School Board Discusses Semesterization—Budget Guidelines

By Rosemary Grant

Semesterization and Budget Committee guide-lines were among the topics discussed at the Hicksville School Board meeting on

February 9. Superintendent Catherine Fenton reported the Junior High, which is completely semesterized for the last three years, has a very posi-tive program. She admitted there are many problems in semesterization at the high school, including time wast-ing in program changes and student course failure. Still, she is confident the merits outweigh the disadvantages. The five month course is more standardized and con-"Semesterization has brought this problem to the forefront. Board President Charlene Anci to the President of the Advisory Budget Commit-tee listing board guidelines tee listing board guidelines drew comments from Trus-tee John Ayres and Com-mittee Member, Michael Meyers. Both protested that individual members recommend-ations were not publicly discussed. On Thursday, Feb. 10, the Budget Committee will meet for general discus-sion with a broad base of representation of the com-munity and board members

present.

Virginia Germer asked the Board why computer courses will not be offered to 7th grade students. She would like to see continuity in teaching for children who have been introduced to the computer in grammar school. Supt. Fenton replied "It is an elective course, but because of the number of sections only offered in 8th and 9th grades."

Hicksville Community Council Serves Many Purposes

The downstairs meeting room at the Hicksville Library became crowded as Hicksville residents came to bring up several important local problems, and, in some cases, to bring those present up to date on the activities of the many local organiza-tions whose delegates to the Council were present, last Thursday night, Council President John Budnick opened the meeting and spoke of the Frank Chlumsky Memorial Fund which is presently being sponsored by the Hicksville Kiwanis Club. Ms. Barbara Nelson of

the Hicksville Youth Council reported on the progress presently being made in the Hicksville Neighborhood Watch program which the Youth Council, the Hicks-ville Chamber of Commerce and the Nassau County

Mrs. Norma Goerke, ofthe Hicksville Council of
PTAs reported on the scholarship program of this Council and displayed "Hicksville, the Heart of Long Island" buttons, which the PTA Council are pres-

ently selling throughout the area to benefit this scholar-

ship fund. Mr. Richard Evers, director of the Hicksville Gregory Museum, spoke on the fact that this fine local museum will be celebrating its 20th anniversary this Sunday (Feb. 6) with an open house at the Museum. He spoke of the cooperation he has received from the Library, who are making room for historical files as this becomes necessary. He also spoke of the extent that the Museum has been cooperating with the schools with

many programs.

Councilman Thomas Clark then conducted a question and answer period on mat-ters about which local residents were present and had dents were present and has information to present to him, or questions to ask, although at first, he announced that the plans for Hicksville condominiums which were to have been presented at this meeting, were not available inasmuch as the builders had decided as the builders had decided not to go forward with their plans at this time. Originally

they had requested the right to present their plans at a meeting of the Hicksville Community Council, prior to presenting them to the Town of Oyster Bay for their approval. Although Councilman Clark was asked directly where the location of these proposed condomi-niums were to have been, he said that he did not know. Next on the agenda was

the case of the illegal cement hopper which is located just off Old Country Road adja-cent to residences in Hicksville. The Town has had its owner in court and the sion against the hopper's owner. However, this owner had his lawyer appeal the court's decision, so the case is now back in court. How-ever, until the appeal is decided, the hopper's owner does not have to dismantle the hopper, but he does not have the right to operate. Residents who live close by notified Councilman Clark that the hopper was still operating, in direct defiance of the court's decision. He said that this would be

Congressman Norman F. Lent stated that every two years, at the beginning of each new Congress, the House of Representative reorganizes its committees, readjusting committee memberships to reflect the changes resulting from the November elections. A very critical part of this organiza-tional work is the determination of the ratio of Democrats hold a majority in the House, they control this extremely important factor in the makeup of the 98th Congress. They have now completed their work, and Lent said that he regrets to inform us that the outcome is a dismal one for anyone is a dismal one for anyone who believes in fairness or in the principle of equal

representation.
A prime example of this A prime example of this scorning of fairness and equal representation is the House Committee on Energy and Commerce on which Lent serves. Traditionally, the ratio of Democrats to Republicans in the full House of Representafull House of Representa-tives. This year the House

has 269 Democrats (61.8%) to 166 Republicans (36.2%). And that ratio should have been followed in the committees.

But in allocating sub-committee memberships on the Energy and Commerce Committee, the Democrats ignored that ratio, assigning 62 subcommittee seats to Democrats and just 28 to Republicans--a ratio of 68.9% to 31.1%! To those 68.9% to 31.1% 1o those who might question whether the difference is anything to get excited about, apply that same 68.9% to 31.1% to the full House of Representatives. It would mean a House membership of 300 Democrats to just 135 Republicans. What the Democrats have done is to deny the American people deny the American people the full representation of 31 Republicans they elected

Most legislation is written Most legislation is written in subcommittees. The unfair subcommittee ratio applied by the Democrats gives the Democrats far more effective power in controlling legislation than they won in the election. It is totally unfair, and violates the constitutional unranthe constitutional guaran-tees of equal representation. It is an unconscionable attempt, said Lent, to grab more power at the expense of the democratic process. he is joining in a full chal-lenge to this blatant effort at distorting last November's election results, and in carry-

ing our case to the people.

Vietnam Veterans Establish Nassau Chapter In Hicksville

It was announced at the Hicksville Community Council meeting on Febru-ary 3, that the Vietnam Veterans of America is ready to foster, encourage and promote the improve-ment of the Vietnam Veteran and Vietnam era Veteran for Nassau County. Albie Ginaro, who is Presi-dent, made a short speech about the organization's

goals and commitments.

Joe Curatolo of Hicksville is Community Affairs Chairman for Vietnam Vets, Nassau Chapter.

There are many problems plaguing the Vietnam Vete-

Dear Friends....

If you were not able to attend last Thursday night Hicksville Community Council meeting, you really missed one of the most informative, constructive meetings that this Council has ever had, and that is saying something, for Council meetings are always informative and, in our opinion, serve a worthwhile purpose in the hamlet of Hicksville. Of course, worthwhile purpose in the hamlet of Hicksville. Of course, even though the story in this issue is lengthy, there is no way that it could cover all that was said in this meeting which lasted over three hours. Also, we'd advise that you read "At The Town Board Meeting" in this issue, as it covers several of the items which were discussed at the Community Council meeting last week. Why not put the first Thursday of March, havell May and luve down on your calendar as Hicksville. Play it again Mario! New York State residents elected

a new governor last November, but he's still playing the same song that

the governor he replaced sing.
To call the new governor's
school aid proposals a
"Robin Hood" plan must
have the author of that tale

spinning in his grave. A more apt tag line would be "Robbing Hood"...at least Robin Hood's motives were

making a proposal which would see the loss of \$11,938,969 overall in aid to

our Town school districts.

In actual dollars and

cents, the governor's prop-osals would mean that a

chool district such as

Hicksville, for example,

yould face a reduction of

20.82% or a loss of \$1,704,054 in state aid. In

order to make up that loss, the tax rate for a home assessed at \$7,000 would increase by \$1.468 per \$100 of assessed valuation, or a

total increase in the school tax of \$102.76. That increase

doesn't even take into con-

sideration incresed costs the

district will face.

Family Support Group

The Family Support Group meets every Thurs-day at 2:15 P.M. in the Meditation Room at Central General Hospital, Plainview.

Group meetings are held to help families of patients with cancer. These weekly group discussions offer fam-ily members and patients the opportunity to discuss prob-lems that arise and situations that develop when a diagnosis of cancer is made. Members of the Nursing Staff and Social Work Department work together at these meetings. For further information, call 681-8900, Ext. 263 or Ext. Something To Smile About!

By The Rev. Thomas M. Goodlet, Church of Christ in Hicksville

They said, "It's impossi-ble!" But it happened! They said no newborn can smile in response to sounds or sights. But they were wrong!

My son, Tommy, was born May 26, 1977. During the course of those first fe days of life in the hospital, he smiled! he didn't grimmace from gas pains...he smiled

Tommy has always been a "smily" boy. When sick, he smiles. He cannot scowl in anger for long periods of

time. He has to smile. At a recent parent/teacher conference his kindergarten teacher noted first that Tommy always walks into class with a smile on his face.

Can anyone in the world smile? Is there anyone totally free of problems? No. Everyone has them. Look at life in general: the most beautiful rose bushes have thorns; every garden has some weeds there's not a day which does not have one "bad hour"; the lovelist sky holds a cloud somewhere. Every life on earth experience some sorrow, pain and strife.

In the Bible we learn that the Apostle Paul experienced a specific problem in his life-a "thorn" in the his life-a "tnorn in the flesh. He sought comfort, begging God three times to remove his infirmity.

Did God respond to Paul?

Well, yes and no. No, the "thorn" was not removed.

Yes, Paul was blessed in a

Yes, Paul was blessed in a greater way with the help of his "thorn", and that blessing was, to Paul, something to smile about.

The blessing was disclosed by God in His words, recorded in H Corinthians 12:9, "MY GRACE IS SUFFICIENT FOR THEE". God offered Paul His grace (Def.: Kindly act, an act of lovingkindness) to sustain the apostle through the agony of his "thorn".

Why did God allow the thorn to remain? Why does he not take problems and sorrow away from man? Because, things which leave our sight often leave our memory, as happens to the occasion or one who emoves them.

For example, suppose I know of a hill country where builders intend to build a

highway. If the builders level the hills and create a highway on flat land, I will eventually forget the appearance and the size of the hills, as and the size of the hills, as well as those who did the levelling. But, if the builders take the highway through the hills via tunnels, each time I enter a tunnel I will high and all the hills. think especially of the builders and their awesome ability to get me through the

God allows problems to remain in people's lives, to enhance man's appreciation of, and dependance on Him. Take away the hills of life and man will soon forget their actual size, and will certainly soon forget the one who "levelled" them. Leave the hills standing-the problems, the "thorns" intactand surround man with God's "tunnels" of grace to see him through, and man will remember God. He will have something to smile about, knowing that with each problem he faces in life, something to smile God has the awesome ability God has the awesome about yo graciously and sufficiently empower him to handle such things.
God is a god of sufficiency...a god of abundance. He is able and willing to sufficiency the sufficiency of the

ciently supply peace of mind, sustanance, guidance, forgiveness, love, salvation, and victory despite infirmity This is something to smile

about!
The next time you encounter a "thorn" in life, don't try to ignore or flee from it. Instead, seek to encounter God. Open His Word, the Bible, Learn of His will for your life and encounter the all-sufficient grace he holds for you. Through these efforts you will find something to smile

To the Tropicana and the rest of the casinos... This trip is again under the sponsorship of the PAST COMMAND-ERS CLUB and P.C. LOU CESTA is again Chairman.... He advises that all ticketholders should be at the Post on Sunday, March 6th at 9:30 A.M. so everyone can be checked in before the the government's intention to wipe out the VA, I have good news on this subject as reported by our National Commander Al Keller....He said after an initial briefing on January 31st on the ad-ministration's proposed 1984 budget for the Veteran's Administration, it appeared the nation's veterans are being treated reasonably well....
Noting that requested budget authority for the VA is proposed to increase by \$1.1 bil-lion to \$26 billion, our National Commander said: "In comparison with antici-pated reduced spending in most government depart-ments except defense, the administration has responded well to the most clearly defined needs of veterans who are service disabled, and to the aging element of the veteran population."....Com-mander Keller noted the administration proposes a 6

month delay in cost-of-living increases in compensation increases in compensation payments for the service disabled and pensions for non-service disabled who are destitute. "The American Legion will only tolerate such a delay if the same delay applies equally to each and every extillenced to program adminientitlement program admini-strated by the federal govern-ment," Keller said....

Commander Keller said the Legion will address Con-gress on some specific short-falls noted in the proposed budget, such as the absence of any proposed cost of living increase for veterans in train-ing under the G.I. Bill.... While I'm on this VA kick let me remind one and all that February 14th is more than just Valentine's Day, it NATIONALSALUTE TO HOSPITALIZED VETthis day has been set aside as

an official VA program cele-brated in every VA medical center....And if you want more information on this event, contact your nearest VA medical center....The VA has all kinds on interesting data concerning veterans, such as 39 million men and women have served during wartime in the United States armed forces in our 206 year history....And 3 out of 5 or 24.3 million....are living today....And out of 392,000 Spanish American War vet-erans there are 53 still living erans there are 53 still living as of December, 1982 and all but 12 are over 100 years old and each receives a Veterans Administration each month ...AND DON'T YOU EVER FORGET THAT IT WAS THE AMERICAN LEGION WHO FOUNDED AND WHO FOUNDED AND FOSTERED AND MOLD-ED THE VA TO ITS PRES-ENT POSITION OF IM-PORTANCE TO THE

AMERICAN VETERAN.... Might as well give you the rest of the statistics of the world War Fs 4.7 million participants there are 368,000 surviving veterans (1 of 13 who served); 69% of the 16.5 million man and managements. who served; 3-you the million men and women who served in World War II are living today and 1 of 7 is receiving compensation or pension payments from the VA 4 of 5 of the 6.8 million

who served in the Korean Conflict are living and only ontice are living and only
1 of 17 living veterans are
receiving compensation or
pension payments...The
Victnamera involved 9.8 million men and women in its
11 year duration...9 out of 10 are living....Less than 1 of each 15 in civilian life are receiving VA compensation or pension....As I said, the VA has interesting data.

Gardiner and Anne Gregory, the museum's in-spired and once indefatigable spired and once indelatigable founders, were overjoyed by the presence, also, of so many old friends and museum co-workers, fund raisers, longtime board trustees. They had driven down from their retirement home in Castine. Maine. home in Castine, Maine, skirting worsening weather conditions. Gardiner said, "I have written a speech, cut it to five minutes, and in the end can't deliver it." He deferred to Mrs. Gregory who

spoke feelingly of their joy at the survival of the museum and the ongoing programs and support the museum was receiving from Hicksville. Dr. Gregory then presented the museum with a check for \$500, "for the purchase of mineral specimens." a donation which obviously pleased the museum's curator, Tom

Richard Evers, Director of the Gregory Museum, was Master of Ceremonies for the occasion. A number of inscribed plaques were presented to those agencies of government and to some museum volunteers who have contributed greatly to the Gregory Museum's existence and its growth in services. Among the recipients of museum honors were: the Town Board of Oyster Bay which has leased the Hicksville Heitz Place Courthouse gratis to the museum since 1969; the Hicksville School and Library Boards of Trustees for supportive association with the museum's school service and local history preservation programs; museum trustee Elizabeth

Pearce for long and knowl-edgeable service as board trustee, secretary and tour guide; museum trustee and reasurer, Irwin Botto for long, generous and affable service to the museum; Elery Bean and Kenneth Barnes for serving two terms as museum trustees and contributing seasoned advice and rapport; Hugh and Val Conover for long, versatile and valuable volunteer service to the museum, and Patricia Daunt for her readiness, cheerfulness and valu-able work as a museum

Robert Zimmerman, one-time chief aide to former Congressman Lester Wolf, closed the formal portion of the fete by presenting a flag flown over the Capitol to the Gregory Museum on behalf of the New York Congressional Delegation.
All in all, it was a

memorable party, with tasty refreshments provided by Marion Koch and over twenty museum volunteers, and snug within Hicksville' old courthouse-turned museum, while a winter storm swirled without.
