## Hicksville Library Voting April 4

Registration for this year's Hicksville Library vote will be held on April 4 from 3 to 8 p.m. at the Library for all seven voting districts. This change of location is due to the April 3 Democratic primary voting to be held in the schools which could create confusion between registration and voting material.

The library vote will be held on April 11 from noon to 10 p.m. at the regular school voting locations. Those registered for the library vote will automatically be registered for the school vote in June, and another registration will be conducted in early June for those who have not yet registered. Members of the public who have voted in the last four years will not need to register again.

## American Legion Awards Night

Outstanding among those persons honored, recently, at the Annual Awards and Ceremonies Night of the Hicksville American Legion were a Nassau Police Officer cited for bravery and a young volunteer fireman whose prompt action saved a child's life.

The Charles Wagner Post 421 is pleased to announce that its Community Service Awards for 1984 were bestowed upon Patrolman Daniel Volpe of the Nassau County Police 2nd Precinct and Hicksville Fire Department Volunteer Fire Fighter William Wahne. In the citation for Patrolman Volpe's award, Legion Past Commander John Rizos officiating, the officer was commended for heroically rescuing a woman during a fire at the cost of some smoke disablement to himself. The patrolman's proud wife and two young sons were present to see his selfless response to duty commended.

Fireman William Wahne was honored for his prompt emergency action during a rescue call from Willet Avenue. Responding to a call for a baby in distress, the young fireman found a 21 month old infant which had ceased to breathe. Immediately applying mouth-to-mouth resuscitation, Wahne was able to revive the child.

Among the members of the Charles Wagner Post 421 who were singled out for post distinguished service honors were Past Commander Raymond Gamble who was cited for two terms of commandership and many contributions to the post by Commander Louis Braun. Henry Brengel, Sr. received a service award for "65 years Continuous Membership in the American Legion." A two term past commander, Mr. Brengel served in the United States Navy during the First World War, and is retired President of the Empire Moving and Storage Company.

Sixty-five years of continuous membership in the American Legion are honored in this photo of Commander Louis Braun of the Hicksville Charles Wagner Post 421 presenting a distinguished service scroll to Past Commander Henry Brengel, Sr., life-long Hicksville resident and a veteran of the U.S. Navy in World War I. The award was bestowed at the Post's recent Awards and Ceremonies Night.

This year's recipients of Community Service Awards from the Hicksville American Legion were Hicksville Volunteer Fireman William Wahne and Patrolman Daniel Volpe of the Nassau County Police Department 2nd Precinct. Proudly standing with the honored heroes are (left) Past Commander John Rizos and Commander Louis Braun.

### Joint Pain - Arthritis, Bursitis and Sports Injuries

Many of you probably wake up in the morning and wish you didn't have to get out of bed. Not because you have to tackle a horrendous commute to work, or because the day ahead looks like sheer drudgery, but because it hurts to move.

Joint stiffness, soreness and pain are common complaints plaguing many people. The causes can be numerous, ranging from Arthritis, Bursitis to a Sports Injury. Your first steps when arising are slow and agonizing, and unfortunately the accompanying dull aches never seem to disappear.

These types of symptoms may flare-up on occasion or exist continuously. Some people try various remedies, including "Extra Strength" and "Arthritic Strength" formulas in hope of eliminating the discomforts. The pain killers may deaden the pain, but do nothing about the inflammation or calcium buildup contributing to the problem.

You should be made aware that several steps can be taken to help eliminate Arthritis and other types of joint pain. We have found some very reliable procedures that we employ with our patients, that significantly help Joint Pain suffering.

In the instance of Arthritis, nutritional and metabolic alterations can be made to help curtail the calcium

build-up around the affected joint. An individual diet, eliminating particular foods and adding essential vitamins and supplements to reduce inflammation is important. Specific exercises or therapies concentrating on strengthening the weakened area are also vital. Through specific chiropractic adjustments the weight and body stress one places on a particular joint can be modified, thereby reducing pain.

Chiropractic adjustments can also help improve circulation to the extremities and afflicted joints. When circulation and nerve flow are improved, the blood can carry in the proper nutrients to the problem area and carry-out the accumulating waste products and toxins, assisting in the reduction of inflammation and resulting pain.

Sports Injuries and Bursitis can be treated similarly. No shots are ever given and no drugs are administered. Chiropractic is a very thorough and skilled means of aiding the body with its natural healing capabilities. We have seen many people suffering with various forms of joint pain find relief through our Chiropractic Program - it's worth trying.

Dr. Gumberich will be giving a special health lecture on "Joint Pain" (Arthritis, Bursitis and Sports Injuries) at his office, 8 p.m. Wednesday, April 4. All are welcome.

## Woodland Students Dissect A Heart

PAGE THREE Friday, March 30, 1984 MID-ISLAND TIMES

A tradition begun in 1980 will continue this year when the American Concert Band, directed by Dr. Kirby Jolly of Jericho, presents a free concert at Hicksville High School in Hicksville on Wednesday, April 11. Three outstanding student soloists from the high school Symphonic Band will join the all-professional group in an exciting program of classical and semi-classical music for band.

Mr. J. David Abt, director of the Symphonic Band, has selected Caroline McIntyre (horn), Harold Meltzer (bassoon), and John Rubins (trombone) as this year's soloists. In addition, Mr. Abt has invited 19 other members of the high school band to join the professionals and himself, as guest conductor, in "The Merry Wives of Windsor, Overture" by O. Nicolai.

This unusual evening of fine music will be presented at 8 p.m. in the Mabel Farley Auditorium of Hicksville High School on Division Avenue.

Sixth graders at Woodland Avenue School were all looking forward to the big day when they would first observe a heart dissection by Andrew Schneider, a fourth year medical student at Buffalo State University. Andrew, son of Mrs. Marie Schneider, our art teacher, worked with groups of students dissecting animal hearts structured much like their own. Students had learned about the human heart in the Seattle Berkley Science Program under the guidance of their classroom teacher, Marion Starnes and nurse-teacher, Mary Macklin.

Students discovered that the heart is the most powerful muscle in the body and has special chambers and valves to guide the blood flow. Blood brings nourishment in the form of food and oxygen to the billions of cells in our bodies while feeding the heart as well. They understood how sick a person could get if all the parts of the heart did not work in perfect precision. Proper diet, exercise, rest and avoidance of harmful habits like smoking and abusing alcohol could help this wonderful organ work at its best.

Learning the parts of a heart on a piece of paper was one thing, but here students were cutting and probing into a "real one". To their amazement and delight, they found that those special passageways were exactly where they were supposed to be.

It was an experience that will be long remembered.

Students review the anatomy of their dissected hearts, assisted by School Nurse-Teacher, Mary Macklin.

Classroom Teacher, Marion Starnes and Nurse-Teacher, Mary Macklin help the students following a heart dissection by Andy Schneider, a fourth year medical student.

The junior counselors will make a presentation on "College and Career Choices for the Class of 1985", discussing in detail the steps in this decision-making process. The emphasis

will not only be on the college-bound student, but will also include alternatives and opportunities for students who do not plan to attend college. The presentation will be followed by a question and answer period.

All members of the junior class and their parents are invited and encouraged to attend this important session.

**Hicksville Wins First Round For State Cup**

The Hicksville Shamrocks (U-10) boys traveling team played host to Cow Harbor at Grumman Field under adverse weather conditions. But that was no deterrent! With crisp passing, hustle and excellent skills, the Shamrocks won Round 1 by a 3-0 score.

Goals were scored by Joe Flanagan on a pass from Teddy Knoop, by David Lovato on a pass from Domenico Perillo. The offense was explosive as Eric Blicker, Gregg Furst, Flanagan and Knoop pressured Cow Harbor throughout the contest. Super midfield play by Perillo, Lovato, and, in particular, Brian Pine was also a deciding factor in the outcome.

Defenders Gregg Grusso, Brian Harkins and Van Androutsopoulos continually repelled the opposition. Newcomer Androutsopoulos showed he'll be a force to be reckoned with in the future. Sure handed goal tending by Eddie Jacobson rounded out the aggressive Hicksville team.

Round 2 of the State Cup takes place in April. This weekend, the Shamrocks face nemesis Huntington in the Chase Cup. Thanks to coach Gianni John Lovato and assistant Pat Harkins for their efforts. Welcome to new additions Androutsopoulos and Perillo, as well as Jared Jacobs and Matthew Fordum.

## News From VFW Post

By P.P.C. Carmine A. Somma

We the members of the V.F.W. in Hicksville are very concerned with the community of Hicksville. We urge all the residents in the Hicksville School district to please retain our 22 year tradition of Silent Prayer & Meditation in our public schools and get out to vote on June 13. All of us in service in one way or another said a silent prayer that we would come home safely. Before you know it they will be taking away the pledge of allegiance to the flag and do away with the American Flags in the school which we fought for all over the world. In California some of the schools are starting already to do away with the Pledge of Allegiance to the flag and have no American Flags flying on the school grounds. Do you know our political leaders in Albany recite the Pledge Allegiance to the flag once every two years. We at the V.F.W. teach our school-going young people about the Flag. We ran a coloring book contest for two years about the flag and were the first V.F.W. post nation wide. Our National Headquarters from Kansas City, Mo. named the Hicksville Post to receive the Bronze Award of Merit for acquainting young minds with the American way of life and it is an excellent example of what the V.F.W. can accomplish in the community. Does the public know that all the Veterans groups and Fraternal organizations in the Hicksville area put out the American Flag on Broadway on all the traditional holidays. Once a year we run a Voice of Democracy contest for all the schools in the area and students write about what America stands for. This is another way for the students to continue their education.

Our Monument Chairman Edward Kleniewski reports to the membership about our Monument at the Hicksville Junior High School on Jerusalem Ave. and Fourth St. There is too much vandalism. You see soda cans, and beer bottles around the area. Bushes and shrubbery are too high and the grass is not growing. We as a Veterans group are very concerned about the War Monument. We would like to see all the bushes and shrubbery cut down and grass growing and a light to shine on the Monument.

There is good news. A committee has been formed to establish and construct a "Korean War Memorial" in Washington D.C. honoring Gen. Douglas A. MacArthur and the 52,246 brave Americans who made the supreme sacrifice in the defense of freedom. More information may be obtained from the National Committee of the Korean War Memorial, 1712 Eye Street N.W. Washington D.C. 20006 or Mr. James F. Waters, 4021 W Avenue 43, Los Angeles Calif. 90041.

On May 27 we will start our Memorial Day Service at Plain-lawn Cemetery on Old Country Road. We will be going to the grave site of Wm. M. Gouse, Jr. at Westbury as we have been doing over the years. As the story goes our Post was formed by WWI Veterans and the first one to pass away had the Post named after him. Our Memorial Day Parade Chairman P.P.C. Connie Steers has announced that the Hicksville Memorial Day Parade and Commemorative Service will be held on Monday, the 28th.

This year's parade is being chaired by the American Legion Post, Charles Wagner #421. Any organization interested in participating or supporting the Annual Memorial Day Parade please contact Connie Steers at 822-5983 or call the American Legion Post Comdr. Louis Braun 931-9867.

On March 10, the Wm. M. Gouse, Jr. Post 3211, V.F.W. ran a Las Vegas Night and donated half of their net proceeds to the Fund for Long Island National Cemetery Memorial Organization to modify and relocate the Carillon. On April 9 our Games of Chance chairmen P.P.C. Frank Lotti and Comdr. Mike Ciadella will present a check for \$1,125 to the representative of the Long Island National Cemetery.

On May 12 we will have another Las Vegas Night and will donate half of the proceeds to the Special Olympics Fund. Our next Las Vegas Night will be held on April 14 at the V.F.W. Hall from 8 p.m. to 2 a.m.

If any boys and girls aged 5 to 16 are interested in Midget Racing contact Bill Schuck at 221-9512 or write to "Nassau Midget Association" at 1285 Darby Road, Wantagh, N.Y. 11793. We are happy to announce that the V.F.W. Post 3211 is sponsoring a trophy to the Nassau Midget Association.

As of February, the Town of Oyster Bay has reached an agreement with Dr. N. Sallese, Director of Veterans Affairs for the State of New York to provide a Veterans Service Counselor to service the Veterans, children and widows in the Town of Oyster Bay to be located at the Pickens Avenue School in Massapequa, starting February 14. We and all the Veterans Organizations in Hicksville have asked the Town Board since 1975 when Joe McCarthy left his job as Veterans Counselor to have a Veterans Service Counselor in the Hicksville area which is more convenient than Massapequa.

Speedy recovery to the Comrades and Sisters and their families who have been hospitalized or ill during the month. Rupert Meyers is in Central General Hospital in Intensive Care, Bob Chiappone's daughter Barbara, the Chaplain's granddaughter, P.P.C. Mike Montelione recovering at home after foot surgery, P.P.C. Frank Lotti at home with bronchitis, Ladies Auxiliary Past Pres. Dot Klein slipped on the ice and broke her wrist. She is at home recovering.

Congratulations to Frank Molinari who became a proud grandfather to granddaughter born Feb. 22. Congratulations to P.P.C. Robert J. Obermeyer and his wife Alberta on their 25th wedding anniversary.

## Marine's New Adjustable Rate Mortgages Can Save You Money Now-and Later.

For many home buyers, Marine's new Adjustable Rate Mortgages may be the best way to buy.

Why? Because they offer you a low interest rate now - with the possibility of lower mortgage payments down the road. What's more, you can prepay at any time, without penalty.

You can choose a One-Year or Three-Year Mortgage with a low initial interest rate which will stay that way through the first one- or three-year term of your mortgage loan.

At the end of every one- or three-year period, your rate will change up or down relative to the Market Index, which is based on U.S. Treasury Securities. Then, your monthly payment will be adjusted accordingly.

But, no matter how much the Index fluctuates, your interest rate on a One-Year Mortgage won't vary by more than 2% either way at the end of any year. And your rate on a Three-Year Mortgage will never rise or fall by more than 3% at the end of any three-year period.

For our current rate and more information about Adjustable Rate Mortgages, call Marine's ANSWERLINE - (516) 420-7611.

**SINGER CELEBRITY** Billy Joel was apparently not a celebrity in Hicksville where he grew up. On the TV "Today Show" he said for a time he was so depressed that he spent most of his nights sleeping in Hicksville all night laundromats when he was 21. He is now 34 and lives in Lloyd Harbor. NEWSDAY's parent company, the Times Mirror, has been given a setback in Connecticut. The company cannot own the newspapers in Hartford and the cable TV. In L.I. Newsday monopolizes the daily newspaper field and has branched into cable. But there has been no action here. WHILE THERE may be some more important matters under consideration for the LILCO Shoreham plant, the latest objection that the pipes might not stand an earthquake seem a bit far out. THE CRIME REPORT is published each week as a public service to alert residents of where crime is taking place in the area and as a help in the Neighborhood Watch program. ## Runners Club Hears Talk On Disabled Games

Pictured here are (L to R): Tony Giustino of the Nassau Parks Department, POBRRC President Mike Polansky, and Gordon Steele of the Nassau Parks Department.

The featured speakers at the March meeting of the Plainview Old Bethpage Road Runners Club were Tony Giustino and Gordon Steele of the Nassau County Department of Parks and Recreation, who gave a presentation on the International Games for the Disabled, which will be held in Nassau County from June 16 to 30.

The Games will feature 1500 of the top amputee, blind, cerebral

palsy, and other disabled athletes from 50 countries throughout the world. The hub of the competition will be the new \$11 million Mitchell Field athletic competition.

"Make no mistake", Giustino observed, "these are world class athletes who will be coming up with world class performances." He pointed specifically to Canadian Arnie Boldt, the one-legged high jumper who is closing

in on the seven foot mark, and U.S.A. cerebral palsy weight lifter Charlie Reid, who had bench pressed in excess of 450 pounds.

Giustino and Steele talked about the need for volunteers, both skilled and unskilled, to make the Games a success, and they got an enthusiastic response from the Club. POBRRC Presi-

dent Mike Polansky urged all Club members who could possibly help out to do so. (Potential

volunteers should call Volunteers Director Rhoda White at 542-4495.

Volunteers Mr. and Mrs. Florian Spinner, Hicksville, are filmed by WPIX-TV crew as they leave Central General Hospital, Plainview, to deliver meals to the homebound elderly in the community. The Spinners were featured on "Suburban Close-Up," a half-hour T.V. program on Channel 11, on March 23. The Nassau County Department of Senior Citizen Affairs' Home-delivered Meals Program, operated by the Visiting Home Health Service, Inc. and Catholic Charities, celebrates its 10th Anniversary this month with delivery of nearly one million meals to homebound elderly.

## Two Displays For April

The Hicksville Public Library will feature two displays in their cases during the month of April.

The Lobby Case will contain Miniatures created by Pat Stein. Mrs. Stein has had exhibits at the Hicksville Library before and they are always a delight for any age.

The Fiction Room Case will feature Easter Crafts by Kay Sarli. Miss Sarli has worked for the library for many years doing much of the Art work for them throughout her career.

Also for the month of April, in the Community Room of the library, on loan from the Hicksville Gregory Museum, there will be an exhibit of photographs by Edward Bady. The pictures depict Hicksville Railroad Crossing Vistas from 1934 to the present.

The exhibits in the two cases can be seen during regular library hours. The Community Room, where the photographs will be hung, is open from 10 a.m. to 5 p.m. daily and Saturday and 1 to 5 p.m. on Sunday.

## Willet Students Study Budiness

As part of their In Depth Studies project in Consumer Education, students at Willet Avenue School researched in a small way the development of a retail business. Their market research disclosed that food products were always in demand. After some surveys, and much discussion, it was decided that Popcorn Balls had a good chance of success. Product research and development involved comparison shopping of various brands, taste tests, measurement of the

quantity of popped corn produced by equal amounts of corn from various companies. Then came the recipe testing - some too hard, some too gooey, some too dangerous for the manufacturing crew, who might be burned by hot sugar syrup. Each batch produced was tested for taste, crispness, holding power. A cost analysis was maintained for each experiment.

Finally a recipe was selected and the most economical supplies purchased. Initial financing was

secured by investment of empty soda bottles, for which the donors were paid in scrip redeemable in purchasing the finished product. The manufacturing team, guided by Roselyn Katz, a retired teacher who voluntarily helps with the program, then produced a small mountain of popcorn balls. Willet Avenue smelled so good! After lessons by art teacher, Mrs. Witte, in how to create appealing ads, the students organized an impressive campaign - and a very successful one, for the mountain of popcorn balls sold out in minutes!

The In Depth Studies Program at Willet is directed by teachers Joanne Crown, Rosemary Barrow and Phoebe Witte.

Comparison shopping for the ingredients for their popcorn balls are Willet Avenue students Phillip Bassuk, Tom Spina, Sandy Mohan and Holly Drexler.

## Our Children

### Is firstborn favored?

By Willard Abraham  
Ph.D.

Do we act differently toward our children based on their place in the family? Are our attitudes different toward the eldest, middle and youngest child? Should they be?

Recent letters seem to indicate some concern regarding this issue. So this week we'll deal with the firstborn, replying to a letter just received. In the next few weeks we can look together at the middle one ("the nutcracker child") and the youngest ("the last button on the coat," as one wise man said). And then perhaps the only child.

Here's a typical inquiry to get us started.

**Q. My wife plays such favorites with our children, and always in the same direction, toward our oldest kid. I'll admit some partiality toward him too, but I at least try not to show it.**

Not her, though. She'll talk to him more, give him more and spend more money on him. The other two kids notice all that and I think we're in for some real trouble.

Your reaction, please.

A. All the way through history the eldest child in the family has often been singled out for special attention. Sometimes it was far from a privilege because the firstborn boy might have been considered a threat to his father. So he was killed, became a burnt offering or was devoured as a "solution." The Oedipus myth was one of the most famous examples of a boy taking his father's place.

In fairytales and fiction the first one in the family often stood out. For example, the eldest was given the father's mill in "Puss in Boots" and Meg in "Little Women" showed how great a big sister could be. In many first- and second-generation families it was assumed that he (sometimes "she," but not as often) would be the best educated, the learned one.

Japanese families assume that the eldest will be favored over others. We may feel for all of our children — those are the points of view with which we're usually more comfortable.

The eldest one frequently seems smarter than the rest (whether he or she is or not), and the reasons should seem obvious. More time is usually available to answer questions, read to him and take him places. He may have talked earlier and developed a broader vocabulary because of his adult environment. (All of this, of course, pertains to "her" also.)

Being a center of attention meant that he generally received

plenty of it. He may be more serious, more eager to please and possibly more selfish than the others. (Watch out though! These are generalizations and might appear logical, but perhaps are not even remotely related to your own firstborn.)

Another common element is resentment against the next ones to come along, those who "displaced" him. Temper, jealousy and tension might all become the order of the day. He may feel that he has some unfinished business to attend to — the task of completing his own babyhood.

A third item is the responsibility often accepted or placed on those young shoulders. It's not just being responsible for doing things for the others (dressing them, baby-sitting and diaper-changing, for example), but the hidden one of being held up as a model. School grades, athletic achievement, Boy Scout accomplishments — the list is long and burdensome both to him and to those who follow. Frequently these pace-setting factors aren't actually mentioned. They don't have to be. They're just there, like the mountain to be climbed.

So many family problems occur because of staggered child arrival (It'd obviously be worse if they all came at once!). How about the younger one who outstrips his older brother or sister in popularity, school success, sports activities or height? If they're different sexes, there may not be much, but if of the same sex, then there's even more need to (1) stress the abilities of each, (2) avoid comparisons, and (3) not hold back the advanced one. It is also a good idea to try to protect seniority factors of the eldest when it comes to privacy, hours of sleep or study, and other items important to him or her.

In many families the first one as an only, cherished child for a time should alert us to the problem of child favoritism. It's sometimes a hidden agenda item in the rebellion and antagonism of those who come later and have difficulty accepting what may seem (or actually be) stronger parent ties of affection and expectation with the elder one.

Do you want to read more on this subject — or leave something around for the other parent who might show partiality for the firstborn without even knowing it? Locate a copy of a short book by Edith G. Neisser, "The Eldest Child," published by Harper.

## Your Social Security

### Couple can live more economically

**Q. Why are SSI payments for a husband and wife less than for two individuals living separately? — D.M.**

A. People living together are able to share expenses and live more economically than two people living independently (e.g. one rental payment as opposed to two).

**Q. Is it true that a man can only get widower's Social Security benefits if he was getting half of his support from his wife at the time she died? — H.C.**

A. At one time one-half support was a condition for eligibility for widower's benefits. Since 1977 when the law was changed there is no longer a support requirement for widower's Social Security benefits.

**Q. I was two quarters short when I applied for Social Security last year. If I get a part-time job for a few months, will that give**

me the two quarters I need? — F.K.

A. This year you can earn one quarter of coverage for each \$390 you are paid. In your case you would have to be paid \$780 in wages or, if self-employed, have a net profit of \$780 to obtain the two quarters you need.

**Q. My wife died four years ago. My 13-year-old daughter gets monthly Social Security checks based on her mother's work.**

If I remarry will that have any effect on my daughter's checks. — B.E.

A. Your marriage will have no effect on your daughter's Social Security benefits. Her payments will continue until she is 18.

If she is still a full-time high school student after 18, payments may continue up to age 19 or until she graduates, whichever comes first.

### Gleeb Paul Lowrey

Figuring out what to eat is puzzling. Why is that?

Too many foods are both good and bad for you in the same mouthful.

For instance?

Liver is rich in iron, but is loaded with cholesterol; eggs are high in protein, but also high in cholesterol; whole milk provides protein, calcium and riboflavin, but has saturated fat and calories; bacon tastes good, but contains nitrites, saturated fats and sodium; wheat flakes are a source of fiber, but also a source of sodium; figs, dates, raisins and granola have potassium and fiber, but also have lots of calories.

What are we supposed to do—give up food?

No, over a prolonged period that would be fatal.

How do we deal with this problem?

Require a printed message on all food products.

What sort of message?

"Warning: It has been determined that eating can be dangerous to your health."

## Sports Night At Junior High

The Hicksville Junior High School Student Council will sponsor its third annual Sports Night competition between 7th and 8th grade classes on Friday, April 6 at 7:30 p.m. in the Junior High gym. Admission is \$2.00.

The evening should prove fun for all as the teams will compete in a series of athletic relays, volleyball games and an obstacle course. Please try to attend this fun evening. All proceeds will go to the HJHS PTSA. For information, call Pat Rooney 822-4476.

## Library Film 'Missing'

The Hicksville Public Library will present another excellent movie on Friday, April 6 at 8 p.m. in the Community Room.

"Missing" starring Jack Lemmon and Sissy Spacek is based on a true incident. An American writer disappears in a politically torn South American country. "Missing" follows the frustrating attempts of a wife (Sissy Spacek) and a father (Jack Lemmon) to find the writer (John Shea). This film is in color and lasts about 2 hours. There is no admission charged and everyone is invited. Since this is on the Adult Program schedule, children must be accompanied by a parent.

Life at Fork Lane School is never dull! Recently, the Skate Factory in Syosset was the scene of Fork Lane's Roller Skating Party. Those lucky people attending had a wonderful time skating for several hours to favorite tunes and meeting fellow school friends.

Last week, Fork Lane students were treated to a Producers Foundation production of the delightful classic "Wind in the Willows". The play, a discovery of love and friendship, had the following cast of characters: IJaa Gluck, mole; Jack Rowles, rat; Don Robins, badger; Jessica Houston, otter; and Brian Conover as Mr. Toad. Thanks to this group for an outstanding performance and thanks, too, to Cultural Arts Chairperson RoseAnne Robey for bringing this production to Fork Lane.

New additions frequently bring with them a keen sense of excitement, but there is little to compare with the enthusiasm and energy sparked by the "Apple" computer that recently arrived at Denise Yannonne's class. The students certainly don't suffer from "computer phobia;" indeed they have taken to the "Apple" with surprising ease and assurance.

Roger enjoys programming in Basic, a computer language, and has become the resident computer expert. He has a computer at home and feels very proud to be able to help the other students. Paul and Chris enjoy writing stories and newsletters to their parents on the computer. They say it's fun to watch the printer zap out their stories in a matter of seconds.

The computer provides valuable learning experience in all fields of study, but it is especially being used for creative writing and mathematics. Brian and Richard enjoy playing the "math games" on the computer and have improved their multiplication skills in the process.

The computer has added to the improved functioning of the class since the children are more cooperative in completing their work and in showing good classroom behavior. They eagerly await their turn at the computer and often they work in pairs which has improved their peer interactions. Contrary to popular opinion, the computer has brought the students closer together rather than isolating them. Mark and Greg have worked together on several programs. According to Paul, "The computer is a lot of fun!" Everyone, including their teacher agrees.

## 'Wind In Willows' At East St. School

It's the first day of spring. The children of East Street School have filled the gym and are waiting for the show to begin. Out steps Mole, singing his lonely lament and the children are captivated. With the help of the audience, Mole makes his decision to break away from his hole and climb out into the world with all its adventures.

"The Wind in the Willows", Kenneth Grahme's children's classic, performed by The Producers Foundation seems to be perfect on this morning. The colorful scenery and props, the lighting and sound effects and the acting and singing provide the children of East Street with joy and happiness. The Producers Foundation, the same group that performed "Androceles and the Lion" are professional and have an amazing understanding of children's theatre. It seems that the PTA also has an understanding of children's entertainment and has provided this wonderful experience for many of the elementary schools in the district.

## Concert Program At Hicks Library

The Hicksville Public Library will present a concert featuring Mr. Ted Savalas, vocalist and Aglaia Savalas, pianist.

Mr. Ted Savalas has been a Hicksville teacher for 28 years. His extra-curricular activities have included singing performances in night clubs, Greek-American functions, and a touring Vegas Revue which concluded at the Westbury Music Fair. He has recently returned to his teaching assignments after a two year leave of absence during which he wrote three screenplays, one of which is being considered by the actor, Clint Eastwood. He also is hosting a radio show, "Long Island International Program" on WLIM. Although a singer of popular music, Mr. Savalas' big dream was to do a program of Italian and classical music which he learned to love while growing up in an Italian-Greek American neighborhood in New York. Mr. Savalas will share a program of classical and Neapolitan music with his daughter, Aglaia - a first.

Aglaia Savalas is an accomplished pianist who spent three years studying at the Athens Conservatory in Greece where she won first prize in the Inter-School Piano Competition for American students. Aglaia is a graduate of Hofstra University where in her junior year she won the Annual Concerto Competition and performed with the Hofstra Symphony Orchestra. An active recitalist and accompanist, she also teaches piano and is currently studying with Blanche Abram.

This concert of Neapolitan and classical music will be held in the Community Room of the Hicksville Public Library on Sunday, April 1 at 3 p.m. There is no admission charged and everyone is invited.

**Sure we'd like  
to shelter  
\$4,000 of last  
year's income  
against taxes.**

**But how?  
And where?  
And when?**

**With an I.R.A.  
At Ridgewood.  
Now.**

Tax savings on last year's earnings? Absolutely if you act before **April 15, 1984**. You and your spouse can shelter as much as \$4,000 from the tax-man by opening an I.R.A. at Ridgewood Savings Bank.

You could even claim that deduction now... file early to get your refund sooner... and you'd still have 'til April 15th to open your account.

Ask any expert on personal finances, and we'll bet he tells you that an I.R.A. is the best move you can make. For immediate and future income tax savings. For high-yield, tax-deferred earnings. For a secure and prosperous retirement. Best of all, you'll never pay Ridgewood a fee for starting your I.R.A. or managing it for you.

Today, every wage-earner is entitled to establish a tax-deferred I.R.A. Including working spouses. Including people who already have pension plans.

Including self-employed people... even if they already have Keogh accounts. A qualifying individual can deposit up to \$2,000 of annual income... a husband and wife who are both employed: \$2,000 each, or a total of up to \$4,000... a wage-earner with a non-working spouse; up to \$2,250. Income tax on funds deposited and on the interest that they earn will be deferred until they are withdrawn after retirement, when most people's tax rates are much lower.

Wouldn't you like to know how much a Ridgewood I.R.A. could mean to you when you retire? Could it be worth a million dollars... or even more? It's easy to find out... and we think you'll be amazed! Just stop in at your nearest Ridgewood branch and ask for a free, personalized computer projection—based on your age and the tax-sheltered deposits you expect to make. And be prepared for a very pleasant surprise!

It's smarter than ever to bank with your neighbors.
