightful refreshments will be served.

## Book Discussion

Wednesday, January 14, 1987 at 1 PM at the Hicksville Public Library local History Room there will be a Book Discussion.

Wole Soyinka's book "The Man Died" will be discussed. It is an autobiographical account of Soyinka's arrest and imprisonment during the Biafran crisis. Mr. Soyinka's talents and courage would make him

stand out in any society, but experiences like his were not uncommon. This book of notes written to himself during his prison stay, is an indictment of the iniquities of wartime Nigeria and the criminal tyranny of its administration in peace-time.

All are welcome.

## Tracks Subs

the distance to stay away from the submarine," Colazzo says. "It's exciting tracking them."

Ainsworth's crew was busy while in the Mediterranean. Because they are considered one of the best at anti-submarine warfare, they were called upon frequently to use their talents in keeping tabs on possible threats to the 6th Fleet, Colazzo says.

Between these operations, sailors took advantage of various port visits to foreign countries.

According to Colazzo, one port holds special memories for the men of the Ainsworth.

"Dubrovnik, Yugoslavia was great," he says. "I think we were the first (American) ship to pull into there in a long time. The people were happy that we were there — they were nice to us. We helped them put out a brush fire and afterwards this 75-year-old lady invited five of us that were together over to her house for some food and some homemade wine."

Another favorite port was Palma de Mallorca, Spain, Colazzo says.

"I enjoyed the touristy atmosphere although it wasn't tourist season when we were there. Hopefully we'll go there again next year during our Med cruise."
