School Building Program Unveiled

By Edward J. Van Allen
A prospective \$2 million school building plan was
uncovered this week in the Hicksville School District.
The plan was revealed by Hicksville School Trustee
William A. Bruno, Jr., who released cost estimates
prepared by school architects Knappe & Johnson
for senior high school construction to the tune of
\$1,535,000, including a swimming pool to cost
approximately \$ 270,000, and eight elementary classrooms and a gymnasium to cost \$395,000. The grand
total would come to \$1,940,000.

Curiously enough, neither the cost estimate sheet er the cost estimate sheet nor a covering memoran-dum bearing the name of Mr. Donald F. Abt, School Superintendent, was label-ed "privileged and confid-ential."

Bruno said this is the first he has heard of the \$2 million plan for school \$2 million plan for school construction. He pointed out that in a 50-page booklet, every page of which is marked "privileged and confidential," Abt had recommended that the Nicholai Street School be "phased out and sold" and that the school district "not build additional elementary facilities now." mentary facilities now."

Besides the swimming pool, the cost estimates call for 15 permanent classrooms to cost about \$755,000; 10 temporary classrooms at \$210,000; a cafeteria for 250 persons at \$85,000; 18,000 square feet of storage space at \$100,000; and a double gym at \$115,000.

Letters

Hon. James E. Allen, Jr. Commissioner of Education

State Education Dept. Albany, New York. Dear Com. Allen:

lt has come to our attention, from an official source, that 29.73 percent of students taking mathematics in Hicksville High School falled that subject last year.

This percentage, equivalent to almost one out of every three atudents appears so outrageously high as to warrant inves-

Another matter equally crucial to the taxpayers of this district has come to our notice. It appears that the school authorities have apparently al-ready chosen which students should attend summer school this year even before the third quarterly examination or the final examination marks are in.

This kind of pre - ar-rangement invites inquiry and, at first blush, at least, seems to be dis-tinctly against public in-terest.

We realize, of course, that summer schools pro-vide a certain number of summer jobs. (A news-paperman reported several years ago that the summer school personnel in Hicksville were paid up to \$8 an hour for their services and that a good many of the administrators were latching onto what the newspaperman called "lush summer Jobs.")

Yet, ostensibly deciding

wno passes or falls a giv-en subject as early as five months (as happened in one case out of many we can document) before the year ends raises a serious public question.

Besides, if you add the moneys that many par-ents of public school children shell out for private tutoring to the cost of summer school and regular schooling, you find that some parents are paying twice and even three times for educa-

ing their children.

We for years have been laboring under the impression that the job of the public schools is to educate the children, not to wring the last red cent. out of parents.

We can appreciate, nat-urally, that parents with inquiring minds are gencrally anathema to educators, but these matters happen to whet our interest. We think they should whet your interest too.

More, we think you should, as a matter of good public policy, send a team of experts into the Hicksville School District to find out the real reasons for the pro-

digiously high number of math and other failures in this district and why there is an apparent pre-determination of who shall or shall not attend summer school.

Sincerely yours, Francis E. Hester George M. Martin Harry M. Wagner (All School Board Candi-dates)

Bethpage Dems **Hear Simmons**

The Bethpage Regular Democratic Club heard Mr. George Simmons, Nassau Director of Civil Scrvice, speak at the April 16 meeting. He spoke of the lack of young people in Nassau County's employ, at the same time emphasing the import-ance of middle aged employees. George Simmons pointed out that Nassau County has many interesting and challenging careers to offer. He showed a deep concern for the future of certain departments of the Nassau County Government, due to the lack of re-

sponse on the part of Nassau's young people to the numerous positions open to them. George Simmons was able to point out with pride that Nassau County is the only county in the State of New York which makes its own examinations. Nas-sau's Director of Civil

Service hopes to revit-ilize the examinations given in Nassau, as the present tests do not necessarily prove the actual worth of a candidate for a position. George Sim-mons believes that the elimination of the top 3 requirements in selecting a person for a position would be a great improvement too.

High School **Holds Musical**

This Spring, as its an-nual Musical . Comedy, Hicksville High School will present Meridith Willson's Music Man. The performance will take place on May 1, 2, 3 and 4 in the high school auditorium, at 8:15 p.m.

Heading the cast are Carl Davidson as Harold Hill, June Fyfe as Marian Hill, June Fyfe as Marian Paroo, Roy Eismann as Mayor Shinn, Donna Marsden as his wife Eulalie, Dolores Henkel as Zaneeta Shinn, Tom Sullivan as Tommy Djilas, Charles Henningson, Bill Vella, Gerry DiZinno and Mike Wallach are the Barbershop Quartet.

Much of the success of any show is due to the work of the crews. Jeff Goldstein is student director of Music Man and John Tranchina is stage

Thinking It Over

by Robert L Morgan

Hicksville's school board races are dominated by a unique idea. The candidates running for election don't do their own talking, but a "Pappa knows best" (or Mama as the case may be) campaign is being run. Each of the slates has a behind the scenes man pulling the strings, calling the plays. One wonders just how these, candidates would make decisions if they were elected to the board. The present Board majority is dominated this way and if has been a handleap in getting anything accomplished including a realistic budget for the school system to operate on. But all of the contenders for the board have spokesmen for their groups so the voters are going to find little incentive to change. In other districts candidates run independently, speak their own ideas about education and are elected or not elected on this basis. Why should Hicksville continue to be an exception?

Antibiotic Failed To Cure Infection In Fingernails

(Q) "I have had fungus infection of my finger-nails for a long time. My doctor tried every kind of ointment without success. Then he prescribed a drug, which was quite expensive, but which cleared them. They stayed that way for a year or so. Now I'm getting it again. I would like to know how to get rid of it for good. Will it cause cancer?" Mrs. G.G. (A) First, let me assure you that cancer does not follow such infections, even though they may last many years. The treatment you had, I'm sure, was with the oral antibiotic that is effective in such cases. However, as with you, this is no guarantee against

with the oral antibiotic that is effective in such cases. However, as with you, this is no guarantee against recurrences. I would suggest use of various scaks and ointments your doctor can prescribe, to see if it can be controlled simply. If this doesn't work and the fungus is bad enough another course of treatment with the antibiotic may be in order.

(C) "I had bloody urination for which I checked with a kidney specialist. He put me into a hospital and cyctoscoped me. He got blood from my left kidney but could find nothing else. I was c'scharged from the hospital with an antibiotic and told to report back. Is this serious?" B.G.

(A) The commonest cause of blood in the urine is probably a stone. Usually, though, this is associated with severe pain. You don't mention this symptom so I presume such is not so in your case. Other causes are infections, scars and growths. Since an antibiotic was given to you it may be that an infection is suspected. At any rate, further studies and continued follow-up are essential to arrive at a more definite conclusion so don't fail to keep your future definite conclusion so don't fail to keep your future appointments.

Fathers Should Provide Family Fallout Shelters

By Richmond Barbour, Ph.D.

(Q) "My wife quotes you as saying that fathers should build fallout shelters for their families. Did you say that? I have the opposite opinion. I believe if we prepare for war we are sure to get it. Fallout shelters I believe if we prepare for war we are sure to get it. Fallout shelters would brutalize us and pit neighbor against neighbor. Besides that they're too expensive. Will you recant your heresy, Dr. Barbour? Mr. W.H. (A) No. What I say isn't hersy. We've been seconds away from nuclear holocaust at least twice in the past three years. There is every reason to expect new crises. If our country had not been prepared for war we would have gone under. Our salvation lies in strength, not weakness. Family fallout shelters cost about half the price of a new car. Most of us could get one if we really wanted to. The possibility of conflict with neighbors with neighbors will vanish when there are enough shelters to go around. As I see it, every father should provide fallout protection for his family.

(Q) "My wife decided to nurse our baby. However we've been upset by several of our friends. They seem to think that breast feeding is too vulgar or animalistic. They say that only lower class women feed their bables that way. Should we listen to their arguments?" Mr. P.K.

(A) No, you shouldn't. Many women feel as your friends feel. The majority of our American bables are now bottle bables, but the feeling against breast feeding is wrong. From the psychological standpoint breast fed bables are better off than bottle fed bables. They get more comfort out of life and seem to be surer of their mother's love. They are more stable emotionally. Pon't worry about breast feeding being vulgar. It isn't. It is emotionally. Don't worry about breast feeding being vulgar. It isn't. It is a precious opportinity for physical communion between a mother and her child. Good luck!

Two TEACH Candidates File

in filing for the position of school board trustees, Mr. Irving Lawrence and Dr. Herbert Malamud, candidates of the Taxpayers Association for the Children of Hicksville (TEACH), have indicated they will be opposing Mr. Jerome Zettler and Mr. Herbert Johnson. Mr. Lawrence, an eight year resident of Hicksville and an attorney, will be contesting for the seat held by Mr. Zettler. Dr. Malamud, a four year resident of Hicksville and a research physisist for Republic Aviation in Farmingdate, will contest the seat now held by Mr. Johnson.

The following statement

The following statement by Mr. Lawrence and Dr. Malamud was issued by TEACH: "We are completely opposed to the

manner and approach Mr. Zettler and Mr. Johnson have used in managing the Hicksville school system. They have failed in their duty to provide leadership in meeting the educational needs of our children. By indulging in costly, piece-meal planning they have curtailed our curriculum and have wasted the taxpayers money. The Willet Ave. school, overcrowded on opening day, is now inadequate as a Kinder-garten through Grade 3 school. The secondary levels fare no better under the inept management of these men. Staggering enrollments, 1500 over e mergency capacity, force serious curtailments in the highly prized educational program and re-quire the hiring of addi-tional teachers to cover staggered sessions. Can children be leaving school adequately prepared to compete suc-cessfully for college entrance or well pring vocational employment under these restricting conditions? We believe the answer to this question is 'No.'

For 13 years the Hicksville system has been crippled by cartailed sessions; 6 of these years cover the tenure in office of Mr. Johnson and Mr. Zettler. Staggering enrollments could come as no surprise to them. These enrollments have been indicated in the repeated reports by their own well-paid expert, Dr. Felix J. McCormick. In his latest report, culminating a study of the district over the past 12 years, Dr. McCormick graphically demonstrates that the crippling of our educational program will continue into 1980. During their years in office, Mr. Johnson and Mr. Zettler have had the facts and the opportunity to do some long-range planning that

would realistically improve a degenerating situation. They have not done so. It is on the basis of this inaction that we charge they have failed to provide the leadership for meeting our educational needs and for having wasted the taxpayers money by using shortrange, stop-gap measures allegedly aimed at correcting the overcrowded conditions. We believe the educational problems facing Hicksville can be met only through downto-earth long-range planning which will improve the children's education directly and insure maximum return on the taxpayers dollars."

payers dollars."
Mr. Lawrence and Dr. Malamud continued their statement by saying, "The present repudiation of Mr. Bruno by the incumbents can be accepted with sympathetic understanding. However, the years of experience that these men stress as their chief qualification for reelection should have provided them with greater insight to recognize Mr. Bruno for what he was and is. These years of experience should have provided them with the understandings and skills with which to effectively resist Mr. Bruno's des-

tructive influence on our system. By allowing Mr. Bruno to so intimidate them, the incumbents have manifested a lack of conviction which permitted them to deny the competence of the professional staff which they them selves hired. It is the duty of the school board to create and maintain a system based on mutual respect and cooperation between the lay Board and the professional, staff. This relationship must not be undermined by policy decisions which indicate a lack of confidence in the professional staff.

The six years of office held by Mr. Johnson and Mr. Zettler have been distinguished by lack of leadership in providing proper educational conditions and by a disturbing lack of conviction in fighting the devisive threat of partisan politics. We can no longer permit our children to suffer the damaging effects of poor planning and power politics. We are committed to reversing the disastrous trend under way in Hicksville today."

My Opinion

By William A. Bruno, Jr., member Hicksville School Board

A vell of mystery has been put about the field of education. It is sought to be placed beyond the pale of inquiry. This attitude has been promoted by the professional educator, if it was not initiated by him.

There is a distinction between the subject matter of instruction, as education, and the results ac-complished by that instruction. The actual instruc-tion may be left to the educator but the results are certainly the proper subject of review. Where a board of education acquiesces in the findings or reports of the educational staff, without affording the parents of students in the system the op-portunity to disclose their uneasiness and dis-

portunity to disclose their uneasiness and discontent with instruction, from time to time, that board is either lacking in initiative, is mentally lazy, or has abdicated its duty to inquire and to act as a watch-dog.

Actually, the board-to encourage the parents of children to bring the board, or to a committee of the board, any complaint which bears on the apparant inability or incapacity of the child to understand, and to "get" the subject. "Make-up time", in many instances should have been unnecessary. It may not necessarily be the fault of the teacher and it could be the fault of the student. Where inquiry could disclose a corrective procedure, in sufficient time, every method must be used in order to uncover that procedure.

to uncover that procedure.

Our State Education I aw has placed in the hands of Boards of Education "the power" to prescribe the course of study" and the text-books to be used in the schools", and "to make provision for the instruction of pupils". That law further charges these Boards with the "duty" to carry out this power.

Dower.

The acceptance of the office of Member of a School Board requires the acceptance of the duty and obligation to inquire, as well as the honor of being such board member. Where the discharge of that duty is placed solely in the hands of the educators, without inquiry, the school board member is derelict in his duties to the voters who elected him, as well as to the District as a whole.

This is not a matter of soueamishness.

This is not a matter of squeamishness.

Two of the most outstanding men of our time have acknowledged the existence of the problems facing not only our District but the nation as a whole.

Robert M. Hutchins, former Chancellor of the University of Chicago, and are chancellor of the

Robert M. Hutchins, former Chancellor of the University of Chicago, and presently President of the Center for the Study of Democratic Institutions, saw fit to charge that both the mass media of communications and education have "steadily deteriorated". (See N. Y. Times, April 22, 1963)
Admiral H. G. Rickover, father of the nuclear submarine, writing on the "Decline of the Individual", "in the Saturday Evening Post, of March 30, 1963, emphasized the need for not only "critics by profession" but also for "lay critics" who look upon discovery and publication of truth "as part of their civic responsibility". Admiral Rickover then went on to, condemn the tagging of the critics as "controversial" as an attempt to stifle criticism in a society which may seek conformity but will if society which may seek conformity but will destroy initiative in the process.

Where criticism is suppressed, waste and "run-away expenditures" follow, including the sacred

field of education.

But the field is not "Sacred". It is not beyond the But the field is not "Sacred". It is not beyond the common touch. The Law contemplates supervision by lay board members whose business experiences can give to education in the local communities that which the educator can overlook as the result of his absorption with his own field. This applies both to the expenditure of tax money to the fullest advantage and value, as well as the institution of continuance of courses which will be of most value to the students within the system.

to the students within the system.

We urge the residents of Hicksville to be mindful of their duty. The discharge of their duty by Board Members is subject to the discharge of his duty by the taxpayer and resident of the District, to take an interest in District school affairs. It is the duty

of the resident and taxpayer to register and vote. Apathy is a two pronged sword. Board Members must Apathy is a two pronged sword. Board Members must not be apathetic nor lethargic in the full discharge of their duties. District residents likewise must be neither apathetic nor lethargic in the discharge of their duty to register and to vote in District elections. Registration for this year's election is this Saturday April 27 from 10 a.m. to 5 p.m. or Wednesday May 1 from 4 p.m. to 11 p.m. Election day is May 8th. You must register if you are to vote. Students Visit Insurance Office

Twenty-two members of the Syosset High School Business Club visited the Allstate insurance Plant at Huntington Station on April 3.

April 3. On arrival at the building, the members were

divided into two groups and were taken on a conducted tour of the entire establishment. One of the Highlights of the visit, according to Jo Ann Wagner, President, was the opportunity to observe a magnetic tape computer in operation as a part of a giant electronic consolescries of units for keeping customer records.

According to Mr. C.D. In this way, many files which would be located near or following one another could be inserted in the cabinets at one time, thereby reducing extra effort in finding the individual spot for each folder.

Another highlight of the visit was the opportunity to speak with a graduate of Syosset High School who is employed at Allstate. According to Mrs. E. Bly, teacher of bus-

Letters

To the Editor:

As taxpayers, as parents, as citizens of this community, we all have an important investment in important investment in our young people and the quality of the education they are receiving here in Hicksville. Moreover, we have the responsibility as well as the right to safeguard that investment.

On May 8 - Election Day in Hicksville - we will be given the concriming to

given the opportunity to actively exercise this re-sponsibility by de mon-strating through our franchise support for the proposed school budget. Such support is greatly needed to help restore a sense of balance and cohesiveness which our schools and community need; it may also serve as an effective means of silencing a small but ex-tremely loud group c persons who appear to be single-mindedly bent up-on attacking rather than helping our educational program.

During the past months; the budget has been at-tacked by politically mo-tivated "phony economy" groups as an extravagant and wasteful piece of fin-aucial machiner. and wasted piece of fin-aucial machinery. Noth-ing could be further from the truth! The proposed 1965-64 school budget is, is feel, a strictly "hel-the line" budget, taking into consideration the in crease in student population and the normal ris adequate but stringent fashion. With a penciant for negative criticism, the "economy brigade" the "economy prigate" apparently overlooked or neglected to mention the several large slices made in the budget before it was presented to the public. As a result, a considerable amount of money was

cut from textbook sup-plies, instructional sup-plies, school lunch pro-gram, instructional equipment, and library books.

It must also be noted that any increases that were made in the budget were required by the state in the form of yearly in-crements for teachers, administrators, custodial and clerical help, retire-ment fund for the same, and debt service, re-demption of bonds, and interest. These are, in effect, fixed charges and constitute eighty three per cent of the total budget. Any further cuts therefore, would apparently have to be made in those areas which deal those areas which deal directly with educational services. Since cuts have already been made in those areas, one is forced to conclude that the plaintively persistent pleas originating in some quar-ters and calling for even greater economy are he-ing made in the interest something other than

education.

At this time, it might be wise for all of us to remember what Dr. F.J. McCormick stated in his

current report on the school plant needs of Hicksville: "All the financial factors surveyed indicate that District 17 is indicate that District 17 is in a healthy position financially." ".....all that remains is for the citizens of School District 17 to use their wealth wisely and quietably toward worthwhile education for their children." their children."

Economy Slate Gives Challenge

Hicksville's slate of three "economy School Board candidates, who have vowed a court chalenge of the Commissioner of Education's ban of four lines of the National An-them from the Hicksville schools as a substitute for the outlawed Regents
Prayer, laid down still
another challenge tonight.
In a joint statement is-

sued at a meeting in the home of George M. Mar-tin, 42 Hunter Lane, Francis E. Hester, Harry M. Wagner, the three "e-conomy" candidates, de-manded that Board candidates Irving Lawrence and Herbert Malamud "forthlightly announce where they stand on the prayer issue and whether if elected, they will chal-lenge the Commissioner's ruling on the Au-them."

The economy slate said that the people of Hicks-ville "are entitled to know where all Board candidates stand on the prayer issue." They added that Lawrence and Malamud are supported by the Teachers Educational Association for the Children of Hicksville, "many of whose members have, in the past, been outspok-enly against school pray-

At the same time, the economy candidates rapped the three incumbents running for re-election for "having refused to order an appeal of the Commissioner's ruling on the Star-Spangled Ban-ner." By their "refusal" to vote for the appeal, Hester, Martin and Wag-ner charged, the incum-bents "flouted the wishes of about 6 000 Highestilla of about 6,000 Hicksville citizens who had signed petitions favoring school prayer.'

As a matter of fact." added the economy candi-dates, "the incumbents, through their slothful, sluggardly attitude to-ward the school-prayer issue, have demonstrated that they lack both the spunk and spirit to prop-erly and adequately represum me voters of Hicksville on the School Board."

Martin, Wagner said the Supreme Court of the United States, "exempted" the singing or reciting of such historic, God-mentioning doc-uments as the National Anthem and Declaration of Independence from its decision dooming the Regents Prayer.

"For that reason," they concluded, "even a poli-tically appointed school official like a commis-sioner of education cannot expell, in whole or in part, from the schools any his-toric document which incidently Deity." mentions the
