Letter To The Editor

Councilman Clark On Intersection Improvement Meeting

Mr. T.C. Hoffman

Mr. 1.C. rotiman Regional Traffic Engineer. Region 10 New York State Department of Transportation Hauppauge, N.Y. 11787 Subject: PIN 0156.16, Route 106/107 from Old Country Road to Manhattan/Schoharie Drive, Town of Oyster Bay Dear Mr. Hoffman:

On October 5, Assemblyman Frederick Parola and I held a meeting in the Hicksville Library at the request of residents to discuss the intersection improvements on the subject pro-

ject. Dissatisfaction was expressed by all residents. Starting at the northern intersection of Route 107 and Bethpage Road, the idea of a double left turn lane was opposed by the people on Bethpage Road because too much traffic, especially trailer truck traffic, would be directed south onto Bethpage Road.

At the next intersection going south, Nevada Street, there appeared to be the greatest opposition. The residents living on Nevada Street, going west, oppose any widening of Nev-ada Street; they feel that it would interfere with their residential atmosphere and approach to their residential neighbor-hood. They blame all the traffic congestion at Nevada Street and Route 107 on the exit from Mid-Island Plaza to Nevada Street. Their claim is: cars from West John Street enter Mid-Island Plaza, circle the vestern end of Mid-Island Plaza and then exit on the north side of Mid-Island Plaza onto Nevada Street: this is a time-saver in more ways than one. The residents request that the exit be closed, or the two (2) openings from Mid-Island Plaza to Nevada Street be entrances only. They feel that all traffic should exit Mid-Island Plaza at the large exit on Route 107, next to Nathan's, where the proper traffic control signals are presently installed.

With regard to the next intersection, East John Street and Route 107. 1 am enclosing a copy of the petition which I received from residents opposing any change at this intersection even though the portion near Route 107 is very wide and a business area and the castern end of East John Street a rows down to a small residential street with one lane in each direction, ending in a "T" intersection. The next intersection is Barclay Street and Jerusalem

Avenue northbound; this is where the real wrinkle comes in. The residents request that all traffic be directed to East The residents regulars that in that the Ge uncleaded to East Barclay Street, instead of East John Street, because East Barclay Street feeds into Woodbury Road. They recom-mend that Barclay Street be connected straight across Route 107, across Jerusalem Avenue, across Route 106 to West Barclay Street where the railroad station is located.

Two (2) Fire Commissioners who attended the meeting expressed opposition to the East John Street and East Bar-clay Street changes because of the Fire Department's underground wires at these intersections.

Additionally, some of the residents brought up Route 106, Additionally, some of the restoring sough of production, south of Old Country Road, with reference to replacing the median and grassy area since Assemblyman Parola was present and he is their State representative. #### Hicksville Republican Club News to use their collective efforts By Alex Pankoff

In less than three weeks we will be exercising our right to vote for the candidates of our choice. Although the candidates running on the Republican Party line are, without a Party doubt, the best women and men for the job. it doesn't pay to be too complacent. We must get out and vote in order to ensure that our people win with an overwhelming majority. As an example of the

effectiveness of our Republican legislators, the Grum-man Corp. in Bethpage has been awarded nearly \$50 million in additional contracts for improvements to its EA-6B aircraft. The awarding of these contracts, through the efforts of our Congressmen and Senators, will help to continue Long Island's strong employment picture and economy

picture and economy Additionally, the U.S. Department of Housing and Urban Development has awarded S1.8 million for Oyster Bay, Freeport and Hempstead housing. These funds will be used for such improvements as installation of walking paths and lights, new gutters and roofs, installation of insulation, plumbing and heating improvements and aluminum siding to maintain the thousands of units of lowcost housing for seniors and others on limited incomes. Congressman Norman F. Lent said these three munic-ipalities have been leaders in the lield of providing housing for these groups of residents.

The following is a mes-sage from Frank Jopp, our ebullient chairperson of senior citizen information and reports: "Friday, October 14, was

a gala night for the Hicks-ville Republican Commit-teçmen's Council as a capacity crowd was on hand to attend the Annual Fall Dance and Cocktail Party at Antun's Old Country

who attended with my wife, Betty, I can tell you that it was a good good night and a very enjoyable evening. The smorgashord buffet was smorgashord build was tasty, the music good, and an open bar was available. Some of the Republican candidates running for office in the coming November 8 election were in

attendance.

"Now to go on to a very important subject -- social security. Social security, obviously, is of great importance to all of us, but some-times there are certain provisions of the law that are unfair. I am referring specifically to the section called the 'Notch Law.' If you are drawing social security and you were born during a spe-cific five-year period (1917, 1918, 1919, 1920 or 1921). you are being penalized unjustly. Anyone born in one of these years (known as the Notch years), will probably be receiving lower benefits from those born before and after the five-year 'Notch' period. If you were 65 before starting to draw social security, you are probably receiving \$100 LESS in your monthly checks than someone before 1917 or after 1921. The Notch Law was enacted in 1977 by Congress during the administration of President Carter. At that time they established a new formula, but it was decided to select a five-year transition period to cushion the effect. The years selected for this transi-tion were 1917 through

1921 "Fellow citizens, I suggest that if you are in the 'Notch thinking of retiring at age Years' age group, write your Senators and Congressman 62, 63 or 64 will be similarly affected by the 'Notch Law."

potentially harmful if avoided.

The proper goal of grief is the internal realization and recognition of death. Recovery, however, does not mean that all emotional significance of death has ended. Rather, it signifies the ability of the griever to form new relationships and make new commitments.

Lions Honor 31 Year Stalwart Ken Dejongh

on Wednesday October 12, the Hicksville Lions held their regular meeting at lannone's Restaurant. Lion President Bill Ramsey commenced the meeting by dedicating the evening as KEN DEJONGH NIGHT and the festivities began.

Over thirty members and guests attended this event in honor of Lion Ken Dejongh, a member of the Hicksville Lions for over thirty years, who will be retiring this fall. Lion Cliff Freitag, Charter Member, spoke on Lion Ken's years of dedicated ser-vice to the LIONS and to the Hicksville Community, which began with his induc-tion in 1952. Lion Ken held his first chair, as Secretary in 1955-56. He worked up to President in 1958-59 a posi-tion he also held in 1971 as well.

essence, Lion Ken In "shaped the direction of the Hicksville Lions", as Lion Cliff stated. Some of Ken's accomplishments included: the Youth Exchange Program, where loreign youths visited the U.S. and were taken in by Lions during their visits. Also, Ken did a great deal of work on the District level.

Lion Jack Weber, International Director Candidate in 1984, spoke on Lion Ken's District level accomplishments. Lion Ken was the first District Governor in Hicksville Lions history in 1964. Ken also was the Father of the Nassau Lion, the current District News Magazine, a vital commu-nique for all Nassau LIONS. Yet, behind Lion Ken, is a

super woman, in his lovely wife Judy. In addition to her total support Judy was pre-valent in many club functions.

school who help to make these annual events successful and informative for Hicksville parents. Congratulations were also offered to Mr. Klein and his staff for the comprehensive annual report published and to the Senior High for the successful Homecoming activities of last weekend

Action items on the agenda of Wed. Oct. 12 Board of Education meeting began with the passage of a new policy on student attendance brought to the Board for information on September 14 and resubmitted for hearing on September 27. The policy is aimed at promoting regular class attend-ance to ensure a successful and productive educational expe-tiones for students and the deuclonment of positive habits and entries and the development of positive habits and attitudes. The policy states that academic credit may be denied to students who miss a substantial portion of a course

denied to students who miss a substantial portion of a course or program due to tardiness or absenteeism. The Board also approved the School Health Curriculum Project Agreement with the Nassau County Department of Drug and Alcohol Addiction which provides for an alloca-tion of \$1000 to the district to assist in the purchasing of materials and supplies needed for the successful implemen-tation of the Scattle Berkeley Health Program during the 1983.84 school were

1983-84 school year. The rate for Health Services provided to students attend-ing non-public schools within the district was set at \$160.62 per child. This figure was determined by estimating the total cost of providing services to all children attending public and non-public schools in Hicksville and dividing the total by the total enrollment. The district bills the home school

by the total enrollment. The district bills the home school district of non-resident students for services provided. The Board also approved the adoption of tuition rates to be charged for out-of-district students attending the Hicks-ville Public Schools. Handicapped tuition is based on the number of classes or level of service provided, and regular school tuition is broken down into the categories of half-day Kingergarten, grades K-6, and grades 7-12. The rates were determined using a computation formula set by the State Education Department. Education Department.

#### Supt's Report

Supt's Report Dr. Fenton presented a report on the New York State Council of School Superintendents' conference which she attended recently. She included in the Board meeting agenda the text of the Joint Code of Conduct for School Boards and Superintendents which was developed cooperatively by the Council and the New York State School Board Association and adopted by both bodies last spring. The code unders-cores the need for an effective working relationship between Boards and Superintendents and the goals and obligations Boards and Superintendents and the goals and obligations of that relationship.
