Current Comment

to declare acts of Congress unconstitutional; 72 per cent were opposed to any bill forcing Justices to retire at an age fixed by law. and 88.3 per cent were opposed to a con-titutional amendment limiting the author-ty of the Court over acts of Congress.

There was a remarkable consistency in the views of editors in far separated states, showing sentiment solidified against Court changes, irrespective of sectional politics and feelings. The completed questionnaires, together with a multitude of supplemental notes and letters, indicate that these editors

—as did the Congressional majority when the Court bill was voted on—feel that the Supreme Court is the bulwark of our liber-ties, and our first line of defense against dictatorship, and that it would be a national catastrophe to tamper with it.

The Forum - - - Letters to the Editor

Two More Problems

To the Editor,

WHEN WE KEAD of the marvelous new discoveries in science we cannot help thinking
of some problems which have not been solved. Two
of them concern the drivers of autmobiles, and
she sioes not drive these days?

Magistrate Frank Oliver sitting in the Bronx Trains count said, ecently. "Permit me to observe we have reached the peak of safety that have the peak of safety that have the count of the peak of safety that have the count of the peak of safety that have the count of the peak of the

The government can hash the motorist into the most abject spirit of submission but I challenge any one to find a single fair-insided motor-lenge any one to find a single fair-insided motor-length and disperous our signal lights and signa. Some gifts are humg too high-others too low; thousands are obscured by poles and trees; some hang-over the street; others are fair inside the curb. The Noon lights in private enterprises totally destroy.

This last paragraph of Magistrate Oliver is worth a repetition; who does not look down a business street of any American town and feel appalled at the maze of red. blue, green and yel-low Neon signa—many of them in motion — and wonder whether in this mass of color he may not miss the comparatively small traffic light? Here is a real job for the engineer and scientist.

Another problem of equal importance is the auttomobile headlight. How many accidents have been caused by drivers being bilined by the glaring lights of an approaching car, would be difficult to obtain, but certainly it would be in the thousands. Of course we understand the theory of the parabolic reflector—how a light placed at the mathematical focus of a parabola will have its rays projected out in parallel lines—that is the theory, but practically it does not work.

Of course this is destructive criticism, but our faith in American engineers and scientists is such that we believe both of these problems can be solved—must be solved in the interests of safety to human life.

Bethpage, N. Y. EDWIN W. FOSTER

To the Editor:

I am enclosing a brief statement of the work performed by our Association during the past year from the proceeds of the 1936 Seal Sale. Will you be good enough to look it over and give ur work a word of endorsement if you think we deserve it.

But right recent, everybody seems to be sorts gettin, woke up at about the same time, and we are like Rip Van Winkle — the powder was wat and his pants was ragged — and we been dreamin', but not gettin' any place.

And now, if we will take a coupla stretches, and a hitch in our belt and get over our ideas that somebody is gonna feed us, and look after us every minute, and we go to work, maybe our nap did us some good, after all.

Yours, with the low down,

The Empire State -- - and Its People

New Crops for Old Lands

Prepared for the News, by U. P. Hedrick, Director of the New York Agricultural Experiment Station at Geneva.

NOW AS FALL harvesting draws to a close, the crisp autumnal days are a good time for the New York farmer to count his blessings, and if he recounts his tills be can rejoice in the fact a great length of time. Thates, uses and fashlona in agricultural products change and in answer to this change the farmer is called upon to develop new kinds of farm products to please the eye and the palate.

ways be the case as long as men cultivate the land. There list no set adjustment of living things in nature and there can be no set adjustment of living things in nature and there can be no set adjustment of living things on the farm. My contention is that this is good and ever will be good for agriculture. Farmers must take advantage of new crops for old lands and devise new products from all crops. This is the essence of investment of the set of the land within must move forward in learning programs for the wisest use of all land within the State.

Growing House Plants

By J. M. HICKERTON
Crowing house plants is gaining popularity, as a hobby that
requires skill and knowledge. Not
everyone who tries it is successful, but with proper care success
will come.

Body & Fender Repair

Hicksville

plant to f eliatura
plant to fallure at the start.
Because house plants are insulty
grown in pots of sell. It is hard
to make sure they have enough
tood and water for good growth.
Moisture in the home, especially
in a heated room, is too low for
particularly on the inside of windows facing south, are apt to fiuctuate widely and become too hiph or too low for the hest growth.
Most p'ands require plenty of light
and usually suffer from lack of it
in the home.

HICKSVILLE

HE DELUGE descended Sunday necessitating outponement of that glorious battle between all Westbury, for a brief spell we felt inclined jst. concerning the cancellation of the clash, the matter a bit of thought, however, we're hange that opinion and look on the bright side hange that

as it did, at the end of the hardest week any ball team, scholastic or professional has ever entle dew that descended was indeed a boon to blessing in disguise and fell like manna instead the sultry heavens.

blessing in disguise and fell like manna instead in the sultry, heavens.

Ile would undoubtedly have had plenty of the hands Sunday afternoom and for the sake of et's admit the fact that the team could have been hape. It is very true that there were on serious the squad, but often it takes only a minor bruise slow up a back and linemen and make him intriving his best to the team and its supporters, the two gaines with Western Front and the ter of which was by any means a soft snap for and White. Westbury would have been a tought it. The team as a whele was at fall strength, nelimed to think that not even an ironnan can have such games as did Hicksville and come up and fresh as ever for a still tougher one within just what many Hicksville supporters are init and we most certainly don't agree. Even if lay championship football, they're still human kick in the shins and a crack on the skull or in at as much as you or I. When one considers the bose spots have been hammered all year and are still sore from earlier games the prospect of getmore of those kicks and cracks does not seem any ally, we wouldn't go for such an idea at all. Of only weigh about 140 and are far from the size the settle of the Kewilles and a rame and a half lead over the Westbury elevant.

The Hicksville weigh robatics of stated to watton to gainst the Westbury fire department of the watton of the Hicksville and the watton of the state of the weight of the state of the state of the weight of the original date was called the subject to settle the league championship as the vamps were considered by the original date was called the original date was

ly, we wouldn't go for such an idea at all. Of hy weigh about 140 and are far from the size ers generally come in. However, we have e boys and found that they too, have tender ofess the average human urge to protect them, ess to play Sanday is commendable and would ye emphatically that they like the idea of post-don't think anyone will dispute the fact, how e rest certainly didn't do them any harm.

for one, Dick Rennie would have been miss-may's game and Dick is a very heady man round amybody's backfield when there is a m on the other side of the ball. It seems of through both games with the Glen Cove t ale cabbage or something that didn't agree and broke out in a lot of boils.

from an aesthetic angle boils are not consi-per fadder for a column and perhaps Dick with shame when we couple his name with let tumps. For such things we apologite. But not aller the fact that boils are darn painful, when rubbed by a tackler or prodded sharply.

rief week's rest, I am sure Dick will be thankful.

k, there are several other Hicksville players,
e shulders, bum ankles and tricky knees. All
e members will be in so much better shape and
ore able to withstand the rigors of a tough game
e season. And as a result, Hicksville's chances
re so much better.

Bosco Outfit Gets Rolling Early ketball Slips Into Picture

unobtrusively sneaking into the sportlight what meetings, practice drills at high schools and a Bosco outfit going at a great clip.

high webod, Couch E. Parker Yutzler let out a yell forming to hosketball team and quite a few of the out. About 45 kids were there the first day and a second. The squad will be cut at an early date it the sorrouful few the den't make the grade can se stars in the intranural league.

Bordulk, Joe Leonard, Fred Flickiger and young there prospects for the campaign don't look too Phil Pignataro and Dick Remnie's grahauton won't, uns, but with present material augmehted by a few feers such as Mertill Yarvitskey and Pat Naso, the chould have no reason to be anhanned of its court

REFUSE TO 45 Report for Court Trial at Hicksville

Coach E. Parker Yutzler Begins Basketball Practice At High School; Plenty of Talent Turns Out For Squad; Orange and Black Opens On December 7

With approximately 45 candidates striving for posts on the varsity five, court pracat Hicksville high school got off to a flying start today, under the direction of E.

tice at Hicksville high school got off to a flying start today, under the direction of E. Parker Yutzler, coach.

Tentative drills held last week revealed plenty of talent among the newcomers and Yutzler is confident that the Orange and Black will cut a wide swath lin easern division competition this season in the north shore baskethall league.

Three regulars from last year's line squad have returned to bolster the varsity while the strength of the club will be still further agumented by several of last's second string players who are expected to make the varsity grade during the coming campaign. Art Reinels, lanky center, is back again accompanied by veterans Fred Fluckger and ex-Captain Birdy Borduik as well as Joe Leonard. Only Phil Pignataro of last season's starting five, has departed. Pat Naso, a second team performer, is expected to fill in the vacancy.

The Yutzlermen are scheduled to open up in Oyster Bay on December 7 against St. Dominies. With no football season to interfere, the Saints have held drills over a period of weeks and are expected to give Yutzler's charges a hard workout.

Hicksville Fighter

Al Simmins Tries Prize Glove Owned by John Puvogel

Harricane Al Simmins. Long taland featherweight champ and resident of Hickardine recently visited John Purogel, Hickardine Progressive and the glores in the olden real estate agent at 164 Broadway. He received the surprise of his life when Mr. Purogel showed him a prized possession—a 41- year-old left hand boxing glore worn by Bob Filzsimmons. Infimericham of 1897.

Filzsimmons were the glove in Simmins continued.

THE GROCERY BUSINESS HAS GROWN UP

TIME WAS (AND NOT SO LONG AGO, EITHER) WHEN THE CROCERY BUSINESS WAS CONSIDERED CHILD'S PLAY. NEARLY ANYBODY WITH A FEW DOLLARS AND A LOT OF TIME ON THEIR HANDS SIMPLY OPENED A GROCERY STORE—AND IMMEDIATELY BECAME A FULL-FLEDGED MERCIFANT!.. WHAT A CHANGE SINCE KING KULLEN PIONEERED THE HUGE SUPER-MARKETS! TODAY THE CROCERY BUSINESS, AS TYPIPIED BY KING KULLEN, IS A SERIOUS BUSINESS! BIG BUSINESS! A VOLUME THAT RUNS INTO MILLIONS A YEAR! AND KING KULLEN IS THE LEADER.
