## Volunteers Needed for Committee On School District Reorganization

**HONORING OUTSTANDING 4-H LEADER**—Kelly O'Callaghan, a Hicksville high school student, (center) is presented a legislative citation by Assemblyman Fred Parola, (R-C, Wantagh) for her outstanding efforts with the 4-H. At a recent 4-H dinner ceremony in Albany, Fred Parola hailed the 4-H for its commitment to educating young people and preparing them for productive roles in society. Also pictured is Hicksville resident Catherine Gray, Nassau County 4-H Coordinator.

The Hicksville Board of Education has issued an invitation to community residents and civic and business organization members to volunteer for service on the Committee on District Reorganization, established by the board at the regular March business meeting. The formation of the committee is part of a plan to address issues affecting the district's elementary program resulting from declining enrollment and make effective plans to meet the changing needs of the school population. These issues include disparity in class sizes throughout the district and the efficient use of educational facilities.

The committee will be chaired by trustees Carole Wold and Thomas Nagle with assistant superintendent William Hall serving as the administrative chair. The board intends that the 25 members of the committee be representative of the general population of Hicksville. This means that business and civic leaders, young couples, senior citizens, families with small or grown children, retired persons, or even residents who have never had children in the public schools would be candidates for membership.

Local civic and business organizations will be asked to nominate one member each. These groups include the Hicksville Community Council; the Council of PTAs; the Chamber of Commerce; the Hicksville Congress of Teachers; the Council for Principals, Assistant Principals, Supervisors, and Chairs; Hicksville Senior Citizens, the East Park Civic

## Counseling Services Offered by Youth Council

The Hicksville Youth Council offers free counseling services to residents of Hicksville and residents of the Town of Oyster Bay. The Youth Council is a nonprofit organization. They provide group, individual, marital and family counseling to teenagers and their families.

Adolescence is normally a difficult period of life for both the teenager and the parents. This stage in a child's life is filled with inner struggles which then become parent-teen struggles. One major task of this period of life is the teen's reaching towards independence. The teenager has a need to become free of his parents while finding acceptance among his friends. This pull towards independence causes many common struggles within the family. Conflicts over decision-making occur more and more often. Parents must begin to answer difficult questions such as "Is it safe to let my son make his own mistakes?" or "Am I keeping my daughter from growing up by telling her how to run her life?"

Who makes the decisions in a family can become a source of constant conflict between the parents. Parents who agree on how to raise their children are very rare, indeed. If these differences between the parents are not resolved, then the child has even greater difficulty learning what he/she can or can't do, and what he/she dares to try.

The job of setting limits can be filled with emotion. This is especially true when deal-

ing with such charged issues as curfews, phone use, or deciding when and how often to lend the family car. Limit setting is also acted out daily in such areas as mowing the lawn, who should clean up after the teen's seventh snack of the day, or who should search through a bedroom piled with letters, clothing, and heaven knows what else, to retrieve a dozen soggy, long-lost towels. Other difficulties which are experienced by teens and their families are problems in school, sibling rivalry, drug or alcohol use, and social problems.

Every family deals with these difficulties in different ways. Some parents have the ability to deal with issues as they come up. Other families, because of various stresses in their lives, are unable to deal with their adolescent, and major problems arise. Communication breaks down between the parents and child. The marital relationship may be put under great stress. There may be constant fighting, and constant punishing that fails to have any effect. Some teens run away frequently at this point, while in other families, parents threaten to throw them out of the house. Parents may become completely overwhelmed with how out of control their teens has become.

When parents have reached the stage of helplessness and have used up all their emotional energy in trying to solve their problems, professional help becomes vital. Sometimes parents are able to realize they need outside help before everything in the family falls

apart. They can then save themselves needless suffering by seeking professional help sooner. Unfortunately, most people are not able to predict how terrible a situation can become, and they will not seek help until matters become unbearable.

The Hicksville Youth Council has two full-time N.Y.S. Licensed Social Workers to provide counseling. Candace Shapiro and Patricia Schussler provide individual, family and group counseling. These services are free of charge, confidential, and there is no waiting list. Information and referrals are also provided.

Both counselors are also available to junior high and high school students through the Youth Council's Outreach Program in the Hicksville district. Each school semester, the staff goes into high school health classes and junior high school social studies classes. They explain to the students what the agency and counseling are all about. The staff familiarizes the students with the counseling process so that they will feel comfortable about seeking help. The Youth Council staff is also present in the schools one day each week, so that students may drop in for informal conversations with the counselors.

The Hicksville Youth Council is located at 181 W. Old Country Road in Hicksville. They are open Monday through Thursday, 10 am until 9 pm, and Friday from 10 am until 6 pm.

Feel free to call Candy or Pat for an appointment at 822-7594.

## Our Lady of Mercy School Secretary Retires

— A Tribute To —  
‘Our Mrs. Rae’

By SISTER JOAN DOODY

Genesis: Chapter 2 verse 18  
... then the Lord said, "It is not good that the man is alone; I will make him a helper like himself, and her name was Eve."

Likewise, as in the beginning of time, Our Lady of Mercy School had a beginning and Sister (Principal) Joanne Deegan, recognized that she needed a helper like herself, and her name was "Rae".

And so it came to be that the Good Lord blessed Our Lady of Mercy School for the past 25 years, with a superior secretary, a dynamic public relator, and most importantly, a loving and nurturing "friend."

Rae strove to be an excellent secretary, for she knew fully well that careful implementation of her skills was her most valuable asset to the principal she was engaged to help. No matter how busy or taxing the day was, Rae always found the time to interrupt her work to give a smile and cheerful hello to any and all who entered the front office. A confidant to her principals... an always attentive ear to her co-workers... a substitute nurse in a pinch... a loving and caring friend to the parents... and probably most importantly of all, a "mom" away from home to the children who passed through the doors of Our Lady of Mercy.

She has earned from all of us, our love, respect and gratitude and perhaps single-handedly has delivered more "brown bag lunches" to our children, than MacDonald's has delivered burgers.

Rae, you will be missed but you must feel only joy in your heart and a sense of true accomplishment at this time—for how many of us can boast as you can that you have the love and respect of thousands and thousands

SISTER JOANNE, principal of Our Lady of Mercy (R) shared happy years with Mrs. Rae, who was her secretary.

of children, young adults and parents. Rae, you are truly a "woman of your times." You have done it all, wife, mother, grandmother, secretary, and friend—and you have done it all so well.

We, at Our Lady of Mercy will never forget you and we hope you will always remember us. You have helped us through the good times and the bad and we hope you know that we will always be there for you if you need us.

We wish you and yours, God speed, good health, and much love as you embark upon whatever new journeys are in your future. For all of us, you have always been our: "Rae" of sunshine—and our—"Rae" of love—and our "Rae" of kindness... but as in the past—and in the present—and for always in the future, you will always be just very simply...

"Our Mrs. Rae"

## Burns Avenue Students Design Dioramas

Book report dioramas, designed by the children in Mrs. Oliveri's and Mrs. Blaauboer's second grade classes at Burns Avenue School, are now on display in the school's library.

Ruth Hruska, school librarian, helped the students make appropriate book selections for this project. Mrs. Hruska set aside a section in the library to display the dioramas.

MRS. OLIVERI'S second grade class: L to R: Andrew Chin, Brian Sibila, Nidhi Singh, Ricky Calderon and Jinu Thomas.

MRS. BLAAUBOER'S second grade class: L to R: David Hurtis, Jennifer Mathis, Jennifer McDowall, Renny Koshy and Joanna Christodoulou.

## Computer News From Fork Lane

It's been a busy time at the Floopy Disc-O room at Fork Lane. Besides having computer lab, computer math and language arts competitions are being held. Each class competed against themselves. The first week of the competition each team competed and the second week the two top teams played against each other for first place. The next two top teams played against each other for second place and the last two top teams played against each other for third place.

Pat Collins' fourth grade class started the competitions. Their choice for the math competition was Number Munchers. They used the multiplication option on this disk.

The following are the Number Munchers Winners in Miss Collins' class:

## Students Raise Money For Statue Of Liberty

In October, Ms. Collins' fourth grade class at Fork Lane School completed a series of questions on the Statue of Liberty. Mrs. Irwin, also a fourth grade teacher at the school, had suggested the research-a-thon, and the students in both classes worked individually to discover the answers to the questions.

Six of the students in Ms. Collins' class collected donations from friends and family, for each of their correct answers. Keith Carpenter, Sarah Beaulieu, Kathy Tomolonis, Vincent DePaoli, Jennifer Murray, and Mary Senn collected \$45.02.

Ten dollars of the collected money was sent with Ms. Collins' class picture to be an everlasting part of the exhibit at The Statue of Liberty National Monument in the Port of New York. This picture became part of the exhibit March 10, 1987. Each student was given a copy of the certificate which includes the picture's identification number 37257. In the years to come the students and their families will be able to view their photograph each time they visit the Statue of Liberty.

The remainder of the collected money was given to the Statue of Liberty/Ellis Island restoration project.

## Letters From Our Readers

Letters to the editor are welcomed by the editors and publishers of the Anton Community Newspapers. However, they must follow certain guidelines in order for us to print them: they should be as short as possible; we reserve the right to edit in the interest of space; they MUST be signed, (a typed name at the bottom will not suffice); they must include an address and telephone number so that we can verify their authenticity. We receive many fine letters which we would like to share with our readers, but we are unable to use them because they are unsigned or have a typewritten name only. We cannot publish every letter we receive because of space limitations, but we try to present both sides of all issues. Personal attacks and letters considered to be in poor taste will not be printed.

### To The Editor:

The mark of a good board member is a person who does his homework, is dedicated, enthusiastic, logical, and always willing to learn.

I have come to know my fellow board members since my election last year, and I have been quite impressed with Jay Schwartz.

Mr. Schwartz has been a member of the Board for six years and has brought to this volunteer position, a sense of logic and rationale. He is candid and consistent, hard-working and honest. Even though we don't agree on some issues, we respect each other's position and have formed a good working relationship.

Jay has been a teacher for the last 20 years and was recently promoted to Assistant Principal in East New York. He firmly believes that his presence should be seen in every part of the building. He is not a person to sit behind a desk, but one who truly cares for the children. Jay is a work-a-holic and is truly dedicated to his responsibilities.

The mark of a good committee person is the ability to absorb knowledge, to challenge, and to be dedicated.

Bill Kelly has definitely made his presence known at general public meetings of the board and at the Finance Committee. This silver-haired gentleman is always listening, always challenging the board into new areas. He was a firm supporter of the Absentee Ballot, an issue that was brought before the board by Mr. Schwartz and approved for elections beginning in 1987.

He is forever reminding the board of the retired homeowners who find it more and more difficult to remain in town.

Kelly, who has raised eight children, has two grandchildren who will be second generation Hicksville students.

So please vote row 'B' on May 6th for two gentlemen who can give so much to the future of our schools - Schwartz and Kelly.

Carole Wolf  
Trustee, Hicksville  
School District

### To The Editor:

On May 6, the residents of Hicksville have an opportunity to vote on the Hicksville School Budget and to elect school board trustees.

Jay Schwartz has been a dedicated educational leader for the past six years. He is for education and his main concern is all our children.

Therefore, I would like to commend Jay Schwartz for all his past efforts on behalf of the community. I urge you to reelect Jay Schwartz again.

Tom Nagle

### To The Editor:

My name is Jo Ann Miltenberg. My husband William and I own a home in Hicksville, where his family has lived for 35 years. We have three children who will all be entering the Hicksville school system within the next four years.

As a concerned community member and a mother, I strongly feel that it is time for someone who has a vested interest in our community and in the education provided for our children to be seated on the board of education. For these reasons and others, I am that someone. I firmly believe that local control of our school system is the major factor involving all of our residents, both those with children in school and those without.

I urge everyone to come out and vote Row 3A on Wednesday, May 6 to support me in my candidacy for the school board.

Jo Ann Miltenberg

### To The Editor:

I would like to add my appreciation and endorsement for the re-election of Mr. Jay Schwartz and Daniel MacBride to the Hicksville Board of Education and would also like to add my support to Mr. Bill Kelly who is running for Mr. Larry Moor's seat. The Board of Education has tried over the past three years to be open to the community on all issues and proposals brought before them, both in closed session and during public deliberations. This can best be demonstrated by the successful conclusion of all negotiated contracts without rancor or bitterness by either side and by tackling the many educational needs of our students without the introduction of divisiveness and mistrust.

The Board of Education has worked well with administration, staff, employees and the people of the community with trust and understanding. The hallmark of the Board of Education is one of stability and achievement and that is why I feel there is no need to change the composition of the Board. Mr. Schwartz has devoted himself with professionalism and understanding of boardsmanship and possesses great capacity to help the school district. Mr. MacBride, with his youth and vitality, has contributed much to the success that we have achieved as a Board, and Mr. Kelly has shown his interest by attending Board meetings during the past year as well as his concern for the education of our students and, most importantly, his commitment to the taxpayers and senior citizens of this community. I therefore urge you to vote for these gentlemen and to support our budget. I would also like to applaud the other two candidates for coming forth and running for the Board for they too indicate an interest in school Board matters.

Bill Bennett

## Editorial

Hicksville School Board elections are being held on Wednesday, May 6. Polls will be open from 10 a.m. to 10 p.m. at our local schools.

The following candidates are running for election: Jo Ann Miltenberg and William J. Kelly who will be vying for the seat of Lawrence A. Moor, who is not seeking re-election. Mark Cardella will be opposing Jay Schwartz for the three-year term, and Daniel MacBride will be running unopposed.

It is urged that all registered residents cast their votes, as one of these candidates will be making decisions for you.

When a candidate is elected to the school board, you are authorizing him to take actions for the entire community. By sitting back and not voting, you are putting the decision in someone else's hands.

\*\*\*\*\*

The staff of the *Illustrated News* would like to thank the Hicksville Police Activity League (PAL) for the beautiful plaque they presented to us last week.

Hats off to Police Officer Bill Toelsted and his many volunteers for the fine programs they are offering the youth of Hicksville.

### To The Editor:

After six years on the Hicksville School Board, I decided to seek another term. People ask why would I want to stay on a school board? Their attitude is a school board is like a stagecoach ride - it's bumpy, you travel with several strangers, the trip is full of sudden unscheduled stops, you're attacked some of the time, you often work late at night, and eventually you might get to some place - but you may not be in any condition to enjoy the end of the ride.

Is this what being a trustee is all about? I say no!

A trustee is concerned with all of these things, and much more.

Yes, the ride is bumpy, and sometimes the air is full of arrows. However, what matters most after the dust settles is what do the children or the taxpayers gain from this? If the objective is worthwhile, then the rough and perilous ride was worth it? Do you or your children deserve anything less?

Jay Schwartz

### To The Editor:

Whatever happened to honesty is the best policy? Why is it that who you know is more important than what you know?

I know that the Coalition candidates running for the school board on ROW B are not dependent on anyone to tell them what to do. They have support but are not puppets. The Coalition is not a union group.

I hear that the opposition candidates are supported by the Unions who work for the school board in our town. There's a difference there. How can they represent the interests of the special unions and still act honestly for the people? ANSWER - They can't!

When you let someone else pay your way, there's always a Payback Time! What is it going to cost the people of Hicksville if the unions succeed in getting their candidates elected? Look in your wallets to find out!

Michael Melody

Supervisor JOSEPH COLBY COMMENTS

Loyalty, by definition, is the tie binding someone to something with unwavering allegiance.

President Theodore Roosevelt was of the opinion that American should be loyal first to their country.

In 1958 the United States Congress, responding to an organized request from the Veterans of Foreign Wars, declared May 1st Loyalty Day. Each year since its passage, Loyalty Day has gained more recognition as Americans come to realize the significance and potential world-wide perception of this special day.

We have a way of life and a standard of living which is not duplicated anywhere else in the world. Our rights are insured in stellar historic documents—the Declaration of Independence, the Constitution and the Bill of Rights. These are momentous works that were designed by common people with great foresight and a keen understanding that rights should be given equally to all.

No standard of living anywhere else matches that which we enjoy. We have personal freedoms and privileges that residents of Eastern-bloc countries can only dream about. Those who attempt to leave in pursuit of freedom are harshly dealt with.

In these countries May 1st is also a

celebration—May Day—with massive displays of weaponry. In the early 1930's as a counter-move to those who would support and seek to proselytize others to Communism, Americans formed groups to demonstrate their affirmation of America's goals and its strength.

Actively involved in continued support of Loyalty Day the Veterans of Foreign Wars, at a 1949 convention, adopted a resolution calling for Congressional recognition of Loyalty Day and designation of May 1st as the day on which it would be commemorated. It took almost ten years of persistent lobbying but finally the organization's goal was accomplished.

Today, units of the VFW continue to lead the way and organize the parades and festivities which accompany Loyalty Day. Your support of their efforts and your participation is a welcomed sign of commitment to our nation's goals. Contact your local Veterans of Foreign Wars organization to learn where its parade or ceremony is being held.

To quote from a speech whose author is unknown, "On this day-Loyalty Day—we Pledge Allegiance to our Flag and to the Republic for which it stands—and by so doing, we re-affirm our dedication and our loyalty to the ideals for which America stands."

## A Letter from Lulabelle...

...Today there's a smell of spring in the air. I could never define it, but you know what I mean. It's a smell which brings a feeling that soon all those lovely little green buds will appear—the willows are already yellow along the parkway. I keep remembering, when I smell this spring, the delicious feeling when I was a child of knowing that I could leave off my heavy coat and wear a sweater to school. What bliss! And to know that pretty soon we could go out to play after dinner. Those after dinner hours always seemed more special, probably because we didn't have them all year. And do you remember when it was getting dark—what Taylor Caldwell calls in every book "crepuscular twilight" (I really love that expression!)—do you remember how exciting, if, by chance you had a flashlight? There's something magical about being a kid with a flashlight in the spring twilight. Playing hide and seek and spotlighting the hidiers... Did you live on Long Island long enough ago so that you could pick the spring wildflowers—dandelions included!—and take them in tight little bunches to your appreciative mother? If you live far out on the island, you can still find open fields of lovely wild flowers, but here in the more populated section, we can see only a few... Spring means so many things to so many and it has been written about by poets and geniuses in many ways, but to us Long Island kids of long ago, spring is still that magic time when you can play out after supper.

Yours, Lulabelle

## Letters From Our Readers

To The Editor:

I was astounded to read in your "What the Politicians Are Saying" column that Governor Mario M. Cuomo is claiming that the State's paperwork reduction and simplification program is saving New Yorkers millions of dollars through elimination of forms and simplification of forms.

I believe Governor Cuomo needs a new form to communicate with William B. Eimicke the New York State Director of Housing, who works for Governor Cuomo. The State of New York Division of Housing and Community Renewal (DHCR) has over seven hundred employees creating and processing forms which are each year more complicated and voluminous.

The DHCR has created such a deluge of paperwork that despite their huge offices and many hundreds of employees they cannot process the paperwork forms within any reasonable time period. They are now processing dockets that were originated over two years ago on such simple things as registering of rental apartments. They have become so mired in their own paperwork jungle that in many instances they cannot even find documents sent to them by registered mail.

I manage rental apartment buildings in New York State and find that more than half the total paperwork volume is generated by the DHCR. All the other State and City operations together do not match the DHCR in paperwork volume.

After all this mountain of paperwork from the DHCR has been moved, the resulting benefits to either owners or tenants are so miniscule that it is highly questionable that the results are worth the cost and effort expended. I personally believe the DHCR does more to hurt sound housing availability than to help it.

If Governor Cuomo wishes to really reduce the paperwork volume, save New Yorkers many millions, and contribute to maintaining and increasing the housing supply, then he should eliminate the DHCR.

To The Editor:

The 21 day plus voyage to nowhere of a barge loaded with 3,100 tons of Long Island garbage, the advent of \$100 a ton cost for garbage disposal, and the ambivalence of our local public officials insofar as recycling is concerned leaves one logical solution to the garbage crisis.

That effective solution is to reduce to the minimum amount of garbage generated! It makes a lot of sense to avoid the creation of garbage and, thereby, reduce what is rapidly becoming a skyrocketing cost of local government.

Sacrifices will have to be made in our

life style with the goal being the reduction of the more than 300 pounds plus of garbage created by every person annually.

We can reduce our contribution to Mt. Trashmore without great sacrifice. The next time you go to the supermarket - don't permit them to double-bag. This simple act of denial will effectively reduce the more than 4 million tons of those brown bags that make a one-way trip to the garbage dump via your home.

Other garbage saving measures will force us to rethink our present habit of packaging gifts and other products for eye appeal rather than for utilitarian reasons. Such an effort should reduce the cost of the product to the consumer as well as save all of us garbage disposal tax dollars.

Local officials seem reluctant to provide leadership in the area of source separation because they don't believe that it will buy them any votes. Some officials are still thinking about the problem and only talk about the price return of such materials. Instead, let's take into account the cost of disposing of the product as well as the cost of replacing the glass, metal, etc. in terms of dollars, energy consumption and the preservation of our natural resources.

Long Islanders have an opportunity to become pioneers in the important field of refuse elimination. The end result will be cost effective and a healthier environment.

## What the Politicians are Saying...

In a letter to the chairman of the Nuclear Regulatory Commission U.S. Representative Robert J. Mrazek (D-Centerport) said that a request to increase power to 35% at the Shoreham nuclear plant is "particularly insensitive" in light of the ongoing debate over emergency planning at Shoreham. He also labeled it "inappropriate" for the NRC to make a decision on 25% operation of Shoreham in time to alleviate alleged energy shortages that LILCO anticipates for the summer months.

Assemblyman Fred Parola (R-C, Wantagh) has announced that applications are being accepted for the 1988 Fellowship on Women and Public Policy program which provides graduate students with the opportunity to analyze issues of concern to women and families. The fellowships are offered by the Center for Women in Government to all matriculated graduate students attending accredited colleges and universities in New York State. Fellows receive a stipend of \$9,250 for the January-July 1988 semester as well as 12 credits from the State University of New York Albany Graduate School of Public Affairs. Applications which are due by May 29, 1987, may be obtained from the Center for Women in Government, University at Albany, Draper Hall, 1400 Washington Avenue, Albany, NY, 12222.

State Senator Michael J. Tully, Jr. (R-Roslyn Heights) has announced Senate passage of a bill designed to stiffen the penalties for drag racing. The bill will increase the first offense to a \$200 fine and/or six months imprisonment with license revocation for one full year.

In an effort to eliminate construction delays, cost overruns and corrupt practices in public construction, Assemblyman Dan Frisa (R-Westbury) is urging the enactment of legislation that he is sponsoring to reform New York State's public construction laws. Among the measures that he is urging enacted are: permit the disqualification of potential bidders with a bad record; reduce the cost of public contract litigation by lowering the contingent fees that attorneys may charge; give the state Director of the Budget new authority to promulgate standards for public contracts to replace existing patchwork; and several others.

From U.S. Congressman Tom Downey (D-Suffolk) - The average cost of attending a private four-year college is now more than \$11,000 per year. If you or someone you know is interested in applying for financial aid tuition assistance grants, work study programs, Federal loans, or commercial bank loans, I urge you to attend a workshop on financial aid I am sponsoring on Saturday, May 16, from 10 a.m. to noon in the Dowling College Ballroom in Oakdale. High school students, parents, teachers, and guidance counselors all will find this seminar useful. Sorting through the maze of options and opportunities and making the entire financial aid process more understandable are the goals of this workshop. Every capable student should have the opportunity to attend a quality institution of higher learning. Don't let the lack of knowledge about how to finance an education keep you or a loved one from making the best choice possible.

# Legionnaires' Log

By GREG BENNETT

Charles Wagner Post #421, Hicksville

Do you remember when the first sergeant said "the lowest form of life known is a barracks thief, someone stealing from his own buddies in their quarters". Well, there's a lower form of life - and that's a Veterans' Administration hospital thief. There are those who pry on our older veterans and those who steal syringes to support drug habits. Fortunately these people are few with the good-hearted souls out numbering the bad.

Now with the VA eliminating some travel benefits to and from VA medical centers, many deserving vets will be affected. Just ask the 76 year old World War II woman vet who had surgery at New York VAMC. Just a day after surgery someone came into her room and very professionally introduced himself as her social worker and even knew her medical condition. He asked her for \$6.00 for transportation expense, which her family very gladly handed the gentleman. It turned out he was an imposter, just ready to victimize our vets with the newly formed VA travel scam. I urge all vets to be very careful at VA hospitals, keep your valuables secured with the staff and when in doubt of an employees identity just say, "May I see your I.D. card please?" It pays to be safe than sorry.

The Memorial Day Committee held its meeting April 15 at the VFW. It was good to see representatives from Nassau County Girl Scouts and Hicksville Baseball Association. Frank Molinari continues his work so our war dead can be honored. All Legionnaires remember, the commander and our post need our support Memorial Day. Most of all lets show support for our deceased comrades and our POW/MIA.

A belated Happy Easter and Joyous Passover to the Legion family. As the Israelites escaped their captors, may God see it fit that all our POW/MIA's are returned from captivity.

VFW POPPY QUEEN, Amanda Imhof with her brother Christopher

## 1987 V.F.W. Poppy Queen

Amanda Imhof has been selected this year's Poppy Queen for the William M. Gouse Jr. Post 3211 Veterans of Foreign Wars.

Amanda, granddaughter of Frank Imhof, a life member of Post 3211, lives with her parents Bruce and Pat Imhoff and her brother Christopher. Her father served two tours in Vietnam with the United States Air Force and is presently a captain in the Westbury Fire Department. Amanda, a second grade student in St. Brigid's School, Westbury will probably be seen in the Hicksville Memorial Day Parade and reminds everyone that the month of May is the time for Poppy Sales.

## Help Stop Dog Bites

Spring is in the air and, unfortunately, that usually heralds a rise in dog bites. As the weather turns warmer, more pet owners allow their dogs outside the houses and the larger population of dogs roaming free results in more dog bites according to Roger Nienaber, General Manager/Postmaster of Hicksville.  
"We are asking our neighbors to help protect letter carriers, utility workers and other citizens from the dangers of dog bites," says Nienaber, "Nationally, more than 4,000 letter carriers were bitten by dogs last year. And that includes injuries to 100 Hicksville Division letter carriers."  
"I've gone too many times to the hospital with a carrier who has been bitten by a dog not to take this problem very seriously."  
"We have received excellent cooperation from customers in the past, but there are still too many dog bites."  
"Our customers have responded very positively to our plea to keep their pets restrained in the past few years," Nienaber says, "and we have seen a decline in bites nationally and on Long Island. Nevertheless, virtually all dog bites are unnecessary and we are determined to eliminate this hazard to our employees and other citizens who might be bitten."

Nienaber says that some dogs are territorial by nature, and even the most gentle pet will bite if it feels its domain is threatened by the presence of a carrier or other person.  
Nienaber stressed that the postal service is very serious about protecting its employees from dog bite hazards. When a pet owner fails to restrain a dog that threatens a carrier, the postal service will stop home delivery to the residence or, in some cases, to the entire neighborhood. The postal service also will seek to recover worker's compensation damages and provide counseling to carriers who have been bitten and who wish to seek private legal action against the dog owners.  
Nienaber says these policies underscore the postal service's commitment to protect its employees, and added that pet owners can easily meet their responsibilities to control their pets.

"We suggest that pets be kept away from the mailbox and areas the letter carrier uses for access to the property," Nienaber says. "If the pet cannot be kept behind a secure fence, the owner should restrain it with a secure leash or tether or at least keep the pet inside the house during the usual hours carriers are making their rounds."  
"We try to do our part by stressing awareness of dog bite dangers to our carriers," says Nienaber. "But dog bites are everyone's problem and we rely heavily on the support and cooperation of the community to help us end these painful and costly injuries."

## Hicksville Youth Performs At Levittown Library

Andrew Coppola, a seven year old from Hicksville, will participate in a Suzuki demonstration and play several solos in a concert offered by Dr. Judith Aistadter's Suzuki Piano Program.

The concert will be held on Sunday, May 3 at 2:30 p.m. at the Levittown Library, 1 Blue Grass Lane, Levittown.

The Suzuki Program differs from traditional methods of early music education, just as a young child learns his native language very early by speaking and hearing it. Dr. Shinichi Suzuki of Japan, applied these concepts to music study. Through listening to

tapes of the Suzuki repertoire and through demonstration by the teacher and daily practice with the parent, the child learns. The Suzuki Program has achieved remarkable results in music study for children of all ages, particularly for beginners as young as 4, 5 and 6.

The program at the library will include performances by soloists and duets from the Suzuki repertoire of 14 students of Dr. Aistadter's Suzuki Program as well as demonstration of Suzuki games and learning experiences. In addition to playing many solos, Coppola will also take part in a duet.

# Breast Cancer early detection is vital

Local Hospitals/American Cancer Society/WCBS-TV cooperate in week long/educational campaign: May 11-16

In an effort to educate women about early detection and treatment of breast cancer, the American Cancer Society, WCBS-TV and 20 local Nassau and Suffolk County hospitals will cooperate in a week-long breast cancer awareness campaign, May 11-16.

Beginning May 11, and continuing through May 15, Dr. Frank Field and the WCBS-TV health and science team will air a five-part series on breast cancer awareness. The segments will be shown during the station's local news segments. The series will cover early detection methods: self examination and mammography, and inform viewers of the latest techniques in treatment and recovery.

On Saturday, May 16, local hospitals in communities throughout Nassau and Suffolk will conduct an educational, manual examination and mammographic screening program for women 35 and over who do not have symptoms and have never had a mammogram. The examinations and educational programs will be offered at no charge, and mammogram screenings will be offered (by appointment) for only \$40. The usual cost for these vital screenings is a minimum of \$125.

Recognized as a valuable diagnostic technique, mammography helps physicians in finding cancers too small to be felt by the most experienced examiner. Today's low-dose equipment emits minimal X-Rays. The results of each screening will be sent to the patient's private physician.

Says Winthrop University Hospital's Dr. Joel Lundy, a surgical oncologist, "Breast cancer is one of the most curable forms of this disease. Early detection and treatment of breast cancer provides good outcomes for most patients."

Winthrop, 259 First Street, Mineola, will be among the hospitals participating in the week-long program. It and the others, will provide instructions in breast self examina-

tion, using film and teaching methods. Manual examinations will be conducted by medical professionals. Dr. Lundy and Martha Baron, Medical-Surgical-Nurse Specialist are coordinating the May 16 educational program at Winthrop.

Among the other participating hospitals are: North Shore University Hospital, Manhasset, Franklin General Hospital, Valley Stream, Mercy Hospital, Rockville Centre, Massapequa General Hospital, Seaford, Syosset Community Hospital, Syosset, Community Hospital at Glen Cove, and Southside Hospital, Bay Shore.

The ACS hotline number 955-WELL will be in service starting May 11 from 9:00 am to 9:00 pm. Call for a complete list of the hospitals (there's one near you). And remember: EARLY DETECTION IS THE BEST WAY TO WIN AGAINST BREAST CANCER. Remember the week: May 11-16; Remember the day: May 16; and remember to call the Hotline from May 11 through 10: 955-WELL... it's a gift you owe yourself.

The ACS needs volunteers to handle the Hotline, if you have time, can you say yes? Call: 385-9100.

## Weight Reduction THE GASTRIC BUBBLE

A Device That Makes Dieters Feel Full

WHILE IT IS UNCLEAR EXACTLY HOW THE BUBBLE REDUCES HUNGER IN dieters, some researchers think the polycarbonate sac—which inflates to the size of a small cucumber—stimulates receptors that line the stomach, thereby causing a sensation of satiety.

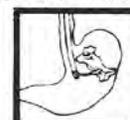

1. Deflated Bubble is inserted into the stomach via a plastic tube.

2. The Bubble is inflated and the tube is removed.

3. The now free-floating Bubble helps to satisfy the feeling of hunger.

4. After four months, the Bubble is deflated and removed, using a tube with a viewing scope.

- OUTPATIENT PLACEMENT AND REMOVAL

BY PROMOTING A SENSE OF FULLNESS AND by limiting food intake, the gastric bubble can help improve eating habits. It allows the adoption of an effective dietary program that provides appropriate caloric restriction and adequate nutritional intake.

A proper weight reduction program with the Garren-Edwards Gastric Bubble requires nutritional counseling and psychological support to deal with the issues that promote overeating and obesity.

It is recommended that the gastric bubble be placed in individuals whose problems with morbid obesity pose a potential medical threat.

The National Institutes of Health have determined that obesity in excess of 20% of an individual's ideal body weight increases the risk of high blood pressure, heart disease, diabetes and stroke.

Substantial medical data indicates that weight loss can reduce the risk of these conditions.

### UNDER THE MICROSCOPE

A home inspection by a professional engineer is frequently part of a sale transaction of an existing home. The buyer, who is rarely knowledgeable about construction details or heating systems, wants reassurance that the property is not plagued with expensive defects.

Traditionally, it has been the prospective buyer who hires the inspector. The sales contract usually waits for the inspector's report, or is contingent on it. But that's late in the transaction. The house is off the market, perhaps without a backup buyer; the purchaser has applied for a mortgage.

Increasingly, it is the SELLER who brings in an inspector. His report, if positive, makes the property more salable. If there are problems, they can be rectified BEFORE the home is offered. And, in many cases, the inspection service will offer a low-cost warranty to the buyer of the property, covering heating, plumbing and electrical systems, plus roof and structure.

We'll help make your home supersalable.

## News From The Galileo Lodge

By JOSEPH LORENZO, HISTORIAN

**President Joe Giordano's Message:** *A great many people think that they are thinking when they are merely rearranging their prejudices.* — William James

Time passes very quickly, activities come and go. And this past Saturday, April 25, the 'Fifties-Sixties' dance presented by the Galileo Lodge, will also be a part of the past. Gone but not forgotten, as they say. If we are to judge the success of this dance by holding last year's 'Fifties-Sixties' dance in retrospect, we have to conclude that this 1987 affair far surpassed the old one. John Cannizzara, the chairman, ably assisted by co-chairmen Vito Grippi and Tony Sica, once again gave a good account of themselves in their attempts to preserve the successful nature of this dance.

As I have said so many times in the past, that inertia is one condition certainly not tolerated or accepted at the Galileo Lodge, and this is evidenced by the announcement from the Ladies Auxiliary that it will present a testimonial dance in honor of ex-president Mary Monteforte, a leader who toiled diligently and incessantly to provide stability and buoyancy during the early years of this auxiliary. Price of admission is \$22.50, with a full dinner, beer, a wine and cheese session, unlimited liquor, coffee and cake and music for your listening and dancing pleasure. The date is Friday, June 19, with Sue Laurenti at the helm, ably assisted by co-chairlady Mary Sarrera and her committee consisting of Rose Panczeka, Rachel Staino, Ann Palermo and Carmen Russo. The festivities will start at 9 p.m. Needless to state that it would be a fine tribute to ex-president Mary Monteforte if all members of the Galileo Lodge and the Ladies Auxiliary attend this dance en masse, and there couldn't be a better way to express your thanks to a woman who has given so much of herself for a common and noteworthy cause.

As it happens at a glittering preview of an important and popular event, and if we were able to cast a large spotlight or klieg lights on the events scheduled for the coming summer months and even for the late summer going into the fall season months, we would see coming into focus and taking shape some nice, pleasant enjoyable activities—which are part of the Galileo Lodge's Social and Recreational program for 1987. In addition to the events just listed here, there will be a picnic scheduled for August at Eisenhower Park, a golf outing and a relaxing fishing trip set for May and June. Then in September comes our super special dance, the anniversary and scholarship dance, where and when our ex-president Pete Masiello will be honored. Because of the very nature of this dance, an Ad Journal will be part of the proceedings. Skip Monteforte will be the chairman for this important dance, assisted by co-chairmen Rocco Lombardo and Armand del Cioppo. I am sure that all members of the Galileo Lodge and Ladies Auxiliary will show an unprecedented receptiveness to this affair as we wish to honor and acknowledge the wonderful work of ex-president Pete Masiello, and, of course, recognize his leadership.

Bingo help is still needed. Bingo is important to the Galileo Lodge as it is an important source of revenue which helps it to fulfill its commitments and carry out its responsibilities to the community and to others. Give some of your time and efforts. It's your lodge, therefore you should help it when needed. And last but not least, please be informed that if you are seeking an ethnic organization, why not let the Galileo Lodge be the one of your choice. As they say, you won't be sorry.

## Board To Hear Testimony On Day Care

The Finance Committee of the Nassau County Board of Supervisors will hold a special hearing to receive testimony on the state of child care in the county, it was announced by Hempstead Town Presiding Supervisor Joseph N. Mondello, who serves as vice chairman of the Board of Supervisors and North Hempstead Supervisor John B. Kiernan.

According to the New York State Commission on Child Care, between 350,000 and 1.2 million children are in need of day care services throughout the State, with licensed positions available for only 135,000 children. While the need for day care is on the rise, both in New York and in Nassau County, many parents find themselves hard pressed to find suitable care givers.

"In recent years, the supply of quality, accessible, affordable child care has been shrinking in comparison with the growth in the number of families needing care," stated Supervisor Mondello. "The board therefore wishes to solicit testimony that will assist us in improving day care facilities for the residents of Nassau County."

The hearing will be held on Thursday, April 30, at 10 a.m. in the Board of Supervisors Meeting Room, located on the fifth floor of the County Executive Building, One West Street, Mineola.

"The Board of Supervisors is sensitive to the concerns of working parents in need of child care services," noted Supervisor Kiernan, the board majority leader. "The Finance Committee will be reviewing this situation, and can only benefit from testimony of those who are familiar with existing day care facilities and who can suggest ways of improving child care in Nassau County."

The board is specifically interested in receiving testimony regarding the following issues:

- How can Nassau County increase and improve the available number of quality, affordable day care facilities?
- What should be done to bring professional status, as in salary and benefits, to the child care workers's position?
- Can the county play a significant role in encouraging local employers to provide on-site child care programs for their employees?
- Should the county advocate an ending to the dual system of County certification and State licensing day care?

"There is an urgent need to improve day care services in Nassau County," concluded Supervisor Mondello, "and the Board of Supervisors is committed to doing everything in its power to ensure that working parents can rely on quality day care facilities for their children."

## A Visit With . . . Sarah Huettner

Much has been written in the past about Hicksville as it used to be and about the people who were influential in making the town what it is years ago. But there is one person who has contributed to that cause and has not received the recognition she deserves. She is Sarah Huettner, long time resident, who has devoted much of her time and energy for the good of others.

Sarah was born in Brookville in 1904, the daughter of Everett and Annie Dodge. She and her brother Ralph grew up on their farm located on what was then known as North Hempstead Turnpike (now 25A, near Route 107). She attended school in Glen Head and Friends Academy in Locust Valley.

It all started for Sarah when she entered her prize-winning baked goods at the Mineola Fair in 1922. The fair was held every fall and was located on the left hand side of Old Country Road, which is now known as Roosevelt Raceway. Sarah had occasion to pass a tent occupied by H.F. Huettner, who was displaying furniture, linoleum, and Venetian blinds. Arthur, one of Huettner's sons, saw Sarah and made it a point to meet her. On the last day of the fair, Arthur asked Sarah for a date and she said, "From that time on . . . we were a 'couple.'" That was in September and on May 17, 1923, they were married.

They moved into their new home, built by Dan O'Hearn, on Jerusalem Avenue where Sarah presently lives. She and Arthur were blessed with two children; Sarah and Arthur Jr. Her husband passed away and shortly after, in 1966, she lost her son. Her daughter Sarah married Gene Steffanetta and they have two sons: Gene and Gary Lee. Gene is a captain in the U.S. Marines and Gary is an attorney practicing in Plainview. Sarah became a great grandmother recently when Gene Val was born. Sarah is full of praise for her son-in-law. She says, "He's such a wonderful person. He's been just like a son to me for 33 years." (There's no mother-in-law problem here.)

Sarah recalls that in 1890, Arthur's parents, Henry and Caroline (with Arthur as a baby) came into Hicksville and rented a store on the west side of Broadway. That was their first department store. They made their living quarters upstairs. Mr. Gleckler came with the store and remained in their employ for many years. Around 1900 they moved across the street where Whale's Drug Store is presently located and opened a furniture store. At the time Dr. Curtis, the dentist, was located on the top floor. Then in 1923, on the southwest corner of Broadway and Marie Street, Huettner's built and operated a two story brick building that housed furniture, linoleum, hardware, lovely crystal and china, giftware, dry goods and groceries. It was a full service store except for meats. The basement, main floor and second floor were completely stocked. Among the local people employed throughout the years by the Huettners are, of course, Mr. Gleckler, Martha Fitting, her sister Arlene Kasten, Ruth Weyer, Harold Huettner, Arthur Huettner Jr., John Kasten, and William Gauck, among others.

Sarah remembers that the Stolz Meat Market was situated next to their store on Broadway and around the corner on West Marie Street Eisemann Buick occupied a large area. Huettner's flourished through the years as people came, not only from Hicksville, but from the north and south shores until 1952 when the state widened Broadway and demolished the building.

Sarah Huettner was an active member of civic associations. She was Branch Manager of the Red Cross. During World War II she started the "Hicksville Servicemen's Center," for all the soldiers stationed near Hicksville. With the help of Sam Kellner, who donated the use of one of his buildings on Herzog Place, the servicemen enjoyed the company of the girls who volunteered to help. The service center was open every evening from 7 to 11 serving homemade cakes, coffee and cold soft drinks. Dances and entertainment were the order of the day. Signal Corps soldiers, stationed at Press Wireless (located on the corner of Cantiague Road and West John Street), and servicemen stationed at a camp on South Oyster Bay Road (between Old Country and Woodbury Roads) enjoyed many a lovely evening at the center. Sarah remembers that there never was any trouble at the center. All were there to have an enjoyable time—and they did! She also provided transportation for the girls to visit with the wounded soldiers at Camp Santini and Mitchel Field. Her exemplary efforts in helping others during the war years was extraordinary. She was loved by many for her kindness and charity.

Sarah has always been active in The Parkway Community Church. She first attended the First Reformed Church which was located on the corner of Old Newbridge Road and Jerusalem Avenue. In 1953 that church merged with the Parkway Community Church and is now located on Stewart Avenue in Hicksville. She still remains an active member and volunteer. She has nothing but praise for Rev. Douglas MacDonald and his wife, Carol. She has always contributed to the many programs at the church and is noted for her delicious lemon pies which are served at luncheons there.

Sarah remembers the trolley tracks on Broadway and the blinker light that was in the middle of Broadway and Marie Street.

She, like many others, says Hicksville is not what it used to be. Years ago—everyone knew each other. Much time was spent chatting with friends who came to town to shop. Sarah says, "I'm glad I lived at the time that I did—it was more fun then."

It was a pleasure visiting with Mrs. Huettner. You can tell she's from 'the old school.' She's a lady. . . . and "What a lady!"

THE ROUND UP GIRLS was the name of this country western band back in the '40s. This photo, taken in 1945, was at a crowning of Our Blessed Mother at St. Dominic's in Oyster Bay. Shown (l-r): Vincent Baumer (caller), Joyce (Quinn) Baumer (deceased); Virginia Roberts, Clare (Rottkamp) Tepe (deceased) and Alma (Rottkamp) Krummenacker. Joyce played banjo and guitar; Virginia, the accordion; Clare was on guitar and Alma sang and yodeled. This group performed for our servicemen during World War II at the Hicksville service center and mostly at Mitchel Field where the wounded young men who came back from overseas were quartered. The government thought that the music would help these men who had all been through traumatic experiences, besides being wounded. Alma relates that they even had sing-a-longs and that it had a very soothing effect on them—made them forget for a while what they had been through—and that they enjoyed it tremendously. The Round Up Girls also performed at Bond Rallies held outdoors in New York City (to sell U.S. Savings Bonds to help the war effort and to support our country). Mrs. Huettner was instrumental in arranging these performances. They also performed affairs held at St. Ignatius and at dances as far away as Westchester. Eventually Danny Butler joined the group and eventually "called" for the square dancing.

Opening lead — king of spades.

There are all kinds of endplay positions that crop up in bridge from time to time, but here is one the likes of which you've probably never seen.

South was in four hearts and West led the K-A and another spade, South ruffing the third round. In view of West's diamond overcall, declarer realized that the chances of making the contract via a straightforward diamond finesse were very dim. The only way to avoid two diamond losers thus appeared to be in trying to arrange an endplay in diamonds.

So South drew two rounds of trump, cashed the A-K of clubs and

ruffed a club in dummy. He then played one more trump, producing this position with the lead in dummy.

Declarer knew that West had been reduced to only diamonds, since he had shown up with three clubs, three spades and two hearts, and had overcalled in diamonds. The last trump was now cashed to compel West to make a discard.

West realized that if he discarded the diamond seven, South could simply duck a diamond to him to force a return into the A-Q. So West pitched the ten of diamonds instead of the seven. But declarer neatly countered this maneuver by leading the six from dummy.

Now East had to decide what to do. If he followed with the five, South would allow the six to run to West, who would again be endplayed. So East played the nine instead, and declarer covered with the queen.

West won with the king, but had to lead from the J-7 at trick twelve. Dummy's eight and South's ace then won the last two tricks, and the game came home.

So South drew two rounds of trump, cashed the A-K of clubs and

## Nassau Sports Review

By JACK WHITE

Who has the fastest lacrosse shot in the county? Each year the Garden City Mens Association stages a competition to answer that question as part of their annual Sports Fair. Last Saturday there was a tie between Evan Chernoff of Long Beach and Great Neck North's big sophomore Travis Baster. Each was clocked at 82 miles per hour, the same speed as last year's winner, Garden City's All-American Andy Kraus. In the long anticipated game between two-time defending Connecticut State lacrosse champ New Canaan and N.Y. Champ Garden City, the Trojans upheld Long Island's reputation with a convincing 9-5 victory. The win put Garden City's winning streak at 37, second longest ever in Nassau. Sewanhaka shares the national record of 61 with West Genesee. Manhasset won 36 in a row under coach Richie Moran in the 1960's. The great Jim Lewis led Uniondale teams of 1960-62 to 44 games without a loss, but had several ties. At the Penn Relays Clarke's Dan Middleman won the 3,000 meters with a clocking of 8:24.4 which we believe is the fastest ever by a Nassau runner. T.J. McArdle of Garden City was third in 8:31.1. Uniondale's 4 x 100 meter relay team of Kenrick Phill, Orville Sweeney, Arthur Vaughn and Greg Harris won a gold medal in a fast 42.51. Elmont's 4 x 400 meter team was timed in 2:08.8, the best by a L.I. team so

far this spring. The Spartans foursome consists of Horace Bryan, Adrian Ellis, Paul McAlevey and Frank Dwyer. Jack Herzlinger scored five goals to lead Hicksville to an 8-4 win over Cold Spring Harbor. It was the fifth straight win for the improving Comets who moved into the number 10 position in the Nassau rankings. Rich Smith of Garden City got his 200th baseball win last week. Jack McDonald of Clarke is the all-time coaching leader with over 400. In girls' lacrosse Carle Place, the defending state champion, is 6-0 and has outscored the opposition, 94-10. Among the Frogs returning players is Karen Krawchuk who set a Nassau record with 97 goals last year. Carle Place won the 5th annual "Little Green Jug" track meet with 201 points. One of the unsung heroes of Long Island high school sports is Barry Landers of Cablevision's Long Island Sports Network. For the past half dozen years Barry has been the moving force behind the television coverage of high school football, basketball, soccer, baseball and lacrosse. He brings a major league touch to the telecasts thanks to his role as the radio voice of the Islanders. He also brings the genuine enthusiasm of a fan. Barry Landers loves high school sports. Apple Bank has been the primary sponsor of the programs for three years. Others are needed and hopeful they'll be found so that these excellent programs can continue.

## Teen Jockey Rides Into Successful Season

Like many teenagers across the country, 17-year-old David Nuesch holds a job.

Unlike many of them, Nuesch made about 180,000 last year.

The 5'11" 97-pound apprentice jockey who rides at Aqueduct Racetrack in Queens, has been riding only since September, and has already eclipsed his 1986 earnings in the first three months of this year.

While most 17-year-olds are busy choosing colleges, Nuesch is busy choosing government-backed funds, safe things, he says, to start out with. He also owns stock in an airplane company, he explains with a straight face.

Nuesch, who lives in Westbury with trainer Dick DeStasio, has won 85 races in the past six months and his mounts have won a combined \$1.8 million. Jockeys take home about 10 percent of that.

Like all jockeys who ride in this country, Nuesch is self-employed and pays taxes on a quarterly basis. This year was his first visit to the IRS office.

While his finances are currently handled by a securities company, until a couple of months ago, he simply deposited his money in the bank.

Nuesch admits that he used to enjoy seeing the bank teller's reaction when he would drive up with his weekly check.

"In December, I had some pretty big checks," said Nuesch. "I'd go up to the teller

and drop my check off and they'd look at me like 'where are you getting this kind of money? Is this yours?'"

Originally from Free Union, Va., Nuesch, the son of a trainer, learned to ride horses on the family farm. He decided to come to New York because of the opportunities available in horse racing, and because his family knew DeStasio.

A spokesperson said that Nuesch hopes to continue racing after he completes his apprenticeship.

## St. Paul's Varsity Lacrosse Team Has 7-0 Season

The St. Paul's School Varsity Lacrosse Team raised its season record to 7-0, with victories in the last two weeks against Chaminade, Trinity (Manhattan), Portledge and Rye Country Day.

The victories were the seventeenth consecutive wins over two years for St. Paul's, the second longest lacrosse winning streak in New York State. This remarkable feat is especially impressive considering the fact that this is only the third year of Varsity Lacrosse for St. Paul's School.

## Fishing Contest

All entries must be caught between the Jones Beach Inlet and the east end of Robert

Moses State Park. Catch'em in the surf, bank or pier. Any caught from the open or charter boats berthed at Captree are also eligible for competition.

## Basketball Camp For Girls

Dave Rooney, Co-Director of the Top Choice National Scouting Service for Women, announced that the Top Choice Summer Competition Basketball Camp for girls will be conducted at Hamilton College in Clinton, New York and at St. Paul's School in Garden City.

The dates at Hamilton College are Sunday, July 12 through the 18th and at St. Paul's School Sunday, July 19 through Saturday, July 25.

The Competition Camp is designed to attract girls who want to play against the best competition available from a multi-state area

and for girls who have aspirations of playing on some level of college basketball. Girls entering the ninth through twelfth grades are eligible to attend. The camp will run from Sunday afternoon to Saturday evening.

Separate two day specialty camps are also offered on Friday and Saturday. Intense instructions in shooting or big girl/inside offense will be offered.

For more information, call (412) 794-5219 or write to: TOP CHOICE Competition Camp, 430 Elm Street, Slippery Rock, PA 16057.

AT HALFTIME OF a recent New York Knick basketball game at Madison Square Garden, Bill Travers sports-writer for the New York Daily News presented a jacket and a All Star certificate to St. Mary's H.S. senior Chris Schneider. The Gaels leading scorer averaged 21 points per game, shot 89% from the foul line and was selected to the Daily News Nassau County All Star team.

### Kristin Mund High Point Winner In Swimming

Kristin Mund of Hicksville repeated her victory of the summer and won the High Point trophy at the Senior Metropolitan Championships at Columbia University recently. The 14 year old swimmer was awarded the trophy after she won the 1000 and 1050 freestyle, the 500 free and placed second in the 100 fly with a Junior National time and the 400 IM. She also placed third in the 200 fly. She was the freestyler on the medley relay that made Senior National times.

Other local swimmers scored to give the

Adelphi Swim Team the High Point Women's Award and the overall win. Lorna Mund won both backstroke events with Senior National Times. She was also third in the 200 free with her personal best time, fifth in the 500 free and seventh in the 100 free. Kim Hecker of Plainview was the winner of the 200 butterfly and placed second in the 1000 and third in the 1050 and the 100 fly. Scott Epstein won a sixth place in the 200 breaststroke. He is a junior at Hicksville High School and the record holder on the high school team.

### Hicksville Police Activities League

By CHARLETTE ANSTEY

It seems in these days of stressful competition that we're losing sight of what's important - that our children have FUN in whatever endeavor they participate in!

When you involve your children in PAL activities you are reinforcing the concept of enjoyment in non-stressful competitive activities. Your children (whether boys or girls) learn how to work as a competitive team. Everyone likes to win - however, at PAL it is just as important to learn how to lose gracefully. Good sportsmanship (whether by players, umpires, coaches or parents) is highly emphasized at PAL.

Every child involved in PAL activities is a WINNER. In PAL there is no sitting on the "sidelines". Your child will play every game of the season. If there are more children than positions on the team, children will be rotated so each child gets a chance to play.

### Shamrocks Play Warriors

By A. Blicker

The Hicksville Shamrocks 1974 boy's traveling soccer team continued their come-from-behind pattern on April 26 with a 2-2 tie with the tying goal scored with just two minutes to go. The game was at the Village of Branch, Suffolk County, where the Shamrocks played the Warriors and brought their LI Junior Soccer League record to one win, two ties, no losses.

The first half featured crisp, aggressive end-to-end soccer, by both teams, with VOB scoring first. The Shamrocks tied on a header by right halfback David Lovato, who had a superb game, off a cross from stopper Chris Doyle. The second half saw VOB score early and then continually fight off Shamrock charges. Finally, with two minutes to go, striker Chris Koetter fed left wing Karl Rice, who put in the tying goal.

All 15 Shamrocks, led by goalie Ed Jacobsen, played well, only to be stymied by the Warrior goaltender time and again. The players, in addition to the aforementioned, were Chuck Oliver, Christian Friedrich and Greg Szumawski at fullback; Brian Harkins at sweeper; Matthew Pordum, Domenick Perillo and Gregg Grouso at halfback; and Jason Kingsley, Eric Blicher and Junior Tomlinson on the offensive line.

Special thanks to Coach Herb Pordum and Assistant Coach Glenn Kingsley, Jr. for their hard work and guidance.

### Hicksville Express Beats Cosmos 7-1

The Hicksville Express intramural team defeated the Cosmos, who were playing short-handed, by 7-1 at Old Country Road School this past weekend.

Express newcomer Jonathan Schwartz led the team with four big goals. Tracy Koetter contributed a hat trick for the remainder of the scoring. Also playing skillfully at offense was Michael Baglieri.

Hustling at Midfield were Marc Spinner, Chris McGunnigle, Brian Swacey, John Kurkowski and Matthew Hamlin. The staunch defense consisted of Joey Zaffuto, Joey Miniaci, Craig Finn, Robin Blicher and Janice Pfeifer. In goal was sure-handed Matthew DePalma who always does a super job. Thanks to coach Steve Baglieri for his guidance and assistance.
