Arnold Granirer, 37-year-old attorney and president of the Hicksville Democratic Club, died Sunday, September 19, at Nassau Hospital in Mineola after suffering a heart attack a few hours earlier while playing ball with a group of neighbors in Cantiague Park.

He had been campaign manager in the primary election for Stanley Harwood, successful Democratic candidate for the State Assembly from the new 10th District and had planned to manage Harwood's campaign in the general election this fall.

Granirer is survived by his wife, Renee; three children, Keith 8, Karen 7 and Adam 3; his parents, who live in Rockaway, Queens, and a brother, David, a resident of East Meadow.

## THINKING IT OVER

By Robert L. McGee

The Hicksville School Board has gone through a most interesting and enlightening process in the past few weeks. The board has held several public hearings on the proposed changes in the school system. The board has received many suggestions from the community and has been very responsive to them. The board has also held several public hearings on the proposed changes in the school system. The board has received many suggestions from the community and has been very responsive to them.

The method of appointing members to the board is also being discussed. The board has received many suggestions from the community and has been very responsive to them. The board has also held several public hearings on the proposed changes in the school system. The board has received many suggestions from the community and has been very responsive to them.

The only catch in this arrangement is that Hicksville is not a united community. There are a variety of ideas and opinions on school matters. In each election there is a great divergence of opinion. Presently the "in group" in Hicksville is the TEACH organization. But the views of some of its leaders particularly the one

who signed the recent advertisement are far to the left of the thinking of many people in Hicksville. And on school matters this group has always championed more building and larger school budgets, which is the opposite opinion of many other local residents, many of whom respect the needs of a good public school system, but believe that economy and efficiency are more important than new bond issues.

With two vacancies coming up on the board and with constant tip service to the idea of less equity and more people taking part in school affairs, we believe that the school board should declare a special election for the purpose of filling the vacancies. In this way the taxpayers will have the voice in school affairs to which they are entitled.

## Proper Treatment Prevents Permanent Hearing Loss

By C. A. Deam, M. D.

**MEADITOTAL.** Deafness in children is a growing problem. Years ago the majority of cases were due to the direct effects of middle ear infection. Since the discovery of antibiotics, middle ear infections have been better controlled. This incidence of deafness has still remained high. One reason for this is that fluid that accumulates in the middle ear following various disorders.

Fluid in the middle ear (serous otitis) usually results from blockage of the tube which leads from the ear to the back of the throat. This is the usual path for evacuation of fluid from the middle ear. If a block of the tube occurs, pressure in the middle ear decreases, thus causing the ear drum to be pushed in. Middle drum damage occurs and some fluid pours

out into the middle ear. It is this extra fluid which interferes with the proper transmission of sound.

Some of the common causes of this condition are allergies, nasal infection, nasal irritation and crusting, and any disorder which acts as a barrier to the normal drainage. To relieve the diminished hearing, the accumulated fluid and the tubal block must be removed.

This may require cutting through the ear drum to evacuate the fluid through the external ear canal. Treating associated allergies and infections is also necessary. Recognizing this type of hearing loss is important because proper treatment can prevent any permanent loss.

## Do You Need A Literary Detective?

by Russell E. Kist

Sometimes I wish I were a detective - of the literary variety; one of the breed of all possible occupations. I may even write a novel of suspense about this trade.

A master of the craft has set up shop, full-time, in Los Angeles - Mr. Manuel Weisman. "Finkler-Sokolov," 7827 Beverly Blvd. He is a versatile being: he founded an opera company, and is perhaps the chief American authority on Gilbert and Sullivan. (His collection of memorabilia of these artists of the operetta has an honored place in the library of Los Angeles Loyola University.)

Weisman seems able to find nearly anything that people want in the way of rare letters, curios, old films and photographs, forgotten manuscripts, phonographs, recordings, and the like. He has located recordings of the voices of Rudolph Valentino, young Jackie Coogan, Fovese Neghizaglia. He has made a unique collection of antique handkerchiefs. He discovered the original manuscript of a lost play, "The Uplift of Lancelot," by L. Frank Baum (who wrote the "Oz" books.)

Mr. Weisman discovered the first German printed edition of Orenon Doyle's "A Study in Scarlet," an actual photograph of Hissling, the Chinaman, and such folk; a print of the silent film (1914) "Puck" (and "Old of Oz"); a much needed set of copies; and Lord Dunsany's also. Just now he is writing a biography of Pearl White, the heroine of the "Peach of Paradise" stories.

He's a pillar of the Great Dickens Society (devoted to the serious study of Charles Dickens and films of every), and of the Margie Castle (the magazine club, my favorite Hollywood item). Also he's trying to persuade the Federal Government to issue a commemorative stamp in honor of the art of magic and magicians.

On occasion, this connoisseur has been a "Finder-Seeker" himself. Literary research sometimes leads unexpectedly, to a kind of magical realm.

Over three, our investigations will lead us to a remarkable manuscript called "The Book of Hours" - which, after adventures, we found to be something of a real prize with a history. It was like a charming version of one of those mysterious private libraries or libraries - right in the heart of the city.

Appropriate hospitals or institutions in the Victorian world of Miss Collins.

And after we hit the museum which had under a glassy atmosphere - we discovered that the book had been hidden, indeed for centuries one of the most treasured by the British people in Scotland. The reported author of the hunting was a Cavalier soldier who tried to blow Oliver Cromwell's army high when Cromwell slept in the house. The Cavalier had himself walked into a secret chamber in the cellar, and kept a large quantity of gunpowder - but died, perhaps of infection, before he could light the fuse under Cromwell's bed-room.

Most criminals are brave, and most spies dull dogs. But to capture, after labyrinthine pursuit, a long-lost manuscript or a rare novel? There's a detective's glory for you.

# Who buys more Savings Bonds?

As statistical-minded as we are today, the Treasury Department can't answer that question.

The Treasury does know that U.S. Savings Bonds are owned by tens of millions of families. So it might be safe to assume that people in every walk of life belong to this "savings club."

This is a happy fact for the United States, and for the free peoples of the earth. For Savings Bond dollars are playing an important role today in the making of history.

This \$46 billion reserve in the government's hands is working vigorously to

day, to help our country in the major struggle to defend freedom.

At the same time, Savings Bonds help build your personal purchasing power by paying good interest and providing a method of saving that's unconditionally safe and readily cashable. And the higher your purchasing power, the better it speaks for our system.

It all adds up to one of the best ways you can save money and at the same time help your country. Start buying Bonds next payday—through the Payroll Savings Plan where you work, or from any bank—and see if you don't feel pretty good about it.

Quick facts about U.S. Savings Bonds

- You get \$4 for every \$3 at maturity
- Your Bonds are replaced free if lost, stolen or destroyed
- You can get your money anytime
- You can save automatically on Payroll Savings

## Football Jottings

By Milt Pryor

Sunday, September 19th was a really exciting day at Cantiague Park for the Hicksville Football League and for all the many spectators who turned out to see our boys demonstrate their skills. The fields came alive with the colorful costumes and snappy gymnastics of our charming cheerleaders, the fine presentation of the colors by the Charles Wagner American Legion Post 421, and fine teamwork of our Hicksville teams in their first official game of the 1965 season.

Many of our wonderful neighbors helped to get our season off with a bang, and it occurred to us during the ceremonies that if every community in America were to work together so magnanimously with one another for the betterment of each town, what a wonderful place this country would be. Mr. Petito came down to wish our team the very best of success, and Mr. McCabe and Mr. Daly of Cantiague Park Recreation Department did a fine job in readying stands and fields for this first game. They have assured us that by the next game the goal posts, team benches and hash marks will be installed.

Our most sincere appreciation to Commander George Johnson and his fine group from Charles Wagner Post, Sgt. Arthur Hirsch, Sgt. Arthur Schneider, Alfred Martin and Edwin Rardin.

We are sorry to have disappointed over 200 boys by not admitting them into our league. The hard facts of the problem are that it costs the league \$31 per boy for necessary equipment, and we decided before the season began that there would have to be a limit of 150 boys for the first year so that our total outlay would not be so exorbitant that we would have an impossible time trying to make ends meet.

We hope to be able to admit more members in our second season, if we have sufficient help from those in charge of our fund raising events and the town business people whose donations mean so much to the success of the Football League.

We are pleased to add the following names to the list of business and social organizations who believe that our football league will be an asset to our town: Long Island National Bank, Gillison's Knitwear, Emblem Mart, Long's Chinese Restaurant, Rubber Corporation of America, and

last but certainly not least, the Charles Wagner Post No. 421.

The names of the pretty cheerleaders who did such a fine job are Jones, Co-captain Ilene O'Brien, Carla Geroni, Barbara Chapman, Susan Dichtenberg, Kathy Luna, Dawn Michel, Cris Radocca and Ilene Stevenson. Girls, you were just wonderful! Keep up the good work.

Our Mustang squad outlasted the wildcats last Sunday, 2 fine runs, Richard Moeller and Dave McIlwraith, made the difference. Kevin Masters the Mustang quarterback kept his squad moving and had control of the club at all times. Defensive back Keith Masters kept the defense on their toes and that the game ended in a 12 to 0 win for the Mustangs. Our League will also be having night games either on weekend nights or holiday eve games. Requests are coming in very fast for our excursion to Shea Stadium on October 2. The boys are looking forward to the chartered Long Island Rail Road car that will take them there and back. But please note that most of the 500 tickets that we were allotted have been asked for. This Saturday, our Movie Show at Twin North & South will take place.

Next Saturday our four intermural teams will be playing at Cantiague Park from 1:30 until 4:30. The boys do their best with packed stands to spur them onward. So if at all possible come on down.

Next Sunday, our Hicksville Mid Island Chargers will be meeting the boys from North Babylon at Cantiague Park. Our team is undefeated and they plan to remain that way. This is a tribute to our Head Coach Bill Roth, who joined our group this year fresh out of Hofstra, assembled a number of green, untried boys and has molded a great squad. The fancy, tricky plays, and the team's constant alertness both on offensive and defensive plays attests to the great skill and group know how of this fine squad.

Last Sunday, our Chargers met the Levittown Vikings at Cantiague Park. Cris Bistany recovered a Levittown fumble and 4 plays later Hicksville scored their first touchdown when Quarterback Brian McAuley, rolled out to his right, saw no one to pass to and ran 25 yards for the T.D. The extra point was scored by Richie Foerster going off his own left guard.

Hicksville's second T.D. occurred 6 plays later with assists End Ed Moell, Full Back Bob Gagnaire, and Brian McAuley on his quarterback leap from the three yard line. Score Hicksville 13, Levittown

0 at the end of the first half. The third quarter in eight plays, Hicksville's last touchdown was scored. Assists to Richie Foerster, End Bill Rice who scored the T.D. in the 4th Quarter Steve Malone took over at Quarterback and was moving his club nicely when time ran out. This was indeed a great team effort and from today on, Hicksville indeed has a mighty fine conference group. See you Sunday at Cantiague at 2 P.M.

## Contracts Awarded

County Executive Eugene H. Nickerson has awarded contracts totalling \$1,071,754 for the construction of a reception center, service building and restroom facilities for the restored 19th century farm village at Old Bethpage. The general construction contract went to Harold Brundt, Inc., Manhasset, for \$781,851; heating and ventilation to Berwind & Co., Garden City for \$141,530; electrical to Melita Electric, Corona for \$89,889 and plumbing to C. F. Menzingers Son, Plainview for \$57,964.

Administrative offices, a cafeteria a sitting area, and an auditorium will be included within the building which will be completely surrounded by an open terrace. The auditorium will be used for lectures and to show films on the historical restoration. Although the building is contemporary in design, the materials to be used are of a traditional nature - antique brick, black slate and rough plaster and will thus be appropriate to the

The eyes of Long Island grid fans are, this Fall, on these four players, including Matt Snell (left), of Locust Valley, who as a Jet was 1964 "Rookie of Year." # BEAUTY SECRETS

By Victor of Vilu

Down through the years, hair has been the victim of much misunderstanding. This is not surprising, because hair has always been the subject of much attention by members of both sexes. As a result, many legends concerning our hair, its use and its value, have grown up with us until it is difficult to separate facts from fiction. For example:

1. Hair Serves No Practical Purpose Other Than Adornment. Nothing could be farther from the truth. Hair is a shock absorber for the scalp, protecting it from many minor injuries to which the head is extremely vulnerable. On the body it forms a shield against irritation from clothing and from other tissues.

2. A Man's Virility is Measured by the Length, Sturdiness and Curl of His Locks. This may be a shock to certain young male members of our society who bark in the glory and strength of Samson, but actually, an excess of male hormones in the boy may lead to baldness.

3. There is an Element of Truth in the Expression "Dumb Blonde." Untrue. The color of your hair depends on many factors other than hair dyes. Hereditary is one of them. Intellectual prowess is

not another.

4. Hair is an Outside Growth. Not true. Hair is as much a part of your whole physical being as your heart and liver. In fact, it is a form of skin that grows out of your body rather than on it.

5. The Condition of Your Hair is Purely an External Matter. In truth, many doctors look to the hair as a sign of inner health. Hair flourishes in a healthy body, fades in a weakened one. In some respects it is a mirror of your health and is never an independent member of your body.

One truth is self-evident. Hair is an adornment that contributes more to physical beauty than any other facet of a woman's being. Its appearance is a symbol of the wonder and beauty of nature itself. Healthy hair deserves the kind of professional care you get at Vilu. Our trained specialists have dedicated themselves to fashioning it to reveal its full beauty. You owe it to yourself to give it the same kind of care and attention you would give to maintaining your body health, to which it is closely allied. For questions or further consultations call or see Mr. Victor at Vilu, OV 1-870, 534 So. Broadway, Hicksville only.

## Appointed To Committee

Victor F. St. Thomas, CPA, of Hicksville, has been appointed to the Committee on Defense Contracts Accounting of the New York

State Society of Certified Public Accountants, according to William P. Stone, President. The Defense Contracts Commit-

tee is one of the 17 active committees of the professional Society that now has a membership of over 14,000.

## Letters

To the Editor:

At Friday evenings school board meeting, the Hicksville School Bd. members requested that public spirited people who might be interested in serving on the Hicksville Uchool Board submit a written statement to th effect. I am enclosing a copy of a letter that I have sent to the Hicksville School Board. If you have sufficient space available would you be kind enough to print this letter.

Thank you,

James G. Trimble

Mr. Herbert Johnson, President of Hicksville School Board  
Attention: All School Board Members

As a candidate in the last Hicksville School Board election, it seems redundant that I should once again be required to submit my name as a person both capable and interested in serving as a Hicksville School Board Trustee.

If I may, I will remind you that one thousand eight hundred and forty seven taxpayers voted for me, and the voices of these people will be completely ignored if an individual is seated who is the hand picked designee of four members of the present school board.

I too have heard rumors to the effect that certain factions within the community have indicated their preferences as to individuals to fill the vacancy resulting from Mr. Anderson's resignation. I cannot but question, as will others,

"Why did not these individuals possess, or display sufficient interest to actively seek nomination in an open campaign? Or could it be that these individuals had prior knowledge of the vicious smear campaign that was to be?"

It has become increasingly difficult to attract capable, responsible men to serve as Hicksville School Board Trustees. It is my personal belief that if the present Hicksville School Board members hand-pick a candidate who was reluctant to campaign for the position, they will not only be ignoring democratic procedure, but will also be ensuring that responsible men will not in future years come forth to serve.

The decision is in your hands.

Respectfully submitted,  
James G. F. Trimble
