## Hicksville Youth Council To Honor Sheila Noeth

Sheila Noeth will be honored at the third annual awards reception of the Hicksville Youth Council on Sunday, June 7 at Antun's in Hicksville, from 2 to 6 p.m.

Ms. Noeth was the unanimous choice of the agency's board of directors and is being honored for her outstanding commitment to improving the quality of life in Hicksville as well as her distinguished community service. Ms. Noeth is well-known and respected throughout the community for her many years as editor of the Mid-Island Herald, her efforts in support of numerous organizations and her devotion to Hicksville people.

A volunteer of the year award will be presented to Rosario Tantillo, a senior at Hicksville High School. Mr. Tantillo is currently one of two youth representatives to the agency's board of directors and has been active in various Youth Council programs. He is currently volunteering with a youth group at the agency that writes and performs skits about vandalism as well as peer pressure. ## New Hicksville Coalition Candidate to File Petition

At a meeting held on Monday evening, March 30, Larry Moor, a member of the Hicksville Board of Education, informed his close associates that he would not seek another term as a board member. Larry said that he had agonized over the decision, but that he felt it was in the best interests of the district to make the decision now.

At this meeting, candidate Bill Kelly was the overall choice to fill the open seat on the slate of Coalition Candidates, including Daniel MacBride and Jay Schwartz. Bill Kelly decided to run and had come to meet the Coalition to seek their support.

Bill Kelly has come to many board meetings for the last two years. He has a sharp eye on the budget, and keeps the interests of the retired citizens at heart. He knows the board has many plans to consider for reorganization, and thinks they need more study.

Police are asking the public's assistance regarding information relating to a hit-and-run accident in which a 12-year-old Hicksville boy was struck by a car on Friday, March 27, in front of the Allied Shopping Center.

The youth was crossing Jerusalem Avenue, south of Winding Road, when a dark colored car with a light colored Landau roof, traveling southbound, hit the boy at approximately 4:35 p.m.

## Public Hearing On Reduced Speed Limit For Bethpage Road

The Oyster Bay Town has scheduled a public hearing for Tuesday, April 28, to consider a proposed local law that would reduce the speed limit on Bethpage Road in Hicksville, according to Oyster Bay Town Councilman Angelo A. Delligatti.

"Under this proposal," Delligatti explained, "the speed limit on Bethpage Road between Broadway and Woodbury Road in Hicksville would be reduced to 35 miles per hour. Currently, the limit is set at 40 miles per hour."

The hearing is scheduled for 10 a.m. in the hearing room of Town Hall East, Audrey Avenue, Oyster Bay.

## Funds Raised to Help Hicksville Youth

Keith Gaynor is shown sitting in his wheelchair in front of the van and holding up the keys which were handed to him by Mr. Capaldo, on the right. Mr. Fitzpatrick, on the left, and Mrs. Gaynor enjoy the moment.

Keith Gaynor was all smiles on Thursday afternoon, March 19, when he saw the blue van which will be fitted with a lift to transport him in his wheelchair wherever he has to go.

Some time ago, Keith became, as Jerry Lewis refers to youngsters with Muscular Dystrophy, one of "His Kids".

Keith is a Hicksville boy, and he and his family are members of Trinity Lutheran Church. Last December, the pastor of Trinity Lutheran Church, the Rev. Dr. John H. Krahn, advised the parishioners that one of "Our Kids" needed help in the form of a specially equipped van to more easily transport Keith to and from church, the doctor, etc., and issued an invitation to join in the effort to raise the necessary funds to provide such a van.

Keith's problem was called to the attention of the Hicksville Kiwanis Club by John Fitzpatrick at one of their meetings, and the club's board of directors voted to donate a substantial amount towards this effort to help make a wish and immediate necessity come true. Besides the money donation, another Kiwanian, Michael Capaldo, provided an additional contribution by obtaining the best price in the purchase of the van through Robert Auto Leasing.

Many others made substantial donations to this effort, including members and friends of Trinity with donations and the result of sales, an insurance company with some matching funds, and other contributions by people who heard about Keith and wanted to help.

The next big step in this episode will be to have the mechanism installed to lift Keith up into the van.

Unfortunately, Pastor Krahn's busy schedule prevented him from attending this happy event.

## High School Students First In History Competition

Three Hicksville High School students were awarded first place recognition in this year's National History Day competition for their senior division group media presentation.

Twenty-five districts from Nassau and Suffolk Counties participated in the National History Day Fair, held at Hofstra University on March 14, and there were 10 entries in this senior division category. The three Hicksville first place winners, Anthony Formica, Thomas Reilly, and Gregory DeLaFuente, who have taken first place honors in previous competitions at the local level, are preparing for the regional competition to be held in Buffalo May 6 through 9. This will be their

third trip to the state contest, where they have twice tied for first place, earning them the right to go to Washington for the national competition.

Recognition also goes to Collen Bartley, seventh grader, who received an "Excellent" rating for her junior division historical paper on Susan B. Anthony. Sanjay Teward, Diane Brzozowski and John Guerriero received a second place award for their junior division group media presentation. Their videotape was titled "U.S.A. and U.S.S.R. Rights and Responsibilities." Sanjay, Diane and John will also be participating in the regional competition in Buffalo in May.

The Hicksville Board of Education will hold a special meeting on the regular committee meeting night of Wednesday, April 22. From 8 to 9 p.m. the Board will hear a report from the Five Marshall. The Finance and Curriculum Committees will meet from 9 to 10 p.m. Meetings of the Policy/Legislative and District Facilities/Community Affairs Committees will not be held that evening.

## St. Ignatius 6th Graders Participate In P.R.I.D.E.

P.D. John Bienkowski and the sixth grade students at St. Ignatius Loyola School completed the P.R.I.D.E. program.

The sixth graders of St. Ignatius Loyola School in Hicksville have just spent the last twelve weeks participating in a P.R.I.D.E. Program sponsored by the Nassau County Police Department.

P.R.I.D.E. stands for "Peer Resistance Instruction Drug Education." The program was taught by Police Officer John Bienkowski. The sixth grade students were guided through twelve sessions. Each session dealt with a different aspect of how to say "no" to drugs and alcohol by having a positive opinion of themselves. The students were shown ways to resist different types of peer pressure. Role-playing was used to give more emphasis and depth to situations the students may have to deal with someday. Building self-esteem and assertiveness were greatly emphasized, as well as ways to deal positively with stress.

Police Officer Bienkowski was well received by the students. This was expressed in their positive responses to each session as well as the opinions they expressed in the paper each student handed in at the end of the program.

At the end of the twelve sessions, the students participated in a small commencement exercise where each student received a certificate for having completed the course.

## Frank Romano Speaks At Kiwanis Club Meeting

Frank Romano, the associate director of the Helen Keller Services for the Blind, was the guest speaker at the recent "interclub" meeting of the Hicksville and Manhasset Kiwanis Clubs.

Mr. Romano began his address to the group by telling them that the Helen Keller Services For The Blind was previously known as the Industrial Home for the Blind. Among the details, facts and figures which he mentioned were such items as: at least 430,000 Americans are "legally blind" which means that their visual acuity does not exceed 20/200 in the better eye with corrective lenses, or their visual field is less than an angle of 20 degrees (20/200 means being able to see no more at a distance of 20 feet than a person with normal sight can see at 200 feet); many services and activities are available to blind individuals through his organization at no cost to those they serve; the Helen Keller Services For The Blind does not do any door-to-door soliciting for funds; donations are accepted from individuals, groups, organizations, etc.; the braille equivalent of a printed textbook might run 20 volumes, and the Helen Keller Braille Library prepares these for blind students by way of volunteers transcribing each book, page by page, into braille, these pages are then duplicated in electric copying machines and collated, bound and packed for distribution to students; special classroom aids such as braille compasses and rulers, embossed maps are also supplied by this library.

Mr. Romano also distributed a variety of literature and brochures, including cards with the braille alphabet in raised dots and a card with the simulated face of a braille watch, the use of which he demonstrated on his own wrist watch since he himself is totally blind.

Anyone wishing further information can contact Mr. Romano in his office at 320 Fulton Avenue, Hempstead, NY 11550, or call 485-1234.

\* Dinner and fashion show sponsored by Willet Avenue PTA Hicksville, April 30 at Salisbury on the Green, Eisenhower Park, East Meadow, 7 p.m., Cocktails at 7 p.m., dinner at 8 p.m. Tickets, which are \$20, are on sale now. For information call Lois Goodwin at 935-1180.

Kiwanis Club Chairman John Fitzpatrick, right, presents Frank Romano with a Kiwanis certificate of appreciation for his program on the Helen Keller Services for the Blind.

## Memorial Day Planning

A planning meeting for Hicksville's Memorial Day parade and services was recently held at the Veterans of Foreign Wars Hall, south Broadway.

This year's Memorial Day events, which are part of an ongoing tradition in the community, are sponsored by the Hicksville Combined Veterans Organizations. Host veterans post for 1987 is the Charles Wagner Post 421 of the American Legion. Past Commander Frank Molinari is coordinating the parade and services.

The parade will end in the vicinity of Jerusalem Avenue and Fifth Street. Memorial services will take place at the Hicksville War Memorials on the south end of the junior high school. This will be another opportunity for the community to view the new Korean War and Vietnam War veterans monuments, which were dedicated this past Veterans Day.

The public is invited to march or to view the parade and ceremonies honoring all deceased war veterans, especially the over forty men from Hicksville who died in the service of the Republic in this century.

Group leaders who were unable to attend the planning meeting, and wish to take part, may call Frank Molinari at 931-1934.

# There's one thing wrong with those low finance rates on new cars.

## You don't get to choose the car.

These days, car dealers are getting you into their showrooms by talking about their low finance rates.

But once you get there you find out that these low rates don't apply to all models. And probably not to the makes and models you're most interested in.

On the other hand, consider the options and features The Bank of New York is offering.

First, we have the lowest auto loan rate we've had in fourteen years.

## Legionnaires' Log

By GREG BENNETT

Charles Wagner Post #421, Hicksville

The Veterans Administration no longer will reimburse vets for most travel costs to and from its medical centers. "What's eliminated is regular transportation, where people have in the past been reimbursed for travel costs," said John Scholzen, a VA spokesman. The change will save the VA \$50 million a year. Before the change, veterans received 11 cents per mile subway tokens, taxi fare or bus costs for a round trip to VA medical center. The VA will still pay for emergency transportation - such as an ambulance or a wheelchair van - and travel in connection with compensation and pension examinations. Veterans groups are saying that many veterans who are poor and senior citizens will be prevented from reaching the VA.

At the last Post meeting Al Sinnoti presented budget proposals for the Legion year and PC Dick Hochbruckner helped clarify many items. Included in the budget is a proposal for new Post Colors. PC Ray Gamble requested colors be purchased for our SAL group.

Americanism Officer Dick Evers presented plans for the "200 Years of the US Constitution Essay Contest" sponsored by the American Legion and conducted in Hicksville elementary and secondary schools. Bonds and medals will be awarded to students whose essays are judged to be the among the best. Children and Youth Officer Arlene Howard will be distributing Constitution coloring books in area elementary schools and assisting Dick Evers with the essay contest.

After the meeting, the Nominating Committee met to discuss plans for selecting next year's commander and officers. Please be active during nominations and elections.

On Monday, May 4 from 8:30 am to 5 pm, Hunter College, Social Work School has a conference, "Vietnam Veterans and Their Loved Ones." The cost is \$15 or \$5 for students, retirees or the unemployed. Call Angel Almedina at (212) 944-2930. In Hicksville, for applications call 938-9385. Please register before April 24.

We remind all Legionnaires that you are needed on Memorial Day. If you are unable to march, there are other ways you can assist. We want all Legionnaires to be part of this special day.

It's great to hear the US Coast Guard is naming a fighting vessel after Medal of Honor winner George Lang, a Legion member. The residents and community groups of Hicksville should donate recreational items to the crew of the LANG as residents of Oyster Bay and the Teddy Roosevelt Association donated to the new carrier, USS ROOSEVELT.

Our congratulations to Connie Steers as being named Grand Marshall of the Memorial Day Parade. Connie is PPC of the VFW, president of VVA Chapter #82 and a Big Brother. He is also a member of the Military Order of the Purple Heart. We are forever grateful to Connie for his hard work in establishing the Korean and Vietnam Veterans Monuments in Hicksville. Connie and his wife Cherie are well respected and great friends of the American Legion.

Vietnam Veterans of America Chapter #82 will be marching in the Hicksville Memorial Day Parade. Get well wishes to Gert Reichlein of the Auxiliary.

This column is dedicated to Maj. General Joseph Swing of the 11th Airborne Division whose paratroopers descended on the Japanese POW camp at Los Banos, the Philippines, on February 23, 1945 to rescue 2,000 civilian internees without suffering a single casualty while engaging Japanese forces.

REMEMBER MEMORIAL DAY and our POW/MIA. Next post meeting is Monday, April 20.

## NTV At Dutch Lane School

NTV—is that a new rock video channel? To the contrary, NTV stands for No TV. The children in Denise Yannone's class at the Dutch Lane School have given up watching television! Inspired by the young New Jersey boy who didn't watch television for one year, the Dutch Lane students decided to challenge themselves and see if they could live without television. They are already into the second week of NTV and the children are alive and well. Even their teacher has joined the project.

Students like **Thomas Risoli** (whose mother and grandmother also watch NTV) are finding more time for family games and activities and more sleep. Says Tommy, "The project is exciting and I hope I can do it for three weeks."

**Frank Gerwer** has been studying his times tables and spending time with his mom, who has also given up television. One evening the Gerwer family watched family movies from thirty years ago! According to Frank and Mrs. Gerwer, they all had a ball. Even though it's tough at times, Frank and his mom are supporting each other through the project. Frank's recommendation, "If you're going to try this, get a good hobby!"

**Gregory Blind** has been keeping busy building models with his dad. Greg has contributed to the class spirit by making NTV posters with his computer. Greg even made a special calendar so his classmates could mark off all the days they stayed away from the television. According to Greg, "It's great because I am spending more time with my family."

**John Reddy** has been listening to the radio and doing more reading. John read, "The Chocolate War" and "Through the Looking Glass." John says, "It's fun, especially getting VCR tapes to tape all the shows I miss!"

Says **Kristine De Martino**, "I like the project, but I can't give up my two favorite shows, 'Growing Pains' and 'Who's the Boss!' Kristine has been watching a lot less TV and is playing with her baby hamster 'Cuddles' and helping her mom in the kitchen."

**Thomas Rottino** has been doing extra

math homework, much to the delight of his teacher. Tommy is spending more time outdoors getting exercise with his friends. Tommy says, "The project is fun, but it's hard not to watch TV on Saturday."

Besides reading every night, **Ryan Becker** plays educational games on his computer and he is learning how to type. Ryan plays more with his friends and he is looking forward to the ice cream party the class will have to celebrate two weeks of NTV.

**John Orsini** was home ill for over a week and for most of the time he didn't watch any television. The class agreed that it must have been very difficult to stay away from the television set for such a long time.

Spending time with her family, reading, and playing spelling games like "Boggle" with her sister are some of the things that keep **Janet Koser** enjoyably occupied and away from the television set.

**Adam Tladale** has been playing with his computer, studying his spelling words and getting more exercise by playing basketball. Adam says, "I like the project. It's a lot of fun and I recommend it to other kids."

The students have had some interesting class discussions about the positive and negative aspects of television. They have discussed "subliminal advertising" as well as educational television shows. As part of a creative writing assignment the children developed a list of twenty things to do instead of watching television.

The students all agree that there are many fun and useful things to do instead of spending so much time in front of the television set being a "couch potato!"

## The Tail of the Comet Puppet Show

A very special puppet show will be presented by the children's room of the Hicksville Public Library on Saturday, April 25 at 2 p.m. Children will meet the wonderful Wizard of Halifax and follow the comet kids, Cassey and Chris, as they embark upon an exciting and magical adventure to the stars and planets in "Tail of the Comet." The program is free and all are welcome to attend.

East Street sixth graders display headaddresses they created reflecting their interests and traits. Mr. Hilsky's class, with the help of art teacher Mrs. Whitte, constructed the headaddresses as part of the interdisciplinary unit of "Kings and Queens."

## EDITORIAL AND OPINION

*A Letter from Lulubelle...*

...I am remembering a long time ago when dresses were all fitted at the waist, and, in order to get into them, there was an opening on the side called a placket. . . . This was fastened, originally, by snaps or hooks and eyes, and later, as progress moved along, by small zippers which were closed on both ends and which were about seven inches long—and they can still be found in the zipper racks in sewing goods stores. . . . Well, times have changed and you must have noticed that there are no longer any plackets. . . . In fact, that elastic-waist dress seems to be here to stay. . . . Now, if you are tall, long waisted, thin, and gorgeous, it's great, but for those who are none of the above, what a disaster!!!!. . . . The elastic waist lands where our waistline would be if it were still there, and above it, the fabric balloons out making the wearer look just like a mushroom—all top. . . . I know why the manufacturers are doing this elastic thing—anyone who sews knows that it's a lot faster and easier to run an elastic than it is to insert a zipper—and elastic is cheaper. . . . But with what dresses cost nowadays (I remember trying to decide between \$1.98 and \$2.98!) one would think that they could afford the labor for the zipper. . . . and another thing that's driving me wild is this thread that has become very popular with dress manufacturers—it's plastic and clear—and obviously, means that there is no need to have many colors of thread on hand and no need to change the machine when the operator changes from one color dress to another—the only catch is that it doesn't seem to "stay sewed". . . . pretty soon you feel a tickling around your knees, and there's a loose thread which is quite stiff, and, if you are foolish enough to pull it, woe to you! you have a handful of this plastic and no hem. . . . and one more thing, not the manufacturer's fault, it's those plastic fasteners for the price tags. . . . I cut them off and then can't find the other little pointy end, and then, when least expected, it starts scratching and no amount of searching will locate it hidden in some mysterious part of the seam. . . . Oh well, home sewing is a good answer—if only there was time!!

*Yours, Lulubelle*

## Hidden Assets

*Guest Editorial from Levittown Tribune*

We finally figured out one major barometer that can indicate the true worth of a given community—its number of volunteers. They are the often unheralded, hidden army of men, women, boys and girls who provide a richness and depth to a neighborhood. Volunteers, who never ask for monetary compensation, are much like the "good will" item on a corporate balance sheet. They are a one-dollar item in the ledger, but both are vital to sustain a community's reputation or a company's public relations image.

We are constantly in awe of the commitment and effort put forth by these special people who apparently make a conscious decision to return some of life's gifts to their world around them. While the public attitude of "What's in it for me?" grows, they step forward to perform a human task. They reinforce a moral value that is difficult to define.

You can find some of these extraordinary people at work in their churches, schools, playing fields, charity centers, hospitals, fraternal orders, and all of the other locales where their presence is wanted and needed. In addition to offering their specific skills and enthusiasm, they often raise the level of significance of the project they undertake.

Who are these people? They are the volunteer firemen who give up their well-earned vacation time to learn CPR techniques at the local hospital. They are the sunshine ladies who bring smiles and comfort to ailing patients. They are the men who get up at 4 a.m. daily to feed the animals at the local shelter. They are the youth leaders who spend hours teaching children sportsmanship. They are the ladies knitting afghans for needy people. They are the professionals who silently provide their expertise to those who can't afford it otherwise. They're your scout leaders, PTA members, charity fundraisers, home elderly caretakers, Little League and soccer coaches, church or synagogue workers, and all the others who ask for little in return. Their reward is simply the satisfaction of reaching a specific personal goal, whether it be saving a life or going over the top in a fundraising drive. They direct their energy towards a single purpose and never stop until they are satisfied within.

There is really no way for us to repay these volunteers. All we can do is give them a helping hand and, maybe, some public recognition. But, most of all, we can thank them for making our own environment a better place.

This community newspaper makes a conscious effort to give news space to these special people among us. Some of them are even a welcomed part of our contributing staff who take the time to write about the good works of others. We thank them for that.

Often volunteers are reluctant to come forward for public recognition, so we are appealing to their friends and neighbors to let us know who they are, so that they can volunteer yet to do another job—to show others how they too can enrich their lives by helping others.

Think about how much more can be accomplished here if each and everyone of us volunteered, say five hours a week, to helping their community. It would be an even better place to live.

Maybe it is time to create a "volley bank" where any worthwhile community-based organization can contact to get their full quota of volunteers for their specific needs. Any volunteers?

## What The Politicians Are Saying...

**Assemblyman Tom DiNapoli** (D-Great Neck) has announced that he is sponsoring legislation which prohibits discrimination against people who have cancer or a history of cancer. This proposal would grant cancer discrimination victims the same right of action afforded to victims of race or sex discrimination. There are approximately 25,000 cancer survivors in New York State and this bill specifically safeguards against refusals to hire, being fired, demotions, exclusions from health insurance benefits, undesirable transfers, isolation from fellow workers, and hostility in the workplace.

**Hempstead Town Presiding Supervisor Joseph N. Moudello**, along with **Supervisor Gregory P. Peterson**, have announced that the Town Board has adopted a resolution requesting that the State Legislature enact a bill which will enable Nassau's three towns to provide accidental death and dismemberment coverage to their volunteer firefighters. Under the plan, the town's estimated 6,000 volunteer firefighters would receive insurance coverage at no cost to the firefighter.

**U.S. Senator Alfonse M. D'Amato** (R-C-NY) has co-sponsored a bill designating August 2-8, 1987 as "International Special Olympics Week." The special Olympics began in June of 1968 with a day-care camp. Today, more than one million athletes compete each year in the games. The competitions are held in over 20,000 communities in every state in the nation and in 65 foreign countries.

**Senator Michael J. Tully, Jr.** (R-Roslyn Heights) has announced the implementation of NYSAVE Energy Efficient Appliance Rebate Program which gives direct cash rebates to purchasers of new energy-efficient appliances. Nassau County will be among the first to benefit from this program which was designed to offer consumers an incentive to replace old energy "hogs". Old and inefficient appliances waste energy and drive up utility bills and increase future demand for power. For a copy of the brochure *How To Save Money When You Buy An Appliance* call 1-800-342-3722.

**John W. Matthews**, Chairman, Nassau Democratic County Committee, has asked the Nassau County District Attorney to investigate an unsigned piece of literature now being circulated in the Town of Oyster Bay urging voters to reject the creation of a councilmanic district system of electing town board members. Mr. Matthews noted that the councilmanic district proposition establishes the method by which the town board members are elected, does not increase the number of members nor its cost. He also pointed out that the word "ward" is legal terminology which must be used to get the councilmanic or neighborhood/community election proposal on the ballot.

**Senator Daniel Patrick Moynihan** (D-NY) has introduced legislation calling for public access to the United Nations files on Nazi war criminals. A former ambassador to the United Nations, Senator Moynihan said nearly 37,000 files dealing with suspected war criminals have been locked away from public view since 1949.

The United Nations War Crimes Commission, established in 1943, collected, investigated and recorded evidence of war crimes. The Commission described its lists as "a valuable record for future historians." But when the files were turned over to the United Nations, the Secretariat decided that they should only be open to governments on a confidential basis.

The existence of the files became known last year when the World Jewish Congress disclosed that there was a Commission file on Kurt Waldheim. Although the United States had access to the Commission files, evidence of Waldheim's war crimes remained hidden for almost four decades while he rose to the position of Secretary General of the United Nations.

## A Passover Message - 1987

**A Column by Governor Mario M. Cuomo**

The story of the exodus never grows old and never grows stale. It is the thrilling tale of a slave people defying the greatest empire of the time and inspired by faith in the Almighty doing battle against seemingly impossible odds, to win freedom for itself.

It renews our eternal hope for freedom for all humankind and brings us assurance that the pharaohs rule only for the moment but cannot for long block man's march to liberty.

Individuals and nations are enslaved not only by tyrants but by their own lack of understanding of the true meaning of freedom.

The Hagaddah, which is recited at the festive Passover seder meal begins with the words, "Let all who are hungry come and share the meal with us." The hungry person is not a free person. There are pockets of poverty amidst our national affluence. We must apply ourselves to freeing our citizens from the burden of the enslavement of poverty.

The homeless person is not free and our own freedom is not complete until we provide homes for all who need them.

The drug addict is not free. He is enslaved by his habit. The Passover festival of freedom should inspire us to do our utmost to free our young people from this terrible scourge.

The most oppressive tyranny is that of prejudice and racism. It robs people of the freedom of communication with one another and of working together for the public good. It engenders misunderstanding and fear and fragments the community. The racist is not a free man. He is bound, shackled and limited by his prejudices.

May this festival of freedom give us the will to build a society where all citizens will be free from the enslavement of poverty, homelessness, drug addiction, prejudice, racism and all other forms that limit the free spirit of man.

*A Happy Passover to all*

## Police Report

The Second Precinct has reported the following:

• **April 1:** A robbery occurred at a gas station on Old Country Road at 12:45 a.m.

The attendant was in the booth when three men entered and using physical force robbed him of \$300 and 40 cartons of cigarettes. The three subjects escaped on foot in an unknown direction. The victim received a laceration to his lip but he refused medical aid.

• **April 4:** An accidental death occurred at a corporation on Cantigue Road at 9:20 a.m. A 31-year-old maintenance supervisor of Bethpage was putting up fluorescent lights when he fell to his death. He was pronounced dead at the scene at 10:35 a.m. His body was taken to the Nassau County Morgue to determine the exact cause of death.

The man was standing in a metal basket that was put on the prongs of a hoist, operated by another worker, a 30-year-old Hicksville man. Apparently, when the supervisor attempted to turn around, the basket slipped from the prongs and he fell ten feet landing on his chest and head. The Second Squad is investigating.

The Eighth Precinct has reported the following:

• **April 4:** A house on Ball Park Lane was burglarized. Entry was made through a rear door. The loss included four cameras.

The rock opera, "Jesus Christ, Superstar," will be presented by the Performing Arts Department of Holy Trinity Diocesan High School on May 1, 2, 8 and 9 at 8 p.m. in the Trinity Theatre. Tickets are \$4 and are on sale in the school book store and at the theatre box office. ## News From The Galileo Lodge

By JOSEPH LORENZO HISTORIAN

### President Joe Giordano's Message:

**'Good breeding consists in concealing how much we think of ourselves and how little we think of the other person.'** MARK TWAIN

The Galileo Lodge is an ethnic organization. Its membership rolls include men and women (Ladies Auxiliary) who have Italian surnames. There are some who do not have Italian surnames but are married to others of Italian extraction. And as I have stated so many times before that ethnicity is nothing to hide or be ashamed of. Today, or in today's environment, people are proud of their origin, customs and tradition, and as a result they band together, unite for a common cause as they seek an organization that aids them in the preservation of certain ethnic values, traditions and ways of life. A good ethnic organization provides solidarity, exposure and social and civic advancement. And we cannot leave out the fostering of goals, ambitions and philosophies. The idea that in unity there is strength, which is a time-worn idea or cliché but one that is very apropos in our society today, is still a noble one.

If you are seeking an organization that fits in or blends with your way of thinking, and if you are of Italian extraction or married to a person who is, then why not call the Galileo Lodge at 931-5966 or visit its environs at 200 Levittown Parkway, Hicksville. Why not hear with your own ears and see with your own eyes exactly what the Galileo Lodge is all about, and you might be glad you did, to use an overworked phrase if I may. So if you are interested in joining an organization that is progressive and willing to go to extreme lengths to pursue its goals and aspirations, you might be proud of the Galileo Lodge. I'm sure that the Galileo Lodge will do everything possible to make you very proud of yourself. Another interesting aspect of the Galileo Lodge's organizational policies is that it does not discriminate as it helps almost everyone who is in need of aid or assistance...the poor, the unfortunate, the needy and to the young who are in need of financial help. Try us, we'd like to meet you soon.

As a reminder, please do not forget the Galileo Lodge's Fifties and Sixties Dance, featuring the music that was an integral part of these periods. It includes a dinner with all the trimmings and a disc jockey to offer you this music. Call John Cannizzara, Tony Sica and Vito Grippi for tickets at 931-9351, at a price of \$18.50 per person. And please do not forget the Testimonial Dance to be given by the Ladies Auxiliary in honor of ex-President Mary Monteforte on Friday, June 19. Tickets will sell at \$22.50 per person, and in the offering will be a delicious hot dinner, beer, soda, coffee and cake, set-ups, unlimited liquor and music for your dancing and listening pleasure. Call Sue Laurenti at 931-9351 for ticket sales and information about this dance.

### Lodge Tidbits:

Congratulations to Mr. and Mrs. Anthony and Edith Portera as they will celebrate 45 years of wedded bliss. A nice happening to a very nice couple from our lodge...Gus Russo will celebrate his birthday on April 29 and we wish him a very heartfelt congratulations...May 31 is the next fishing trip date out of Captree and the price is roughly \$23.00. Call Bert Molinelli at 931-9351 for more details...Galileo Lodge will once again participate in the March of Dimes program which is being held at Eisenhower Park on Sunday, April 26. Members are asked to participate. Call Vice-President Skip Monteforte for more details for the event...Help is still desired for our bingo sessions, so members are asked to participate because bingo is important to the Galileo Lodge.

Oyster Bay Town Councilmen (second from left to right rear) Angelo A. Delligatti, Douglas J. Hynes and Kenneth S. Diamond were on hand for the 15th annual installation of officers of the Galileo Galilei Lodge, Sons of Italy. Nassau County Executive Thomas Gulotta (right) presents citations to Lodge president Joseph Giordano and to Marian Danseglio, president of the Ladies Auxiliary. Also on hand for the occasion was Nick Viglietta of Massapequa, State President of the Sons of Italy.

Having an effective ad is easy when an expert does the job for you. You can depend on your real estate agent to advertise your property, to qualify the prospects the ad attracts, to take care of showing the house, and even to negotiate price on your behalf. You don't have to write the ad or pay for it. You're not stuck home waiting for potential buyers or left alone to bargain with them. You've got a knowledgeable helper with you every step of the way.

Best of all, experience shows, you'll probably get a higher price for your property when a professional does the selling, so all the expert help ends up costing you almost nothing!

## Parola Announces Contest To Select Student Delegate For Constitutional Convention

In commemoration of the bicentennial of the U.S. Constitution, Assemblyman Frederick E. Parola (R-C, Wantagh) recently announced that the New York State Assembly will conduct a Mock Constitutional Convention for high school students in Albany on Wednesday, May 27.

Assemblyman Parola is sponsoring an essay contest for interested students and will select one winner to represent the 14th Assembly District from all entries he receives.

High schools in the 14th Assembly District include Bethpage, Hicksville, Island Trees, Division Avenue, McArthur, Plainfield, Seaford and Wantagh.

Parola noted that the subject of the essay contest appropriately is, "Why Has the Constitution Endured?" Each high school in the district will choose a student finalist, with the winner selected by a committee appointed by the assemblyman.

Essays should be 300 words or less. The deadline for entering is May 1, and the winner will be announced May 6.

According to Parola, on the morning of May 27, participants will be divided into six groups, and each will be assigned one of six proposed constitutional amendments to debate. The subjects include:

- the Equal Rights Amendment
- an amendment to grant the residents of Washington, D.C. full representation in Congress
- an amendment to make English the official language of the United States
- an amendment to change the presidential term of office
- the balanced budget amendment and
- the amendment to allow prayer in public school

During the lunch break, Assembly Speaker Mel Miller will welcome the delegates and will introduce the conventions' keynote speaker, Sol Wachtler, the chief judge of the state's highest court and a Nassau County resident.

After lunch, the delegates will convene in the assembly chamber, where each group will have one-half hour to debate its proposal. Each group will be led by a graduate student

from the Assembly's Intern Program, who will act as parliamentarian.

Parola pointed out that the assembly will pay for students' hotel room, meals and transportation to and from Albany so that any student can participate at no cost.

"This event will provide an exciting educational opportunity for the students involved and will help them understand the challenge of negotiation and compromise that first confronted our Founding Fathers, and which still confronts lawmakers to this day," Parola concluded.

For more information, contact the assemblyman's district office at 3700 Hempstead Turnpike in Levittown; telephone 731-3434.

KIM BASINGER

DANNY DEVITO

## BLIND DATE

Bruce Willis plays a young executive on the way up whose blind date Kim Basinger sends him on a wild ride. Director Blake Edwards is in full control of this comic material. And his lively and clever sight gag score amply laughs. Basinger steals the movie as the attractive Southern belle who leaves pandemonium in her wake. A delightful romantic farce. Also with John Larroquette and William Daniels. (PG-13)

## STREET SMART

A compelling drama about sleazy journalism and the sleazy world of prostitution, that overcomes some flaws and lives up to its title. Christopher Reeve plays a magazine reporter who takes a cover story about a flashy Times Square pimp. This sensational conception leads to various intriguing complications with a real pimp who fits the fictional profile. Some scenes don't ring true, but powerful performances, especially Morgan Freeman as the pimp, and some clever twists make up for the drawbacks. (R)

## TIN MEN

A fine, funny, film comedy about feuding, flaming, aluminum siding salesmen. Writer-director Barry Levinson expertly captures the patter, camaraderie and life-style of these con men operating among vulnerable Baltimore homeowners. Richard Dreyfuss and Danny DeVito, as the rival schemers, milk the comic material for maximum effect. You say you're not satisfied? You want more for your money? There's also great supporting performances from Jackie Gayle and John Mahoney as fellow siding pitchmen. (R)

## LETHAL WEAPON

As a cop buddy story, the film carries some appeal. Mel Gibson, in the title role, is a spaced-out, suicidal, young detective. Danny Glover is the cautious older partner who worries about his pension. But the action and violence are so overwhelming when the pair pursue vicious drug smugglers that the picture loses credibility. There are just too many shoot-outs, explosions, burnings, car chases and torture scenes in a short time span—all rather familiar. (R)

## The Investor's Corner

By JOSEPH P. FREY, Ph.D.

### Are They REALLY No Load?

Mutual funds have been getting increasingly popular. Long time readers of the article know that mutual funds are my favorite non-real-estate investment. The first article I wrote described the confusion with their selection. It has not gotten any better since last May.

No load mutual funds are what I consistently suggest unless there is a compelling reason to do otherwise. The problem is finding a true no load fund. Your stock broker is not going to recommend a no load. There are no commissions for them. Discount brokers usually do not make suggestions; they want transactions so they can make money. So, if you want a no load, you have to find it. They are getting harder and harder to find because the no loads are switching to loads of one kind or another.

What may seem to be a no load might be a disguised load fund. For instance, there may be no up front sales charge, but there is a redemption fee—what I call a back load, when you get out of the fund. Some funds have become low load funds. They charge a smaller up front fee than do the full load funds—usually three percent rather than eight and one half percent (8 1/2%).

All funds must charge a management fee if they wish to stay in business. All funds do. This charge is anywhere from one half to one and one half of one percent (1/2 to 1 1/2 of 1%) per year. This pays the managers and the bills of the managers, including advertising. Any other fee paid other than this charge is a load of one kind or another. Except for a special investment reason, funds that charge loads should be avoided.

Your brokerage house will try to convince you that the paying of a sales commission gets you into a well managed fund. That simply is not true. There is no relationship between paying a sales commission and the quality of the mutual fund's management. Either type can out perform the other. Look at the track record of different funds for proof of this.

The brokerage house and the management of a fund are separate and distinct. They usually are separate companies. Never are the commission received by the brokerage house and the salesperson and the salaries and bonuses of the fund's manager dependent on each other.

There is a sneaky way to impose a load without having it look like a load. It is a device called a 12B-1 fund after the 1980 Security and Exchange ruling. This ruling allows a fund to withdraw a portion of the assets to pay advertising and sales commissions in addition to normal management fees. It is sneaky because the only way you know the fund is doing this is to look in the prospectus. How many do that? Not many.

A friend of mine, who should know better, told me he bought a no load from a large, full service brokerage house. I told him that this was impossible. When I told him that the salesperson received a commission, he said he did not care because they invested 100 cents on the dollar, just like a no load fund. It had to be a 12B-1.

You see, the fund's managers paid the commission out of the assets, so everyone paid a little for him. He will pay a little for everyone else. Everybody is happy because you do not see the commission. The net result is the same in the long run. You just do not feel it as much or as soon. Remember, if someone is trying to sell you a fund, there is a load—somewhere, somehow. If the fund fits your investment pattern or objectives, buy it.

There are only two ways to buy a true no load. Do your own investigating and buy direct from the company, or use a fee-only advisor who has no ax to grind. The advisor should receive no commission. Both are getting harder to find, especially good ones.

## Lifecall: A Heartbeat Closer To Quick Response

Lifecall, an emergency response system that summons help at the push of one button is now available in the New York area. Dr. Robert Goldblatt, a local college professor and psychotherapist, and his wife Sandra, a local businesswoman have recently become one of the first independent authorized Lifecall dealers in New York. Their company, Emergency Response Incorporated will be responding to the continually increased needs of the older and handicapped population to live a more secure and independent lifestyle.

Dr. Goldblatt explains: "Lifecall takes the best of communication technology and brings it under control of one button. This button is in reality a transmitter that activates Lifecall microprocessor which dials your telephone to signal the necessary, fire, police or medical services."

Lifecall is more than a telephone dialing device. Dr. Goldblatt described what happens when the unit is activated. "A central monitoring office is contacted. Here trained personnel read a complete summary of the person seeking help - name, address, medical history, hospital, doctor, people to notify, exact house location, and how to get into the house. This center immediately makes the appropriate calls to your local emergency response people."

The Lifecall protection means that you are never alone. Research indicated that last year alone over 500,000 people died because they were unable to get emergency medical help. "In this day and age proper and simple communication is essential," adds Dr. Goldblatt. "Lifecall is the connection to immediate assistance. You have 24 hour a day protection 365 days a year. You instantly get life saving help when you need it most - when you are alone and helpless." Dr. Goldblatt will be making speaking engagements to speak with groups and individuals and can be reached at 516-097-0066 for information about Lifecall and its benefits.

The bidding:

Opening lead — jack of spades.

It is unusual to find as many

finesses in a single deal as there are

in this one, but that's the way the

cards were actually dealt. What's

more, the unhappy soul who wound

up as declarer tried and lost every

one of them, and as a result finished a

trick short of his contract.

He won the opening spade lead

with the queen and promptly led the

jack of hearts and let it ride, losing to

the king. West's spade return was

taken by the king, and a heart was led

to the ten, extracting the opposing

trumps.

Declarer now cashed the ace of  
spades before leading a diamond to  
the queen. But West won with the  
king and exited with a diamond to  
South's ace.

By this time, two finesses had met  
with no success, but declarer was not  
yet finished. After winning the dia-  
mond, he led a club to the queen,  
losing to East's king. Back came a  
club, and South took his last shot by  
finessing the ten. Down one.

There is no doubt that declarer  
was extremely unlucky to have failed  
on four successive finesses. Never-  
theless, the fact is that he took one  
finesse too many, and it cost him his  
contract.

There was certainly nothing  
wrong with trying the heart finesse  
initially, but after it lost, South should  
not have attempted the diamond  
finesse. To assure the contract at this  
point, all he had to do after cashing  
the ace of hearts and ace of spades  
was to then play the ace and queen of  
diamonds.

While playing the diamonds in  
this fashion might have cost him a  
diamond trick, it guaranteed that the  
defenders could never score more  
than three tricks. Whichever oppo-  
nent won the diamond would have to  
return a club in order to avoid  
handing South a ruff-and-discard, and  
this would automatically limit his  
losses in the club suit to one trick.

# AMERICAN HOME WEEK

## Chimney Magician

### HOW SAFE IS YOUR HOME?

I am a chimney sweep. I am president of Chimney Magician, Inc., one of the largest chimney sweeping companies in the nation. And I'm tired of reading shallow articles in publications about fireplaces and stoves. Sure it's cozy to have a fireplace and a coal/wood stove but, let's tell the public the facts of preventive maintenance.

Heating equipment of all types is responsible for more than a third of all residential fires. Solid fuel (wood/coal) accounts for nearly 80% of all residential heating fires. These fires have cost us 3 billion 440 million dollars in 1984, which resulted in loss, or partial loss, of 623,000 homes. Solid fuel causes one out of every five fires in this country. The United States as an industrial country has the worst solid fuel related fire rate in the civilized world unlike some other countries where chimney sweeping is a law. In Germany, for instance, chimney sweeps are civil servants and all chimney's are cleaned twice a year. Most Americans are unaware of the desperate need of chimney maintenance and

cleaning. This includes gas and oil chimney's. Our solid fuel's safety record is improving. A national decline in the number of residential fires and civilian deaths is beginning to be noticed. Industry and regulatory safety efforts are paying off. More and more people are having their chimney's inspected and cleaned.

The proper name for soot found in chimneys is creosote. Creosote is highly flammable. A chimney fire will range in temperatures of 1800 - 2100 degrees Fahrenheit. The brickwork itself can radiate enough heat to ignite paneling or surrounding woodwork. Chances are it will only scare the daylight out of you. However, if it can damage the house considerably.

The information in this letter was released by the Consumer Product Safety Commission based on data from the U.S. Fire Protection Administration and the National Fire Protection Association.

## Van Riper Realty

The Van Riper family shares in Long Island's historic past. The first Van Ripers were Dutch settlers who came to America in the 1600's. A real estate office was first opened by Douglas Van Riper in 1926 in Bayside. While there, he was also one of the founders of Bayside Federal Savings & Loan Association and served as its Board Chairman. He became well known in the community as a real estate instructor and speaker, as well as an officer on the Long Island Board of Realtors. His advertisements have received numerous awards.

In the late 1930's Douglas moved his family to Manhasset and opened an office there. Another office in Brookville branched the Van Riper name eastward.

In 1950, a son, Douglas M. added an expertise in appraisals to the firm. He was a member and officer of the Society of Residential Appraisers. He was the first person of the North Shore Division of the Long Island Board of Realtors.

Edie Van Riper came into the business in 1974. She continues to operate the Manhasset and the new (1986) Port Washington office.

The family-owned and operated business emphasizes its close, personal associations within the Manhasset - Port Washington community. All its sales people are full time local residents, active in many community organizations. A long history of life on Long Island and its commitment to its careful development is what distinguishes Van Riper Real Estate.

### Taking It Off The Market

Dear Edith: We listed our house with an agency and signed a paper to let them show it for sale for six months. We feel they underpriced our home for a quick sale, as we looked around and found nothing in our price range, or as good as our house for more money. Can we take this off the market, or are we committed for the six months?—S.P.

Unless you were flooded with offers immediately, it isn't likely your place was underpriced. Just the same, you certainly have a right to change your minds. No one can force you to sell your property.

Depending on the circumstances, the broker may claim reimbursement for money (advertising, for example) and time already expended on your listing. The broker might even have a claim for full commission if he or she had already brought you a full-price offer on your terms, or if you later negotiated secretly with one of the broker's customers.

No need to worry about that if you are acting in good faith.

Dear Edith: My mortgage payment is \$208.85. If I add another \$25 or \$50 just how big of a help will it be on our in-

terest rate? If it isn't, would you please tell me the best way to bring our interest rate down? We own seven more years on our mortgage.—R. E. W.

Extra payments won't have any effect on your monthly payment or interest rate. What they do is reduce the remaining debt and shorten the length of time remaining for you to pay.

If you want to make extra payments, check first to make sure you can do so without any penalty. As for reducing your interest rate, there isn't any way. You promised many years ago to pay at a given rate, and that's that.

Dear Edith: My husband is going to retire next April and we will sell our house. Could you give us advice on how to approach a lending agency to get a loan commitment? Of course, we would expect to pay an appraisal fee and fees for paper work — Mrs. P.O.

Lenders won't commit to a mortgage until they've OK'd the people they're going to lend money to. Usually it's the buyers who apply and who pay those application costs.

## HOUSE CALLS by Edith Lank

**Dear Edith:** I have a 30 year mortgage. Each year I have a small balance left in my escrow account. I would like to know when do I get this escrow money back? Or where does it go? Please explain this for me.

—Mrs. T.D.

The escrow (reserve) account represents your own money, extra funds you send in each month with your loan payment, so the bank can pay your property taxes and insurance premiums as the bills come due. If there's something left over, it remains in the fund toward the next year's bills.

After you pay off your loan—usually when you sell the house—the bank no longer pays your bills. At that point, the money in the escrow account is returned to you. This often comes as a pleasant surprise to sellers who have forgotten it was really their money all along.

**Dear Edith:** No doubt you have printed this information before but if so we have missed it. Our home loan will soon be paid up and we would like to know the proper procedure to follow and the documents we should have in our possession.

—Mrs. A.S.

When your loan is paid off, lenders should return the abstract (if they're holding that document) and furnish a Certificate of Satisfaction, stating that the loan is paid off. This important

document should be entered in the County public records (by you or your attorney) to prove there is no longer a claim out against the property.

**Dear Edith:** If we find a home with an outstanding mortgage and want to pay cash for the house, how is the mortgage payoff handled—prepayment penalties, etc.? Can there be any financial benefits for us?

—Mr. P.A.

When you buy a house for cash, the sellers turn it over free of mortgages and other financial claims (liens). How they manage the paperwork, and whether they are charged prepayment, need not concern you.

An all-cash offer is attractive to most sellers, because it represents a prompt trouble-free transaction, with minimal closing costs for both parties. For that reason, it's often worth some concession on selling price.

**Dear Edith:** Do you think this is a good time to invest in income-producing property?

—Mr. K.J.

It's always a good time to invest in income-producing property. With the new income tax regulations, though, it's more important than ever to analyze any proposed purchase to see whether it's a healthy financial proposition.

Some investors now look only for property that will carry its own expenses, including something set aside for repairs and vacancies. The new income tax act severely limits the tax shelter aspect of real estate investment, for some taxpayers more than for others. Your own tax situation—total income and the sources of that income—must now be considered before you decide whether a particular piece of real estate is worth your money, time, and effort.

**Dear Edith:** I am single, earn \$21,000 and am living at home because of high rents. I am thinking seriously of buying a condominium.

Can I get a loan without already having a purchase agreement? It seems that when the bank offers low interest rate mortgages, you must already have property in mind. But what sense would it make for me to look at something I can't afford and then just hope low-interest loans would be available?

—Ms. M.W.

A mortgage isn't like a personal loan. True, the money is lent to you, but only if you put up real estate as collateral. The lending institution wants to know just what real estate will be offered as security, before it decides whether it's safe to make the loan.

You can, however, find out what you can afford before you start looking. A real estate agent will sit down and run a financial analysis for you, so that you won't be wasting time on property in the wrong price range.

**Dear Edith:** I am 85 years of age, most alert and right now in good

health. I have a son and daughter, both with children. They do not get along together too well. My daughter-in-law who is in real estate thinks it would be to all our advantage to put the house in my name with my son and daughter. She claims it will eliminate many thousands of dollars upon my demise.

Is there anything to be accomplished if I do this? Right now, my real estate taxes are cut in half due to my income. I am in a lovely residential area and the house is valued way over \$150,000. Hoping to hear from you shortly.

—Mrs. G.N.

Some facts to consider. You can now leave an estate of up to \$600,000 with no federal estate tax due at all. If you put the house in your children's names, you may lose your property tax exemption, perhaps you could keep it if you had "life use." And you may have trouble if one of your children is divorced, dies or goes bankrupt.

Tell your daughter-in-law that if they get the house as a gift, they'll someday have to pay tax on the profit when they sell, and that profit will be figured from your original cost for the house, they'll have a stepped-up basis, their cost will be the current value. That means they'd have little or no taxable profit when they sold.

All those mysteries with ARM's—words like index, margin, cap—are explained in Edith Lank's new leaflet "Understanding Adjustable Rate Mortgages." For a copy, send \$1.00 and a stamped return envelope to ARM, 240 Hemingway Drive, Rochester, New York 14620.

## U.S.M.M.A. To Host One-Day Football Clinic

Coaches in the metropolitan area are invited to attend a one-day football clinic on Saturday, May 2, at the United States Merchant Marine Academy at Kings Point.

The clinic will be run by U.S.M.M.A. head coach Dennis Barrett and three of his fulltime assistant coaches: offensive coordinator Ed Argast, defensive coordinator Tom Masella and offensive backfield coach Charlie Pravata.

## Nassau Sports Review

By JACK WHITE

Those who follow Nassau high school sports were particularly shocked and saddened to hear of the death of Vincent Marinelli of Elmont. Marinelli, who died suddenly due to a heart abnormality, was a standout attackman on last year's Elmont Memorial lacrosse team which won the Long Island Class B Championship.

Marinelli, 19, was president of his senior class at Elmont and earned grades which qualified him for admission to Brown University. This spring he had won himself a position on the Brown lacrosse team. Coaches who knew him called him an outstanding young man with excellent leadership qualities.

Nassau lacrosse coaches have released their top ten rankings. Garden City (8-0), the defending State Class A Champs who currently have a 33 game winning streak, tops the list. Following in order are Elmont, Farmingdale, MacArthur, Bethpage, Oceanside, Port Washington, Levittown Division, Lynbrook and Calhoun. Incidentally, news from the Syracuse area indicates that West Genesee is back in stride after losing in last year's playoffs. West Genesee beat Fairport, a finalist last year, 24-2, in the opening game of the upstate season.

Manhasset High's boys track team now owns the county record for consecutive victories in dual meet competition. The Indians under the leadership of coach Don Scott had a streak of 91 straight wins coming into the 1987 season. Oceanside held the old record of 82.

The Manhasset track streak:

	Won	Lost
1977	5	0
1978	8	0
1979	7	0
1980	9	0
1981	8	0
1982	8	0
1983	7	0
1984	13	0
1985	14	0
1986	12	0

The Indians' last loss was to North Shore, 76-65, midway through the 1977 season.

Sometimes it takes time for all the track results to circulate. One mark that escaped all the local publications was T.J. McArdle's all-time Nassau County two mile indoor record time of 9:06.05. The Garden City High senior, who won the New York State 3200 meter title, set his two mile record at the Pathmark Invitation at Yale University on March 14 when he finished fifth in an international field. The old Nassau indoor best was 9:08.9 by Tom Camien of Sewanhaka in 1977.

An early look at the spring sports season indicates that some of the usual powers are back to business as usual. In girls lacrosse Carle Place and Manhasset have been impressive in early games. In baseball Glen Cove's Desi Wilson is belting home runs again and MacArthur and Plainedge, last year's finalists, are beating opponents handily. Kim Zagajski of Hicksville hurled back-to-back no-hitters in softball. Uniondale's track team won two straight invitationals and Garden City golfers won their 67th straight regular season match.

## Bikers Ride For MDA

On Sunday, May 10, motorcycle riders throughout the New York and New Jersey metropolitan area will "Ride for Jerry's Kids" to Anthony Wayne State Park in Long Island County.

This First Annual Freedom Run to benefit the Muscular Dystrophy Association is being co-sponsored by the three Long Island Harley-Davidson dealers: Eastern Harley-Davidson in East Moriches, Hempstead Harley-Davidson, Suffolk County Harley-Davidson in West Babylon; and by the Long Island HOG chapter (Harley Owners Group).

Bikers will be collecting donations in honor of their participation in this ride to benefit MDA's nationwide research and education programs, as well as their network of free patient services clinics. On Long Island, both children and adults are served at MDA clinics located in the Nassau County Medical Center and the University Hospital at Stony Brook.

Tony Prisco, Director of the Long Island HOG's invites interested bikers to obtain registration information at any of the three Harley-Davidson dealerships from now until May 9, or by contacting the Muscular Dystrophy Association at 265-9333.

## WalkAmerica '87 Set For April 26

## March of Dimes Celebrity Golf Classic

Members of the National Football League Players Association, in association with national sponsor AT&T, will join other celebrities and Long Island business professionals on May 4 for the March of Dimes/AT&T Celebrity Golf Classic, sponsored by Marine Midland Bank, N.A., and co-sponsored by: The Tilles Investment Company, Titor Title Guarantee and KIRIN Beer.

The Classic, to be held at the Tam O'Shanter Club in Brookville, will feature New York Jets players, led by all-pro linebacker, Celebrity Chairman Lance Mehl.

Bob Jensen, Sales Supervisor at Harbor Distributing Company, and a member of the Classic steering committee, said, "We are happy to have KIRIN Beer come on board this year as a co-sponsor. The financial contributions of our local sponsors and co-sponsors are the backbone of the golf tournament, which is an annual success in the fight against birth defects."

In addition to the New York Jets, other sports celebrities will also play in the Classic. Scheduled to appear are National Hockey League Hall of Fame referee Bill Chadwick, N.Y. Islanders General Manager Bill Torrey, former New York Rangers Pat Hickey and Mike Backman, former N.Y. Yankees Paul Blair, Spec Shea and Joe Collins, former N.Y. ## Evening Hours For Shellfish Permit Renewals

Town Clerk Ann R. Ocker reminds residents that this is the time of year to obtain (or renew) shellfish permits.

The town's shellfish ordinance requires all town residents over the age of 13 to obtain their own shellfish permit, which entitles the holder to harvest up to one-quarter (1/4) bushel per day.

"The cost of the permit," Mrs. Ocker said, "is 15 per year plus a 12 photo fee, which is valid for five years. For senior residents, 62 or older, the photo fee is a one time charge."

Applications for shellfish permits are available at the town clerk's office, Oyster Bay

Town Hall, Audrey Avenue, or at Town Hall South, 977 Hicksville Road, in Massapequa, between 9 a.m. and 4:45 p.m. weekdays.

"For the convenience of residents who cannot get to the town clerk's office during normal business hours," Mrs. Ocker said, "special evening hours have been scheduled for Thursday, April 23rd. Both the Oyster Bay and Massapequa offices will remain open until 9 p.m."

For further information regarding shellfish permits, call the Town Clerk's office at either 922-5800 or 795-1000.

## Hicksville Express Wins In Close Soccer Contest

By K. BLICKER

The Hicksville Express, an intramural soccer team, continued its winning ways with an exciting 2-1 win over the Blast, in what seemed to be a goalie's duel until the second half.

The first goal was scored as a result of excellent teamwork between forwards Tracy Koetter and Michael Baglieri, with Koetter getting the final tap in for the score. Wing Matthew Hamlin also lent strong assistance throughout. Eventually, the opposition tied the score. The second goal was scored by Michael Baglieri, who demonstrated extraor-

inary ball control.

Midfielders Chris McGunnigle, Brian Swacey and John Kurkowski hustled all the way. The defense had to continually repel Blast attacks and stood their ground. Defenders are Robin Blicher, Craig Finn, Joey Zaffuto, Joey Minacci. Hicksville's goalie, Matt DePalma, showed time and again that he was sure handed and cool under fire, as he worked with the defense in a tough second-half.

Special thanks to Coach Steve Baglieri for the time and effort.

## Hicksville Shamrocks Beat Deer Park 6-2

By A. BLICKER

The Hicksville Shamrocks 1074 boys traveling soccer team whipped the Deer Park Comets 6-2 at Cantiague Park on April 12 to bring their L.I. Junior Soccer League record to one win, no losses and one tie.

Chris Doyle, the Shamrocks outstanding stopper, who had a sensational game, opened the Shamrocks scoring with a header, off a pass from right wing, Jason Kingsley. Deer Park then tied the score at 1-1. Doyle then took control of the ball, at about the 30 yard line, in the defensive zone, and lead a breakaway all the way to the goal mouth. At the goal zone, he faked a kick, pulling the goalie out, at which time he fed it across the goal mouth to trailing left wing Karl Rice, who tapped it in. The second half opened with a tying goal by the Comets, on a full back screen that completely blocked out Shamrock goalkeeper Ed Jacobsen. The Shamrocks then took over the game, playing their usual, great second-half.

Center half Matt Pordum put one in off a head ball lead by striker Eric Blicher, who saw spot duty due to a sprained ankle. Left half Dom Perillo then scored on a lead from left wing Junior Tomlinson. The next goal came on a perfectly placed corner kick, by Doyle, which was lined in by sweeper Brian Harkins, who snuck in from the defensive zone. Tomlinson closed out the scoring with a rush up left wing, off a lead from striker Chris Koetter, who also demonstrated his gutsy play at several positions.

Ed Jacobsen had an outstanding game in goal, including some booming punts to his halfbacks. Christian Friedrich was a dominant force at left fullback, completely stifling Comet halfback play on his side. Chuck Oliver was effective at the right fullback position. David Lovato showed why the Shamrocks missed him last week, with outstanding play from the halfback position. Gregg Gruosso continued his comeback with some strong play from halfback, as well.

Special thanks to Coach Herb Pordum and Assistant Glenn Kingsley, Jr. for their time and effort.

**GUEST SPEAKER:** Oyster Bay Town Councilman Douglas J. Hynes (third from left) speaks to students in Dr. William Lemmy's class for gifted and talented students at Hicksville Junior High.

School about the Bill of Rights and the judicial process. Here, he chats informally with (left to right) Sanjay Tewari, Ed Strocko, Shabram Nezami, Afsheer Shah and Dr. Lemmy.
