Local Poll For Cigarette Warning

Cigarette packages should carry a health warning, and even an increase in the state income tax would be preferable to a state-wide sales tax according to the February balloting in the Meadow Brook National Bank Community Opinion Poll here in Hicksville. In announcing the results, Jirah D. Cole, manager of the Bank's Hicksville Office added that these opinions were typical of those throughout the area polled by the Bank.

In favor of labeling cigarette packages were 73.2 percent while 23.2 percent opposed it and 3.6 percent were undecided. To 75.8 percent an increase in the state income tax would be preferable to a sales tax if the state needs additional revenues, but 23.2 percent did support the sales tax and 1.0 percent were undecided.

In one of the most "controversial" questions ever asked by the Poll, the matter of whether women dress to please men or other women was generally left without a definite conclusion. Locally in Hicksville, 37.8 percent believe women dress for men,

55.4 percent believe they dress for women and 6.8 percent apparently can't even guess which is true.

In the final question of the month, 70.6 percent indicated they would like Inauguration Day, every four years, to be a national holiday, but 26.3 percent opposed the idea and 3.1 percent were undecided.

THINKING IT OVER

By Robert L. Morgan

We have noted that traffic deaths in the year 1964 have continued to increase in spite of all types of legislation and attempts at persuasion on the part of safety people to change the upward trend.

Too often the cause of safety is a political one in which politicians know that anything passed in the name of safety has got to go and will never receive the opposition of any other candidates.

This perhaps is one contributing reason to the spiraling casualty quotas on the highways. There has been too much grand stand playing and not enough research. Year after year there are cru-

sades against the speeder and the drunken driver and the layman goes along with them as though they are Gospel. But some basic facts are overlooked about the slow driver who causes accidents; the poor construction of highways which merge with one another so that cars collide; the lack of safety engineering on cars which could eliminate most accidents before they start and many more items which are overlooked in political superficial observations.

The answer must lie in the non-political safety expert who has been too timid to speak out.

But let's give him a chance in the future.

Alcoholism— A Serious Problem

By C.A. Dean, M.D.

MEDITORIAL: The problem of alcoholism is tremendous as many of us realize. Why a respectable, responsible person can allow alcohol to become the most important thing in his life is difficult to understand.

Alcoholism is sneaky in that it takes almost 20 years to develop to the serious stage. The victim continues to rationalize all through the earlier stages that there is no problem and that he can stop anytime he wishes to. Incidentally, there are more female than male alcoholics in this country.

Some letters I receive from the spouses of victims seem particularly hopeless because the victim has been offered help (from Alcoholics Anonymous, religious adviser, family doctor) and has refused it. In the serious stage this is extremely bad because respect has been lost both from friends as well as the family. Very often a good job is in jeopardy or is lost. What do you do with a person who is los-

ing everything in life and who says no help is needed or wanted? If a person won't help himself, what can others do?

The answer is never give up hope. This person can be saved and most often when he is rescued from the depths of alcoholism, he is stronger than the average afterwards. No one realizes what hell alcoholism can be more than one who has personally experienced it.

Look at the victim as someone who, deep down inside, wants help, even though he doesn't seem to want to accept it on the surface.

(Q) "In giving a direct (patient to patient) transfusion, is there any danger of the donor contracting the disease of the patient? For instance, could a blockage develop in the patient's veins and his blood back up?"

(A) No. The hook-up is such that the blood flows in one direction only.

Do you have a medical question? Write to Dr. C.A. Dean in care of this newspaper.

Trumpets Of Retreat In The Senate

By Russell Kirk

Senator Fulbright, once the chief champion of "foreign aid" bill, refuses to see this year's aid bill through the Senate. For one thing, he seems abruptly to have become an isolationist, advocating escape from "commitment" in Southeast Asia and Africa.

Senators Church and McGovern, like Morse and Gruening before them, advocate withdrawal of American forces from South Vietnam. The "negotiated settlement" which they blandly recommend for Southeast Asia would, in fact, be a surrender of the whole region to the Communists. (If North Vietnam wanted any genuine "negotiated settlement" and "cease-fire", Ho Chi Minh could have had that, without asking, a dozen years ago.)

Senator Symington demands a "major reappraisal" of foreign policy, especially of foreign aid — and recommends trade with the Communist powers. Many suspect that he speaks, in effect, for the Johnson Administration.

Now this commentator, for years past, has severely criticized

the foreign-aid program because of its waste, and because it never had been clearly related to American diplomatic and military policy. But to abandon aid, in this hour of increasing Communist pressure, to regions like South Vietnam and the Congo, would resemble the fatuous policies advocated by those who, a generation ago, insisted that "We can do business with Hitler".

What friends remain to America in the African and Asiatic states are alarmed and embittered by this failure of nerve which President and Congress threatened to indulge. President Tsiranana of Malagasy (Madagascar) recently declared at a Paris conference that America has become stingy in its help to what stable governments remain in the Dark Continent; all Africa may go the way that China went, for lack of help soon enough — the way that South Vietnam is drifting now. Only those countries which insult and defy the United States, he remarked, seem to be rewarded by American economic and military assistance.

The Communists, terrorists, and cannibals who make up the "rebel army" of the Congo are planning a concerted assault on the pro-Western government of President Kasavubu and Premier Tshombe, next month. Through Egypt, Algeria, Sudan, Brazzaville Congo, Uganda, and Tananyigka, all beneficiaries of American aid, Russia and China pour in weapon to help the rebels. But the United States gives Tshombe only minimum aid, and that hesitantly. Senator Fulbright and his circle would like to do even less. When, at last foreign aid is desperately needed, they become strangely parsimonious.

It is good to hear one courageous Democratic voice — that of Senator Lausche. "Let those who propose such agreements name one agreement which has been kept by the Communists," he says. "They ask us to pull out. Where to? Back to Hawaii and the West Coast? How far back do we have to go to satisfy the greed of the Communists?" At present, his counsels, like those of Demosthenes to the Athenians, fall on deaf Senatorial ears.

PAID ADV.

DON'T BUY A FIRE ALARM (READ TWICE)

UNLESS YOU ANALYZE THESE IMPORTANT THINGS FIRST - - - -

1. Do you feel you have a 4 legged fire alarm? Man's best friend sleeps while he sleeps and unless you train your dog to bark if he sees a fire he will usually cower-a dog is afraid of fire-he's smarter than you. You don't seem a bit afraid to us.

2. Did the company you intend doing business with have a fire in a house with everyone asleep to prove their system works when you really need it. After all, do you want your family to be guinea pigs for some new company?

3. Is the company established a good while (10 years or more)? The mortality rate of fire alarm companies is almost 100% because it's a very hard product to get people to buy. Everyone says it's a good thing, but they wait-and wait-and wait-and wait-and wait.

4. Does the price you're paying include service-permanently? Yes, permanently. Even the best company selling other products only has to guarantee their products for a few years at most - a fire alarm is so different. You may not need it until 1984 - then some night - need it more than you ever needed anything. And it's not like a television set. It's like a parachute - you may only need it once but it has to work the first time. You can call up and have a television fixed, only losing the use for a day or so, and when the man comes to fix it he just opens the back and goes to work. What if your fire alarm breaks? It's in the ceiling - it can take an expert all day! If the company or man you bought it from is out of business, you may have to have a new one put in - 2 people in your area did this year. A fire alarm is hard to pay for once.

5. Is the system as close to perfect as engineering of today can offer? Watch out here- you are no expert and your uneducated opinion may prove wrong 16 years later.

6. Is the company listed with Underwriters Laboratories? This doesn't mean you can't get a good product from a company that isn't, but why take the chance?

7. Have hundreds of people in your town bought from the company this year? No? Why not? (If they say yes, check - call from their list of installed jobs, spot checking).

8. Are you buying the salesman? You better hope not. It's the peace of mind and safety you should be after for you and your loved ones. The salesman is going to pick up the check and forget you- you'll see. Call back almost any salesman you

bought something from 5 years ago. He won't remember you and you probably won't remember him either.

9. Are you looking for value, or safety? You can have both but again - look out - for less money than you should pay you are losing one. Cheap is cheap, except in the long run.

10. Is the company making false claims or intentionally misleading you in any way? No? Are you absolutely sure? If they'll mislead you on one thing, why not on many? Everything? Don't you want the real value of a fire alarm (when there's no fire)? Peace of mind? Has this made sense so far? If not, reread. You were "scamming." Let's continue.

SAVE FOR FUTURE REFERENCE

11. Consider this the most important decision you ever made, it might be - - - true? One of your neighbors on Edward Lane bought a fire alarm from us last April. He had his fire January 5. His boy was home alone asleep - the alarm alerted him and he got out of the burning house with ample time to spare. It was just one of 3 fires that took place in a home protected by a Life Saver Fire Alarm in your area this year alone. Our alarm proved to be an important decision in these homes almost immediately. This happened in Baldwin Harbor on Jeffrey Street within 2 weeks of installation and in Franklin Square and in Plainview - all this year! Oh yes, in Cedarhurst too. (Call us if you want proof.)

12. Are you waiting because you "want to pay cash"?-this is the biggest fib you ever told yourself. Isn't it true you'd never be without fire insurance? Not even for 2 weeks? (It cost the same price as a fire alarm but you have to pay every 3 years not just once). If you wouldn't be without fire insurance, how can you be without a fire alarm? It protects the only thing in the home that the fire insurance doesn't protect and the only thing in the house that's irreplaceable - Human Life. And to collect fire insurance you have to get out. Six bucks and change a month for 3 years won't kill you. Neither will the Down Payment.

13. There is no 13. It's unlucky

14. Are you waiting till you find a reliable company? If you don't use us, we'll feel sorry for you. So when you need us, we'll come and fix it - at a charge that's fair. Two people had us "fix" their system - we put in ours - at full price - Names given upon request.

15. Are you in the process of "checking"? What are you checking? Are you checking? Did you check us? Why Not? (How long have you been checking?) Stop "checking" - write a check!

16. Are you (usually the husband) not sure yet they're effective? Fire Commissioner Cavanagh said and we quote, "almost all lives could have been saved in a recent survey on fire deaths in the city of New York by dependable systems of warning." Well? Nassau Fire Marshall George Clough said, "The delayed discoveries of fires are the primary reason for the large loss in most fires. Fire alarm systems sold by reputable companies are invaluable in guarding against such

fires." The city of Quincy, Massachusetts passed a law making it mandatory for new homes to have fire alarms way back in '58 - "Check" with the Quincy Fire Department on the amazing record since the law was passed. Philadelphia just passed the same law-the 6th largest city in the United States. Do you think all the fire experts in the United States are lying?

17. If you knew you were going to have a night fire (the real killer fire)- What would you do? Check soon, and get the protection, that's what! You just don't believe it could be your house next. (Nobody does.) There are almost 1,000,000 home fires every year. None of these people thought they would have their fire. For many it was their first and last fire. Isn't the killer in fire, "defective planning?"

18. Are you wondering about the odds? (Maybe it's worth the gamble.) Fire is the #1 accidental killer in the home. Fire is the #2 accidental killer in the country. Fire kills more children than any single disease! For the price of an alarm is this gamble worth it?

19. Are you looking for 100% safety? Good but "Meanwhile" get the protection while you're looking for perfection. We can always add anything "new and improved." (We offer a free system to anyone who can improve our system-gladly.)

20. The price stopping you? To get our low, low estimate for your home, call IV 9-2537 - You can dial 2 words on the telephone dial to get us. "IT WAKES" (a fire alarm's sole and only purpose). So be real brave and allow us to chat with you for a few minutes. Our literature used to say Fire is deadly, it kills - Dial "IT KILLS" on your telephone dial. But believe it or not, people called that a "scare tactic." So we changed it to "IT WAKES". Better? For those of you who have our alarm - remember - throw the test switch once a month, keep giving those Fire Drills to the kids and call us anytime for Free Service - even if you bought it in 1954. Battery changes are being made in your area now so expect our yearly call to remind you. Help your friends have the peace of mind you now have by calling us and giving us their name and phone number. They may intend to call but not get around to it. It's our job to stay with it until they get the protection too. Your fire alarm won't do them any good if they have a fire some night when they're all asleep.

21. One last thing - There's a special discount price if you buy now in your area because of the volume. If you call too late don't say we didn't warn you, Offer subject to end without notice. Probably a few more days - at the most a week or two - depending on you. Brooklyn, Westchester, Suffolk and South Jersey installations are being done, so have your friends call on us. Tune in to 82.7 F.M. to hear our radio advertising from 9 A.M. thru 11 P.M. every day, all day, 6 days a week.

Dutch La. Gets Cinderella

The February 16 meeting of the Dutch Lane P.T.A. was a meeting the sixth grade students would not quickly forget. They had been busy for weeks. How were the mice to be changed to horses? And the pumpkin to a coach? Who was to be the Cendrillon? Dutch Lane was buzzing. Mrs. Haydus French students were going to perform Cinderella, and in French!

Mrs. Haydu saw this as a stimulating concomitant of the district philosophy that a foreign language is taught with the purpose of placing it at the command of the student; a tool that could be used under all circumstances and with the greatest possibility of integration into the curriculum. The selves, designed and built their sets and devised their own costumes. The school reacted with drawings and stories and letters.

The French students were delighted after the performance to receive hundreds of notes from

their classmates expressing their pleasure at seeing the play. Perhaps the two letters below, from the second grade best express the sentiments of the school and the sixth grade artists.

"Dear French students and Mrs. Haydu Thank you for the beautiful show. Even though I did not understand all the words I kind of got the idea. Now I know what the broom was for."

and - Dear Mme. Haydu and class. Thank you for letting us see your play. I enjoyed (sic) it very much. I liked it in French better than English. I liked the Prince the best. I was very sorry it had to end."

Hicksville School Board

Dear Sirs:

At a time when responsible men everywhere are concerning themselves with the urgent problems confronting us today, and national attention is focusing on better education for all, the question might well be asked, "What are the responsible trustees of Hicksville doing?"

Our School Board meetings have been reduced to the status of a three-ring circus, and unfortunately, they are attracting undesirable elements from far and wide outside our District.

In view of the continuing book controversy and the apparent inability of the School Board to control its meetings, it would seem advisable that a resolution be passed banning the gifting of books to the District until a proper, workable textbook evaluation policy has been established. If necessary, outside help in the way of consultation regarding the formulation of such a policy might be sought.

In any event, we strongly urge that the board consider and pass a resolution that will prohibit the acceptance of any books whatsoever, until such time as District policy on this matter is firmly established.

Respectfully,
Hicksville Parents and Residents
Executive Board
for Better Education

Dear Editor: Please print this letter in your newspaper

Mr. R. Jennett, Principal
Lee Ave. School, Hicksville, N.Y.
Dear Mr. Jennett:

As the parents of a ten year old child attending the Lee Ave. School, we are proud to salute the efforts and achievements of the fifth grade Tract I Reading, and Tract I Civ. Ed. class. Both are taught by Mr. Ruth Sidman.

The classe have recently completed an extensive study combining American History and the role of the Congress and the Presidency, both past and present. Since much of the amassed material was not to be found in their textbooks, the children turned to research to seek the needed information. Th joint efforts by all students has culminated in a booklet entitled "The Growth of Democracy".

At a time when concerned educators and parents are asking just what are our schools doing to insure that our democratic way of life will continue, it is indeed gratifying to learn, first hand that efforts are being made.

The paragraphs concerning the Communist Challenge and Civic Neglect assure that these children are, at an early age, developing an insight into the problems that are sure to become a part of their adult world. The portion set aside for individual expression leaves no doubt that these children know that they are lucky to be living in the United States of America.

Recently, the Hicksville Board of Education adopted a merit-system as a means of insuring that the achievements of superior teachers would not go unrecognized. At this time we would like to recommend that a notation be placed on Mrs. Sidman's record, commending her for her achievement in promoting the 'Image of Democracy'.

We also urge that a copy of the booklet be separated and displayed in the window of the administration Building o Broadway. We would enjoy viewing this very fine are sure that many residents effort by our fifth grade students.
Sincerely yours,
Mr. and Mrs. Anthony Infantino

Saves fuel bills for a year...

PROVES OIL HEAT COSTS LESS THAN GAS HEAT!

"I know oil heat is more economical and I argued this out with one of my neighbors who lives in exactly the same size and type house that I do, only hers is heated with gas.

"For a year's time we saved our fuel bills, depositing them each month in a cigar box at the home of a third neighbor, our 'umpire'. All bills for heat, hot water, and cooking were accounted for.

"At the end of the year we had a final tally at our coffee klatch, and our 'umpire' found that my friend's bills were \$352. while mine were only \$271. I saved \$81. by using oil heat. No doubt about it—oil is more economical!"

SPORTS

by HOWARD FINNEGAN

More than twenty members of the Hicksville High Lacrosse team made the journey to West Point for the annual clinic concerned with the fastest growing scholastic sport in America.

What the Orange and Black stickmen gleaned from the day's outing will be applied on the field when Coach Bill Meyer's team starts its campaign at New Hyde Park on March 22.

The schedule released to the Mid Island Times shows two very attractive Saturday morning home dates. Garden City and Manhasset for a quarter century both outstanding schools having the sport, will be on the Hicksville turf. Their appearances will present a fine opportunity for par-the sport.

The demands will be tough but it looks to be a spring of promise for the Lacrosse club.

Among the returning veterans is 1964 All County Defense man Vince Hoosack. Ready also to pick up the dowfield attack on the Hicksville net is Bill Miltenberg.

In that net will be Goalie Joe Sarno who won all Division laurels for his '64 work. He sprang some 256 shots on goal to gain the honor.

Going after the opposition will be Tom Carra boasting 23 goals on the last campaign and hopeful of producing more in '65.

Other veterans are Dennis Yat-

ras and Buddy Tomani at mid-field. Larry Welsko will be in the crease with Pat Dunne on the attack. Niel Ziegler is a veteran Midfield man.

There is not talk of championships. The boom is in the interest for the sport. Ad it is growing at a rapid rate.

The Hicksville Board of Education has voted that coaches of scholastic teams shall be paid for their many hours of work after school. This brings Hicksville in line with the other 60 schools in Nassau County which have had this consideration for many years. The pay scale is on the lower ladder compared to the other schools but is of value in that it recognizes the extended efforts.

The taxpayers will be happy to know that it will not cost them an increase. A formula was worked out wherein the physical education staff will assume more classroom and duty periods during the teaching day. The resulting saving in the number of staff will offset the cost of coaching renumberations.

In forty one years Hicksville has been engaged in just six basketball playoff games. Aside from the sterling upset of number one ranked Malverne, 66-74, in the opening round of 1961 the Comets have fared badly.

The jinx was evident again as Westbury won 62-38 in this year's tourney opener. It closed the books on the season.

TEMPORARY SPLINT FOR A DOG'S LEG

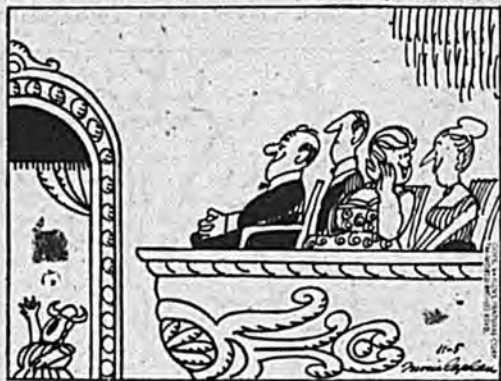

IF A DOG'S LEG SEEMS BROKEN FROM AN ACCIDENT, SEE TO COMPARE IT WITH THE MATCHING OPPOSITE LEG. IF IT'S BROKEN, AND YOU CAN'T KEEP IT QUIET UNTIL A VETERINARIAN CAN TREAT HIM, A SPLINT WILL PREVENT FURTHER HARM.

First, put a muzzle bandage on the dog so he can't bite you. Tie his two legs together. Also, then wrap cotton (or cloth) around the leg (A) as a pad for splint. Then cut 2 thin splines of strong wood. Place one on the side (B) and the other in front of hock (C). Over-wrap splint with gauze (or cloth) bandage. Carry dog to the veterinarian.

a Liberal Arts curriculum enriched and enlivened via an uncommonly satisfying student-teacher rapport

"A teacher affects eternity; he can never tell where his influence stops." In and out of the classroom, the Adelphi-Suffolk faculty encourages free and friendly interchange of ideas. Person-to-person and mind-to-mind with their students, Adelphi-Suffolk teachers honor the Socratic ideal; aim at the development of spiritual values and moral responsibility in personal, civic and professional living. Exhilaration and vigor characterize the teacher-student bond—in a pattern of mutual, constructive thinking that relates itself naturally and agreeably to the individual's need. A great experience.

This guardian lion is typical of the statuary on the ASC 23-acre campus—the former estate of the late Wm. K. Vanderbilt.

THE CURRICULUM OF THE COLLEGE consists of four divisions: I, Arts; II, Humanities; III, Natural Sciences and Mathematics; IV, Social Sciences.

Every student must take a certain number of courses in each of the four divisions, for sound instruction in the liberal arts. No later than the end of the sophomore year, he may choose a concentration in either the humanities, natural sciences and mathematics, or social sciences.

THE TEACHER EDUCATION PROGRAM at Adelphi Suffolk College qualifies and certifies both elementary and secondary school teachers. All students must complete a basic liberal arts course of study.

Quality students can reap rich personal rewards in a full time 4 year program at this small, private, liberal arts college. Why not write or call now for information and catalog?

John won the scholarship after trying for first place in a competitive examination.

Who buys more Savings Bonds?

As statistical-minded as we are today, the Treasury Department can't answer that question.

The Treasury does know that U. S. Savings Bonds are owned by tens of millions of families. So it might be safe to assume that people in every walk of life belong to this "savings club."

This is a happy fact for the United States, and for the free peoples of the earth. For Savings Bond dollars are playing an important role today in the making of history.

This \$46 billion reserve in the government's hands is working vigorously to-

day to help our country in the major struggle to defend freedom.

At the same time, Savings Bonds help build your personal purchasing power by paying good interest and providing a method of saving that's unconditionally safe and readily cashable. And the higher your purchasing power, the better it speaks for our system.

It all adds up to one of the best ways you can save money and at the same time help your country. Start buying Bonds next payday—through the Payroll Savings Plan where you work, or from any bank—and see if you don't feel pretty good about it.

Quick facts about U. S. Savings Bonds

- You get \$4 for every \$3 at maturity
- Your Bonds are replaced free if lost, stolen or destroyed
- You can get your money anytime
- You can save automatically on Payroll Savings

Letters

To the Editor:

On Friday evening, February 26 the school board announced that it had set aside \$1200 in the new budget for a public relations job. By next year I'll bet it will be increased to \$5000.

I am writing this letter because I don't know why the board members expect the taxpayers to pay a person to make them look better.

The board can send announcements to four Long Island papers (two are published here in Hicksville and it paid \$700 for the calendars which were sent to every home; it lists the board meeting nights. It puts a notice in the public library and the PTA has been helping out by calling people and telling them to show

at 8:30 p.m. at the Mid - Island Bowl, Hicksville. Donation \$3.50 per couple, includes 3 games, Smorgasbord Buffet. (Plenty of food.)

up. That seems to me to be a lot of advertising. What more do we need?

I believe the school board should develop some manners and be fair to the people who do show up at board meetings. Perhaps more people would show up. But don't expect over-taxed people to pay for things that do not help our children's education.

Respectfully yours,
Vito J. Clinco, Jr.

If You Please

By Peter Pettibone

A letter from Hawai: One of the most successful restaurateurs in the world is Mr. Carl Hoppl. I say "mr," because he is "King" when it comes to running fine restaurants. He is due in one of his Westbury, Baldwin, Valley Stream and minute from his recent trek to Hawai. Every minute of his life is devoted to his family and their restaurants. Even on his Hawaiian vacation he had his eyes open in behalf of his customers. Whether or not 50th States public relations departments like it or not here's Hoppl's letter from Hawai to this department: "Dear Peter Pettibone: Our trip to Honolulu was fine and so was the service on the plane. Mrs. Hoppl and I checked into one of the better hotels. As you perhaps suspect I'm always looking for something that I could use in behalf of my customers. I'm sorry to say there is something I could learn to improve our quality and service. The food here is the world's worst, prices are very high which they explain has to be imported from the 'Mainland.' A simple breakfast for two, ala lunchwagon style is \$8.00. Since we can't eat the food in our hotel, one of the best, we go to other places, but it's all the same 'N-G.' They know what to charge, meaning high, but don't know how to cook and serve it. You can tell your readers who wish to go to Hawai that it is beautiful, the people are charming and friendly, but the food is the world's worst. Best regards to you and all Long Islanders who like good food and service. Mr. and Mrs. Carl Hoppl." Reminds us of Carl Hoppl's jesting remark to me: "Man may

not be able to live on bread alone, but some folks deem to get by pretty well on crust...First sign of summer: "My wife's a wonder," bragged one man to another at Villa Pierres relaxing bar. "One winter she knitted me socks out of an old bathing suit, and now she's knitting a bathing suit for herself out of one of my old socks."...Eddie Brava to my favorite chemist, asked, "What's yellow and goes click-click?" The answer is, "A ballpoint-banana." ... To Bayvilles top idiot, P.W. I hear you spent two weeks in a revolving door looking for the doorknob. Even the Oyster Bay-to-Rye-bridge won't help you." The trouble with a budget is that it won't budge...The trouble with too many people today is that they want to eat their cake and have yours too. The trouble with trouble is it always starts out just like fun...Overheard at Charley O'Hara's Carle Place: "If I had my life to live over I'd make the same mistakes - only I'd start sooner." "Wait'll O'Harra tells you about his experiences as an engineer on the L.I.R.R. It's really so interesting you might miss your train Doc Louis Aressta, Port Washington says, "Since you say a herd of cattle, a crowd of people, a pack of wolves, a pride of lions etc., why not a crunch of football players, a pride of Little League fathers, a squirm of babies, a hmmm of doctors, a hunch of horse players? And, of course there is always a threat of Russians." Warning: Girls, little ones, bring bigger slax...If You Please, doll....

Eighteen-year-old Drinda Figgis, of East Northport, follows an example of father, Marine Corps Sgt. William Figgis (center) in joining U.S. Coast Guard. Swearing her into SPAR is CBM William Ledoux, Coast Guard Recruiter. Sporting 8 1/2 rows of ribbons, Sgt. Figgis, who highlighted his 21-year-career in the marines with Drinda's enlistment, is ranking sergeant of the Inspector-Instructor Staff for Marine Corps Training Center in Huntington. Her 6-year-old brother will have choice, in 12 years, of whether it will be Semper Fidelis (Marine) or Semper Paratus (Coast Guard). (Greenleaf News Photos.)
