PATTER

By EVELYN B. HIRT Merry Christmas. If only folks make the same mistake twice then I am a fool.

By Christmas Eve all packages have been delivered except the most important and expensive one which you imagined your spouse would receive with much joy.

It is so sure to arrive the night, and it is such fun to have something to look forward to anyway don't you think?

And forever inevitable is the arrival late Christmas Eve after all stores are closed, of a huge box from Santa Claus.

It means explaining rather lamely what it will be, an "Oh, sure to arrive the night, and it is such fun to have something to look forward to anyway don't you think?"

## WELCOME, JUDGE FLANAGAN!

On Wednesday, January 1, Oyster Bay will welcome a new justice of the peace to the courtroom at the Town Hall. Justice-elect Eugene L. Flanagan is not a stranger to Oyster Bay. For years he sat as a member of the Town Board, serving at the same time as justice of the peace in Locust Valley. His home is in Bayville. He understands the temper of our people and we have confidence that he will be here what he has been in Bayville and in Locust Valley, a just judge, severe where severity is deserved, merciful when mercy is justified.

The Oyster Bay Justice's Court influences, to a considerable degree, the life of this community. For several years our streets have been a rendezvous for loaferism of many of whom have committed a variety of offenses, some petty, others not, with impunity. Frequently we have been told that Oyster Bay always has been like this and that this characteristic of the community never can be changed. As long as there is any possibility of improvement in the world we shall differ from opinions like that. Oyster Bay need not be the hangout for drunks, panhandlers and loafers. A determined judge can discipline or put this undesirable element to flight in a few days. It is a nuisance today because it has been tolerated and even encouraged.

The Enterprise-Pilot believes that a responsive judge can accomplish a great deal of good for Oyster Bay. When serious offenses receive the punishment they merit, when police and all others having business before the court are treated with courtesy when all persons have a friend, but not a foe, in the judge, we shall have advanced measurably. Because we believe Judge Flanagan will give this community the intelligent co-operation it needs we welcome him to his new office here and wish him many happy years of constructive activity.

## THE IDEAL CITIZEN

An ideal citizen is the one who sees clearly and ever something good in his home town and never loses the opportunity to spread that good news abroad that others might derive the benefits therefrom while usefulness prompts him to want others to share opportunities, health and pleasure which his home town offers.

Loyalty is the first requisite for the ideal citizen—the love for the place and his neighbors which resolves itself into the knowledge of duty when he does all in his power to make the town a better place in which to live.

There are three distinct attitudes which a citizen may assume toward the place in which he lives, which furnishes him food, shelter and association for himself and family—(1) to boost, (2) to remain quiet or (3) to knock.

The booster is never forgetful of the obligations which is due the home town. He is ever found at the front when any movement is launched which might tend to the advancement of the interest of the town. While others see darkly, to him good is visible at all times.

The quiet citizen is satisfied to let the neighbor do the work and content to lull the town asleep and let it rest.

The knocker is the man who is without a country. There is no room for him anywhere, his presence dampens the enthusiasm of every man or group of men who unfortunately come in contact with him. Having no faith in his own ability to go forward, he naturally lacks faith in his home town to do so.

You have the chance to belong to any of the three classes. If you are a booster, your neighbor knows it well and will boost you. If you are aligned with the quiet class, you will not be regarded one way or the other, for the man who selects to steer in the middle of the stream gets no support from either side. If, unfortunately, you are a knocker, get ready to be knocked, for eventually it is coming to you. As you give, so will it be meted out to you.

Any town would be an ideal community if only there were more ideal citizens. Let's have them!

## ENFORCE THE LAW!

Fatal accidents continue to occupy the headlines of the metropolitan and local press. Town, county, state and national officials and organizations throughout the nation continue to appeal for action on the mounting death toll. Articles such as "And Sudden Death" are distributed, motorists are taken to the morgue and the hospitals and forced to look upon victims of auto accidents, and still the accidents continue.

Of all the weapons which are being used to combat the appalling increase in fatal motor accidents, enforcement of the law is ultimately the most important. Until some means may be found by which motorists may be educated to a proper respect for the advantages of safe and sane driving, enforcement must assume the practical leadership in accident reduction.

## EXPRESS YOUR DISAPPROVAL

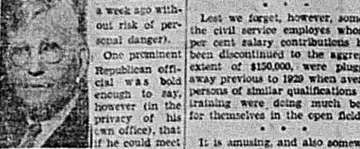

Editors of newspapers like the Port Washington Times like to hear from their readers. They do not, contrary to the usual idea, seek complete and unanimous agreement with their views. The reader of this paper who dissents intelligently does us a real service in writing a letter, stating properly and temperately the reasons which, in his mind, make our conclusions wrong.

No sensible man expects that his opinions are correct, or that the differences of opinion exist only because of the good things in life. It would be extremely regrettable if one did not find diverging conclusions from the conflicting evidence upon which mortal man tries to evolve the truth.

# With the Republicans

By CHARLES W. SMITH

Except for little children, and unless it is indeed more blessed to give (more or less indiscriminately and under mild duress) than to receive, the Santa Claus business is not all it is cracked up to be. This could not have been stated a week ago without a risk of personal danger.

One prominent Republican official was bold enough to say, however (in the privacy of his own office), that if he could meet Santa all alone any time previous to Christmas Day, he'd cut off his beard. Nevertheless, please accept in all sincerity the writer's warm wishes for happiness and prosperity during the New Year.

Under direction of Colonel E. M. Podym, in charge of Republican County Committee headquarters, compilations of the comparative Assembly votes for 1934-1935 are being prepared. These will be mailed to the various communities in the county, together with another form commending the district which went more than 80 per cent Republican last month. From a G. O. P. organization standpoint, the figures are not only gratifying but actually surprising.

While nothing definite was decided until New Year's Eve, Assemblyman Leonard W. Hall's chance of becoming either the county or town and town committee or majority leader is practically conceded, despite the inevitable backing and filling necessary to eliminate other aspirants from the scene. W. Kingsland Macy's implied opposition to Mr. Hall's candidacy, it is believed, "cancels" the deal in the latter's favor.

There will be 66 lawyers in the 1936 State Assembly, and only 12 lawyers in the Senate. One of the 66, Edwin W. Wallace was listed as a farmer. One more editor and publisher combined, and one journalist will be among the representatives of the Fourth District. Incidentally the latter classification re-introduced the hoary question: "What is a journalist?"

Included in his recent inspiring report to the executive members of the Republican State Committee, Treasurer Henry Ross, also contributed the significant statement: "Of the \$101,000 collected during the campaign, more than half was contributed by nearly 4,000 individual contributors living in Nassau County."

Garden City was fairly well represented among those being considered the other day at the political table in the Court View Hotel during the luncheon party. Residents being fortunate enough to obtain a sitting thereat among the victors from other sections of the county.

"It is a good thing to horn in occasionally," one of them remarked. "I don't intend to do that," Garden City is not merely the place where Republican votes roll in like nobody's business at election time."

The department of purchase was organized last July 1 and functioned immediately, not only for the County of Nassau but for the TRRA also, the latter organization being organized and paying four persons until December 5 to assist in the extra duty which had to be done.

Then the WPA stepped in, with the usual chaotic results. The extremely moderate salaries (one at \$44 and three at \$28 per month) were accepted, at least temporarily, although the department of purchase supplies all of the material on WPA projects.

Relief workers are being temporarily employed wherever possible in the county and town departments instead of taking cuts for regular positions from the civil service lists. The compensation is one quart cooked shrimp and one pint, plus one pint dried celery in the case of beef, fish, shrimp or poultry, garnish with sprigs of fresh parsley, thin slices of lemon, just a touch of mint, and serve with plenty of mayonnaise in a separate container.

SHRIMP SALAD  
To one quart cooked shrimp add one pint, plus one pint dried celery in the case of beef, fish, shrimp or poultry, garnish with sprigs of fresh parsley, thin slices of lemon, just a touch of mint, and serve with plenty of mayonnaise in a separate container.

## Get Plates Now And Avoid Rush, Urges Auto Bureau

Although "shop early and avoid the rush" is practically outdated so far as Christmas goes, it is still a slogan to be remembered, according to Samuel B. Schneider, chief clerk of the Nassau County Motor Vehicle Bureau at Mirvosh, who today cautioned automobile owners to purchase their new license plates as soon as possible.

The new plates, which will have a black background and will be lettered in yellow, may be obtained now at any office, as well as at any of its branches in Hicksville, Freeport and Valley Stream, Mr. Schneider said.

Passenger, trailer, commercial and business cars and motorcycles must bear the 1936 insignia on February 1 or they will not be permitted to operate, while the

# Offers Suggestions For Having Safer Christmas

Elvin N. Edwards Warns Against Hazards That Are Closely Associated With The Holiday Season

Admiral Cary T. Grayson, chairman of the central committee of the American Red Cross, has requested Elvin N. Edwards, Nassau County chairman of the accident prevention program, to send out warnings in an effort to prevent holiday accidents. Each year the Christmas tree brings a toll of death and injuries from careless handling, and it is hoped this year that by calling attention to those responsible for the placing of the Christmas trees in the homes, some of them may be avoided.

Some of the suggestions for a safe Christmas season are as follows:

Place the tree away from the fireplace and heating fixtures, and firmly anchor it in a solid base.

Use fire-resistant decorations in the home. They can be obtained easily and are as attractive as the dangerous kind. Keep lighted matches and candles away from decorations.

Keep the tree green longer by using a dry Christmas tree or very inflammable.

Use Small Balls  
The safest method of lighting Christmas trees is by the use of a small ball that general use has lost. If it is necessary to use candles, keep in mind they are a great hazard, and an adult should be in the room while the candles are burning.

Electric light sets with broken insulation or with improper fittings are hazardous. Carefully inspect and overhaul fittings and insulation before using old bulb sets or extension cords. When new sets or electric cords are purchased, insist on those bearing the brand label of the Underwriters' Laboratories. Decorations should be placed a safe distance away from bulbs and fixtures.

Every year many accidents occur in decorating the Christmas trees.

As to icy sidewalks, sprinkle sand or salt to make them safe.

Let this Christmas be remembered by the fact that because of the judgment of the adults, the death toll and accidents were less than in preceding years," said Mr. Edwards yesterday.

Help us make it a really merry Christmas and let everyone have a happy New Year by using common sense and judgment in the handling of the holiday celebrations.

## Police Chief Warns Of Bogus Money

A \$20 bill looks pretty good to anyone at any time, especially at Christmas, but we would those who get the kind that the Port Washington police are looking for these days.
