Smoke, Water Cause \$20,000 Mall Damage

Hicksville Fire Fighters responded to the upper level of the newly renovated Broadway Mall for a rubbish fire in a compactor chute on October 18. The alarm was phoned in at 10:14 p.m. after internal pull station alarm boxes failed to operate. The mall sprinkler system activated but it also did not activate the alarm to the Fire Department.

Sixty firefighters and 8 pieces of apparatus, under Chief Terry Farrell, responded and had the fire out in one hour but \$20,000 damage was caused by water and smoke. The recently modified sprinkler system controls could not be located by firefighters in time to prevent excessive water damage. The chute door at the Mall level was left open allowing fire to activate the overhead sprinklers. Firefighters worked on the fire from the truck tunnel below. The fire itself was confined to the compactor and chute. There were no injuries.

Town Of Oyster Bay Receives Budget Award

Oyster Bay Town Supervisor Angelow A Gengent Subget Committee has bestowed a "Good Government Award." With Merit, on the Town for its capital budget procedures.

"This is the icing on the cake," said Delligatti. "Not only have we reduced our 1990 budget, but we have been recognized for the careful budgeting practices that led to this reduction. NCBC is an independent, non-partisan organization whose motivation is to make local government budget more accountable, more informative and more responsive to the public. To be recognized by this group is an honor."

In citing the Town for this award NCBC noted, "The Town of Oyster Bay is the only Nassau Town which publishes a capital budget with five-year projections. We find the capital message quite informative; it highlights major projects and gives justification for them.

"Other strengths of Oyster Bay's capital procedures are: • Fixed asset inventory is

 Pixed asset inventory is updated annually.
 Cost-saving alternatives are

evaluated. • Repair and major mainten-

ance schedules are followed. • A constant amount of money

is budgeted for major repairs. • Planning assistance and financial advice are sought."

"The members of the Nassau Citizens Budget Committee, particularly Executive Director Phoebe Goodman, are to be commended for their dedication

and earnest effort in making budgets responsible and responsive," said Delligatti. "They praised our budget, which is always welcomed, and they offered good suggestions which we will consider for the future."

Halloween -- that time of the year when little ghosts, ghoulies and goblins fill sidewalks and streets - is coming soon.

A day of normally harmless fun can turn into a sad event if anything should happen to our youngsters. Caution on the part of parents and guardians can assure a safe Halloween for all. Please remember these suggestions to make Halloween a happy occasion:

 Make sure that masks and costumes are flame resistant.

.Costumes should be light and bright enough to be clearly visible to motorists. Bags and sacks should be decorated or trimmed with reflective tape which will "glow" in a car's headlights.

·Masks should have large holes and costumes should not be too long. Many children are injured by tripping on their costumes or because they couldn't see properly through narrow slits In masks.

 Little children should be chaperoned and older children should travel in pairs.

·Discard candy that is out of the original wrapping and beware of homemade treats unless you can positively identify the person who provided them. Follow the old adage: when in doubt, throw it out!

 Have children do their trick and treating in familiar neighborhoods, and remind them to cross streets carefully.

Recently the Hicksville INN moved from Trinity Episcopal Church to Redeemer Lutheran Church. Effie Krogmann, one of many Board members, who is in charge of publicity, sent out a news release to various local newspapers telling of this move. Since then, she has received verbal abuse and threats to her person and business, because of her association with the INN.

I am a Hicksville resident for 29 years. I have been a volunteer at the INN one day a week for 41/2 years and have been a member of the Board of Directors for 10 months, serving as its Secretary. The Board is comprised of nine voting members and one non-voting member represented by the various community service organizations. There are 3 clergymen represented, various professionals and others. The Hicksville INN is supported through contributions from various synagogues and churches in the community. It is truly ecumenical. It is part of the Interfaith Nutrition Network.

In 1983, alarmed at the rise in poverty, hunger and homelessness, a group of volunteers established a non-profit organization known as the Interfaith Nutrition Network, or the INN. They started with one dining room in the Village of Hempstead. Today, six years later, there are 14 dining rooms, 5 emergency shelters and 2 night emergency shelt-ers on Long Island.

There are hungry people in our Mid-Island community. Some live on the streets. Others are senior citizens with limited income. Some are recent immigrants. Some are the "working poor." The INN and its volunteers are doing their best to bridge the gap between living and existing. It is the objective of the Hicksville INN to provide free meals for the hungry. Most of the volunteers are your neigh-bors. They are those who are quietly trying to help solve this problem of our community without waiting for the Government of some agency to "fix it."

Newsday recently honored the INN by selecting it as one of its winners of their first Volunteer Recognition Program which honors individuals or groups who make unique contributions through their volunteer service. In my opinion, I believe that the Hicksville INN is making its unique contribution and is one of President Bush's "Thousand Points of Light."

About 5 years ago, Effie Krogmann, a Hicksville resident for most of her life, and a respected business woman, active in various service organizations of our communwas disturbed by the plight of the homeless people she saw in Hicksville during her daily activities. She joined with clergymen and other individuals, who had the same concerns as she. Their social conscience culminated in the establishment of the Hicksville INN.

Instead of being attacked, Effie should be honored for

her vision and courage. Instead of "it's not our problem," ask how you can be part of solving OUR problem. Ask rather "what can I do to help?" Only then are we truly a "community", concerned for each other.

To the Editor:

Throughout the United States, ceremonies now are being planned to honor former servicemen on Veterans Day. All too often, most of these ceremonies are bland, perfunctory, and imper-sonal. However, in two class-rooms at the Burns Avenue School, Hicksville, a ceremony is being planned by twenty-seven children which will be significant. personal, and truly touching. For at this ceremony, fifth grade students will pay their respects to twenty-seven specific veterans. Each veteran will be publicly thanked for his contribution to the

United States, and for the personal and specific sacrifices that were entailed while in service.

The honoring ceremony will be the culminating activity of a classroom project called, "Honor A Veteran." The entire project consists of a series of activities aimed at teaching American history, culture, and values. At one point, each student will interview a veteran. Through this interview, the child will gain an insight into what military service entails. He will gain an understanding of the highlights, disappointments, frustrations, and happiness associated with serving one's country. The student will then write a brief biographical paper on his veteran.

Finally, on the evening of November 9, the students, their families, and the veterans will gather together at the Burns Avenue School, Everyone will share in a buffet dinner prepared by the parents. The room will be decorated with art projects made by the students during their course of study. The highlight of the evening will be when each child presents the veteran he has studied to the entire group. A brief biographical sketch will be recited, and then (and in his own words) each child will publicly thank the veteran for all he has done for our country.

Local Women Attend AHRC Lunch

A contingent from the Tri-Town (Jericho, Syosset, Plainview) auxiliary attended the Nassau Association For The Help of Retarded Children's Annual Luncheon helping to mark that organization's fortieth anniversary.

The women, part of a thousand people who attended the affair, were the by the Tri Town ausiliar, were the by the Tri Town ausiliar, were treated, as paid-up members, to a day which featured a fashion show presenting fashions by some of America's foremost designers. Keynote remarks by AHRC member and County Executive, Thomas Gulotta, cited the volunteer efforts which had contributed to the growth of AHRC since its founding in 1949.

The organization, which grew out of a small meeting held in a Carle Place firehouse in October of 1949, now numbers over eight thousand member families, many not parents of retarded children, and is active throughout the county of Nassau carrying on its activities through twenty-four auxiliaries.

On its Brookville campus, AHRC houses a school, day treatment program and a horticultural vocational program. Sheltered workshops and vocational training centers are located in Plainview and Freeport. Plainview is also the site of an Intermediate Care Facility. Twenty community residences along with three supportive living apartments are scattered throughout Nassau County and a summer residential camp is located at Hunter. New York. At these facilities a total of about twelve hundred mentally retarded children and adults participate in AHRC sponsored programs every day.

The fortieth anniversary of the Nassau AHRC along with other units of its state organization was marked by Barbara Bush who, in a message on behalf of herself and the President, said that because of AHRC's commitment the day is closer when retarded Americans will be universally accepted and understood as full and valuable human beings. In extending her best wishes, Mrs. Bush said it was heartening to know that AHRC has helped thousands of mentally retarded men and women to realize their potential and contribute to their own and their community's well being.

Nassan County Executive Thomas S. Gulotta, left, greeted Howard Vogts, a Bethpage resident, who recently retired from his position at the Bethpage High School. The celebration was held at the Imperial Manor.

said 17-year-old Allison Block, who lives in Plainview and participated in a Masada Kibutz program. "I read my journal last week and I was like, I want to go back!" back!'

More than 700 Jewish teenagers from all over the United States, together with a combined American-Israeli staff of more than 70, took part in the summerof a lifetime.

For a six-week period, Masada campers toured Israel from north to south, east to west, exploring and learning about their Jewish heritage and their connection to Israel. From camel rides in the Negev to Shabbat in the Old City of Jerusalem, from scuba diving in Eilat to jeep rides in the Galilee, Masada participants experienced Israel in a fun-filled, exciting, and educational way.

This past summer included an added attraction: All the partici-

pants attended either the opening or closing ceremonies of the 13th anniversary Bar Mitzvah year of the Maccabiah Games. Masada's own Bar/Bat Mitzvah group of twenty-two 13-year olds actually participated in the closing cere-monies of the games at the Western Wall. It was a highlight of the summer.

But then, it was a summer full highlights. In addition to offering a full-scale tour of Israel like any other summer program, each of the nine programs of Masada of ZOA has a special focus. Each program is designed to increase the skills and knowledge of participants in a specific area of interest. Nineteen separate groups took part in one

of the nine programs. Participants of the Masada Kibutz Program spent two weeks on a Kibutz, actively learning about its Socialist ideals and about its by working alongside lifestyle by working alongside Israelis and joining in discussions and community activities. Those who opted for the Maccabi Institute for Water Sports spent two weeks in Eilat where they took a scuba diving course. Upon

completion, each participant was awarded an internationally recognized diving certificate. The Maccabi Institute for Sport Training spent two weeks developing their skills in soccer, tennis, or basketball at Kfar Hamaccabiah, one of Israel's largest sport complexes. The leadership Training Course provided dynamic seminars and workshops about Jewish history. religion, and politics. Highly motivated high school students were able to explore their Jewish roots and the realities of modern-day Israel while develop-ing leadership skills that will be useful throughout their lives.

Masada ran two programs designed specifically for univer-

sity students. Masada Student Tour Plus took students on a general tour of Israel and then gave them the option to experience Kibutz life for ten days. On Masada College Seminar Program, students spent two weeks on the Mount Scopus campus of Hebrew University. They earned two college credits after completing courses in Israeli politics and society. In addition to

specific interest tours, Masada ran its general Teenage Tour program for 14-16 year olds.

Masada had a very well prepared staff who led the groups, including seven Masada/ ZOA Schlichim. Counselors were trained in two special leadership training seminars, one in New Jersey and one in Israel, prior to the campers arrival. They were prepared for every aspect of the summer with subjects ranging from exchanging money to safety precautions, from programming

By Barbara Lewis Baseball/Softball Trophy Night

On October 20, St. Ignatius C.Y.O. held their annual Trophy Night. This past September, C.Y.O. was very saddened by the loss of one of our youths, Jennifer Gomez. Jennifer and her family have been very active in our organization for many years. President Gary Lewis presented to Mr. and Mrs. Gomez, a Memorial Award in Jennifer's memory. The award reads as follows: "Jennifer Gomez, Memorial Award," "Awarded to the sixth grade student who shows, outstanding spirit, sportsmanship and congeniality in all endeavors." We hope in some small way that Jennifer's spirit will be kept alive in this Memorial Award.

During the evening, Mrs. Audrey Andrews was standing by a table with many awards and trophies that C.Y.O. has been awarded in the past years. Many people were impressed with all awards. Our most recent awards were the 3 Sportmanship Awards presented to our 5th, 7th and 8th Grade Travel Teams, A highlight of the evening was to see, Mr. Joe Andrews with so much pride carrying the large trophy won by his team this year in the AHRC Tournament. This is the second year that our boys won this tournament, it says a lot for our excellent coaching staff. Again this year, we were very

blessed to have so many dedicated sponsors. Their sup-port is so much needed during the year. The following are our 1989

To all our sponsors our sincere appreciation.

I would like to take this time to thank everyone involved in the C.Y.O. organization for the beautiful bouquet of flowers presented to me. I got involved in C.Y.O. when my husband Gary was elected President two years ago. I started writing for the papers with all our sports highlights because I felt the organization needed the exposure. Then last year, I was elected to the position of Secretary. Our involvement in C.Y.O. has been one of many tasks. During Trophy night many people spoke, with the same message, we need your support and help; we can't say it any plainer. Get involved! The success of the organization depends on the involvement of the parents.
