Odds Favor GOP, But Dems Optimistic

In spite of odds to the contrary, Edward J. Morris, Democratic leader for the Fourth Assembly District (Oyster Bay Township) today predicted that the Democratic Candidates would sweep into office by a 10,000 vote lead to elect all candidates to office.

This prediction was made in spite of the three to two enrollment of Republicans in the Township. With the enrolled voters totaling 133,000, it is estimated that more than 73,000 of them are Republicans and in off years voting tends to follow the registration figures.

Morris attributed his optimism to voters being "outraged" by the "big lie" campaign of the Republicans which would account for many switch voters.

C. Bruce Pearsall, holding the opposite position to Morris in the Republican Party saw things differently. He said "Pynohon will win by a plurality of 10,000 votes and the rest of the slate by leads of 5 and 10 thousand.

The voters on Tuesday November 5 will decide which of these men is correct.

This three-fold cancer center to be devoted to detection, research and education is expected to be ready for operation sometime in the early part of 1964.

Abt Answers Newspaper Writer, Not In Writing

Hicksville School Board President George A. Jackson last week ordered Superintendent of Schools Donald F. Abt to answer a list of written questions addressed to Abt by Mid-Island Times reporter Edward J. Van Allen in the wake of the refusal of Abt's office to answer the questions over the telephone.

At last week's School Board meeting Abt at first said he was not going to answer Van Allen's letter because he didn't like the "tone." But Jackson, who had also received a copy of Van Allen's letter to Abt by certified mail, told Abt to answer the questions, if he knew the answers, so that they would be recorded on the tape recorder used by the Board.

Van Allen had told Abt frankly that if he didn't answer the questions, which related to the upcoming \$2,276,000 school building referendum, he would take legal action against Abt to compel him to answer.

Trustee Herbert Johnson told Abt to send a copy of the answers to Van Allen's questions to all other newspapers except the Mid-Island Times, in whose behalf the questions were asked. Johnson's move was construed as a bid to continue to make it as difficult as possible for the Mid-Island Times and its reporters to get public information from the Hicksville Public School District.

Van Allen said this week that any answer to his letter sent to any other newspaper would be "hearsay as far as the Times is concerned and would serve to keep Abt and the School Board neatly impaled on a legal hook from which they could hardly wriggle free by a smart-alecky tactic like that."

Van Allen's questions and Abt's answers, substantially as given at the Board meeting last week, are:

Q1 What is the average size (in number of pupils) of recitation classes at Hicksville Senior High School?
A 29 to 30.

Q2 How many students now attend the high school?
A 2,950.

Q2a How many are there in each of the staggered sessions?
A 1,861 in the first session; 1,054 in the second session.

Q3 How many teachers teach at the first of the

staggered sessions and how many teach at the second of the staggered sessions? Do any teach both sessions?
A First session, 102; second session, 64; 9 teachers overlap (teach both sessions).

Q4a. How many recitation classrooms are there in the senior high school?
b. How many classrooms of other types are there?
A The answers are contained in the McCormick Reprt. (According to the McCormick Report, Hicksville High School has 31 general-use classrooms and 46 special-use classrooms and rooms of other types.)

Q5. If 24 or 22 classrooms are added onto the senior high school, will all the high school students go on full, regular sessions?
A A full single session would be possible.

Q6 If a 22- or 24-classroom addition is built at the senior high school, how many teachers in all will be needed at the high school?
A The number of teachers could be reduced "today" if the extra rooms were built.

Q7 If the addition is built, how many additional administrators, supervisors, clerks, custodians, or other non-teaching personnel will be needed?
A No additional administrative help. One assistant administrator would have to be added at the high school because you have to have so many administrators for so many pupils. Two more custodians would also be needed.

Abt's figures indicate that there is one teacher for each 17.5 pupils (approximately) in attendance at the high school.

DEPUTY COUNTY ATTORNEY CHARLES BELOUS explains certain contracts and documents to Minna Robins and Hal Singer, business law students from Plainview High School. In addition to hearing about the County Attorney's office, the youngsters visited the courts and learned about our jury system from Commissioner of Jurors Joseph Dowler.

MICHAEL PETITO has accepted the Honorary Chairmanship of the Plainview Fund Drive for the Association for the Help of Retarded Children (AHRC). He is pictured above with Mrs. William De Mayo, Fund Drive Chairman for the Plainview Auxiliary, looking over the display poster. "We really have to go all out this year to raise money for the AHRC Education Center in Brookville and the Vocational Training Center in Hempstead," Mr. Petito said, "because there are waiting lists at AHRC for all of its services." "three out of every hundred children born are retarded," continued Mr. Petito "and AHRC is the only voluntary community resource working with retardation."

We Endorse.....

The glimmer of hope for a two party system in the Township of Oyster Bay is sadly slipping away. The election campaign in the Township grinds to a slow stop after not gaining much speed and it appears to us that the GOP incumbents will be re-elected and what is more, they seem to have justified their case that they should be.

Where the Demas went wrong is in the selection of candidates. Practically none of them is known in the Township and their experience seems lacking. The total reliance on a dirt campaign may have hurt the GOP but it didn't help the Democrats who should have been busy proving their qualifications to hold office.

We endorse Thomas Pynchon for Supervisor, William B. O'Keefe for Town Clerk, Frank J. Hynes for Receiver of Taxes, and Norman T. Wolf for Superintendent of Highways. All of these men are doing a good job in office and should be retained.

For the Town Board we select A. Carl Grunewald and Edmund Ooker to be retained with a cross over to Fred Sutter who has campaigned hard as a Democrat for the office, and might very well prove to do a better job than the incumbent if elected.

For Fourth District Court Judge Benjamin Zipper is the right candidate to fill the position and Elizabeth Bass Golding and William J. Dempsey appear to be the more qualified for Family Court Judge.

We can find nothing of major importance the matter with the seven amendments and believe they should be approved. Amendment Four which deals with Town governments would have very little bearing on the unincorporated areas of Oyster Bay served by this newspaper.

Hate That Alarm But Don't Fear It

(Q) "I have been told that the luminous dials on clocks may have a deleterious effect on one's health. Your opinion will be appreciated." Mrs. S.K.

(A) The amount of radiation from the point on these dials is extremely small and thus the possibility of an excess of radiation from this source is extremely small. With average use and exposure you should have no worry.

(Q) "I am 41 years old and in good health. However, for the past 2 months or so, whenever I clear my nasal passages I find some blood. Please explain." Mr. E.H.

(A) At your age, almost likely cause of bleeding is either an allergy or excess dryness. An examination of your nose will be necessary to check for possible growths. The treatment depends upon what cause is found. It is likely not to be serious.

(Q) "Will it help for someone with emphysema to move to sea level?" Mrs. N.L.H.

(A) If he is living at a high altitude now where the air is thin, it could help him to seek a lower altitude. He should try it first for awhile, such as on a vacation, before making the move permanent.

D'Auria Sponsors Safety Contest

Michael M. D'Auria, President of the Plain-

view Chamber of Commerce, has announced that the Plainview organization will sponsor the Plainview Volunteer Fire Department, Inc., as an entry into the National

Fire Safety Contest of the Chamber of Commerce of the United States. President D'Auria explained that a local Chamber of Commerce may sponsor their own Fire Safety

Committee as an entry into this contest, which is held annually, and that the membership of the Chamber and the Board of Directors of the Fire Department have approved of this project.

In making this announcement D'Auria states "We of the Plainview Chamber are proud of the services rendered to our Community by the Plainview Volunteer Fire Dept. Inc. We believe that the activities of this Department deserve our recognition, particularly during the approaching Fire Safety season, and we have therefore decided to enter them in this contest to give them national recognition. It is my belief that the activities of the Fire Department in the Community of Plainview will certainly place them in line for one of the awards that will be given to the winners in various categories. We wish to thank the Board of Directors of the Fire Department, particularly Chairman Anthony C. Ooker and the Fire Department Chief Uley deFellece

**AN INTERESTING THING HAPPENED ON THE WAY TO...
ROOSEVELT RACEWAY**

THE MESSENGER

The richest and best! That's the \$80,000-added Messenger Stakes which will be raced for the eighth time at Roosevelt Raceway this Saturday, Nov. 2. Since its inception in 1956, the Messenger, named in honor of

the Founding Father of harness racing in the United States, has increased in importance and worth. The first Messenger had a total value of \$71,500 and each year has seen this go up until last year's race had \$169,430.93 in the kitty.

But the value of the Messenger, one leg of harness racing's Triple Pacing Crown, is not the only thing that makes the race great. The mile pace has produced some of the most thrilling contests seen at Roosevelt in addition to some upsets.

The greatest upset occurred last year when Thor Hanover, a 71-1 outsider, came on in the stretch to nip the 3-10 favored Adora's Dream and pick up the \$84,715.47 first place money. Only three lengths separated Thor Hanover (timed in 2:01 1/5, third fastest Messenger) and the eighth-place Surprise News (2:01 4/5). The few in the crowd who thought Thor had a chance were overjoyed when the tote board flashed the payoffs—\$144, \$27.10, \$7.80.

The inaugural Messenger was held on June 30, 1956, with Billy Haughton's filly, Belle Acton, — beating stabledmate Bachelor Hanover by a half-length to earn the first place money of \$35,750. It is interesting to note that Adora's Dream's second place finish in 1962 was worth more, (\$42,357.73) than Belle Acton's 1956 victory.

The fabulous Adios Butler set the race record (2:00 1/5) in capturing the 1959 edition while on his way to the Triple Crown.

Keep your mind on the road, not on your troubles. Don't worry about business, the family, or what may happen tomorrow. Keep alert to what's happening now. Good driving's a full-time job requiring an alert mind and body. If you must worry, do it in your leisure time.

WHEN YOU DRIVE...

Think now, complain later. "Med" at someone or something? Turn it off when you turn your ignition on. Anger, no matter who or what it's directed at, can color your whole driving attitude, making you a menace to other motorists on the road.

THINK

Think wise... think cagey... think careful, cautious, cheerful, courteous driving. Good driving is the responsibility of every motorist. A cheerful attitude toward others on the road will get you to your destination more relaxed than if you find fault with every driver along the way. Think careful driving when you're behind the wheel. And, when you think of protection against the hazards of other not-so-careful drivers, think of State Farm, the careful driver's insurance company.

No need to go over the sordid details of Oyster Bay Supervisor Pynchon's infamous road oil purchasing scandal. The Long Island and New York City papers have been full of it these past few months. The headlines reproduced above serve merely as unpleasant reminders of the sorry state of our town government. But more important, they are reminders that the solution lies not just in the court of law should legal violations be found, but in the court of public opinion—at the polls. SPORTS

by HOWARD FINNEGAN

Hicksville, hopeful that it still can redeem this season against undefeated Plainedge on November 9, romped past Syosset, 34-20, Saturday.

The Braves just did not have a pass defense and Bruce Damm riddled it with 7 completions in 11 tries. Bruce Cerone, Vince Hoosack and Steve Schuster were on the receiving end which rang up a total of 194 yards.

At that it wasn't as easy as it appeared. A Cerone reception had gotten one tally in the first period and a one yard plunge by Charlie Triolo another. Hoosack took a pass for one extra point but the Braves were waiting for Larry Welsko on the second. They smacked him down just as promptly as Clarke did in the 14-13 loss.

It did not seem important until Syosset raced 71-yards in four plays through the Comet line to make it 7-7.

Late in the second period the visitors rushed 63 yards to the Hicksville one. On three rush attempts the Braves were held. Joe Sarno nailing the last attempt for a 3-yard reverse.

The Braves were deflated. Hoosack took a picture 64 yard pass from Damm and it was 20-7. The immediate kickoff was fumbled on the Syosset 39 and Hicksville had Schuster in the endzone on the last play of the half.

With a 27-7 lead the issue was over. Hicksville recorded five inconsequential extra points in the rout.

Coach Jim Grantham sent his second team in for most of the second half. The team made one stand on the 13 before yielding two fourth quarter touchdowns which did not phase the Hicksville crowd of 1,100.

CLEATMARKS — Charlie Trio was the work-horse again. He gained 59 yards in 11 attempts. Welsko netted 84 for 8 attempts. Frank Casalino had 12 for 2. Dennis Yatras ran from the qb position twice and gained 26. John Sarafield advanced 6 yards. —Hicksville gave up 147 yards on the ground but the bad omen was the 8 Syosset pass completions in 10 throws for 149 yards. Clarke made 3 out of 4, all decisive.

Hicksville travels to Plainview Saturday. The Comets want to vault over the Gulls for second place. Plainview now holds it by virtue of 2 wins a loss and a tie. The hosts and coach Bill McNamara are still smarting from the 13-12 Hicksville win last season and would like to reach a peak Saturday. Hicksville should win provided it does not do the obvious. And the Comets must get uniform effort when they are inside the opponents 10 yard line. The penalties incurred and the indifference registered by the Comets not involved in projected scoring plays in the area have been more than damaging this season. And it has been noticed. A team effort all the way is need for

the scheme behind the smokescreen!

To citify our suburbs!!!

**Right from the Democrat office-holders,
here is the scheme behind the smoke screen:**

January 1963—Edward Morris, Democrat Leader of the Town and Dr. Charles Stonier, County Democrat Planning Consultant and a County administration spokesman, issued a preliminary double-loop transit proposal for mid-island communities of the Town, saying "The advantages of the double-loop system should be evident, although its ultimate impact on growth in Nassau is likely to be similar to the impact of the subway system in Queens. In other words, the building of high rise apartments would be one consequence"

February 1963—Democrat County Executive Nicholas announced a plan to introduce a bill in the current session of the Legislature that would give the Democrat controlled County approval of the construction of apartment houses in the County.
(News Release County Executive—2/23/63)

May 1963—Dr. Charles Stonier, Democrat Planning Consultant and a County administration spokesman, advocating the need for apartment house development on a County wide basis, said in a speech at a meeting of the Bethpage Democrat Club, that these apartment houses must not be allowed to over-burden any one area. He called local government a hindrance.
(Mid Island Times—5/30/63)

(page 2 of L.I. Transit Double Loop Proposal)

July, 1963—Dr. Stonier in a letter to certain County residents said "Racism-mindedness will thus be made to obstruct an overall improvement of apartment development in each community."
(Letter to residents—7/63)

February 1963—Town Democrat Leader Edward Morris in a letter to a north shore weekly newspaper said, "Herein, however, can be found an important indirect advantage of the double loop project. It will permit an orderly development of multiple dwellings along the central tier of Long Island without encroaching upon the basic character of North and South communities. Since it is not likely that it is either likely or desirable to prevent vertical growth within the County, I suggest that it be properly controlled".
(Locust Valley Leader—2/14/63)

What can you expect, if the Democrats should get any stronger?

- Skyscraper apartment house developments in all parts of Oyster Bay ...
- An elevated train blighting the residential areas in our mid-island communities.
- A massive road building program thru residential north shore communities. uprooting trees and destroying existing parklike areas.
