Rain, Conservation Lead To Low Water Use

By Rita Langdon

The high temperatures of summer often lead to a rise in water use. But this year, water consumption decreased with the help of rain-fall and conservation measures.

Hicksville saw a drop in the amount of water used from January through June, according to Hicksville Water District office manager John Swierupski. Residents and businesses used 17 million gallons less than the previous year for that six month period.

Since the Department of Environmental Conservation imposed a cap on all water suppliers in Nassau County, water use has seen a noticeable decrease each year since the law

was enacted in 1986.

In 1986, the water district took strict measures to conserve water which are still in effect today. Odd numbered homes can only water their lawns on odd-numbered days; even numbered homes on even days. In addition, homeowners can only water their lawn between 10 a.m. and 4 p.m. and the water district stresses that people should only use the sprinkler when needed.

Swierupski said, "The law is still in effect, but [water consumption] has been going down ever since they put the cap on." Although water consumption is down so far this summer, he noted that it is imperative that residents and businesses continue to conserve water. He reminds neighbors "not to neglect" the law. People who disobey the law risk a fine.

The water district continues to stress conservation by including reminders on every water bill a customer receives.

Four-year resident Marcel Catafago of Hicksville obeys the water laws by only sprinkling his lawn between 10 a.m. and 4 p.m.

Senior Clubs Feel The Crunch Of Austerity

By Rita Langdon

Hicksville seniors citizens are feeling the affects of austerity. The defeat of the school budget in May and the start of the district on an austerity budget last month has led to the loss of \$28,500 in funding for local senior clubs.

Because the Hicksville School Board has not discussed the possibility of a budget re-vote,

senior clubs are preparing for the worst.

Many of the clubs are anticipating a decline in participation of trips because members will now have to pay extra for transportation. The district sets aside \$8,000 for field trips which is dispersed among the four clubs in the school district. That \$8,000 is mainly used by the clubs to defray the cost of bus transportation.

"We've had some cancellations and with the 15 dollars extra for the bus, they can't afford it," said Irma DeStefano, president of the Hicksville-Mid Island Seniors.

Edna Crews, director for the Hicksville-Levittown Seniors agreed saying that no one will want to take trips that are further away because it will cost more to take a lengthy bus ride.

Crews said, "I can't present any trips that go over 30 dollars because they can't afford it." She added, "We're going to find a big difference" in the amount of people who take trips.

Irving Penzel, director of St. Ignatius Seniors, said he has already cancelled trips because "a lot of [seniors] are on fixed incomes. . . and the buses are essential to our program."

The Town of Oyster Bay also supplies the use of two buses per year. The one other club the district sponsors under the Adult Continuing Education Program is Old Lady of Mercy Seniors.

In addition, club directors are no longer

paid for their services due to the austerity budget. But, all four of Hicksville senior club directors are continuing to volunteer their time as directors.

"I'm staying on because they're my camaraderie and my community," said Crews. "But I'm hoping there will be a re-vote and the budget is passed."

Hicksville-Mid Island Senior Club president Rachel Stalano, a director for six years with the club, said that although she is no longer paid for her services, "I'm spending as much

time as I can with the group." She added that a director is important to the club because he or she keeps "law and order." The director is also responsible for signing contracts for trips, booking rooms and keeping a list of medications for certain members. "I just can't leave them without any director," she said.

Penzel said that it is difficult for a club to survive without a director, but he is staying on because "I don't want to let my seniors down."

Mr. and Mrs. Richard Jones

Christine Ann Bozzi—Richard Jones Wed

Colonel and Mrs. S. J. Leahy of Hicksville and Lewes, Delaware, announced the marriage of their daughter Christine Ann Bozzi to Richard Andrew Jones on Saturday, March 3, 1990 at Trinity Lutheran Church, Hicksville.

Christine is the daughter of Evelyn Bozzi Leahy and the late Joseph Bozzi.

Christine was given in marriage by her step-father, Col. S. James Leahy and Mr. Richard R. Jennett, a dear and close family friend from Morrisville, N.Y. (formerly of Hicksville).

A reception for family and close friends was held at the Knights of Columbus Hall, Bethpage.

Christine is a graduate of Hicksville High School, class of 1978, Nassau Community College, class of 1981 and graduated cum laude from Adelphi University, class of 1988, with a Bachelor of Science in Business Management and Communication.

Richard is the son of Joan and Bill Jones of Bethpage. He is a graduate of Bethpage High School, class of 1981.

The bride's gown of white silk was form-fitting, ankle length, with chiffon dolman sleeves. The gown was appliqued with lace, seed pearls and crystals. Her headpiece was made of silk flowers, crystals and pearls with a blusher veil. Her bouquet was red silk columbine.

The matron of honor was Donna Shaw of New York City, a college friend of the bride. Serving as bridesmaids were Linda Pretter, also a college friend, Nancy Bozzi Magrini of Hicksville, and Susan Bozzi Fitzpatrick of Rochester, N.Y., both sisters of the bride. The bridesmaids wore tea-length gowns of red lace over taffeta and carried red and white silk regal lilies.

The bestman was Robert Jones of Bethpage, brother of the groom. Ushers were Billy Jones, from Florida and Billy Hayes and Kenny Lutz, both of Bethpage.

After a honeymoon at Disney World, Florida, the newlyweds are residing in Massapequa.

Goodbye Roz and Gene

"The 'Starlight Shop'—Hicksville's fashion center is now closed after serving the community for 44 years.

"We will miss you, **Roz and Gene** and your faithful **employees** for your fashion-conscious ideas and your helpful ways. As you closed your store you took with it fond memories of Broadway that once was. . . . **Dorothy Milacek**"

They're Getting Married

Mr. and Mrs. Charles Wilson, of Liverpool, announce the engagement of their daughter, Kathleen Diane, to **Scott O'Callaghan**, son of Mr. and Mrs. Donald O'Callaghan, of Hicksville. A wedding in the summer of 1991 is planned.

Town Sued Over Use of Sales Tax Revenues

By Nancy Fischetti

A lawsuit filed against the Town of Oyster Bay charges the municipality has unfairly distributed sales tax revenues.

According to Ronald Goldstein, one of the attorneys of record in the suit, the Town of Oyster Bay has received sales tax revenue from Nassau County and used that money in two refuse districts. Residents in areas outside those districts receive no benefit from the sales tax.

Refuse Collection Districts Nos. 1 and 2" as well as those residing in the Glenwood/Glenhead and the Syosset Refuse Districts. The suit is filed against the Town of Oyster Bay and the two collection districts.

According to the court papers, the Town of Oyster Bay used more than \$16 million of sales tax revenues in the two special districts from 1985 through 1989 and budgeted an additional \$4.5 million for 1990. The suit states that, "upon information and belief," the

Bay established a Solid Waste District in 1986 for the entire township, but, from 1988 to the present, no sales tax revenues have been applied to that district. The suit contends that all Town property holders would benefit if the town allocated sales tax monies to defray the cost of the Solid Waste District.

The suit also finds that the legislature allowing municipalities to apply sales tax to special districts is in conflict with the New York State Constitution which states that "no county, city, town, village or school district shall give or loan any money or property to or in aid of any individual or private corporation or association."

According to the suit, the plaintiffs are seeking a judgement that will permanently enjoin and restrain Districts 1 and 2 from receiving any portion of funds derived from sales tax proceeds. It also seeks a monetary judgement against the two districts in the amount of \$21,322,488 and the direction of those funds to the town's Solid Waste District. Furthermore, the suit requests the payment of the attorney's legal fees allowed by law and the award to the plaintiffs of "costs, disbursements and such other and further relief" the court deems proper and just.

"We trust the legality of the state law enacted by the legislature that permits towns to allot sales tax revenues to special districts."

A town spokesperson on the law suit.

"As a result, similar citizens are being treated differently," Goldstein said, and the litigants are charging the practice is unconstitutional.

The suit also questions the legality of the town's use of a state law which allows municipalities to earmark sales tax funds for special districts. Doris Kirby, a spokesperson for Oyster Bay, said the town does not comment on pending litigation.

"We trust the legality of the state law enacted by the legislature that permits towns to allot sales tax revenues to special districts," Kirby said.

The four individuals, Margot and Mark Snyder of Brookville and Joseph and Irene Manfredi of East Norwich, have filed the suit on behalf of themselves and "all other persons similarly situated who own real property in the Town of Oyster Bay which is not within

budgeted amount will equal the district's expenses for the year.

Some residents of East Norwich have petitioned the Town of Oyster Bay to join the municipal system, citing increasing private carting fees. Not all of the area is interested and the Town, after hearing conflicting comments about the community's desire for the change, has said the issue of collection will be decided through a public vote. The suit refers to this proposal.

"If the property owned by the Manfredis and others similarly situated is incorporated within Districts 1 and 2, the plaintiffs...will be subject to an assessment to reimburse the Town treasury for the funds unlawfully appropriated to Districts 1 and 2 and its favored owners upon the success of this action," the suit contends.

According to the suit, the Town of Oyster

Board Considers Tightening Town Parking Regulations

Once again, the Oyster Bay Town Board will be considering tightening parking regulations for commercial vehicles throughout the township at a public hearing set for Sept. 25.

According to the proposal, the new regulations would govern not only the number of commercial vehicles allowed on residential properties, but also the size and weight of the vehicles.

If approved, the town would limit the number of commercial vehicles permitted to park, store, stop or leave standing unattended to one.

Additionally, no vehicles exceeding 90 inches in height, 9,000 pounds or 20 feet in length would be permitted.

The proposed town ordinance defines commercial vehicles as "any registered vehicle bearing a commercial, bus, farm, livery, school, special commercial, taxi, tow truck or tractor license plate" or any vehicle which seats more than nine people.

The ordinance, however, would not prohibit such vehicles from making deliveries or providing service to residential building. Garaged vehicles are excluded from the ordinance as well.

The hearing will take place at 10 a.m. Sept. 25 at Town Hall East, Audrey Avenue, Oyster Bay.

Noise Control Ordinance Is Passed by Town

Residents who previously felt they had no recourse to stop local businesses or neighbors who create noise disturbances should be pleased with the Town of Oyster Bay's newly adopted Noise Control Ordinance.

At the public hearing held on June 19, Supervisor Angelo Delligatti said this ordinance "has much more teeth" than the previous ordinance. He added that the old ordinance had proven to be ineffective. The new law, which calls for some strict measures, was officially adopted last week.

Residents and businesses who violate the ordinance, could face a \$350 fine or six month imprisonment or both.

The Town has defined "noise" as any sound which annoys or disturbs humans or which causes or tends to cause an adverse psychological or physiological effect on humans.

A "noise disruption" is defined by the town as the creation of any sound which interferes with the reasonable and normal activities of reasonable persons of normal sensitivities lawfully occupying an area adjacent to the source of said sound.

Prohibited Acts**

- Radios, television sets, musical instruments played in such a manner as to create a noise disruption between 10 p.m. and 8 a.m. Monday through Saturday and between 11 p.m. and 9 a.m. Sunday morning or holidays.
- Operating or using loudspeakers and

public address systems in such a way that it creates a noise disturbance between the hours of 10 p.m. to 8 a.m. Monday through Saturday and 10 p.m. to 9 a.m. Sunday mornings or holidays.

- Owning, possessing or harboring any animal or bird which frequently or for continued duration in excess of 30 minutes, howls, barks, meows, squawks, or makes other sounds which create noise disruptions.

- Loading, unloading, opening, closing or other handling of boxes, crates, containers, building materials or similar objects that creates a noise disruption between the hours of 10 p.m. and 7 a.m. Monday through Saturday and 10 p.m. and 8 a.m. on Sunday morning or on a holiday.

- Operating or permitting the operation of any commercial tools or commercial equipment (e.g. air conditioning and refrigeration systems) in such a way that creates a noise disruption between the hours of 10 p.m. and 8 a.m.

- Sounding or permitting the sounding of any burglar alarm or car burglar alarm unless the alarm is terminated within six minutes of activation.

- Operating or permitting the operation of any mechanically powered saw, sander, drill, grinder, lawn or garden tool, snowblower or similar device in such a way to create a noise disturbance when used in residential areas between the hours of 10 p.m. to 8 a.m. Monday through Saturday and 10 p.m. to 9 a.m. on Sunday mornings or holidays.

- Both the Town of Oyster Bay Department of Public Works and the Department of Planning and Development will be responsible for reviewing public and private projects respectively, investigating and pursuing violations, and inspecting possible violators.

In addition, the Town Environmental Quality Review Commission in compliance with State and Local Law shall apply the provisions of this ordinance when conducting environmental reviews.

★ All of the restrictions have not been listed.

Town Board Honors Local Police Officers

The Town of Oyster Bay honored two police officers from local precincts last week. John Sobin and John E. Ostaszkowski were recognized for "excellent police duty."

The following is a brief account of the events that led to their commendations:

While on patrol on the Long Island Expressway on May 15, Officer Sobin heard a call for assistance from Second Precinct Radio Motor Patrol 213 who was in foot pursuit of a burglary suspect in an industrial area of Hicksville.

Officer Sobin, who was very familiar with that area of the Second Precinct, answered the call for help and headed for an area from which he believed the suspect would attempt to escape. When the suspect attempted to escape via this route, he was apprehended by Officer Sobin. This arrest led to the arrest of another burglary suspect involved in this

Abortion Demonstrations Clog Local Streets

Both anti-abortion and pro-choicers gathered outside the Women's Clinic at 17 West John Street Saturday morning. West John Street was closed to traffic between Newbridge Road and Broadway. Police reported that there were no incidents and no arrests. Forty police officers were assigned to the demonstration.

Dennis Mulligan Gets His 27 Pieces of Sod!

By Jim McCrann

The world, or at least the Hicksville Fire Department, has long awaited this day.

After almost 12 years of agonizing over a decision about what to do with their front

yard, the Mulligans have finally decided to install a sod lawn, according to a family friend MaryBeth Becker.

It was Dennis Mulligan, a Hicksville

fireman, who proposed the idea of cementing his front property and painting it green. But it was his wife, Ellen, who would settle for nothing less than a sod lawn. The couple reached a stalemate that lasted over a decade.

The controversy that arose over this precarious situation soon spread throughout the ranks of the Hicksville Fire Department. Dennis Mulligan and his mulling of whether to sod or not to sod became the biggest joke of the firehouse. According to MaryBeth Becker, every time Mulligan turned around he would be bombarded with questions

about his front yard. "There was no way he could escape this," she said.

Ultimately, Ellen Mulligan and the sod triumphed.

The Mulligans were so enthralled with their decision that they ended up with an extra 27 pieces of the ready-made lawn. What Mulligan plans to do with the extra sod that was delivered in error, remains a mystery.

Now that the Mulligans have a brand new sodded front lawn, the only question is who is going to mow it?

Cynthia—A Model Citizen

During the week of June 24, **Cynthia Gaylor** was chosen to represent the Charles Wagner Post 421 at Empire Girls State sponsored by the American Legion Auxiliary. The State Conference was held at Russell Sage College in Troy, New York. The students were transported to Albany for a day of legislative meetings and a guided tour of the capital building. Cynthia was appointed to a senatorial position and played a key role as an elected officer on the Platform Committee. Throughout the week the model governmental citizens had distinguished guest speakers such as Assemblyman Arnold Poskin, Judith Avner, the Director of New York State Division for Women and Mary Ann Krupsak, the first woman Lt. Governor of New York State.

They're Outstanding

At the annual awards ceremony, for Girl Scouts of troops in Trinity Lutheran School, Hicksville, held on June 15, two members of Cadette Troop #3475 received the Cadette Silver Award. This is the highest award a Cadette Scout can receive. There are many hours of hard work involved in fulfilling all the requirements. There are badges to be completed, leadership requirements, and hours of service work. The road to success

ends with a service project of many hours of volunteer work. As their service project the girls chose to volunteer in Trinity's Sunday School. They both worked very hard all year.

The two girls are 8th grade students at Trinity and Hicksville residents—**Pamela Foddy** and **Meghan Wood**. These girls are both very active in school activities and outside activities. They are looking forward to working on their "Lamb of God" Award this year which is a religious recognition for Scouts.

Robert Izzo Court Proceeding Postponed

A court proceeding for Hicksville school bus driver Robert Izzo, an alleged child abuser, was cancelled on Friday, July 27 and has been rescheduled for this Friday, Aug. 3.

The reason for the postponement was because the judge's law secretary was unable to attend the hearing, according to Ed Grilli,

spokesperson for Nassau County District Attorney Denis Dillon.

One parent of an alleged victim said he urges members of the community to attend the proceeding this week. He added that the situation is a problem of the entire communi-

ty and "we're not just a bunch of radical parents."

According to Grilli, during the proceeding the following actions can take place: 1) The judge can decide whether or not to consolidate the cases brought against Izzo into one trial, or try them separately. 2) The judge can set a trial date. 3) Robert Izzo can change his not guilty plea. 4) If he pleads guilty, he can be sentenced by the judge, after the Nassau County Probation Department com-

pletes an investigation and submits a report to Judge Marvin Goodman. The probation report which is mandated by law, may be relied upon by the court to determine what sentence is imposed on Izzo. It may include a recommendation for counseling during a period of incarceration.

The court proceeding, under Judge Marvin Goodman, will be at the Nassau County Court, 262 Old Country Rd., in Mineola at 10 a.m. on Friday.

Hicksville Resident Receives Clinical Fellowship

Francisco Ernesto Belette, M.D., a Hicksville resident and Second-Year Fellow in Hematology/Oncology at North Shore University Hospital, Manhasset, has received a \$10,000 Clinical Fellowship from the American Cancer Society.

In addition to awarding research grants in the quest to unravel the mystery of cancer in laboratories on Long Island and across the nation, the American Cancer Society also awards Clinical Fellowships to deserving physicians whose career is dedicated to working directly with the cancer patient. These Fellowships are intended to give clinical oncologists an opportunity for advanced training and independent work.

Dr. Belette will be joining his colleagues in the study of drug resistant characteristics of certain cancers.

On Long Island, the American Cancer Society funds almost \$2.5 million in research at leading area laboratories, including State University of New York at Stony Brook, Cold Spring Harbor Laboratory and Long Island Jewish Medical Center.

DR. FRANCISCO BELETTE.

Resident Named Manager Of Allergy Center

Allergy Testing Center is proud to announce the appointment of Laura Kramer of Hicksville who has been appointed office manager of the Allergy Testing Center's Long Island offices. Kramer will be administratively in charge of the Levittown and Hauppauge offices. Laura Kramer joins Allergy Testing Center at the height of the 1990 allergy season. "I enjoy helping people and look forward to working with the medical staff at Allergy Testing Center in serving our patients," she said.

Allergy Testing Center specializes in the diagnosis and evaluation of allergic disorders in children and adults. The Center is the largest allergy diagnostic program on Long Island. Allergy Testing Center has been working with physicians and their patients on Long Island since 1957. Each year hundreds of patients from Nassau and Suffolk are evaluated for allergic disorders at the Center.

Kramer is a native Long Islander. She graduated Hicksville High School before receiving further secretarial and administrative training.

Romantico; A Love Affair With Food

Chef/owner Tony Tizzano (middle) with his brother, Nello welcome everyone to Romantico.
Photo by Andrea Martone

By Andrea Martone

There is no question that the Isle of Capri in Italy is by far one of the most beautiful and romantic places in the world. The people who live there not only share a love of their country, but an appreciation for the delicacies that they have become so accustomed to.

Nello Tizzano, together with his brother, Tony, both natives of Capri, have brought with them to New York a taste of their native region, hoping to share the love they have of their country, the people, and the food. Choosing Port Washington to open their first restaurant, Nello selected the restaurant because of the interior brickwork and the sculptured ceiling, adding to it a tiled floor, and hung pictures throughout as a constant reminder of their home town. Circulating around the 17 tables, Nello greets his guests with a soft accent, happy to make conversation and ensuring that the guests are enjoying their meals to the fullest. "I always knew I'd be a restaurateur," says Nello. "I love people. In this business, you need to love people as well as food."

Romantico is truly a family affair. Nello's brother, Tony, is the chef responsible for delectable, northern Italian dishes in their distinct sauces, as well as the homemade pastas served daily (there are 10 to choose from, and YES! all served *al dente*!). Freshness is the key word at Romantico, and every dish that was served had only the freshest ingredients, from the homemade mozzarella topping, to the fresh basil and parsley in the sauces. Even the focaccia (bread stuffed with onion) served in the basket is homemade by Nello's mother who proudly helps her two sons at the restaurant.

Nello served the four of us that evening by giving us a sampling of three types of pasta on our plates. One was a homemade spinach linguini in pesto sauce, the other — ziti in a fresh pomodoro sauce, and the third a rotelli dish in a pink sauce with salmon and artichokes. I'm not a pesto person because it tends to be too oily, but I can tell you this — I have never tasted a pesto quite like this. The oil used was so tasty and light that I insisted on seeing the bottle and brand they use. An extra virgin olive oil called Bertolli Badia (not available in the U.S.) unquestionably adds to the superior taste of this dish. The rotelli dish sounded "interesting," but until it was tasted, that adjective changed to "exquisite." Following the pasta, we sampled four main courses that Nello recommended: Pollo Cardinale (chicken with mozzarella and sliced red peppers in a brown sauce), Sogliola Alla Carlo (sole stuffed with shrimp in a light cognac sauce), Vitello Alla Tony (veal topped with spinach, mozzarella and dried porcini mushrooms in a light Marsala wine sauce), and swordfish capriccioso (breaded lightly and sauteed with arugula and fresh chopped tomatoes). I rate all four dishes highly, however, the sole dish stood out as the most delectable, in a cognac sauce that was the best I had ever had, even in the finest Manhattan restaurants.

To enhance the meal, a plate of fresh sauteed string beans are placed on the table. Another nice feature; all plates are hot, guaranteeing that the food will remain that way.

I love Romantico because the food they prepare is the kind I had to travel to the upper east side in Manhattan to find. At Roman-

tico, the food is equally as good, but the best parts are that it is local and less expensive. A dinner for four with wine and dessert was \$100. There was no rushing, one could feel comfortable in casual dress, the service impeccable. All in all, an understated, quiet elegance, reminiscent of the restaurants that Nello knows so well in his hometown. "Here on Long Island," Nello adds, "the people are very educated and can appreciate good food."

We try to give them something different here, something authentic. Above all, I want them to feel at home here at Romantico." And Romantico succeeds at that. Whether it be a lunch or at dinner, Romantico is sure to please. Open seven days a week from 5 p.m. — 11 p.m., Romantico offers \$6.00 lunch specials and accepts Visa and MasterCard. Reservations are appreciated, 516-767-7472, 45A Shore Rd. in Port Washington.

New Amoco Gas Station Is A Family Venture

Gus Markotsis and Scott Vitano are celebrating the re-opening of their Amoco Fuel and Food Shop at the corner of Old Country Road and Broadway in Hicksville.

The station is designed to provide customers with full and self-serve gas facilities and the convenience of picking up a hot or cold drink or a needed grocery item all in one stop.

The station is a family venture. Scott Vitano, who was originally a mechanic, went on to become a partner and son-in-law. His wife, Lea, is involved in bookkeeping and Gregory, the youngest son, is a part-time attendant while a full-time college student.

Gus is not a novice in running his own business. He began his career at the age of 10 as a corner shoe shine boy in Corona, Queens. This was soon after his arrival in the United States from his birthplace, Chios, Greece. After arriving in New York, he said that one of his first thoughts was that he will finally live in a country where "money grows on trees."

Through a series of business ventures that

include central air-conditioning installation, diners and a grocery store, Gus did achieve the American dream.

In 1965, together with his wife and two children, he settled in Hicksville. He entered into the gasoline retail business in 1978 and expanded to a second and third station soon after. His wife, Irene, is a vice president at Interbank located in Astoria, and his children—James, Lea and Gregory—were raised and educated in Hicksville. They said they all share a special feeling for the community and think of it as "a great place to have grown up in."

Lea and Scott Vitano and their son, Matthew, live in Hicksville. Their other son, James, is an attorney practicing in the area.

Included in Gus' philosophy is the importance of supporting one's community. He was involved in both the Cub Scout and Boy Scout programs and a member of the Holy Trinity Greek Orthodox Church in Hicksville.

Success for Gus was not exactly as easy as picking dollars off trees. It was achieved through long hours, hard work and the satisfaction of his customers.

Legionnaires' Log

By Greg Bennett

Charles Wagner Post #421, Hicksville

A Salute to Veterans will be held Saturday, August 4 at Eisenhower Park. At 10 a.m. there will be a military vehicle and static helicopter display near the Veterans Memorial. During the evening a lakeside concert will feature the music of the First World War and other patriotic ballads as sung by Joel Grey. This is a great day for our veterans. Please attend.

Dick Hochbrueckner PCC, Arlene Howard PC, and Greg Bennett recently attended the American Legion Department of New York Convention at Binghamton. The 1990-91 Department of NY Commander is William L. Brown of Steuben County. Currently there are 215,936 Legionnaires in New York State. Brown called for each Legionnaire to stand up for our flag and to participate in Children and Youth activities. Brown is a member of Arthur J. Cunningham Post 440.

Recently Charles Wagner Post 421 assisted a veteran and his family when asked to by a local church. Commander Hochbrueckner and Artie Rutz PC provided hotel accommodations to the out of state veteran and his family courtesy of Post 421 as the American Legion cares for veterans in time of need.

The VA Insurance Hotline is 1-800-402-8079. The next meeting of Charles Wagner Post 421 is on Monday August 4 at 8 p.m. Post 421 is located at 36 West Village Green on Newbridge Road in Hicksville. Veterans who served during periods of war are welcome to join. Veterans must stand shoulder to shoulder united for our just entitlements and our POW-MIA's. Consider joining the American Legion. Call (516) 796-9485. Remember our nation is #1: thanks to our veterans.

King Of Golf Trick Shots Visits County Parks

Local golf fans are in for a big treat on August 12 and 14 when the King of Trick Shots, Paul Hahn, Jr., visits Cantiague Park in Hicksville and the Oyster Bay Golf Course.

This professional golfer has been touring the world with his amazing and entertaining exhibition of trick golf shots and educational golf clinic. As a commercial pilot, he flew completely around the world in a twin-engine Aztec, giving 65 exhibitions in 24 countries on five continents.

Hahn will arrive in Hicksville for a noon show at Cantiague Park's driving range on West John Street on August 12. He will be appearing on August 14 at the Oyster Bay Golf Course on South Woods Road and Jericho Turnpike in Woodbury. The show is free to all Nassau County residents.

Non-golfers are also entertained by his comical antics as he pulls out an assortment of goofy golf clubs and intersperses shots with funny one line jokes. His distance off the tee will hold audiences gasping for he is one of the long hitters in the game.

He urges fans to practice if they want to become real good golfers but also tells them how easy the game can be if they can apply the principles he advocates.

He uses tees up to three feet in height and stands on a sports stick to hit the tallest. He goes through a line of four tees, graduated in height from six to eight to ten to twelve inches, all the time with patter coming in the same rapid fire as he swings.

His comical clubs include a driver with a rubber garden hose attached as the shaft. With this club, he hits the ball down the fairway over 200 yards. With a driver 74 inches long (regular length of a driver is 43 inches) he pounds out 300 yard drives with machine like consistency.

He will drive long shots while kneeling, then sit on a sports seat and pound out 250 yard drives. He will throw in some Bob Hope-type jokes all the while causing fans to choke while applauding.

crime and the recovery of the stolen merchandise. Officer Sobin's quick thinking and action, along with other similar acts, earned him the award for 'Excellent Police Duty'.

At 1:40 p.m. on April 2 at the Hicksville Railroad Station, Officer John Ostaseski assisted a police officer from the Second Precinct in foiling a grand larceny. By maintaining surveillance over two suspects in the crime until enough information and evidence was obtained by the police officers on the scene, Officer Ostaseski was able to make a swift and safe arrest which led to the recovery of the stolen goods as well as the recovery of a stolen car and the closing of two other felony cases. Officer Ostaseski, who retired just last week, was also awarded the 'Excellent Police Duty' award.

Clustering Proposal Receives Town Board Approval

Under an amendment to the Town of Oyster Bay building code, developers will be permitted, and in some cases required, to build residential buildings closer together in clusters in an effort to protect natural resources on the property.

The new clustering ordinance, approved by the Town Board last week, allows developers to construct homes on smaller-than-required lots provided the remaining space is left undeveloped. When the property is approved for clustering, the number of building lots can not exceed the number of lots permitted in that zone, however.

A spokesperson for the Town of Oyster Bay said that clustering houses will preserve "open spaces and allow for more building."

Some of the natural resources the Town hopes to protect by clustering are rare plant and animal species, historic landmarks, mature woodlands, scenic views, tidal and freshwater wetlands, and land within the Special Groundwater Protection Area as defined by the Sole Source Aquifer Protection Law. The Town may require a site inspection to look for these characteristics.

Residential subdivision applications on five acres or more will be considered for possible cluster development, according to the new ordinance. A developer must present an accurate survey depicting the acreage, topography, vegetation, surface water, improvements, and any other natural or man-

made characteristics known to exist on the property.

After receiving this information, the Town, the Nassau County Planning Commission, which must approve subdivisions, and the developer will meet to discuss the property in question. The developer will then be required to report on the types of housing units to be constructed, the methods of preserving open space, and how utilities and services will be provided.

At the April 24 public hearing on the clustering proposal, a developer urged the town board to adopt this measure, saying it would "allow the Town of Oyster Bay to answer the call for housing and protect land."

The developer said he was experiencing difficulty developing a parcel of land in Oyster Bay, because of its topography. He said that through clustering the land could now be developed "with some imagination."

Rain, Conservation

(continued from page 1)

In other matters, the district shut off all water to Hicksville's Memorial Fountain after a pipe broke. The pipe at the fountain, which is located at the triangle where Broadway and Jerusalem Avenue meet, will be repaired, although a town spokesperson could not give an exact date when it would be completed. According to Phyllis Barry, the project is a "very major job" and will require the town

to seek bidders to fix the pipe.

The summer heat often brings a time of increased electricity use, but Long Island Lighting Company is reporting that they are having no lack of electric. "We haven't been experiencing any problems," said LILCO spokesperson Elaine Davis. "We are able to provide the amounts of energy needed."

King Of Golf Trick Shots

(continued from page 16)

Hahn figures the Pendulum shot as the toughest. In this shot, he has a ball suspended on a string and while the ball swings back and forth, he catches it at exactly the right mini-second and drives it over 250 yards down the fairway.

Camera fans may bring out their shutter boxes and have a field day as he allows photography at all times during the exhibition. Another feature that everyone likes—there is no walking. The show is done from

one spot near the clubhouse.

His smooth patter gives an hour's entertainment to even non-golfers. He says his biggest thrills come from people coming up to him after his performance and saying, "I am not a golfer, but I sure enjoyed your show." He believes many people are brought into the game by such exhibitions and has dedicated his life to making people happy on the golf courses of the free world. A large crowd is expected to see this amazing golfer.

ARTICLE III OFFENSES - MISCELLANEOUS REGULATIONS FOR SOUND EMISSIONS NOISE ORDINANCE

BE IT ORDAINED, by the Town Board of the Town of Oyster Bay, County of Nassau, State of New York, That CHAPTER 18 OFFENSES - MISCELLANEOUS, Article III, Noise Control Ordinance is hereby amended as follows:

DELETE: Article III, Noise Control Ordinance in its entirety.

ADD: Article III, Noise Control Ordinance as follows:

CHAPTER 18 OFFENSES - MISCELLANEOUS Article III, Noise Control Ordinance

List of Provisions

- Section 18.31. Short Title.
- Section 18.32. Definitions and Standards.
- Section 18.33. Duties and responsibilities of Town departments.
- Section 18.34. Prohibited acts.
- Section 18.35. Exceptions.
- Section 18.36. Motor vehicle maximum sound levels.
- Section 18.37. Additional Provisions.
- Section 18.38. Penalty for Violation of this Ordinance.

Tables

Table I. Continuous Sound Levels Which Pose an Immediate Threat to Health and Welfare.

Table II. Impulsive Sound Levels Which Pose an Immediate Threat to Health and Welfare.

Section 18.31. Short title. This ordinance may be cited as the "Noise Control Ordinance."

Section 18.32. Definitions and standards. Terminology - All terminology used in this ordinance, not defined below, shall be in conformance with applicable publications of the American National Standards Institute (ANSI) or its successor body.

"A-weighted sound level" means the sound pressure level in decibels as measured on a sound level meter using the A-weighting network. The level so read is designated dB(A) or dBA.

"Commercial area" means any area designated for commercial uses under the Town of Oyster Bay Building Zone Ordinance.

"Construction" means any site preparation, assembly, erection, substantial repair, alteration, or similar action, but excluding demolition.

"Decibel (dB)" means a unit for measuring the volume of a sound, equal to twenty times the logarithm to the base ten of the ratio of the pressure of the sound measured to the reference pressure, which is twenty micropascals (twenty millionths per square meter).

"Demolition" means any dismantling, intentional destruction or removal of structures, utilities, public or private right-of-way surfaces, or similar property.

"Emergency" means any occurrence or set of circumstances involving actual or imminent physical trauma or property damage which demands immediate action.

"Emergency work" means any work performed for the purpose of preventing or alleviating the physical trauma or property damage threatened or caused by an emergency.

"Gross vehicle weight rating (GVWR)" means the value specified by the manufacturer as the recommended maximum loaded weight of a single motor vehicle. In cases where trailers and tractors are separable, the gross combination weight rating (GCWR), which is the value specified by the manufacturer as the recommended maximum loaded weight of the combination vehicle, shall be used.

"Industrial area" means an area designated for any industrial use under the Town of Oyster Bay Building Zone Ordinance.

"Motor carrier vehicle engaged in interstate commerce" means any vehicle for which regulations apply pursuant to Section 190 of the Federal Noise Control Act of 1972 (Pub. Law 92-574), as amended, pertaining to motor carriers engaged in interstate commerce.

"Motor vehicle" means any vehicle which is propelled or drawn on land by a motor, such as, but not limited to, passenger cars, trucks, truck trailers, semitrailers, campers, go-carts, snowmobiles, amphibious craft on land, dune buggies, or racing vehicles, but not including motorcycles.

"Motorboat" means any vessel which operates on water and which is propelled by a motor, including, but not limited to, boats, barges, amphibious craft, water ski towing devices and hovercraft.

"Motorcycle" means an unenclosed motor vehicle having a saddle for the use of the operator and two or three wheels in contact with the ground, including, but not limited to, motor scooters and minibikes.

"Muffler or sound dissipative device" means a device for abating the sound of escaping gases of an internal combustion engine.

"Noise" means any sound which annoys or disturbs humans or which causes or tends to cause an adverse psychological or physiological effect on humans.

"Noise disruption" means the creation of any sound which interferes with the reasonable and normal activities of reasonable persons of normal sensitivities lawfully occupying an area adjacent to the source of said sound.

"Noise disturbance" means any sound which endangers or injures the safety or health of humans or animals, or annoys or disturbs a reasonable person of normal sensitivities, or endangers or injures personal or real property. Time of day, volume and duration are factors considered when determining said sound to be a noise disturbance.

"Noise sensitive zone" means any area designated pursuant to this ordinance for the purpose of ensuring exceptional quiet.

"Person" means any individual, association, partnership, or corporation, and includes any officer, employee, department, agency or instrumentality of a state or any political subdivision of a state.

"Powered model vehicle" means any self-propelled airborne, waterborne, or landborne

plane, vessel, or vehicle, which is not designed to carry persons, including, but not limited to, any model airplane, boat, or rocket.

"Public right of way" means any street, avenue, boulevard, highway, sidewalk or alley or similar place which is owned or controlled by a governmental entity.

"Public space" means any real property or structures thereon which are owned or controlled by a governmental entity.

"Real property boundary" means a line along the ground surface, and its complex extension, which separates the real property owned by one person from that owned by another person, but not including intrabuilding real property divisions.

"Residential area" means an area designated for any residential use under the Town of Oyster Bay Building Zone Ordinance.

"Sound" means an oscillation in pressure, particle displacement, particle velocity or other physical parameter, in a medium with internal forces that cause compression and rarefaction of that medium. The description of sound may include any characteristic of such sound, including duration, intensity and frequency.

"Time" - All time references are made to prevailing time.

"Vibration" means an oscillatory motion of solid bodies of deterministic or random nature described by displacement, velocity, or acceleration with respect to a given reference.

"Weekday" means any day Monday through Friday which is not a legal holiday.

Section 18.33. Duties and responsibilities of Town Departments.

A. The Town of Oyster Bay Department of Public Works shall have the following duties:

1. Review of actions of other departments. Request any other department or agency responsible for any proposed or final standard, regulation or similar action or construction activity to consult on the advisability of revising the action, if there is reason to believe that the action is not consistent with this ordinance.

2. Review of public projects. Review public projects subject to mandatory review or approval by its department, for compliance with this ordinance, if such projects are likely to cause sound or vibration in violation of this ordinance.

3. Inspections. Stop any owner or operator of any motorboat operated on any public waterway, including but not limited to, any Town facility or public waterway reasonably suspected of violating this ordinance and issue a notice of violation and/or issue summons.

4. Investigate and pursue violations. Investigate and pursue possible violations of this ordinance.

5. The Town Environmental Quality Review Commission, in compliance with State and Local Law, shall apply the provisions of this ordinance when conducting environmental reviews.

B. The Town of Oyster Bay Department of Planning and Development shall have the following duties:

1. Review of private projects. Review private projects subject to mandatory review or approval by its department, for compliance with this ordinance, if such projects are likely to cause sound or vibration in violation of this ordinance.

2. Inspections. Upon presentation of proper credentials, enter and inspect any private property or place, and inspect any report or records at any reasonable time when granted permission by the owner, or of some other person with apparent authority to act for the owner. When permission is refused or cannot be obtained, a search warrant or other court order may be sought.

3. Investigate and pursue violations. Investigate and pursue possible violations of this ordinance and issue notice of violation and/or issue summons.

4. Provide Capital Improvement guidelines. Establish noise assessment guidelines for the evaluation of proposed improvements for capital improvements. These guidelines shall assist in the determination of the relative priority of each improvement in terms of noise impact.

C. Nothing in this section shall be construed to preclude enforcement by any duly authorized law enforcement body having jurisdiction in the Town of Oyster Bay.

Section 18.34. Prohibited Acts.

A. Noise disturbances prohibited. No person shall make, continue, or cause to be made or continued, any noise disturbance at any time.

B. Specific prohibitions. The following acts, and the causing thereof, are declared to be in violation of this ordinance:

1. Radios, television sets, musical instruments and similar devices. Operating, playing or permitting the operation or playing of any radio, television, phonograph, drum, musical instrument, sound amplifier, or similar device which produces, reproduces, or amplifies sound:

(a) Between the hours of 10 p.m. the previous day to 8 a.m. Monday through Saturday and 11 p.m. the previous day to 9 a.m. on Sunday or Holidays in such a manner as to create a noise disruption across a real property boundary or within a noise sensitive zone.

(b) In such a manner as to create a noise disruption at approximately fifty feet from such device, when operated in or on a motor vehicle on a public right-of-way or public space, or on a boat on public waters, or

(c) In such a manner as to create a noise disruption to any person other than the operator of the device, when operated by any passenger on a common carrier;

(d) This section shall not apply to noncommercial spoken language covered under paragraph 2.

2. Loudspeakers and public address systems. Using or operating for any purpose any loudspeaker, public address system, or similar device (i) such that the sound therefrom creates a noise disruption across a real property boundary or within a noise sensitive zone, or (ii) between the hours of 10 p.m. the previous day to 8 a.m. Monday through Saturday and 11 p.m. the previous day to 9 a.m. on Sunday or Holidays on a public right-of-way or public space.

3. Street sales. Offering for sale or selling anything by shouting or outcry within any residential or commercial area of the Town, except in a stadium or sports arena.

4. Animals and birds. Owning, possessing or harboring any animal or bird which for a long con-

tinuous and frequent duration in excess of 30 minutes, howls, barks, meows, squawks, or makes other sounds which create noise disruption across a residential real property boundary or within a noise sensitive zone.

5. Loading and unloading. Loading, unloading, opening, closing or other handling of boxes, crates, containers, building materials, or similar objects between the hours of 10 p.m. the previous day to 7 a.m. Monday through Saturday and 10 p.m. the previous day to 8 a.m. on Sunday or Holidays in such a manner as to create a noise disturbance across a residential real property or within a noise sensitive zone.

6. Commercial Equipment. Operating or permitting the operation of any commercial tools or commercial equipment, e.g., air conditioning and refrigeration systems between the hours of 10 p.m. the previous day to 8 a.m. in such a manner as to create a noise disturbance across a residential real property or within a noise sensitive zone.

7. Construction. Operating or permitting the operation of any tools or equipment used in construction, drilling or demolition work:

(a) Between the hours of 10 p.m. the previous day to 7 a.m. Monday through Saturday and at any time on Sunday or Holidays, such that the sound therefrom creates a noise disruption across a residential real property boundary or within a noise sensitive zone, except for emergency work or public service utilities.

(b) This section shall not apply to the use of domestic power tools subject to paragraph 16 when said operation is limited to work that does not require a building permit.

8. Vehicle or motorboat repairs and testing. Repairing, rebuilding, modifying, or testing any motor vehicle, motorcycle, or motorboat in such a manner as to create a noise disruption across a residential real property boundary or within a noise sensitive zone 10 p.m. the previous day to 8 a.m. Monday through Saturday and 10 p.m. the previous day to 9 a.m. on Sunday or Holidays.

9. Airport and aircraft operations. Nothing in this section shall be construed to prohibit, restrict, penalize, enjoin, or in any manner regulate the movement of aircraft while in all respects conducted in accordance with, or pursuant to, applicable federal laws, regulations and local laws or ordinances.

10. Explosives, firearms, and similar devices. The use of firing of explosives, firearms, or similar devices which create impulsive sound so as to cause a noise disruption across a real property boundary or on a public space or right-of-way.

11. Powered model vehicles. Operating or permitting the operation of powered model vehicles so as to create a noise disruption across a residential real property boundary, in a public space or within a noise sensitive zone between the hours of 10 p.m. the previous day to 8 a.m. Monday through Saturday and 10 p.m. the previous day to 9 a.m. on Sunday or Holidays.

12. Vibration. Operating or permitting the operation of any device that creates vibration which is above the vibration perception threshold of an individual at or beyond the property of the source of the vibration or at approximately fifty feet from the source if on a public space or public right-of-way. For the purposes of this section "vibration perception threshold" means the minimum ground or structure-borne vibrational motion necessary to cause a normal person to be aware of the vibration by such direct means as, but not limited to, sensation by touch or visual observation of moving objects. This section shall not apply to construction activities performed in accordance with applicable Federal, State and any Local Laws and ordinances.

13. Stationary nonemergency signaling devices.

(a) Sounding or permitting the sounding of any signal from any stationary bell, chime, siren, whistle, or similar device, intended primarily for nonemergency purposes, from any place, for more than one minute in an hourly period.

(b) Devices used in conjunction with places of religious worship shall be exempt from the operation of this provision.

14. Emergency signaling devices.

(a) The intentional sounding or permitting the sounding outdoors of any fire, burglar, or civil defense alarm, siren, whistle or similar stationary emergency signaling device, except for emergency purposes or for testing, as provided in subsection (b) or (c).

(b) Testing of a stationary emergency signaling device shall occur at the same time of day each time such test is performed, but not before 9 a.m. or after 9 p.m. Any such testing shall use only the minimum cycle test time. In no case shall such test time exceed sixty seconds. (iii) Testing of the complete emergency signaling system, including the functioning of the signaling device and the personnel response to the signaling device, shall not occur more than once in each calendar month. Such testing shall not occur before 8 a.m. or after 6 p.m. The time limit specified in (i) shall not apply to such complete system testing.

(c) Sounding or permitting the sounding of any exterior burglar alarm or any motor vehicle burglar alarm unless such alarm is automatically terminated within six minutes of activation.

15. Motorboat. Operating or permitting the operation of any motorboat in any harbor, bay, sound area, or other waterway in such manner as to create a noise disruption at approximately fifty feet or the nearest shoreline, whichever distance is less.

16. Domestic power tools. Operating or permitting the operation of any mechanically powered saw, sander, drill, grinder, lawn or garden tool, snowblower, or similar device used in residential areas between the hours of 10 p.m. the previous day to 8 a.m. Monday through Saturday and 10 p.m. the previous day to 9 a.m. on Sundays or Holidays so as to create a noise disruption across a residential real property boundary.

17. Tampering. The following acts or the causing thereof are prohibited:

(a) The removal or rendering inoperative by any person other than for purposes of maintenance, repair, or replacement, of any noise control device or element of design.

(b) The moving or rendering inaccurate or inoperative of any sound monitoring instrument or device positioned by or for the Town of Oyster Bay

or its agent or employee provided such device or the immediate area is clearly labeled or identified.

(c) The use of a product which has had a noise control device or element of design rendered inoperative, with knowledge that such action has occurred.

Section 18.35. Exceptions.

A. Emergency exception. The provisions of this ordinance shall not apply to (a) the emission of sound for the purpose of alerting persons to the existence of an emergency, or (b) the emission or sound in the performance of emergency work.

B. Municipal Operation Exception. The provisions of this ordinance shall not apply to the emission of sounds created in conjunction with the performance of valid municipal functions by Town or private entities.

C. Lawful Hunting Exception. The provisions of this ordinance shall not apply to the emission of sounds created in conjunction with lawful hunting at New York State approved hunting areas when proper hunting licenses are obtained.

Section 18.36. Motor vehicle maximum sound levels.

A. No person shall operate or cause to be operated a public or private motor vehicle or motorcycle on a public right-of-way at any time in such a manner that the sound level emitted by the motor vehicle or motorcycle exceeds the level set forth in applicable federal regulations.

Since newly manufactured motor vehicles of all kinds, including trucks, automobiles and motorcycles, are covered by applicable federal regulations; it is not the intent of this ordinance to regulate the standards for newly manufactured vehicles.

B. Adequate mufflers or sound dissipative devices.

(a) No person shall operate or cause to be operated any motor vehicle or motorcycle not equipped with a muffler or other sound dissipative device in good working order and in constant operation.

(b) No person shall remove or render inoperative, or cause to be removed or rendered inoperative, other than for purposes of maintenance, repair, or replacement, any muffler or sound dissipative device on a motor vehicle or motorcycle.

C. Motor vehicle horns and signaling devices.

The sounding of any horn or other auditory signaling device on or in any motor vehicle except as a warning of danger is a violation of this ordinance.

D. Standing motor vehicles. No person shall operate or permit the operation of any motor vehicle with a gross vehicle weight rating (GVWR) in excess of ten thousand pounds, or any auxiliary equipment attached to such a vehicle, for a period longer than ten minutes in any hour while the vehicle is stationary, for reasons other than traffic congestion on a public right-of-way or public space, within one hundred fifty feet of a residential area between the hours of 10 p.m. the previous day to 9 a.m. Monday through Saturdays and 9 p.m. the previous day to 8 a.m. Sunday or Holidays.

E. Recreational motorized vehicles operating on public right-of-way.

No person shall operate or cause to be operated any recreational motorized vehicle of a public right-of-way in such a manner that the sound level emitted therefrom creates a noise disruption at a distance of approximately fifty feet or more from the path of the vehicle when operated on a public space or at or across the boundary of private property when operated on private property. This section shall apply to all recreational motorized vehicles, whether or not duly licensed and registered, including, but not limited to, commercial or non-commercial racing vehicles, motorcycles, go-carts, snowmobiles, amphibious craft, campers and dune buggies, but not including motorboats.

Section 18.37. Additional Provisions

A. Immediate threats to health and welfare.

(1) The Town of Oyster Bay or its agent or employee shall order an immediate halt to any sound which exposes any person to continuous sound levels in excess of those shown in Table I for impulsive sound levels in excess of those shown in Table II. Within five days following issuance of such an order, the Town of Oyster Bay or its agent or employee shall apply to the appropriate court for an injunction to replace the order.

(2) Any person subject to an order issued pursuant to Subsection A shall comply with such order until (a) the sound is brought into compliance with the order, as determined by the Town of Oyster Bay or its agent or employee, (b) a judicial order has superseded the Town of Oyster Bay or its agent or employee.

TABLE I
CONTINUOUS SOUND LEVELS WHICH POSE AN IMMEDIATE THREAT TO HEALTH AND WELFARE (measured at 50 feet or 15 meters)

Sound Level Limit (dBA)	Duration
90	24 hours
93	12 hours
96	6 hours
99	3 hours
102	1.5 hours
105	45 minutes
108	22 minutes

TABLE II
IMPULSIVE SOUND LEVELS WHICH POSE AN IMMEDIATE THREAT TO HEALTH AND WELFARE (measured at 50 feet or 15 meters)

Sound Level Limit (dB)	Number of Repetitions per 24 Hour Period
145	1
142	10
125	100

B. Other remedies. No provision of this ordinance shall be construed to impair any common law or statutory cause of action, or legal remedy therefrom, of any person for injury or damage arising from any violation of this ordinance or from other law.

C. Severability. If any provision of this ordinance is held to be unconstitutional or otherwise invalid

Letters From Our Readers

Letters to the editor are welcomed by the editors and publishers of the Anton Community Newspapers. However, they must follow certain guidelines in order for us to print them: they should be as short as possible; we reserve the right to edit in the interest of space; they MUST be signed (a typed name at the bottom will not suffice); they must include an address and telephone number so that we can verify their authenticity. We receive many fine letters which we would like to share with our readers, but we are unable to use them because they are unsigned or have a typewritten name only. We cannot publish every letter we receive because of space limitations, but we try to present both sides of all issues. Personal attacks and letters considered to be in poor taste will not be printed.

Response To Letter

To The Editor:

I was surprised to see a letter addressed to me personally in *Letters To The Editor* and not to the editor voicing an opinion. If I may, I would like to respond to Jacqueline A. DePalma—french horn; although I do not feel that it is an appropriate forum.

In June I voted yes for the Summer Band Camp; knowing in my heart that it is not a credit bearing extension of the educational program. That night the motion was defeated. The in-house band camp was a compromise among the seven board members and the alternative was no camp at all. If any one of the 70 per cent of the Hicksville community who voted down the budget or any one of the parents who pay for gymnastics camp, cheerleading camp, etc., (also intense training and not a "camp") were to challenge the in-district camp as a

contingency expense, they would be totally within the law.

According to the State Education Department ordinary contingency expenses are those deemed to be "absolutely necessary to operate and maintain schools." Field trips, as enrichment of the educational program, are not considered an ordinary contingent expense."

The board vote did not "kill" the extracurricular activities, field trips, etc. It was the defeated budget. It is unfortunate that the Marching Band is one of the first groups that austerity hurt, but that is reality. We as a board are bound by the law and the public vote.

Time to Beautify

To The Editor:

Members of the Midland Civic Association gave up a lovely Saturday morning in June to plant geraniums, marigolds and ageratum in the two triangles on both Willet Avenue and Nevada Street, off Bethpage Road.

It was difficult to dig into the hard earth, lined with heavy plastic, but everyone pitched in with energy and enthusiasm. Present were Richard Pfaender, Eileen Richards, Gail Gomulay, Tom Pfeiffer, Gloria Mann, John Kuch, Tony DiFilippo, Joe Di Fronzo, some of the above named family members, and myself. The flowers had been purchased with civic association money by Ellie Draycott and myself several days earlier. After adding soil and fertilizing and watering, we stood back

to admire the symphony of red, yellow and blue which was brightening our little corner of the world and were photographed by Eileen Richards.

At President Harry Single's suggestion, a more ambitious and formal planting is in the works for next year. We hope other civic associations in Hicksville will join in to beautify some of their areas. Flowers and plants have been showing up more frequently at various business establishments in town. We hope this is a future trend. Let's make Hicksville beautiful.

From the Editor's Desk

Last week we reported about a memorial stone that was destroyed by vandals at Abe Levitt Field on Stewart Avenue. The stone was dedicated to the late Al Greene and Wally Collins who were both active in the Hicksville Baseball Association.

Al Green's family had contacted our office telling us how unhappy they were to learn of the destruction. Before the story was printed, we tried tracking down the family of Wally Collins, but our efforts were futile.

However, after the story was published, we did receive a call from Wally's daughter, Laura Staton, who wanted to let us know that they she and her family were also dismayed to learn of the incident. She added that her family is willing to help the HBA in getting a new stone or fixing the broken one.

Said Laura, "My father lived for HBA. He loved watching the ballgames." She added, "That was his whole life up until he died."

Wally Collins also had three other children: Ron and Billy Collins and Linda Toomey. The stone was dedicated to Wally and Al because they "both gave 17 years each of love, dedication and personal contact to 'our children,'" a Hicksville Baseball Association member said in 1982. In addition to the memorial, a flagpole was also erected in their memory.

We would like to thank all those who contributed to the School Notebook throughout the year. This is the last issue we will be printing any school news and we will no longer be accepting copy for the column for the rest of this summer. We are now concentrating on Back to School. New copy for the School Notebook will be accepted after the school year begins in September.

The court proceeding for Robert Izzo, the Hicksville school bus driver charged with sexually abusing children, was to be held last Friday, July 27, but was postponed. The proceeding has been rescheduled for this Friday, Aug. 3 at 10 a.m. at the County Court House at 262 Old Country Road, Mineola.

Thank You Fire Dept.

To The Editor:

Irene and Bill Stoffel extend a million "thank you's" to the wonderful Rescue Squad of the Hicksville Fire Department.

Their prompt action probably saved Bill's

life! He is recuperating at Central General Hospital and looks forward to being up and around soon.

Thank you, Thank you, Thank you!!

INN Members Host BBQ

To The Editor:

Undaunted by a summer monsoon, the volunteers and Board Members of the Hicksville I.N.N. (Interfaith Nutritional Network) had a barbecue at the home of Reverend Theodore and Nancy Grant.

On Saturday, July 21, the gracious hosts had ready a tent, which protected all from the rain, but allowed the guests to enjoy the lovely garden and outdoors.

Everyone enjoyed the home-made salads, fresh corn, watermelon and desserts, as well as the barbecued hot dogs, hamburgers, Italian sausage and Bratwurst.

The volunteers attending represented many houses of worship, such as the Jericho Jewish Center, St. Ignatius R.C. Church, Holy Trinity Episcopal Church, Redeemer Lutheran Church, Trinity Lutheran Church (all in Hicksville), St. Bridgid's R.C. Church and the United Methodist Church of Westbury.

Mike Moran, Executive Director of the entire Interfaith Nutritional Network, and author of the book, "Give Them Shelter," at-

tended and led grace. Kenny Walker and Diane Otten and husband, Don, also represented the I.N.N.'s officers in Hempstead. Diane Otten is Soup Kitchen Director.

Others in attendance were Beth and Kevin Costello, Lois and Bob Angstadt, Morty Fischman, Harriet Schwartz, Catherine Small, Alice Spinella, Anne Jenal, Inge and Dave Moyers, Louise and Herb Seifert, Kay Sewalk, Bob and Naomi Mc Guinness, Dot and Dick Briody, June and Andy Garger, Liz and Warren Shields, Clare and Charlie Walter, Irmgard and John Tuechler, Mike and Rosemarie Smith. Dr. Mike Smith is also a volunteer Social Worker at the I.N.N. All agreed that it was a "fun day."

The Hicksville I.N.N. feeds the hungry and homeless of the Mid-Island area. The I.N.N. is located at Redeemer Lutheran Church on New South Road and serves dinner daily and also on the first and third Sundays of each month.

Global New York Teleconference

Four New York State companies who have successfully entered exporting will be case studies for a unique satellite teleconference, "Global New York: How to Succeed in Exporting," September 25, according to State Economic Development Director Vincent Tese.

"The success of exports in this state is critically important to the New York State economy," said Mr. Tese. "With the changes taking place in the world economy, the long-term viability of our small and medium-sized businesses depends upon their ability to compete successfully in the global marketplace."

Designed for New York State firms who might profit by entering or increasing their export activity, the teleconference will be simultaneously transmitted to nine locations around the state. On Long Island, the

teleconference location will be the College of Technology at Farmingdale.

According to Tese, some 6 thousand firms in New York State have exportable products. "Looking at the current statistics, 50 firms do the bulk of the exporting," said Barry Spaulding, deputy commissioner of the Department of Economic Development's International Division. "If we assist more companies to increase exports at the rate of 10 percent a year over the next five years, we can increase job growth in New York State by more than 400 thousand jobs."

The teleconference, scheduled for 1:30 pm, has a \$15 registration fee. For a registration form, call 1-800-STATE-NY. For additional information, contact Milton Ellis, State Department of Economic Development at 212 827-6145.

CAROLE ABRAMSON, SEVENTH PRESIDENT of the Long Island Center for Business and Professional Women, was installed for a second term by Judge Sandra Feuerstein (left), at the Center's networking dinner/meeting held recently. Declining Interest

This article is about the public's interest in the stock market. Stocks are a fashionable item. Like fashion, sometimes they are in

Dr. Joseph P. Frey

fashion and sometimes they are not. Despite the glut of news on the tube, the ever larger sections devoted to the stock market in our newspapers, the public's inter-

est is declining. A few examples will illustrate the point. We will make some observations of the significance of these findings.

STOCKS AS A PERCENTAGE OF HOUSEHOLD ASSETS. In 1968 the amount of common and preferred stock held by individuals in their investment portfolios was about 40% of their assets' worth. At the end of 1989, it did not exceed 20%. If you add the value of our stock mutual funds, it is only slightly higher. This does not make much difference.

Even with that significant decline, individuals are still the largest single block of holders of stock. This may seem irrational, but it really is not. We, as individuals, hold more shares of stock, but the importance of those shares as a percentage is declining. This means stocks are still important, but less so than in the past.

A lot of our assets are increasingly being diverted to fixed income securities. Bonds, both taxable and taxfree, have become increasingly important. This should be no surprise because the population in the USA is aging. Older people want more safety and income. Too many of us older people have only bonds. This I consider a major mistake because stocks do a better job (overtime) of protecting us from inflation than most other investments. I hold a senior citizen's card and I do not own ANY fixed income securities. I am not yet old enough.

The skyrocketing inflated value of our real estate is one of the major causes for the declining percentage of stocks in our portfolios. Despite all the gloom sayers, I believe real estate will continue its rise in value. The rate of increase will be diminished. I hope I am correct in that assumption because the rise

A Letter from Lulabelle...

...There is great sadness in the land because of the demise of the ice cream soda—not just any soda, but the very special soda that was available at the orange roof—Howard Johnson's... Now you do remember just how luscious it was with the great cone shaped scoop of ice cream leaking down the top and the whole a complete delight?... And now that Howard Johnson's has gone—where?—lost in some stupid corporate shenanigans I suppose—and no one seems to have Howard Johnson's ice cream—supermarkets or anyone—we now have to try to be brave about facing the future knowing that we will never again have the king of ice cream sodas—the one by Howard Johnson... Now I know that you will all write to tell me that your favorite is still available and even better than HJ, but I don't think I can be convinced—but I will try all suggestions—It's really amazing how many of the good old favorites just go... Remember Good Humor bars and those nickle Hersheys that were thin and flat and the 55¢ ones don't seem to taste as good?... and then there were those—probably revolting—wax bottles that had a sweet liquid that you could drink after biting off the top of the bottle... and those strips of paper with the little dots of candy and apart from edibles—remember the bra that fit you perfectly and you could never find another one... and there was Sweetheart soap, which we used for all the years of our married life, and I didn't mind when they stopped wrapping the soap in tissue paper inside the box—but now they don't even have the soap or the box!... That paring knife that you bought when you were first married and now has a broken handle—well, you can't expect to find the same one—but why isn't there one that's similar?!

in value was tied to the inflation rate. It means that the inflation rate will be slower to rise. Inflation is my worst fear because it destroys the value of a lot of things.

The important thing about this statistic of the declining importance of stocks in our portfolios is that historically there has not been any pressure generated for a long term market top in the stock market. Today that still seems to be true.

STOCKS AS A PERCENTAGE OF GNP. GNP is gross national product. It is the result that the statisticians get when they add up all of the goods and services that everyone buys. That includes foreigners and the governments.

In 1920's the value of our stock was greater than the GNP. That means that stock's total value was greater than all of our purchases of everything. It was the signal for one of two major stock market tops in the 20th Century. The second top was in the late 60's and early 70's. (Some may remember the new issue craze then). Then the percentage of stocks versus GNP was about 75%. At the end of 1989, the percentage was about 50% of GNP. This is below the 70 year average. It was well below the two major peaks.

There are two things that can be deduced from these numbers. It reinforced our aversion to stocks as a country. Again, this is probably due to the aging of America. It is also due to the tremendous increase in GNP caused by increased purchasing by everyone. We and the government have been spending on a lot of borrowed money. The second thing it does indicate that we are not near a long term stock market high.

Some good news is indicated by these numbers. As we get near a market peak, in-

flation usually goes up rapidly. Since we do not appear to be at a peak, this is good news for inflation.

All of this reinforces my long held view that our upward march of stock prices is not over. As regular readers of this column know, I believe we are going to have a very short term total stock market decline. Then it will be up, up and away. When it will happen, I do not know. I lost a bet with a student. I have to buy him dinner. I said the DOW would not go OVER 3000 in 1990. It just made it. In 1991, I believe it will be well over it. A 4000 or 5000 DOW is not unrealistic (in my opinion) before the year 2000.

The statistics cited here bear me out. It is my hope that my interpretation is correct. That is, that the long term bull market is not over.

One or two other things that are encouraging. There has never been a major top in the market with two conditions that we now have. A weakness in the economy (and ours is weak) and abating inflation. The declines have been limited to 10% or less. I do not expect the DOW to go down below 2700 (10%) in the short term decline we should have now. The rate of growth of our debt is declining. The lower the rates, the less tendency for an economic crash.

I believe that the public will come back to the market. My reasons are simple. Stocks are the best game in town and have been for most of my life. The public has to accumulate a lot of wealth over the next 20 years. As we get older, our medical bills accumulate and we have to be able to pay for them. Next week's article will deal with the most recent changes with Medicare insurance protection. It is an idea whose time is now.

EXAMINING YOUR BREASTS FOR LUMPS

By Ezra C. Davidson, Jr., MD,
President, The American
College of Obstetricians
and Gynecologists

A woman's breasts change constantly throughout her lifetime. These changes may be related to age, the menstrual cycle, birth control pills, or pregnancy.

Although it is normal for the breasts to feel lumpy or uneven, sometimes a lump in the breast may be a sign of a problem, including one serious condition—breast cancer. That's why it is important for some women to have regular mammograms and for all women to learn to examine their breasts regularly to detect any changes—new lumps, puckering, dimpling—that might be a sign of cancer.

The best time to do a breast self-exam is every month a few days after the last day of the menstrual period when your breasts are not tender or swollen. You might want to choose a particular day to do the exam to establish a regular monthly routine to continue when you stop menstruating.

The American College of Obstetricians and Gynecologists recommends the following eight-step procedure to perform a breast self-examination:

1. In good light, stand or sit in front of a mirror, arms at your sides.
2. Look for dimpling or puckering of the breast skin, retraction (or pushing in) of the nipples, and changes in breast size or shape. Look for the same signs with your hands pressed on your hips and then with your arms raised high.
3. Lie flat on your back. Place a folded towel or a pillow under your left shoulder and place your left hand under your head.
4. With your right hand, keeping the fingers flat and together, gently feel your left breast without exerting

too much pressure. Use small, circular motions with your fingers.

5. Picture your breast as the face of a clock. Begin your small circles at 12 o'clock at the very top of the breast. Repeat the circular motion at 1 o'clock, 2 o'clock, and so on. When your hand returns to 12 o'clock, move it closer to the nipple and repeat the process. Do this in smaller and smaller circles until you have examined all the breast tissue.

6. Examine the nipple area in the same way and check for any discharge.

7. Be sure to examine the area

below the armpit, which also contains tissue.

8. Lower your right arm to your side and reverse the procedure: place the folded towel or pillow under your right shoulder, right hand under your head, and use your left hand to feel your right breast.

Once you learn how to perform breast self-examination, the procedure should be easy and quick. Get in the habit of doing a self-exam every month. It could help you spot a problem before it becomes a real health danger.

Your Dollars Give Heart to L.I. Researchers...

Medical researchers on Long Island will receive more than \$1,300,000 in grants from the American Heart Association over the next three years. The grants include seven new awards for projects at North Shore University Hospital, SUNY at Stony Brook and Long Island Jewish Medical Center.

"We're seeing a tremendous rise in the amount of AHA research dollars coming back to Long Island. The quality of the research here is very impressive," said Ted Webb and Terri Kivelowitz, Executive Directors of the Nassau and Suffolk AHA chapters. "Long Island residents can be especially proud of the significant medical contributions being made right

in their own backyard. These research projects have the potential to impact not hundreds, not thousands, but millions of lives."

The Long Island research projects were selected for funding after a rigorous, mandatory review process. Each project is evaluated by an impartial Peer Review Committee which grades the scientific merit of each grant application. The committee is comprised of 12 to 20 AHA scientist-volunteers who have had biomedical research experience. Through this process, the American Heart Association ensures funding is directed only to the very highest quality research.

26 Years Later: Effects of Smoking Are Still Evident

January 11 marked the 26th Anniversary of the Surgeon General's first "Report on the Health Consequences of Smoking." When the landmark study was released in 1964, it caught smokers by surprise and introduced them to the notion that smoking "can be hazardous to your health." An estimated 90 million people would be smokers today, if the study had never been publicized.

Since then, smoking has declined 18 percent in the male population and 5 percent in females," says Rhoda Nichter, president and founder of the Group Against Smoking Pollution (GASP), who directs the St. Francis Hospital Stop Smoking Clinic. The Surgeon General's report paved the way for widespread educational and legislative efforts which have greatly reduced the number of smokers in the United States," she notes.

The American Lung Association reports 50 million Americans presently smoke. Statistics continue to indicate that smoking is on the decline. The overall prevalence of smoking in the United States has decreased from 36.7% in 1976 to 30.4% in 1985. Most surprising, the incidence of smoking among females is still on the increase.

Even so, more than 390,000 deaths can still be attributed to smoking each year. Approximately 1,000 Americans die each year of smoking-related disease; comparable to two jumbo jets crashing and killing all on board.

Smoking is a major risk factor for diseases of the heart and blood vessels, as well as emphysema, ulcers and cancer of the lungs, bladder and pancreas. New studies have also linked smoking to osteoporosis and cataracts.

"Medical authorities agree that prevention, by not smoking, is one key to avoiding these grim risks," said Nichter. For those who have already begun to smoke, she has words of advice.

"Many benefits will be derived from kicking the habit, even if you are a long-term, heavy smoker. You will breathe better, improve the quality of your health, have sweeter breath and avoid getting wrinkles. You will save \$2 per pack and will be eligible for reduced insurance premiums," she added.

The Stop Smoking Clinic at St. Francis Hospital has helped thousands of people kick the habit successfully over the past 14 years. It boasts a success rate of 85-100 percent during the program and 75 percent after one year. The program is offered by the non-profit, cardiac specialty hospital as part of its continuing efforts to educate the community on reducing the risk of heart disease.

For information on enrolling in the Stop Smoking Clinic, interested individuals may call St. Francis Hospital at (516) 562-6190, or GASP at (516) 938-0080.

OPTIFAST AT CENTRAL GENERAL HOSPITAL

No one ever lost weight permanently through willpower alone. No one!

If willpower were all it took to lose weight, your first diet would have been your last. But, with few exceptions, even the most determined dieters regain the weight they lost.

Now, you can lose weight and keep it off with The OPTIFAST® Program. The OPTIFAST Program is a hospital-based supplemented fasting program that combines a nutritionally complete diet supplement, diet counseling, behavior modification and group support.

Most important of all, The OPTIFAST Program involves the close, on-going attention of physicians, nurses and other medical professionals. 200,000 people have participated in The OPTIFAST Program of weight loss. Studies have shown that up to 80% of OPTIFAST® treated patients may lose more than this amount; the average loss is 85 pounds.

But even more encouraging is the fact that in some people, long-term weight maintenance—the most important part of obesity treatment, is accomplished in The OPTIFAST Program.

If you're more than 30% or 50 pounds overweight, please call 932-6250 and receive complete details about The OPTIFAST Program. You supply the willpower you've always had. We supply the medical support you've always missed.

Police Report

The Eighth Precinct has reported the following:

• **July 19**—A home on Maglie Drive was broken into through a pried rear window. Jewelry was stolen.

• **July 29**—A 33-year-old Hicksville man was charged with third-degree burglary for allegedly breaking into a gas station on Barter Lane.

Arrested was Andrew Amoroso of Hicksville for breaking into "New Bar" at 1 Barter lane, sometime before midnight

through a front bay window. Police said he removed cash and keys from the office. Witnesses told police they had seen the suspect walking around the car station attempting to get into cars that were in the station for repairs.

A short time later, Police Officer Paul Errico arrested Amoroso a short distance from the station. He was arraigned at First District Court on July 29. There were no injuries report. The Eighth Squad is continuing the investigation.

Clyde Beatty-Cole Brothers Circus Returns

The Circus is back!

Clyde Beatty-Cole Bros. Circus is scheduled to appear at Shoppers Village in Hempstead from Monday, August 6 through Wednesday the 8th. A truly international cast, the circus is being presented by the West Hempstead Lions Club.

This year's circus promises a sparkling and spectacular show. Leading the way will be the Beatty-Cole Liberty Horses, trained by the indomitable Colonel E.T. Bale, and directed by his stunning daughters Dawnita and Gloria. The circus' octet of Arabian horses will be providing matched precision drills. Meanwhile, the Bautista Family displays teeterboard expertise beyond belief, culminating in an incredible double somersault onto a single stilt!

Of such things are circuses made of course. And it's all American as apple pie - just ask Ron and Mitzi Gill, who literally work by the 'skin of their teeth' - high above the hippodrome track, and suspended from the treacherous iron jaw.

Or ask what Cole Brothers claim is the largest line of chorus girls - forty legs in all - the performing pachyderms, commanded by Fred Logan and his family. The act, say Beatty-Cole publicists, is the only walking long mount presented anywhere in North America.

A circus is a time of glamor and suspense, thrills and laughter, and this one should be no exception. Kristo Ivanov, of Bulgaria, will pilot his petite wife Nelly on a hazardous journey to the top, astride his thundering Astrocycle. The Kiebo Comedy Troupe, of South Africa, combines with Clown Alley to bring comedy relief to the canvas arena.

This is the only Nassau County engagement of the Clyde Beatty-Cole Brothers Circus, billed as the world's 'Largest Circus Under the Big Top.' The circus combines all the acts, animals and attractions that exemplify a full show, which has entertained generations of circus patrons for more than a century. Celebrating its 105th anniversary of big top shows, the Beatty-Cole claims to be presenting the most spectacular ever in the history of the show.

And that means African baboons, jugglers, equilibrists, flying trapeze, and wire walkers. Oh, and lions and tigers and bears.

Since 1884, when 'Cole's New Colossal Shows' first traveled the U.S., the title has endured and demonstrated a tenacity to tradition which exceeds most others. In 1939, Cole Bros. Circus was the last circus in the U.S. to abandon the daily horse-drawn parade. And

in 1957, the final tent show to convert to truck from the rails. And while other shows have fled to indoor arenas, the Cole name today remains as a standard-bearer of the authentic American Circus - under the Big Top.

Clyde Beatty-Cole Bros. Circus, an all-new, action packed, two hour, three-ring performance, will be appearing at Shoppers Village on Hempstead Turnpike in West Hempstead. Showtimes are Monday, Tuesday and Wednesday, daily at 4:30 pm and 8:00 pm.

Adults, 13 and older, are \$9.00, children and seniors \$4.00. Advance tickets are on sale at Shepers Village and the 7-Eleven store, 310 Hempstead Avenue.

Oh - and don't forget, everyone is invited to witness as a herd of elephants provides the power to hoist the enormous red, white and blue canvas - larger than a football field - between 7:00 am and noon on Monday August 6th.

YES, MOM, THOSE TEETH ARE SHARP! says Josip Marcan, animal trainer extraordinaire, who will be putting his head into that mouth when the Clyde Beatty-Cole Bros. Circus comes to town next week.

Crystal Gayle Meets Loretta Lynn,

Thursday August 9th at the Westbury Music Fair. Combining pop, country and blues, Crystal's an artist whose style is beyond categorization, and whose appeal is as diverse as the voice itself. Don't she make your brown eyes blue?!

The Waterviews at "Captain Bill's" Are Spectacular -- But the Food and Service Are Even Better!!

by Ellen Burke, Food Correspondent

Located at the foot of Ocean Avenue in Bay Shore, "Captain Bill's Commodore Inn" is a change from the ordinary -- it is, we found, a "get-away" from the rigors of everyday.

The Setting Is Only The Beginning

The setting of Captain Bill's is on the water, in the water and by the water! Virtually every table looks over the water! And Captain Bill's is uniquely designed to cater to an informal group of two, a formal dinner party, casual lunches, business conferences in a dedicated upper level room ("The Victorian Room") and everything from weddings to Fund Raising functions in a separate building on the water ("The Harborview Room") which doesn't interfere with any of the goings-on at the restaurant or bar!

The Personal Touch Is Real

"Everyone is greeted at the door," commented Janice August at Captain Bill's the other day. "We want everyone to feel 'at home' away from home here. When you go out for lunch, dinner, or just a snack, you want everything done for you...without it being a production. And we specialize in that kind of personal service."

Something For Everyone

"There are so many places at Captain Bill's for people to enjoy themselves," pointed out Ron Sieverl as he showed us the new "Captain's Walk", a wide outside veranda directly on the water. "The tables outside on the Captain's Walk are comfortable too--they each have their own awning, see--you can have a drink, a light snack or a formal dinner--right on the water as you overlook the Great South Bay. The view of the lighthouse is spectacular."

There Is A separate Catering Facility, Too

"On the east side of Captain Bill's is the 'Harborview Room'," continued Sieverl. "It is a complete,

separate catering facility with its own kitchen, cocktail lounge, canopied deck, dining room, immense dance floor, private parking...and all on the water of course. We can be running a wedding for two-hundred in the Harborview Room, and the folks having a casual dinner in the Captain's Room will still have terrific service -- no matter how many people are here, you get the feeling that your table is the special one!"

Different Tastes And Different Lifestyles Are Tailored To Fit

"People want different things. Business people may want a quick and light half-hour lunch or a fast bite at the bar. We love to do that. But many people like to linger for a couple of hours (or more) at lunch or dinner. We love that too. On the weekends from Noon to 6PM we have live music on the Captain's Walk just because our friends -- I mean our customers -- asked for it -- and it's

been very successful," continued Sieverl. (It was interesting to note that while Ron Sieverl was giving us our "Cook's" tour he greeted, personally, about thirty customers, or "friends-of-Captain Bill's", and made sure that an older couple was personally escorted through the double-door main entrance to a convenient table--all without missing a beat.)

Changes -- But The Good Things Remain The Same

"We're constantly improv-

ing," bubbled Janice August, as we chomped on Chicken Chaucer (the recipe is a secret) and some outrageously fresh lobster. "We've put a new deck on the Victorian Room, on the upper level. It's an 'intimate' setting for special functions for 25-60 people, ideal for just about any special occasion. We've had business meetings there, and during the break, everyone sauntered out to the deck for a whiff of sea air -- it's my favorite room."

And There's More

And there was more of course, but we had to get back to the office. We're going to come back very soon to grab some of the free buffet at cocktail time. Just for hard working folks, boating folks...every folks...as Janice August says. Meanwhile, give captain Bill's a try. It's right at the foot of Ocean Avenue in Bay Shore just minutes off Southern State. Call for a reservation at (516) 665 - 3677 or just drop in.

New Orleans Jazz Comes To Oyster Bay

Perfect Picnic Contest '90 A Highlight Of Planting Fields Night

At the turn of the century, a new style of music was born in New Orleans, the sweet-sad-gentle-exuberant sounds of New Orleans Jazz. It grew out of riverboats, street parades, saloons, and the hearts of people who worked all day and played their horns half into the night.

Now, that great American tradition is coming to Oyster Bay - in the presence of the Preservation Hall Jazz Band, which will be performing Saturday August 4 at 8:00 pm at Planting Fields Arboretum. The show, courtesy of Friends of the Arts, is expected to be a lively and well-attended affair - so get there early.

But be forewarned: this is not simply a derivative group playing something they heard on a record somewhere. The Preservation Hall Jazz Band is comprised of musicians who are considered originators of the New Orleans jazz sound.

What that means is, on August 4th, anyway, you're going to be hearing things straight 'from the horse's mouth.'

But that's not all. Planting Fields is putting on what should be an especially fun evening on that night. Because at 7:00 pm before the concert, Friends of the Arts will be holding a picnic contest.

That's right, a picnic contest.

Called Perfect Picnic '90, concertgoers will be challenged to present the Most Elegant, Most Delectable, and Most Creative picnic spreads. Prominent pres and TV personalities will be judging the contest, which begins with a 6:30 pm registration.

Picture this," said Wendy Werblin, of Friends of the Arts. "The sun sets brilliantly over Long Island Sound as you spread your blanket on the lush green lawn at Planting Fields Arboretum. Crystal glasses clink musically."

Crystal glasses? Yes, said Werblin. Whatever

you think will attract the interest or attention of the judges and food critics is fair game, she said. "Whether it's imaginative or classic, lobster or hot dogs, join us for the Perfect Pic-

nic '90!"

Many of the members of the Preservation Hall Jazz Band, the renowned jazz group, are in their 60s, 70s and 80s - but they're touring

all over the world even today, bringing their foot-stomping rhythms with them. Appearing at Planting Fields will be a band led by brothers Willie and Percy Humphrey on clarinet and trumpet. With them will be Narvin Henry Kimbal on banjo, Frank Parker playing drums, Frank Demond on trombone and James C. Prevost on bass.

Tickets to the concert are \$25, \$20 and \$15 for reserved seats. They are available from Ticketmaster at 516-888-0000 or 212-307-7171. For more information about the concert or the contest, call Friends of the Arts at 516-922-0061.

From Grand Opera To Eisenhower Park

Concert To Feature, Merrill, Concert Pops

Opera in the park continues this week, after a smashing performance by the Grand Opera last week, with a special appearance by internationally renowned baritone Robert Merrill. Merrill, considered one of the outstanding baritones of the century, will appear at the Lakeside Theater at Eisenhower

with most of the world's greatest conductors. Not only that, but he has frequently worked outdoors, and is enthusiastic about it. "Opera in the park has always been a delightful and informal experience," said Mr. Merrill. "In contrast to the formality of the opera house or the concert stage, a concert in an atmosphere of recreation, fun and total relaxation has always been a welcome experience - both for the audience and the artist."

Eisenhower Park is in East Meadow; entrances are located on Merrick Avenue and Hempstead Turnpike. In case of rain, the performance will be held in the gymnasium of

Nassau Community College.

If weather threatens, concert information is available by calling 516-542-4585 for information after 6:00 pm.

"In contrast to the formality of the opera house, a concert in an atmosphere of recreation, fun and total relaxation has always been a welcome experience."

Park on Sunday, August 5 at 8:00 pm.

The Concert Pops Orchestra of Long Island will perform with Mr. Merrill. Jerome E. Seckler, director of the Nassau County Office of Cultural Development, says that Mr. Merrill has been acclaimed by critics as one of the great "natural baritones of the century."

"From the grand stages of the world's great opera houses, to Broadway, records and television, he has set a standard for musical excellence," said Mr. Seckler.

Through Merrill's career, the opera star has performed as soloist with every major orchestra in the United States, and has worked

Another way of putting, he added is that human efforts cannot duplicate the silvery moon, the bright stars "and gentle breezes that help create the feeling one gets in an outdoor setting."

It doesn't end there. The evening's program includes not only the voice of the former Metropolitan Opera star, but also many of opera's best-loved overtures. Dean Karahis will conduct the splendid Concert Pops Orchestra.

The night of music will be free and open to the public. Those attending are encouraged to arrive early and bring chairs or blankets: seating arrangements will be informal.

ROBERT MERRILL, internationally-known baritone of opera and concert fame, appears at Eisenhower Park Sunday night.

Island Hills Chorus, the reigning NY champs of women's barbershop crooning, will appear Thursday, August 9th, 8:30 pm at Huntington's Heckscher Park. Admission is free.

with

SUMMERS OFF?

The First National Bank of Long Island, a progressive commercial bank with
offices in Nassau and Suffolk Counties, adapts to meet the special needs of
the changing Long Island work force.

At The First National Bank of Long Island, our part time staff is as much a
part of our organization as our full time work force. We recognize the im-
portance of your contribution to the success of our business—and we've design-
ed a part time teller program that reflects this philosophy:

- SUMMERS OFF!
- CONVENIENT WORK SCHEDULE TO SUIT YOUR COMPLEX LIFESTYLE
- NEW HIGHER STARTING SALARY RATES
- PAID VACATION AND HOLIDAYS
- MONTHLY BONUS PAY
- PROFIT SHARING/401 (k) PLAN

OUR
NEWSPAPER
CIRCULATION
IS CERTAINLY
NOT
PAPER THIN!

At Anton Community, we stretch the
terms of what most people consider
"Community Newspapers." Our news-
papers do cover the news and events of
varied communities, but, we offer so
much more, and are so widespread that
the connotation of "community
newspaper" seems to understate us a
bit. With a circulation of over 126,000,
we are the "Newspaper's Community
Newspaper."

The bidding:

South	West	North	East
1 ♣	3 ♥	3 NT	Pass
6 ♣			

Opening lead — ace of hearts.

How is it possible to change a mediocre bridge player into a good one? It's not easy, but one way to do it is to try to convince him that learning to reason things out is far more important than expending his energy on learning complicated bidding conventions or fancy plays that come up once in a blue moon.

For example, take this case where South is in six clubs. West leads the ace of hearts, East following suit, and continues with the jack of hearts, East discarding a diamond as South wins the trick with the king.

Declarer can count eleven tricks at this point, and sees that he can score a twelfth trick by taking a successful finesse in either spades or diamonds. But if that is as far as declarer's thinking goes, he is not trying hard enough. The fact is that declarer is sure to make the slam if he plays correctly, and he does not have to rely at all on the element of luck usually associated with a finesse.

At trick two South learns that West started with seven hearts, and he also learns at the same time — from East's failure to ruff the second heart lead — that West was dealt all four missing clubs. Eleven of West's 13 cards are thus accounted for, and declarer's only remaining task is to compel West to reveal his holding in spades and diamonds.

Accordingly, South plays four rounds of trumps and then cashes dummy's king of diamonds. After West follows suit, declarer next plays dummy's king of spades. When West follows suit again, the picture of West's original hand is complete. He obviously started with seven hearts, four clubs, one spade and one diamond.

The rest of the play is easy enough. Declarer cashes dummy's queen of hearts, discarding either a spade or a diamond, and takes a finesse in the other suit, knowing for certain that it will succeed.

Camera Club Tips About Photographic Composition

One of the difficulties that beginners, and even some advanced students have is composition. This becomes quite evident when you hear judges critiquing slides or prints finding one of the major faults to be poor composition.

Yet this need not be. Because composing, either in the camera or in the darkroom, is not difficult or mysterious. It is just a matter of common sense and good taste, with a mite of patience, thrown in.

First let me make a distinction between the average picture taker, or "snap-shooter" as they are called in the trade, and the serious dedicated amateur.

The snap-shooter is primarily interested in grabbing a shot, let's say, of his wife. It makes little difference to him that his wife is standing in front of a pole. When the print or slide comes back from the processor, there stands the wife with a pole coming out of her head. Or he hates his brother-in-law. So he takes a picture of said brother-in-law, minus one arm. His mother-in-law merits a new hair-do, so he cuts off the top of her head. And so it goes. On and on. Such is the species called the "snapshooter".

But we are here dealing with the serious amateur. When looking through the viewfinder, he or she must be aware not only of the subject matter—but of the surroundings as well. Perhaps a slight movement right or left could eliminate unwanted foliage, or poles or trees, or a car.

Can a mere tilt of the camera, up or down, change the entire structure of the picture. Would switching from a horizontal format to a vertical one make a difference. How about close focus for tight framing.

These are some of the judgment calls a photographer must be able to cope with, if he or she wishes to be a seeing photographer as opposed to a hip shooting snapshooter.

With a judgment call, a photographer must also have some technical knowledge of what goes into making a good composition in a photo.

The serious photographer will strive to assimilate the various compositional elements with the judgment call.

The elements of composition are lines,

shape, size, color, texture and tone. These are the building blocks of creative photography.

Vertical Lines. Are dominant, dignified, noble. Tall trees, tall buildings, people who stand tall and erect, have a dignity all their own due to their dominant direction.

Horizontal Lines. Suggest speed, as almost all movement is on a horizontal plane. Like a sea gull on the wing. But horizontal lines also suggest passiveness, or restfulness. Like sleeping on a park bench.

Diagonal Lines. Are dynamic, and suggest movement.

Curving Lines. Are lines of beauty, like the bend in a stream, or the curve of a woman's breast.

Size and Shape. When placed in their proper relationship within a given area, form the foundation upon which a good picture is built.

Texture, is of great importance as it indicates depth on a two dimensional print. The proper use of texture can set a mood or tell a story, and it can create a surface so real that it invites people to reach out and touch it.

Tone Value is also important in black and white photography, since every photograph can consist of up to fifty shades of grey, including stark white and black black. Grey tones can be controlled by the use of filters. A filter will lighten its own color and darken its opposite on the color scale. By looking through the viewfinder the effect of the filter can be observed.

The elements we have discussed, line, direction, shape, tone, and texture—are the foundation upon which the composition of a good print is built.

They should always be kept in mind, and utilized with proper judgment. This is the only way one can become artistically photographic, as opposed to being a "snap-shooter."

The NORTH SHORE CAMERA CLUB has a four week darkroom course, plus a new wrinkle—a photographic clinic. Where films, cameras, lenses, paper, chemicals, composition, dodging, printing, developing, etc. etc. are discussed in a round table discussion on a one to one basis. Hicksville PAL Game Results (continued from page 40)

Girls' Softball—Junior Division Blue Jays 10—Angels 4

On July 23, the Blue Jays defeated the much improved Angels team in a game that was shortened because of darkness. The hitting star of the Blue Jays was Elaine Koenig, who celebrated her birthday by getting 3 hits, scoring 3 runs, and driving in 3 runs. The Blue Jays also got big hits from Amanda Mahnken and Christine Rutsky with 2 hits each; and Anne Kaiser, Denise Rutsky, Dana Mohrman and Christine Nolan with 1 hit each. The outfield continues to be well-covered by Catherine DeBruin, Jessica Gomez, and Cathy Micalizzi. Congratulations to the Angels' coaching staff of Louie Corrado, Dennis Haupt and Pam, and all of their players, for a game well played.

Blue Jays 12—Orioles 6

On July 25, the Blue Jays broke open a close game when they scored 3 runs in the fifth inning. Everyone contributed to the hitting; Anne Kaiser had 3 hits, Denise Rutsky hit a lowering 3 run home run and a single, Amanda Mahnken hit a double and a single, and Cathy Micalizzi, Elaine Koenig, Christine Rutsky, Dana Mohrman, Beth Leary, Christine Nolan, Jessica Gomez, and Catherine DeBruin each had a hit. Elaine Koenig and Amanda Mahnken, once again, pitched well; and Christine Nolan made 2 good plays at second base.

The Orioles got big hits from Liane Lewis, amie (Sparky) Hines, Shannon Glynn, Rebecca Mutterperland Jessica Smith with 2 hits each; and excellent defense from Kelly Mathis at first base. Also, Liane Lewis' streak of hitting at least one home run in each of her first 4 games was stopped.

Girls' Softball—Senior Division July 24 Cubs vs. Mets

The game started with the score tied for the first two innings 4-4 and 5-5. Then in the third and fourth innings the Mets took over with a six run lead. Not to be outdone, the Cubs, led by Coach Nagle and Puma, shut down the Mets in the fifth inning; and scored

a total of 11 runs in the fifth and sixth innings. The Mets dug in and pulled ahead by one run. Congratulations to John, Tony and the Cubs on a great game.

July 26 Pirates vs. Mets

Thursday's game was another cliff hanger with both teams vying for the lead with excellent defense and tremendous offense. Big bats for the Mets were Jen Nolan, Pam Cote, Lauren Bergskaug, Fara Pendergast, Joyce Cappizanno, Fontayne Mitas, and Lynn Myron. Great double play by Chris Spina and Jen Nolan. Tremendous efforts in the field by the Mets' pitchers Nicole Pendergast, Beatrice Clark and Cristie Pfiefer kept the score close.

Congratulations to Don Johnson and Nancy Iardi on a great one.

Hicksville PAL Baseball/Softball Game Results

By Charlette Anstey

We are very lucky in Hicksville PAL to have two dedicated young adults involved as managers this year. Diane Sullivan is managing a senior girls' softball team and John Garger is managing a boys senior baseball team. Diane got involved because of her younger sister Jennifer and John, who doesn't have anyone involved in PAL, volunteered just because he wanted to become involved.

Girls' Junior Division

Red Sox 22—Angels 18

The Angel softball team played well with the help of Laura Powers and Jeanine Rovtar. Unfortunately Jessica and Danielle Haupt were both very sick and had to miss the game. Their Coach hopes they get well soon. Even though the Angels started off slow, they picked up steam as the game went on. The lead went back and forth for many innings. Scoring for the Angels were: Jennifer Barozic 4 runs, Kristen Adams 2 runs, Christina Cole 1 run, Diane Pisan 2 runs, Jennifer Dividian 2 runs, Beth Hoffman 1 run, Laura Powers 1 run, Nicole Ammerata 2 runs and Jeanine Routar 3 runs. The Angels Coach Lou Corrado would like to extend special thanks to the parents for their team support and behavior at the game. Great game girls!

Girls' Senior Division

Reds 16—Pirates 7

After three straight losses, the Reds came to the July 16th game determined to prove they could do better. With excellent pitching from Beth Barozic and Jennifer Rappaport

and sparkling defensive plays from Kristy Beiner, Jennifer Sullivan, Annalise Mutterperl and Kristen Rooney the team got its first win. Consistent hitting from Debbie Dwyer, Amy Edlind and Kristen Anstey helped to get a team high of 16 runs. It was a new beginning for the team and Manager Diane Sullivan who encouraged the players with a challenging pre-game pep talk. Coach Dan Edlind feels now that the girls have a taste of winning they won't want to stop.

Boys' Senior Division

A's 8—Mets 4

The A's bats came alive early with 3 runs in the top of the first by Jarrod Pfeiffer, Rich Bergskuag and Tom Anstey. The fourth inning proved just as exciting as Rich Bergskuag hit a triple followed by the game winning homerun by Tom Anstey. Other offensive games included a base hit by Scott Galdo and a triple by Joe Walsh. Danny Paul pitched a strong four innings and Tom Galati played a good Centerfield.

A's 5—Cards 5

Chris McInerney pitched a full four innings and had a base hit. Chris Thayer caught the whole game and contributed offensively with a base hit and a stolen base. Fine defensive plays by Marc Amploat second and Chris Koetter at third.

Boys' Rookie Division

A's 10—Cards 9

Great game by the A's. This was a tight game helped by the terrific pitching by Mike Kearney and John Mohrman and the hot bats

PAL GIRLS SOFTBALL JUNIOR DIVISION Blue Jays Team: Front Row, left to right Catherine Micalizzi, Catherine DeBruin, Jenine Camilleri, Christine Nolan, Christine Rutsky. Back Row, left to right Rich Nolan, Coach, Dana Mohrman, Amanda Mahuken, Beth Leary, Elaine Koenig, Anne Kaiser, Denise Rutsky, Phil Camilleri, Coach. Missing is Jessica Gomez.

of Alan Housner and Sean Naughton. Good fielding was provided by Jesse Uanino and Gregory Watterson.

Yanks 18-A's 3

The encouragement of the A's parents was very evident during this game. Good hitting was provided by A's Brent Rogers and Oren Hausner. Timmy Haerberle, Sean Naughton and Kyle Wendel of the A's played a great game.

Boys' Junior Division

A's 15—Cards 7

The A's, aided by a 7 run 5th inning,

defeated the Cards. The A's received strong relief pitching by Andrew Berner who also turned an unassisted double play. The A's defense was led by Doug Connell, Danny Reginis and Paul Jan.

A's 10—Yanks 3

The A's continued their winning way behind the strong pitching of Chris Kearney and Mike Busch. The offense was keyed by Chris McGunnigle, Paul Jan and Harprett Chadda. The defense sparkled with Timmy Paul catching and Rayn Touelli in the outfield.
